

Premier Tolmie Comes Out In Favor Canadian Naval Power Extension

Says Ports on Pacific Should Be Protected and Canada Should Assume Proper Share of Work.

VICTORIA, Oct. 23.-The time has come when Canada should assume its proper share of the work of protecting the British Empire by sea, Premier Tolmie said here, speaking at the Trafalgar Day ceremonies at the ' Parliament Buildings.

"Being enthusiastic Britishers when we have a bushel of wheat to sell or when we need some capital, is not playing our part in the Empire," the Premier said. "We in Canada have on the Pacific Coast in our own province an extensive coast line. We have on that coast rapidly dereloping cities, big industries, accumulation of much wealth. Our coast cities are the outlet for the great indterland to the north and east of us. These ports and his coast line must be defended, not only for ourselves but for all of Canada because of their place in Canada's

Tex: Of Angle-French Treaty Published In England In White Paper Issued Ey Government

LONDON, Oct. 23.—The full history of the inception and negotiations of the maval compromise between France and Great Britain was made public last night by the British foreign office. Lord Cushendun, acting as foreign minister, explained that the only reason for withholding publication of the papers was fear of embarrassing other governments by what might seem an attempt to force their hand.

The compromise agreement itself is quite brief. The document in the form of a white paper isued last night consists of 45 pages. The text of the agree- PAT BURNS IS ment follows limitations which a PAT BURNS IS disarmament conference -will have to determine and will deal with four classes of warships. 1. Dr. W. G. Wilson is one of three brothers who have effected the ministry. He was born at Bond Head, Simcos County, Ontario, about fifty years ago.

Earring the six months of the year when they are coated with ice, the trial flight across Canada demon- Head. Ontario and took as active strated that the lakes of western Canada are sufficiently interest in all the affairs of the large, free of obstruction, and well-located to provide good great Presbyterian General Aslanding places for sea planes operating on a trans- Canada air mail route via the North Saskatchewan valley. For winter operation the lakes will provide equally good landing places for the land type of craft.

That nature has provided this string of suitable landing from that important seat of learnplaces is one strong reason why the trans-Canada service ing when it is established, should take the central route across the prairie provinces. Another equally good reason is that the Yellow Head Pass offers a crossing of the mountains at a lower level than the Kicking Horse pass. A third good reason is that from Jasper a branch service can be operated to Frince Rupert and other points in northern British Columbia.

Existing contracts, it is said, prevent the establishment of a trans-Canada service at once. Aside from those contracts, the trial flight has established what was al- and is's good presiding officer, ready a matter of certainly, that the best route for a with spleadid executive ability coast to coast service is by way of the Saskatchewan.

'TWENTY years' mining in British Columbia have yielded nearly 2. 800-million dollars. The last ten years have increased production by 58.9 per cent.

The value of all Canada's production is \$25.70 per citizen, British Columbia's production today, if distributed, would mean \$111.96 per person annually! Our mined and treated tonnage of metalliferous ores reached a record of more than 5-million tons for 1927.

The value of the mining industry to the Province is in the distribution of money in wages, supplies, transportation services, etc. And in this respect, 1927 was a record year!

The 14,000 employees of the mining industry were paid wages totalling 23 million dollars . . . or nearly \$1,700 each . . . the highest average for any Canadian Province.

mining area has only been superficially prospected within the transportation belt, new fields are developing, new roads and trails constantly being built.

Chattering drills sink deeper and deeper

Owing to counter attractions! the meeting of the Fair Roard catled for last night to make forther arrangements for the Holtown'nn carnival was postponed until Wednesday,

> CHILDREN'S PUZZLE 79 pieces-2 puzzles in one sent post paid for 30

During the year, distribution of eight million dollars was made in dividends!

British Columbia mines approximately 40 million dollars worth of copper, zinc and lead, a year . . . more than the rest of Canada. In gold and silver, our production ranks second . . , in coal, third; our total annual mining production today being exceeded only by Ontario,

Sound legislation, good mining laws and low fees have encouraged this development and stimulated growth. Although the provincial into the hills . . . heavy ores rumble through the concentrators . . . fortunes come tumbling from the treasure chest of British Columbia! What was once only imagined about our mining potentialities, is now proven knowledge. Mining has become our third largest industry ... showing over 67 million dollars revenue a year . . . proof that prosperity flourishes in British Columbia.

Capital from Eastern Canada, the United States, Great Britain, France ... seeks investment. Our great wealth of production, developing so steadily during the past ten years, has established confidence and aroused keen interest in British Columbia's mining future the world over.

The grain export business of Prince Rupert is steadily developing. Last year about eight million bushels of grain was shipped through the terminal elevator and this year promises to greatly exceed that mark.

The City owns its Power, Light, Water Supply and Telephones.

The schools are excellent.

Roads are paved and concrete sidewalks are being laid.

ernment Agent

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that

pplications for pre-emptions are to be addressed to the Land Comvision, in which the land applied for is situated, and are made on printed forms, copies of which can be obained from the Land Commissioner Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purlands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further formation regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Laase of Crown Lands." Mill, factory, or industrial sites on timber land, not exceeding 40 acres. may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.
