## The British Dirigible R-34 Reaches Mineola After very Exciting Four-Day Voyage

### Encountered Much Fog and Passed through Electrical Storm in Bay of Funday; Travelled in all 3,600 in 108 hours; Gasoline was nearly all Gone when they Arrived.

(Special to The News via G. T. P. Telegraphs.)

New York, July 7.—Great Britain's super-dirigible R-34 reached Roosevelt Field, Mineola, state of New York, in safety at 9:54 yesterday morning after a non-stop aerial voyage of 108 hours and 20 minutes, which covered 3,600 miles, or 3,130 knots.

The R-34 was the first dirigible to cross the Atlantic. She left East Fortune, Scotland, at 1:48, July 2. She kept in touch with the land by wireless. Major Scott was in charge and he expected to reach Long Island on Friday, but was somewhat delayed by fog. Lieut.-Commander Zachery Lansdowne was aboard.

The deck of the huge ship is an eighth of a mile long and 600 men were employed in bringing the huge airship from its shed.

Mineola, N. Y., July 7.—When the super-Zeppelin arrived here she had only enough petrol to keep moving ninety minutes longer. The crew, almost sleepless for four and a half days, were weary almost to the point of exhaustion, but happy at the successful completion of the epoch-making trip.

The return voyage will probably start at 8 a. m. tomorrow.

Passing through dense banks of cloud, the sun and sea were visible only at rare intervals. The R-34 was forced to cruise 2,050 sea miles or approximately 2,360 land miles to reach Trinity Bay, Newfoundland, from East Fortune, Scotland, and 1,080 land miles from there to Mineola.

Haggard, unshaven, with eyes bloodshot from their long vigil and with care bitten deep into their faces, Major G. B. Scott and his officers showed plenty of effects of the anxious hours through which they lived while they were cruising over the far reaches of Canada and the Bay of Funday beset by fog, winds and terrific electrical storms. "It seemed as though the atmosphere was haunted by 5,000 devils," said Lieut. Guy Harris, meteorological officer.

With the R-34 long overdue, its petrol supply running low and buffeted by strong winds, Major Scott decided while over the Bay of Funday to send a wireless message to the American Navy Department to be prepared to give assistance if needed. This was merely a measure of preparedness and he did not anticipate that while the destroyers and submarine chasers were racing to their assistance the R-34 was plugging steadily ahead on her way to Mineola. Once clear of the Bay of Funday the atmospheric hoodoo which had beset their craft from the time it took the air was gradually left in the wake.

### LOCAL BALL PLAYERS BEAT METLAKATLA

Have Interesting Time During Their Visit to Ketchikan for American Holiday.

Before the game was over between Prince Rupert and Ketchikan on the Fourth of July the tide had come in as far as second base and the centre field was already covered with water. Harry Astoria had to wade out to his waist in water in order to catch one of the flies. The game was won on errors. Clementson did some good hitting for the Rupert team but when the water started to come in again only one base hit was allowed when the ball went for a swim. There were many disputes over decisions given by Umpire Clarence and the whole match ended in a none too friendly feeling between the two sides. The score closed 5 to 2 in favor of Ketchikan.

All the people from around were in town for the day and it was hard to find accommodation for the local visitors. A number of the boys slept in cots set up in the Red Cross hut. In the evening there was a very enjoyable dance given in the spacious hall. There were also dances on Thursday and Saturday nights.

Against Metlakatla the visiting team was more successful and the Rupert team carried off the honors with a score of 8 to 5. The team returned home on the Sitka early yesterday morning.

Some of the fans including Mrs. Self, Mrs. Clementson, Miss Killen and Jack Judge, returned on the Princess Alice on Saturday afternoon.

During the game at Ketchikan Manager Harvey Fraser had the misfortune to get hit across the legs when the bat slipped out of one of the player's hands. Everything was wet and in the big swing at the ball the bat slipped, hitting Mr. Fraser on the ankles. Medical services were called but it was found that no bones were broken.

### AEROPLANE HAS CLOSE CALL AT CALGARY FAIR

Presence of Mind of Capt. McCall Saved Passengers From Danger.

(Special via G. T. P. Telegraphs.)

