Big Strike Settled at the Canadian Vickers Big Plant 1,800 Return to work Monday

Others Who are Out Negotiating and Settlement Expected time, which is 4:10 New York Soon; Basic Trades Get 75c an hour and Laborers 45c Under Revised Schedule with 47 hour Week.

(Special to The News via G. T. P. Telegraphs.)

Montreal, July 12 .- The strike at the shipbuilding plant of the Canadian Vickers, Ltd., which has caused 3,500 employees to be idle over five weeks, was called off today as far as the trades and laborers of the Marine Federation are concerned. From -1,750 to 1,800 men thus concerned resume work on Monday morning.

The vote taken was 78 per cent in favor of accepting the amended offer of the company.

The other 1,800 strikers, chiefly boilermakers and iron shipbuilders, are still negotiating with the company. It is believed they also will reach a settlement.

The schedule and conditions agreed to in the basic trades gives the men 75c. an hour or an increase of seven cents over the previous rate. Laborers are to get 45c. an hour, an increase of ten cents over the old rate. There is to be a 47-hour week of eight and a half hours every day but Saturday, when the time will be four and a half hours.

BIG BUILDING AS MEMORIAL IN LONDON

Proposal to Erect Edifice for the Dominion at World's Metropolis.

(Special by G T. P. Telegraphs.) London, July 11 .- A joint Dominion and provincial building for Canada may be erected in London in the near future. Canadians here express their wish that some suitable monument to the Canadian dead and the part that the Dominion had taken in the war should be erected in the Empire's capital. They suggest a handsome building, prominently located would be the most suit-

BRITISH GOVERNMENT CALLED UPON TO STOP PUBLIC EXPLOITATION

(Special via G. T. P. Telegraphs.) London, July 12 .- The Govern-

ment was called upon to give a definite pledge to reduce the cost of living or resign, in a resolution passed yesterday by the national executive of the Labor party.

The resolution declared that the Government had failed to prevent the "merciless exploitation of the public by profiteers" who are charged with taking ruthless advantage of the shortage of supplies and transport.

Minister of Lands Busy for District.

We have to thank the Minister of Lands who is also the member for the district for securing that extra twenty-five thousand dollars to be spent here in house building. The mayor and Council had made application for more but it lay for the member to give the cabinet that first hand information secured through his recent visit here as to the needs of the city in the way of housing. When the minister was here he said that he hoped to be able to secure more money for the project but all depended on how much was required for the other cities and municipalities.

With thirty houses built for returned soldiers and with the large number of new buildings which are being planned by private enterprise the city should be able to cope with the local situation. (10) and eleven (11), Block 37, Section (Map) The Prince Rupert Housing, Ltd., is doing excellent work in [923] financing a number of houses, but they still have more money to loan on new buildings, all of which it is expected will be taken before very long.

There will be a shortage of houses for some time to come, oliowing extract therefrom:-possibly for years, but it is satisfactory to see that so many residents have faith in the future here and are putting some of their savings into new houses.

Attack on Methodists Quite Unwarranted.

The July number of Resources, that excellent monthly which deals so efficiently with local developments, has an unwarranted slur on the Methodists of Canada, It criticises them for asking for the abolition of the Canadian Senate. It also criticises them for being Bolsheviks.

