### Bert Hassell and His Fellow Flyer Probably Lost Off Coast Greenland on Way to Stockholm

TORONTO, Aug. 20.—Arctic seas that pound Greenland's icy shores have concealed the fate of Bert Hassell's attempt to fly from Cochrane, Ontario to Mount Evans, Greenland in the monoplane Rockford. Not since three o'clock, central Standard time, yesterday morning, has word come from Hassell and his companion, Parker Cramer, who left Cochrane at noon on Saturday on the second leg of their flight from Rockford, Ills. to Stockholm. The last message heard, a pre-arranged code letter "R" indicated that the plane was 75 miles off Cape Chidley, flying over Davis Straits and had completed approximately three-quarters of the 1600 mile flight. The plane might have reached Greenland but missed Mount Evans. In such an event it would be days before the flyers could get word out to the world if they were unable to get their radio to work.

WAS LOVER OF GERMAN SCHOLARSHIP AND THIS FOLD AGAINST HIM AS STATESMAN  
GLOAN, Scotland, Aug. 19.—Viscount Haldane, equally famous as a philosopher and statesman, former war minister, died yesterday after a long illness. He was 72 years of age. Earl Haldane is credited with the reorganization of the British army between the years of 1905 and 1914 thus permitting Britain to send a strong expeditionary force to France within a few days after the Great War began. PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 15 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

**PURCHASE**

Applications are received for purchase of vacant and unreserved Crown lands not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

**HOMESITE LEASES**

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

FUNERAL YESTERDAY OF FLORENCE PIERCE

The funeral of the late Florence Pierce, daughter of Mr. and Mrs. H. L. Pierce of Market Place took place yesterday afternoon at 2.30, the Salvation Army being in charge of the service. Service was held at the cathedral with Ensign Joyce presiding. Hymns sung were "Safe in the Arms of Jesus," "Around the Throne of God in Heaven" and "Abide With Me." The Hymn "I've Heard of a Saviour's Love" a favorite of Florence's was sung as a solo by Mrs. Joyce. The Salvation Army Dead March "Promoted to Glory" was played by Ensign Joyce at the close of the service. There was a very large attendance at the funeral service as well as at the memorial service held in the cathedral in the evening. The great number of wreaths sent were evidence of the place Florence had in the hearts of her numerous friends.

NOSE DIVE STUNTS LOCAL SPEED BOAT HARBOR YESTERDAY

Doug, Frizzell had a busy time yesterday afternoon when he tried out his new speedboat in the harbor. Speeding along in good style he made quite an impression on the habitues of the waterfront and when in trying to turn sharply he bent his rudder and nosed three times he gave an interesting performance that was fully appreciated. Returning to the floats part of the rudder was removed and the speed trials continued. Apart from nose-diving again and shipping considerable quantities of water there was little of excitement and Doug, took his latest acquisition back to the floats safely.

TRAMWAY TO BE COMPLETED IN ABOUT SIXTY DAYS AND WORK CONTINUING. The Silver Crest Mining Co., who for the past two seasons have been developing the Saddle property on Hastings Arm with such unusual success are proceeding rapidly with the construction of the aerial tramway and are also pushing development work at the mine, says the Alice Arm Herald. It is expected that the tramway will be in operation in about sixty days. This work is in charge of A. Knox formerly construction superintendent for the Granby Co. At the mine, nine miners are at work drifting on the ore vein on which a shaft was sunk last year. This drift was commenced at a point 900 ft. south from the shaft and will give a depth on the ore of 200 ft. below the vein

### SPORT CHAT

The responsibility depending on a captain of a cricket team when he wins the toss and has to decide whether he should bat or field has been strikingly illustrated in English cricket recently.

J. W. H. T. Douglas, the Essex captain, decided to bat as the wicket was wet after the rain. But the pitch became treacherous and the side was retired for 99 runs. His opponents then ran up a score of 159 for two wickets.

Guy Jackson, the Derbyshire captain, put his opponents in when he won the toss and they scored 327 runs before they were dismissed.

F. S. Calthorpe of Warwickshire won the toss and put Glamorgan into bat which they did all day and scored 418 runs for the loss of only 6 wickets.

