POSSIBLE NEW INDUSTRY

Prince Rupert needs industries and we are all looking for possible openings that will bring people to the city, create a payroll and enable the district to reap the fruit of the advantageous situation which the port enjoys. Here is the story: Yesterday

William Sim of Jap Inlet, Porcher Island, dropped into the office with a little parcel of herring. The larger ones were fat and fine looking, in fact they seemed to be far superior to those imported from the east coast and in an allogether different class from the fish taken in seines and used generally for halibut bait.

Sim says these fish can be and the quality is quite the opposite from what have been known as Prince Rupert herring. ing them for bait for the halibut met them. ishermen, as there would be a ready market all the time.

ng, months earlier than by seines cally inspected. away in the loft.

Early in the spring of each year SYSTEM KEEPS there are boats lying idle in the parbor, waiting for the salmon which do not come in any numbers until May or June and during that time they might be profitbly employed in taking herring and selling them first to the halibut men and the overflow to saleries which should be established

### What Is Needed

What is needed is this: Some rson or a group of persons with little capital must provide a ng a decreasing number of British rifting outfit which it is estinated would cost approximately inspection system." This assertion was ,000. Also there should be a of the Commons immigration inquiry altery established at the same by Colonel J. S. Dennis, chief commisme that would take care of the loner of colonization for the C.P.R. Verflow catches, which were not leeded by the halibut boats.

Mr. Sim has no capital but he sent in British newcomers for four + NEW LIMBER MILL lays he is absolutely sure the sh are there and can be caught th drift nets. There are a few erring in the harbor but most of hem are outside.

Owing to the fact that the fish re taken only when schooling, rince Rupert herring have oblained a reputation for being bony name herring when taken in open Waters are fat and a different fish altogether.

For years these facts have been las ventured to go into the busilas ventured to go into the busiless. Now that bait is badly needd during nine months of the year, there seems to be an opportunity for someone to go into this busi- the Victoria Machinery Depot, Edward ness and make a little money.

## EDITORIAL Vancouver Police Testify That Were Discouraged from Enforcing Law in Regard Disorderly Houses

MANCOUVER, May 4 .- Discouraged by the attitude of Detective Sergeant George McLaughlin, head of the morality squad, Detectives Frank Law and Gordon Ward of the dry squad ceased arresting disorderly house keepers and inmates, of whom four were discovered in the course of their work, Law declared in evidence at yesterday's session of the police investigation.

Sergeant Alex. Smith, another witness, asked by G. G. McGeer how he found conditions in the city generally replied, "Not very good." "Gambling dens were running more or less open," he said. During the past two years and it boards were operated under police promay be eighteen months, these have tection.

## Conservatives Attack Government Over the Cost Quebec Citadel

Sum of \$150,000 Voted to Enable Governor General to Reside There Part of the Time but not Without Protest

TTAWA, May 4.—After a fortnight in the doldroms the House of Commons last night broke into stormy debate. It saw Conservative leader Bennett protesting that the Prime Minister had "dragged" the name of Lord Willingdon into a controversy to influence the vote. It saw Premier King sharply denying the charge. It saw Conservatives, Progressives and U.F.A. voting together in support of a Conservative amendment which was defeated by a majority in regard to the residence of the Governor General in Quebec citadel.

Taylor for development; Carnaby station whence it will be shipto as men. This offers such a striking contrast between theory and Silver Queen group, Owen Lake, option- ped. Before the summer is far adpractice that one begins to wonder if the women who are thus sum- ed by F. H. Taylor for development: vanced, the property will again be shipmed up by Everyman resemble even women.

### News of the Mines

AROUND PRINCE RUPERT

Making Real Mine Out of Duthie-Mining Activity in Central Interior Hits its Stride—At Pacific and Cedarvale

While further development goes to prove that the Duthie mine near Smithers has an immense ore body with much of it high grade, the policy of the company is to make of it a property of systematic operation with good returns rather than an exclusively spectacular high grade producer. For some time interest has been centered on a big strike in a new tunnel at the mill level. This tunnel is now in about 1500 feet and it is common knowledge that very high grade ore has been encountered, some of it running as high as 600 ounces of silver per ton. The mill has been pressed to more than capacity nandle the Duthie output in recent#

weeks. Meantime, the management is \$100,000 to be spent this year including faced with a new problem in the un- installation of machinery and developcovering of the largest body of ore yet ment on extensive scale; Victoria group, Friday, May 4, 1928 encountered in the several years of Babine, optioned by Buffalo interests operation of the property. by Consolidated, to be developed soon; Erward G. Brown of Vancouver has er and English capital; Mamie group, Lid, which is operating the property of adjoining Duthie, optioned and to be that name near New Hazelton. Until developed by J. F. Duthie: Hyland Basin the affairs of the company are ready for group. Babine, optioned by E. G. Brown reorganization, W. S. Harris and Jack and to be developed; Reco-Aspen, four Robertson will carry on the business miles from Evelyn, optioned by Van- end while Al Harris remains in charge

> ping and development work will be going on simultaneously. In the past ich ore has been taken from mine and, while the shipments have not been very large, values have been very high. The new company will be knewn as the Aurimont.

Ore in No. 3 drift at the Silver Cup side mine. New Hazelton, has widened out to a full face of five feet. One half of it is high grade and the other half passage by H. S. Parker containing a good milling grade. A carload of high grade is being shipped out this week was wrecked in the Aleutian Islands and next week sacked shipments of and was going down. "Capt. Thurston" high grade will be inaugurated. H. F. was the signature. S. Woolverton, eminent mining engincer, has stated that, with the ore in sight, the Silver Cup is in a position to go on a shipping basis of between 30 and 40 tens of ore per day for a port that has been given in Prince Rulong period of years. He sampled the property and was well satisfied.

