Republicans Swept the United States in Greatest Outpouring of Votes in History of Country

Incomplete Returns Indicate that in Electoral College Hoover will have 444 Votes and Smith Only 87

NEW YORK, Nov. 7.—Republicans swept the country yesterday in the greatest outpouring of ballots known in the history of the United States. Not only was Hoover elected president and Charles Curtis vice-president but the Republican control of the next Congress seems assured.

For the Democrats it was a landslide. They failed to make expected gains in New England and in the mid-west while their old supremacy south of the Mason-Dixon line was severely challenged.

Hoover was this morning leading in all states except a bloc in the deep south and in Massachusetts and Rhode Island. The Republicans made gains in both the Senate and House of Representatives. Smith lost his own state of New York but Hoover carried his home state of California.

Roosevelt for Governor and Copeland for U. S. Senator ran ahead of Smith in New York state and are leading their Republican opponents for these offices. Six Democratic seats were won by Republicans in Kentucky, Hoover running ahead in the corn belt and border states. Incomplete returns this morning show Hoover states as follows:

Arizona, California, Colorado, Connecticut, Delaware, Florida, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Main, Maryland, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

For Smith—Alabama, Arkansas, Georgia, Louisiana, Massachusetts, Mississippi, Rhode Island and South Carolina.

Electoral college votes are as follows: Smith 87; Hoover 444.

COMMUNISTS ARE ROUTED

EDINBURGH, Nov. 7.—Labor failed to gain success in Scottish municipal elections yesterday. They made a gain on one each in Glasgow, Edinburgh, Aberdeen and Dundee. Greenock gave gains of three seats to the moderates who have majority in a large number of places. The Moderates gained four seats, two each, from Labor and Communists at Loghelly in the heart of the Fife Coal fields. The outstanding feature of the election was the complete rout of the Communist candidates.

William Sweeney, well known Smithers mining man, who has been attending the Shrine ceremonial in Victoria, arrived from the south on the Prince Rupert this morning and proceeded to the interior by train.

PRICES STILL HIGH

Halibut Brought up to 19c and 7c at Fish Exchange This Morning

Offerings were still light and prices for halibut still high at the local Fish Exchange this morning. Three American vessels were paid 18.7c and 19c and 7c for 62,500 pounds while two Canadian boats received 17c and 7c for 4,000 pounds.

Sales were as follows:

American

Kenatac, 38,000 pounds, Canadian Fish and Cold Storage Co., 18.7c and 7c.

Collidge, 15,500 pounds, and Augusta, 9,000 pounds, Atlin Fisheries, 19c and 7c.

Canadian

Gibson, 2,000 pounds and Ruth, 2,000 pounds, Canadian Fish and Cold Storage Co., 17c and 7c.

BEGIN WORK NEW CANNERY

Lumber Ordered for Construction Near Jap Inlet on Porcher Island

The newly formed Chatham Sound Fishing & Packing Co. is commencing construction at once of a new cannery at Humpback Bay on the north-east end of Porcher Island near Jap Inlet. The plant will be used for packing clams and possibly other shellfish in the winter as well as salmon in the summer. The Chatham Sound Fishing and Packing Co. is a subsidiary of Brand & Co., which is already operating on the west coast of Vancouver Island. Major F. H. Cunningham, former chief inspector of fisheries on the British Columbia coast, is one of the moving spirits in the new venture.

A scowload of material as well as a pile driver will be delivered from Vancouver next week to be used in construction work and lumber has been ordered from the Big Bay Lumber Co. at Prince Rupert.

PRINCESS ROYAL CRASHES INTO PIER

VANCOUVER, Nov. 7.—Crashing through bumper logs of the Ballantyne Pier steamer Princess Royal broke eighteen feet of her stem, the ship will miss her Wednesday sailing for Prince Rupert.

REORGANIZATION OF AFRICAN GOVERNMENT

PRETORIA, Nov. 6.—Government of Premier J. B. Hertzog resigned today. South African ministry immediately re-organized under Premier Hertzog with H. W. Sampson replacing W. B. Madley as minister of Posts and Telegraphs.

UNCHARTED ROCK ON WEST COAST VANCOUVER ISLAND

VICTORIA, Nov. 6.—The uncharted rock, recently struck by steamship Seapool, location is two and one third cables south magnetic from Channel Islands gas buoy about one and one half miles North of Cape Beale in the East Channel of Barklet Sound.

NEW PRESIDENT ELECT

HERBERT CLARK HOOVER

Republican Nominee, who yesterday was elected to the highest position the United States offers. He is an Iowan 54 years of age and was orphaned quite early. He was educated at Stanford University in California and became a mining engineer. He is particularly noted for his work as food administrator during the period of the great war.

