Premier Mackenzie King Gives Address at Brandon Fair and Deals With Important Issues

BRANDON, Man., Aug. 7.—Having regard to the present industrial development of Canada and the position of the country in regard to other countries, the Liberal party holds the view that the greatest good to the greatest number could never be effected by going to extremes in the matter of the tariff, Premier Mackenzie King declared in an address before a large gathering at the fair grounds yesterday afternoon. Tariff for revenue afforded the necessary means of raising part of the revenues required to carry on the Government and the "happiest means of avoiding extremes," he continued.

TAKES HER OWN LIFE

Suicide Follows and No One to Witness Tragedy But Four-Year Old Child

SASKATOON, Aug. 7.—Witnessed by only a four-year old child who heard shots and returned to bed thinking they were fireworks, a double tragedy occurred in the school house at Mikado, Sask., early Saturday, according to advices received here yesterday, which cost the lives of Norman McLeod, teacher, aged 40, and his sister-in-law, Annie Fylawks, 21.

The girl shot the man with a 25 calibre revolver and then turned the weapon on herself, dying instantly. McLeod was shot three times in the head, chest and heart. The coroner's inquest decided that McLeod was shot while in bed and staggered out only to receive other bullets. No motive was found.

McLeod was a married man with three children. His wife was in Canora hospital at the time of the tragedy, having given birth to a son six days ago. The man came from Nova Scotia six years ago and was well liked.

SMASHED COMBINATION SAFE AND TOOK CASH FILES SUIT FOR DIVORCE

Doris Dean in Action Against Roscoe Arbuckle Tells of Wild Party

LOS ANGELES, Aug. 7.—Doris Dean, screen actress, yesterday filed a suit for divorce against Roscoe Arbuckle, one time famous comedian, in which she described the alleged "wild party" in Hollywood at which Arbuckle became intoxicated and sought to "forcibly make love" to women guests.

SEWER PIPE WILL ARRIVE TOMORROW

Tenders will be requested by the city engineer and city treasurer from local transfer men for the delivery from the wharf of sewer pipe for the Section Six trunk system which will arrive from the south tomorrow. The city council so decided last night at the suggestion of Mayor McMorde who stated that the pipe would weigh some three hundred or four hundred tons. The engineer and treasurer will receive the tenders and award the contract.

CROP OUTLOOK GOOD AS EVER

HARDLY ANY RUST AND NO FROST SO FAR AND CUTTING STARTS VERY SOON

WINNIPEG, Aug. 7.—Cutting of rye and barley in Manitoba and some sections of Southern Saskatchewan has already commenced and will be general over the whole of the west within ten days, according to the thirteenth weekly crop report of the Canadian National Railways. No wheat cutting has been reported as yet, except from one point in central Manitoba where some Garnet wheat has been cut, but wheat cutting will be general in Manitoba by the end of this week, in Saskatchewan and southern Alberta early next week and in northern Saskatchewan and northern Alberta by August 18.

Virtually not one place in the prairies reports any serious damage from rust. In fact there is almost complete freedom from this plague and as the crop has now reached the point where rust can do little harm, danger from this source can almost be dismissed, as a possibility. There has been no damage from frost at any point, but several places have suffered severely from hail. These are located mostly in Saskatchewan and Alberta.

Great Ovation Given All British Athletes When They Returned to London from Amsterdam Olympiad

LONDON, Aug. 7.—The British Olympic competitors received a great ovation in London last night when they returned from Amsterdam. A great crowd gathered at the station and when the athletes stepped from the train there was such a rush and shouting of admirers that the whole station staff had to be mobilized to protect them. The party included all the Empire athletes who will compete at Stamford Saturday with the Americans.

Capt. Courtenay Tells How Airplane Dropped to Water in 30 Seconds

NEW YORK, Aug. 7.—Captain Frank Courtenay and three companions who cheated death after their seaplane Whale crashed in mid-ocean, reached New York on the liner which picked them up off floating wreckage.

Their air craft, Courtenay told, was forced to land. There were hours of drifting following a fire in the engine room and final rescue by the steamer Minnewaska. "We were up 1500 feet when the fire broke out and it took us only thirty seconds to drop to the water. While Mechanic Pierce stopped the gasoline feed cocks we veered over 30 degrees and came down smack on an incline of an ocean swell with the aid of a flare made by our own ship. The flight was a failure but the results demonstrated that a plane like ours forced down in mid-ocean can be saved with the aid of good radio.

