# CANADA AN EXAMPLE TO THE WORLD

## FINAL WEEK OF BIG DAILY NEWS CAMPAIGN ENDS FRIDAY

### Premier Mackenzie King Tells the League of Nations Assembly How Canada Settles Differences

Approves Anti-war Pact and Points to Living Example of Treaty Outlawing War Between U.S. and Canada

GENEVA, September 8.—The Briand Kellogg pact for the renunciation of war was praised by Premier King of Canada in an address before the assembly of the League of Nations today.

The premier pointed out that Canada was particularly concerned because of its association with both France and the United States and because of the undefined frontier between the dominion and the United States which he termed a symbol of the policy of the renunciation of war as an instrument of national policy in achieving racial concord and international peace with its great neighbor. Canada for more than a century had fulfilled the two great fundamental principles of the League of Nations. Today public monies were saved and utilized for purposes of productive industries.

The premier referred to the Rush-Bagot treaty following the war of 1812 which confined each naval force on the Great Lakes to four vessels of 100 tons each. That arrangement, like the treaty signed in Paris, was an embodiment of brevity and simplicity and had provided means of escape from competitive arming for the two countries.

The premier also pointed out that every award of the international joint commission so far had been accepted, this body having been set up to settle differences between the two countries by arbitration.

### Communist Movement Causes the Return of Harvesters to Britain Activities Being Investigated

WINNIPEG, September 8.—Communists in Winnipeg are reported to have been active amongst the British miner harvesters who were dissatisfied with conditions in the grain fields and who returned to the city and are now en route to Great Britain.

Communists from Motherwell, Scotland, are reported by the Mounted Police authorities to have originated among the workers a movement to discredit the whole movement of harvesters from Britain and are alleged to have been assisted by several local representatives of the Winnipeg branch of the Communist party in Canada.

A meeting of the harvesters who returned is reported to have been held in the local Communist Hall three days ago and following this pamphlets were distributed calling upon the men to "stand firm and demand their rights and a guaranteed wage."

The pamphlets were not signed by the Communist party official or representative but merely "The Harvesters Committee."

On Friday, following receipt of the reports at local headquarters of the R.C.M.P. investigations was commenced by both the police and immigration authorities.

OTTAWA, Sept. 8.—A statement issued by the department of immigration and colonization regarding the return to the old country of a number of British harvesters, says 328 of the harvesters who left Winnipeg Wednesday and returned to the old country were not returning because of lack of employment but because they organized opposition to accept employment at four dollars a day and some of them were unfitted for harvest work. Their return was brought about in accordance with an understanding between the Canadian and British governments reached in connection with the transfer to Canada recently of several thousand Britishers for harvest work.

### WILL ENFORCE MARKETING ACT

POTATO GROWERS WARNED BY ATTORNEY GENERAL POOLEY THEY MUST COMPLY

VICTORIA, Sept. 8.—Sharp warning to "rebel" potato growers of Ashcroft and other districts that they cannot ignore the produce marketing act, was issued yesterday by Attorney General Pooley. "There will be no leeway in the enforcement of the act for anyone," he said.

### OPPOSE HIGH EXPRESS RATE

VICTORIA, Sept. 8.—Premier S. F. Tolmie announced yesterday that he had confirmed the arrangement made by the MacLean government under which Alberta, Manitoba and British Columbia would carry a joint fight to the railway commission against higher express rates with Isaac Pitblado, K.C., as joint counsel for the three provinces at Victoria.

### COURT SEQUEL POLICE PROBE

FRANK CASIA TO BE COMMITTED ON CHARGE OF PERJURY FOR SAYING MAYOR DRUNK

VANCOUVER, Sept. 8.—Frank Casia charged by Mayor Taylor with having committed perjury at a recent police inquiry, will be committed for trial on September 11 by Police Magistrate Findlay. It was announced today after the hearing of the evidence for the prosecution. The defence was reserved for the higher court by Casia's counsel.

The alleged libel was based on evidence given at the police inquiry when it is alleged Casia swore he had taken six bottles of wine to Shaughnessy Heights home of Joe Celona and saw Mayor Taylor there "paralyzed drunk." The mayor testified yesterday denying he had ever been intoxicated in Celona's home. Celona corroborated the Mayor's evidence.

### EXCURSION WAS VERY ENJOYABLE

Though the number making the trip slightly over one hundred and fifty persons was not as large as might have been expected, the moonlight cruise to Ogden Channel aboard the palatial C.P.R. steamer Princess Royal last night was a very enjoyable voyage. The ship left the government wharf at 8.15 p.m. returning at 1 a.m. The weather was auspicious and, while the moon was a little late in coming up, there was a beautiful aurora borealis all evening.