Calgary, July 7.—Thrilled by an event which was not on the program the exhibition crowds on Saturday were given some excitement here. Capt. McCall had just made a start in his aeroplane from the centre of the field for a flight when one of the passengers in the front seat accidentally touched the throttle and the machine dropped toward the ground.

Capt. McCall by remarkable presence of mind lifted the machine from the race track where an automobile race was in progress and dropped it on the shed where it rested comfortably with no one hurt.

### ECHO OF THE DEMPSEY FIGHT

Referee Rules That Knockout Was Given at End of the Third Round.

(Special via G. T. P. Telegraphs.)

Toledo, July 7.—Because of a controversy over the duration of the heavyweight championship contest between Jess Willard and Jack Dempsey and the question whether Dempsey had been credited with a knockout, Ollie Pecord, the referee on Independence Day, made a ruling last night to the effect that Willard had been knocked out in the third round.

Referee Pecord also ruled that the fight ended at the close of the third round. It was claimed that the towel was not tossed into the ring from Willard's corner until the bell sounded for the fourth round. Willard, however, did not leave the chair to answer the call for the fourth round.

Willard has entirely recovered from the effects of the punishment Dempsey gave him and intends to move to his home in Lawrence, Kansas, as soon as the injured eye is healed.

**Boom in Mining  
In Northern B. C.**

The directors of the Dolly Varden Mines, Ltd., all went north yesterday to examine the mine and the railroad leading to it. Work on the mine has already commenced and within a very short time the first shipment will be made.

Sir Donald Mann is at present visiting the Big Missouri mine which his company has under bond from the owners. There is an immense lot of ore in sight at that mine and if the depth proves all right the option will be taken up and the mine worked next year. In the meantime exploratory work is proceeding.

At the now famous Premier Mine, formerly known as the Bush Mine, work is proceeding and preparations are being made for large shipments to be made next winter. The ore in this mine is known to be very rich and there is any quantity of it.

Many prospectors are in the hills back of Stewart and Alice Arm and in both districts many properties have been bonded for large sums. The result is that mining is booming in the north this year. The strike caused somewhat of a setback owing to the difficulty of getting in supplies, but now everything is speeding up. This will be the biggest mining year northern British Columbia has seen for some years and it is simply laying the foundation for future work of a much more extensive nature.

**Lecture Was Much  
Too Expensive.**

Just why there is any group of men and women willing to finance E. T. Kingsley to go around the country and lecture, is one of the problems no one can solve. His story told last night was childish in the extreme. He attempted to show how socialism could be brought about and he failed utterly. He was here a week putting up at the Prince Rupert Hotel and he certainly was not worth the money. He may not have been a member of the master class, but he certainly was not worth his board. His first lecture was interesting, but his second was simply tiresome. It must have cost the Socialists and their friends several hundred dollars to stage the two lectures, but it was just another example of some of the luxuries of life being much too expensive.

**Both Sides  
Distort Truth.**

The anti-Bolsheviks often distort the truth in order to make it out that the Bolsheviks in Russia are even worse than the former rulers ever were. The pro-Bolsheviks are equally keen on distorting things to prove that everything is lovely in that country and that government under a working class soviet is as near perfect as possible. Take the half way between these and something like the real truth is arrived at.

Lenin and Trotsky are rulers in every sense of the word and under them controlling the destinies of the country is a new ruling class and a very ignorant one. They are human and for that reason have all the prejudices and passions possessed by others. Some of them being ignorant have the prejudices much stronger than the former rulers, for ignorance breeds prejudice. Being fond of power they are using every possible means of holding to it. They will be no passing the buck. Lenin thinks he has a life job and will hold on to it, if he possibly can.

## BACK TO LAND SAYS KINGSLEY

Lecturer Would Break Up the Cities by Freeing the Land From Burdens.

Last night E. T. Kingsley of Vancouver gave his second lecture in the Westholme Theatre, the burden of his address being "back to the land." He told how if 75 per cent of the population, including the working class of the city and country would get together they could capture the reins of government.