### AROUND THE WORLD With Sport Fans (By The Tramp)

"Dixie Dean" the holder of the English League record for scoring goals in one season has refused an offer from the New York Giants team to play in New York. He was offered over \$100 per week but Dean prefers to stay in England.

Other players of note who have accepted terms offered by the New York Giants Football Team are D. McMullan, Irish International half-back, T. E. Glover of Everton, and J. E. Harrington formerly of Liverpool. McMullan is to get \$50 per week.

Cliftonville, the Belfast Amateur Irish Senior Football League team have not sanctioned the proposal of the Irish League that the price of subscribers' tickets be increased from \$2.50 to \$3.75. The late George Cochrane captained Cliftonville in 1902 and 1903 while Jack Wilson who captains the Regiment team in town also played for them in 1912.

P. Proudfoot manager of the Clapton Orient football club has been suspended for six months for alleged irregularities in management. It was said that he had tried to pre-arrange the results of certain matches.

On one of the local tennis courts this week there was considerable interest in a challenge between one of the young lady tennis stars of the city and a male opponent. The lady won and the stake of \$1 changed hands. The ladies usually get the money anyway.

### X-RAY MACHINE FOR TERRACE

CITIZENS DECIDE TO MAKE THOROUGH CANVASS OF DISTRICT TO SECURE FUNDS

TERRACE, Aug. 18.—A meeting of the Directors of the Terrace hospital association was held on Wednesday evening, the meeting being called to further arrangements for the proposed drive for funds to buy an X-Ray unit for local use. Representatives were present from the Women's Institute, Native Sons, Rebekahs, Canadian Legion, Canadian Legion Auxiliary, and Board of Trade.

Rev. Wm. Allen, president of the Association was in the chair. A letter was read from the Workman's Compensation Board, in reply to a request made to that body for a donation toward the proposed X-Ray, stating that it was beyond their jurisdiction to make such grants. They commended the directors upon the wisdom of the decision to purchase the X-Ray and suggested that substantial donations might be obtained from operators of industrial enterprises in the district.

In discussing the necessity of having an X-Ray machine Dr. Brummitt told the meeting that out of fourteen accidents cases requiring X-Ray treatment in the past few months, twelve could have been treated here had there been X-Ray facilities. By having to go to either Hazelton or Prince Rupert, more expense was entailed and in many cases much unnecessary suffering had to be endured. He assured them that there was no danger of loss in operation for basing his charges on allowances made by the Workman's Compensation Board in each instance, in the past eight and one-half months the X-Ray charges would have amounted to two hundred and five dollars and the allowances given by the Board were considerably lower than the usual fee charged in X-Ray work.

The chairman expressed the idea that the public were in sympathy with the project and that there should not be any great difficulty in collecting the remaining five hundred and fifty dollars necessary to buy, install and equip the machine. He said conditions here were very favorable for the using of a machine. The Victor representative when here had assured them that there was an abundance of electric power. Dr. Brummitt has had considerable experience in the diagnosing of X-Ray films and F. De Kerganmeaux understood the developing of the plates. He said they were working for the good of the working masses and he felt they would give their support if properly approached. Lessening of expense, of pain, of time away from home and of time off work were all factors which were appealing proofs of the advisability of owning an X-Ray machine in Terrace.

A committee of three was appointed by the chairman to arrange the details of dividing the valley into districts, and the allotments of each district to the several canvassers, also to provide subscription lists, and data in connection with the objects to be derived from the installation of an X-Ray unit, for the use of the canvassers and information for subscribers. Mrs. A. C. Head, Mrs. A. Thompson, and Rev. A. W. Robinson were named, the president and secretary also being ex-officio on the committee.