EXPLOSION OF POWDER VESSEL

TACOMA, Aug. 7.—The explosion of twelve tons of powder aboard the steamer La Blanca in the narrows just west of here last night shattered the windows in the city, disrupted the telephone service and started a fire in the woods. The crew of the steamer escaped by jumping overboard and swimming ashore. There was no loss of life.

Spectators on shore saw the sailors fighting the flames on the ship previous to the explosion but what started the fire was not ascertained. Debris was thrown on the Baby Island shore more than a mile away from scene of explosion. The cabin of the vessel was blown 65 feet into the air and landed on a bluff above the crew who had reached the beach. The La Blanca was bound from Dupont for Kenneydale near Seattle.

TRAFFIC BYLAW TO BE PRINTED ALSO SOLD AT 15C COPY

The city council decided last night to call for tenders for the printing of 500 copies of the recently revised street traffic bylaw and also to sell copies of the bylaw at 15c. each. In supporting the recommendation of the finance committee to this effect, Ald. Collart stated that the chief of police had said that he could not put the bylaw into force until the people affected had had opportunity of getting acquainted with it. He urged that a charge of 15c. per copy be made for copies of the bylaw in order that the cost might thus be defrayed. The suggestion was put into effect on motion of Ald. Collart and Ald. Brown.

CANADIANS IN CYCLE EVENT

AMSTERDAM, Aug. 7.—Canadian cyclists were eliminated in four events and only one remains on the program. In the road race James Davies of Vancouver was eliminated in sprint trials by the German entrant.

VOLUME OF BUSINESS IS HIGHER THAN EVER

OTTAWA, Aug. 7.—The physical volume of business for Canada during the first six months of the present year is at a higher level than at any period of like duration. The bureau of statistics index shows an increase of 14 per cent over the corresponding period of last year.

Scholarship to be Provided for Percy Williams by People of Vancouver and Trust Fund

VANCOUVER, Aug. 7.—A scholarship in the University of B. C. will be provided for Percy Williams of Vancouver, winner for Canada of the 200 metres Olympic sprint championship by citizens of Vancouver and British Columbia, it was decided at a meeting of a special committee yesterday. In addition a plan was adopted to establish a memorial fund which will bear his name. The first objective of the fund is set at \$25,000. It will be for the purpose of starting Williams on a career of business ownership upon completion of his university course, should he so desire it. Money will be drawn from the fund which is to be raised by public subscription. It will be in the nature of a loan to be paid back into the trust at a later date. The fund itself ultimately will be used for the promotion of amateur athletics, particularly track and field.

REVIVAL OF SPORTS

The Olympiad and the enthusiasm shown by the people of this country over the success of their representatives will tend to make for a revival of sports in this country. It should above all put Canadians on their mettle in connections with lacrosse. To be beaten by an American team which next day is beaten by a British team should shame Canadians into featuring their own sport and winning back the honors lost.

Before this is published there will very likely be a report of the second game in which Canada plays, but even if they win it, they cannot overcome the fact that they were beaten 6 to 3 by John Hopkins and that John Hopkins was later beaten by the English team.

PROTECTION ONCE MORE

Premier Mackenzie King in his speech yesterday mentioned the matter of protection and stated that while his party would go to no extremes in regard to the matter of tariff, his opponent, Hon. R. B. Bennett was around the country preaching the doctrine of higher protective duties. The Premier plainly stated that the policy of the Liberal party was a tariff for revenue.

POSITION OF THE CITY

It is a most encouraging feature in connection with our city finances that the taxes are being paid by a large number of people and that the revenue from that source this year so far is away ahead of last year. It indicates that the people who live here as well as the people on the outside who own property here all have faith in the future of the city and expect conditions here to improve.

When people are willing to put up money, it is the first indication of real faith in any project. At one time there was talk of a lot of property owners dropping their claims. Today all that is changed. People are paying and they do so because they see far enough ahead to realize that Prince Rupert will be an important city.

WOMEN TO THE FORE

Canadian women are much to the fore in the Olympiad. While Percy Williams and other Canadian men have done honor to their country it lay with the women to bring the championship in their class to this country. It is one of the signs of the times. In any country where women are prominent it will be found that the people generally are progressive and the country will make a big mark in the world.

