### Sport Chat

It was a pretty little honor and a fellemerited one too, that the Prince Rupert Football Association, at its annual meeting on Wednesday conferred upon Alex Clapperton in electing him to the honorary vice-presidency of the association. There is not a more enthusiastic or a better type of sportsman in this city than our old friend "Doc." He has been a particularly ardent supporter of soccer in season and out and for years has served well on the field in various official capacities. The decision of the association to honor him in this way was a happy thought and one with which there is general approbation. For a football field would not seem a football field in Prince Rupert without Doc Clapperton. And he is also a staunch supporter of all other kinds of clean sport in the city.

### Foil-wrapped and protected

Here's a little drama my friend Caruthers recited the other day. "I used to buy 3 or 4 cigars at a time. I'd smoke one right off—one after lunch. By five o'clock I'd want another, so I'd go into my pocket, and perhaps find one cracked, the other, totally wrecked. I said to myself, 'Bill, that's wrong!' So when I saw Tucketts were putting up Pocket Packs of 5 Marguerites, foil wrapped and protected, I was converted to a '5-at-a-timer.'"

## DISTINGUISHED CAPTAIN COMING

Commander of H. M. S. Colombo Won His V. C. In Unique Engagement

Capt. C. C. Dobson, V. C., D. S. O., in command of the British light cruiser H. M. S. Colombo, which will spend several days at Prince Rupert at the end of this month, will be one of the most distinguished naval visitors this port has ever entertained.

Capt. Dobson served with great distinction with the Royal Navy in the Great War and won his V. C. in the Baltic Sea toward the end of the conflict as a result of a courageous exploit for such as which Royal Navy officers have long been renowned though his was a most outstanding one. It was near Riga that Capt. Dobson, then a commander of a small coastal motor patrol vessel with torpedo equipment encountered three Russian battle-ships and, in the ensuing engagement, unique in the annals of the history of the navy, sank two of them and sent the third scurrying to cover in a crippled condition.

In 1921 Capt. Dobson was elevated to his present rank and assumed command on the Colombo since that vessel's last visit here two years ago.

**STATE INSURANCE**

The house of commons has endorsed the principle of unemployment insurance, but it needs a great deal more than that to put it into operation. Principles are easy to announce, but putting them into practice is a totally different matter.

Unemployment insurance has been in force for a number of years in Great Britain and is often mistakenly referred to as the "dole." Men who are out of work do not have to beg, but the state makes every possible effort, through its employment bureaus, to find another job. If they fail, the applicant gets regular weekly payments from the insurance fund until he finds a position. Then a small percentage of his wage goes into the insurance fund, the employers also contributing and the state paying an amount equal to both. That with variations is the scheme generally adopted.

Canada will undoubtedly adopt the scheme some time in the near future. No government will be able to hold out against the demand for it.

**POLITICAL PATRONAGE**

Everyone is against political patronage, yet it is used more or less by every government that has ever existed in this or any other country. It is most abused in the United States, but even the old country is not free from it. In Canada it is apt to assume its most virulent form in small communities. Political associations recommend changes and the government often takes the recommendations.

It has been charged in the house of commons that the postmaster-general has allowed political patronage in his department in the east and the result has been an uproar from the Conservative leaders and press. At the same time, they have shut their eyes to what has been going on in British Columbia, where the change in government brought about a wholesale change in the personnel of a great many government staffs, especially in the smaller places.

**U. S. TROLLERS FISHING CLOSE MORESBY SHORE**

Natives Report To Trollers Association at Skidegate; Fishermen Go To West Coast

SKIDEGATE, May 3.—Natives report to the secretary of the Trollers Association that there is a fleet of American trollers fishing off Scudder Point, Moresby Island, and all within the three-mile limit.

Capt. Sam Olsen of the troller Tekia O. arrived from the mainland Saturday evening and reports he was hardly able to get anchorage at White Rock on account of so many American trollers anchored there. He says there were American trollers from White Rock to Skidegate bar.

Captain Olsen left, together with Capt. C. Nelson of the troller Ada and Capt. A. Ives of the troller Seaweed, for the west coast and expect to make Port Lewis their headquarters. These are the first trollers to leave Skidegate Inlet for the west coast this season.

Reports from the south end of Moresby Island are that there are no springs yet and very few at Skidegate Inlet, although there is a big run of herring.

**COMPANY OPERATES THIRTY PLANES IN WESTERN CANADA**

Nearly thirty aeroplanes are being operated in various parts of the west by the Western Canada Airways, Limited, according to G. S. Dawson, manager of the Edmonton branch of James Richardson and Sons, Limited, of which the airways firm is a subsidiary, says the "Edmonton Journal."

Five flying boats are in service along the British Columbia coast, with Vancouver as the base while one machine is operating out of Prince George. There are two machines handling the service on the Mackenzie River from Waterways, while two others are operating out of Prince Albert to the Rottenstone Lake country. In addition, there are five machines in the Le Pas area and one in service along the Hudson Bay Railway with Mile 137 as its base.

