ENGLAND PAYS TRIBUTE TO SOLDIER

MACLEAN SAYS TAXES BEING REDUCED; PAYING FOR P.G.E.

Premier MacLean Says Taxation Being Reduced and P.G.E. Doing Well

Will Hold an Election Whenever Problem Arises of Sufficient Importance to Warrant Consulting People on it

VICTORIA, February 1.—Making his first important speech in the legislature since assuming the office of Premier, Hon. J. D. MacLean yesterday challenged the opposition claims of increasing taxation and declared that the taxation total had been reduced half a million dollars every year for the past five years.

Referring to the P.G.E. the Premier said \$33,000,000 in cash had been put into construction. "We have paid every cent of interest on that, paid for maintaining the line in its present condition, paid for the loss on operation and we are now paying \$400,000 every year to pay off the capital expenditure on the \$33,000,000. So instead of being bankrupted by the road, as so many persons seem to think, the province is gradually paying its indebtedness on the P.G.E.," he declared.

WOODWARD NOT BOUGHT SITE

Understood That Negotiations are in Progress Looking to Sale of Property

Responding to the inquiry of a Daily News representative as he arrived this morning from Vancouver, John Woodward stated that the property at the corner of Third Avenue and First Street, owned by himself and Mrs. Hanson, had not been sold to Woodward's Ltd. of Vancouver, who are reported to be contemplating the establishment of a department store in Prince Rupert. Pressed further, Mr. Woodward, however, did not deny that there were negotiations for the transfer of the property to the interests mentioned.

NEGOTIATIONS ARE GOING ON

Alberta May Get Its Natural Resources Back as Result of Conference in Ottawa

OTTAWA, Feb. 1.—Premier King announced in the House of Commons yesterday afternoon that the government had reopened negotiations with the province of Alberta in regard to the return of its natural resources. "I am authorized by the Premier of Alberta to say that they are proceeding in a manner satisfactory to him at the present time," the premier of Canada said.