There was dancing on deck with tune-some music furnished by an eight-piece orchestra led by Bobby Arthur Jr. Refreshments were served in the dining saloon. Comedy stunts by Claire Downie and Daredvil Lundie, both of whom will perform at the Exhibition next week, provoked much wholesome amusement.

Capt. Albert Rippon and officers and crew of the Princess Royal did everything in their power to make the trip a pleasant one for the excursionists.

The committee responsible for the success of the event, the second of its kind this season, consisted of Bert Morgan, E. C. Bayliss, W. E. Willisroft, H. F. Fraser, Eddie Clapp, J. J. Mulligan and A. Donald.

### SOLICITOR CHOSEN BY THE GOVERNMENT

Oscar Bass of Victoria to Act as Departmental Advisor at Salary of \$3,700

VICTORIA, Sept. 8.—Oscar Bass, veteran Victoria lawyer and former journalist, has been named departmental solicitor and his duties will be to act as general advisor to all departments. He will come under the deputy attorney general, a position left vacant by the resignation a year ago of John W. Dixie, who became registrar of the supreme court at New Westminster.

### NEW HOSPITAL CLASS FOR TRAINING NURSES

A class of five new probationers will be admitted to the Prince Rupert General Hospital training school for nurses on Monday. Miss Jean Harrison, R.N., lady superintendent, announces. The class consists of Miss Ivy Alger of Uak; Miss Edna Gilker and Miss Katherine Harvey, Prince Rupert; Miss Mabel McIntyre, Smithers; and Miss Fanny MacLaren, Terrace.

George Taylor, C.N.R. travelling auditor, who has been in the city for a few days on official duties, sailed last night on the Prince Rupert to make the round trip to Anyox and Stewart and will return south on the same vessel this evening.

### UTILIZATION OF DOCK URGED

PRESIDENT OF BOARD OF TRADE TAKES UP MATTER WITH MONTRÉAL AUTHORITIES

At the first autumn meeting of the Board of Trade held in the council chamber last night, President J. W. Nicholls told of his activities on behalf of the board at Ottawa and Montréal where he interviewed officials, particularly in regard to having the big freight dock here utilized for handling canned salmon.

At the present insurance rates are so high to make this possible but if a sprinkler system for fire protection were installed it would be possible.

Mr. Nicholls told of the industry that would develop in labelling cans if the big shed were used for that purpose. Mr. Nicholls was authorized to continue to press the matter with the railway authorities.

### Terrace Prospector Found Bear Asleep In Front of Cabin Door Clubbed, Then Shot Him Dead

TERRACE, September 8.—T. M. Turner Sr. has a real bear story to tell this week and also has the bear to prove its authenticity. Tommy has been prospecting around his claims in the Williams Creek district recently and on arrival near his cabin the other day found articles of clothing and food strewn along the path, presumably the work of a bear.

Coming nearer the cabin Tommy got the surprise of his life at finding a huge cinnamon bear asleep in front of the cabin door, and worse luck, his rifle was inside the cabin.

Further signs of more depredations on the part of the bear so worked on Tommy's Scotch blood that he immediately went at the huge animal with a club and beat it away from the door. Then he slipped inside, got his rifle, and finished the bear. He says that henceforth his rifle will be a part of his pack on all prospecting trips.

### STAMPEDE FOR THE FISHERIES

OLD TIME RUSH TO DUTCH HARBOR IN ALASKA OF PEOPLE FROM ALL ALASKA

SEWARD, Sept. 8.—A stampede worthy of the old gold rush days was reported here yesterday but not for gold. The unprecedented run of herring at Dutch Harbor is reported to be drawing fishermen from the far east as far as Kodiak and as far north as Bristol Bay. Coming in every kind of boat men and women literally swamped the little Unalaska Island village, said the men aboard the Redondo, which arrived here yesterday with 800 barrels of fish.

Almost overnight Dutch Harbor was transformed from an infrequent shelter for ships to a crowded city of tents, men on the steamship declared. The old dance hall was turned into an improvised bunkhouse to quarter those who otherwise might be shelterless.

Reports of fishermen making hundreds of dollars a day started the rush. More than fifteen thousand barrels of herring are reported to have been packed already while an equal amount of live fish is being held in nets until it can be barreled. Enthusiasts predict that perhaps more than 50,000 barrels valued at more than a million dollars will be caught by the end of the month.

Alaska steamship companies have sent vessels on two special trips with supplies for the stampeding fishermen.

