# CAR STRUCK STUMP---RESULTS FATAL

# OPENING OF SWIMMING SEASON SALT LAKES AUSPICIOUS

## Somersaulted 28 Feet When Car Struck Stump; Two Killed, Three Hurt

CUMBERLAND, B.C., May 14.—Charles Alfred Hanson, 21, and Lloyd Forsythe, 19, were killed and three companions severely injured when the car in which they were riding left the Vancouver highway near Sanhills below Union Bay, striking a stump and somersaulting 28 feet beyond.

The injured are Agner Hansen, whose leg is broken; Jack Forsythe, who has a sprained ankle and cuts and bruises. Both are in the hospital at Cumberland. William Ramsay is cut about the head and face and is at the hospital at Comox.

The five youths, whose ages range from 17 to 21 are all residents of Port Alberni. Charles Hansen was the driver.

## IMPROVEMENT LOG SCALING

OVER FOUR AND HALF MILLION BOARD FEET MEASURED IN MONTH

Log scaling for the month of April shows some improvement over previous months of this year, the total scale being 4,767,170 board feet and the grand total for the year so far to the end of April being 9,142,889 board feet.

The scaling of poles has been active a total for the year so far of very nearly a million lineal feet. Piles and ties have also been handled by the scalers extensively. Following is the scale for April:

Red Cedar	344,938
Sitka Spruce	2,893,403
Interior Spruce	131,784
Hemlock	1,050,326
Balsam	318,626
Cottonwood	38,092
Poles (Lin. Ft.)	410,360
Hemlock Piles	9,250
Cedar Piles	66,887
Cordwood (cords)	10
Shingle Bolts (cords)	7
Pine ties	126,048

## ELECTION MAY BE NEXT MONTH

JUNE 28 MENTIONED AS POSSIBLE POLLING DAY WITH DISSOLUTION NEXT WEEK

VANCOUVER, May 14.—The Sunday Province says: "With both the major parties holding conventions all over the province to nominate candidates for the forthcoming election, political forecasters are becoming almost certain that the campaign will reach its climax in the last week of June and those who claim to know even go so far as to assert that polling will be on June 28 with nomination day June 7."

## STAN MORAN RETURNS TO CITY WITH BRIDE

Was Married Quietly in Vancouver Last Thursday to Miss Elva Fitzpatrick

Stan Moran, well known local taxi proprietor and prominent in baseball circles here, is receiving congratulations following his marriage quietly in Vancouver last Thursday to Miss Elva Fitzpatrick of Marpole. The couple arrived in the city from the south on the Catala last evening and are taking up residence at 814 Third Avenue West.

## CRANBROOK MAN KILLED AS AUTO TURNED OVER

CRANBROOK, May 14.—Ed. Patterson was instantly killed when an auto turned over. He had been a resident here for 25 years associated with a mercantile firm.

## LARGER AREA GRAIN SEEDED

WHEAT UP IN MANY PARTS OF PRAIRIES AND PROSPECTS GOOD

WINNIPEG, May 14.—Improved weather conditions this spring will account for an increased wheat acreage according to the second weekly crop report of the Canadian National Railways. Manitoba, Saskatchewan and Alberta all report seeding well advanced and more ground seeded. Some parts of northern Saskatchewan will have double the acreage of last year. Wheat seeding is completed in some areas of Manitoba and from 50 to 60 per cent of coarse grains. Early wheat is showing above the ground. Winter rye is up and looking well.

While the northern part of the province would appreciate rain the southern and central sections do not lack moisture and the land is in excellent condition. Dry weather and wind has resulted in some drifting in Saskatchewan but there has been practically no damage. Rain is needed generally although here and there wet and frost have delayed ploughing.

Seeding should be completed this week in most places. Wheat is two inches high south of Moose Jaw. Threshing last year's crop in the districts which experienced bad weather in the fall is occupying many Alberta farmers. Between 60 and 70 per cent of the new crop is sown. The earth is in excellent condition and the weather gives promise of quick germination.

## THIBET VISIT IS DESCRIBED

CAPTAIN COLTHURST TELLS OF VISIT TO "ROOF OF WORLD" WITH COL. YOUNGHUSBAND

TERRACE, May 14.—Following the business meeting of Parent-Teacher Association held at the school house on Thursday evening, Capt. J. B. Colthurst gave a very interesting talk on "Thibet." The captain was one of the members of the British expedition which was sent into Thibet under command of Sir Francis Younghusband about the year 1900 in the hope of establishing diplomatic relations with the Thibetan government and is therefore one of the comparatively few foreigners who have ever visited Thibet or as it is often called "The Roof of the World."

By means of blackboard illustrations the speaker described the geographic situation of the country and gave graphic descriptions of the trip into the country and of the animal and vegetable life existing there. He told of the unsatisfactory educational conditions as carried on by the monks and explained their system of government. He described living conditions and showed many snapshots taken during his stay in the country. He described the Thibetans as a brave, gallant people but possessing a strong dislike of foreigners.

During their stay in the country, the Britishers were successful in establishing confidence in the British government and a good feeling existed between the two nationalities as a result of the trip, but the treaty which they had hoped to have put in effect was never signed.

FOR FLIERS: Scene outside New York City Hall at the reception to the gallant crew of the Bremen. The aviators are in the leading car.

## PHILADELPHIA MAY SECURE A HOCKEY TEAM

CLEVELAND OUT OF THE RUNNING FOR FRANCHISE IN NATIONAL LEAGUE

TORONTO, May 14.—President Frank Calder of the National Hockey League said Saturday that negotiations for the transfer of the Pittsburgh franchise to Cleveland had been practically abandoned, and Philadelphia was the most probable successor to Pittsburgh in the league.

## PROCEEDS OF SALE WAS EIGHTY DOLLARS

TERRACE PEOPLE STAGE SUCCESSFUL EVENT FOR ANGLICAN CHURCH THERE

TERRACE, May 14.—Ideal weather conditions prevailed on Saturday for the Anglican W.A. sale of home cooking, candy and aprons, held in the Terrace theatre. Following the singing of the doxology and prayer by Rev. A. W. Robinson, Mrs. T. J. Marsh declared the sale open.

Mrs. Robinson and Mrs. Marsh received the visitors during the afternoon. The home cooking tables were prettily decorated with fernery and spring flowers and were in charge of Mrs. Carr, Mrs. H. King and Mrs. Sims, with Mrs. Sparks as cashier. The tables were laden with enticing home cooking and there were many eager buyers.

Attractively decorated in pink and white, the candy booth presented an inviting appearance and was presided over by Mrs. W. H. Burnett and Mrs. A. Attree.

Mrs. C. R. Gilbert and Mrs. H. L. Smith had charge of the apron booth, which contained a great variety of aprons.

Mrs. R. Haney and Mrs. W. Chapman were assisted in the serving of tea to the many patrons of the sale by the Misses Kathleen Burnett, Helen Greig, Mabel Bishop, Edna Dover and Margaret Cook, while Mrs. Bishop, Mrs. Ross Thompson and Mrs. J. K. Gordon had charge of kitchen arrangements.

The proceeds of the sale were somewhat over eighty dollars.

Government Telegraphs report from the Yukon that ice jams are still holding at Selkirk, Isaac Creek and Coffee Creek with one between Stewart River and Ogilvie.