INVESTIGATE IMMIGRATION

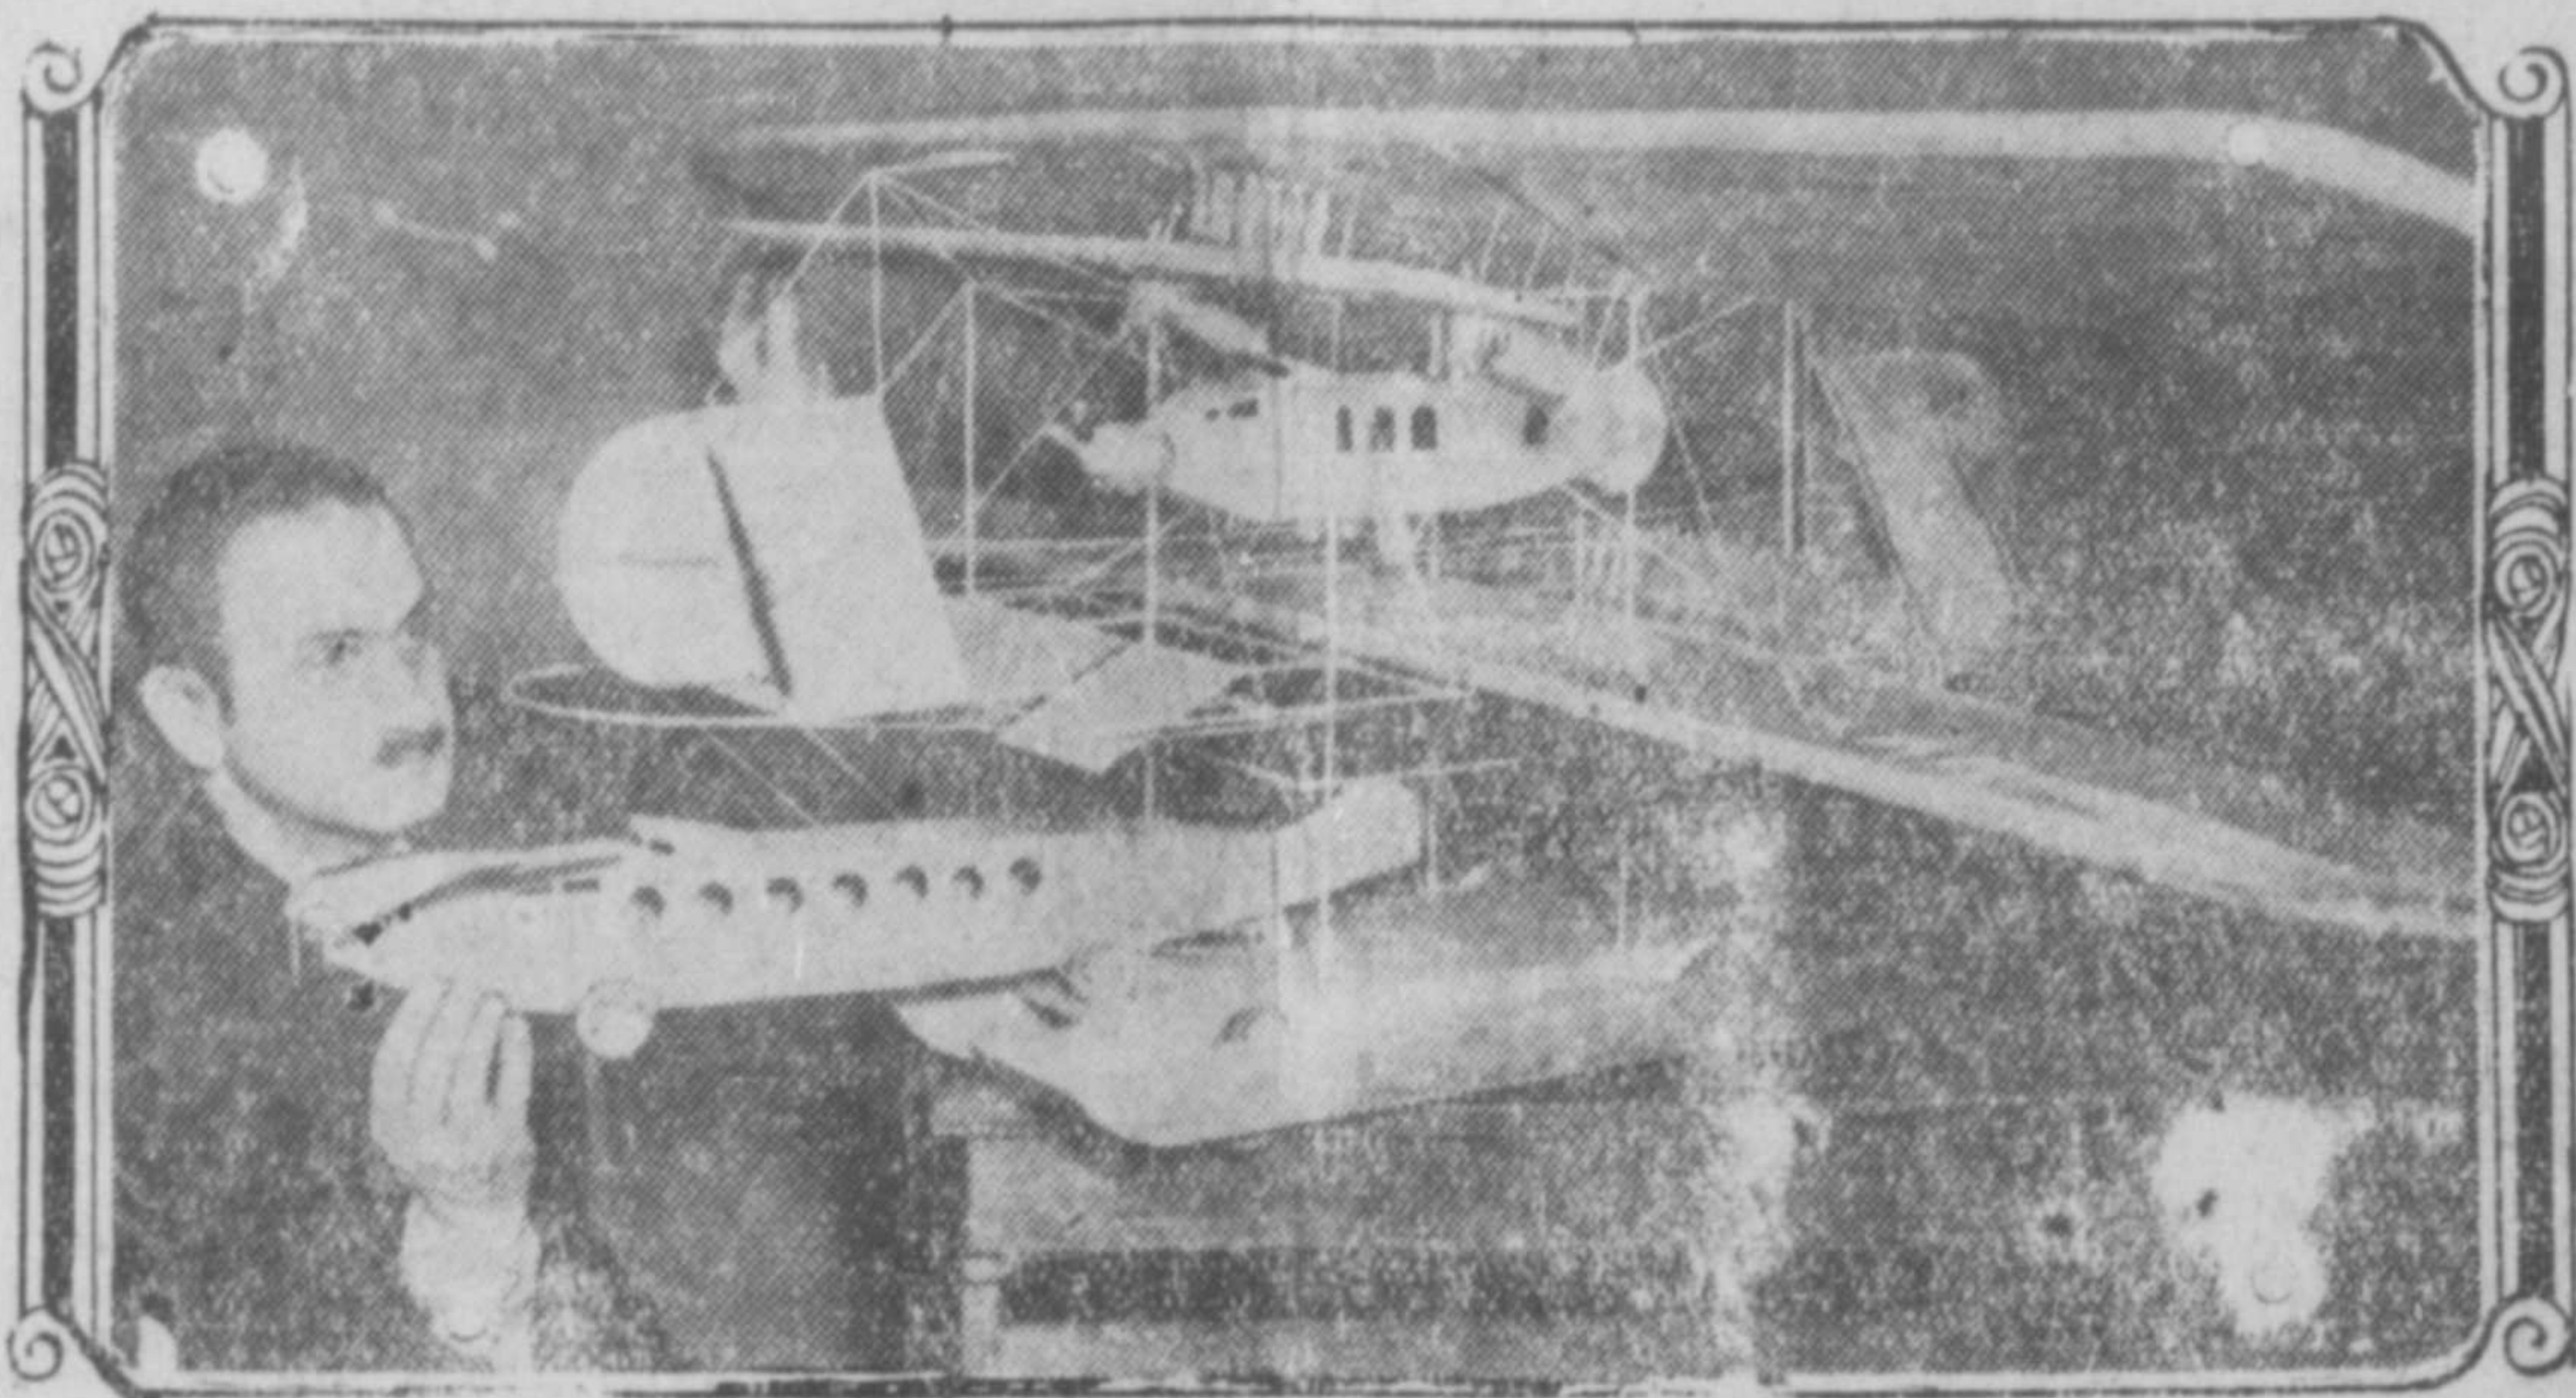

Premier Takes Suggestion of Leader of Opposition in Regard to the Matter

OTTAWA, Feb. 1.—Premier Mackenzie King this afternoon announced that the "Government would be only too happy to have all the affairs of the department of immigration investigated by a committee of the House." This was in reply to intimations by Hon. R. B. Bennett, Conservative leader, that there were some suspicions with regard to the administration of the department.

BIG TURNOVER OF B.C. STOCKS

Business Done in January Almost as Large as for Whole Year 1927

VANCOUVER, Feb. 1.—Shares for the whole month of January at the stock exchange to the number of 12,985,593 changed hands. These were valued at more than five million dollars. The tremendous increase is accounted for by the flurry in British Columbia securities particularly in mining stocks in which Portland Canal took a prominent place.

AIR-LINER OF FUTURE? A "self-balancing" airplane, invented by Arnold W. Genrick, has two cabins suspended from the framework of the plane, one for the passengers and one for the crew. They are always level, regardless of the angle at which the plane is flying. On making a forced landing, either on land or on water, the larger gondola can be disengaged. Engineer Z. H. Poiachek shows how the passenger cabin will leave the "mother" plane.

PITTSBURG NOSED OUT CANADIENS

Beat League Leaders Last Night in Spectacular Game With Goalie as Hero

TORONTO, Feb. 1.—Lowly Pittsburgh nosed out the Canadiens in one of the most exciting matches of the season played in Montreal. The crowd of spectators saw their heroes go down to defeat largely through the wonderful defence work of Worters, the Pirates goalie who was the hero of the game and defended his goal against the bombardment of the speeding habitans. Boston defeated the Americans at Boston and at New York the Rangers lengthened their lightning stroke to four games by beating Montreal.

Scores were: Toronto 6, Ottawa 4. Pittsburgh 2, Canadiens 1. Montreal 1, New York Rangers 3. New York Americans 1, Boston 2.

DEMPSEY OUT OF FIGHTING

MIAMI, Feb. 1.—Tex Rickard announced today Jack Dempsey's permanent retirement from the ring and that Tunney would defend his title against the winner of the Delaney-Keeney and Sharkey-Risko elimination contests in June.

LOS ANGELES, Feb. 1.—Jack Dempsey said "That's fine, it's O.K. with me. I told Rickard I would not be ready in June. If my injured eye muscle improves, I may fight again or I may not."

HUGHIE JENNINGS BASEBALL MANAGER DIED THIS MORNING

SCRANTON, Feb. 1.—Hughie Jennings, the famous baseball figure, died this morning having been stricken seriously ill on Friday. He captained the old Baltimore Orioles and then for fourteen years was manager for Detroit, securing three pennants and later with the New York Giants as assistant to McGraw. He retired in 1925 when his health failed.

RAILWAY IN ALBERTA TO BE CONSTRUCTED

OTTAWA, Feb. 1.—Hon. C. A. Dunning, minister of railways, introduced to the House of Commons yesterday a bill to provide for construction of a railway between Rosedale and Bullpond, Alta., to confirm an agreement between the Canadian National and Canadian Pacific railways for construction of this line.

Thousands Pay Tribute to Earl Haig as Body Lies in St. Columban's

After Private Requiem Mass, Final Honors Will be Paid Dead Marshal at Westminster Abbey and St. Giles, Edinburgh

LONDON, February 1.—At 9.30 this morning a file of thousands of people started to pass before the body of Earl Haig as he lay in state at St. Columban's Church. He will lie in state until ten o'clock tonight and similar honors will be paid him tomorrow. Crimson poppies surround the body.

It was the wish of Countess Haig that all wreaths and other floral tributes consist of Flanders poppies made by wounded former service men thus swelling the funds of the organization.

A private requiem mass will be held at St. Columban's Friday morning at which the family and personal friends will be present. Afterward Britain will pay final honors at Westminster Abbey with a military St. O's Cathedral until Monday night, funeral, the Prince of Wales and Mar. Later it will be buried at Berneside.

Immigration and Relations with Oriental Countries Are Further Discussed by Mr. Mackenzie King

OTTAWA, February 1.—Important matters of domestic concern as well as imperial and international questions were dealt with in the House of Commons by Premier Mackenzie King yesterday, continuing his speech in answer to that of Hon. R. B. Bennett in the debate on the address, in which he answered a number of criticisms.

In regard to immigration the Prime Minister enunciated the policy of the government as "being to bring into this country as many people of proper physique and general qualifications as the country is capable of assimilating with satisfaction to itself as well as to those brought in."