### BURNS LAKE MAN SUCCUMBS HERE

The death occurred this morning in the Prince Rupert General Hospital of Eric Bergloff, Burns Lake carpenter, who had been a patient in the institution for some time. He was 69 years of age and was a native of Sweden. Surviving relatives include a daughter who has been here with him since he has been ill. Funeral arrangements are in the hands of the B.C. Undertakers.

### NEW GRAIN IS MARKETED

BIG LEAD ALREADY OVER LAST YEAR AT THIS TIME IS REPORTED BY RAILWAY

WINNIPEG, Sept. 8.—Nearly four million and a half bushels of grain, more than were marketed in the corresponding period last year, were marketed along the lines of the Canadian National Railways during the week ending Thursday. The total for the week was 5,462,000 as compared with 1,142,000 last year.

Cars loaded totalled 2,370. The figure last year was 578. In bushels this is 1,095,000 and 711,000.

Since August 1 four million and a quarter bushels have been loaded which is double the amount of last year. Saskatchewan marketed the bulk of the grain, 3,218,000 bushels, and Manitoba came next with 1,930,000.

### CONDITIONS IN YUKON COUNTRY

BISHOP STRINGER DESCRIBES LAND OF EXTREMES IN WHICH HE HAS LIVED

CHANGE BROUGHT ABOUT ALMOST ALL NORTHERN PEOPLE ARE NOW EDUCATED AS RESULT MISSIONARY EFFORTS

Comparing conditions existing today with those he had found in that remote part of the continent thirty-six years ago when he commenced his missionary work there, giving some of his ideas of the future of the country, describing the ways of the people and illustrating with well drawn mental pictures the nature and some of the hardships of the land, Rt. Rev. Isaac O. Stringer, Bishop of the Yukon, gave last night before the Women's Canadian Club what he chose to call a rambling talk but which proved to be one of the most interesting and informative addresses the organization has had the pleasure of listening to in many a day. The function, taking the form of a banquet, was held in the Commodore Cafe, the seating capacity of which was taxed to its limit. husbands and gentlemen friends of the members being in attendance in large numbers in addition to many ladies.

Mrs. J. C. McLennan, president of the club, occupied the chair in her usual capable manner and Rt. Rev. P. T. Bovey, Bishop of Alaska, an unexpected guest, also spoke briefly.

INDIANS AND ESKIMOS Bishop Stringer told his hearers that in that vast and remote country lying between the mouth of the Mackenzie River and Herschel Island there were two classes of natives—the Indians who dwell in the interior and the Eskimos who lived on the Arctic coast. He referred briefly to the weather of the land. Two months of the year the sun never set and for two months (continued on page six)

### Candidates Enter Final Week in Big Campaign

Promptly at 9 O'clock Next Friday Night The Daily News' Automobile Campaign Comes to an End

The Prince Rupert Daily News' free gift distribution has now entered the fourth and final period. On the stroke of 9 o'clock next Friday night the campaign will come to a final close forever.

When the campaign has been declared closed next Friday night, the judges will break the seals, unlock the ballot box and begin to count. Results will be bulletined as soon as the count has been finished and the judge's statement showing the winners will be published in the following issue of The Daily News.

The last vote count will be published in an early issue (probably next Wednesday) including all votes cast for publication up to the end of the third period.

Votes earned during this final period will not be known until the close of the campaign, because returns will not be made to the campaign department but will be placed in the sealed ballot box.

In this way, the standings of the candidates will be known to no one, precluding any possibility of favoritism and giving everyone an equal opportunity for the rich prizes.

SET FOR LAST STRETCH The wind-up of the third period Friday night saw all entrants primed for the dash down the home stretch. Thousands of votes from subscriptions and coupons were earned by the candidates and hundreds of points were chalked up to the credit of the contenders in the new \$200 competition which closed last Friday night.

Full details and instructions regarding the closing of the campaign will be published in The News next Monday, and it is the duty of every candidate to be familiar with them. While no further subscriptions or votes will be accepted through the campaign department, final reports being placed in the ballot box, campaign headquarters will be open each evening all week up to 8 o'clock to issue supplies, give information and check up campaign accounts to the end of the third period.

SHOULD CHECK RETURNS Every candidate is expected to check up and compare his or her records to the end of the third period with those period with those of the management and verify and attest to the correctness of them, both as regards total votes and points earned and gross sales reported. You must check and verify your vote and cash totals not later than 8 o'clock Wednesday night, September 12.

All remittances for subscriptions turned into the ballot box this final week must be in the form of cash, money order, bank draft or certified check for the full amount to cover. Personal checks will positively NOT be accepted. This rule is made in fairness to all concerned and will be strictly adhered to.

