EVIDENCE GIVEN WASHINGTON REGARD PRINCE RUPERT

USE OF THE ELEVATOR

The failure of the wheat pool use the local elevator to any extent this year has been a subject of much adverse criticism. The matter has been taken up at Ottawa by J. C. Brady, M.P., andidate, but with no satisfactory results. It will be discussed by the members of the Prince Rupert Board of Trade Friday eveing at their regular monthly meeting.

Board of Trade members turn out natter. It seems that Prince nd of the deal from the Wheat ing funds of British Columbia a -ractically none to this port and nees. he result locally has been a great Mr. Johnson also stated in an-

ithout the Pool this year.

ear. This is not good business due. and it is well for the farmers of uggest that a campaign of edu- 5.80. Mr. utting the movement in force. campaign through the mail and funds. ress should prove effective.

It has been suggested that the Pool is losing the confidence of LASH PENALTY FOR he farmers of Alberta and that is me reason why Prince Rupert is eglected in its plans. There is doubt that if Prince Rupert cople get busy they can enlighten he farmers as to the true condi- dition of lash penalties for ign up with the Pool. of the house.

There is a strong rumor to the ffect that the elevator here is hutting down. A number of the nen are leaving and so is the shiping agent. Strong protests ocally should be made against any uch action. Prince Rupert was illing to spend money on various publicity campaigns and we feel sure they will not be backward in his case if it is necessary to carry out a campaign of education with de prairie farmers.

Prince Rupert must not sit back ind allow the Wheat Pool to walk ver them, powerful as that organzation seems to be. We must asert ourselves and do it in such a nanner as to be most effective.

We have been reluctant to take ny step which might be contrued as hostile to the Pool, but e policy of the Pool this year ward this port has been such as make drastic action necessary.

BODY OF MAN

Remains of W. Gamura Taken From Middle of Harbor, Where They Were Afloat

The well dressed body of a man was taken from the middle of the harbor by provincial police officers under Inspector William Spiller just before noon this morning. The body was afloat and the officers proceeded to investigate on report being made to them of its finding.

Inspector Spiller stated this afternoon that he was unable at this time to give any further details than these. Investigation is proceeding and an effort was also being made to establish the identity. The body was in sound condition and death had been very recent. It was taken to the B. C. Undertakers.

The man was later identified as William Gamura.

Only Eight More Hockey Games in National League this Season Canadiens Look Like Winners

TORONTO, Feb. 27. - With no more than eight games left on the schedule of any team of the National Hockey League, the lineup for playoffs is beginning to become more derinite. The Canadiens, leaders of the international group, seem to head the best position. They have played one less game than the New York Americans and by defeating Pittsburgh last night increased their margin. The Canadiens clash with the Americans in the next

game. The New York Rangers, leaders of the American

group, are in a more dangerous*position with six games to play. By taking a hard game from Ottawa last night they maintained PROVIDEFOR their one-point lead over Boston, but the Bruins have eight more to

DAILY EDITION

THE LIFE OF THE FISHERMAN

Once again attention is drawn in a most dramatic manner to the perils which our fishermen have to meet in earning their living. Those who have not been out in a halibut boat can hardly understand what the life is of untruthfulness, inaccuracies like or what hardships have to be undergone. Already and mistatement of facts with a this year three men have been swept from the decks of political flavor to them in a refishing vessels and none can tell when a like fate may in Public Accounts Committee overcome others.

yesterday with reference to the In view of this situation every possible effort should Cameron drainage district bebe made to provide for them the best possible accomoda- tween Nanaimo and Courtenay is tion when they are ashore, so that appreciation may thus under review. be shown for the work they do and the risks they take when out.

QUESTION OF TITLES

The Edmonton Bulletin takes up the cudgels on behalf was not held in very high regard of the granting of titles to Canadians. We do not agree was absolutely untruthful, Mr. with its agrument, but it is interesting. Our view is that Manson said. The land was held no such incentive to good work is needed as the granting in high regard by some of the of titles. Also, we disagree when the Bulletin suggests owners. that the members of parliament are nonentities. There is our own J. C. Brady we have to defend. Following is quoted that the assessment of Pearson and McGregor was fully the editorial:

Premier King and Hon. R. B. Bennett found them- were paid up. selves in a minority the other day on a vote that parlia- C. E. Sonley, of the land settlement should appoint a committee to "investigate and re- ment board who is in charge of port upon the advisability of qualifying, amending or re- the accounts of the district, on scinding the address to His Majesty the King, which was to him said it must be a mistake. adopted by this house in May, 1919, dealing with the con- The two owners had met their ferring by His Majesty of titles of honor or titular dis- assessments every year, some tinctions upon His Majesty's subjects domiciled or ordi- were in arrears but had been narily resident in Canada." In other words, a majority paying assessments recently. of members of the house of commons, composed mainly of men who never by the wildest stretch of imagination as untruthful, inaccurate and a could be conceived as doing anything important enough to mistatement of facts. deserve a title, decided that a majority of similar mediocrities in 1919 said the last word on the question of the promised a special meeting of the advisability of allowing any mark of distinction to be con- committee to go into the subject. ferred upon any Canadian who in any field of action may render unusual service to his country, his race, or the KIVING DUAT world. Congratulations to Premier King and Mr. Bennett are in order, on being found the dissenters to that proposition.