While strongly advocating a "White Canada" and "White B.C.," the Premier stressed the importance of friendly relations with Oriental countries. Trade between the Dominion and the Orient had grown by leaps and bounds and it was important to preserve amicable relationships. Representation of the government at Tokio might go far in this direction.

DRAWING RULED TO BE ILLEGAL

Magistrate Shaw at Vancouver Fines Man Who Was Raffleing \$75,000 Home in Sum of \$50

VANCOUVER, Feb. 1.—Magistrate Henry Shaw ruled yesterday that the drawing for a \$75,000 home in Point Grey, being staged by Post 60, Canadian Legion, was illegal. A test case was brought by J. D. Tait, in charge of the drawing, who was himself fined \$50. Thousands of tickets had already been sold. The money thus received will have to be returned.

FOURTH ROUND CUP REPLAY IN ENGLAND

Manchester United 1, Bury 0. Nottingham Forest 2, Derby County 0. Old Country Football English League, Div. II. Oldham 3, Southampton 1.

Value to British Columbia of Peace River Block and Railway Belt Promised to be Conveyed

Will Add Half Million Dollars Yearly at Least to Provincial Revenue and immense Area of Land and Timber

VICTORIA, February 1.—Return of the Railway Belt to British Columbia, as forecast in the speech from the throne at Ottawa, will add about \$500,000 immediately to the net receipts of the provincial treasury, place nearly 10,000,000 acres of land under provincial control, and swell provincial assets by the addition of big resources of timber, minerals, agricultural land and water powers. In the Peace River Block, which the province expects to secure in addition to the railway belt, British Columbia will gain 3,500,000 acres, much of it fertile agricultural land suitable for heavy production.

All under the decision of the federal government, ruling favorably on the request of this province, will represent the biggest gift ever received by the provincial government, and the most important change in its financial relations with the Dominion since Confederation.

The railway belt itself originally consisted of twenty miles on either side of the Canadian Pacific Railway from the North Arm of Burrard Inlet east to the Alberta border, covering altogether 10,976,000 acres, but considerable areas of this land have been alienated by the federal government from time to time. The Peace River block, handed over to the Dominion to compensate it for economically valueless lands in the railway belt, consists of 3,500,000 acres, of which an insignificant area has been removed from the ownership of the Crown.

STILL HUGE AREA Of the railway belt the Crown still controls 9,602,400 acres, only 1,394,000 acres having been permanently alienated. These figures were prepared last June for the information of the provincial government and have not varied much since.

In addition, 4,108,550 acres have been temporarily alienated, that is, placed in private hands for fixed periods under leases or reserved for parks or other purposes. They will come under the control of the province which thus gains all but the relatively small area permanently alienated. The alienated portion is mostly in the Fraser Valley where many farms were carved out of the railway belt in the early days.

Thus altogether the unalienated and reserved portions of the belt, with which the provincial government can do as it sees fit, immediately amount to 5,892,350 acres.

In the territory of temporarily alienated lands timber berths and grazing reserves total 1,491,765 acres; forest reserves 1,759,700 acres; parks 718,700 acres; the Coquitlam Indian Reserve, 55,700 acres; and other Indian reserves, 17,700 acres.

REVENUES IN BELT The figures on revenue collected by the federal government in the railway belt are the best indication of the value of this land to British Columbia. Up to June, 1927, the Dominion had collected a total of \$5,999,205 from the belt lands of which lands supplied \$822,513; timber and forestry \$4,839,354; mines \$300,432 and parks, \$36,904.

In the fiscal year 1925-26, the last for which figures have been supplied to the provincial government, the Dominion collected \$498,002 within the belt. This revenue, however, has largely increased in the last year and is expected to amount to \$700,000 for the last fiscal year. To the federal government the belt has been officially revealed as a current liability for administration expenses in the year 1925-26 were higher than the gross revenues of about \$500,000. The provincial government is confident that it can turn the belt into a first class asset because it can administer it largely with its present machinery at a cost of about \$100,000 a year. This would leave it well over \$500,000 a year as net revenue.

At present the province and the Dominion each maintain separate administrative machinery in the belt, but this duplication can be almost eliminated with the lands under provincial control. By adding only slightly to its present machinery the province will be able to administer the area and secure the revenues now obtained by the Dominion. Officials are confident, in fact, that the present federal revenue will increase in the next few years with the development of the enormous natural resources in the belt. In the meantime, the return of the belt means an addition of about \$800,000 to the provincial treasury annually.

A survey of the natural resources (continued on page three)

FAMILY WAS PIONEER ONE

Further Particulars of Tragedy at Massett Early in Week are Being Awaited

A well known and pioneer family of settlers is understood to be involved in the reported tragedy at Massett on Monday in which it is alleged that Henry Smith took the life of his father. The dead man is about sixty years of age and the son twenty-two. There is a widow and a younger son and daughter in the family. All have lived at Massett for many years and the children have been practically raised there.

While the investigation by Inspector William Spiller and Sergeant Alex McNeill of the provincial police at Massett is proceeding, further particulars of the supposed crime are being awaited locally with general interest. It is presumed that a preliminary trial will be held by Stipendiary Magistrate A. R. Mallory of Port Clements and that, if committal is made, the police will return to the city in a day or so with the prisoner.

GRAIN STEAMER SWAINBY SAILS

Sagoland is Now Lining and More Ships May Arrive Before End of Week

With a full cargo of some 270,000 bushels of grain loaded at the Alberta Wheat Pool's Prince Rupert elevator, the British steamer Swainby, the thirteenth grain ship of the season at this port, sailed at 4.30 yesterday afternoon for Fajal for orders.

The Swedish vessel Sagoland is now being lined at the ocean dock but it may be several days before she goes on berth at the elevator. Meanwhile, it is reported, while names were not available this morning, that two more British steamers are due here by the end of the week to load wheat. They will be already lined so may load before the Sagoland is ready to start.

SOUTH AFRICA BEAT ENGLAND

Fourth Cricket Test Match Won by Margin of Four Wickets

JOHANNESBURGH, Feb. 1.—South Africa won the fourth cricket test match from England today by four wickets.

The standing of the test matches during the present tour of the Marylebone Clubs team, representative of all England in South Africa is: England won 2. South Africa won 1. Drawn games 1. To be played 1.

The scores in the fourth match which concluded today are as follows: England 263 and 215. South Africa 328 and 156 for 6 wickets.

### SPEECHES IN PARLIAMENT

It was all right for Harry Pooley to speak for two hours and a half in the Legislature for he is leader of the opposition party and as such has a special claim on the time of the House, but any private member should say all that is worth while in half an hour at least.

The tendency of the day is against long speeches and in favor of much greater condensation.

It would be a pity to put a stop to the discussions on the address in reply to the speech from the throne which takes two weeks or more of the time of the Legislature but even so a curtailment of the length of speeches would add much to the interest of the debate and would teach members a lesson they sorely need, the lesson of condensation and keeping to the subject in hand. Parliaments do not need oratory. What they need is to be told facts in such form that they can be readily assimilated and be of practical value to the country.

### ONE LINE TROLLING REGULATION

A dispatch received yesterday from Victoria states that Hon. William Sloan is protesting to Ottawa against a ruling that trollers on this coast may in future use only one line instead of four or five as at present. The office here had at that time heard nothing of such a regulation but doubtless it has been received at the fisheries office in the south.

Such a regulation would be ridiculous and would stop all trolling. It is another example of the stupidity of the plan of controlling the Pacific coast fisheries from Ottawa.

The trollers here or someone acting for them should send at once a strongly worded protest, making clear the seriousness of the situation. It is difficult enough for salmon trollers to make a living as it is but to further restrict them in the use of lines would put them out of business which cannot be tolerated.

### LIGHTING OF HECATE STRAITS

For several years the Prince Rupert Board of Trade has been endeavoring to get the Marine Department to comply with the demands of the marine underwriters in lighting the entrance to Hecate Straits so as to make it perfectly safe for navigation for grain ships. At present these vessels have to pass out through Dixon Entrance or they lose their insurance. The needs there are not very great.

The attention of the Board of Trade was drawn to the matter by a letter from Lloyd's agent, who refused to recommend marine insurance until a larger light had been placed on Bonilla Island and one or two smaller lights in order that they may be easy for ships to pick up in coming north.

### IMPERIALIST OR NOT IMPERIALIST?

Hon. R. B. Bennett, leader of the Conservative party in Canada, objects to the policy of Premier Mackenzie King as not being sufficiently imperialistic and yet the Conservative party has gone on record many times as being opposed to the Imperialistic policy of Mackenzie King in granting a preference to Great Britain in Canadian markets. It looks as if the Conservative leader was willing to be imperialistic as long as it cost him nothing but the moment it touched the pockets of the big interests he was against it.