When in power the first thing to do would be to release the land from all burdens of ownership and mortgage and then parcel it out as they did in Russia, give every man a piece and the cities would then fall to pieces. The capitalist class would starve unless they were willing each to take a plot of land and work too. Railways and big buildings would no longer be necessary under that system. Iron and steel and other minerals would not be necessary.

Mr. Kingsley took a long time to explain that the farmer could produce with primitive tools at least four times as much as he could use. With modern machinery he could do very much better. Most of the things which were done in the city were useless and were only for the purpose of keeping up the great ruling class.

The attendance was not very large and there was little enthusiasm, the average worker here evidently not being enthused with the idea of having to go back to the land and working without the luxuries of life to which he has been used.

## DIRECTORS WENT NORTH

Visit of Inspection of New Board of the Dolly Varden Mines.

The directors of the Dolly Varden Mines, Ltd., all went north on Saturday night en route to Alice Arm and the Dolly Varden properties. Included in the party were A. J. T. Taylor, president of the company; R. F. Buchart, who is connected with several big cement companies, two of which are close to Victoria; C. M. Rolston, of the Imperial Oil Co.; J. F. Tennor, of the Pacific Lime Co.; Walter Leek, wholesaler; Hall C. Chiene, chartered accountant, and J. S. Cowper, M. P. P., formerly editor of the Prince Rupert Daily News.

Mr. Taylor said their mine was already being worked and that in the near future the railway would be completed and they would be shipping ore.

## TWO BIG REELS AT EMPRESS THEATRE

There are two big feature stories to be shown tonight at the Empress Theatre. "The Velvet Hand," the story of an Italian peasant girl who swore the oath of the vendetta to kill the man who slew her brother.

"The Winning of Beatrice" is a comedy-drama with lovely May Allison as star. Business and romance are combined in the most attractive manner in this play. It is the story of a girl who had to make her own living and the way in which she does it is typical of the modern business girl.

London, July 5.—The Allies, according to the Daily Mail, have received assurances that the Dutch government will not refuse to surrender the former German Emperor for trial.

**Whalen Pulp and Paper Company Make Purchase at \$3.70 A Thousand.**

On Saturday Sheriff Shirley sold a quantity of logs belonging to the T. A. Kelley Logging Co. on Moresby Island to satisfy claims for wages. The sale took place at the Prince Rupert Court House.

The purchasers were the Whalen Pulp and Paper Co. who will use the logs in the pulp mill at Swanson Bay. It is understood that the rafts will be towed to their destination at once.

There were about eleven million feet in all and the only bid was that of the Whalen Company for \$3.70 a thousand, at which price they were sold. The Government officials reported that the logs were slightly injured by teredo.

**DOUGLAS FAIRBANKS IN A NOVEL ROLE**

**In "He Comes Up Smiling" the Athletic Star is a Tramp.**

From society dramas to photoplays of the road, is only an ordinary step for a screen star of the ability of Douglas Fairbanks and as a result of this versatility, the athletic and smiling Artercraft star will be seen in the role of a tramp in his newest photoplay, "He Comes Up Smiling," which will be shown tonight at the Westholme.

In the role of Jerry Martin, "The Watermelon," Mr. Fairbanks has developed a real character, filled with such whimsicalities that it fairly bristles with fun. The Fairbanksian smile and athletics are in evidence every instant and it is said the attention of the audience does not lag for an instant from the time when Jerry is seen chasing a canary until the final scene when he takes his pretty little Billy to his heart.

"The Cave of Dread" is an episode from "The Lightning Raider" and is a complete story in itself.

**DOLLY VARDEN TITLE MUST BE REGISTERED**

Vancouver, July 4.—The right of the Taylor Engineering Company to obtain registration of an absolute title to all the mines, claims and properties of the Dolly Varden Mining Company was upheld by Mr. Justice Murphy after a lengthy debate between Mr. E. C. Mayers, representing the Taylor Engineering Company, and Registrar General A. G. Smith, of Victoria.

"The Registrar's duty is as clear as words can make it. He must register these titles in the Taylor Engineering Company on production of the proofs set out in the act," said His Lordship, who informed the Registrar-General that the title given to the Taylor Engineering Company under the special act of the Legislature was a statutory title, and better than any crown grant.

