PRINCE RUPERT COAL FIELDS SOLD WOULD CONNECT WHOLE COUNTRY BY RADIO TELEPHONE

Prince Rupert Coalfields Co. Property has been Purchased by Lord Melchett Interests

Large Industrial Development at or Near Telkwa May Result From Sale of Two Interior Properties to English Capitalists

Word has been received here that the huge coal property of the Prince Rupert Coalfields Company near Telkwa, owned in New York, and the Telkwa Collieries, owned by Jack McNeill of Telkwa have been purchased by British interests headed by Lord Melchett, formerly Sir Alfred Mond. It is also said that they are to be developed immediately and that Prince Rupert is likely to benefit very materially from the industry.

The Prince Rupert Coalfields Co. is a proved coal field in the Copper River region 36 miles from Telkwa. The whole of it has been diamond drilled and the extent of coal is well known. The only obstacle in the way of development has been the lack of a market and the large cost of opening it up. For a number of years the company interests were looked after by Thomas Jefferson of Telkwa.

It is understood that the plans of the new owners include the building of 36 miles of railway to connect the coal field with the C.N.R. at or near Telkwa. This point is only 250 miles from Prince Rupert, which would be the shipping port for the product.

The Telkwa Collieries is about seven miles from Telkwa and has been operated in a small way by Jack McNeill, the coal being marketed along the line of railway at Smithers and Prince Rupert and other points.