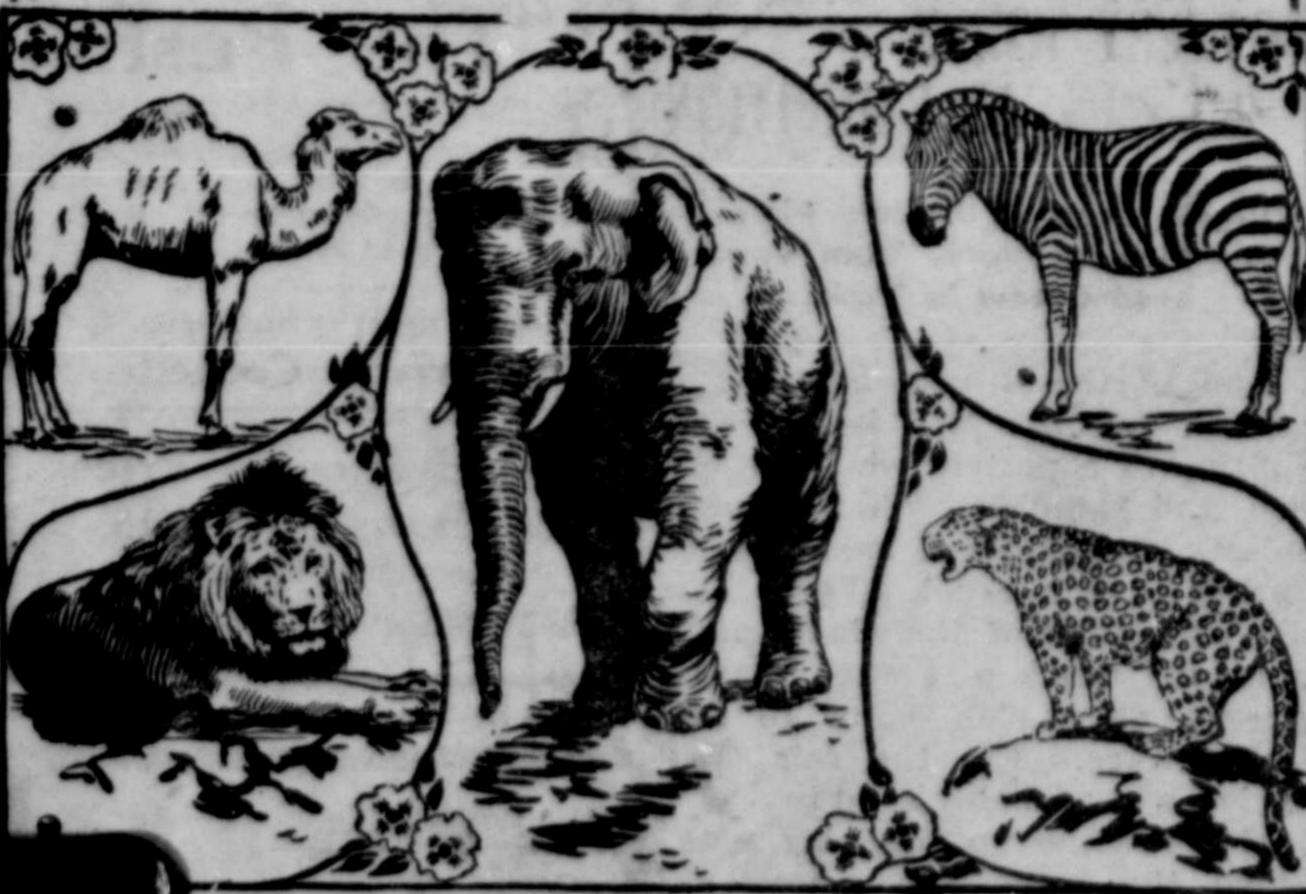

The Methodists are well able to take care of themselves and do not need a defender. It is fair, however, to draw attention to the fact that the Methodists responded to the call to arms at the opening of war with just as much alacrity as members of other er thereo churches, that the Methodist parsons are right up to date theologically and often rather in advance of the times; that they stand for the protection of the weak, especially against that insidious and dangerous enemy whiskey; that they are among the leaders in social and moral reform, and fearlessly advocate the changes which they think necessary, even from the pulpit; that they line up with the clergy of other denominations for all desirable improvements in every community; that if they look for a better to Francis F. Tupper, Esq., form of government than that which we have here now, it is only what all other thinking persons are also looking for, and if they object to the old men's home, yclept the Canadian Senate, killing the two most useful bills of the session at Ottawa, they are fully justified and will be backed by a very large majority of the people of Canada in their efforts to have the Senate abolished.

Methodists may be "poor things," but they are live things, so much alive that they sometimes get themselves disliked by the dead ones.

ALD. PERRY FIRES BACK AT

Says the Resolution They Passed Was Both Amusing and Interesting in Trying to Justify Inaction.

PLAY BATTLEDORE AND SHUTTLECOCK

Thinks Mutterings Were Dying Swan Sounds of Weakening Public Usefulness.

Alderman Perry has sent a reply to the police commissioners in connection with the question of gambling in the city and in it pours a broadside of hot shot into that worthy body. He says:

"In my letter to the Daily News of the 4th instant I explained for the benefit of the police commission and the public my remarks at the previous Monday's Council meeting concerning the police commission. I wish to add that made no such statement concerning 'taint' as attributed to me. Had I considered it necessary to do so, however, I would not have hesitated to make use of even a stronger word. I much regretted at the time that the press report misquoted my actual remarks, and my letter to the press was to put this right. 1 offer no apology to the commission for what I did say at the meeting nor for the amendment to the proposed resolution concerning the revoking of licenses under certain conditions.