The final period schedule offers every candidate exactly the same vote making opportunities. There are no final favors, inducements, or advantages. The schedule is the same for everyone. It can be just as profitable for the candidate as his or her ability and industry warrant.

### CONSOLIDATED IS ASKING FOR ROAD UP THE BEAR RIVER

VICTORIA, Sept. 8.—Officials of the Consolidated Mining and Smelting Co. interviewed the provincial Government yesterday asking that work be speeded up on construction and extension of the road up Bear River from Stewart where the company is heavily interested in mining properties.

NOTICE TO EXHIBITORS Special Notice to Exhibitors re Robin Hood Flour! The Robin Hood Mills Ltd., Calgary, Alberta, offer one 98-pound sack, one 49-lb. sack and one 24-lb. sack of Robin Hood Flour as first second and third prizes respectively for bread made from Robin Hood Flour. Contestants to purchase same from their grocer, attaching sales slip to entry form.

### OPPOSITION TO GOVT. PILOTAGE

VANCOUVER, Sept. 8.—Because government control of British Columbia pilots would be inflexible and unsympathetic to changing needs it would not be satisfactory, declared H. A. Stevenson, manager of the Canadian Transport Co. at the pilotage commission yesterday. He did not believe the adoption of compulsory pilotage would be advisable. He agreed, however, with the policy of pooling the earnings of the pilots to the extent of assuring every pilot a living wage.

### MANY ATTEND LOCAL SCHOOLS

NUMBER NOW IS ABOUT 1230 INCLUDING ST. JOSEPH'S ACADEMY

There are 1104 pupils in the public and high schools of Prince Rupert in addition to something like 120 in the Catholic school. This is the largest school registration Prince Rupert has ever known and is an indication of a steady increase in the population and the more settled nature of the city. At Booth School 68 new pupils have entered. Borden Street 36, Westview 7 and the receiving class at Seal Cove has 20 pupils.

A new teacher, Miss Olive MacArthur, has been appointed to the public school staff and will probably go to Seal Cove, allowing Miss Lamb to take the new receiving class at Booth School.

Another result of the increase in the number of pupils in the schools is that manual training and domestic science departments are overtaxed with the result that High School students have to be denied the privilege of these classes.

### RACING SEASON CLOSES SOON

VICTORIA, Sept. 8.—The British Columbia racing season will close with the meet which will be held at Colwood Park, commencing Saturday. For seven days the ponies will be in action on the mile track. Then, with the seventh race on the seventh day, the barrier will be sprung for the last time this year and flashing colors and the thudding hooves will be heard no more until the Summer of another year is here.

**SIR AUSTEN CHAMBERLAIN**

"He leaned not on his fathers, but himself." There are two Englishmen very much in the public eye to whom this phrase of Tennyson's could be applied. One is William Temple, Archbishop-Designate of York, whose father was Archbishop of Canterbury and one of the greatest influences on English thought and practice in the mid-Victorian period. The other is Austen Chamberlain, Knight of the Garter and Secretary for Foreign Affairs, who is shortly to pass through Canada after the voyage by which it is hoped he has a full measure of health.

Sir Austen Chamberlain will be 65 years of age in October. Thirty-six of those years have been spent in the House of Commons. For the first 20 years he was regarded, even by the most charitable of his political critics, as merely the pale shadow of his famous father, Joseph Chamberlain, who to the present generation is little more than a tradition notwithstanding that he made as deep an impress upon British politics as any statesman of his period.

Austen, the son, entered the House at a time when his father was wiping off the mildew from the Colonial Office and exhorting Britishers to "think Imperially." It was small wonder that, with such a father on the Front Bench, there was small opportunity for the time being for the son to draw much attention. Probably the remarkable resemblance between father and son was something of a hindrance to the latter. Both carried themselves with a certain starchiness. The monocle which they affected made them appear still more stand-offish. Even the monocle did not save them from being so near-sighted as to be unable to recognize acquaintances at any distance beyond a few feet.

**CHANCELLOR TWICE**

Sir Austen Chamberlain has been chancellor of the exchequer twice. The first occasion was when his father resigned to conduct his campaign for Imperial Preference in the country, and when, as opponents declared, Austen "held the keys of the safe during his father's burglarious campaign." The second period in which Sir Austen was chancellor was in the Coalition Government of 1918, when he produced the Excess Profits Duty as a substitute for the Capital Levy proposed by the Labor Party. Of the break-up of the Lloyd George Coalition it is only necessary to recall that Sir Austen refused to believe the time had arrived for a break. The refusal left him with no place in the Bonar Law cabinet. When Premier Baldwin formed his second cabinet, though, Sir Austen was brought in as foreign minister.