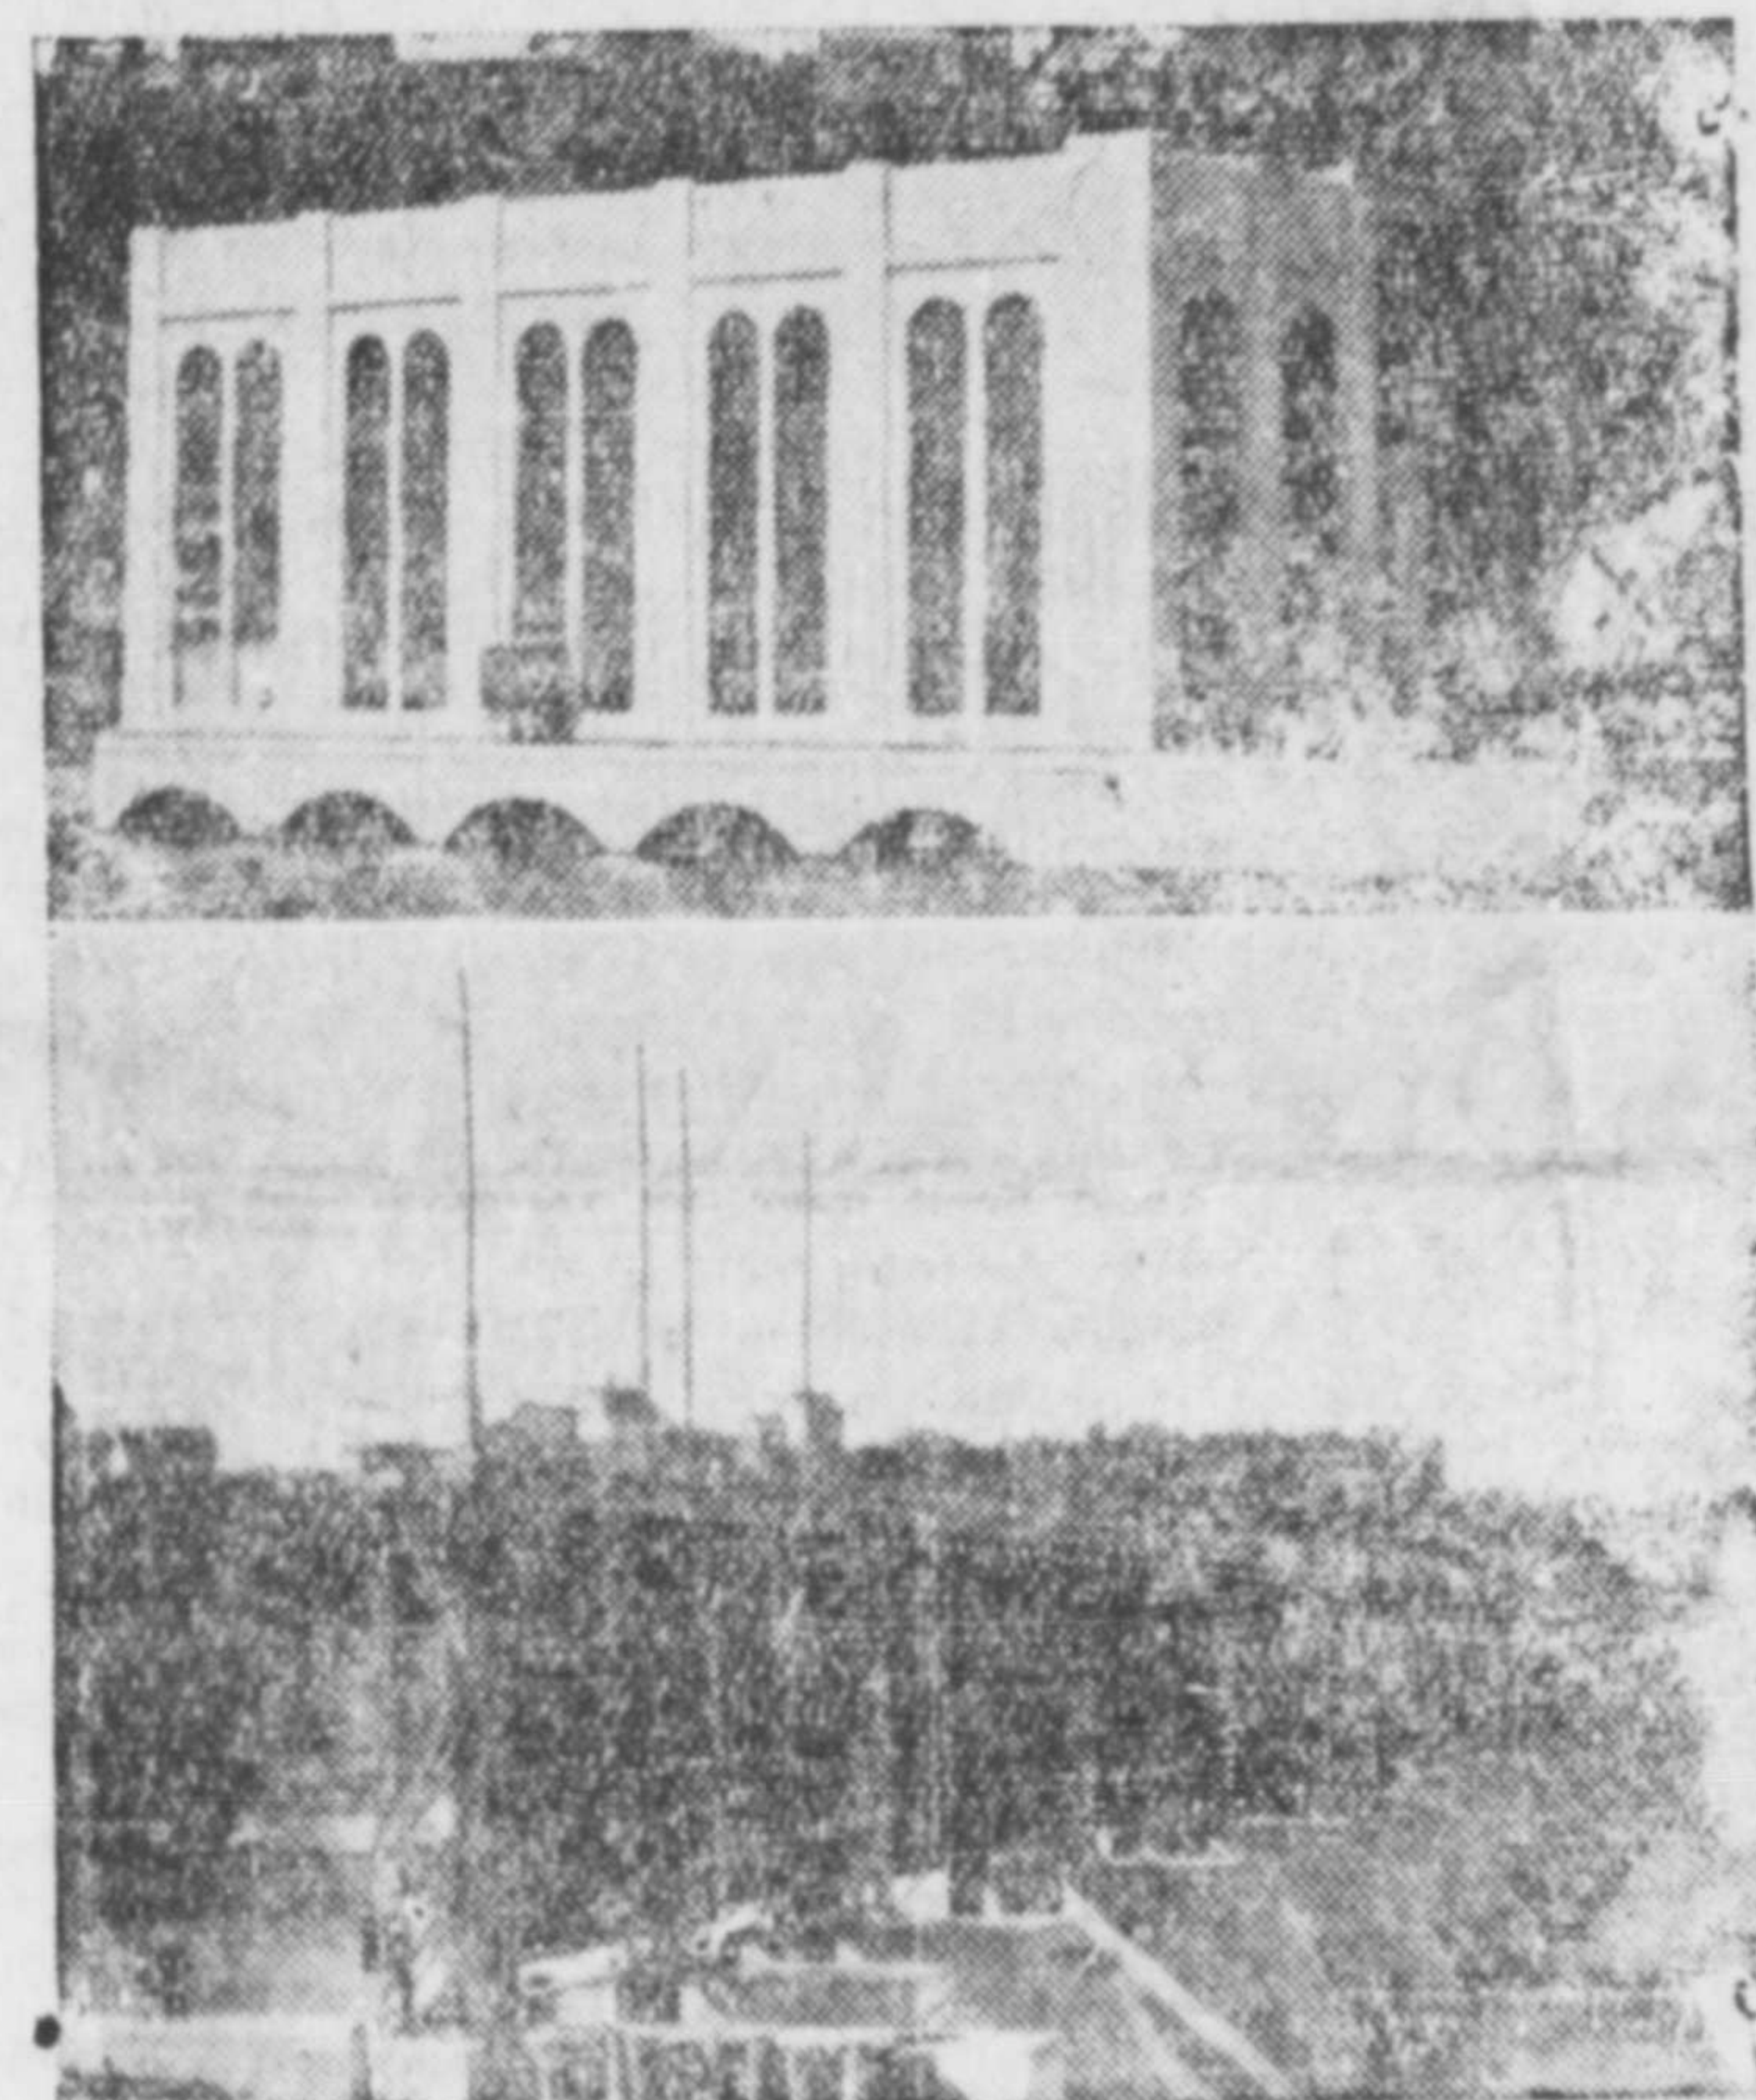

The proposal of the new owners is to manufacture benzol, ammonia, glycerine, coal tar, coke and other commodities. It is thought that a market for the coke could be developed, quite possibly in connection with the development of the Copper River iron ore deposits, which are not very far from the coal in the Copper River valley. Also the coke would be used largely for household purposes.

About a month ago two Englishmen were in Prince Rupert following an examination of the coal properties and since that negotiations have been carried on in Victoria. On Sunday Jack McNeill went south to sign up the documents for the sale of his property and it is understood the deal for both properties has been closed.

According to a news story in the Province yesterday, the sum of \$75,000 has been paid for McNeill's interests but the purchase of the larger property involves a much larger sum.

The scheme is part of the recent move of British capitalists to interest themselves in the development of Canadian enterprises as an offset to the American invasion of capital which threatened the industrial absorption of the country.

LARGE HYDRO PLANT OPENS IN MARATHIMES

The Hydro-Electric Development at Grand Falls on the Saint John River, New Brunswick, which is the largest development in the Maritime Provinces, was set in motion. Unattended by ceremony and in the presence of a group of prominent engineers the first of four units of 20,000 horse power began the output of energy after water had first been let into the tunnel, the largest water pressure tunnel in Canada.

SIR AUSTEN CHAMBERLAIN IS HONORED

Speaks of Peace in Accepting honorary Degree from Toronto University

TORONTO, Nov. 8.—The University of Toronto conferred the honorary degree of Doctor of Laws on Sir Austen Chamberlain and the degree of Doctor of Letters on Paul Claudet the French Ambassador to U.S.

Introduced as the "reconciler of Europe," Sir Austen said he believed that peace in Europe was no less than the welfare of Canada rested on the close friendship and understanding between the English and French races. No League of Nations, no Locarno agreement, no pact of peace can make war impossible, but each one makes war more perilous for the aggressor. No nation can afford to affront the moral judgment of the world. Something had been done, he thought, during the four years in which he had been connected with foreign affairs to ensure lasting peace.

