DR. MACLEAN AT ISSUE WITH TOLMIE KING OF VANCOUVER GAMBLERS ON STAND POLICE PROBE

MacLean Scores Dr. Tolmie for Dragging Federal Members and Policies into Provincial Campaign

PENTICTON, July 4.—Touching upon the appearance of members of the Dominion parliament on the platform in the present campaign Premier MacLean, addressing a meeting here last night, said he believed it unfair to the public to confuse them with the discussion of federal affairs in a provincial campaign.

The Premier said in part: "You don't see me dragging federal members into this campaign. I am friendly towards the Liberal government at Ottawa but not so friendly that I would allow the Liberal party of British Columbia to become a mere appendage of the Liberal party at Ottawa. The opposition is lacking in a real policy of its own and has resorted to discussion of the anti-dumping clause, a purely federal matter. The attitude of the provincial government toward the fruit growing industry is a friendly one. The Market Control Bill is evidence of that."

POLICE CHIEF IS RELIEVED

GIVEN HOLIDAY IN NORTH VANCOUVER WHILE INVESTIGATION IS MADE

NORTH VANCOUVER, July 4.—Chief Constable W. H. Hemingway of the North Vancouver district police was relieved of duty until July 16 by the police commission. Pending investigation of charges by Constable W. Aylward of illegal transfer of municipal funds and unbecoming conduct.

The development was a sequel to charges laid by Hemingway against Aylward, who was given three weeks' holidays while the commission was investigating. The commissioners returned Aylward to duty after the hearing.

BALL PLAYER BROKE HIS LEG

AL TISSON COLLIDED WITH RUBE BRESSLER—FIVE HOMERS IN ONE GAME

The New York Giants won from Brooklyn in the eleventh inning yesterday when Jess Pretty forgot the bases were filled and walked Cohen.

Al Tisson, the Brooklyn flycatcher, suffered a broken leg when he collided with Rube Bressler.

Chicago hammered three St. Louis pitchers for sixteen hits during which five homers were made.

The victory over Brooklyn yesterday brought the Giants closer to the top of the league than for some weeks. The Cardinals lead by two and a half games.

CRITICISM OF BYNG STRONG

PROBABLE GENERAL WILL RESIGN POSITION OF COMMISSIONER OF POLICE

LONDON, July 4.—The impression is growing that Lord Byng will withdraw acceptance of the commission of the Metropolitan police if the present criticism of the press and in political circles of the appointment continues.

The objections are not on personal grounds but on the assumption that he is too advanced in age for such an arduous position in which he has had no experience.

QUEBEC, July 4.—Five lumbermen were drowned when attempting to cross the rapids in a canoe.

Chinese Gambler Made Friendly Gestures to Mayor Taylor During Two Distinct Election Campaigns

VANCOUVER, July 4.—Shue Moy, the Chinese gambler, testified at last night's session of the police inquiry that in 1924 when Mayor Taylor was out of office, he had given him \$50 toward his election expenses. The Chinaman said that in 1925 he had offered a present to the Mayor of \$100 towards the campaign but this was refused. Both offers, said Shue Moy, were purely friendly gestures.

Admitting he had visited Mayor Taylor's suite in Granville Mansions "once in a while," perhaps as often as once every two or three weeks, Shue Moy, alleged "King of the Gamblers" declared he had never talked over the subject of gambling with the mayor.

ONLY FIFTEEN OUT OF WORK ON BOOKS OF BUREAU

News of the Mines AROUND PRINCE RUPERT

Duthie Mine Much in Limelight—Fine Specimens From Jessie Near Smithers—Activity in Sibola District

Steady shipments, exceptionally high returns and the declaration of a dividend of 2 1/2c per share are causing revived interest in the Duthie mine. The dividend is payable to all stock holders on record on June 25. Wonderful values were disclosed in two carloads of concentrates recently sent by the mine to Trail smelter, one returning values of \$300 per ton for the 32 tons in the car and the second running an average of \$280 per ton. The total silver value of the first carload was \$8,654.50 with \$184.14 in gold and \$1,189 in lead. Earnings of the Duthie mine are now estimated to be \$30,000 per month on the present scale of production although it is understood that plans are now under way to greatly increase the output. Smithers stock holders of Duthie are waiting on returns from June shipments which it is expected will greatly exceed those of May in both quantity and value.

