Open Split Develops in American Athletic Union at Amsterdam in Which Charges Made by Official

AMSTERDAM, Aug. 4.—An open split developed among American amateur athletic union officials here, developments of which have been brewing and which reached its height last night when Frederick W. Rupien, following his virtual removal as field official, charged his disbarment was due to the efforts of Murray Hulbert, national president.

Murray also charges that Hulbert antagonized Canadian officials who were seeking to file a sprint protest. This protest of P. J. Mulqueen referred to one of the 100 metre heats in which George Hester of Canada, misled by chalk lines at 80 metres, stopped before he had reached the full distance.

Hulbert asserts he offered to make Mulqueen's protest but the latter became abusive and charged "prejudice" and working against Canadians.

Labor Objects to Bringing Ten Thousand British Miners to Work in the Harvest Fields of Canada

OTTAWA, Aug. 4.—Objection to the proposal by which 10,000 British workers would be brought to Canada for the harvest was expressed last night in a motion passed at a meeting of the allied trades and labor council.

The motion was urged by Tom Moore, president of the Canadian Trades and Labor Congress, who set forth that the council deemed the move inadvisable both from the standpoint of the migrants, from whom it was said, would not find sufficient winter employment, and from the standpoint of the municipalities in which they would find themselves stranded.

Mr. Moore said he thought everyone realized the importance of getting in the harvest but it was likely enough that men would be forthcoming from within the country.

Former British Labor Premier Discusses Few Problems of Old Land

Sees Conservative Party Due for Hard Blow But Admits They Are Well Organized and have Newspapers With Them.

QUEBEC, Aug. 4.—Interviewed here last night Right Hon. J. Ramsay Macdonald said, the recent agreement reached between railway employers and employees in Britain did not constitute a reduction in wages in reality because the employees had accepted the former wages, getting permanent instead of irregular work.

Commenting on the election, Mr. Macdonald said the Conservatives was due for a hard blow. The Government had done nothing toward utilizing the natural resources and attempting a real solution of the unemployment problem except within the last few months. Liberals he thought would make no headway and labor was under a handicap. Conservatives were organized for a strong campaign and had the newspapers behind them.

Commenting on immigration to this country, Mr. Macdonald said the Canadian principle of selective immigration was a good one but he thought the Canadian sieve somewhat small mesh.

GREATEST SPORT EVENT

The Olympiad at Amsterdam, the greatest amateur sport event in the world is attracting much interest and Canada is doing well so far in the events there. The victory of Williams of Vancouver was one that somewhat surprised the people of the older countries.

We are making every effort to give good reports of the big event each day. We realize that people here have a right to get the big world news as far as possible on the day it happens, and the difference in time make it possible to record the winnings in most of the races on the afternoons on which they are run off.

EXTREME VIEWS

There are people who are always ready to belittle their own countrymen. And again there are people who are always ready to back their own countrymen or townsmen right or wrong. To take either attitude is a mistake. Possibly we should back our own people until we know they are wrong but to assume they are wrong because they are our people is a mistake and also to assume that they are right because they happen to be Canadian is no good policy. It is the judicial attitude that is being generally adopted today by the best people and the clearest thinkers.

By all means let us back Canadians. Also let us back Prince Rupert people whenever possible. The fact that they are our own people is to be considered in their favor, but it is not everything.

As an illustration take the following. Yesterday it was announced that there was a disagreement at Amsterdam over the way in which Canadians there were used. Some on hearing the news at once assumed that the Canadians were wrong and should keep quiet. Again others assumed that every one but the Canadians were wrong, lining up definitely with their own countrymen.

At this distance there is little to indicate which side was right and it is well to await further developments before committing ourselves but at the same time being ready to give our own people the benefit of any doubt.

COMMON RIGHTS OF PEOPLE

Just now the Marketing Act is under discussion in the south. Under it no person has a right to market their produce except under the direction of a committee.

The question of the constitutionality of the law is to be tested before long. It has always been looked upon as one of the rights of the people under common law to sell or buy in any market within the country. Possibly this may not be so but we are inclined to think the courts will decide that the law is absolutely contrary to the rights of the British People. At any rate a good many people are dissatisfied with the working of the law and it would seem to need revision if not repeal.

ANOTHER INTERFERENCE

In Quebec they have also passed a law interfering with the liberty of the subject. A new law there states that no child under sixteen years of age may attend a moving picture theatre. The law is ridiculous on the face of it and doubtless when it is taken into court it will meet the fate it deserves.