B.C. Telephone Plans Connect Northern B.C. by Radio Telephones

Company Asking for a Charter to Connect Whole of British Columbia by Wireless System with Centres to South

VANCOUVER, Nov. 8.—Believing that the only feasible way to give long distance telephone service to many of the outlying parts of British Columbia is by means of radio telephone, George H. Halse, chairman of the board of the British Columbia Telephone Company, announces that plans are under way for the formation of a separate company to enter the radio telephone field. "Under its charter the B. C. Telephone Company has no power to go into the radio telephone business," explained Mr. Halse in a Statement. "It has become obvious to the executives of the company, however, that the radio telephone offers the only practical method of giving service to the many outlying points, and consequently we propose to form a separate company to carry out this work."

"The name of the new company will be the Provincial Telephone Company and a charter will be sought at the next session of the provincial legislature. The necessary advertising to comply with the legal requirements are now being published. "During the past summer I visited the West Coast of Vancouver Island for the purpose of studying the question of giving the telephone to the many industries scattered along that rugged shore. Through an arrangement with the Dominion Government it has been possible to give telephone service of a sort to some of these places over the Government telegraph

CANADA MAY BE EMPIRE CENTRE

Sir Austen Chamberlain Sees Nothing Fantastic in Proposal

TORONTO, Nov. 8.—Sir Austen Chamberlain sees nothing fantastic in the suggestion that the Capital of the British Empire might some day be at Ottawa. He was asked last night if his view of the Empire structure was sufficiently broad to visualize a Canada of the future containing a hundred million inhabitants and the seat of the Central Government of the Empire. "The head of an Empire might be anywhere," he replied. An Imperial Parliament might sit at Ottawa. It would require "a bit of legislation," but that was all.

LABOR PEER RESOLUTION

Moves That Anglo-French Proposals Grave Setback to Disarmament

LONDON, Nov. 8.—Lord Thompson, a Labor peer, in the House of Lords yesterday afternoon, moved a resolution declaring the negotiations disclosed in a white paper on the Anglo-French naval proposals "constitute a grave setback to the cause of disarmament." He declared that the state of peace existing was not the result of statesmanship but of exhaustion.

The Labor resolution in the House of Lords was withdrawn after a comprehensive outline had been made by Lord Cushenden of the government's policy. Cushenden emphasized that Great Britain had made no commitments and did not despair of reaching some general agreement on the further limitation of naval armaments.

23 REPUBLICAN GOVERNORS ARE CHOSEN IN U. S.

NEW YORK, Nov. 8.—Rhode Island and Massachusetts went definitely to Smith along with Alabama, Arkansas, Louisiana, Georgia, Mississippi, South Carolina of states in the Hoover column. Texas and North Carolina were running close. The Republicans elected 23 state governors Tuesday and the Democrats 10 including Franklin Roosevelt in New York.

RUM VESSEL IS RELEASED

SAN FRANCISCO, Nov. 8.—The rum ship Laquila, formerly the Federal ship, which was seized after a gun fight with the coastguard cutter Tamaroa, was ordered released today in an order from Washington. Doubt as to the question of registry was the basis of the release.

BALDWIN DOES NOT SAY MUCH

Announcement as to Possible Election Date is Not Very Enlightening

LONDON, Nov. 8.—"The general election may take place rather earlier than later," was Premier Baldwin's rather cryptic announcement in the House of Commons last night when he submitted a motion appropriating all of the time of the House until Easter on account of the weight of government business. The motion was resented by private members generally but was passed 174 to 136.

WASHINGTON STATE GOES REPUBLICAN

SEATTLE, Nov. 8.—Republicans swept the state of Washington Tuesday. Governor Roland H. Hartley was swept into office over Scott Bullitt, Democrat. Only two Democrats, Senator Dill and representative Sam Hill, were elected. The state ticket was returned to office while the legislature will have the usual Republican majority.

OTTAWA, Nov. 8.—Major General H. C. Thacker, Chief of the General Staff Department of the National Defence, retires on pension on January 1 upon the completion of 35 years in the permanent force. He is to be succeeded as Chief of Staff by Brigadier General A. G. L. McNaughton district officer commanding No. 11, at Victoria.

GOVERNOR SMITH SAYS WILL RETIRE FROM PUBLIC LIFE

NEW YORK, Nov. 8.—Governor Smith announced today that he never again expected to run for public office as he has had more than a quarter of a century in public life and that was enough.

AIR SERVICE IN THE SOUTH

Planes to Carry Mail and Express as Amphibians Not Adapted to Passengers

VANCOUVER, Nov. 8.—The B. C. Airways have decided to order sixteen passenger trimotored Amphibians and two eight passenger seaplanes. The Victoria and Seattle service will open before January 1 and the Vancouver, Nanaimo and Victoria service later.

It is stated that the company will concentrate on air express and mail service as it is considered that the Amphibian is commercially unadapted to carry passengers profitably.

FIRE ABOARD PRINCE JOHN

NORTH VANCOUVER, Nov. 8.—A fire in the engine room of the Canadian National steamer Prince John was today extinguished after hard hours of struggle. Smoke belched from the decks and it appeared that the ship was doomed. She was at Burrard dry dock plant for installation of new boilers.