Some fine looking specimens of ore have been brought into Smithers from the Jessie group of claims where development is being carried out upon a number of veins by the Jessie Gold Mines Syndicate. The new ore is almost solid arsenical iron which carries gold values as high as \$15 to the ton with silver as well. Zinc and lead are found in some parts of the veins. A new camp has been established this spring and work is proceeding and will be carried on all summer with money already provided.

Development of the Emerald group of mineral claims in the Sibola district is expected to be under full headway very shortly under an option recently taken by the Consolidated Co. on the property. Engineers have arrived at Burns Lake and proceeded to the property to prepare for an active summer's work. Arrangements have been made with D. McGibbon to handle the transportation of supplies which will be carried by motorboat to the west end of Ootsa Lake and thence by way of Tahsta River to the property. The transportation problem is a difficult one but navigation has been greatly facilitated by recent work carried out on a number of the more difficult and dangerous sections of the river as a result of appropriations made by the Dominion government. The work to be undertaken by the Consolidated Co. will consist of extensions of tunnels commenced under an option held several years ago by the late James Cronin and which had been carried out with very satisfactory results. Values have always been high on the property and it is expected that present development will expose bodies and values to offset the difficulties and expense of getting the ore out. Several other properties are to be extensively examined during the next few weeks and, with Consolidated actually in the field, the prospects are bright for considerable activity in that section.

The Mohawk property on Four Mile Mountain near New Hazelton is looking even better as a result of surface work in the way of stripping which has disclosed a splendid showing of ore of good values. If the ore is as good underground as it is on the surface it

should be a proven mine. Underground work consists of drifting on a high grade of ore. Present work is with a view to overcoming a fault in the formation. T. D. Lewis, who is in charge of operations, will be leaving New Hazelton shortly to look over a property on the Pacific Great Eastern Railway.

The findings of E. Bergman, an expert in geophysics, have so impressed H. A. Tallum that the latter has let a contract to J. Erickson for a cross-cut tunnel on the Last Chance group at Stewart to test the theories. This tunnel will be 100 feet below the present prospect tunnel which is in 125 feet but will not be continued toward the objective until Mr. Bergman's recommendations have been tested by the new contract. The new cross-cut will give 150 feet depth on the vein.