Frankly the new leader makes a strong appeal to us to bring something much better than the Conservative party has had for a long time past, but this is one of the matters he should straighten out. Possibly now that he has sold out his interests in all those big companies, he may be content to favor the British preference. It will not touch his pocket but will help lighten the high cost of living to the people of Canada. It is quite useless for him to shout for the Union Jack and wave it aloft unless he is willing to serve British interests when it touches the pocket.

## VICTORIA AND KERGIN SCHEME

Thinks Member for Atlin Should be More Definite in Proposal

(Victoria Colonist)  
To become a matter of practical negotiation with the United States any request from Canada for the cession to this country of the Alaska panhandle would involve the offer of a quid pro quo by the Dominion. Mr. H. P. Kergin's (Atlin) resolution, now before the British Columbia Legislature, does not even suggest what Canada might give in exchange, and yet, that is the only way in which business could be done with the United States. It may be that the panhandle is of small present or prospective value to that country, while its possession would be of immense importance to Canada, and, indeed, its possession by Canada would be an asset in the development of Alaska as a whole. Such a consideration would not enter into the attitude which the United States would assume on any proposal for the cession of the panhandle to Canada. The resolution before the British Columbia Legislature is, in its present wording, purely an academic one. It should pass unanimously, but only after amendment, which would have a tendency to bring it within the sphere of practical politics. The resolution should say specifically what Canada might be prepared to give for what British Columbia wants. Unless there is that provision in the resolution, for the guidance of Ottawa and to enable Canada's Minister at Washington to take up the question with any hope of success, it is certain that it would be quite impossible to inaugurate negotiations. So far as all recorded history goes, the United States only does business officially on the basis of the old Mosaic law, and Canada, in the matter of the Alaska panhandle, could hardly anticipate any other arrangement.

## PRINCE RUPERT FIRE STANDING

Grading of Cities Which gave This City Highest in Her Class is Explained

In connection with a recent report that Prince Rupert stood highest in her class in the matter of fire protection, a further report by mail says: All reports were divided into three classifications, according to population, but Vancouver in Class "A", Victoria in Class "B" and Prince Rupert in Class "C" in this Province were considered to have "most effectively and efficiently reached the greatest percentage of its population." Novel ideas and publicity "stunts" were given some weight, but the greatest amount of credit was given to systematic inspection and the Fire Prevention Week Campaign. The leading cities in each population grouping follow:  
"A"—OVER 100,000  
British Columbia...Vancouver  
Manitoba...Winnipeg  
Ontario...Toronto  
Quebec...Montreal  
"B"—25,000 TO 99,000  
Alberta...Calgary  
British Columbia...Victoria  
New Brunswick...St. John  
Nova Scotia...Halifax  
Ontario...Windsor  
Quebec...Verdun  
Saskatchewan...Regina  
"C"—UNDER 25,000  
Alberta...Lethbridge  
British Columbia...Prince Rupert  
Manitoba...St. Boniface  
New Brunswick...Moncton  
Nova Scotia...Sydney  
Ontario...Kenora  
Prince Edward Is. Charlottetown  
Quebec...Outremont  
Saskatchewan...Prince Albert

## Man in the Moon

WAS it parental neglect or child murder that caused the death of the new province scheme?

THE only cure for the Fisheries department at Ottawa seems to be obliteration. It is past reform.

I SHOULD like to see W. A. Found or any of his office crowd at Ottawa make a living by trolling for salmon with one line. He would soon say with Coue "Day by day in every way I am getting leaner and leaner."

BY the by, that might be a way of punishing crooked politicians. Put them in a trolling boat with one line and tell them to make a living.

A GIRL may be wearing an evening dress and yet be very much out of it in more than one respect.

IF the bootleggers are put out of business what are they going to do with all the old boots?

NEW York is the place to live. The other day a man sang at a concert there and was immediately arrested. I suppose the law does not allow that here.

THERE'S one thing about mining stocks. If they don't go up they can always come down.

THERE'S something no man would care to see about his wife and that is some other man's arm.

## GENERAL MOTORS TO REOPEN WINDSOR PLANT

WINDSOR, Ont., Feb. 1.—Industrial development in the border cities is expected to receive immediate impetus as the result of the announcement made today that the large Walkerville plant of General Motors of Canada, Limited, which has been idle for four years will be re-opened at once.

## LONGER SKIRTS ARE DUE THIS SPRING

Greater Femininity Indicated in Tucks, Lace Trimmings and Embroidery

NEW YORK, N.Y., Feb. 1.—Women of fashion will wear longer skirts next spring—fully one inch below the knee—the semi-annual review of the Garment Retailers of America has disclosed.

The style promenade given here also introduced three new colors for spring wear. They were independence blue, a light navy blue; water blue, a blue with a greenish tinge, and natural beige, a grayish tone of beige.

Evening models disclosed an even greater skirt length than the gowns for informal wear, having shorter lengths in front and the backs almost touching the floor.

The virtual disappearance of the silhouette was evident, most of the

## TORREADOR CREW FOR ENGLAND

Now on Way East to Bring Back Destroyer for This Coast

WINNIPEG, Feb. 1.—On their way to England to man the new destroyer "Torreador" and bring her back to Canada, three officers and 64 petty officers and men of the Royal Canadian navy, passed through Winnipeg this morning on the Canadian National Railway. They will sail from Halifax on the ss. Lapland. The sailors are from Esquimaut and were the crew of the "Patrician."

From England the "Torreador" will proceed to Gibraltar, St. Vincent, Trinidad, Jamaica and through the Panama Canal, along the Pacific Coast to Esquimaut. Canada expects to welcome the new destroyer by the first of June. The two other officers with the party were Lieut. W. B. Holmes, R.C.N., and Lieut. (E) W. S. E. Morrison, R.C.N. That "all nice girls love a sailor" is a song still very much alive was well proven during the hour the boys spent in the Canadian National station. Sailors are very much of a novelty in the prairies and they were given a good welcome. Many of them had relatives here.

## LUMBER INDUSTRY CONTINUES QUIET

Bank of Montreal Monthly Review Says Slight Scarcity of Logs Just Now

The Bank of Montreal monthly review of conditions has a section devoted to British Columbia which says: "British Columbia—Wholesale business is in average volume, while retail trade is reported somewhat better than a year ago. The lumber industry continues unsatisfactory and both domestic and export markets are dull. Severe weather of late has restricted the output of logs, resulting in a temporary shortage and a slight increase in prices. Pulp and paper mills are operating at near capacity and making a fair margin of profit on their output. A good demand exists for frozen and canned salmon and stocks are moving satisfactorily. Mineral production for 1927 exceeded all records, although as a result of lowered metal prices the value of the output shows a decrease compared with the previous year. Due to adverse weather conditions, ore shipments last month were comparatively light. Trade through the port of Vancouver continues to expand."

## SHIPPED HIS MUMMIES AS OLD BONES ORDER TO SAVE HIGH FREIGHT

CAMBRIDGE, Mass., Feb. 1.—Harvard Museum officials have solved a knotty dilemma which arose when the mummies of 100 Yucatan Indians were to be shipped by the University's archaeologists to Mexico to this city.

The steamship company demanded payment on the basis of \$100 a passenger. An explanation of the mummification proved wasted on the shipping clerk at the receiving point. Then William G. Morse, Harvard purchasing agent, had an idea. "Ship them as old bones," he directed. The day was won and lower rates prevailed.

## BANKING IN BRITISH COLUMBIA

IN the Province of British Columbia the Bank of Montreal has a complete Organization, with headquarters at Vancouver, specially organized to give careful attention and prompt service to Banking requirements of the people of this Province.

There are 45 branches of the Bank of Montreal in this Province, the offices being located at every important centre.

Behind this Provincial Organization are the resources of a nation-wide Institution, having a combined Capital and Reserve Fund of over \$60,000,000, and Total Assets exceeding \$830,000,000.

Main Office, Vancouver

# BANK OF MONTREAL

model being along straight lines. A return to femininity also was indicated with the introduction of tucks, profuse lace trimming and embroidery. Sports togery included a three piece bathing suit in China blue, with short trunks, jumper and a very brief jacket.

## Ten Years Ago in Prince Rupert

FEBRUARY 1, 1918.  
W. P. Hinton, vice-president and general manager of the Grand Trunk Pacific Railway; H. H. Hansard, company solicitor, and S. A. Porter, executive agent, are visitors in the city in the course of a tour of inspection. At a conference last evening with Mayor McClymont, Mr. Hinton announced that some \$250,000 would be spent by the company at Prince Rupert this year. A new station will be built and wharfage will be extended. There will also be extension of the round house and machine shop facilities.

The Prince Rupert Liberal Association last night elected officers as follows: Honorary President, Sir Wilfrid Laurier; honorary vice-president, Fred Stork; president, Martin O'Reilly; first vice-president, L. W. Patmore; second vice-president, J. G. Steen; secretary, W. E. Williams; treasurer, J. McNulty; executive, Dr. W. T. Kergin, S. E. Parker, F. G. Dawson, Thomas McClymont, Ben Seif, W. R. Martin, A. W. McLean, C. W. Nickerson and Fred MacDonald. During the evening there were brief speeches by A. M. Manson, M.P.P., Fred Stork and others.