It was asserted by his political foes that he knew nothing of Europe. They ignored the fact that he was a perfect master of French and that a large proportion of his education had been imparted to him on the continent. The time, of course, is far ahead when a really just appraisal of Sir Austen's foreign policy is possible. Just now he seems to have risen to his full stature as a statesman by securing the signing of the Locarno Pact. For this he was accorded the Knighthood of the Garter, the highest honor which is in the power of the Sovereign to bestow.

Sir Austen follows his father's example in his fine capacity for loyalty. Despite his outward aspect of reticence his intimates speak of him as a warm-hearted man, and, as his father was, intensely devoted to his family. In public speaking he has now a decidedly lighter touch than formerly. Once or twice he has been seen wearing horn-rimmed spectacles, but he is never likely to give up the famous eye-glass that increases his resemblance to his great father. He sits nowadays for his father's old constituency in Birmingham, his brother Neville sits for an adjacent constituency. Treaties and pacts may fail, but Birmingham will never desert the Chamberlain family.

**AROUND PRINCE RUPERT**

Romance of Babine Bonanza—Star and Dany Starts Development at Stewart—Virginia and Crest Consolidated Make Progress

With the bonding by the Alexandria Gold Mines Ltd. of the Bonanza mine in the Babine range, north of Telkwa, this section of the country appears at last to be coming into its own after many years of disappointment for the Consolidated Mining & Smelting Co. Ltd. recently took over the Harvey group and adjoining claims to the number of thirty on Driftwood Creek, north of Smithers, writes E. A. Haggen, editor of the Mining & Industrial Record. The ore on the Harvey group is copper, carrying high silver values, while that at the Babine Bonanza is silver-lead-zinc. The Alexandria Gold mines Ltd. also had an option on the Hyland Basin group, adjoining the Bonanza, but did not consider the terms sufficiently attractive to go any further with it and dropped it. The Babine Bonanza recalls much of the romance of the early history of mineral industry of British Columbia centering around Rev. Father Cocola, known in southeast Kootenay as the "Napoleon of the Church," and the late Jim Cronin, the Irish miner and prospector of the Couer D'Alenes. The names of Father Cocola and Jim Cronin will ever be associated with the history of the St. Eugene mine, which, until the development of the

to work to develop the Babine Bonanza and met with remarkable success, making open cuts, sinking shafts and running tunnels until he had proven the largest tonnage of any mine on the market in the province. The reserve tonnage proved up has been estimated at between 40,000 and 50,000 tons of ore and it can be cheaply mined. On the other side of the hill one large outcrop can be mined by quarrying at a cost of 25 to 30 cents per ton. A sleigh road was built from Telkwa to the mine; the mine is well equipped with camp buildings; the economic geology is favorable; ramifications of the dykes promise large tonnage, and the ore deposits are similar to those of the famous Noranda mine in Quebec. The reopening of the Babine Bonanza mine cannot fail to have a stimulating effect on mining development in all Northern British Columbia.

Since the commencement of regular production by the Premier mine until the end of 1927, a period of eight years and one month, the total quantity of ore mined, milled and shipped was 1,069,649 tons. The total production of the metals in this period has been 748,826 ounces of gold and 21,498,586 ounces of silver. The total profits for the period referred to making all deductions, was \$14,884,179. Distribution to the shareholders being \$11,884,179. Diamond drilling on the property to date aggregates 79,307 feet and underground workings 50,511 feet.

The Star & Dandy Mines Ltd. has instituted development work on its property at Stewart and it is the intention of the company to continue working all winter in the main tunnel, an extension of less than 100 feet of which should reach the vein for which it was started. In addition some work may be done on or near the surface showings. Capt. Gaul, who had charge of the property when the Victoria Mines owned it, is now in Stewart laying out the development program. An arrangement is being made to take old shareholders of the Victoria Mines Ltd. into the new company.

Ernest S. Parker of Winnipeg, accompanied by his engineer, F. J. Crossland of Vancouver, has been visiting the Stewart district and looked over several properties, including the Premier and Woodbine, spending a week on the property of which he is president including the Virginia and consolidation of other groups and the Crest Consolidated. Both Mr. Parker and Mr. Crossland state that it is their intention to carry on exploration work with a view to developing commercial ore within the area of these properties. They have accomplished over 800 feet of underground development since operations commenced in March. The company is adequately financed and has no stock for sale.