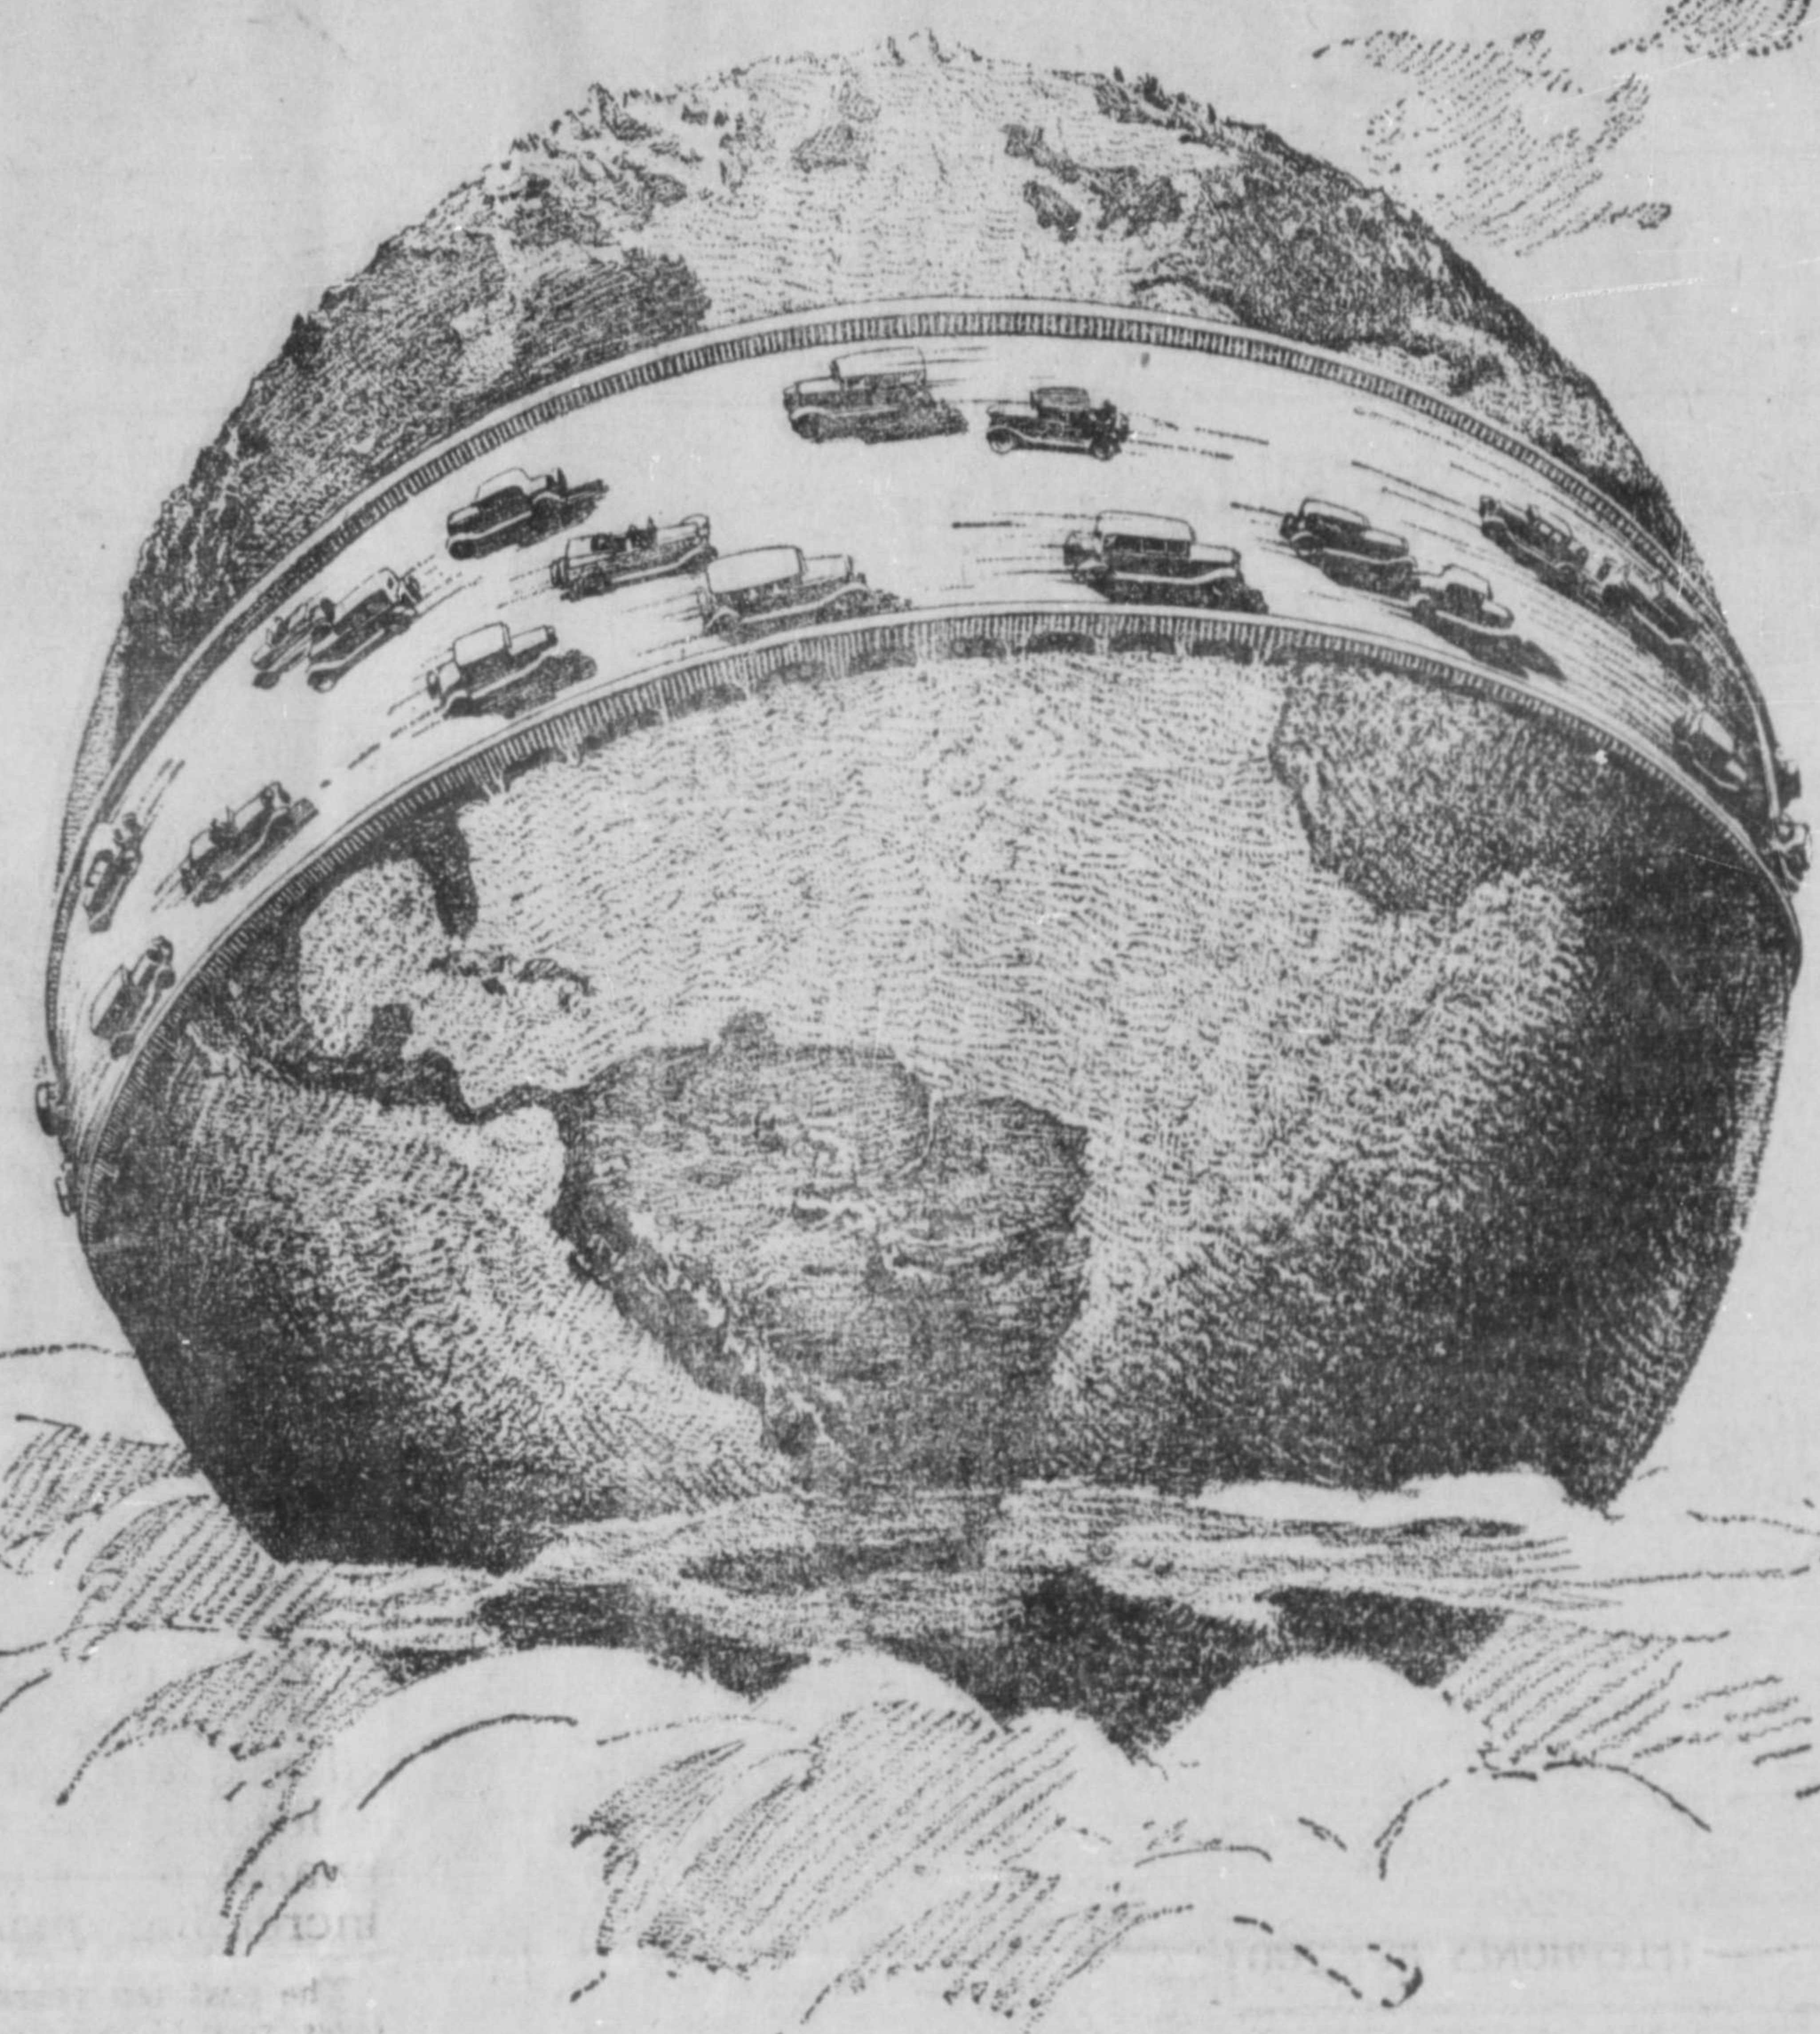

Donald Miller of New York City, consulting engineer, accompanied by Mr. Browning of Los Angeles acting in a consulting capacity for the Daly-Gerard interests, have been making an inspection of the Rufus Argenta property at Stewart which the Daly-Gerard group has optioned. B. O. Erickson and W. H. Forrest, leasers and former owners of the property, accompanied the party over the ground.

Surveying for a tramline to the Bayview mine in the Bear River valley at Stewart has been completed and it is understood that it is the intention of the company to let a contract for the tram, which will be 500 feet in length, to the Riblet Co. of Spokane. It is estimated that the tram will be completed within sixty days from the time construction commences. It is reported that the lower terminal will be on the east bank of the Bear River just above the end of the wagon bridge.

The silver market is now drawing considerable attention and may result in a boom for the industry. The price recently took a jump to around 63 cents an ounce, the highest it has been since August 1926, and it is now selling around 60c. With world production supposedly past its peak and no immediate sources of supply in sight together with an increasing demand in Oriental countries, it is hoped that the market will hold its present improvement.