UNITED STATES WINNERS

United States is the winner of the field and track section of the Olympiad and deserves every praise for the good record the country has made. Many people in Prince Rupert are either Americans or from American stock. They will be proud of their country and its achievements. So too the Finns and others whose representatives are making such a good showing at the big sport event.

WELCOME VANCOUVER PEOPLE HERE.

On August 21 members of the Vancouver Board of Trade are due to arrive here and will be entertained by local people. We suggest that no pains be spared to make their trip an eventful one to fully impress them with the importance of this city. We have entertained Vancouver Board before and can feel that it was a proper thing to do. They will not be here very long on this occasion but it will be long enough to let them know that they are welcome and that we are able and willing to act as hospitable hosts on that occasion.

AROUND PRINCE RUPERT

L. and L. Consolidated Looking Good—Enthusiasm at Stewart—Gold Ore on Hidden Creek

Stripping on portions of the Columbia vein of the L. and L. Consolidated Mines Ltd., at Stewart has exposed excellent indications of good results from deeper development. Concentrating on this vein, a drift tunnel has been driven 350 feet and the vein has averaged six feet in width for the entire length of the tunnel. Assay returns show values in gold, silver, copper, lead and zinc, with silver predominating, of \$11.70 per ton. B. W. W. McDougall, M. E., consulting engineer is of the opinion that a really important distance has been driven through commercial ore on this level. The present face of the tunnel is in ore and gives back more willing than ever to take a chance. At no time has it been easier for the prospector to interest capital in the development of his discoveries. Big mining companies have their watch dogs ever on the spot.

The towns of Stewart and Hyder are agog with reports of fabulously rich strikes of silver on American Creek and of gold in the Salmon River Valley. Groups of prospectors gather to examine the latest pocket specimens and enthusiasm reigns supreme. Prospectors are encouraged and investors seem to be

On the Lake View group on Hidden Creek gold occurs free, visible to the naked eye. It is principally in the form of flakes and grains surrounded by oxidized sulphate of iron. The metal occurs with pyrite from which it is only recoverable by smelting or milling. It is not a free-milling ore.

In addition to the big Missouri, it is reported that the Consolidated Mining

& Smelting Co. may acquire other mines in the Portland Canal area. Officials of the company have been looking over several properties in the district and are understood to be taking out options on some.

The United Empire at Stewart has struck high grade ore in three open cuts on a vein of the high grade showing previously uncovered. A total of 600 feet of the vein has been proven.

Donald C. Simpson, owner of the Victory mine on Hudson Bay Mountain which has been optioned by Capt. J. J. O'Brien of Philadelphia, is now concentrating his efforts on further development of the Empire group of claims and has made provision to carry the work along for several months. Recently a train of fourteen pack horses left Smithers with equipment and supplies for the property. Considerable work has been performed on the surface, a tunnel has been driven 125 feet to tap the ore. The extension of this tunnel will be the principal work to be undertaken this summer and it is expected that ore will be struck almost any day. The vein toward which the tunnel is directed disclosed some very high grade ore in earlier work, assays running as high as 600 ounces of silver per ton. The extent of the ore body is yet to be proven.

In connection with development work which is to be undertaken by the Consolidated Mining & Smelting Co. on the Duchess and Contention groups of claims in the Howson basin up the Telkwa River, a new bridge is to be built on the south Telkwa road over Goat Creek. Some eight or ten men will be employed on the mine and operations will consist of a general sampling and continuation of work started several years ago by the owners of the property, F. M. Dockrill and associates. Three tons of supplies have arrived at Telkwa and other equipment will follow.

Any round of holes is expected to bring in the second vein in the long tunnel on the Victory property on Hudson Bay Mountain near Smithers. Work still consists of driving the long No. 1 tunnel which is a cross-cut to reach at depth a fine ore showing in No. 2 tun-

nel. About two weeks ago the workmen broke into six feet of heavy mineralization with some fine clean ore but the tunnel is being extended to reach the larger vein estimated as being about forty feet ahead. Since passing through the first mineralization the rock has become very hard and progress has been slowed up considerably. On the Klug Tut property work consists of driving from the tunnel to get under rich ore exposed in the shaft which comprised the initial work. This drift tunnel has approximately 166 feet to go and will give a depth of 140 feet on the ore.