## Under Ideal Weather Conditions the Swimming Season Opened Yesterday at The Salt Lakes, Fifty People Going In

THE swimming season opened at the Salt Lake yesterday under ideal weather conditions. The day was as warm as is usually felt here in midsummer and the water is reported to have been quite comfortable. It is estimated that about fifty people went in. Several private boats crossed the harbor; two of the small boats of the Prince Rupert Salvage & Towing Co. were in continuous service and the Pachena made one trip.

The trip also proved ideal for pleasure and many of the vessels from the Prince Rupert Yacht & Rowing Club were out on cruises to various points of interest in the harbor and beyond.

## Big Sale of Halibut Today at Fish Exchange When 353,500 lbs. Change Hands to Local Dealers

A TOTAL of 353,500 pounds of halibut was offered at the Fish Exchange this morning, eleven American vessels disposing of 196,000 pounds at from 8.5c and 6c to 10.9c and 7c, while Canadians received from 7c and 4c to 8.5c and 5c.

## AUTO PLUNGED INTO KOOTENAY

McDONALD A REAL ESTATE OPERATOR OF SPOKANE VICTIM OF FATAL PLUNGE

SPOKANE, Wash., May 14.—Donald K. McDonald, 67, a widely known real estate operator and leading developer of this region, was killed when an auto in which he was riding plunged into the Kootenay River near Bonner's Ferry, Idaho. He was born in Nova Scotia.

## EIGHT WERE KILLED ON LEVEL CROSSING

ERIE, Pa., May 14.—Eight persons, among them a father and four sons, were killed and seven others injured near here when a train crashed into two automobiles when passing over the tracks at a grade crossing.

## Bryan Nominated by District of North Vancouver but No Delegates from City Present at Convention

Premier Urges Effort to Bring Harmony and Suggests no Hurry From Imminence of Elections

NORTH VANCOUVER, May 14.—M. J. Bryan, M.L.A., was nominated at the Liberal convention here Saturday night which was attended by 88 delegates from the district. The city association refused to send delegates.

Premier MacLean addressed the convention and said: "There is no need to hurry the choice on the score of the imminence of the provincial election. I do not know when it will come about. There is plenty of time to heal the divisions which are reported to exist and it may be that in a couple of weeks harmony will be restored. On the other hand if harmony does not prevail at the end of that time it might be good policy to call an open convention."

## EVERYTHING FINE SAYS PATULLO ON HIS RETURN HOME

VICTORIA, May 14.—Hon. T. D. Patullo, minister of lands, returned yesterday from Ottawa and continued through to Victoria. When asked in regard to the success of his mission, he is reported to have said: "I have no statement to make. Everything is fine. Everything is lovely."

## HALIBUT BOAT IS REFLOATED

ONE PULLED OFF DUNDAS ISLAND BY PACHENA AND PROCEEDS TO KETCHIKAN UNDER OWN POWER

With the use of planks and other equipment, the Ketchikan halibut June, which went on the rocks on the north end of Dundas Island, about a quarter of a mile from Halibut Island on Friday morning, was successfully pulled off at 8 o'clock Saturday night on a high tide by the Prince Rupert Salvage & Towing Co.'s tugboat Pachena and, not being badly holed with the large jock pump able to keep the water down, proceeded to Ketchikan for repairs.

When the Salvage outfit reached the scene of the stranding on Saturday, the vessel was resting high and dry on her side at a list of forty-five degrees or so. Operations to save her were commenced without delay and were soon successful. Capt. Wahlund and his crew, who had been camping on the beach, went back aboard the vessel which proceeded north under her own power.

The June was in a precarious condition and, had weather not been propitious, might have easily been lost.

## FINE RECITAL OF ORCHESTRA

MRS. BROCKLESBY, VOCALIST, AT EVENT AND OTHER INTERESTING EVENTS AT SUNDAY CONCERT

The final recital of the season of the Regimental Concert Orchestra, under the direction of Prof. H. Aubrey Pryce, was well received in the Westholme Theatre last night. There were some 600 persons in attendance and the collection amounted to \$104.04.

Possibly the "Barcarolle" and "Intermezzo from Cavalliera Rusticana" were the most popular of the orchestral numbers though "In a Monastery Garden" rivaled them.

Miss Nellie Lawrence made an excellent impression in a Dancila violin solo and gave "A Cradle Song" as an encore.

Mrs. H. N. Brocklesby was in good voice in "May Morning" and responded with "Nightingale" as an encore.

The male quartette consisting of A. Clapperton, Morris Blott, A. J. Lancaster and J. A. Teng met with a splendid reception. Their first number was "Crossing the Bar" and the encore, "Nobody Knows Like Mother."

The saxophone quartette "Our Directors," by Dave Eastman, Kenny Rodd, Rod Morrison and James Sturgeon was good, the number being repeated as an encore.

The program was as follows: March—"Juniors" (Ascher). Overture—"Light Cavalry" (Suppe). Vocal—"May Morning (Denza), Mrs. H. N. Brocklesby.

Violin solo—"5th Air Varie" (Dancila), Miss Nellie Lawrence. Characteristic "Dance of the Skeletons" (Allen).

Entr'Acte "In a Monastery Garden" with vocal effect (Keteleby). March—"On Jersey Shore" (Pryor). Male quartet—"Crossing the Bar."

"Barcarolle," from Tales of Hoffman (Offenbach).

"Intermezzo" Cavalliera Rusticana (Mascagni). Saxophone Quartet "Our Directors" (Bigelow).

Oriental—"Persian Market" (Keteleby). March—"Land of the Maple" (Laurencin).

God Save The King.

## RESCUED FROM FRASER RIVER

LADY SAYS HER NAME IS MRS. FOLEY FORMERLY MRS. THOMAS CAVEN

BRIGHTON, May 14.—A well dressed woman was rescued from the Fraser River Saturday by a young man whose name has not been ascertained. The woman first told the police she was Mrs. Thomas Caven from Victoria but later said that was her name until the death of her husband, a former member of the Legislature, but her name now was Mrs. F. Foley of South Vancouver.

It is said that Mrs. Foley will recover.

## RUTH AND GEHRIG BOTH HIT HOMERS SATURDAY'S GAMES

NEW YORK, May 14.—The Giants yielded the National League leadership to Cincinnati with Chicago and St. Louis fourth as a result of the week end games. New York still heads the American league with Philadelphia second, Cleveland third and St. Louis fourth.

Cincinnati moved to the head of the National League yesterday by defeating the Phillies, while the Giants lost their second straight to Chicago. Brooklyn broke a five game losing streak by beating Pittsburgh.

Boston broke a five-game winning streak of St. Louis Cardinals.

On Saturday both Ruth and Gehrig hit homers.

CALGARY BRAKEMAN KILLED.

CALGARY, May 14.—W. F. Moore, C.N.R. brakeman on the Goose Line branch, was killed Saturday night at his work. A wife and two sons live here.