**PIONEER WOMAN OF CITY PASSES**

MRS. MARTHA LEAK SUCCEMBED YESTERDAY AFTERNOON FOLLOWING LONG AND SERIOUS ILLNESS

Many friends will join with the sorrowing family in mourning the death of Mrs. Martha Leek, pioneer and respected woman of this city, whose death occurred yesterday afternoon at 4:15 in the Prince Rupert General Hospital as the culmination of a long and serious illness which was borne with fortitude and patience. It was realized some weeks ago that the deceased had no possible chance for recovery but her demise, nevertheless, has come as a great shock to many friends and acquaintances as well as the family.

Born in England 59 years ago, the late Mrs. Leek had lived twenty-two years in British Columbia and twenty years in Prince Rupert. She was active in many forms of charitable and benevolent work and took a prominent part in the affairs of the Pythian Sisters and Ladies' Orange Benevolent Association as well as other organizations.

Besides the widower, George Leek, resident in the south of the province, the late Mrs. Leek is survived by two sons—Theodore and Everett—and three daughters—Mrs. Alex. McRae, Miss Edith Leek and Miss Doris Leek—to all of whom general sympathy will be extended in their bereavement.

The funeral will take place at 4 o'clock tomorrow afternoon from St. Andrew's Anglican Cathedral to Fairview Cemetery. Bishop-Elect G. A. Rix officiating.

**IS OPPOSED TO PILOT CHANGES**

LOCAL BOARD OF TRADE ASKS TO HAVE MATTERS STAND AS AT PRESENT

The local board of trade last night went on record as opposed to compulsory pilotage and will ask to have pilotage matters as pertaining to Prince Rupert stand as at present.

The decision was arrived at following the reading of a report on the matter from a committee which had investigated.

# There ARE bargains in Cost per mile

YOU often hear of people getting bargains, but none ever seem to come your way. You wonder why. Sometimes you are tempted to believe that bargains don't exist . . . there must be a catch . . . somewhere!

Yet there is one thing that really is a BARGAIN . . . and that is, a good used car, properly represented and fairly priced.

The Used Cars we offer are bargains in cost-per-mile of easy transportation. The actual first cost of these cars is extraordinarily low. But they give you more than dollar for dollar value—a tremendous saving in cost per mile that constitutes the bargain.

We represent a car of world-fame—the "Bigger and Better" Chevrolet. We have a large stock of Good Used Cars that are quite definitely BARGAINS.

Come round and see them. Then you will know that they offer more miles of dependable, comfortable transportation for every dollar you spend.

GOLDBLOOM'S SALE OF LADIES' FUR COATS

Would you like a fur coat? And would you like to get it at one third less than the regular cost? Of course you would. Who wouldn't? The thing to do, then, is to visit Goldbloom's the old reliable fur dealer. Goldbloom is having a sale of furs before he leaves for New York. He goes next week to arrange for his purchases of raw furs and until he leaves, every article in his store is being offered at real sale prices—one-third below the ordinary price.

After twenty years in business in Prince Rupert, Goldbloom prides himself on the number of his satisfied customers. He guarantees every article he sells to be as represented and to give satisfaction—with a money back guarantee. And no one can do much better than that!

So see Goldbloom this week about that fur coat, before he leaves for the east.

Seineboat Horseshoe Sinks Near Lowe Inlet—Bill Shruballs Leaving North—Kelpie Goes Down in Cow Bay

The seineboat Horseshoe, which dragged her anchor in Metlakatla passage about a year ago and went ashore, an Indian, Charlie Auckland, being drowned as he attempted to go to the rescue of the vessel in a skiff at that time, again came to grief on Tuesday of this week when, overlaid with fish she was delivering to a cannery, she started to fill and finally sank in rather deep water while an attempt was being made to beach her. This second accident to the Horseshoe occurred at Seven Mile Point, a short distance south of Lowe Inlet. The vessel, which is owned by R. G. Johnston, manager of Inverness Cannery, was uninsured. There is some delay in getting salvage operations launched. The vessel is 50 feet long and is equipped with a 20 h.p. gas engine.

While outbound on her last trip to the fishing grounds, the Prince Rupert halibut boat Verna, Capt. Pee Thompson, rammed the Canadian Fish & Cold Storage Co.'s fish packer Fredelia near Green Isd. The Verna suffered a broken stem but was, otherwise, in sound condition so finished her trip and, after landing her catch this week, was repaired at the McLean Ways at Seal Cove, little time being lost before she proceeded on another trip.

Trollers are still active in the Prince Rupert district and are meeting with fair success in coho fishing. At Warke Canal, many boats are still engaged in this fishing, gasboats around the mouth of the canal and hand trollers in the canal. Trolling will still be going on to considerable extent for another month yet.