125 Times Around the World

IN pursuing its policy of consistent progress—in its continual search for new ideas . . . in its constant development of better cars . . . General Motors not only maintains its great International Research Laboratories and hundreds of skilled engineers, but also operates the first, largest and most completely equipped automobile proving ground in the world.

Here, on the vast fourteen-hundred-acre tract of the General Motors International Proving Ground, every type of road is duplicated, every condition of driving is reproduced. Here all makes of General Motors cars are constantly being subjected to the most search-

ing tests. Here every principle developed by General Motors engineers is put to proof . . . every detail of each test car's performance carefully and closely checked. Here years of normal use are crowded into a few months of continuous, gruelling operation. A typical example is offered by Chevrolet. Since the opening of the General Motors Proving Ground, Chevrolet cars alone have piled up over three million miles of testing . . . a distance equal to 125 times around the world.

In the countless millions of miles that General Motors cars have covered on the General

Motors Proving Ground, there has been one great purpose kept in view . . . to improve, by constant testing, the quality and worth of every General Motors product.

Every Canadian buyer of a General Motors car gets a car built in Canada by Canadians to meet Canadian conditions of road and climate . . . a better car and a greater value because General Motors uses so freely and unsparingly its unequalled facilities for testing and research . . .

With better General Motors cars at the end of the journey, millions of miles is not too far to go.

Ten Years Ago in Prince Rupert

Archbishop F. H. DuVernet, in a letter to the Daily News today, declares that the government is well justified in taxing wild lands in the central interior.

A telegram has been received by G. M. Hanson, United States consul here from President Wilson extending greetings to local Americans on the occasion of the Fourth of July.

Fred Madison, well known Vancouver diver, is a visitor in Prince Rupert.

Man in the Moon

Looking out here from my window Into the public street I see all sorts of people Such as you seldom meet. Some are all rushing and hurry And others just saunter by But none of them are just the same As either you or I.

The most successful goldiggers seem to be those with golden hair lobbied and wavy.

Isn't it queer that while so many

miners come to town, few of them show us of the gold they have been digging.

