Canada Likely to Be Present at Meeting Between Ramsay Macdonald and President Hoover at Washington in Near Future

LONDON, June 10 .- The Daily Herald, organ of the Labor party, today says Prime Minister Macdonald desires a personal consultation with President Hoover on Anglo-American relations and is willing to go to the United States for that purpose. If the meeting is arranged, the paper says, the British cabinet is likely to take the view it is essential for Canada to be represented and Premier Mackenzie King would probably be invited to represent the Dominion in the conversations.

The Herald's announcement came close on the heels of the prediction of the Observer Saturday that this meeting, with the Canadian minister included, will be arranged.

The Observer said it might settle once and for all the relations between the British Empire and the United States and extend the unfortified frontier between Canada and United States to the Atlantic Ocean, dividing the British Isles and America.

LONDON, June 10 .- The Evening Standard, says the Cabinet Council today, gave particular attention to the Anglo-American relations and that Premier Macdonald's expessed wish to get in personal touch with President Hoover was communicated to the cabinet.

OTTAWA, June 10.—Premier Mackenzie King will notify the House today or tomorrow as to whether or not he has received an invitation to attend a possible conference between Premier Ramsay Macdonald and President Hoover respecting the disarmament problems.

Bow River, Hon. J. A. Robb told the House today that the false move on the part of the Government in power. premier would in all probability make a statement with reference to the rumored conference shortly. The premier was not in the House.

By-election in Sligo Fought On Question of National Honor

DUBLIN, June 10.-A government victory was scored in the by-election in Sligo and Leitrim when General Sean McKoin was returned over Eamon Donally.

The Republican Government regarded the election as a test of confidence, it being a question of the payment or nonpayment of land purchase annuities to the British Government and campaigned on the stand that failure to do so would be a breach of faith. Republicans maintained that the annuities should be paid into the Irish treasury instead of the British.

# A Great Car for

THE FORD car is a great car for women to drive not only because it is so smart and good looking, but also because of its comfort, ease of control, and reliability. Especially its reliability.

You know the Ford will take you there and bring you back. You know you can depend on it. You know it has been built to give you thousands of miles of faithful, uninterrupted service. This freedom from trouble-this mental comfort-means a great deal to every woman who drives a car.

Another feature of the Ford that appeals to women is the safety afforded by the fully enclosed efficient six-brake system, steel body, and shatterproof glass windshield.

You can see the value of this when you consider that 65 per cent of automobile injuries are caused by flying glass. The wind-shield of the Ford will not shatter under the hardest impact. A demonstration drive is convincing.

SEEDING A TWENTY-FIVE MILLION ACRE WHEAT FIELD

In order to supply wheat to some 47 countries, and to retain the enviable position of largest exporter of wheat in the world, the farmers on the prairies of Western Canada have been working every possible moment of the daylight hours seeding millions of acres of wheat. While many Canadian farmers prefer tractors for doing most of the work on the land there are many who still use horses. The two top pictures of the above layout shows a team of four -four of a kind-seeding wheat in Alberta, and a team of eight at work. Below is a battery of seven tractors that can prepare for seeding over one hundred acres each ten-hour day. On the right is a close-up of one of these modern

Matheson working for the Sons does not put so much into his delivery, but it is a deceptive one too, and had the Elk batters swinging wildly at his curve ball, which he had breaking nicely. Lambie relieved him in the ninth inning in case of a blow up, and retired the side with no damage

The features of the game was Lambie's fielding in centre field. He roamed far and wide to get everything within his reach, and anything not within his reach. George Mitchell and Benny Wendle scintillated in the infield, breaking up batting rallies time after time by their snappy pickups. Loblick's triple to right field and Wendle's solid smash to left were the two big batting feats of the game. Loblick tried to stretch his into a home run but was out at the plate, when the ball was relayed there like a bullet from the right field fence via young Stalker and Benny Wendle.

Cast Has Great Talent

The cast, headed by Leatrice Joy, is one of the greatest assemblages of screen talent seen in some time. As Sue Ives, the woman on trial, Miss Joy gives splendid performance, and George Barraud, who plays opposite as the loyal husband, is an ideal performer for this role.

The murder mystery is skillfully unfolded in the courtroom when a man and woman are on trial for their lives, accused of having slain the wife of the man accused. The weight of the evi dence is against them, but a lastminute surprise witness turns the favor in their balance. The jury votes an acquittal.

And the question then is:

Who DID kill Mimi B llamy? Bell does not permit his story to leave his hero and heroine under the cloud of suspicion. Deftly and with a cautious eye upon the plausibility of judicial tactics, he moves suddenly with a stroke of dramatic surprise and reveals the INTERIOR MOTOR TRIP Poles, lineal feet ..... 344,214 quilty one.