The head office of the Rufus-Argenta Mines in Victoria has officially denied reports that the property has been taken over by Dutch interests. It is stated officially, however, that two wealthy and reputable American mining capitalists are actively negotiating for the property. Mr. Bruce, an engineer recommended by the United States Refining & Smelting Co., is now at Stewart to make a three weeks' comprehensive study of the property.

Capt. Charles E. Hutton, accompanied by J. B. Watson, president of the Woodbine Gold Mining Co., is now at Stewart to examine and report on developments on the Woodbine, Blue Jay and other Portland Canal mining properties in which Old Country interests have extensive investments. Capt. Hut-

ton will spend three months in touring the mining districts of the province. Among the properties in which his principals are extensively interested are the Woodbine, Whitewater and Pend-Orville. Capt. Hutton is representing among others the Duke of Devonshire, Viscount D'Veasi, Lord Francis Hill and Sir Kenneth Crossley.

On recommendation of the finance committee, the city council decided last night to accept an offer of G. F. Kane of \$200 for lot 19, block 29, section 1. Ald. Collart explained that while the offer was not high as the assessed value of the lot which was situated on Park Avenue, it was considered good business to get it back on the tax roll again.

The report of the fire chief for the month of June, presented at last night's council meeting, showed that there had been twelve alarms during that period, most of which were to bush fires. The only loss—\$170 fully covered by insurance—was in a fire at the premises of the Prince Rupert Salvage & Towing Co. Expenses of the department for the month totalled \$1081.40 including \$1077 in salaries. Equipment had been duly inspected and found to be in order.

On recommendation of the finance committee, the city council last night ordered refunded to W. M. Wright certain amounts that he had overpaid at a recent tax sale. Ald. Collart explained that Mr. Wright had purchased several tax sale lots and had been charged \$5 for the registration of each. It had turned out later that one registration charge covered the group of lots while \$5 had been collected on each lot. The mayor suggested that only the proper charge be collected at the next tax sale.

OPPORTUNITY WEEK IS HERE IN CAMPAIGN

THIS IS THE BIGGEST WEEK IN THE ENTIRE CAMPAIGN AND AFFORDS OPPORTUNITY TO WIN FINE CAR. Opportunity Week in The Daily News' subscription campaign means just that—a time in which you may, with a little effort, gain the position in the vote standing you desire. This offer is good only until Saturday, Aug. 11 at 9 p.m. and will not be repeated, extended or duplicated at any time during the campaign. If you do not fully understand the tremendous vote advantage of the "OPPORTUNITY WEEK," then it is your duty to find out. A call at campaign headquarters, a letter, a collect telegram or a phone call will provide you absolutely free with the information you desire. NO ONE SHOULD DELAY NOW. With the present BIG first period vote schedule yet in effect and the "OPPORTUNITY WEEK" bonus effective only until Saturday, August 11, you should act quick. No one should delay entering the big campaign now with the determination and earnestness to win this week.

Work done during the "Opportunity Week" will easily bring success to real candidates in this campaign. The laggard, unwilling to devote time or thought to the big prize, however, will reap no reward. This is a campaign for "live wires." If you are ambitious, if you are awake to the opportunity now before you, if you are willing to devote some of your time and energy to a proposition whereby more than \$4,000 in prizes is at stake, then you should be a candidate—you should enter this distribution today. You can secure one of the two beautiful enclosed automobiles, or a part of the hundreds of dollars in cash prizes in a very few days' earnest application to the business of helping yourself. There is one cash prize of \$500 and there are two purses of cash containing \$100 each. And the basis of the distribution is a guaranteed cash subscription of 10 per cent of your total subscription sales if you do not earn one of the big gifts.

PAY MANY TIMES OVER. Winning either one of these two fine cars or one of the three large cash prizes will pay you many times over for your effort. The opportunity is here for you, no matter whether you are a present candidate or a new entry. It is what you do this week—between now and ending next Saturday night, August 11—which will largely determine your campaign success. Don't lag in your campaign; don't hesitate or be timid about your race. Go right to it and keep right at it. And above all, don't sympathize with yourself. Be positive, not negative. Do something. Accomplish something. Make the time between now and next Saturday night the most productive you ever experienced. You CAN do it. Will you? Give your campaign as much attention during your spare hours as you would any other business proposition for right here is, no doubt, one of the greatest opportunities that will ever come into your life. Take advantage of "Opportunity Week." The Opportunity Coupons" are the key to a golden opportunity. They unlock the treasure chest for you. ENTER NOW. Campaign headquarters will be open tonight and each week day evening until 8 o'clock. Phone 534. You are invited to participate.