THE DEFEATED CANDIDATE

ALFRED E. SMITH

Democratic Nominee, who was defeated overwhelmingly at the polls yesterday, was best known as the popular governor of New York state. He was an opponent of the prohibition law. As a Catholic he was opposed by the Ku Klux Klan and other anti-Catholic factors but his record showed his religion did not influence his political actions.

Ramsay MacDonald Flays the British Government for Sins of Omission and Commission

LONDON, Nov. 7.—Right Hon. J. Ramsay MacDonald, opening the debate on the speech from the throne yesterday said when the Government was doing its best to "crib, cabin and confine" the activities of the League of Nations they designated it as "co-operating."

Referring to the Anglo-French naval compromise, Mr. MacDonald said it was incredible that negotiators were not aware that every point on which Britain met France had already been rejected by America, Italy and Japan.

In discussing the immigration references in the speech, the labor leader expressed hope that any further emigration schemes would be better prepared and show more foresight, more forethought and more anticipation than had been shown in the experiment this autumn, whose workings he had seen with his own eyes in Canada.

"You did not say that when you were over there," a Conservative interjected. Premier Baldwin, who replied to MacDonald, said he knew the Government was going to be censured regarding the Anglo-French agreement and that was the time when the Government would state its case.

JAPANESE EMPEROR ENTHRONEMENT SOON

TOKIO, Nov. 6.—Emperor Hirohito arrived at Nagoya at 3.40 p. m. completing two thirds of the Imperial progress to Tokio for his enthronement as the 124th Imperial ruler of Japan. The main ceremony will be held on Saturday.

FIRE WIPED OUT AN ENTIRE FAMILY

BRIDGEWATER, N. S., Nov. 6.—An entire family of five was wiped out in a fire which destroyed their home at South Conquerall near here last night. The dead are Albert Nash and wife and two children, Annie 14, Viola 11, and Eli Nash brother of Albert.

LABOR PROPOSES TWO AMENDMENTS TO THE ADDRESS

LONDON, Nov. 7.—The Parliamentary Labor party has decided to put down two official amendments to the address in the reply to the speech from the throne. One of these will deal comprehensively with unemployment and the industrial situation and the other with the Anglo-French proposals for naval limitations.

GOVERNMENT ROAD POLICY

Complete Survey to Be Made to Terrace and Work Carried On.

The Provincial government expressed its sympathy with Prince Rupert's road claims and it is the intention to carry out a complete survey of the route between here and Terrace, stated C. H. Orme, one of the committee who took up the matter at Victoria last week and who returned to the city this morning from the south. The local road question will be given the fullest consideration and the prospects seems to be that the work will be carried steadily on.

Hon. H. S. Loughheed, minister of public works, will visit the north shortly to personally go into the situation here as well as study the requirements of the central interior.

RALLY OF STOCKS NEW YORK EXCHANGE

NEW YORK, Nov. 7.—A spectacular rally in the stock exchange prices was Wall Street's response to the election of Hoover. The Curtis Airplane opened at \$144.75, \$10.00 up and Timken Missouri Pacific, General Motors, Radio and Standard Oil of New Jersey opened with the gains of \$2.00 to \$4.00.

J. A. McKinnon of Trail, Grand Chancellor of the Knights of Pythias for British Columbia, arrived from the south on the Prince Rupert this morning and will pay an official visit to the local lodge tonight, returning south tomorrow evening.