News of the Mines

AROUND PRINCE RUPERT

Silver and Lead Values Around New Hazelton Proven—Silver Cup Mine Very Active—New Strike on Taltapin in Babine

As a result of the operations of the Duke Mining Co. at the Silver Cup on Nine Mile Mountain, it has been demonstrated that the silver and lead values in the sedimentaries go to depth, the Omineca Herald of New Hazelton states editorially. The Silver Cup has attained a depth of five hundred feet. It is in the sedimentaries. Nearly all the prospects on Nine Mile Mountain are in the sedimentaries. Besides the Cup other properties close by are the Benny (the old Silver Bell), the Silver King Fraction, the Barber group, the Hazelton claim, and the Kootenay. Then there are the well known properties, American Boy, the Mohawk on Four Mile, and the Silver Standard on Glen Mountain. The Silver Standard has proven itself to a depth of nearly five hundred feet and the American Boy has a depth of four hundred feet. There should not be any hesitation on the part of any mining company now to attack a prospect in this district at depth. The pioneer operators have gone down by degrees and proven the uniformity and the permanency of the ore. The next step is deep mining and this district is now on the verge of deep mining.

Nine Mile mountain has never yet been prospected. True, many claims have been staked on it, and some prospectors have attempted to put a blanket on the hill, and with a certain amount of success. But many of the claims have run out because no work had ever been done on them, and those that have not run out have been held by the minimum amount of work. It is a good time now for some real prospecting to be done on that hill. There is a market for anything that has any merit, and the opinion is gaining that this district, between Terrace and the height of land at Rose Lake, is going to develop one of the world's best silver-lead camps (high grade).

There has been curbed trading in Vancouver recently on the stock of the Silverbell mine, a new property in the Stewart district. The mine adjoins the Silverado on the north and runs from tidewater up to the Prosperity line. Geographical conditions are said to be similar to those on the Silverado and Prosperity. The continuation of veins from one property to the other has not yet been definitely established but there is a strong conviction that they are related.

Latest reports state that the Silver Cup near New Hazelton is now in a position to ship a carload of ore daily. As soon as the mill can be installed, it should be able to ship a carload of high grade concentrates daily without any further development. The tunnels have now been straightened out and drifting resumed for another twenty feet. In No. 3 tunnel there is about five feet of ore, one half of it being high grade and the other half milling. In No. 4 the ore has increased in width to three feet of rich ore. Several more

WHAT I MIGHT HAVE BEEN

As Told to Harold C. Borr By JOHN GILBERT

JOHN GILBERT "If I wasn't an actor, I'd be a director or a scenario writer."

"Something in pictures, of course! I'm quite sure I would have found some kind of work to do around a studio if I'd never been an actor. If I wasn't an actor I'd have been a director, if not a director then a scenario writer."

"Before me my mother was an actress. I was born in a tank town out West at a one-night stand, and appeared in support of Eddie Foy on my first birthday. That is too much heredity to overcome."

"I essayed to overcome it and failed. I sold automobile tires for seven years and hated that commercial job."

"But I tried to keep behind the camera, rather than before it—that is, I wanted to be a director instead of just an actor. Everything that I need in the way of self-expression is to be found in the moving picture business—acting, writing and directing."

"Yet to my way of thinking directing is more satisfying, more stimulating, more creative than the other two. Somehow I've drifted into the acting end of the industry, more or less permanently, I'm afraid."

"For a brief interlude I was actually a director—with a megaphone, camp chair, silk skirt, puttees and the rest of it. I got a splendid thrill out of it. It's like having the power and the knowledge to run a great machine. It's being the master of the show."

"Take, for instance, some of the details that—to me, at least—are fascinating—the human emotions that are played with, seeing the story grow under your hand, watching scene pile upon scene. These things make directing a high form of self-expression. But I believe in putting everything you've got into the job you happen to be doing—whether it's tire peddling or movie acting."

"Don't think I fall to get a kick out of my present job and its possibilities. I like to play the soul out of a part. I'd like to rip street-car conductors, clerks, crooks, sailors and prize-fighters. I want to make them live, breathe, suffer and triumph."

"Perhaps that's because in my own boyhood I came up against the seamy things. We were nomads of the theatre, my mother and I. Just to illustrate, I was born in Logan, Utah, and

baptized in Montreal, Canada, 3000 miles away. You can see a whole lot of raw life in 30000 miles of tramping, even if you are a little boy and not supposed to be observing."

"Likewise I took my schooling on the wing until my mother made arrangements for me to attend the Hitchcock Military Academy at San Rafael, Calif."

"Quitting school, I decided to turn my back on the stage. With the best of intentions I got a job with the United States Rubber Company as an office boy and worked up to branch sales manager. But the blood of my mother and the bright lure of the Klieg lights were too strong. I sought the pictures like a homing pigeon. My first job was with the old Triangle as an extra. But I was happy if humble."

"Since that start I've done some directing along Poverty Row. That's our name for a street in Hollywood where independent producers may hire fully equipped studios by the day to make their own pictures. And I still have my dream of one day becoming a great director."

LON CHANEY IN DRAMA MOCKERY

STORY OF RUSSIAN REVOLUTION WITH VERY WEIRD EFFECTS ON SCREEN

Fantastic camera effects, as strange as the makeup of the star, weird lights and shades and grim illusions; these were used to heighten the mysterious effect of Lon Chaney's latest role on the screen, in "Mockery" coming at the week end.

Under the direction of Benjamin Christensen, the famous Danish director of "The Devils Circus," and one of the world's greatest authorities on the psychological effect of light and shade in the drama, many strange effects were worked out on the screen for the first time in the new picture.

"Mockery" is a vivid drama of the Russian revolution, with Chaney in the strange role of a hermit-like peasant thrust by an odd trick of fate into the heart of the struggle between peasantry and aristocracy. The hopeless slavery of the serfs or peasants is contrasted against the life of aristocrats, and the conflagration that changed the destiny of a nation forms the background for a remarkable drama of love and sacrifice.

"THE WAGON SHOW" IS AN AUTHENTIC STORY

"The Wagon Show" is different from the ordinary formula of western pictures. It is a human authentic story of a small, early day circus travelling through Montana and Wyoming. This was the day of horse drawn wagon-shows and the continuous fight of man with the elements.

Ken Maynard, who spent fifteen years as a star stunt rider with Barnum and Bailey, Ringling Bros., and other big tent-show outfits, personally supervised the technical end of the picture as well as performing some of the most daring feats of horsemanship ever filmed.

"The Wagon Show" was written especially for Maynard and was personally directed by Harry J. Brown, who supervised all of Ken's previous pictures.

"SAILORS' WIVES" NOT MARINE STORY

"Sailors' Wives" the new First National feature showing here tonight, with Mary Astor and Lloyd Hughes featured, has nothing to do with ships and sailors. However, it is one of the most dramatic stories in which the popular "team" has ever appeared.

In book form, the novel by Warner Fabian was among the best sellers. It deals with the socially elect and con-

WEEK AT THEATRE Monday Lloyd Hughes and Mary Astor in "Sailors' Wives." Comedy "Wild Cat Valley." Paramount News. Tuesday Ken Maynard in "The Wagon Show." "Chilly Days." Paramount News. Wednesday and Thursday Fred Thomson in "The Rebel Rider." Comedy "Save the Pieces." Pathe Review. Friday and Saturday Lon Chaney in "Mockery." Comedy "Old Wallop." Aescop's Film Fables. Metro Goldwyn News.

tains emotional scenes that are certain to prove especially effective. Others in the cast are Earle Foxe, Olive Tell, Burr McIntosh, Gayde Whitman, Ruth Dwyer, Jack Mower and Bess True. Joseph Henabery directed.