BESNER WALK IS DISCUSSED

CITY COUNCIL DECIDES TO CEMENT EAST SIDE OF THIRD STREET. At the personal request of Olier Besner who was present to sound his case, the city council decided last night to introduce a bylaw providing for the construction of a cement sidewalk on the east side of Third Street between Third Avenue and Second Street passing Mr. Besner's new business block. Mr. Besner stated that, as he had indicated in a letter previously written to the council, he was willing to pay his share of the cost of the sidewalk but he did not think it was fair that he should be asked to pay more. He asked the council to give further consideration to his request. Particularly in view of the fact that the provincial government was undertaking to bear the cost with a view to having cement sidewalks put down all around the old Court House square, Ald. Collart felt that both sides of Third Street should have such walks. The new Besner building was a credit to the city and he felt that it should have a cement sidewalk. He moved that the necessary steps be taken with a view to having the sidewalk constructed. The motion was seconded by Ald. Rudderham. Ald. Prudhomme referred to the fact that the matter had already been dealt with by the Board of Works. Personally, he was of the opinion that the traffic would not justify the city paying sixty percent of the cost of the requested sidewalk. This sidewalk should not be put down at the expense of other parts of the city. Though he appreciated the great improvement that the Besner Block was to the city, he feared that, if the council were to put in this walk, it would be in the way of compensating Mr. Besner for the building. COLLART NOT PARTIAL. Nobody could accuse him of doing anything more for Besner than he would do for another citizen replied Ald. Collart. As far as the traffic was concerned he believed there would be plenty when Mr. Besner's building became occupied. The walk requested, he felt, would be for the good of the whole city. It had been the custom in such cases that the owner of the building should pay the entire cost of the cement sidewalk on the avenue abutting while the city bore a share of the cost on the street. Mr. Besner had already lived up to this undertaking and he saw no reason why the city should not change its policy. This sidewalk was as warranted, Ald. Collart contended, as a similar walk on Second Avenue between Fourth and Fifth Streets, a bylaw for which the Board of Works was introducing at this meeting. Mayor McCormick referred to the fact that Mr. Besner and Mr. Westenhaver both owned 100 feet on the street in question. If both wished the sidewalk he felt that the council would have no hesitation in granting it but he did not think Mr. Westenhaver should be obliged to pay for it if he did not wish it. Ald. Tinker took the view that eventually the sidewalk would have to be put in. Even if it was stretching a point, he felt that the council might well go ahead and do it now. The new building, he felt, justified it. Ald. Rudderham also spoke in favor of constructing the sidewalk. On being informed that the putting down of a cement sidewalk on the west side of Fourth Street between Second Avenue and Third Avenue was being recommended by the Board of Works, Ald. Brown expressed the view that both sides of Third Street were equally entitled. On the vote being taken, all the aldermen except Ald. Prudhomme were in favor of the sidewalk. Ald. Grear was not present.

ATHLETICS AND YANKS BEATEN

NO CHANGE IN AMERICAN LEAGUE SITUATION AS RESULT OF YESTERDAY'S GAMES. (Special to Daily News). NEW YORK, Aug. 7.—New York Yankees and Philadelphia Athletics maintained their status quo for the leadership of the American League yesterday when both went down to defeat. The Chicago Sox won another tight game from the Yanks 5 to 4 while Detroit Tigers trimmed the Mack men by 8 to 5. Washington Senators and Cleveland Indians divided honors in a double-header and the St. Louis Browns consolidated their hold on third place by defeating lowly Boston. When Willie Mack socked a triple in the fifteenth inning at Chicago yesterday for the White Sox it marked the champions' tenth loss in fifteen starts since they invaded the west. Fortunately for the Yankees, Philadelphia, for some unknown reason, lost to Detroit. The only games played yesterday in the National League were interesting enough affairs, the lowly Phillies turning in two victories over the Chicago Cubs which resulted in the latter dropping to fourth place behind the Cincinnati Reds. Yesterday's scores: NATIONAL LEAGUE. Chicago, 7-1; Philadelphia, 8-5. Only games. AMERICAN LEAGUE. New York 4; Chicago, 5. Washington, 4-1; Cleveland, 7-2. Philadelphia, 5; Detroit, 8. SPORT CHAT