Service from Webowden to the Oxford Lake country, is being handled by one machine, while the central Manitoba area is being covered from Lac du Bonnet where there is one and sometimes two machines. The company has eight aeroplanes operating at various points in the Red Lake area. For the present season, it plans to greatly extend its services in the western region, according to information received by Mr. Dawson.

The steamships now in the trans-Atlantic tourist traffic touch at fifty ports of Europe.

**PATTULLO ON FORESTRY AT ROTARY CLUB**

Interesting Address Delivered by Local Member Yesterday Afternoon

At an address to the Rotary Club at their luncheon yesterday with George Rorie presiding, T. D. Pattullo, M. L. A. spoke optimistically of the perpetuation of the forest wealth of the province, maintaining that planting of forests was out of the question until fire control was perfected to a much greater extent than at present.

The speaker opened by stating that the timber industry was the largest single industry in the province. He did not think the public generally felt as happy about the future of the industry as he did. When in some districts they saw devastation and desolation they were apt to be pessimistic over being able to draw on the supply in perpetuity.

"Trees are a wonderful work of nature," declared Mr. Pattullo. "For centuries they have been growing and it is a sad sight to see all this work destroyed in one hour. That is what is happening, however, and if there is pessimism as to the future it is to be excused."

"Araïn complaint is made that the forests in some districts are being denuded to provide thousands of Christmas Trees for the people of Canada and the United States. This it is claimed is a wrong policy."

"Another complaint is that the water supply of the country is likely to be in jeopardy as a result of the denuding of the forests."

"But the arguments are not always good," declared Mr. Pattullo. Timber is usually cut around the large centres where it is most in demand and where the results of destruction are most in evidence. It was true that there would never again be the huge 500 year old trees that are seen now but it was also true that a lot of the timber in the province was over matured. It was bad policy to maintain this mature crop which should instead be harvested and thus allow the younger trees to grow up and produce forests for the future.

As to the danger from floods, which is sometimes mentioned, Mr. Pattullo said that he remembered a terrific flood before any timber was cut in this province. Also in the valley of the Mississippi they had terrible floods long before the timber was taken off the land.

The speaker mentioned the condition in the southern states where 25 years ago it had been prophesied that in 25 years there would be no timber left. Today they were marketing 13 billion feet a year, more than was cut in British Columbia, and there was every indication that this cut would be maintained in perpetuity. The first thing to do was to keep out the fire.

Mr. Pattullo also pointed to the fact that forest reserves had been set aside in British Columbia, amounting in all to about seven million acres. The policy of the department had been to set aside sufficient timber to keep the present supply in perpetuity. In some districts nature was reforesting so rapidly that thinning the trees was desirable and here should be the supply for Christmas trees. If taken out wisely the industry would be benefited.

Mr. Pattullo dealt with several other phases of the subject and referred specifically to his investigations in Scandinavia where people protected the timber against fire because they knew it was their bread and butter they were guarding.

At the conclusion the speaker was thanked by the president for his address.

Mrs. Ardagh, who left here in December of a trip to Buenos Ayres, Argentine Republic, where her husband is stationed, returned home on Wednesday.

Mrs. E. J. Wright of Albany, New York, and her niece, Miss Maile Hanson of Vancouver, B.C., arrived from the south on Wednesday on a visit to the former's brothers, W. A. and T. J. Kirkpatrick.

After a residence here of about six years, Terrace, this week, lost another family, when Mr. and Mrs. Robt. Haney and son Bobby left for Vancouver. Mrs. Haney and Bobby left on Wednesday to spend a few days with friends in Smithers until joined by Mr. Haney, who shipped his car as far as Hazelton on Thursday's freight and intends motoring through to the coast from that

point. They have disposed of their household effects and so far are undecided where they will settle.

Jacky Allan is progressing favorably following his recent accident.

Mr. and Mrs. C. O. Duncan entertained at six tables of bridge on Wednesday evening. Prizes for high scores went to Miss Pillsbury and R. M. Cory, with Mrs. Burnett and O. T. Sundal receiving consolations. In a May basket guessing contest the prizes were won by Mrs. Maren-tette and H. L. McKenney.

Stanley Brooks left on Thursday with Robt. Haney and will accompany them on their motor trip south. A dance was held in Stan's honor on Tuesday evening. The music was furnished by Al. Small of Prince Rupert and the evening proved a very pleasant one.

Frances Dover celebrated her tenth birthday anniversary on Tuesday evening when she entertained about fifteen little school mates at a dinner party at her home.

Dr. Brummitt has purchased a new Pontiac coupe which was one of another shipment of cars which arrived for the local General Motors agent at the beginning of the week.