Hugh Harris, on behalf of the Trail Consolidated, has taken an option on the M. and M. and M. and K. properties on Legate Creek opposite Pacific. Development work will be done this summer to test the claims out.

H. F. S. Woolverton of the General Exploration Co., Ltd., is planning large scale development this summer on the Diadem property near Usk. Fred Lowensbery, formerly of Alaska, is in active charge of the work. The road is being put in shape for the taking in of compressor and supplies. It is a goldcopper property with large possibilities. having been favorably reported on by a number of engineers. Shipping of ore to Granby smelter at Anyox, it is expected, may be started within two menths. It is only a mile and a half from the mine to Hanah siding. Sup- I Ivory Soap and returned nice plies will be trucked in from Usk and fluffy. whence the ore will be shipped.

Larry Canty arrived in Prince George this week from Vancouver and is arranging to move supplies into the Ferguson mine on the Ingenika River which has been under development during the winter under the direction

### BRINGING UP FATHER

CLOSE MATCH BETWEEN TWO MEN WHO SEEMED ABOUT EQUAL IN ABILITY

HARDING WAS, BORER

Difference of Opinion as to Who Really Had Best of Game Last Night

Jimmy McDonald got the decision of Wall Board Exhibition Hall last night but to most of the spectators there was little to choose between them except that Mack was a cleaner fighter and a straighter hitter, his blows when they landed Leing more effective. The difficulty was that Harding covered himself so well that it was seldom a lunge reachad home. Jimmie stood straight up and seemed rather puzzled at his opponent's tactics.

> Harding did a great deal of boring in but when he opened on his opponent he was quick as a cat and his blows were hard. Most of the time, however, he seemed to be playing around. Any punishment he got he took smiling and at the end of each round returned to his corner with a grin on his face, and the longer the fight went the more he grinned. Even when he got a little punishment, as he semetimes did, it did not seem to worry him. His chief failing seemed to be that very few of his blows were straight from the shoulder, he seldom If ever attempted an uppercut, and at times he gave a sort of spanking exhibition as if he were afraid to hurt parently could have gone another ten. it fought to a finish. Neither seemed hurt and no blood

fans complained that they did not come fourth, sixth, eighth, ninth and tenth; blows and at the close of the round

### ITINERARY IN INTERIOR

NUMBER OF SMALLER TOWNS AND VILLAGES TO BE ENTERTAINED BY VISIT FROM EDUCATION-AL FEATURE

To participate in the forest protection campaign being held in this district by the Forest Branch, a Canadian Forestry Association demonstration car arrived in the city from Calgary attached to the regular passenger train yesterday afternoon and will be here until Monday morning when it will leave on a six weeks' tour of various points between here and Jasper Park. The car is fitted with a pojection room at one end and a screen at the other with seating capacity for 125 persons. Moving pictures will be shown to depict the value of the forests and lectures will be given by R. H. Leighton, fire inspector for the Forest Branch. The department is desirous that there should be as large an attendance of citizens as possible at each of the lectures which will be held while the car is here. The car is spotted on the siding just west of the rallway station.

It is a Canadian Pacific Railway coach and arrived here direct from Calgary after having been engaged for the past two months in a campaign to encourage the planting of trees on the Samuel Kincaid, Telegrapher, Married to prairies. It is fitted out especially for, Miss Elsie Sutherland at Southern engaged in. In charge of the car is Alan Beaven of Canadian Forestry Asso- | There was a large gathering at the

silver with corsage bouquet of pink rose buds. Campbell Sutherland, brother of the bride, acted as best man. The groom's gift to the bride was a red fox fur. During the signing of the register. Mrs. R. J. McKay sang "At Dawning."

After a short honeymoon spent in one of the coast cities, Mr. and Mrs. Kincaid will proceed to their home in Hazelton, B.C.

Miss Sutherland was brought up in Ashcroft from her early childhood. She was educated here and has been for some years employed in the local Dominion government telegraph office. She will be greatly missed in the position which she filled there for so long. Mr. Kincald, now stationed at Hazelton, with the government telegraph service, was for a number of years idaing relief work in the various offices throughout the province.

### IN PROTECTION OF CANADIAN FORESTS

by the Entomological Branch of the MCCAFFLY IS

Some years ago the larch sawfly stripged the leaves from tamaracks and larches in Eastern Canada. This was repeated for three or four years; and eventually the larches over millions of acres and practically over the whole of Eastern Canada were almost wiped out. The sawfly has since spread to the prairie provinces. In 1912 the late Dr. Hewitt imported from England a para- While in the south, M. P. McCaffery, site of the larch sawfly. YOU know how you douse your dainty lingerie up and down in a bowl of sudsy water . . that's the way your clothes are washed in a modern laundry. They are not rubbed or scrubbed but are gently swished back and forth in warm filtered rainsoft water until the pure soap actually foams. Every particle of dirt is loosened without unduly lessening the tensile strength of the fabric.. Then come many rinses of rainsoft water so that your laundry washed clothes not only look and feel clean but are scientifically clean.

Your first visit to the Chiropractor is a real step forward. It is advancement, because it means that you are making a change from a system which deals with the alleviation of ills to one which aims to remove the cause of that ill.

As time passes the superiority of Chiropractic, a system which seeks only to keep the path of nerve transmission open so that Nature may function in a normal manner, will be made evident to you in the form of better health at a lowered cost.

By my chiropractic health method I correct diseases of the eyes, ears, nose, throat, lungs, heart, stomach, liver, kidneys, bowels and lower organs.

YOUR APPOINTMENT for health can be made by telephoning Green 241 Consult