SENTENCE OF NINE MONTHS

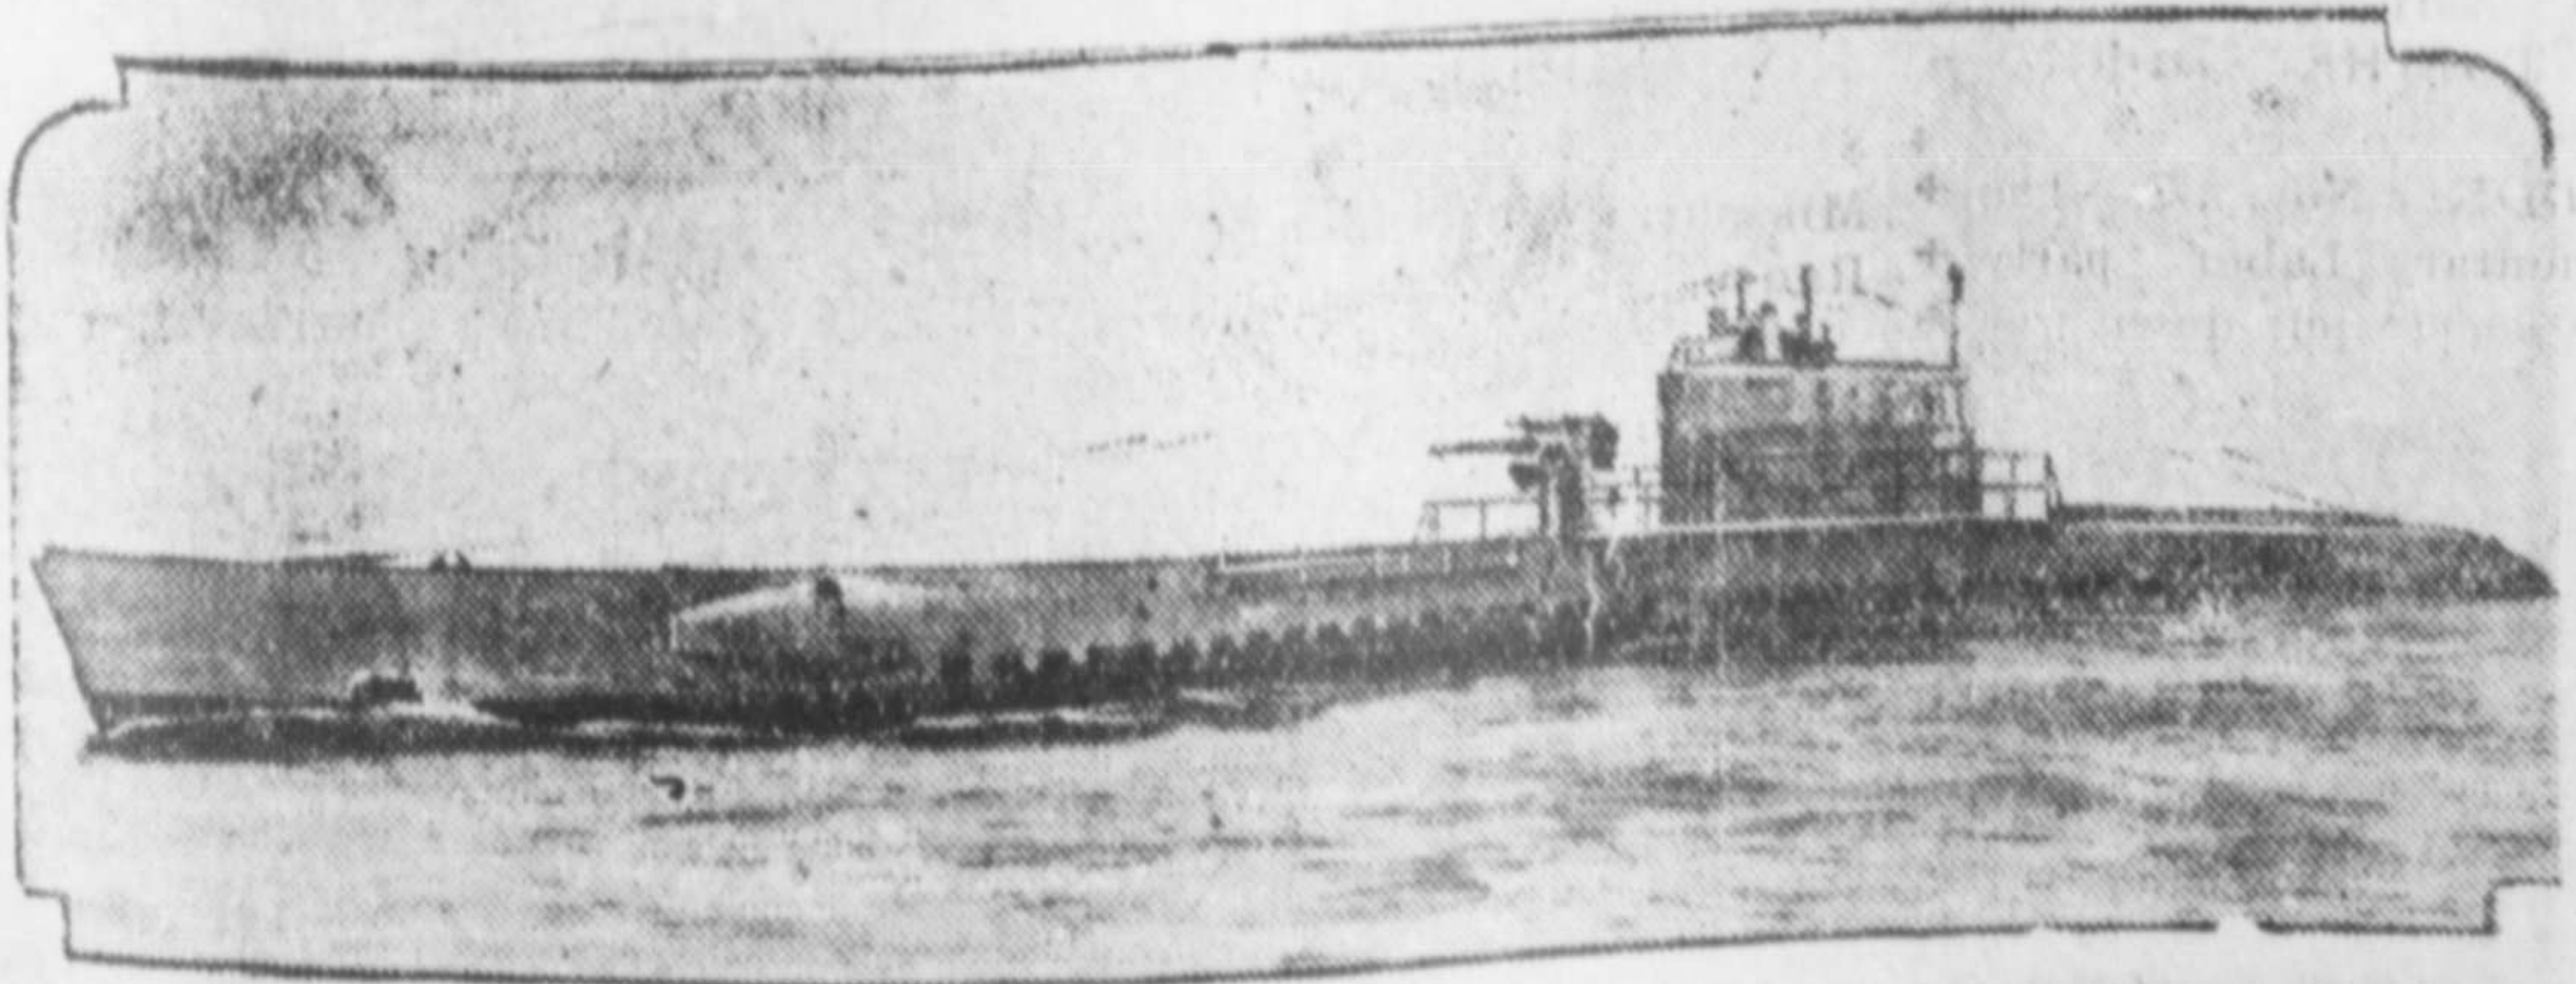

Silas Simon, who Broke into Officer's House, Dealt with in Police Court

Taking summary trial and found guilty on a charge of unlawfully entering a house by night, Silas Simon, recently arrived harvest-immigrant from Wales, was sentenced to nine months' imprisonment at Okala by Magistrate McClymont in the city police court this morning. Simon broke into the home of Constable Gilker of the city police force last week and was captured by the officer's son after he had caused some alarm in the house. It is likely that steps will be taken to deport the man after he has served his time.

RUM VESSEL IS CAPTURED

SAN FRANCISCO, Nov. 7.—It is alleged that the rum ship Laquilla of British registry is in tow today of two cutters from San Francisco after the shell fire from cutters Tamaro and Cahokia damaged her superstructure when she ignored orders to stop. It is not revealed whether there were any casualties.

The vessel was formerly a federal ship which figured in a similar battle on March 19, 1926. The capture was effected about 300 miles southeast of here. The Laquilla's log indicated she was from Amsterdam for Shanghai.

Grand Terminals and Grotto will meet tonight in a first division billiard fixture with line-ups as follows:

W. H. Long (Grand Terminals) vs A. A. Easson (Grotto).

W. J. Nelson vs Fred Stephens. C. P. Balagno vs Don Brown. James Hamilton vs A. Donald. Ben Self vs J. Beesley or M. M. McLachlan.

The Anxox men's tennis final was played recently. The finalists, were: O. G. Macintyre, and G. M. Lee. They played the full route of 5 sets, and Mr. Macintyre emerged victorious. He thus retains the tennis championship that he won last year. Following is the result of the five sets: No. 1 set Macintyre 6-4; No. 2 set Lee 8-6; No. 3 set Macintyre 6-3; No. 4 set Lee 6-4; No. 5 set Macintyre 6-2.

First steps in organizing basketball for the coming season were taken recently at a

well attended meeting. Chas. Harmon assumes the presidency. V. S. McRae is vice-president and R. J. Manning has accepted the burden of the secretaryship. The meeting voted to abolish the board of former years. After some debate and voting on conflicting amendments to the constitution, it was decided to insist upon registration of players twenty-four hours before the game. Another change prevents intermediate players from playing senior even once without losing their intermediate standing. Limitation of the senior division to four teams was decided upon. It was felt that the smaller number of teams would insure extra players for all.

The Anxox badminton club will be hosts to all members of the Community League who are at all interested in the game, on Thursday night. Refreshments will be served to those who attend. The club supplies the shuttles. The gym is reserved for badminton on Tuesday and Thursday nights from 7 to 10.30. A good deal of playing is done throughout the day.