The fund for pews for the Anglican Church is gradually growing and it is hoped before long to have sufficient money to have these installed. Recently money has been sent from England for six, a friend in Winnipeg has donated money for another and Capt. and Mrs. Colthurst are giving one. With the many other improvements which have been

carried out recently, the installation of the pews will add greatly to the attractiveness of the church.

H. M. Hoar, mining man of Usk was in town on Wednesday.

Miss Moffatt is spending the week in Prince Rupert.

Jas. Turnbull of Hazelton who spent several days here at the beginning of the week in the interests of the Hanson Timber Co., returned to the interior on Wednesday.

Thomas E. Wells of the Engen district has been receiving medical treatment in town following a recent accident when he cut his hand severely with an axe.

Plans for an active tennis season in Vanderhoof were made at the annual meeting of the Vanderhoof Lawn Tennis Club which was held on Tuesday evening.

A competition was recently held by the Nechako Drug Store in aid of the skating rink. The grand prize of \$25 was won by George Ogston and lesser prizes were taken by R. H. Worlock, R. McC. Richards, George Snell and a Stuart Lake Indian named Lazaire.

Repairs are being made under the direction of L. R. R. Seldon on the Government Telegraph's telephone between Vanderhoof and Stuart Lake. The line was damaged by falling trees during the past winter.

**GRAND PRIZE**  
**\$25,000.00**  
**WEEKLY PRIZES**  
**\$1000.00**

## A Fortune In Prizes \$1 Makes You Eligible

**HOW** are great projects built? For instance . . . the Panama Canal . . . the Roosevelt Dam . . . the St. Lawrence Waterway . . . the great Alpine tourist resorts? They don't just happen. They are not the result of luck or chance. Nature is a factor, but not the determining factor.

These developments take place where people will them. People with brains, possessing initiative, imagination and determination, co-operate and build.

Let us in Western Canada, co-operate to make Grouse Mountain what it potentially is . . . the greatest scenic resort and mountain playground on this continent.

Approximately \$750,000 has been invested in development to date. A highway has been built and other facilities created. Engineers advise that another half million dollars is required to complete this project. A worthy resort hotel must be constructed . . . the highway must be hard-surfaced . . . a great aerial tram must be erected . . . the mountain plateau must be converted into a paradise of flowers in the summertime, and a gigantic playground for winter sports.

When you purchase a \$1.00 Grouse Mountain Greater Community Spirit Ticket, you help to achieve this objective. Every dollar received from this Campaign will be used to develop Grouse Mountain. You get full value for your money as the price of the ordinary ticket presently in use is \$1.00, and each ticket purchased entitles you and your party to motor over the Grouse Mountain scenic highway once, now or at your convenience.

The Company has made provision for a \$25,000.00 Grand Prize and substantial weekly Cash Prizes which will be given to those individuals who help to make this Greater Community Spirit Campaign a success. The Plan is simple: For the duration of the Campaign there will be 30 Cash Prizes each week . . . One, \$200 Cash Prize; One, \$100 Cash Prize; Twenty-eight, \$25 Cash Prizes. Every purchaser of a \$1.00 Grouse Mountain Highway Community Spirit Ticket is eligible to receive one of these Weekly Cash Prizes. A person purchasing more than one ticket is eligible to receive a Cash Prize for each ticket purchased. The names and addresses of the Prize Winners will be published each week. At the end of the Campaign the persons who have won a Weekly Prize will be eligible to receive the \$25,000 Grand Prize. And, it is to one of these fortunate Weekly Prize Winners that this fortune of \$25,000 in cash will be awarded. Read the Rules for full particulars.

Let us co-operate to make Grouse Mountain the greatest tourist attraction on this continent. To Western Canada it will attract a river of tourist gold. It will be, when completed, a source of pleasure and profit to all. Fill in and mail the attached coupon NOW!

### ECLIPSE OF SUN

There will be a total eclipse of the sun on May 9, but it will not be visible from this continent. United States scientists have gone to the Philippines to observe it.

Amsterdam is one of the few places in the world where servants are still plentiful. There in an ordinary-sized home, comes a maid to scrub continuously for eight hours every day for a very small wage. No wonder Holland is a clean country!

## DOUBLE BILL AT CAPITOL

"The Great White North" and "Give and Take" Will Be Featured

"The Great White North" The story centres around the most dramatic episode in the history of Arctic exploration—solving a 15-year mystery of the disappearance of the Stefansson expedition lost in the great white north. This picture is worth going miles to see, just as it might have been worth risking life and limb to chronicle what actually transpires.

"Give and Take" George Sidney making whoopee and Jean Hersholt in another character portrayal all in one picture. The ridiculous results of a young and ambitious college grad to put his father's business on a profit-sharing basis, from the theme of one of the best comedies of the year. There are a lot of laughs for you in this one.

Ward for donation of cream and cake which added another \$6.50, also to Mrs. Hastie and all others who so kindly helped.