T. T. Edmunds of Kinsella, Alberta, who is a visitor in the city, and Frank Carter of Prince Rupert have acquired two sections of land on the Grand Trunk Pacific Railway on which they will go in for extensive stock raising on a co-operative basis.

The sins ye do two by two  
Ye pay for one by one!—Kipling.

## NOTICE

There will be offered for sale at Public Auction at the Provincial Government Court House, Prince Rupert, B.C., on Monday, January 30th, 1928, at 2 o'clock in the afternoon, the following lots:  
Lot 14, Block 24, Section 1.  
Lot 7, Block 40, Section 7.  
Lot 13, Block 13, Section 2.  
all in the City of Prince Rupert, B.C.  
Terms: Cash in full at time of Sale, or one-quarter cash and the balance in three equal annual instalments with interest on the deferred payments at the rate of 6% per annum, the Crown Grant fee to be \$10.00 additional.

OXO is MEAT and DRINK to YOU!

FORTIFY yourself against the sleet and rain and chills of late autumn--drink piping hot "OXO". It makes a really delicious, savoury drink.

Concentrated beef at its best, "OXO" maintains warmth and strength and gives greater power to resist colds, chills, influenza and other such maladies.

OXO LIMITED, 356 St. Antoine St. Montreal

Remember the Days of the Grocer's Cracker Barrel?

Remember the Cracker Barrel from whose dusty cavern your grocer used to scoop your pound or half pound of crackers? Now your grocer sells Soda Biscuits in Sanitary Packages. Drug stores used to have their cracker barrels--their huge bottles of Castor Oil--Epsom Salts--Iodine, etc.--which used to stay in the store perhaps for years--to gradually grow weaker. Now, however, at Ormes you buy not just Iodine or Castor Oil--articles that carry two guarantees--the Rexall guarantee and Ormes that they are 100 per cent pure, guaranteed uniform.

ORMES IS THE ONLY REXALL STORE IN PRINCE RUPERT

MANY APPEALS TO BE HEARD

Busy Session for Municipal Court of Revision Forecast in List Just Posted

Prominent in the list of thirty-two appeals which will engage the attention of the civic court of revision which will open its sessions next Wednesday, will be those of the Canadian National Railways, which is evidently appealing the assessments on its waterfront land holdings, and the Grand Trunk Pacific Development Co. which is protesting valuations on townsite property. Lessees of waterfront land also appear to be appealing generally. Overvaluation of the land, and in some cases improvements, is claimed.

The appellants include the Canadian National Railways, G.T.P. Development Co., P. Olazola, Flore Collart, Clementine Collart, Ralph Tyson, L. G. Moore, F. W. Hart, W. R. Bonfield, George H. Gutru, E. J. Walsh, F. Lanza and E. Bianco, W. B. McLaughlin estate, H. L. Johnston, S. E. Parker, Mrs. B. L. Parler, M. M. Stephens, E. A. Marks, Mrs. B. Strang, Daniel Grady, Allan Campbell, R. Finkelstein, T. T. Marks, A. A. McIntyre, Ethel Floyd, C. F. Nelson, D. J. Macdonald, J. C. Mulville, Mrs. H. Wicks, R. G. Hulbert, P. Burns Co. Ltd., Imperial Oil Co., Thomas Trotter, C. C. Ketchum, N. M. McLean, Canadian Fish & Cold Storage Co., W. J. Greer, James Jamison, Dr. de Moulpied, George F. Searmourne, McCaffery & Gibbons and Prince Rupert Building & Investment Co.

VALUE TO BRITISH COLUMBIA OF PEACE RIVER BLOCK

(continued from page one)

contained within the belt was completed recently by the provincial authorities in co-operation with the federal government. It reveals the existence of extremely valuable stands of timber, large areas of agricultural land, big stretches of range land, and rich deposits of minerals.

It is estimated that of the 16,776 square miles in the belt 10,233 square miles are timbered, and 4,819 covered with commercially valuable forest. Altogether the stand of saw timber is estimated at 21,487,900 board feet. In addition, there is about 550,000 m.b.f. in the coast district suitable for ties, poles, shingle bolts, etc., making a total commercial stand of 22,037,900,000 board feet.

Total mineral production in the railway belt in 1926 was valued at \$1,115,363, of which structural materials represented \$850,000. Altogether the belt produced 1.66 per cent of the mineral output of the province.

It is estimated that 1,732,480 acres of land are suitable for agriculture within the belt. Of this 450,800 acres are in the coastal district; 936,240 acres in the Lytton and Kamloops districts; 177,280 in the Shuswap district; 79,360 in the Revelstoke district; and 28,800 in the Golden district.

Water powers form one of the most valuable assets in the railway belt. A detailed survey of available powers shows that enormous quantities of electricity could be developed within the belt for commercial purposes.

PEACE FARM LANDS The provincial authorities have not yet secured such detailed information on the Peace River Block. While it is much smaller than the railway belt it is regarded as strategically of enormous value. Of recent years the province has been working for the return of the block so that it could be used in subsidizing private interests to build a railway into the Peace River country as an extension to the Pacific Great Eastern Railway. The proposal is that railway builders could sell the land to settlers for agricultural purposes if transportation facilities were available, and thus recoup themselves for the cost of the railway. The block would provide a rich new farming area comparable to the wheat lands of the prairies, it is believed.

QUESTION OF ADM.

They had a dispute, and agreed to leave it to the military expert. "What bullet," they asked, "do you consider the deadliest?"

For several minutes he remained in a brown study. Then he looked up with the air of one who has settled the matter finally and definitely. "The one that hits," he said.--Humor.

Unpardonable Perspiration Odour readily avoided

What quality can match the beauty of a lovely skin? And what social error can so readily embarrass its possessor, as that subtle offence--perspiration odour?

Of course, every one perspires. In this way nature rids the human system of one to two pints of moisture every day.

But this perspiration, so necessary and so healthful, need not be offensive.

Why not be sure of absolute personal daintiness? All you need to do is use Lifebuoy for face, hands and bath--and perspiration odour will vanish.

Lifebuoy, besides being a delightful, all-sufficient toilet soap, possesses mild but effective anti-septic qualities which clear away clogged pores, purify them, and make perspiration odourless.

And there is no price penalty, because Lifebuoy costs no more than toilet soap that is just "soap."

LIFEBOUY Health Soap Purifies and Protects. Lever Brothers Limited Toronto.

GOOD GAMES BASKETBALL

Kincolith Visitors Make Things Interesting For Local Seniors Though They Were Beaten

SNAPPY LEAGUE MATCHES

Prince Rupert Senior League representatives beat Kincolith last night in the opening of a series of two basketball games by a score of 43 to 21. Though the visitors may have been somewhat tired following an arduous trip to the city, they played an active game in first class manner. From the outset, they put the locals on their mettle and, taken as a whole, it was a splendid game. The visitors proved themselves to be good sportsmen and will, undoubtedly, give a much better account of themselves in the second game tomorrow evening. Brick Skinner refereed this, as well as the other two games of the evening, and handled some difficult situations with satisfaction to the players on both sides and the spectators as a whole.

In the evening's opener, the Tuxis Boys and Stars played a clean, fast game, the former winning 21 to 16. The match was featured by several long shots from Danny Morrison for the Tuxis Boys which seemed almost uncanny.

The Intermediate League game between the Elevator and Big Four was a strenuous engagement from which the men of the grain plant emerged victorious by the narrow margin of 33 to 32. Several goals resulted from long low shots by Benny Wendle. There was a dramatic finish when Wendle successfully negotiated a penalty which resulted in a victory for the Elevator.

The games were watched by a large crowd of interested spectators. In addition to the Kincolith vs. Prince Rupert game tomorrow evening, High School and Drill Team will meet in the Ladies' League and High School and Elevator in the Intermediate Last night's Junior and Intermediate games were regular league fixtures and count in the league standings. So will tomorrow evening's Ladies' and Intermediate League games.

SPORT CHAT

Play is now under way in an inter-club curling competition at Smithers with a dozen or so rinks thus brought into action. The players are rapidly swinging into form and some good rinks should be developed for next season. It is the first winter that curling has ever been played in real earnest at Smithers. In the recent tournament between rinks under President R. C. Bamford and Vice-President H. H. Olsen, the former were victorious by the margin of a single game.

GYRO CLUB LEADS BY SMALL MARGIN IN BILLIARD MATCH

Four of the five games in the Gyro Club vs. Maple Leafs billiard fixture were played last night, giving a score of 738 to 736 in favor of the service club. The fifth game between G. P. Thinker (Gyro Club) and Marcus Andrews (Maple Leafs) was postponed until today. The high break last night was 38 by W. J. Nelson, M. M. McLachlan coming close with 34.