FOURTEEN DIE IN EXPLOSION

Holocaust in Lynn, Massachusetts Factory This Morning

LYNN, Mass., Nov. 8.—Fourteen persons are known to be dead, nine are in a serious condition and several are believed to be missing as the result of an explosion which wrecked the plant of the Preble Box Toe Company, manufacturers of box toes for shoes, this morning. Firemen were searching for ruins for more bodies.

Mrs. LILIA Blaney and her four children were killed when sheets of flame leaped from the factory 20 feet to the adjoining house, burst through the window and enveloped the family at the breakfast table.

There were a series of explosions in the celluloid mixture used in the manufacture of box toes, the first at 7.35 in which one end of the one story concrete block building was blown out. The flames scorched many nearby buildings and the occupants of nearby homes were shaken from their beds.

Mack also has asked waivers on Joe Bush, veteran pitcher.

DISORDER IN LEGISLATURE

MELBOURNE, Australia, Nov. 8.—Scenes of disorder, unparalleled in the parliamentary history of the state of Victoria, occurred at the legislative assembly today when Sir William McPherson, leader of the opposition, moved a vote of non-confidence in the ministry of Premier Hogan. The Government was charged with failure to appoint additional police to protect the community from violence arising out of the recent waterside workers strike.

An organized party of women in the gallery repeatedly interrupted the opposition leader, shrilly attacking the opposition, and Premier Hogan alike. Finally ten of the women were removed by order of the speaker.

FOR SWOLLEN JOINTS

Most remedies fail but Joint-Ease succeeds.
It's for joint troubles only, whether in ankle, knee, hip, elbow, shoulder, finger or spine—whether rheumatic or not. It humbers up stiff, inflamed, painful, weak joints, so quickly you'll be astonished.
Two seconds' rubbing and away it goes through skin and flesh right down to the bone and ligaments—that's why it succeeds. Ask any reliable druggist.

U. S. ELECTIONS

It is difficult even yet to discuss intelligently the recent United States election campaign which ended so disastrously for the Democrats. What seems clear is that the personal popularity of a candidate does not count for as much in a national election as in that for a smaller area because few of the ninety million people of the country are able to meet the candidate personally and therefore personality has little effect.

Most people heard the candidates speak over the radio but the radio does not carry the magnetic appeal.

THE NEW PRESIDENT ELECT

The new president elect is probably the better choice and the people of the United States seemed to know that. He is an administrator of great ability as proven during the time he had charge of the arduous duties of food controller. It is said that his photographs do not do him justice. There is something about them all that is objectionable although the something is hard to define. It is said that this is not noticeable in the man.

The American people have been particularly happy in the men they have chosen for the presidency and on this occasion they seem to have made no mistake.

WIDESPREAD INTEREST IN EVENT

Widespread interest is taken in the U. S. Elections in all English speaking countries and especially in Canada. Prince Rupert share that interest to a large degree.

The English newspapers have been carrying a great deal of news in regard to the elections. One letter by the British Director of Relief in Europe during the war, which appeared in a recent number of the London Times, is especially interesting. It seems that someone had remarked that Hoover "always had a genius for advertisement." The correspondent says in part in his reply:

"In 1914 Mr. Hoover, off his own bat, organized the relief of Belgium and Northern France in spite of virulent opposition on the part of certain ministers, admirals, and generals, both allied and enemy. The press of the world displayed a natural and legitimate desire to publish something about the driving force behind this humanitarian relief movement. Photographs and personal details about the then unknown Mr. Hoover were insistently demanded and as persistently refused. Not a photo of Mr. Hoover could be got or taken. Overruling the writer, who chanced to be working with him in a minor role, Mr. Hoover maintained that the interest and sympathy of the world could be aroused and sustained in an issue involving so many million lives without dragging in any personalities, least of all his own. That, in his view, would cheapen a great cause.

"At last, in rebellion, I stole the only photograph of Mr. Hoover off the piano in his house in Kensington and gave it to the press. That theft I have never repented, but I had to wait a long time for Mr. Hoover's grumpy forgiveness."

EXTRA CREWS ON RAILWAY

Grain Moving This Way in Large Quantities But no Boats in Sight.

Though many unofficial reports are heard, it was stated this morning at the offices of the Alberta Wheat Pool's Prince Rupert elevator that there was no word yet as to when the first boat of the season might be expected here to load grain for export.

Meantime, the movement of grain toward Prince Rupert is steadily increasing and between six and seven hundred carloads were reported today to be on the way here. Extra crews are being put on along the railway line and the flow of grain to the port should be in full and uninterrupted swing by the end of the week.

During the night thirty-eight carloads of wheat arrived here and is being taken into the elevator today.

THREE WOMEN IN CONGRESS

WASHINGTON, Nov. 7.—Three newcomers will be among the women's ranks in next house of representatives. They are Mrs. Ruth Tanna McCormick, daughter of Mark Hanna from Illinois and Mrs. Ruth Pratt the first woman sent to congress from New York, both Republicans, and Mrs. Ruth Bryan Owen daughter of William Jennings Bryan, Democrat from Florida.