Control of movies is necessary and reasonable control of who shall attend is very desirable but to prevent a fifteen year old boy or girl attending at all is going beyond the mark.

CHINAMAN GOES UP FOR TRIAL

CHING MING KING TO BE TRIED FOR HAVING OPIUM IN HIS POSSESSION

NANAIMO, Aug. 3.—Ching Ming King, known locally as Lum Mow, who was arrested here July 25 in connection with an opium seizure valued at \$144,000, was committed for trial yesterday in the police court by Magistrate Beaver Potts. HON. C. STEWART IS OPTIMISTIC

VANCOUVER, Aug. 4.—Addressing the Canadian Club yesterday Hon. Charles Stewart, minister of the interior, says the fortunes of Alberta and British Columbia are indissolubly linked, consequently British Columbia has no firmer friend at Ottawa than himself. So far less than twenty per cent of the mineral possibilities of the immediate future have been worked. The development in this line will be enormous. The slow growth of population should not be discouraging. It were better that Canadians should select their future citizens.

YESTERDAY'S WHEAT

VANCOUVER, Aug. 4.—The closing price of wheat yesterday was \$1.25 1/2 c. here.

SIERRA CLUB PARTY HERE

MEMBERS CLIMBED A NUMBER OF PEAKS IN CANADIAN ROCKIES FROM JASPER

Members of the Sierra Club of mountain climbers of California arrived here in a special train this afternoon and are leaving on the big C.N.R. steamer this evening for Vancouver, en route home. Members of the party are much pleased with the splendid time they had at Mount Robson and Jasper Park.

A number of peaks were climbed by members of this club, including Mount Robson. The last gesture of the Sierras was the conquest under trying conditions of Mount Whitehorn, one of the most difficult of those attempted. The climb was made Wednesday by Miss Montgomery, Norman Cline, who comes from Independence, California, John Olmstead, of Williamstown, Mass., and Dowell Whittemore, of Brooklyn, Mass. Sixty of the members overcame Mount Resplendent, which rises well above 11,000 feet, fifteen of them reached the top of Lynx, fifteen ascended Bastian, and forty climbed the Arrowbridge glacier. Gekkie was attained by eight of the party.

Man in the Moon

Plenty of people can take out false teeth but it's difficult to remove a false tongue, even at night.

Many people who are particular about the people with whom they associate are not as particular about the books they read.

New Westminster will be a sport center pretty soon. She has excelled at the National game for half a century and now she wins the Connaught Cup for football.

The aim of the Olympiad is to encourage true sport but instead of that it seems it is causing almost as much bad feeling as a war.

Big Run of Pinks Continues on Naus and Skeena Rivers—Halibut Boats Have Mishaps—Halibut Landings

So heavy was the pink run on the Skeena River this week that it was reported that some of the canneries, though working day and night, were having difficulty in handling the fish that were being delivered. The fish of this variety were reported to be even more abundant on the Naus River. With the run of sockeye disappointing in all parts of District No. 2, with the exception of the Rivers Inlet and Smith's Inlet region, the prospect is that the canneries will make up in volume with the lower grade pinks if not in proceeds. It would have been much more gratifying to both canners and fishermen had there been a better run of sockeye but opportunity is being taken to make up the deficiency, so far as is possible, with the pinks. As well as seeing for pinks trailing for some days during the past few weeks has been reported to have been satisfactory all over the district. On the whole, the prospect seems to be that the 1936 packing season is going to be more successful than the dismal failure of 1937. This prospect is doing much to enliven and stir up both canner operators and fishermen and long haul, following the 1937 season are beginning to disappear.

One of the biggest packs of the season is, according to report, being put up on the Skeena Cannery in the central division. With Inverness also doing well. Manager R. G. Johnston, who had good packs in both canneries last season in spite of poor conditions, has reason to be doubly pleased. Mr. Johnston is expected back soon from Victoria where he went for special treatment following a recent illness.

Sound in from the fishing boats with a catch of 36,000 pounds, the American halibut boat Daily, Capt. Chris Holm, had her stuffing box and after two days down, the seven members of the crew were about to abandon the vessel and take to the small boats when the New England Fish Co's motor launch came along and towed her to Skeena. The mishap occurred 125 miles west of Cape St. Elias and it was 250 miles to Skeena.

CHRISTOPHER RETURNING
After having spent a month in Vancouver having a 48 h.p. Gardner diesel engine installed, the Prince Rupert halibut boat M. M. Christopher, Capt. Alf Jauchens, is expected to return to the fisheries any day now.