Port Simpson Carried Off the Honors in Basketball Senior Game: Others Well Contested

Port Simpson defeated Players Club 27-23 in an exciting Senior League Basketball game last night. The game pleased a large crowd of basketball fans at Exhibition building. The game started fast and developed into a faster game as it proceeded, providing the spectators with plenty of excitement. As the game continued, first one team would take the lead and then the other. At half time, the score stood 15-14 in favor of the Port Simpson team. After the ten minute rest at half time, the Players Club started the second half, in whirlwind fashion and took the lead away from Simpson. Both teams concentrated on fast combination plays for a few moments during which time both had control of the ball but lost it, because of uncompleted passes. The game became very undecided as time drew short. With only a few minutes to play, Port Simpson scored three field baskets, in as many minutes and obtained the lead which they held until the game ended.

This was the fastest and cleanest senior game played here for several seasons.

Individual scores follow:

Port Simpson		Players' Club	
	Pts		Per
Robt. Sankey	10	Bill Mitchell	7
Pete Alexcee	6	Joe Gosse	0
Russel Mathers	8	Tom Kelsey	5
Geo. White	3	Poli Howard	10

Alan Cross	12	Jim McNulty	1
Bob Irvine	1	Geo. Hills	4
Doug. Scott	0	Tom Hughes	0
Bob Stalker	1	Total	15
Total	40		

Both teams, Toc H and Eagles, being new entries into the Intermediate basketball league, a little rough playing developed, which referee R. E. Skinner kept well in control. Toc H played well to win the game from the Eagles, 29-23. With more coaching and a little study of the rule book each team would benefit considerably. At half time the score was 12-13 in favor of the Eagles. The following players represented their teams:

Toc H		Eagles	
	Pts		Per
J. Underwood	9	Eric Dingwell	11
Frank Morrison	0	Fred Dingwell	1
Fred Buddell	0	Tom Steen	0
Stan Smith	0	B. McDonald	11

W. Collison	1	E. Smith	0
Jack Harris	6	J. Pierce	0
W. Fisher	0	H. Tulley	0
Total	29	Total	23

The High School Intermediate team with superior combination and team work had an easy time defeating Big Four 40-15. The High School team proved the old saying that team work is better than individual play. The combination of Stalker-Irvine-McDonald was a pretty and effective one to watch. Harold McDonald played about the best game ever seen on an intermediate floor and will be worth watching as an excellent prospect for next seasons seniors. The High School took the lead and was never once headed. At half time the score read 19-8 in favor of the High School. The rule book could also be studied by these two teams.

SCHOOL MUSIC IS DISCUSSED

Local Branch of Teachers' Federation Hears Valuable Papers On Live Subject

EACH GRADE DEALT WITH

Miss Deitch, Miss Halliwell, Miss Grassie and J. S. Wilson Chief Speakers

The regular monthly meeting of the Prince Rupert Teachers' Association, branch of the B.C. Federation of Teachers was held last evening in the Booth Memorial School.

Routine business was disposed of. The report of the Library committee showed that the books had been ordered for the Prince Rupert Public Library and would be available this month. It is not expected that Harry Charlesworth, secretary of the Federation will be able to visit the local branch for some time but a communication stated that he would do so at the first opportunity.

The subject for the evening was "Music in the Public Schools" and the speakers were Miss B. Leitch who spoke on Music in the Primary Grades, Miss Halliwell, whose paper was on "Music Appreciation through Rhythmic Movement," Miss Grassie who spoke on "Music in the Intermediate Grades" and "What the Child Should Know of Music on leaving the Elementary School," by J. S. Wilson.

Music for Beginners
 Miss Leitch told how the natural love of music by the beginners at school gave them a great incentive. The children were happy to have the chance to sing along with their classmates. Action songs were early used and these were often allied with health lessons. Breathing exercise, song games, the beginning of the mod-

ulator practices were all steps in the work of the youngest. Rhythmic exercises appealed to and were readily carried out by the pupils. The graduated course included songs and song games of increasing difficulty so that by the end of a year the children had a wide acquaintance with various types of music. Miss Leitch demonstrated several numbers which appealed to the children—and they were appreciated by the teachers present.

Miss Halliwell spoke of the three great sections of the public from the point of view of music. There were the listeners, the performers and the creators. The former constituted the greatest part. Vocal music has limitations and there was a definite important place for instrumental music especially in interpreting feelings that words could not do. The study of music required an analytical capacity for it was only by analysing and comparing the parts that ultimately the constructions and technique could be understood and then built up anew into the fuller ability to appreciate the compositions. The rhythmic movement facilitated progress and minimized drudgery. Miss Halliwell stressed the point that the children must be encouraged to feel their own way into music and that suggestions from the teacher in helping them to understand what the music meant defeated the object of the work. Actual examples of the application to songs were then given by the speaker, with Miss Grassie at the piano. Analysis of melody was also discussed and the way in which the children will learn to find the elements of melodic construction was demonstrated. Illustrations included the nursery rhyme "Dickory Dickory Dock" and Schumann's "The Wild Horseman" and "Prelude in A."