SCHEME FOR SETTLEMENT

British Government Makes Public Plan for Relieving Mining Districts

LONDON, Nov. 7.—The scheme for industrial transference and migration mentioned in the speech from the throne today as a measure of alleviation of unemployment, provides for migration to other parts of the Empire of about 20,000 men per year, largely miners, under Government settlement schemes. This is based on the report of the Industrial Transference Board, a government body which some weeks ago reported its disappointment at slow rate of settlement of people from Britain in Canada and Australia. The men will receive agricultural training in Britain and be given adequate financial assistance by Government measures for encouraging agriculture and industry, was the forecast.

CANADA AND THE ELECTION

Strongly in Favor of Deep Waterway Scheme but Proposes Higher Tariff

NEW YORK, Nov. 7.—the election of Hoover takes to the White House a foremost champion of the St. Lawrence deep waterway scheme. He urged its construction as far back as October, 1920.

During the campaign just closed, Hoover's advocacy of the St. Lawrence waterway was pressed in the farm states of the middle West as a reason why he should receive the support of the farmers.

Another feature of Hoover's policy, which will be of particular interest to Canada is the revision of the tariff on farm products. He declared at St. Louis that while the Canadian tariff was effective over a considerable portion of the agricultural production of the United States, the duties were not high enough on some products. He proposes the creation of a farm board to further develop co-operative marketing and to build up farmer owned and farmer controlled stabilizing corporations.

Roads and Bridges

ROADS and TRAILS
1916 26,220 MILES
1926-7 31,900 MILES
BRIDGES: The present valuation of 63 miles of Bridges is \$8,848,000

UPON the arteries of communication depend the settlement and growth of the nation. First the trails... then the rough oxcart ruts... the wagon roads... the automobile highways.

The scattered population of British Columbia has made the construction of roads between centres a matter of vital importance, yet one of almost insurmountable difficulties.

Mountain sides have to be blasted away... clefts and chasms tresselled... rivers bridged!

With the opening of the Cariboo Highway through Fraser Canyon in 1926, the last link of British Columbia's great arterial highway... a highway unexcelled the world over as an engineering feat and one of unmatched scenic beauty... was forged.

Eastern British Columbia greeted its western brothers! Markets and railways were brought closer to the farmer, the miner, the industrialist. New fields for agricultural and trade development were opened up.

For the ten years just past, an aggressive highway programme has been carried out. Thousands of miles of good roads and dozens of sturdy bridges have been built.

Our road's system now totals 31,900 miles... an increase of over 5,000 miles during the last ten years. Of this mileage, 12,000 miles are earth roads; 4,000 gravel roads; and 1,000

macadam, bituminous, concrete and cement concrete. The 5,000 miles which were added to our roads system include: 884 miles of main trunk roads, 602 miles of lateral roads, 281 miles of industrial and mining roads, 1,133 miles of settlement and farm roads, and 2,000 miles of ordinary and mining trails.

During the years just before 1917, a large number of bridges had been constructed in the Province, nearly all of which were temporary timber structures. Since 1917, the problem of maintenance and renewal of these structures has been a serious one, involving a large expenditure, particularly between the years 1920 and 1927.

The policy has been to improve design of and workmanship on temporary bridges and to renew all the large bridges on main highways over the principal rivers with concrete and steel.

Today, the valuation of our 63 miles of bridges is nine million dollars.

This construction activity has distributed wages and salaries over our whole Province and has been a material aid in bringing about the current period of British Columbia's prosperity.

Read these announcements and understand your province's progress... clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!

BRITISH COLUMBIA'S PROGRESS

Prince Rupert

Northern Pacific Terminus of the Canadian National Railways

Prince Rupert has three of the greatest things in the world

The Largest Fish Cold Storage Plant

The Largest Fresh Halibut Market

The Largest Undeveloped Hinterland

The City of Prince Rupert has a payroll of considerable importance, derived from:

- RAILWAY SHOPS
- RAILWAY OFFICES
- DRYDOCK AND SHIPYARDS
- GRAIN ELEVATOR
- PROVINCIAL GOVERNMENT OFFICES
- COLD STORAGE
- FISH PACKING HOUSES
- FISH MARKET
- OILERY AND FISH REDUCTION PLANT
- SALMON AND HALIBUT FISHERMEN
- SALMON CANNERIES
- LUMBER MILLS
- MINING
- TRAPPING AND FURS

The grain export business of Prince Rupert is steadily developing. Last year about eight million bushels of grain was shipped through the terminal elevator and this year promises to greatly exceed that mark.

The City owns its Power, Light, Water Supply and Telephones.

The schools are excellent.

Roads are paved and concrete sidewalks are being laid.

PRINCE RUPERT IS ONE OF THE COMING COMMERCIAL CENTRES OF THE PACIFIC COAST, THE PROBABLE OUTLET OF THE GREAT PEACE RIVER COUNTRY, AND SURROUNDED BY A RAPIDLY DEVELOPING TERRITORY

Prince Rupert is the logical site of a customs smelter which would serve the mines of Portland Canal, the Bulkley and Skeena Valleys and coast points.

lines after telegraph hours, and we have further plans for improving this service, but still it will not take care of a great number of points which cannot be reached by wire.