The individual scores were as follows: C. Balagno (Gyro Club), 138; Col. S. P. McMordie, 200; W. J. Nelson, 200; J. Hamilton, 157; G. A. Woodland, 200; M. M. McLachlan, 187.

LADIES' WHIST TEAMS ARE BUNCHED TIGHTLY

Only One Point Now Divides Four Teams as Result of Last Evening's Games. As a result of last night's games, there was a decided tightening up of the standing in the ladies' section of the Fraternal Whist League.

WINTER GAMES OF OLYMPICS

Arrangements Made to Accommodate 6,000 Visitors at St. Moritz. ST. MORITZ, Switzerland, Jan. 31 - Accommodations for 6,000 visitors have been arranged in the forty-two hotels of St. Moritz and the neighboring health resort, St. Moritz-Bad, during the Olympic Winter Games from February 11 to 19.

Many hotels which ordinarily do not cater to winter business will be opened on account of the unprecedented number of tourists expected to be attracted by the international games, which last were held at Chamonix, France, in 1924.

M. C. Nater, syndic, or mayor, of St. Moritz, who heads the local committee, has been advised that 600 athletes will compete in the various events. This does not include trainers and managers.

The winter sports season is at its height in St. Moritz in February, and normally there are 3,000 visitors here during that month.

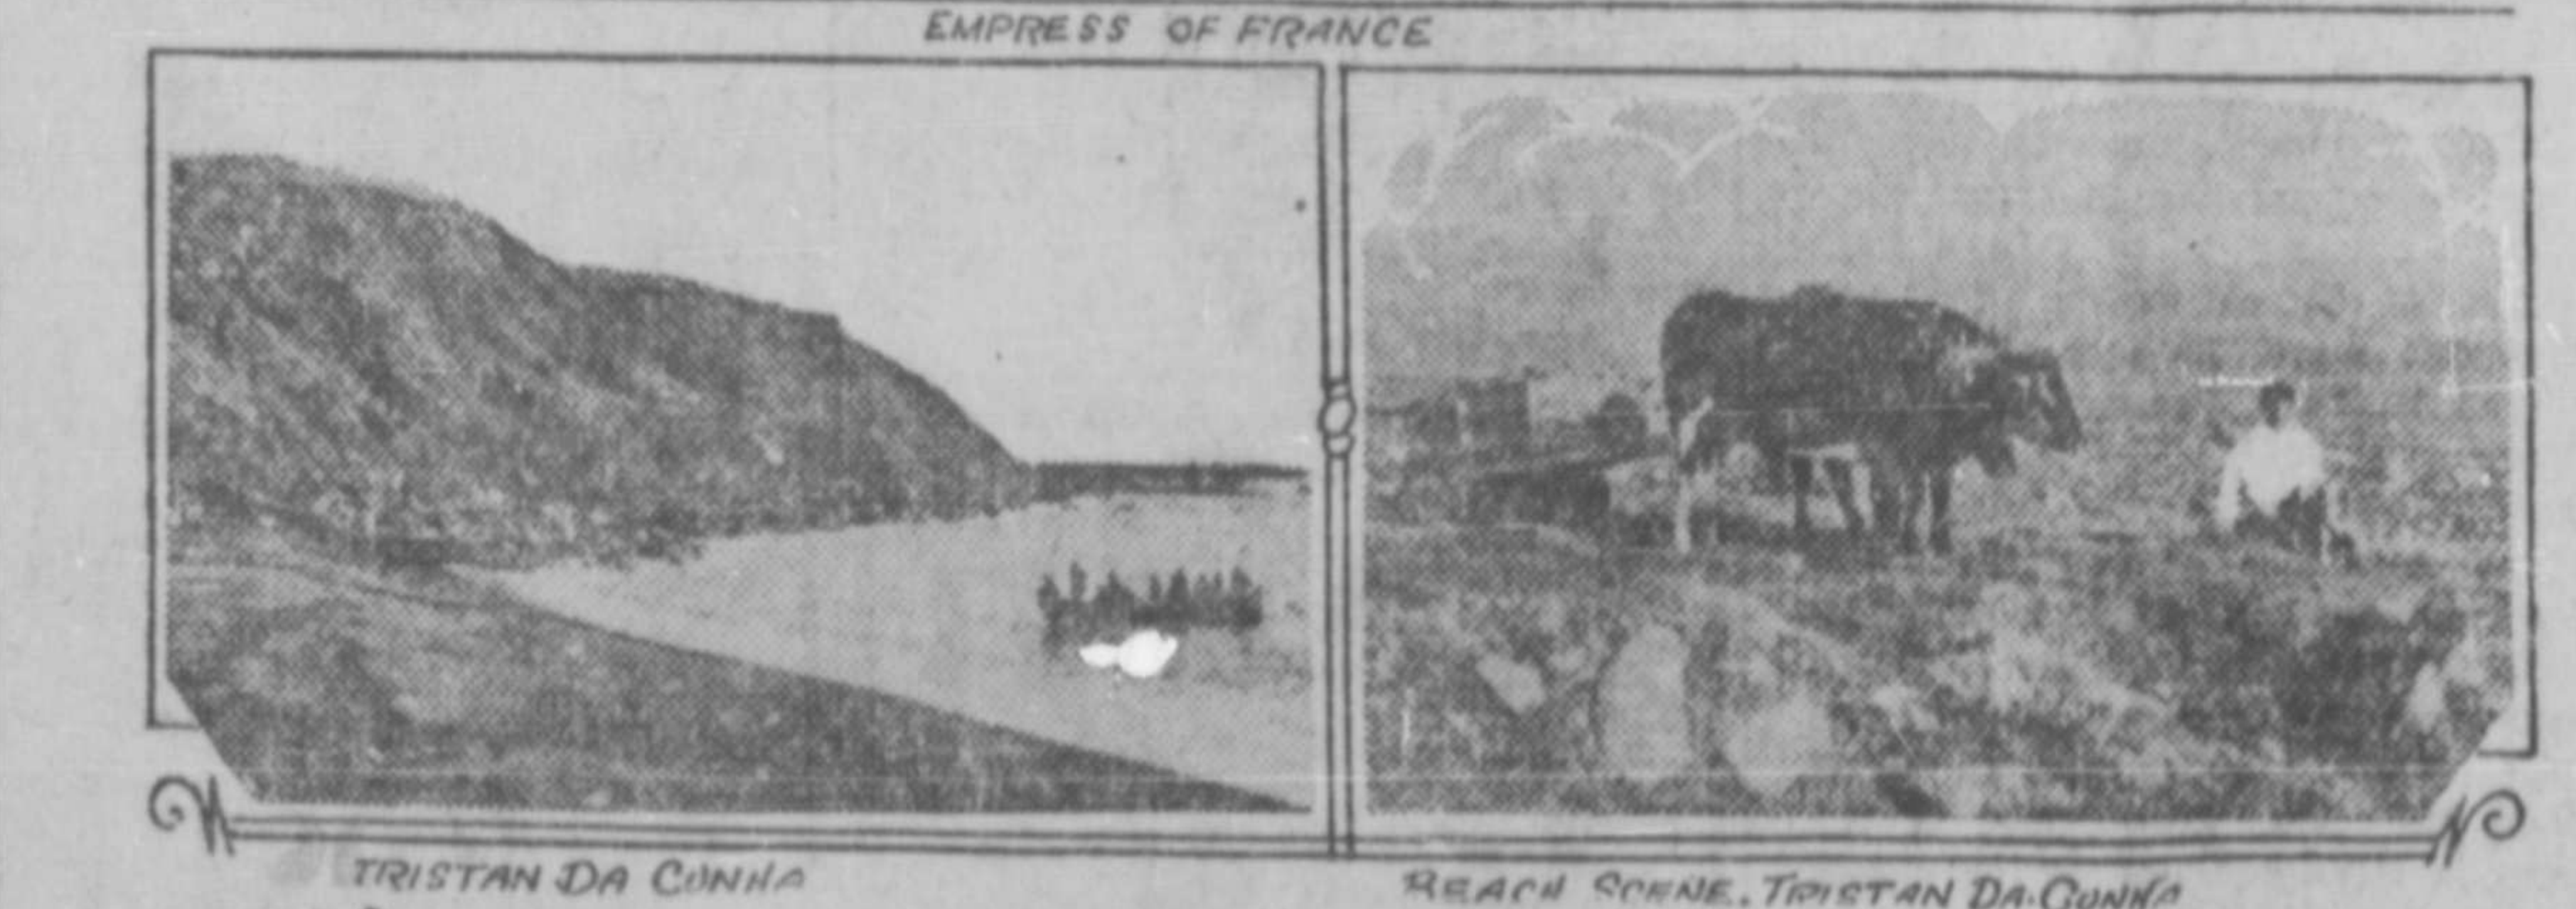

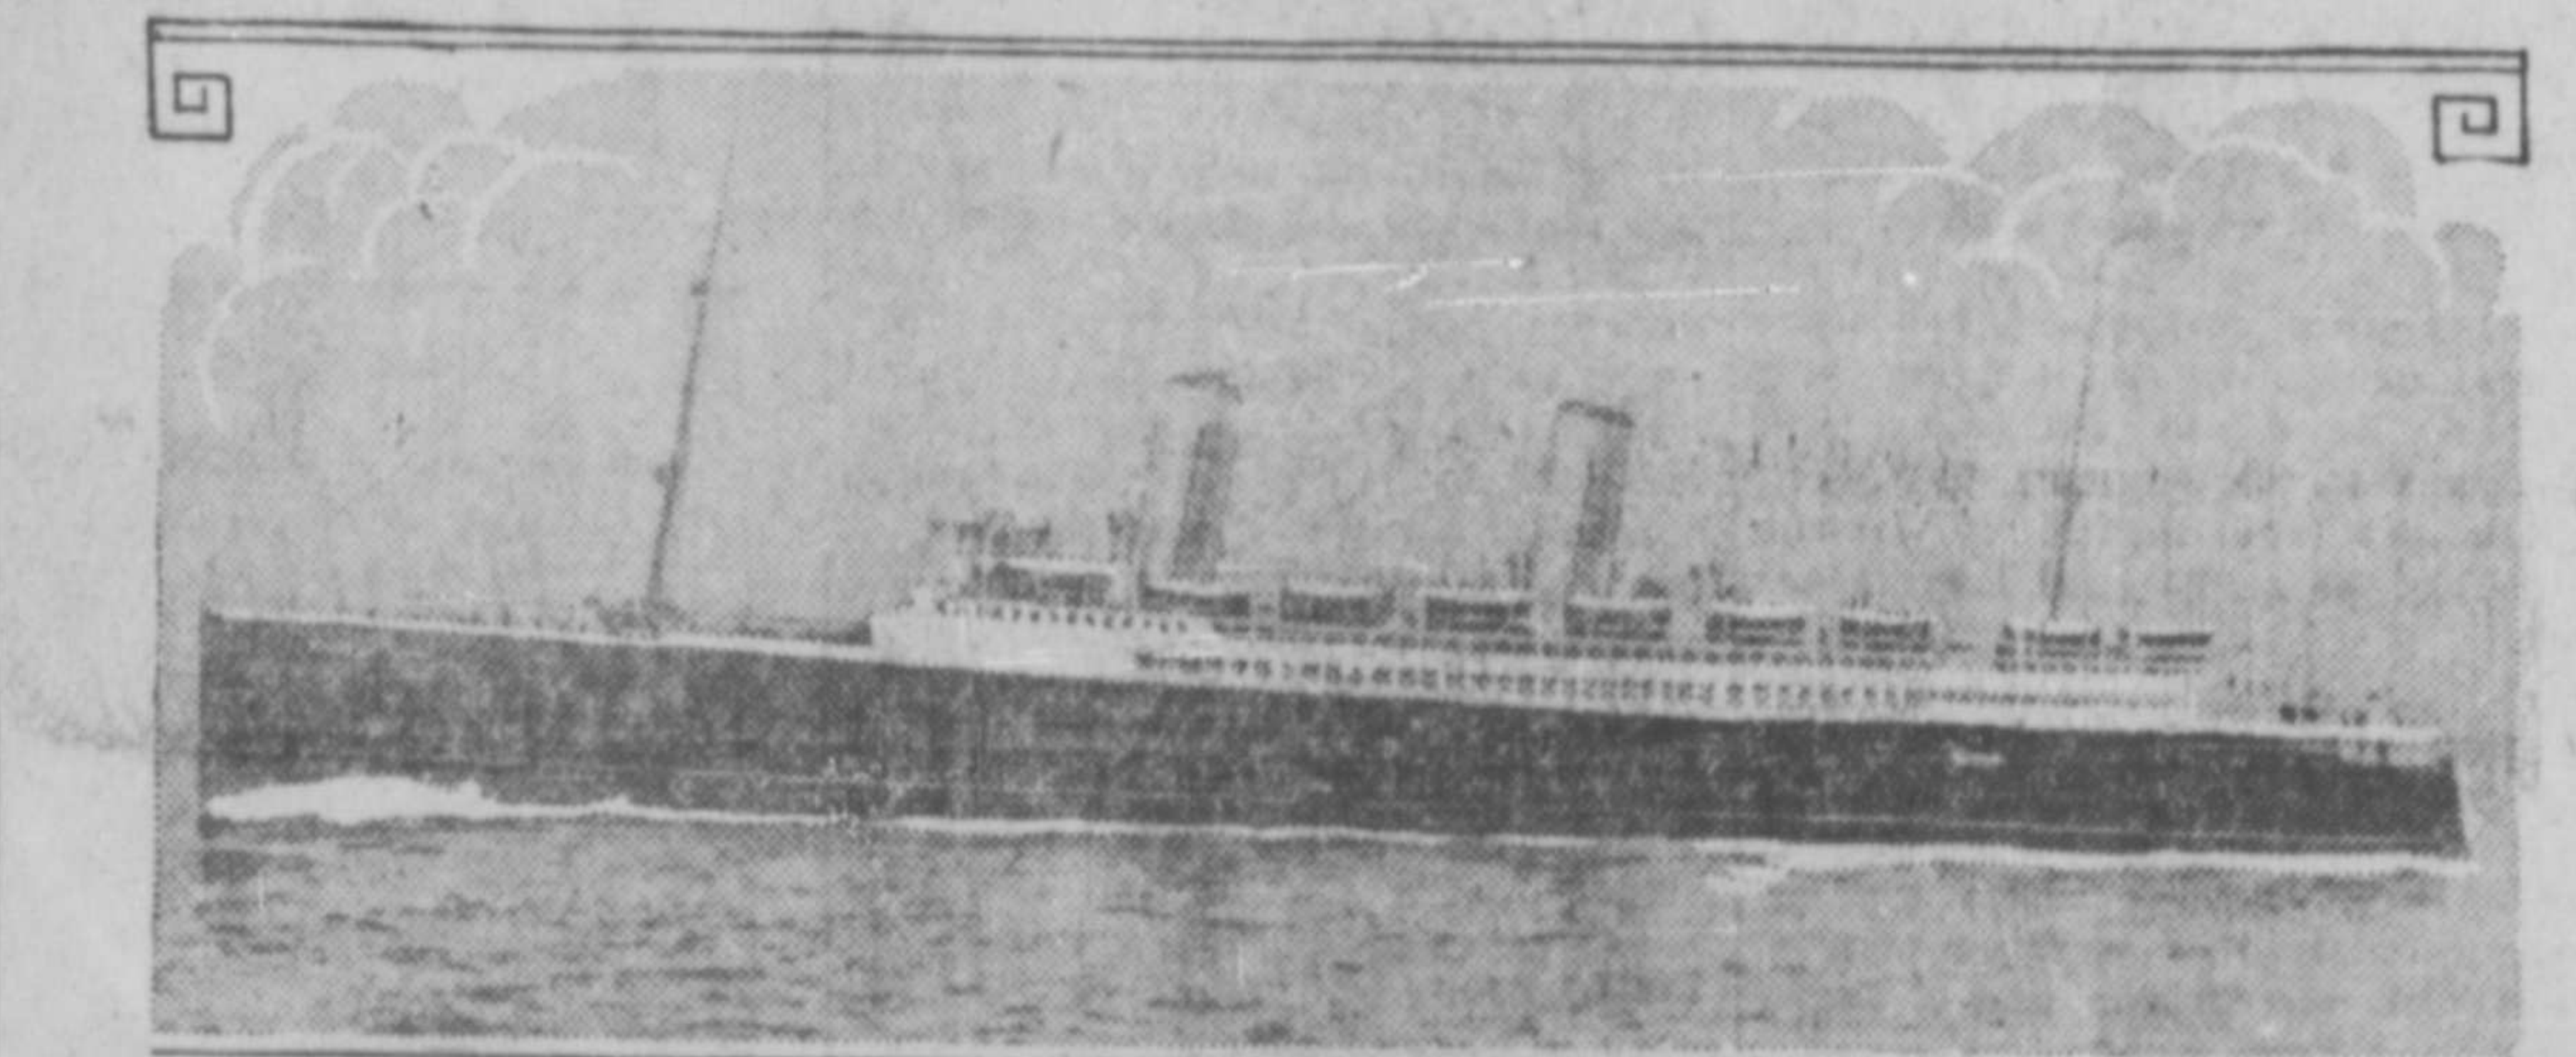

The meet will open on February 11 with hockey matches both morning and afternoon, and there will also be hockey on February 12, 13, 14, 15 and 19. The finals will be on the nineteenth.

There will be horse racing on the ice on Lake St. Moritz on February 12 and a military ski team race. The same day there will also be ski-joring, a sport in which skiers are drawn by the reins of horses they drive in races.