So many people find it hard to get up in the morning. Jake says the best cure is not to go to bed in the morning.

There was a man the other day who was bitten on a picnic. Possibly the place is sore yet.

Friday thirteenth is the date set for the next big local fight. That should be good luck for somebody.

If the election campaign does not liven up soon, we shall have to start a dog fight or something.

I'm always meeting people Who give me an awful pain Just like when on a holiday I wake up to see it rain.

THEATRE PICTURES

The Editor Daily News:— In your paper of today's date you had a write-up of the picture shown in the Westholme Theatre on Monday evening. In it you mention a scene in which Colleen Moore impersonates her maid and another where she tries to join a bridge party. Would it be impertinent to ask if either you or

your reporter actually saw the show or was the write up supplied by the management. In any case, if the scenes mentioned were actually in the film, then those who saw the first show on Monday night were not shown the whole of the picture. This is not an isolated case because on many occasions there have been pictures on the bills outside the theatre which were not shown when we got inside. To me it seems as if the management tries to crowd two shows into too short a space of time. I think we pay enough for to have the picture shown properly and not rushed through. Perhaps if there were some competition we would be shown what we pay to see. Please publish this. A GRUMBLER.

RODEO AT JASPER

JASPER, July 3.—High, wide and handsome, was Jasper's celebration of Dominion Day. Nothing ever held in this mountain town was more successful than the third annual rodeo of the Horsemen's Association, which took place yesterday afternoon on Henry House lots. Ideal weather allowed all sorts to go out to the grounds, and they went as the folk did to the fount in Ivanhoe by every conceivable form of locomotion. Perhaps the most interested of the spectators were the guests from Jasper Park Lodge, visitors from New York, Eastern Canada and other spots where they know about stampedes only from the movies.

# Supplying the world!

FROM the cold, deep waters of the seven thousand miles of British Columbia's Pacific Coast, comes a harvest of fish that the palate of all mankind enjoys! For over twenty years our Province has been a leading factor in Canada's fishing industry. Progress continues unabated...the markets to the ends of the earth demanding ever increasing quantities.

The past ten years have seen this industry grow from 14 million to 27 million dollars... an increase of 89%. Our annual catch totals nearly half the entire Canadian production, and "King Salmon," our marine silver mine accounts for at least 15 million dollars a year.

The distribution from our Provincial hatcheries of millions of salmon eggs to renew the harvest that goes into the nets; the Treaty between Canada and the United States for the protection of the Pacific Halibut (March, 1923) providing a close season from November 16th to February 15th; modernized canneries, 83 in number, and sane Federal Fishing Laws, carefully administered, are the foundation of an industry that will continue to grow.

The fame of British Columbia's Whaling Fisheries is of long standing, and has materially increased the value of the products from this industry. The yearly catch, now about 400, is taken between one station on Vancouver

Island and two stations on the Queen Charlotte Islands.

Much as has been done to develop and conserve our fishing industry, there still remains a great deal to be accomplished. The vastness of our waters and the extent and ruggedness of our coast make organized protection and administration extremely costly.

But the safeguarding of our fisheries is a matter which now commands the earnest attention of our government, who realize the importance of conserving this basic industry.

As the oldest industry of our Dominion, fishing has been one of the largest revenue producers, and it is significant that Canada's youngest Province, in less than twenty years, should secure a leading position in the world market. This aggressive search for foreign business has been an asset which undoubtedly has created one of the most amazing records of our basic industries. Well may we be proud of our Fisheries!

Read these announcements and understand your province's progress... clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!

# FATHER Did The Washing Just Once

IF Father would take his turn at the tub just one time, old fashioned wash-day would vanish from your home forever. He would insist, for your sake, and for the general good of the family, that you let us shoulder the woes of wash-day. That's our job you know. We're organized for it. We can do the work more quickly and economically than you can. And you may doubt this, but it's a fact that we'll do it better, too. That's because we have facilities no home laundry could possibly have.

## CRICKET GAME AGAINST NAVY

DATE SET FOR JULY 14 AND STRONG LOCAL TEAM WILL BE READY TO MEET THEM

The big cricket match between Prince Rupert and the cruiser Durban is set for Saturday afternoon, July 14, and the local committee is now busy looking over the men for the team on that day. So far it is understood no selections have been made but several practice matches will be played to give local players an opportunity to show their form.