The conditions that prevail on the island exist also on the mainland coast, where we find such points as Ocean Falls, Prince Rupert, Anyox, Stewart, etc., incapable of being reached by telephone wires from the south owing to the obstacles which would make the cost prohibitive. Other examples are the Queen Charlotte Islands and the Peace River country. The executives of the B. C. Telephone Company have been watching carefully the development of radio telephony and we believe that it is a branch of the communication art that lies the solution for our problems of serving such communities as I have mentioned.

Our plan is to operate radio telephone service in conjunction with our present wire service so that a party in one point of the province may be able to pick up his telephone receiver, ask for a party in another part of the province and talk to him by a combination wired telephone and radio telephone circuit as is now being done across the Atlantic ocean. This would mean that men in isolated logging camps for instance, would be able to ring up Vancouver business men in their offices and hold conversations with them just as if the calling parties were right in the same city. It is not difficult to imagine what a boon such a service would be.

Another development would be the giving of the same service to coasting vessels plying in B. C. waters.

These are our plans. There are many problems to be solved before we attain success, but we feel that there are no people in a better position to develop a communication service for the outlying points than the men who are at present supplying most of the telephone service in British Columbia. Our project will be carried forward with the co-operation of both the provincial and federal authorities.

TRAIL RANGERS OF TERRACE CHOOSE THEIR OFFICERS

TERRACE, Nov. 7.—A well attended meeting of the Terrace Trail Rangers was held in Knox Church last Friday evening. Addresses were given by Rev. Wm. Allan, and A. Holmwood, making survey of the work covered during the past year, and laying emphasis upon those activities to be carried on throughout the coming winter season. The following officers were elected:

- Mentor: A. Holmwood.
 - Honorary president: Elmer McConnell.
 - Chief ranger: Walter McConnell.
 - Sub chief ranger: Charles Prosser.
 - Tally: Harry Atree.
 - Cache: Billy Allan.
- After adjournment of business meeting, a plentiful supply of refreshments was enjoyed by the members of the group.

BIBLE SOCIETY AT TERRACE ORGANIZED G. E. KEITH, PRESIDENT

The annual meeting of the Terrace Branch of the Canadian, British and Foreign Bible Society was held in the Anglican Church on Monday evening with a good crowd in attendance.

Rev. A. W. Robinson presided for Mrs. Robinson, president, and after a few introductory remarks the secretary Capt. J. B. Colthurst read correspondence and a statement of the year's financial activities. Following this Miss Marsh, of Lindsay, Ontario, read a very interesting and impressive paper on the work being carried on by the Bible Society. Mrs. Robinson also gave a very enthusiastic talk on the work and made a strong appeal for funds on its behalf.

Officers for the ensuing year were elected as follows: President, George E. Keith. Secretary, Capt. J. B. Colthurst. Treasurer, Mrs. William Allan.

AROUND PRINCE RUPERT

Immense New Ore Body Opened up at Duthie Mine—Consolidated Pleased with Emerald Property in Sibola—Cronin Mine in New Deal.

With the uncovering of one of the richest bodies of ore ever encountered at the Duthie mine, it has been established that ore was far from cut off by the Thompson fault as some seemed to fear. J. R. Turner, superintendent, however, did not maintain this view and continued work in the McPherson tunnel beyond the perplexing intrusion with the result that a very strong ore body was opened up from which shipments are now being made. The tunnel, advanced 230 feet, is still in ore without a break, backs amounting to 650 feet. This ore is being stoped out and there are indications that here may be opened up the largest ore body on the Duthie property. Work has been proceeding at a good rate in the further extension of the mill tunnel which now has a total length of approximately 1600 feet. In this tunnel the same important ore body as was encountered in the McPherson tunnel has also been broken into. An examination of some of the new ore from the lower tunnel shows solid rub sylver and the ore throughout is very high grade. As a result of these recent finds, there should be a tremendous new tonnage of mill feed worth hundreds of thousands of dollars and fully justifying expenditures planned to double the capacity of the mill. Duthie is now operating with a net profit of \$20,000 per month. With the new ore and the increasing of the capacity of the mill, the mine should soon be earning two or three times that amount. It is suggested that a wealthy private syndicate at present operating some of the richest mines in Northern Ontario, may take over the Duthie mine. Its representatives are reported to have been on the ground recently.

During the past summer eight men have been employed by the Consolidated Mining and Smelting Co., under the superintendency of H. C. Hughes, in development of the Emerald group of mineral claims on Sweeney Mountain in the Sibola district. The work has consisted of extending tunnels run under an option held formerly by the late James Cronin. One tunnel was carried forward for close to 200 feet and another tunnel started was run about sixty feet when the work closed. The ore has been very pleasing. Work on the property, it is expected, may be continued for a few weeks yet. Consolidated is also continuing operations on the Harvey group in the Babine where good progress is being made in driving a tunnel to tap ore on which the owners have worked for some time.

Several important strikes of ore have featured recent operations at the Topley-Richfield mine. Outstanding in the new discoveries was a strong shoot of ore picked up in driving the tunnel from the west vein to the east vein. This ore returned \$70 in gold in addition to over \$40 in silver. In the south drift some very fine ore has been disclosed and the mine is reported to be improving with every shift. Diamond drills are now being moved to the underground workings of the property where they will be employed until spring. There is much activity now in transporting winter supplies to the mine. Twelve feet a day has been the average program of tunnelling.