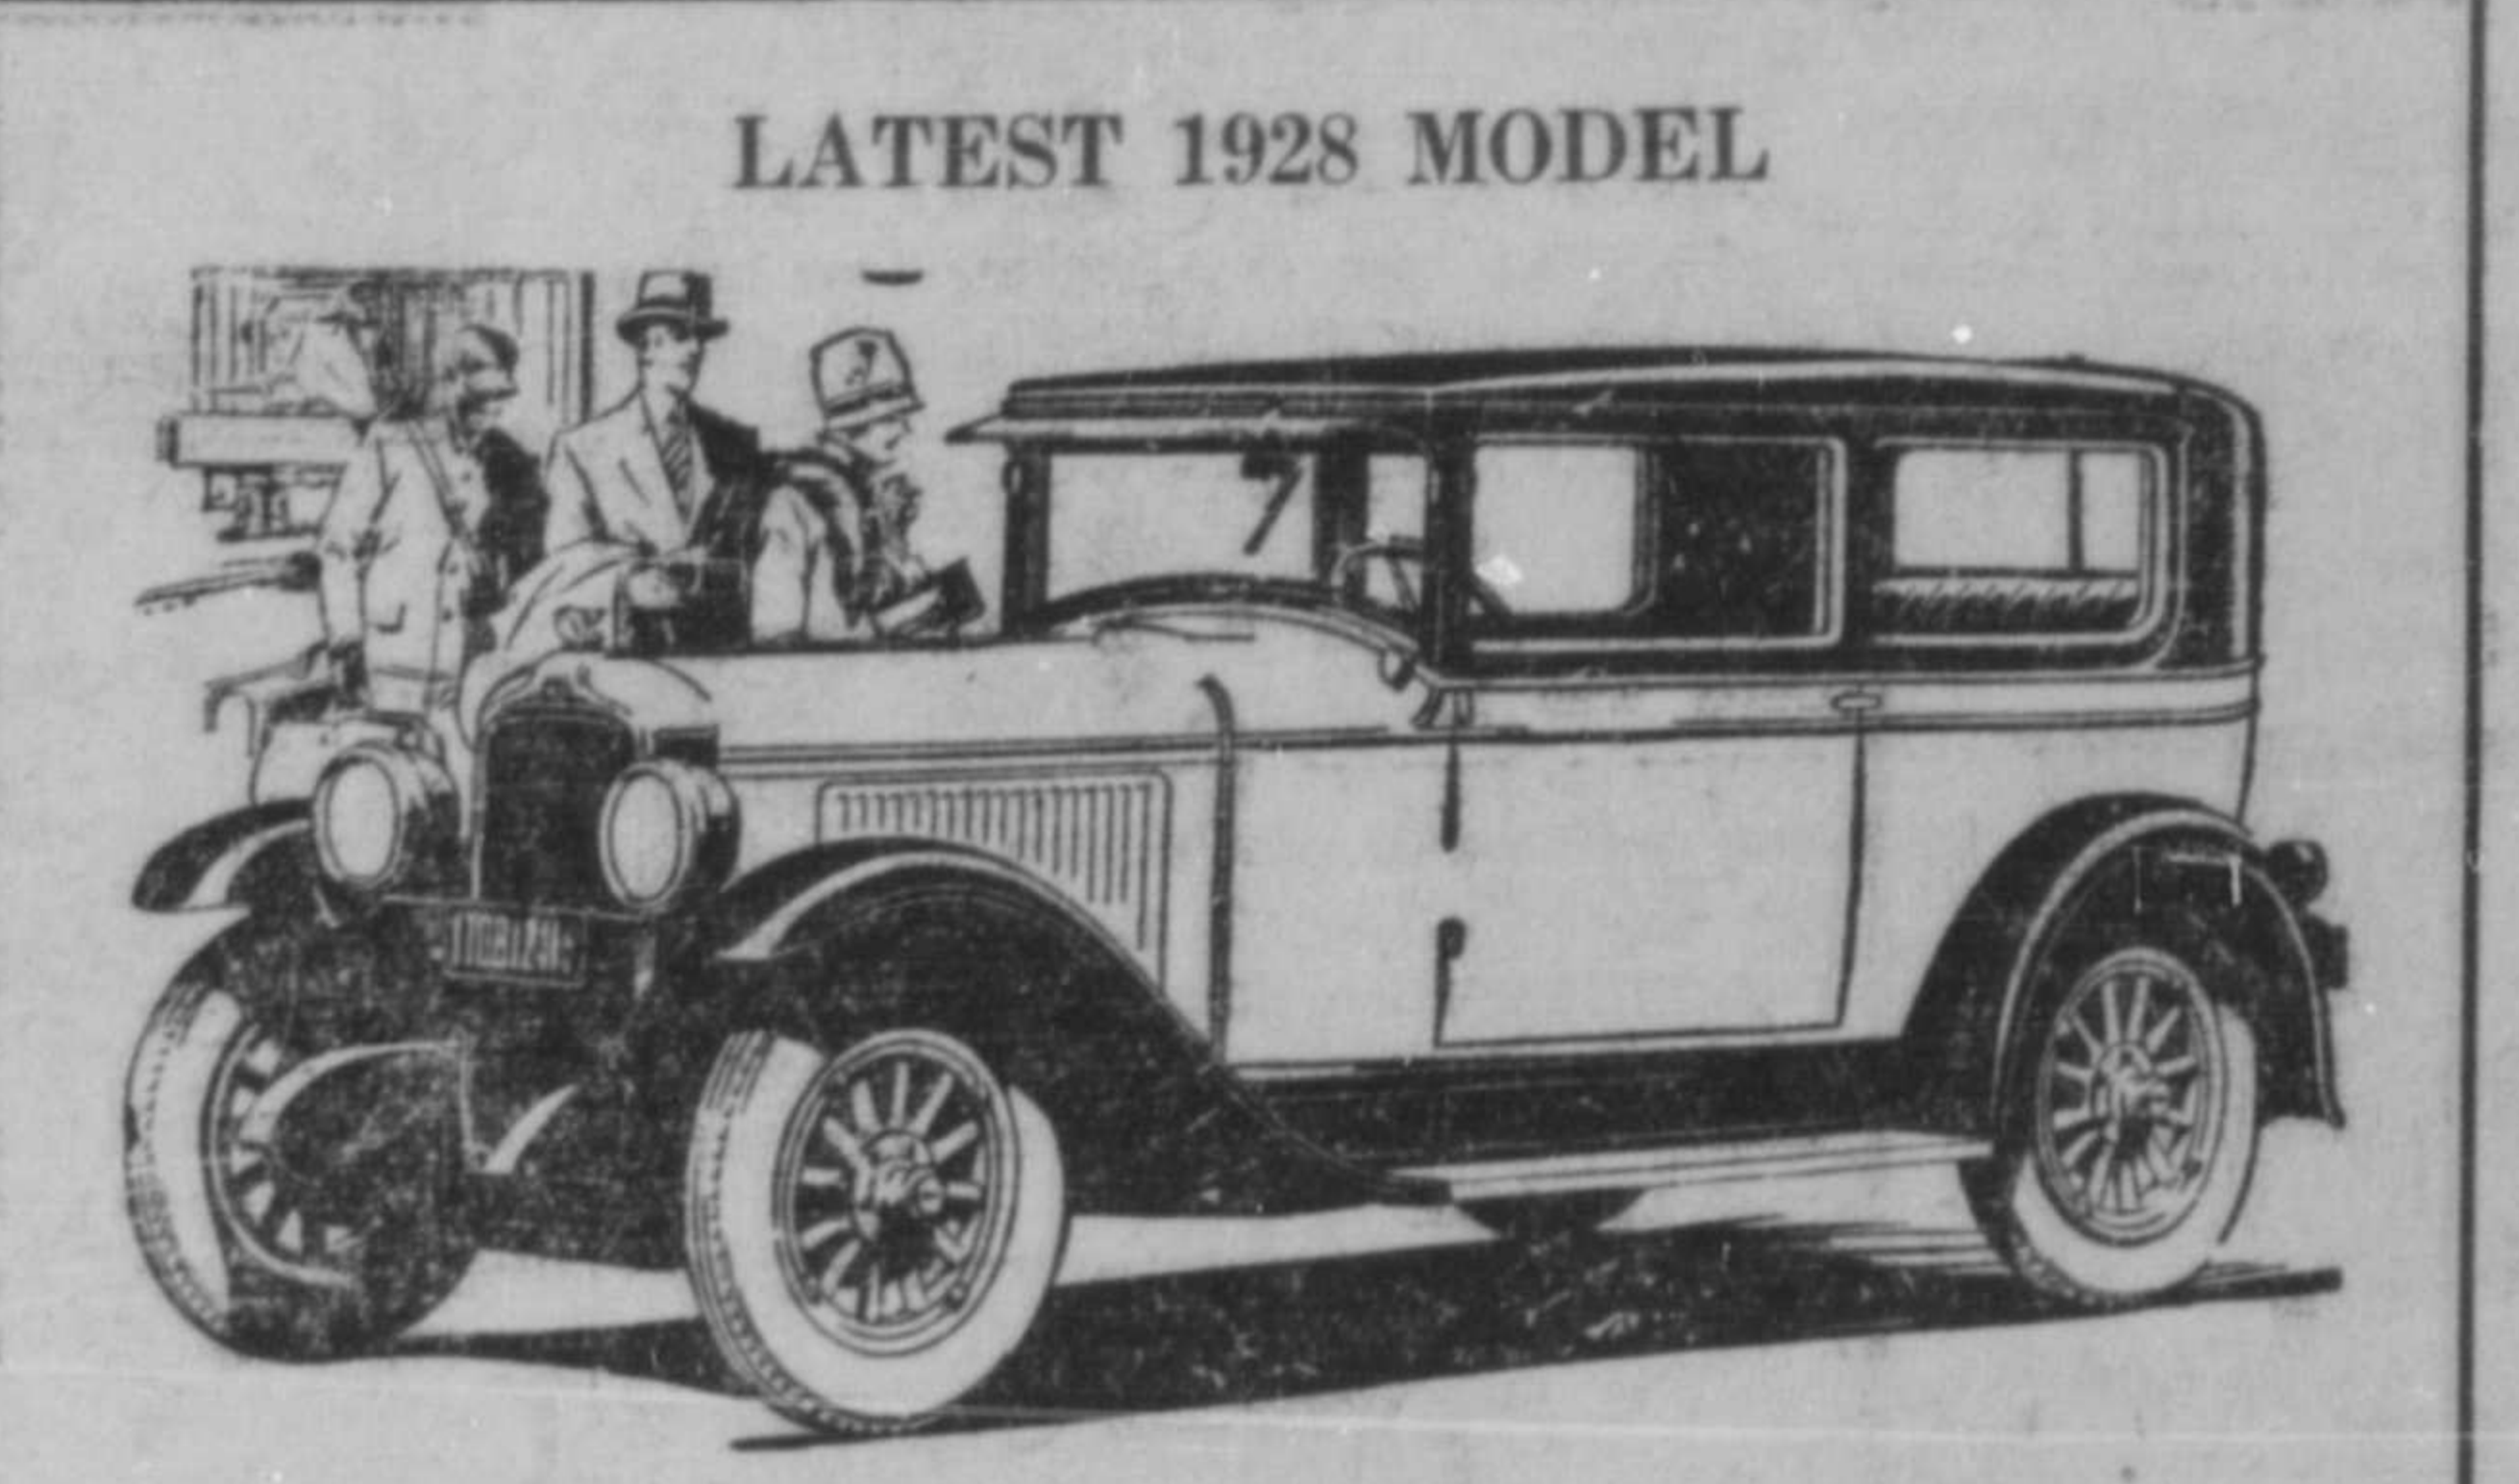

Following an early meeting of the committee, a drive for funds will be started. On Wednesday evening Capt. J. B. Colhurst started the list with a generous donation of one hundred dollars and a number of other substantial amounts have already been promised.

### COLUMBIA, A GREAT ICEFIELD

The extension of 980 square miles made to Jasper national park, Alberta, in 1927, brought the Columbia Icefield within national park boundaries. This giant icefield, one hundred and twenty-five miles in extent, which is the mother of more than a score of glaciers, is surrounded by a galaxy of giant peaks and represents the very climax of the scenic and alpine features of the Rockies.