William Shruballs, since the early days identified with the fish curing business in Prince Rupert and more recently established in Ketchikan, has decided to make another move. He is spending two or three weeks in Prince Rupert before proceeding to the Middle West states to take up an attractive proposition that has been offered him. Mr. Shruballs is accompanied by his wife.

**HAD SEVERE COLD**

Harry Daggett, wharfinger of the government wharf, is about again after having been confined to his home for a day or so at the first of this week with a severe cold.

Shagscow Bobolink, Capt. J. D. Watson, arrived in port Thursday afternoon from the Skeena River for coal and other supplies, going out again the next morning.

One of the most handsome and palatial yachts that has been seen here this season was the Helena B., property of Newton Burdick, president of the Vancouver Dry Dock & Salvage Co. and other important coast marine concerns, which paid her first call in Prince Rupert on Tuesday, being on her way to Stewart with her owner for an inspection of Portland Canal mining properties in which he is interested including the Georgia River Gold Mines Ltd. of which he is a director. Seventy-five feet long and having been completely reconditioned last winter, the Helena B. is about the last word in appointments and modern fittings including shower bath, fireplace, dining saloon and stateroom accommodation for ten persons. She was built in Hong Kong and is of teakwood throughout. The vessel is equipped with a 175 h.p. Hall-Scott engine with reduction gear which gives her a cruising speed of about ten miles per hour. She has been spending two days at Georgia River and two days at Hyder and is due to touch here again tomorrow southbound. Alex. Saint, formerly identified with the Prince Rupert Boat House here, is engineer on the Helena B. which has a crew of four men.

The Helena B. arrived here at 1 o'clock Tuesday afternoon, it having been the intention of the owner to spend the afternoon in Prince Rupert, but, when an urgent message came in from Port Simpson to rush fire fighting equipment there on account of the conflagration raging in the village, the owner offered his boat for the purpose and she was soon away, continuing through to Stewart.

Indian Agent W. E. Collison, Dominion Constable A. J. Watkinson, Hugh Smith of the city fire department and Special Provincial Constable William Robb, who went out to Port Simpson on the Helena B., returned to town later in the evening on the Pachena which was sent out to get them.

**TO FLOWERY KINGDOM**

U. Suga, well known Prince Rupert boatbuilder, left at the end of last week for Vancouver enroute to Japan where, accompanied by Mrs. Suga, he will spend the next three or four months visiting his native land. One of the principal factors actuating Mr. Suga in making the trip at this time was in order to attend the coronation of the new Emperor of Japan which will take place on November 11 in Tokio.

"Only one more week before the hunting season" is heard at all hands along the waterfront, referring to the opening of the deer shooting season on September 15, exactly one week from today. As usual, a number of parties are being planned for the first weekend of the season although hunting conditions are not usually at their best around that time. The season for activity of the nimrods will get in full swing when shooting of geese and ducks becomes legal on October 15. Surely the winter days are almost upon us!

Prince Rupert Salvage & Towing Co.'s power tug Pachena is again on the

Naas River—Arrandale.  
 Skeena River—Inverness and Claxton.  
 Central Division—Lowe Inlet, Bute-daje, Klemtu and Walker Lake.  
 Bella Coola—Namu and Tallieho.  
 All canneries in Rivers Inlet and Smith's Inlet are now closed for the season.

Halibut landings at Prince Rupert for the present season up to September 7 stood at 19,327,500 pounds as compared with a total of 19,169,950 pounds at a similar date last year. Canadian landings for this season, standing at 6,120,500 pounds, are close to a million pounds in excess of 1927's 5,373,000 pounds and a similar date while American landings were down from 13,796,300 pounds to 13,207,300 pounds. This year's total landings to date are down about 600,000 pounds from the record year of 1925.

During the week of September 1-7 inclusive a total of 665,000 pounds of halibut was landed here consisting of 493,000 pounds American and 172,000 pounds Canadian. Prices remained at a fairly good level, the high bid of the week for American fish being 14.8c and 8c which the Lenore received for 15,000 pounds while the high Canadian price was 12.9c and 7c received by the M. M. Christopher for 11,000 pounds. The low price of the week for American fish was 11.2c and 5c and for Canadian, 11.3c and 7c.

**A CONSISTENT WINNER**

If there is anything in a name "Victor," the prize horse of the Canadian National Express, at Winnipeg, has proved it. Entered at a number of horse shows and fairs in Western Canada, "Victor" has scored an impressive list of triumphs in competition with the best horses of his type in the west. His record is as follows:

1926—The silver cup at the Winnipeg Horse Show. 1928—Three firsts at Carman Fair, June 29-July 2: Livery, mare or gelding in harness class; road class; trotters or pacers.