GRAND OLD MAN JAP INLET HONORED

**Birthday Party Held at Porcher
Island Settlement to Mark A.
E. Allen's 82nd Anniversary**

JAP INLET, Nov. 8.—A very pleasant party was held here recently at the home of James Wanhope to honor the eighty-second birthday of A. E. Allen, former resident of Jap Inlet but now living at Kamloops where he works every day and is enjoying excellent health. The party was well attended, even guests from Prince Rupert being present.

A splendid banquet was served. John Murray gave the time-honored health toast, coupling it with Mr. Allen's name. James Wanhope responded. For the benefit of some guests who were newcomers, a brief outline was given of Mr. Allen's activities since he came to Porcher Island. Formerly a United States lawyer, having been district attorney for the state of Wyoming, and at one time an employee of the Canadian Fish & Cold Storage Co. at Prince Rupert, Mr. Allen was the first man to attract attention to the mining possibilities of Porcher Island and was the discoverer of several important leads, some of which are now in process of development. For several years he took prizes at the Prince Rupert Exhibition for his mineral exhibits especially lime rock. Mr. Wanhope concluded his remarks by wishing Mr. Allen many happy returns of the day.

Now there's nothing for the Democrats to do but explain why it all happened.

One good thing about the result of the U. S. election is that it prevents a lot of hungry Democrats getting Government jobs.

Just a week today the Liberal Convention will be held and then we shall see what we shall see.

Give us a candidate bold whose feet will never get cold; Who will fight with a will the political mill. There are such in town I am told.

Someone wants to know whether it is right to say "oats is coming to the elevator" or "oats are coming to the elevator." Jake says it would be more correct to say "oats ain't coming to the elevator."

The other day at a local theatre (never mind which) a rather bored individual on getting up to leave remarked: "That didn't seem so very long."

LOCAL GIRL TO BE MARRIED IN SOUTH

Miss Margaret Graham to be Married Shortly to Charles McCarthy, Ensenada Broker

Local friends will be interested to learn of the impending marriage of Miss Margaret Graham, daughter of Mrs Mary Graham of this city, to Charles McCarthy, broker of Ensenada, Mexico. The ceremony will take place in the south and the couple will make a holiday tour through the United States before taking up residence in Ensenada.

Miss Graham lived here as a girl and attended school in the city. She was a member of the try dock staff for some time and later joined the United States consular service. She left here for Ensenada about six months ago.

Miss Graham was prominent in basketball circles here, having been one of the members of the original Maple Leafs ladies' champion team.

JANNINGS EXCELS AT THE CAPITOL

GREAT! GREATER! GREAT-EST! Emil Jannings—superlatively Jannings in "The Patriot," a native prostrate at his feet! Yet this mad czar had not one person he could call "friend." Courtiers curried his favor. Courtisans cavilled for his privileges. Peasants trembled at his name. This czar who made his palace a madhouse—this czar whom Jannings, with his great power of portrayal has brought to life again upon the screen.

Such was the masterpiece which hundreds of Capitol patrons thrilled to last night and which will appear again tonight in its final showing.

MISS RUTH RIX TO WED IN CITY SOON

Invitations Out for Her Marriage to Christian William Breukelman of Los Angeles

The Bishop of Caledonia and Mrs. Rix are issuing invitations for the wedding of their only daughter, Miss Ruth Isabel Rix, to Christian William Breukelman of Los Angeles. The ceremony will take place on the evening of November 23 at St. Andrew's Cathedral and will be followed by a reception in the I. O. O. F. Hall.

The wedding will be one of the outstanding society events of the season in Prince Rupert. The bride-elect has lived here since early girlhood and is widely known and very popular. For two years since last June she has been domestic science instructor in the New Westminster schools.

IS FINED \$150 FOR FISHING ILLEGALLY

Case Against Ole Skog Results in Conviction and John Hartlin Charge Dismissed

After a trial lasting two days before Stipendiary Magistrate F. F. McLeod, Capt. Ole Skog of the steamer Azurite was fined \$150 and costs yesterday afternoon for fishing illegally on the Queen Charlotte Islands. A charge in the same connection against Capt. John Hartlin of the pucker Jed way of illegally receiving fish was dismissed.

W. C. Fulton conducted the prosecution while Milton Gonzalez appeared in the defence of both men charged.

CHANGE IN C.P.R. BOAT SERVICE AS RESULT ACCIDENT

SS Princess Mary is coming north this week on the C. P. R. Vancouver-Prince Rupert local service in place of the Princess Royal which sustained damage when she crashed into a pier at Vancouver this week. The Mary will carry out this run for two weeks on the same schedule as set for the Princess Royal.

The Princess Royal, as a result of the change, will make another Alaska trip in place of the Princess Mary which was to have taken up that service for the rest of the winter. The Princess Alice will be one day behind the originally set schedule for the Princess Mary and will be her northbound next Thursday morning.