Having suffered a broken crankshaft while returning to port with a catch of 30,000 pounds, the Prince Rupert halibut boat Cape Beach, Capt. Edgar Bennett, has been tied up for three weeks at Juneau for repairs. The vessel, which was picked up and towed into Juneau by the American boat Baltic, will be back fishing again soon.

Capt. Tom Hansen of the local halibut boat Kaler, stole a march on his friends on Wednesday night of August 1 when he was quietly married to Miss Edith Catherine Johnson who came out from Norway especially for the occasion. Many of Tom's well-wishers will attend their nuptials.

The big Prince Rupert halibut boat Signal, Capt. Percy Dawson, has been chartered by the Canadian Fishing Co. to pack salmon for two months to the Lagan Bay cannery at Queen Charlotte Islands during the week after having had clutch repairs effected at the dry dock.

The Prince Rupert schooner Alberta, owned by E. G. Johnson, and Billy Day, Capt. O. P. Smith, are engaged now in post packing to Muskeg Inlet cannery.

The Prince Rupert schooner Wigwag, Capt. C. C. Robinson, is engaged in towing seven of pink salmon from cannery (Meyer's Inlet) to the Lagan Bay Cannery & Packing Co's cannery at New Massett.

JOHN'S HISTORICAL STATIST
John Johnson, graduate of the Prince Rupert High School, has joined the staff of the Prince Rupert Fisheries Experimental Station in the capacity of laboratory boy.

Capt. Paul Amund, manager of the Prince Rupert Salvage & Towing Co., made a business trip to Water Canada this week, leaving Wednesday night and returning Friday morning. The trip was made at the company's power cruiser.

SANDWICH CAPTURED
A fish captured in Water Canada, to Prince Rupert but seldom seen in sandfish (trichodon-trichodon) a specimen of which was recently presented to the Prince Rupert Fisheries Experimental Station by R. Hardy who caught it in a gill net of Great Top Island. The sandfish, so named because its tail is about eight inches long. It is characterized by a mouth which is almost vertical and it has a peculiar fringe on the lips. The head has spines protruding and the color is silvery underneath with mackerel-like stripes on the back.

John Task, recently on a botanical expedition to the Queen Charlotte Islands with Dr. McLean Fraser of the University of British Columbia, is working temporarily on drums and operating as the Prince Rupert Fisheries Experimental Station before going out into the field on salmon investigation. Mr. Task, who lived as a boy with his family in Prince Rupert, is a graduate in biology from the University of British Columbia and is attached to the Department of (Nanaimo) Fisheries Experimental Station.

With proceeds estimated at about \$1,000 per month, the Prince Rupert halibut boat Prosperity A, Capt. Jack Christensen, is compared to be the high boat of the Canadian halibut fleet so far this season. The Oslo and Viking are believed to be the runner-up while a number of other Canadian boats are reported to have cleaned up well on \$1,000 per month so far this season.

Of the smaller American boats, the Argenta of Petersburg, Capt. Martin Eng, is leading with proceeds per month of about \$2,000 while the schooner Pioneer, Capt. Reginald Hansen, tops the bigger American boats with \$1,000 per month.

Halibut landings at the port of Prince Rupert for the 1936 season continue to maintain the lead over 1937 that has already been set. Up to August 3 this year landings at the port stood at 11,774,000 pounds—10,866,000 pounds American and 4,908,000 pounds Canadian—as compared with 11,571,200 lbs.—11,774,000 pounds American and 4,497,400 pounds Canadian—at a similar date last year.

During the week of July 26-August 3 inclusive a total of 76,500 lbs. was landed made up of 396,200 pounds American and 196,300 pounds Canadian. Prices, though a little lower than the week previous, were at a fairly steady and satisfactory level. The highest bid of the week for American fish was 12.6c and 7c which the August received for 14,000 pounds while the best Canadian price was 11.5c and 7c, paid the Magistrate for 4,500 pounds. Low prices of the week were 8.5c and 5c for American fish and 9.5c and 5c for Canadian.

CROPS LOOKING WELL INTERIOR

MR. AND MRS. F. G. DAWSON RETURN ENTHUSED OVER PROSPECTS FOR COUNTRY

While the hay crop was rather light in the interior this year, all other crops look excellent, mining is flourishing and the tie and pole business has been helping make things prosperous, according to F. G. Dawson who with Mrs. Dawson and Mrs. Barnes, Mrs. Dawson's sister drove from Hazelton to Prince George and back taking in the lakes country. They also picked up Miss Lorraine Grant at Prince George and brought her through with them.