Intermediate Grades
 In dealing with the work of the Intermediate grades, Miss Grassie showed the progressive type that

would now be possible. After referring to the recreational value of music in the school work, its relief from the formal lessons, its value in developing the finer sensibilities of the children and feeling of unity in the class, Miss Grassie went into detail showing what new developments were possible. Breathing and voice exercises were of greater difficulty of wider range. Loud singing must be repressed as not only did it deteriorate into noise but in time it dulled the discriminatory faculty of the ear. Action games were more replaced by melodies and themes from the classics. The importance of teaching the children correct methods and inculcating sound principles was stressed. The lessons of these years were the basis of the future musical accomplishments of the pupils.

Mr. Wilson said that it was of paramount importance that the child should like music and that not only should it attract him but he should have a desire to seek after it. Unless that had been accomplished in his music education the time had been misused. He quoted from various sources emphasizing the value of music to the child, to the man, to the aged, and to the nation as a factor in building up a people of refinement and accomplishment. The difficulty in Canada in getting and maintaining choral societies was due to lack of teaching of singing in the schools, though this did not apply to Prince Rupert schools. History seemed to show that in the Elizabethan times the people were better equipped educationally in their singing accomplishments than they were now. He deplored the present love of jazz but it was probably only a passing phase that would leave no permanent mark on the nation. The speaker referred to the singing lesson which should be a period of joy. The need for an intelligent understanding of the song and for the appreciation of music was discussed. A child should be able to read music with due appreciation of time, melody and expression. With this equipment the world had a wonderful field of enjoyment for him, and to the music lover unlimited satisfaction a grace beyond computation is available.

On the motion of Mrs. W. W. C. O'Neill seconded by Miss E. A. Mercer, a very hearty vote of thanks was accorded the speakers for their papers. The evening had been a most enjoyable and valuable period.

Discussion followed and the playing of a number of records loaned by D. C. McRae from the music appreciation courses of the Education Department of the Victor Talking Machine Company was greatly enjoyed. These would be of considerable use in any school in the teaching of music and music appreciation.

Refreshments were served at the conclusion of the meeting.

Those present in addition to J. S. Wilson who presided and W. W. C. O'Neill, secretary-treasurer, were Miss Mercer, Miss McArthur, Mrs. Walker, Miss Grassie, Miss Halliwell, Miss Hartin, Miss Lamb, Miss Leitch, Miss McKay, Miss Palmer, Miss Pierce, Miss Rothwell, Miss Stewart, Messrs. Stocks and Halleran.

FROZEN FISH FOR EUROPE

KETCHIKAN, Nov. 6.—Ketchikan this year is shipping frozen fish to Europe. One of the latest consignments was 60,000 pounds which went by way of the Panama Canal. It brings the total shipments so far this year to a quarter of a million pounds.

JUNEAU TO SEATTLE IN 21 FOOT DORY

SEATTLE, Nov. 6.—Hugh Clinton Smith who left Juneau in a 21 foot dory with only a few pounds of bacon, some soda, crackers, blankets, a tin stove, coffee pot and an axe, arrived in Seattle after completing an 800 mile trip. One of his stops south-bound was at Prince Rupert.

Roads and TRAILS
 1916 26,220 MILES
 1926-7 31,900 MILES
 BRIDGES: The present valuation of 63 miles of Bridges is \$8,848,000

UPON the arteries of communication depend the settlement and growth of the nation. First the trails... then the rough oxcart ruts... the wagon roads... the automobile highways.

The scattered population of British Columbia has made the construction of roads between centres a matter of vital importance, yet one of almost insurmountable difficulties.

Mountain sides have to be blasted away... clefts and chasms tresselled... rivers bridged!

With the opening of the Cariboo Highway through Fraser Canyon in 1926, the last link of British Columbia's great arterial highway... a highway unexcelled the world over as an engineering feat and one of unmatched scenic beauty... was forged.

Eastern British Columbia greeted its western brothers! Markets and railways were brought closer to the farmer, the miner, the industrialist. New fields for agricultural and trade development were opened up.

For the ten years just past, an aggressive highway programme has been carried out. Thousands of miles of good roads and dozens of sturdy bridges have been built.

Our roads system now totals 31,900 miles... an increase of over 5,000 miles during the last ten years. Of this mileage, 12,000 miles are earth roads; 4,000 gravel roads; and 1,000

macadam, bituminous, concrete and cement concrete. The 5,000 miles which were added to our roads system include: 884 miles of main trunk roads, 692 miles of lateral roads, 281 miles of industrial and mining roads, 1,133 miles of settlement and farm roads, and 2,000 miles of ordinary and mining trails.

During the years just before 1917, a large number of bridges had been constructed in the Province, nearly all of which were temporary timber structures. Since 1917, the problem of maintenance and renewal of these structures has been a serious one, involving a large expenditure, particularly between the years 1920 and 1927.

The policy has been to improve design of and workmanship on temporary bridges and to renew all the large bridges on main highways over the principal rivers with concrete and steel.