"THE REBEL RIDER" STORY OF JESSE JAMES, THE OUTLAW

Jesse James, an American Robin Hood if ever there was one, has been immortalized for the generations to come in Fred Thomson's starring vehicle, "The Rebel Rider," here Wednesday and Thursday. According to the thrilling story which Mr. Thomson has screened, James was to all intent, hounded by the law for deeds he never committed. When he plundered, it was only to give to the needy. If this be true, America's boyhood now has another idol to worship.

And, talking of idols, there doesn't seem to be anyone else on the screen who quite comes up to the pedestal on which Thomson has been enshrined by film fans.

"Jesse James" marks a definite step in the right direction. Here is a Western—plus. It has all the things which are usually found in outdoor dramas—action, wild riding, gorgeous scenery, a good love story, plenty of fighting and pep. In addition to all these, it has something of value to give. "Jesse James" might well be considered an historical document. It portrays life during the Civil War with vividness. It takes us on the raids of Confederate cavalry regiments. It takes us into the camps of the Union and, in its lighter moments, it even discloses a water nymph of 1863, with her superfluous costume.

PRINCIPLES OF CHIROPRACTIC

THE FUNCTION OF THE NERVOUS SYSTEM

By virtue of its continuity, the nervous system puts into connection all the other systems of the body. Its branches form pathways over which nerve impulses pass from the brain and cord to every part of the body, and from the nerve endings to the brain and spinal cord. All incoming impulses must react in the central nervous system. It is a fact of the utmost importance that until the incoming impulses have reached the brain and spinal cord, outgoing impulses are not generated. It must be remembered that nearly all outgoing impulses are generated as a result of stimulation of the cerebral and spinal centres which send nerve fibres to the salivary glands and stomach and a flow of saliva and gastric juice results. In like manner every action performed by any part of the body is produced as a result of an outgoing impulse which was generated in the brain or spinal cord in response to an impulse from the nerve endings.

By means of the central nervous system, reactions are established in parts of the body not directly affected by changing external conditions. In this way harmony between the activities of the various systems of the body is maintained. Also the body as a whole, in relation to all things outside it and forming its environment, is under the guidance of the nervous system. If you are not feeling up to the mark, then phone Blue 85 for an appointment, or drop in to Dr. Eyllson's office at 623-3rd Avenue. Advt.

Sergeant T. Van Dyk, Game Act enforcement officer of the provincial police, returned to the city on yesterday afternoon's train from a brief trip to the interior on official duties. Mr. and Mrs. F. G. Dawson returned to the city on yesterday afternoon's train following a trip to various points in the central interior as far as Medicine Hat.

SMITH, Agent, Prince Rupert, B.C.

## MOTHER'S DAY OBSERVED HERE

SPECIAL SERMONS AND SPECIAL MUSIC IN MOST OF CITY CHURCHES YESTERDAY

With special sermons for the occasion—and, in some cases, special music, Mother's Day was generally observed in the churches of the city yesterday. People forming the large congregations were flowers in honor of their mothers and most of the churches were beautifully decorated with seasonal flowers and foliage.

In the morning at First United Church, the Canadian Girls in Training took part in the service. Miss Ella Steen, president of the group, presided and Misses Helop Sim and Victoria Krikevsky read the scripture lesson. Miss Nellie Gurvich read a paper on "The Value of Motherhood" and there was a piano solo by Miss Victoria Krikevsky. The Junior choir, which rendered the anthem "Sons of Joy" in a splendid manner, was augmented by members of the C.G.I.T. Girls took up the collection at the service which was altogether a most impressive one. At both morning and evening services, Rev. A. Wilson preached sermons in keeping with the occasion. Mrs. H. Forest sang a solo in the evening.

The occasion was observed in the morning at First Presbyterian Church when the regular church and Sunday School services were combined. The Junior choir sang suitably and a brief address on "Mother" was given by Rev. J. R. Frizell.

In the morning at First Baptist Church, Rev. W. F. Price spoke on "Motherhood." There was an open session of the Sunday School in the afternoon, the Junior Choir rendering a special Mother's Day program including recitations and solos by the scholars. The subject of the pastor in the evening was "The Sweetest Words Ever Spoken" and in this connection, he gave dramatic readings from Edgar Guest's poems pertaining to the subject. Special music was sung by the choir and soloists for the evening were Miss Besse Derry, Mrs. Charles Larkin, S. A. McPherson and Rev. W. F. Price with W. Vaughan Davies presiding at the piano.

The occasion was marked in the morning at St. Andrew's Anglican Church with a special address on the subject by Archdeacon G. A. Rix and appropriate hymns by the choir. Rev. C. O. Darby of the mission boat Western Hope preached in the morning at St. Peter's Church, Seal Cove, and took the evening service in the Cathedral.

The occasion was also mentioned at the Roman Catholic Church of the Annunciation.

## Reasons To Explain It

A lady in South Vancouver gave reasons why she likes Pacific Milk in a letter, which we really prize. Following is an extract from her statement: "1. Pacific Milk is the richest canned milk I can buy. 2. I have the lightest and most delicious cakes when made with it. 3. Put in a cool place—it keeps indefinitely and is a great boon at camps and out-of-the-way places where fresh milk cannot be obtained."

H. L. Batten, Vancouver mining engineer, who has been inspecting mining properties at Stewart, reached the city from the north on the Prince Rupert last evening and proceeded this morning by train to the Topley and other interior fields.

Father Moriarty, O.M.I. of Vancouver, who conducted a revival campaign in connection with the local Roman Catholic Church recently, arrived at the end of the week from the interior and sailed Saturday night on the Prince Rupert for Stewart.

Ten or more handsome silver cups, which will be offered in the various competitions which will be held at the Victoria Day celebration in Port Simpson on May 24, are being exhibited in the windows of Doug Frizzell's sporting goods store.

Boxing—Grand Terminal Club, May 17, at 7:30 p.m. George Bard vs Ned Byrne, Six rounds. Five good preliminaries. Reserved seats now on sale \$1.25 each. Ringside reports by special wire on McLarnin vs. Mandel fight will start coming through about 6:30. 116

R. Creelman of Winnipeg, passenger traffic manager of the Canadian National Railways for the western region, and G. A. McNeill of Vancouver, general passenger agent, are expected to arrive in the city from the south on Wednesday. They will make the round trip to Anyox and Ketchikan and either continue south or proceed East from here.

One of the items of a rather lengthy agenda to be taken up at tonight's regular fortnightly meeting of the city council will be the consideration of much delayed Street Traffic Bylaw Amendments. Alex. Prudhomme's resolution regarding completion of the trunk sewer system and the paving of Borden Street will also be discussed if it receives a second.

### BIRTH NOTICE

A son was born to Mr. and Mrs. A. Richmond at the Prince Rupert General Hospital this morning.

### NOTICE

Applications will be received by the Board of School Trustees for the position of Medical Health Officer. J. O. WILLIAMSON, Secretary.

# BRITISH COLUMBIA

## The Mineral Province of Western Canada

To the end of December, 1926.

Has produced Minerals as follows: Placer Gold, \$78,018,548; Lode Gold, \$126,972,318; Silver, \$80,787,003; Lead, \$106,976,442; Copper, \$209,967,068; Zinc, \$50,512,577; Coal and Coke, \$284,599,133; Structural Materials and Miscellaneous Minerals, \$50,175,407; making its mineral production to the end of 1926 show an

AGGREGATE VALUE OF \$988,108,470.