Last night there was a match between two teams headed by H. T. Cross and W. H. Wilson Murray. Matting was used on the pitch and it was a great improvement. A number of good players were discovered and Mr. Murray states that he will have a good eleven ready to meet the naval men.

A practice is being held Friday evening on the Acropolis Hill grounds and any cricket players who have not yet put in an appearance are invited to be there.

## CITY TENNIS TOURNAMENT NOW

WILL COMMENCE ON SUNDAY WITH MEMBERS OF THREE LOCAL CLUBS ELIGIBLE TO COMPETE

The annual city tennis championship tournament, open to all members in good standing of the Prince Rupert, Canadian National Railways or Regimental Tennis Clubs, will open next Sunday. Meanwhile, entries are being received by A. L. Holtby, W. Cruikshank, E. W. Marenette and John V. Cyne, and will close on Friday night. The events to be played will be men's singles and doubles and mixed doubles on the C.N.R. courts and ladies' singles and doubles on the Prince Rupert courts. Much interest, it is expected, will be taken in the various competitions.

## HARD HITTING IN NATIONAL

WORK OF BATSMEN FEATURED GAMES YESTERDAY — GIANTS THREATENING CARDINALS' SUPREMACY

(Special to Daily News)  
NEW YORK, July 4.—Heavy hitting featured the doug of the National League yesterday. Chicago Cubs overwhelmed the St. Louis Cardinals with a 13-3 score and Cincinnati Reds downed Pittsburgh Pirates by 9 to 7. New York Giants reduced the gap between themselves and the leading Cardinals to three-and-a-half games by winning over Brooklyn. The lowly Phillies, who have been staging a steady climb out of the basement, took a double-header from Boston and are now but two full games behind the latter.

Philadelphia Athletics took a game from Boston in the American League and are now thirteen-and-a-half games behind the leading New York Yankees who won from Washington. Cleveland Indians went into fourth place by winning over Detroit Tigers and the St. Louis Browns dropped a game to the Chicago White Sox.

Yesterday's scores:

## Around The World With Sport Fans

Reputations will be given little consideration at the different trials for the Olympic races it is announced. Veterans to secure places on the teams must shape up well in their elimination events and while the men who have won consistently for years may succeed again some ordinary competitors of a year or two ago may turn in startling performances this year. Champions may be toppled from their thrones and new rulers proclaimed during the weeks of Olympic preparation.

of women of every country. Mrs. O'Neil, the former Rosa Grosse, of Toronto, who holds the world's record for the 100 yards dash, 11 seconds, and Miss Fanny Rosenfeld, of Toronto, are believed to be Canada's outstanding stars in the sprints but the elimination may develop others of equal merit.

In the past 33 years five Canadians have won the King's Prize, the most coveted award that a soldier marksman can win in the Empire. Lieut. Desmond Burke of Ottawa in 1924 was the last Canadian to take this prize. Last year he failed to repeat by a single point. The big shoot is in three stages, each on different days. The first stage is this year of seven shots at 600 yards, seven at 500 and seven at 200. Formerly the shorter ranges were taken first but this meant that the longer distances were faced in a waning light. Also, the targets on ranges up to 600 feet have been made more difficult by lessening the bull's eye.

## SPORT CHAT

The senior football league schedule in this city never started under more favorable auspices than it does this year. The Stuart Benefit Shield, won by the Thistle, and the Dominion Day cup, won by the Regiment, competitions have been productive of a generally good brand of play and, what is equally important, all three teams in the league are now proven to be very equally matched. The Grand Terranians, who have been showing up to good advantage of late, are expected by a number of fans to capture honors in the league which opens tomorrow night with a match between the regiment and Thistle, both of which now have one trophy for this season to hang up.

Probably the most colorful boxing bout of the season will be dished up on Friday, July 13, when Battling Dido Gurvich of Prince Rupert and Ray Clark of Bellingham will show their wares. The bout is already becoming one of the most talked of this season. The question is: Can Gurvich's speed and cleverness offset Clark's punching ability? Clark is working out every day at the Empress gymnasium at 5 p.m. and Gurvich at 6:30. This will probably be the most important bout of the local boy's career. The preliminaries will not be announced until later as it is expected to obtain some of the boys from H.M.S. Durban to go on the card.