Today, the valuation of our 63 miles of bridges is nine million dollars.

This construction activity has distributed wages and salaries over our whole Province and has been a material aid in bringing about the current period of British Columbia's prosperity.

Prince Rupert

Northern Pacific Terminus of the Canadian National Railways

Prince Rupert has three of the greatest things in the world

The Largest Fish Cold Storage Plant

The Largest Fresh Halibut Market

The Largest Undeveloped Hinterland

The City of Prince Rupert has a payroll of considerable importance, derived from:

- RAILWAY SHOPS
- RAILWAY OFFICES
- DRYDOCK AND SHIPYARDS
- GRAIN ELEVATOR
- PROVINCIAL GOVERNMENT OFFICES
- COLD STORAGE
- FISH PACKING HOUSES
- FISH MARKET
- OILERY AND FISH REDUCTION PLANT
- SALMON AND HALIBUT FISHERMEN
- SALMON CANNERIES
- LUMBER MILLS
- MINING
- TRAPPING AND FURS

The grain export business of Prince Rupert is steadily developing. Last year about eight million bushels of grain was shipped through the terminal elevator and this year promises to greatly exceed that mark.

The City owns its Power, Light, Water Supply and Telephones.

The schools are excellent.

Roads are paved and concrete sidewalks are being laid.

SNOWFLAKE IS STORM CENTRE

Government Denies it is Being Influenced Unduly in Connection With Mine

ENGINEERS GIVE REPORT

Minister of Mines Says Only Repairs to Old Road Being Made in District

VICTORIA, Nov. 6.—“The suggestion that the Government is being influenced by private investments in the Snowflake Mine or any other concern is absolutely false,” said Premier Toimie when his attention was called to a story on the front page of the Victoria Times headed “Snowflake crash may involve E. C. Cabinet Ministers,” and alleging that investment activities of the members of the Government were likely to come up before the legislature.

A bulletin issued by the Mines Department today contains reports of the Government Mineralogist, J. D. Galloway and F. W. Guensey engineer of the Company on Snowflake. Galloway described the property as still a prospect in the development stage. “So far as development goes no important quantities of shipping ore have been proven,” he says, “and it is obvious that all consideration of mill construction, power development, etc. should be left in abeyance, until substantial ore bodies are found.” The company engineer says “I consider the development gives encouraging assurance for the future.”

Allegations contained in the reports from Victoria that the Provincial Government was building a road into Snowflake Mine are entirely erroneous, declared Hon. Nelson Loucheed today. “It is true that on recommendation of the department of mines as to the unsafe condition of the trail and bridges over the Illiciliwaet River leading into the Snowflake and other Woolsey mines, such work as is necessary to ensure public safety is being done. It might be stated that this is in line with other public works which are being undertaken in various parts of the province including several mining areas and is in keeping with the Government's policy to develop the natural resources,” Loucheed said.

VANCOUVER, Nov. 7.—Snowflake opening yesterday at 50 sold down to 40 but recovered to 46 1/2 at the close, a net loss of four cents on a turnover of 125,000 shares.

STEWART MINES MAKE PROGRESS

Good Ore Encountered Both on Marmot Gold and Northern Light, Says Engineer

G. R. Bancroft M. E., who is in charge of development operations being carried on at the Northern Light and Marmot Gold properties at Stewart, was a passenger aboard the Catala yesterday going through to Vancouver.

Speaking of progress at the Northern Light, Mr. Bancroft states that everything is now in readiness for winter work, adequate camps having been constructed. Work has been resumed on the main tunnel which is now in 70 feet and, by cross-cut and drift, a new one has been opened up similar to that of the Premier, B. C., Silver and Selakwa. Under ground sampling has given values in gold and silver averaging \$3 and a surface outcropping, over 110 feet long, gave average returns of over \$10. It is the intention to follow this zone to ward the Selakwa.

A pack train of 15 horses is taking supplies up to the Marmot Gold. No. 1 tunnel, now in 370 feet, is in ore giving a return of \$4.50 in gold. The vein, which it is thought is close at hand, will be drifted upon both ways. No. 3 tunnel, also approaching the vein, is in 196 feet. There is heavy mineralization of pyrite and zinc here. It may be necessary to shut down work late in December but it will be resumed early in January.

BOOKS NEEDED FOR CHILDREN

Librarian Reports Need of Volumes for the Juvenile Section of Public Library

A meeting of the library board was held last night in the Library, with James Black in the chair. Others present were Mrs. J. A. Kirkpatrick, V. Basso-Eert, G. V. Wilkinson and Miss A. D. Cruikshank.

The librarian reported books loaned:—Fiction 2626, Duplicate Pay, 186, Non Fiction, 432; Juvenile 842 making a total for the month of 4086. The library was open 23 days and a daily average of 177.7 books were loaned. Thirty-nine new borrowers were registered and 28 cancelled which leaves a total of 2723. Eleven books were received by gift, 65 by purchase and 23 were discarded, which leaves a total of 6425.