Speed and figure-skating contests will be held on February 13, 14 and 15, with the bob sleigh races in heats on February 16 and 17. The long-distance ski race, 15 to 18 kilometers, will take place February 17, and the ski jumping contest is down for February 18.

H. Wearne, Telkwa rancher, who has been a visitor in the city for a few days on business, returned by this morning's train to the interior.

Empire's Smallest Island Asks for Help

From King George and Queen Mary down to the lowliest of their subjects throughout the Empire, interest has been excited in the distant and isolated island of Tristan da Cunha in the South Atlantic by the voyage of the Canadian Pacific liner Empress of France on its first African-American cruise in the course of which the vessel will touch at the island. Hardly one ship in a twelve-month comes anywhere near the island and the advent of one which carries with it every facility of modern luxury is an event which will certainly be unique.

CURIOUS CURES CANCER CASES

None Satisfactory Found so Far Although 2300 Already Submitted

NEW YORK, Feb. 1.—Twenty-three hundred grandmothers, housewives, amateur scientists and novices, scattered through 27 countries, are certain they have a cure or a preventive for cancer.

They have submitted their remedies, ranging from axle grease to walnut meats, to the American Society for the Control of Cancer in competition for the \$100,000 prize money offered by William Lawrence Saunders, of New York, for a solution of the world's deepest medical mystery.

It is a case of laymen rushing in where professionals fear to tread, for very few of the "cures" offered to date have come from physicians in good standing or from competent research workers.

Other correspondents depend on herbs and roots to win them the awards, extolling the merits of violet leaves, mustard seed, frog ginger, red clover tea, sorrel, "cooked in a brass kettle and applied as a paste with a black ribbon," or fresh cranberry poultices.

Still other applicants for the prize have advocated sea water from North Wales, hypodermic injections of pure oxygen, nicotine, candle grease from a brass holder, coal oil and hot water, roasted walnuts, epsom salts, the sting of insects, the bite of a serpent, or contact with a toad, mole or crab.

Dr. George A. Soper, managing director of the Society, reads each letter carefully, files it away in a scrap book and sends an abstract to the Board of reference, composed of world cancer specialists, which will decide whether a real cure or preventive has been found.

Dr. George A. Soper, managing director of the Society, reads each letter carefully, files it away in a scrap book and sends an abstract to the Board of reference, composed of world cancer specialists, which will decide whether a real cure or preventive has been found.

DOG RACERS GOING EAST

Three Teams Leave The Pas For New Hampshire and Quebec

WINNIPEG, Feb. 1.—Three famous men of the North left Winnipeg for the East yesterday on the Canadian National Railway and with them—not exactly with them, because these others were in the express cars—went the 25 companions which had helped them to their fame.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i. e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that range.

NORTHERN RAILWAYS MADE GOOD RECORDS

Six Million Bushels Hauled so Far Over E. D. & B. C. Line

EDMONTON, Feb. 1.—Grain hauled out over the E. D. & B. C. and the Central Canadian railways for the period from August 1, 1927, up to January 21, 1928, is more than 2,500,000 bushels in excess of the volume brought down from the north for the same period of the last year.

# Stomach Troubles

Of what use is money or food if the stomach fails in its duty and causes you misery?

The healthy person does not, and should not, realize that he has a stomach. Digestion of wholesome and normal foods should be automatic. But this cannot be if the stomach is receiving less than its full supply of vital energy.

When the stomach fails in its functions, two courses of relief are available—you can reduce the quantity and variety of your food to fit its subnormal capacity—or you can have the cause removed by spinal adjustments which restore the flow of vital energy to its full capacity. Which is best. We believe in removing the cause.

## NEW THEATRE SITE MONDAY

Application for Additional Land to be Decided on at Regular Council Meeting

### MANY DIFFICULTIES

Aivazoff Says he Will Build Anyway but Could Build Larger on Deeper Site

In the matter of the application of Miss Aivazoff to obtain from the city twenty-five feet of lane to the rear of the two lots on Third Avenue on which the building of a new theatre is proposed, Mayor McMorde stated this morning that the city council was most anxious to meet Mr. Aivazoff in the matter of a special meeting but there seemed to be no emergency existing which demanded extreme haste or justified the calling of a special meeting. The council would consider the matter in hand, therefore, at its regular meeting next Monday.

Last night, the Board of Works and utilities committee of the city council had meeting when matters arising out of Mr. Aivazoff's application for lane space were considered. The Board of Works meeting was a rather lengthy one but the only statement to be obtained this morning for publication from the chairman, Aid. W. J. Greer, was to the effect that the committee would insist that arrangements be made, in connection with Mr. Aivazoff's application, whereby the lane be

# BRITISH COLUMBIA

The Mineral Province of Western Canada

To the end of December, 1926.

Has produced Minerals as follows: Placer Gold, \$78,018,548; Lode Gold, \$126,972,318; Silver, \$80,787,003; Lead, \$106,976,442; Copper, \$209,967,068; Zinc, \$50,612,557; Coal and Coke, \$284,599,133; Structural Materials and Miscellaneous Minerals, \$50,175,407; making its mineral production to the end of 1926 show an

AGGREGATE VALUE OF \$988,108,470.

PRODUCTION FOR YEAR ENDING DECEMBER, 1926, \$67,188,842

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees. Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HONORABLE THE MINISTER OF MINES,  
VICTORIA, BRITISH COLUMBIA.

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Reports covering of the Six Mineral Survey Districts are published separately, and are available on application.

straightened out clear through from Fulton Street to Fifth Street.

### TRANSMISSION LINE

The utilities committee is interested in the matter through the fact that a heavy transmission line runs through the lane, any alteration in which would involve its moving.

The present indication is that, in consideration of Mr. Aivazoff's application next Monday night, members of the council will have a free hand to deal with it on its merits untrammelled by any committee reports. Certain members of the council are inclined to feel that, in the matter of the transfer itself, the finance committee might be the most logical one to

report. That opinion will be divided on the subject seems apparent.

### MATTER OF SIZE

Mr. Aivazoff stated this morning that, no matter what the decision of the council might be in the matter of the lane, the building of the theatre, along the lines as previously announced, would be proceeded with. The only difference would be in the size of the building. Decision on the matter was desired without delay so the architect might have a definite basis on which to proceed with plans for the structure. Meantime, Mr. Aivazoff stated that excavation work on the site had been halted.

It was also learned from Mr. Aivazoff that negotiations had fallen through for the purchase from the owner in the Old Country of the lot immediately west of the two lots already obtained for the theatre. An offer of \$10,000 for the lot had been refused, Mr. Aivazoff stated. A lease had been offered but Mr. Aivazoff was not desirous of accepting same.

## AT HOME AND DANCE PARTY AT ARMORY

Newly-Wed Officers and Departing O.C. Honored at Delightful Function Last Evening

As a welcome home to Lieut. Pringle and Lieut. E. E. Gregg and their brides and also as a farewell to Col. J. W. Nicholls, officers commanding, and Mrs. Nicholls, who are about to leave on a trip to England, a delightful at home and dancing party was held last evening in the Armory by the officers' mess of the First North B.C. Regiment. Suitable presentations were made to the newly-weds and a farewell gift was also made to Col. and Mrs. Nicholls. Music for dancing was by the regimental orchestra consisting of Bob Greenfield, Tony Rorie and Mr. Smilie. Refreshments were served at midnight and the party broke up about 2 a.m.

## REPRESENTATIVE OF BRITISH GOVERNMENT IS GOING TO OTTAWA

OTTAWA, Feb. 1.—A representative of the British Government is to come to Ottawa, Premier Mackenzie King informed the House yesterday afternoon. During his recent conversations Colonel Amery made that clear, he said. The Premier added that the appointment naturally lay with the British Government.

## SIX APPEALS BEING INQUIRED INTO BEFORE THE COURT OF REVISION

Six appeals are being heard by the Provincial Court of Appeal this afternoon at the Court House, John Dybvain being appeal judge. These are not very important objections to the provincial assessments.

## SEA FISH CATCH FOR BOTH COASTS LARGE

OTTAWA, Feb. 1.—The total catch of sea fish on both the Atlantic and Pacific coasts for December amounted to 71,000,000 pounds valued at \$1,100,000.

## SWORN IN TODAY AS FREE STATE GOVERNOR

DUBLIN, Feb. 1.—James McNeill was sworn in today as Governor General of the Irish Free State.

### CUSTOMS RETURNS LIGHT

Customs and excise collections at the port of Prince Rupert for the month of January were rather lighter than usual, totalling only \$13,354.30, according to announcement made this morning by J. H. McLeod, collector of customs.

### WEATHER REPORT.

Prince Rupert—Part cloudy, light north wind; temperature, 31.

Miss Goetzman of Petersburg, Alaska, reached the city from the north on the Princess Mary this morning and proceeded by train for a trip east.