Amusing and Interesting. "Your resolution of yesterday was both amusing and interesting to me, particularly as, it seems, the commission in trying to justify its inaction in the matter of making recommendation concerning the Zarelli license gets deeper and deeper in the mire of self-condemnation. The position taken by the commission, namely. 'direct instructions have given that whenever or wherever found, professional gamblers should be arrested or ordered out of town, and at the same time reflecting on the constable who made the raid on Zarelli's on his own account and not under the instructions of the chief of police, is at once untenable, illogical and ridiculous. This fact, coupled with the fact that Alderman McRae (who acted) as acting mayor at the time the commission dealt with the Zarelli raid and disagreed as to action thereon) at last week's Council meeting observed that a new chief of police is what is wanted, brings the question clearly to the front as to whether the Commission had given any instructions whatever to the chief of police in this connection. It is also obvious that painstaking efforts have been made to present Zarelli as a model card player and to throw

Power Costs Money—Conserve It

Goodyear Extra Power Belting Costs You Less Because of Longer Service—And Saves Enough Power to Pay for Itself

Industry wastes a great sum of money through inefficient transmission of power.

Belts slip—pulleys are out of alignment—bearings worn-belts too heavy or too light. And yet superintendents and managers wonder why production slows up—why costs mount.

To-day thousands of Canadian industrials have reduced their power-waste measurably through the correct application by Good-

year men of Goodyear Extra Power Belts to their drives.

Goodyear Extra Power Belts have increased power transmission in many cases to a remarkable degree.

They have provided steady, uninterrupted operation of vital machinery.