PRODUCTION FOR YEAR ENDING DECEMBER, 1926, \$67,188,842

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees. Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HONORABLE THE MINISTER OF MINES, VICTORIA, BRITISH COLUMBIA.

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Reports covering of the Six Mineral Survey Districts are published separately, and are available on application.

PLAN TO HONOR OWNER OF FAMOUS GARDENS

R. P. Butchart to be Offered Freedom of City of Victoria Soon

VICTORIA, May 14.—In recognition of the great public services of Mr. and Mrs. R. P. Butchart, whose wonderful gardens at Benvenuto have been generously thrown open to the public for many years and have attracted international acclaim, the freedom of the City of Victoria will be offered to R. P. Butchart shortly, it is learned.

Victoria, Saanich, Oak Bay and Esquimalt are uniting in felicitations to be made by the united districts to Mr. and Mrs. Butchart in the near future, and which will include as the central theme the offering of the freedom of the City of Victoria.

The Butchart Gardens at Brentwood in Saanich are the most famous on this continent and they are almost unreservedly thrown open to the public who do not at all times use them as should guests who are visiting them.

For many years visitors have been made welcome there and the gardens have been one of the star attractions to tourists.

**TERRACE**

Prior to her departure this coming week on an extended trip to eastern Canada and U.S.A. Mrs. O. T. Sundal was the guest of honor of the members of Knox United Guild, at an enjoyable afternoon tea given at the home of Mrs. (Rev.) Wm. Allan on Thursday afternoon. Following the serving of refreshments, Mrs. Allan, on behalf of the members, extended best wishes for a pleasant holiday trip and the gathering sang "Will Ye No Come Back Again." A piano solo by Miss Annie Allan was also much enjoyed.

The funeral of the late William H. McDonald was held from the family residence here on Friday afternoon and was very largely attended. Owing to the absence of Rev. Wm. Allan, Rev. A. W. Robinson conducted the service and Rural Dean T. J. Marsh spoke very feelingly of the sterling qualities of the deceased. Interment was made in Kitsumkalum cemetery. The pall bearers were J. W. Graham, E. S. Cole, J. K. Gordon, T. J. Kirkpatrick, E. T. Kenney and J. Martin. There were many floral tributes from sorrowing friends.

Miss Edna Dobbie nurse in training

Agreeably aged, smooth, fragrant—congenial company anywhere

A visit to Mrs. A. Akerberg of Prince Rupert.

L. R. Raley and S. J. Mayer of Smithers were visitors here at the end of the week.

F. Morris of the B.C. Undertakers, Prince Rupert, was here during the week, having charge of funeral arrangements of the late W. H. McDonald.

J. A. Delvin of Toronto was a business visitor here at the week end.

Mrs. E. T. Brooks left on Sunday as delegate from Knox United Church, Terrace, to the annual church conference in Vancouver.

Orval H. Kenney was host at two tables of bridge on Saturday evening at the home of his mother, Mrs. O. T. Sundal. The prizes for high scores were made by Miss Kathleen Burnett and Jas. Smith.

Established 1832

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia

Axel Anderson has ordered machinery for a brick manufacturing yard which he expects to have in operation here by July. An excellent deposit of brick clay about a mile from the centre of town will provide the material to be used.

The Hanson Timber & Lumber Co. has finished its spring drive of logs down the Skeena River to Cedarvale. There will be another drive in July.

The Smithers town council has commenced its walk and street improvement work for the season. Work has been applied to the intersection of Queen and Alfred Street which is usually a quagmire and a new sidewalk is to be built from the United Church to the lane near Main Street.

Miss Della Carpenter, Miss Vera Wall, Miss Agnes Erickson, Miss Vera Doodson, Miss Margaret Downie, Miss Irene McIntyre and Miss Bertha Chapman were the winners in an essay competition recently held among the pupils of the local schools by the Smithers Assembly, Native Sons of Canada.

NEW HAZELTON

Excellent progress is being made by

Maik George and other operators of the district state that the Nine Mile wagon road is in bad shape and in need of immediate repairs. The matter is to be taken up with the government.

The death occurred in the Hazelton Hospital on Monday evening of William Cochran, aged 58, who had been a patient in the institution for a month. He had a trap line for years in the Tacla Lake district and, so far as is known, is survived by no relatives.

The old mining days of British Columbia, that were so rich in output as in romance, are being revived. There is a new record in mineral production in the north American continent, in which every conceivable mineral is found. In all phases of mining—prospecting, development and production; lode mining, placer-mining, and coal-mining—the current year is witnessing a healthy and vigorous activity.

The largest increases recorded are in lead and zinc, and the province possesses the second greatest lead-zinc mine in the world. Copper, too, shows an increased production, while the every day progress of that great company the Consolidated Mining and Smelting Company in Trail, B.C., reads more like a wonderful romance than a reality.

A most significant feature of the present activity in mining is the way in which many partially developed properties and also prospects which have been lying dormant, are now being developed. Substantial progress has been made in building main trunk motor roads through the provinces, while material aids are being given in the working of mineral properties by assisting in the construction of branch roads to them. New trails are also continually being built to open up newly discovered mineralized areas for the prospector.

The British Columbia Chamber of Mines has been promoting the welfare of the mining industry for the last thirteen years. The Chamber has on exhibition an interesting collection of the great variety of minerals mined in the province. There is also co-operation with the various prospectors' associations of British Columbia.

Many towns of the province have branch chambers of mines and the classes in mineralogy and geology as well as the mining lectures have been largely attended. It is of interest to learn that there are a few women prospectors attending these lectures as will be seen from the picture. Research work, too, with regard to mineral deposits is carried on continually by the development branch of the Canadian Pacific Railway.

**PRINCE GEORGE**

The city council has made an advance in the mill rate here from 55 to 60. The shrinkage in taxable values through revaluations is the cause for the increase as well as an increased school rate.

H. V. Nelson, who has been a resident of Prince George since 1913, left this week for Fort St. John where he will make his home in the future, being accompanied by his wife and family.

The Pacific Great Eastern Railway is calling for tenders for the purchase of the boilers of the old river steamers Operator and Coneyser which have been cached near here for many years since the railway was completed.

J. O. Wilson, secretary of the Prince George Board of Trade, has been advised that the Board of Railway Commissioners will hold a session here during the coming summer.

The annual Prince George Fall Fair will be held on September 4 and 5 this year, it has been decided.

Kenneth Woods, accompanied by Mrs. Woods and child, arrived here this week from Los Angeles by motor and will be associated for the summer with his brother, Les Woods, who arrived from Vancouver, in the management of tourist resorts in this section of the province.

## BOOTH SCHOOL BEAT BORDEN

### ONE GOAL TO NOTHING IN JUNIOR LEAGUE ON SATURDAY AFTERNOON

Booth School football team won on Saturday over Borden in the Junior Football League by the narrowest margin, one goal to nil.

Borden played clever football right from the start. Kanaya and Katsujama on the wings carried play into Booth territory but Smith had little difficulty in clearing. Fisher at back stopped Dickens. Walters centred well. Collision cleared his lines and Bussanich, Dickens and Walters indulged in a good passing bout. Fong cleared. Dickens shot over. Fisher and Vaecher were strong defenders and Wilson was safe in goal. Wingham centred well and Gilker had a long try that went just wide. Wilson saved again. Pyle kicked clear. Then Borden broke away but Chonoski was stopped and then Wilson saved twice. The game was well fought out though Booth were pressing more.