A copy of the “British Colonist” published at Victoria on December 11, 1858 was received from C. Johnson to be placed in the files of the Library. This makes the second British Columbian publication of which the Library holds a copy of the first issue, the other being the first newspaper issued in Prince Rupert by John Houston.

Miss Cruikshank reported that the bound volumes of the Scouts Annual had nearly reached the end of their usefulness and expressed the hope that some of the citizens might have copies of various Annuals such as Chums, Chatterbox, Boys' and Girls' Annuals that they would be glad to donate to the Library. This class of books are eagerly sought after by the children and as many as twenty volumes could be put into use at once.

FISHERMEN END SESSION

Prohibition of Herring Reduction is Asked by Government

The annual two-day convention of the Northern British Columbia Salmon Fishermen's Association concluded in Prince Rupert yesterday afternoon. A committee consisting of Mike Anderson, who was named secretary-treasurer, A. Rasmussen, J. Johansen and Jack Roberts, was appointed to carry on the work of the Association during the coming year.

Important among resolutions passed at the convention was one urging the government to prohibit the use of herring for reduction purposes in District No. 2 and another asking that the laws relative to the use of Canadian ports by American fishing vessels be strictly enforced. The claim was made that American boats were using Canadian ports as fishing bases instead of merely for shelter as it provided.

GROUND HOG PROJECT IS CONSIDERED

Speaking this morning on his return from the south of conversations which C. H. Orme, F. G. Dawson and he had with the provincial government with a view to obtaining aid for construction of a railway which would connect this port with the Ground Hog coal fields, W. E. Fisher stated that the administration promised its careful consideration of the project but would not commit itself definitely in any way.

No changes in the personnel of the government service at Prince Rupert were contemplated for the time being at least, stated Mr. Fisher. The appointment of a juvenile court magistrate is being considered by the Attorney General.

Mr. Orme and Mr. Dawson also returned this morning.

VISCOUNTESS BYNG POENS EXPERIMENTAL COTTAGES

Armed with a lump of coal and a loaf of bread, Viscountess Byng declared open the new experimental cottages at Thorpe-on-Solien, Essex, which are to be rented at four shillings per week (less than one dollar). Before entering the cottages she followed the ancient Essex custom and threw across the threshold the bread and coal, with the wish that those who lived there might never want for food or warmth.

"THE PATRIOT" OPENS TONIGHT; BIG FILM IS WONDER PICTURE

Odd Character Admirably Presented by Emil Jannings at The Capitol

Czar Paul I of Russia who reigned during the latter part of the 18th century gained international fame by being murdered!

This fact was recently brought to light with the presentation of Alfred Neumann's play, "The Patriot."

Paramount has taken this famous play and adapted it to the screen not only for its interesting possibilities but principally because the leading character offered Emil Jannings, the acknowledged greatest dramatic actor on the screen today, the opportunity to reach the peak of his dramatic ability.

Suffice it to say Jannings has made Paul I real and almost terrible, so realistic does he interpret the role of mad man. For Paul the First was mad. He had the heart of a child and the brain of a tiger. He once ordered a regiment to march and then forgot to halt them. They were in such a state of fear of him that they marched into Siberia, where one by one they dropped. Paul being informed of this laughed heartily.

"HE WANTS TO FIGHT"

Emil Jannings has evidenced a desire to do a picture of the prize ring. Why? Two reasons. First, he enjoys the sport. Second, he wants to play the role of a heavy-weight fighter in a motion picture.

One reason advanced for the actor's great ability in impersonating characters so vividly on the screen is because he studies them and when facing the camera actually believes he is the original. When engaged in making "The Patriot" he actually was accused of being "off" so great was his concentration with business on hand.

So when he's given his opportunity to do a story of the prize ring, his fans may rest assured he'll be no "set-up" for anyone.

It will be a classic.

This great film shows at the Capitol for two nights only, to night and Thursday.

BIG STRIKE TIGER MINE

Considerable Excitement Caused at Alice Arm by Find

There is considerable excitement at Alice Arm over the fact that high grade silver ore has been encountered in No. 3 tunnel of the Tiger mine 200 feet from the portal though it was not expected to be reached until an additional 50 feet had been driven. The point at which the ore was encountered gives a depth of 415 feet below the surface outcroppings and the location was comparatively easy. The ore has been driven into for more than two feet.

Ore has now been developed at three levels on the Tiger and the successful exploratory underground work indicates a large tonnage of ore, much of which will probably be of a high grade character. A site is now being selected for a still lower tunnel to encounter the ore body at a depth of 800 feet. Work on the tunnel is starting immediately and it will be commenced on the old Dolly Varden railway grade.

Powder and supplies are being taken in to ensure continuous operation during the coming winter by the Utility Mining & Finance Co.