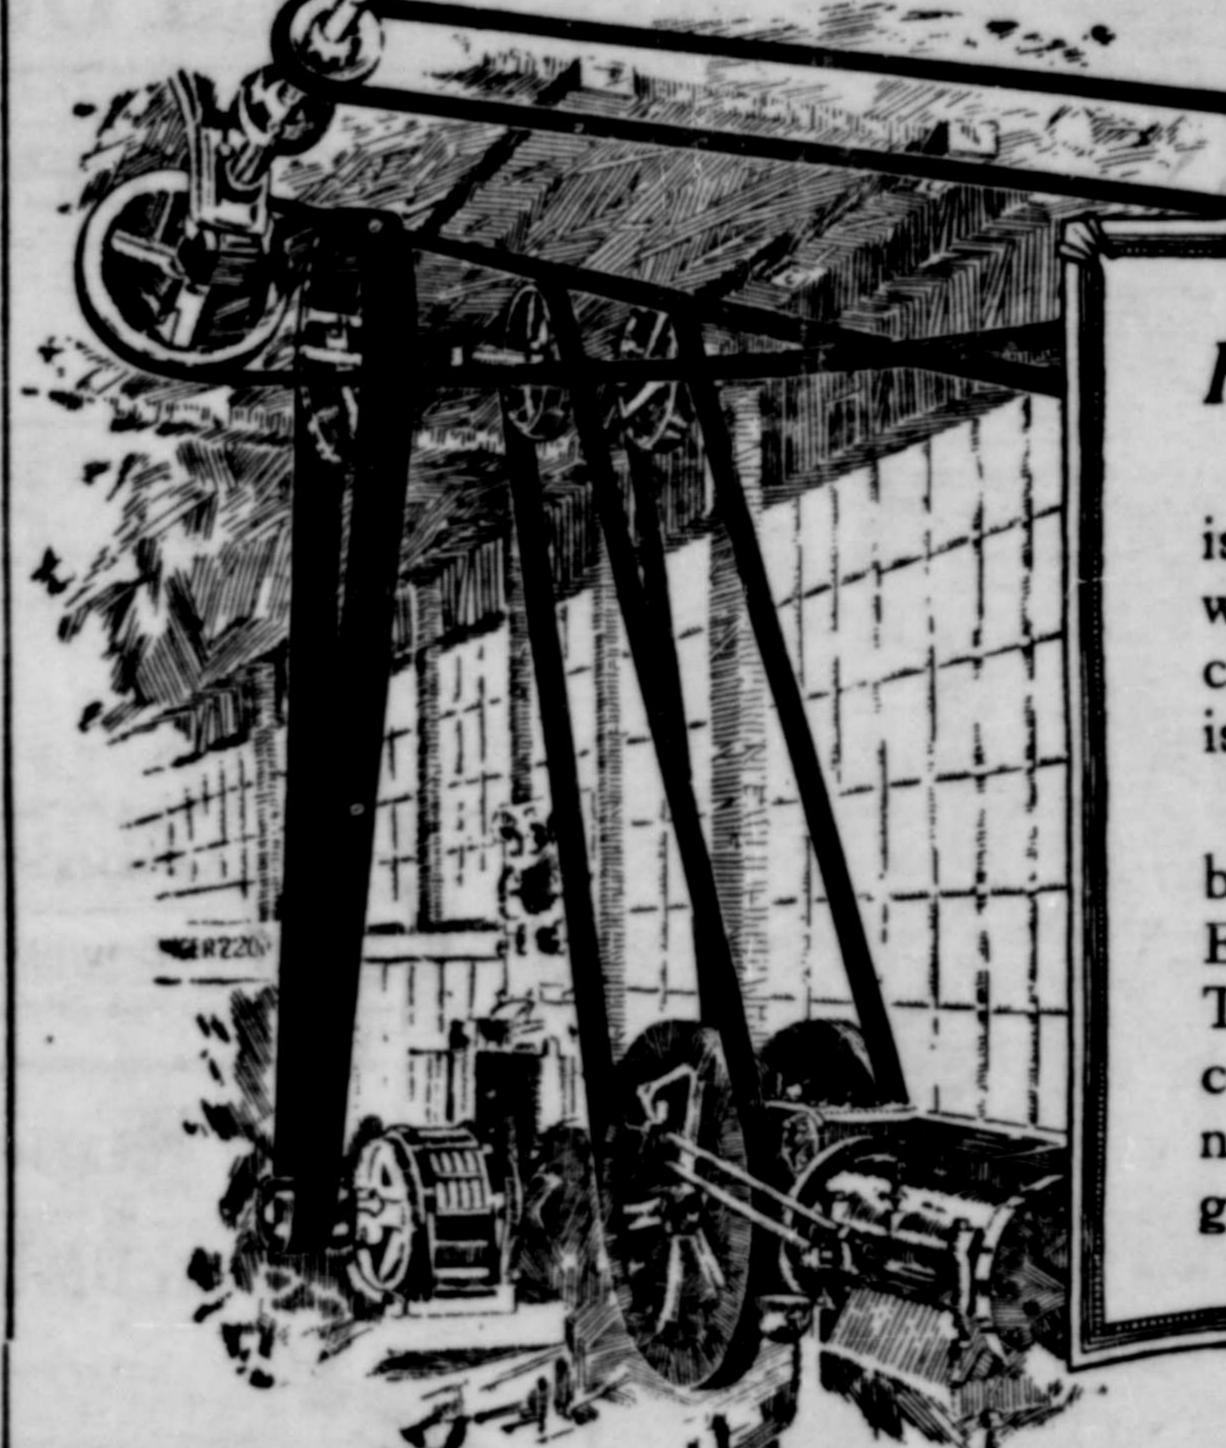

They have given long, low-cost service.

Letters on our files vouch in cold figures and warm praise for the results obtained from Goodyear Extra Power Belts.

A Goodyear man will call on you at any time you say -without obligation to you. He will record the size of pulleys, horse-power transmitted, speed, length of drive, conditions of work. And when our recommendation comes to you, it will bear the stamp of engineering ability. Phone, write or wire the nearest branch.

The Trussed Concrete Steel Co., Limited, of Walkerville, Ontario, is one of the foremost reinforced concrete concerns in Canada, as well as the largest Canadian manufacturers of steel sash and steel casement windows. Their opinion of Goodyear Extra Power Belting is pithily expressed in this letter from Mr. S. Farrel, purchasing agent:

"We have been users of different type belts for quite some time, but we have no belt which will stand wear as long as the Goodyear Extra Power Belting which we purchased from you some time ago. The photograph shows your 'Extra Power' belt in use on an air compressor. It has been in use for some time and is still as good as new, while other belts previously used lasted only two weeks. We are gradually replacing all our belts with Extra Power."

I saw a specialist, who carefully examined me and gave me several tonics to take, which did not help me. Then he told me I must undergo an operation. This, I refused to permit.

I heard about 'Fruit-a-tives' and the wonderful results it was giving because this medicine is made from fruit juices, so decided to try it.

The first box gave great relief; and I continued the treatment, taking six boxes more. Now, my health is excellent - I am free of pain and swelling-and I give 'Fruit-a-tives' my warmest thanks".