With the hill in their favor in the second half, Borden had a good chance to make their first win. Wingham made a clever run but Wilson cleared. Borden attacked. Smith for Borden was clever. Booth combined well but shot weakly and Borden defence were leaving few openings. In a break-away Nakamoto hit the crossbar and Booth had a very narrow escape. Soon after an equally narrow escape let Booth off. But the latter were pressing more continuously. Pyle stopped a dangerous raid. Vaecher stopped Walters. Kanaya and Nakamoto were nearly through. Hardie and Vaecher showed neat football. Nelson was safe for Booth. And then with every prospect of the game ending in a draw Walters broke through and Booth were a goal up. Nakamoto had another attempt at putting Borden on the score sheet but just missed.

It was easily Borden's best performance and with a little more luck they would have won. The teams follow:

Borden—Wilson, Pyle and Fisher. Smith, Vaecher, Hardie, Katsujama, Fong, Nakamoto, Chonoski and Kanaya.  
Booth—Ted Smith, Collison and Nelson; Clossi, Gilker and Cross; Walters, Dickens, Bussanich, Wood and Wingham.

Jack Campbell refereed and W. Johnston and Irvine were on the line.

## Racking Headaches? Kidney Troubles?

Quickly relieved by "Fruit-a-tives"

MRS. R. TESSIER

St. Jean de Matha, P.Q.—"I was very weak, suffered from a bad case of kidney trouble and severe headaches. I was treated for a long time, but became discouraged, so decided to try 'Fruit-a-tives.' Soon I noticed a relief, and after six months my health completely returned."—Mrs. Romulus Tessier.

"Fruit-a-tives" works with nature to restore healthful action to kidneys, liver, stomach and bowels. It is made only of the intensified juices of ripe, fresh fruit and tonics which drive out poisons, purify the blood, cleanse and tone up the whole system.

Start your system working correctly with "Fruit-a-tives."

25c and 50c a box.

## CINCINNATI IS IN FIRST PLACE

### GIANTS LOST TWO GAMES AT WEEK-END TO CHICAGO CUBS AND WERE WEAK HOLD ON SECOND PLACE

(Special to Daily News)

NEW YORK, May 14.—Cincinnati Reds replaced New York Giants at the head of the National League over the week-end with a resounding thud and are now entrenched at the top with a margin of one-and-a-half games. Today sees Chicago Cubs and St. Louis Cardinals pressing the Giants even for second place with Pittsburgh Pirates and Brooklyn Robins not hopelessly behind. The Reds won on both Saturday and Sunday over the Phillies who are far down in the cellar and the Giants lost both their games to the Chicago Cubs.

The New York Yankees improved their hold on the American League supremacy by inflicting two defeats on the Detroit Tigers. Philadelphia Athletics lost twice to Cleveland Indians who have nearly wrested second place from them. Washington Senators came into the limelight again by winning both week-end games from the cellar dwelling Chicago White Sox.

The week-end scores were as follows:

**SATURDAY SCORES**  
National League  
Boston 3, St. Louis 5.  
Brooklyn 4, Pittsburgh 5.

## Around The World With Sport Fans

(By The Tramp)

From a picnic pastime softball has grown in a few years to be almost a major sport in Ontario. Parks are being used for playing the game and where not suitable are converted. Everywhere the countryside seems almost softball crazy.

Dempsey and his wife are to play in the autumn in "The Big Fight" at the Broadway Theatre, New York. The show is scheduled to open in September.

Judge Landis of Chicago who was recently visiting in eastern Canada, urged the provision of playgrounds for children where they might play games. He said: "I do not ask you to tear down your downtown business blocks to take the property and make playgrounds. But I ask you to resolve that now, from this time on, we will have places around the town for this purpose. You can get today for dollars what in ten years from now will cost thousands. And if it isn't done today you will have to face the problem ten years from now. It has to be done."

In England at girls' preparatory schools and in women's athletic clubs and in California lacrosse is played extensively by the fair sex. The Canadian colony at Los Angeles introduced the game, and there is now a women's league in that section of the Golden State. A late number of The Sphere (London) carries a picture of a lively melee in a women's lacrosse game under which the following significant, in Canada, caption appears: "A violent feminine sport; an incident during a lacrosse match at Beckenham in which the North defeated the East by 13 goals to 2. In Canada lacrosse is a popular sport among men."

## SPORT CHAT

Besides the main event, a six three-minute round bout between George Bard and Ned Byrne, an attractive dish of boxing will be served to the fans at the tournament to be held this Thursday evening under the auspices of the Grand Terminal Football Club. Other items on the card will be as follows:

Semi-windup—George Howe vs. Ernie Warren, four rounds.  
Blindfold quartette.  
George Yorke vs. Nick Gurrich, three rounds.  
Eddie Smith vs. Rudolph Nelson, three rounds.  
Ted Morgan vs. Waldo Antonelli, three rounds.

H. G. Perry has donated eleven medals for the members of the football team winning the Perry Challenge Cup this year. The cup is at present in the possession of the McBride team, and should it be won by McBride this year will become their property. There are three Prince George teams this season from which it is expected a team will be selected to meet McBride in the cup series.

## "Demers"

## Ten Years Ago in Prince Rupert

MAY 14, 1918.

The present world scarcity of fuel, it is said, should provide an excellent opportunity for the development of Northern British Columbia's coal fields.

The munitions board has purchased the entire output of the new sawmill at Seal Cove for the coming several months. E. F. Doby, the manager, who returned this morning from a business trip south, says that he expects to have the plant in operation early in June.

Negotiations are now under way between American interests and the government for the leasing of the local dry dock for the purpose of building ships.

## Man in the Moon

Any man with a reasonable amount of persistence and ability can make money. The difficulty is to spend it wisely.

The wise man is he who, while making provision for the future takes joy out of life every day as it passes.

The fishing season will be open for trout pretty soon and then I know a few people who will be happy.

If a young couple could live on advice, there would be no need for newlyweds to work.

There was a local young lady went to the beach a week ago and she has been suffering with sunstroke ever since.

The modern girl, I read, is allowed too much latitude in her dress. Still, it compensates for lack of longitude.

## WHIST DRIVE HELD SATURDAY EVENING BY ENGLISH ORDER

A successful whist drive under the auspices of the Royal Society of St. George was held Saturday evening at the home of Mr. and Mrs. C. J. Norrington, 928 Hays Cove Avenue. There were five tables and the prize winners were: Ladies' first, Mrs. C. J. Norrington; ladies' second, Miss Phyllis Way; men's first, F. J. Fuller; men's second, W. O. Viger. Dainty refreshments were served at midnight.

Another similar event will be held on the evening of May 29 at the home of Mrs. C. Brewerton, 920 Eleventh Ave. East.

