POOL SALES MANAGER ON DEFENSIVE

UNITED STATES DRYS WIN BIG VICTORY AT WASHINGTON

Co-Operative Principles

The Alberta Wheat Pool was formed as the result of a co-operative movement as a protest against the methods of grain dealers who traded at the expense of the prairie farmers. The movewas all right. The difficulty seems to have been that the Pool got into the hands of a group of men who are proving just as the dealers against which their formation was a protest.

Today in Prince Rupert we find the Pool holding the Prince Rupert elevator under a lease from low rate for the purpose of encouraging competitive shipping. What does the Pool do? Instead the cargo, caused the delay. of using it as designed, they are holding the elevator and preventing its use by anyone else and relusing to use it themselves, divertng practically all their business o another port.

The money invested in the elevator here is put up by all the people of Canada and the building vas erected in the belief that it uite contrary to the ideals of co- days. peration and contrary also to the spirit of the contract under which hey secured it on recommendaion of the people of Prince tupert.

TWO PEOPLE DIED PTOMAINE

MONTREAL, March 1.-P. W. lobertson, assistant sales manger of the International Pulp & Paper Company, Montreal, and his ive-year-old daughter Phyllis, tre dead from ptomaine poisoning believed to have been caused hrough eating tainted food last light. Mrs. Robertson and son, Kenneth, are in hospital.

ELECTION SCANDAL ARREST IS MADE

EDMONTON, March 1.-Startng with the arrest of Thomas J. ornwall yesterday on a charge of orgery in connection with the Athabasca election scandals, it is believed that there will be other sensational developments during the next day or two. It is expected other arrests will be made by the R.C.M.P. in a final drive to clear up these cases.

ADMIED A E CENTRO

LONDON, March 1.-Vice-Admiral Reginald Tyrwhitt, aged 8, has been promoted to the rank f admiral. His war exploits included the driving off of five enemy cruisers and the sinking of the German ship Maihzo off Heligoland in 1914 and the sinking of the Blucher at Doggerbank

EDITORIAL Good Loading Record at Prince Rupert says Manager of Pool

ment was a good one. The idea Delay of Sydland at Port Was No Fault of Pool Management, Declares Sales Manager McIvor in Statement Issued

WINNIPEG, March 1. - In a statement issued last doubtful in their methods as were wight George McIvor, general sales manager of the Canadian Wheat Pool, denied reports that he had been responsible for the delay in the sailing of the steamer Sydiand from Prince Rupert. The steamer was held there for six days in February awaiting a cargo. The delay was due to conditions over which the Pool had no control, stated Mr. the government given at a very McIvor. He explained that the grain was shipped from Alberta in ample time to keep the terms of the contract, but a railway accident, which necessitated a re-routing of

> "We received no complaints from the captain of the ship or from the owners of the Sydland, which would indicate that they appreciated that the delay was unavoidable," added McIvor.

The matter was brought up in the house of commons last week when the attention of Minister of Trade and Commerce Malcolm was drawn to reports that the ship was held up because no grain was on hand in the terminal elevator for cargo. In his statement Mr. McIvor said: "Our rould be useful. Then comes an record of loadings through Prince Rupert compares favorrganization that grabs it and pre- ably with that of any port in the world. In many cases ents it being used. This is ships have been loaded in a period not exceeding four

DRYSSCORE BIG VICTORY IN CONGRESS

WASHINGTON, March 1. -The dry army in the house of representatives marched rough shod over the opposition yesterday, passing the Jones bill to increase the effectiveness of liquor law enforcement by a majority of 283 to 90. The move was led by the Republican drys. The debate on the measure was often acrimonious. A few members shifted to the opposition, charging that errors in the bill made it ineffective. No changes were made which would necessitate a joint sitting of the two legislative

TROM the cold, deep waters of the seven thousand miles of British Columbia's Pacific Coast, comes a harvest of fish that the palate of all mankind enjoys! For over twenty years our Province has been a leading factor in Canada's fishing industry. Progress continues unabated...the markets to the ends of the earth demanding ever increasing quantities.

The past ten years have seen this industry grow from 14 million to 27 million dollars . . . an increase of 89%. Our annual catch totals nearly half the entire Canadian production, and "King Salmon," our marine silver mine accounts for at least 15 million dollars a year.

The distribution from our Provincial hatcheries of millions of salmon eggs to renew the harvest that goes into the nets; the Treaty between Canada and the United States for the protection of the Pacific Halibut (March, 1923) providing a close season from November 16th to February 15th; modernized canneries, 83 in number, and sane Federal Fishing Laws, carefully administered, are the foundation of an industry that will continue to grow.

The fame of British Columbia's Whaling Fisheries is of long standing, and has materially increased the value of the products from this industry. The yearly catch, now about 400, is taken between one station on Vancouver

Island and two stations on the Queen Charlotte Islands.

Much as has been done to develop and conserve our fishing industry, there still remains a great deal to be accomplished. The vastness of our waters and the extent and ruggedness of our coast make organized protection and administration extremely costly.

But the safeguarding of our fisheries is a matter which now commands the earnest attention of our government, who realize the importance of conserving this basic industry.

As the oldest industry of our Dominion, fishing has been one of the largest revenue producers, and it is significant that Canada's youngest Province, in less than twenty years, should secure a leading position in the world market. This aggressive search for foreign business has been an asset which undoubtedly has created one of the most amazing records of our basic industries. Well may we be proud of our Fisheries!

Read these announcements and understand your province's T progress . . . clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!

JERSEY SCENE OF LINDY'S MARRI AGE?

The marriage of Colonel Charles Lindbergh and Miss Anne Morrow, inset, probably will take place at Englewood, N.J., but it was made plain by Mrs. Morrow that the time and place had not been decided and that it was entirely up to the engaged couple. The picture above shows the new home, top, of Ambassador Morrow's family at Englewood and below is their old home in which Anne was born.

Miss Morrow was with Col. Lindbergh when he made a successful landing with his airplane with only one wheel and later went up with him three times to show she was not

Suggests That Government Should Cancel Lease Given to Wheat Pool

(Prince George Citizen)

The kupert elevator was built with public money to increase the shipping facilities on the Pacific coast. he residents of Prince Rupert as well as those of all the towns along the line of the Canadian Northern from Rupert to Red Pass are vitally interested in this promised development. It

is the duty of the federal govrament to ascertain the reason why the Rupert elevator failed to fuls daily - chronic cases, with function this season. If the out every meal. standing lease on the elevator is the cause of the trouble steps should be taken to have it cancelled or amended. The people of the morthern pertion of the provmed have a right to expect a return upon the money invested in the Rupert elevator. The leasing of the elevator at a nominal rental to the wheat pool presupposes its use in the export of grain. If the lease does not ensure this it becomes an improvident instrument and should be terminated. If there are other difficulties in the way of shipping grain through Prince Rupert the federal government should grapple with them in the interest not only of the people of the northern portion of yesterday, S. D. Johnston, pre-Britist Columbia, but in the in-|siding, Jim Gibbons of Bangor, terest of the people of Canada Me., told how things were done as a whole as represented by a the Rothry Club to which he benationally towned line of railway longed. The club, he said, was running into Prince Rupert, and the public money of the people