**FARM LOANS FOR SOLDIERS**

**How Everyone Can Help**

**THE** Government has developed a liberal and broad plan to help soldiers settle on farms. It is securing land. It is granting substantial loans. It is obtaining advantageous prices on equipment, implements, building materials and live stock. It is providing agricultural training and farming supervision.

That is as much as the Government itself can do. But the plan needs more. It needs a community spirit of co-operation.

Already Provincial Governments, Universities, Farmers' Associations, and Veterans' Associations are giving valuable assistance. Many manufacturers and sellers of farm supplies have agreed to allow the soldier settlers special prices. Many successful farmers have willingly worked on Qualification Committees which have to pass on the applicants. Men who have had experience in lending money on farm property are serving on Advisory Loan Committees, judging land values.

But even such practical assistance is not enough. In each community farmers can be of real service to the soldier settler. They can give him advice about local conditions. They can lend him an extra horse or plough, give him a day's help at seeding or harvest time, and extend to him that friendly, neighborly, respectful spirit which he deserves.

In this way Canada is performing a double duty. It is discharging, as far as possible, the debt we owe to our soldiers; and it is adding to the country's chief industry a body of competent, willing producers.

Full information about lands and loans for soldiers will be sent on request to the Provincial Superintendent, Soldier Settlement Board,

# BEDRIDDEN WITH RHEUMATISM

Felt That He Would Never Walk Again  
"FRUIT-A-TIVES" Brought Relief.

MR. LORENZO LEDUC

8 Ottawa St., Hull, P.Q.  
"Fruit-a-tives" is certainly a wonder. For a year, I suffered with *Rheumatism*; being forced to stay in bed for five months. I tried all kinds of medicine but without getting better; and thought I would never be able to walk again.

"One day while lying in bed, I read about 'Fruit-a-tives' the great fruit medicine; and it seemed just what I needed, so I decided to try it.

The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me.

I have every confidence in 'Fruit-a-tives' and strongly recommend them to every sufferer from Rheumatism".

## FIRE DESTROYS MANY MILLIONS WORTH TIMBER

Conservation Committee's Report Gives Some Startling Figures Regarding Wealth of Province.

In the report of the Commission of Conservation on the forests of British Columbia, prepared by H. N. Whitford, Ph. D., and Roland D. Craig, F. E., under the direction of Clyde Leavitt, Chief Forester to the Commission, it is estimated that the total amount of forest land in the province is 149,344 square miles, or 42.2 per cent. of the total land area.

The report, which is a volume of over 400 pages, is the result of an investigation conducted by the Commission of Conservation for the purpose of obtaining the most accurate information possible of the extent of the forest resources of British Columbia.

Great Quantities of Pulpwood. It will be seen that of spruce, hemlock, balsam and cottonwood,

the species suitable for the manufacture of pulp, there is 170 billion feet, to which may be added about 9 billion feet of small timber which was not included in the estimate of the saw material on the coast. At 700 board feet per cord, this makes 255 million cords of pulpwood available in the province.

Of the 149,344 square miles of forest land only about one-third now carries timber of commercial value, and on 97,333 square miles of forest land the merchantable timber has been cut or destroyed by fire, according to the report. Previous to 1917, only about 30 billion feet had been cut in the province. Since most of this timber was cut on the coast, and from the heavier stands, the area logged probably does not exceed 2,000 square miles. The forests on the remaining 95,333 square miles have been devoured by fire.

The report estimates that besides the area on which the commercial timber has been completely devastated by fire, about one-half of the area still timbered with merchantable stands has suffered severely from fire. From these figures and the average stands on unburned areas, the report estimates that the amount of timber destroyed by fire in British Columbia amounts to at least 650 billion feet, or almost 22 times as much as has been cut by loggers. "If this timber had not been destroyed," says the report, "it would represent an asset to the Government, for royalty alone, of over \$325,000,000. The value from an industrial standpoint would be many times that amount."

"British Columbia can increase her cut five-fold without endangering her forest capital," says the report. From reliable data the report assumes that under reasonably effective protection from fire, five million board feet is the average annual increment for the British Columbia forests, and consequently this amount could be cut yearly without drawing on the present forest capital.