# AIR LINER FOR THE TROPICS

COMMERCIAL FLYING BOAT CARRIES 15 PASSENGERS IN LUXURY AND WEIGHS NINE TONS

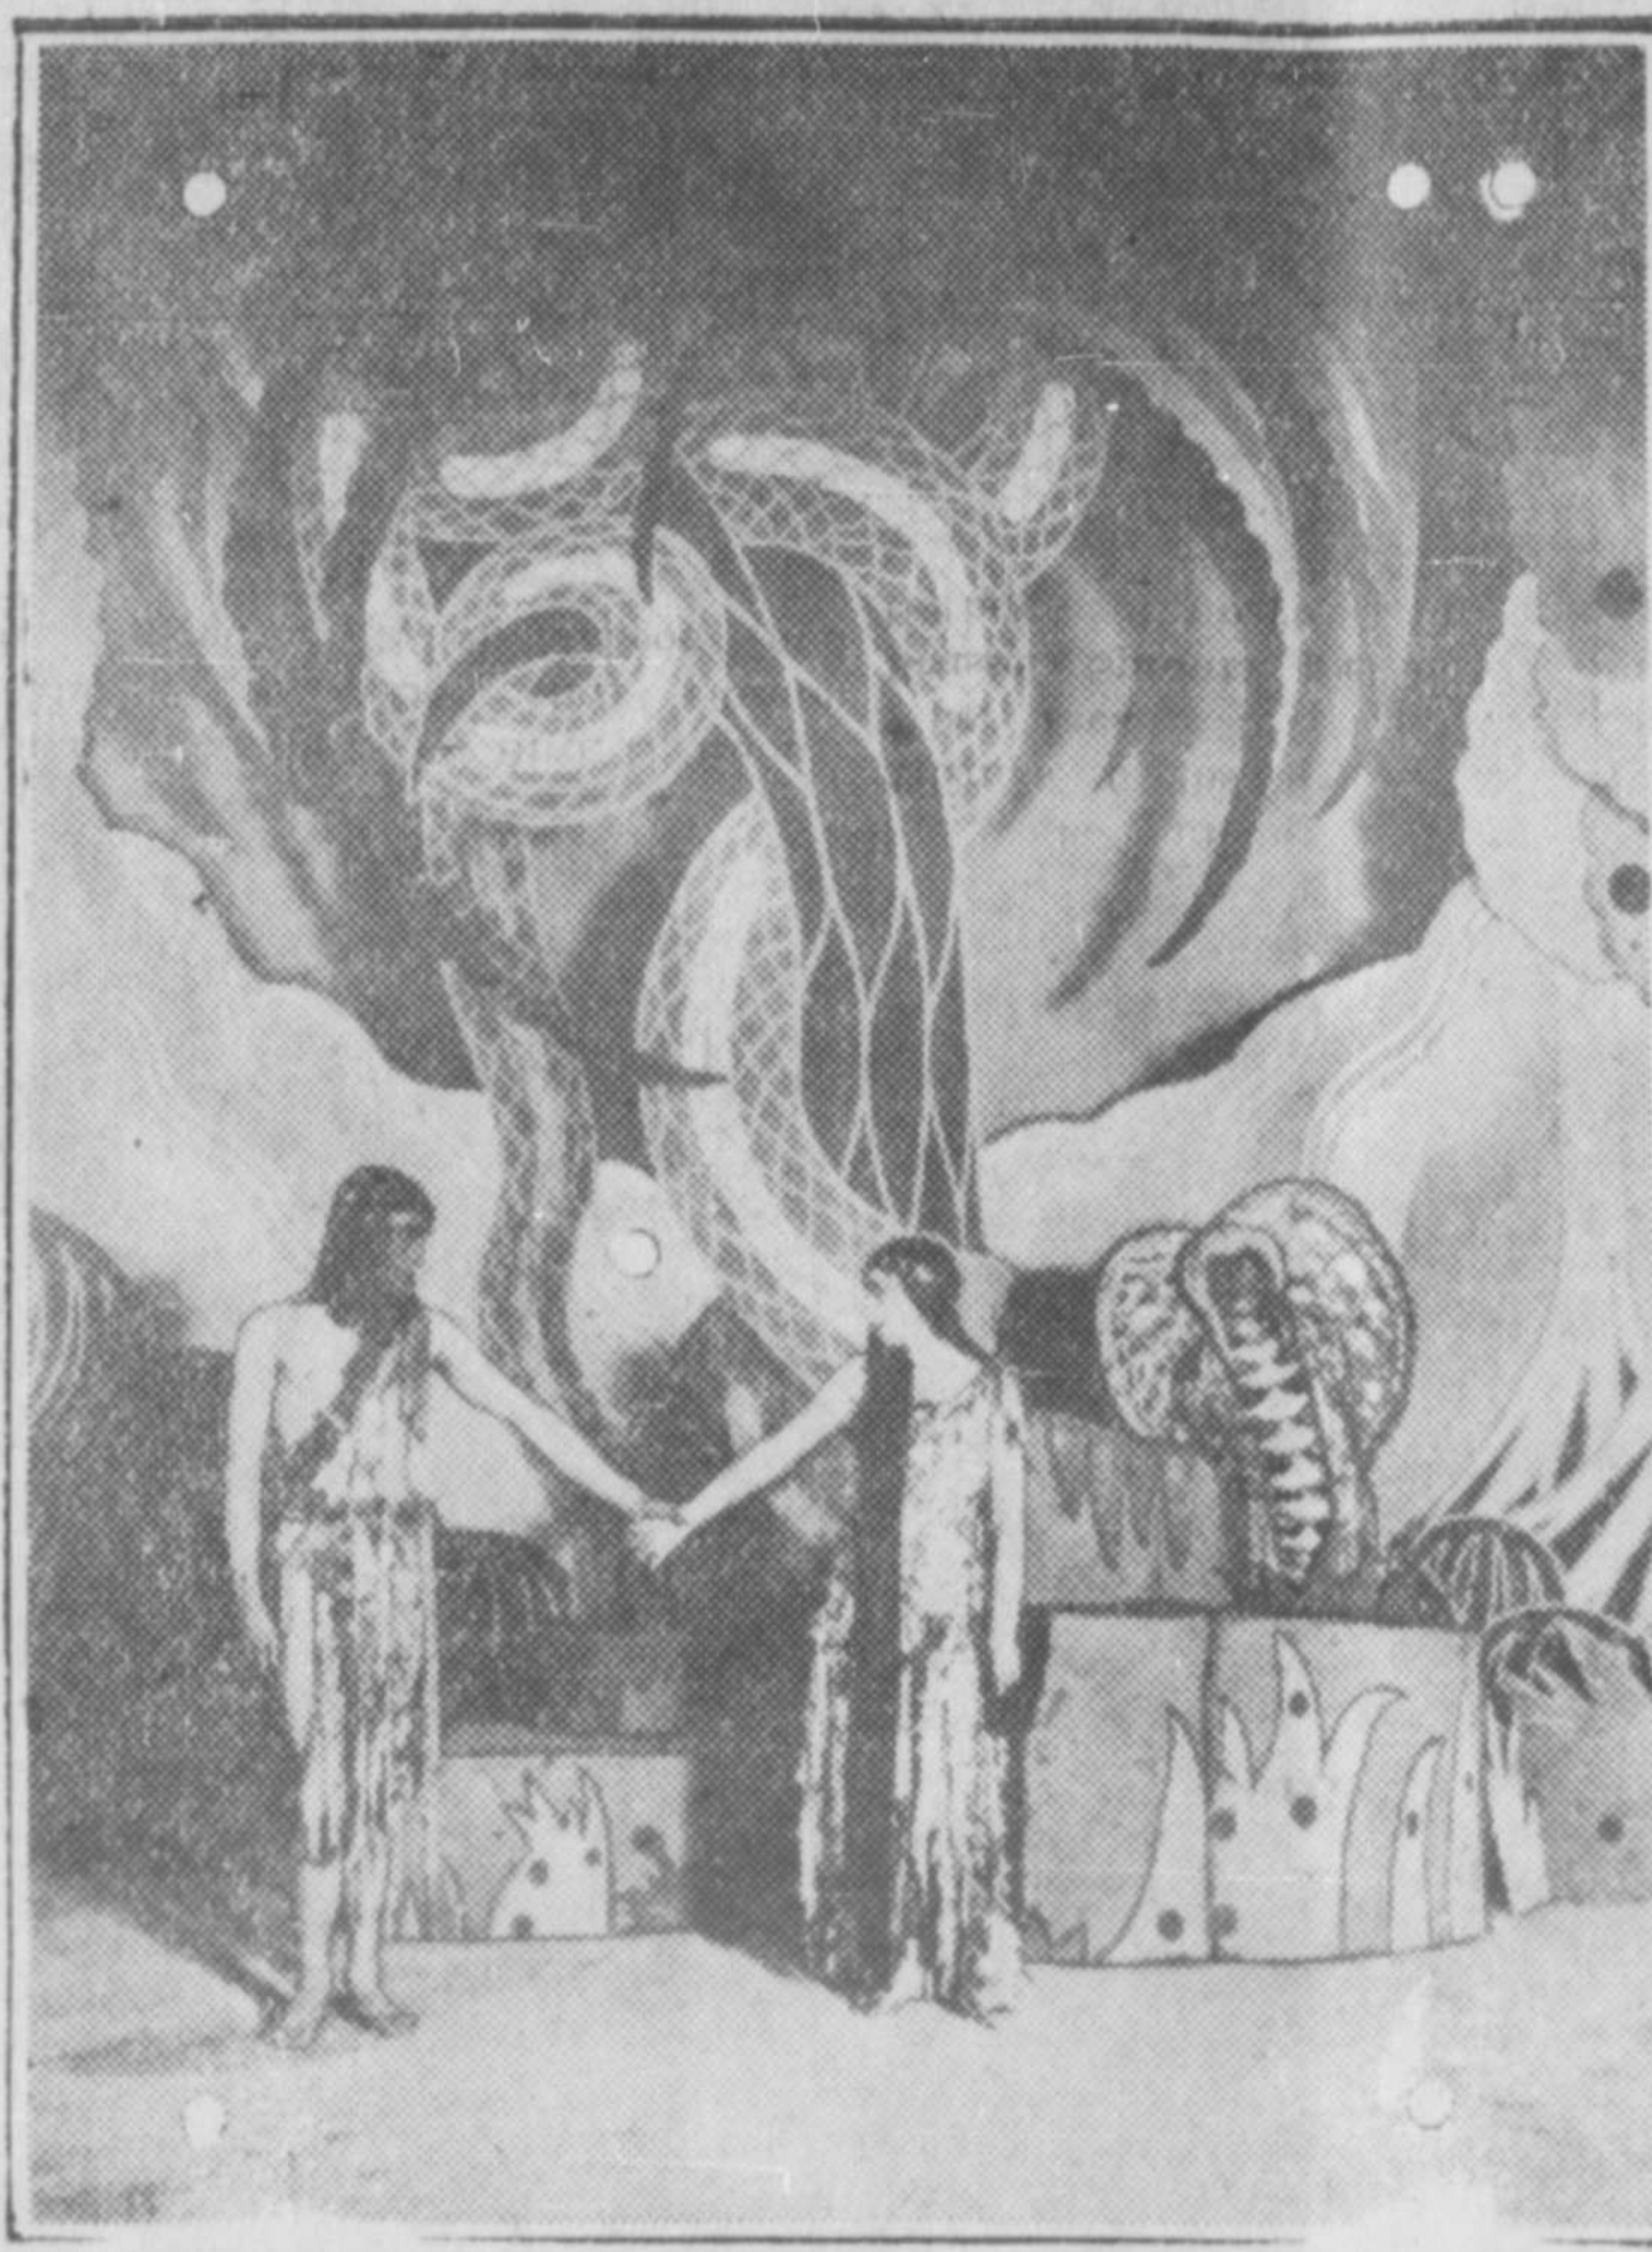

CABIN 17 FEET LONG

ELECTRIC LIGHTED, VENTILATED AND HOT AIR HEATED, AND HAS THREE POWERFUL ENGINES

LONDON, May 14.—The first British commercial flying-boat, specially designed for operation in tropical waters and seating 15 passengers in luxury, has been launched from the seaplane works of Short Brothers on the Medway at Rochester.

Known as the Short Calcutta, this new aircraft, which is entirely of metal construction, is a development of the successful Singapore flying-boat, in which Sir Alan Cobham is now flying through Africa, but, whereas the Singapore is a military boat with two Rolls-Royce Condor engines of 650 h.p. each, the Calcutta is designed to provide the maximum of passenger and luggage space, is driven by three Bristol Jupiter air-cooled engines of 485 h.p., and weighs just over nine tons fully loaded.

The cabin, which is over 8ft. wide and high, is 17ft. long, and in this are fitted 15 comfortable seats, the cushions of which serve as life preservers on the water; there are six large oval portholes on each side provided with safety glass, which afford admirable views under the wide wings of the superstructure; there are four electric lights in the

TRANSCENDANT BEAUTY IN A SHAVIAN PLAY: Critics are agog over the exotic splendor of George Bernard Shaw's play, "Back to Methuselah," which is running in London.

# SYNOPSIS OF LAND ACT AMENDMENTS

## PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

## PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial site on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

## HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

## LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

## GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free or partly free permits are available for settlers, campers and travellers, up to ten head.

# Insurance Real Estate Bonds

Miller, Court & Co. Ltd.