More than usual interest will probably be taken in tonight's league football game between the Grand Terminal and Regiment for it will either start the Terminals well on the way to clinching league honors or it will tie up the race for the Mobley Cup in a rather tight fashion. But the principal interest in the match will be by reason of the fact that in the last meeting of these teams the Regiment defeated the Terminals by a score of three to nil for the only victory the soldiers have so far had in the league. Regiment, with its line-up strengthened since that time, seems confident that it can repeat while the Terminals will go into the field to show that the other game was but a fluke. The settlement of the argument should prove interesting to the fans and the match may mark a turning point in this season's league affairs.

The heavyweight claiming race is for the purple toga cast aside by Gene Tunney. They come from all corners of the earth. Short ones, fat ones, slim and tall, and they are all logical champions. Moreover, there isn't one of the newly crowned contenders that isn't willing to defend his diadem against all comers. First to weigh in for the title was Billy Stribling, the Georgian. Jack Sharkey preferred. Then comes Tommy Loughran, light heavy king. Thomas has posted a forfeit with the Pennsylvania state athletic commission to back his claim for the crown. Jack Sharkey not to be outdone, has claimed the world's title in Massachusetts and will

CEMENT WALKS SECOND AVENUE

CITY PROGRAM EXTENDED TO INCLUDE SOUTH SIDE OF THIS STREET FROM FOURTH TO SEVENTH STREETS

Extension of the city's cement sidewalk program to Second Avenue was decided upon by the council last night in accepting a recommendation from the Board of Works that local improvement bylaws be introduced for such walks to be laid on the south side of that avenue from Fourth to Seventh Streets and also on Sixth Street from Wayne Place to Second Avenue.

Already bylaws have been introduced for further cement sidewalks on both sides of Third Avenue and on certain side streets.

In the matter of cement sidewalks, there was also a communication from Hon. T. D. Pettullo, minister of lands, announcing that he had arranged with the finance department that the government should pay for cement sidewalks surrounding the old Court House square and that it would be all right for the city to complete this work on the south side of Second Avenue and the west side of Third Street. At the suggestion of the mayor, a motion was made by Ald. Pruthomine and Ald. Roddam that the city engineer be instructed to proceed with this work.

A. C. GARDE GOES TO CALIFORNIA TO TAKE CHARGE OF OPERATIONS

A. C. Garde, well-known in British Columbia for his knowledge of placer deposits, has been commissioned by the Seymour Placer Gold Mines Ltd. of this city to take charge of their operation in the Trinity County field in California, says the Vancouver Star. He left for the property Tuesday and will be stationed there as consulting engineer in charge of operations.

With Mr. Garde will be his own crew of assistant engineers and work will proceed without delay to open up the property on a large scale. Plumes will be erected at once and definite results may be expected this fall.

The Seymour properties, controlled by a Vancouver syndicate, are situated on Coffee Creek comprising the famous Holland Mine and the Trinity claims, covering six and a-quarter miles of rich placer ground, in the heart of an area that has a production on record of over a quarter of a billion dollars in gold since the Bonanza days of '57.

During his recent inspection of the Holland Mine, Mr. Garde proved the existence of important platinum values on the property, but as yet these have not been considered from a recovery standpoint.

MANY SMALLER CITIES HAVE MORE FIRE LOSS THAN PRINCE RUPERT

According to the annual report of the provincial fire marshal, Prince Rupert's fire loss during the year 1927 was but \$6,398. The cities of Chilliwack, Granbrook, Fernie, Kamloops, Kelowna, New Westminster, North Vancouver, Port Moody, Prince George, Revelstoke, Rossland, Vancouver and Victoria, though many of them are smaller, all had more fire loss than Prince Rupert.

Inspector William Spiller, Sergeant Alex McNeill and Constables T. A. Camm, G. A. Wyman and Robert Gibson were all recommended in general orders for excellent work in connection with the investigation into the murder last year of the school teacher at Port Essington, the annual report of the superintendent of provincial police which has just come to hand, states.