Portage Industrial Exhibition, July 9-11: 1st in roadster class; 1st in single delivery class; 2nd in heavy harness class; 2nd in best harness horse class. In these events he beat a horse which cost over \$2,000.

Saskatoon: 1st, best equipped road horse; 2nd, light delivery; 2nd, heavy delivery; 3rd, best road horse; 4th, heavy harness horse.

**Candidates Attention**

On next Friday, September 14, the Prince Rupert Daily News' automobile and subscription campaign will come to a final end.

As announced at the beginning (in No. 19 of the rules and regulations) the last period will be under a sealed ballot box. This system insures absolute fairness to all concerned as no one, not even the Campaign Manager or the Publishers, will know what the individual candidates are doing this last period.

Full details and instructions governing the last week will be printed in next Monday's News. It is the duty of each candidate to study these instructions carefully. If any feature is not perfectly clear to you, you should confer with the Campaign Manager.

Next Tuesday and Wednesday have been set aside as days in which candidates are to come to this office and check and verify their vote, cash and point totals with those of the Campaign Manager. Get your totals ready now, and come in either Tuesday or Wednesday to check with the records this office has for you.

Please be very careful in filling out the subscription stubs, always write or print the name, address and amount plainly so there can be no mistake in crediting the subscription. Be sure your name is signed to each stub or coupon you turn in.

There can be no more stalling or taking promises now, as the campaign ends forever on next Friday.

ATHLETICS TIE WITH YANKEES

CONNIE MACK'S FORCES HAVE SLIGHT ADVANTAGE OF RIVAL FOR FIRST PLACE

NEW YORK, Sept. 8.—After fourteen weary years of waiting and experimenting with untried players Connie Mack, leader of the Philadelphia Athletics, is again on the threshold of the promised land, the American League pennant and the world series playoff. All this as a result of the Athletics' double victory yesterday over Boston and the double downfall of the Yankees at the hands of Washington's Senators. Today the Mackmen and the Yanks are theoretically tied for first place but the Quaker City men have a slight advantage as they are coming on with a rush while New York is faltering. St. Louis boosted their lead in the National League to five games by trouncing the Pirates while the Cubs were defeating Cincinnati.

NO SITE YET

No site has yet been decided upon for the mill the National Airplane Spruce Co. proposes establishing in this city. Messrs. Black and Armstrong of Kewanee, Illinois, principals of the venture, stated this morning. Several locations have been inspected but none of them have been just what is wanted.

CONDITIONS IN YUKON COUNTRY

It was never seen. The land was one of extremes in meteorological conditions, in summer being uncomfortably warm at times and in winter intensely cold. The speaker described the flora of the country including its wealth of wild flowers and its adaptability for producing such hardy vegetables as potatoes, cabbage, cauliflower, lettuce, etc. Transportation was the big problem.

of the country and Bishop Stringer predicted that the use of the airplane would some day make the trip between the Mackenzie and Yukon River divides popular as a tourist route. It would soon be possible to make the trip from Edmonton by this route down to this part of the coast in six weeks whereas it had formerly been all that could be done in a season.

TRANSPORTATION CONDITIONS

Bishop Stringer referred to pioneer conditions as he had found them when he first went in thirty-six years ago and compared them with conditions as prevailing today. In those early days one was fortunate to receive mail once a year. Now it came much more frequently with improvement of transportation facilities.

A great change had also been wrought during that time in the customs and beliefs of the native people. Whereas, they had no written language three decades ago, almost all of them could now write the native language and many were proficient in English. Their attitude had changed from one of antagonism and indifference to one of peace and understanding and the teachings of Christianity had met with great success. Bitter wars which had been waged between the Indian and the Eskimos had now practically disappeared. The speaker referred to modes of transportation in the north as well as living conditions of the people now and yesterday. Owing to extremities of the weather, travel in the winter was even yet difficult. Airplanes would do much to solve the difficulty of transportation and open up the country.

Bishop Stringer paid tribute to the early pioneers of the north country and referred to the great helpmate he had had in his own wife who had lived for thirty years or more in that remote country with him, facing hardships and difficulties resolutely with much courage. Mrs. Stringer had been the first white woman to make the hundred mile trip across the Mackenzie-Yukon divide by foot. Concluding his address, Bishop Stringer urged that the helping of the downtrodden people of the world living in darkness not only in such remote regions but even in the great cities was a work in which all citizens might engage. To uplift the fallen and help those who were down, to exhibit civility, kindness and good cheer among all the people of the world was a mission more gratifying than any to the soul. Miss E. G. Lenox, M.D. moved a