Mr. Dawson says he sees considerable increase in the wheat area this year over last, the increase being a steady one each season. John Bstrom at Grassy Plains has forty acres. The general condition of the country looks better every trip.

As to mining Mr. Dawson enthuses over this particularly for he says he looks for very great things for the future in the industry. The Topley Richfield he thinks will become a big mine and the Silver Cup and others all are likely to be big things.

Mr. Dawson shipped his own car to New Hazelton and came home the same way.

THISTLES WIN SOCCER GAME

DEFEATED REGIMENT IN A GOOD MATCH LAST NIGHT BY SCORE OF 2 TO 1

Though both teams were under strength, owing to the fact that several players were working overtime at the Cold Storage plant, a good brand of football was turned in at last night's league game in which the Thistles defeated the Regiment 2 to 1. The Thistles played one man short throughout the game but, in spite of this, were good value for their win.

After missing one penalty, Alex Mitchell scored for the Thistles from the second. This was the only goal of the first half.

Percy Tinker equalized for the Regiment in the second half and Jimmy Currie gave the Thistles their winning goal.

The star of the game was Carl Brand, goal keeper for the Regiment, who made several fine saves. Thistles had the bulk of the play.

Frank Hodgkinson of the Regiment was ordered off the field in the first half for disputing with the referee.

George Russell refereed in his usual efficient and impartial manner and Alex Clapperton and Charlie Barker as linesmen.

Teams were as follows:
Thistle—M. Andrews, W. Mitchell, and J. Farquhar; G. Mitchell, T. Haddon and R. Wood; J. Campbell, J. Currie, A. Mitchell and M. Bussanich.
Regiment—C. Brand; Dick Lambe and C. J. Norrington; F. Hodgkinson, F. Hunter and A. Hodgkinson; J. Underwood, F. Russell, G. P. Tinker, Cameron and A. W. Davies.

SPORT CHAT

Canada has won her place in the league of sporting nations by her grand showing at the Olympic Sports. Williams' double success stamps the Vancouver boy as the outstanding runner of the world. The German Kornig whom he beat in the 200 metres race was sprint champion at the English Amateur Athletic Association's Championships last year and this year was out in both the 100 yards and the 220 yards at the same meet. The Canadian's showing is all the more creditable when one considers how few chances he has had of competing with first class runners from other countries.

The victory of S. J. M. Atkinson the South African in the 100 metre hurdles was indicated by his win of the 120 yards at the Amateur Athletic Association Championships at London last month. At that meeting he ran the 120 yards hurdles in 14 and 7-10 seconds which was 1-10 better than the previous British record jointly held by E. J. Thompson of Canada and Lord Burghley. Thompson holds the World's record of 14 and 2-5 seconds for 120 yards hurdles. It is difficult to say what there is in the atmosphere of the Dominion to produce champion hurdlers.

The Muldoon-Tunney Trophy for the heavy-weight boxing championship will be well looked after. A committee of twenty-six is appointed as custodians. There may be safety in numbers but it really needs only one man at present to hold it against all comers, and he is the donor of it.

When the twenty-six disagree will the matter be referred to Tunney, and will he make his decision as a boxer or as a student? He could more emphatically make the former decision one that no member would want to question.

Terminals' prospects of winning the City League for the third year in succession are brighter as a result of their win over the Thistles on Tuesday evening. But the league championship is not lost nor won yet. The Regiment team is still figuring on showing that a poor start is not fatal. The boys are out to capture the league championship too and will show no favoritism. How popular they were with the Thistles when they beat Terminals 3-0 a week ago. And how popular the soldiers will be with the Thistles if they beat the Thistles tomorrow evening. Altogether it would seem that the Regiment is the most popular team in town—I wonder. So long as they are at the bottom of the

OCEAN FALLS SOCCER VISIT NOW ASSURED

Fair Board Agrees to Give Support to Attraction During Exhibition Week.

Negotiations are proceeding for the bringing to the city during Fair Week of the Ocean Falls football team which will defend against a local team the Exhibition Cup, emblematic of Northern B. C. soccer championship, which the paper town now holds. There was another meeting last night of football interests on the matter. The meeting sent a delegation headed by Ben Self to the Fair Board asking financial support. The Fair Board agreed to co-operate in the matter.