roof with "anti-dazzle" globes, and a ventilation and hot-air system under the control of the steward. Entrance to the cabin is by a hatchway forward, so arranged that passengers can step on board from a raft instead of having to go out to the aircraft in a small boat; and at the rear is another large hatchway, through which all luggage and stores can be loaded.

The engine nacelles are set between the wings, and include points for jibs so that engines can be slung in and out of the nacelles on the water, and fittings for an extending platform so that work can be carried out on the engines without difficulty. The engines are the latest Bristol Jupiter type, with a reduction gear, enabling a better thrust horsepower to be obtained from the airscrews without any sacrifice of the maximum engine power. A Bristol gas starter in the centre nacelle starts all three engines, and can also be used to work the bilge pump, to pump fuel into the tanks, and to work the wireless current generator when no air stream is available to turn the small generator air-screw. Navigation and anchorage lights are all fitted as part of the machine, and there is a telescopic wireless mast for use when the boat is on the water.

The Calcutta, which is the first all-metal commercial aircraft to be constructed in this country, has been built to the order of the Air Ministry, and is designed to give a maximum speed at sea level of 120 miles an hour, with a cruising speed of 100 miles an hour for a range of 500 miles, but by increasing the petrol load this can be extended to 740 miles. After the contractor's trials the boat will go to Felixstowe Seaplane station for its Air Ministry tests and then the question of its commercial use will be settled. The Indian government are now preparing the ground organization of an air route from Calcutta to Rangoon, and on such a route a flying boat of this class would prove eminently suitable in forging another link on the air mail to Australia.