What does the titles resolution of 1919, thus confirmed by the present commons, amount to? One illustration will suffice. It means that the parliament of Canada makes it impossible that any signal testimonial of public approval should be conferred upon the Canadians who gave insulin Giant to the world. And in general terms it means that by order of parliament there is to be no incentive held out to the youth of Canada, as a spur to high endeavor, save the hope of accumulating money. To the thousands of young men who are attending our universities, who are devoting their ing with the grace of a giant lives to medicine, to applied science, to business, to art, to bird, a new amphibian flying literature, parliament says that the only prize attainable is wealth. That evidently is the only thing which this majority of the members of the house of commons think jation enthusiasts alike. worth while as an incentive to ambition. Had they thought It represents the winning deotherwise they would have suggested some other means sign in the navy's flying boat for bestowing a mark of public approval and apprecia- competition staged last year and tion, as a substitute for the forbidden title from the hands won by the Consolidated Aircraft of the King. They suggested nothing of the kind. To Corporation of Buffalo. A FTER all, there's no place like British Columbia in which to work and live and play! Here, there are no long "off seasons" to cut down a man's working time. Our temperate climate keeps a man fit ... enables him to produce more...earn more.

The producers' average weekly wage in British Columbia is \$28.39 . . . 49% higher than the rest of Canada. In 1926 seventeen industries increased weekly wages by \$12.95! Actually in ten years our annual payroll has grown from 78 million dollars to 175 million dollars . . . the greatest advance by far of any Province during that period. This, of course, does not include agricultural workers, professionals, clerks and others. British Columbia's gross payroll is estimated at 210 million dollars!

Life is more enjoyable . . . we have more time to enjoy the year-round pleasures and recreations at our doors, while our general standard of living is very much higher.

Taxation during the last four years has been reduced by two and a half million dollars . . . concrete proof of our province's sound financial condition.

Construction, that outward evidence of the faith we have in our province, has played a large part in the wage situation. In ten years British Columbia's construction activity has gone up ten times. In 1916 it involved only \$2,800,000 . . . for 10 months in 1927 it amounted to \$27,277,000!

This activity has an immediate effect on current conditions. Cash funds are disbursed for materials, employment is good . . . wages fairly steady . . . money in circulation.

It increases the capital investment in our Province. And there can be no surer indication of future progress than when producing machinery increases . . . a sign of growing markets . . . a sign that British Columbia products are winning a place in the markets of the world.

abla weather.

1929 Examinations

THE ENGINEERING PROFESSION IN BRITISH COLUMBIA

THE following Examinations in all branches of engineering will be held on the last Monday in April, 1929, in Vancouver, Victoria, Nelson, Kamloops and Prince Rupert, B.C., in accordance with the terms of the Engineering Act of the Province and the By-Laws of the Profession:

Preliminary: Intermediate:

For registration as "Engineering Pupil," For students 17 to 23 years of age with 2 or more yearsengineering experience. University students in Applied Science exempted from this examination.

To obtain a "License to Practice"

Engineering. For engineers with 8

or more years engineering experi-

Final or Professional:

For registration as "Engineer i Training." For students 21 to 28 years of age with 5 or more years engineering experience. University graduates in Applied Science exempted from this examination.

Final for University Craduates:

For engineering graduates holding affiliation as Engineers in Training and possessing 3 to 4 years engineering experience. (Thesis and oral only.)

The scope of the examinations, with names of text books and reference books recommended by the Profession and other relevant information can be obtained on request. Please give date of birth when writing.

Address The Registrar:

EMBARRASSING MOMENTS

healthy and strong, who were climbing the ladder of learning - learning that life holds forth a promise to faithful students, rewarding them with opportunities and sometimes fame. Now these two children dreamed dreams and made wishes as they saw the end of schooldays and looked into the years ahead. Their country was prosperous, because the products of the land and factory were the first choice of all the people. All the land and its industries prospered and abounded with opportunities for the children of the people. Each child began the battle of life with the occupation of his choice, and few there were who failed n after years.

There's a moral to this story

Board of Trade in the interests of the manufacturers of British Columbia.

The children of today are the nation of tomorrow. Every dollar you spend for a B.C. Product helps certify the industrial progress and prosperity of British Columbia. Your dollar spent for B.C. Products helps provide opportunities and careers for your children in the industries of British Columbia. After all, that is where "life" begins.

Late H. D. McIntyre Suffered From Heart Affection, Coroner's Jury Finds

That Herbert Duncan McIntyre, assistant office manager of RANULATED SUGAR-Monday evening, came to his NEW ZEALAND BUTTERdeath as a result of disease of SEEDLESS RAISINS-7 lbs. 95c the coronary artery leading to the CHOICE PRUNES-6 lbs. ...95c heart was the finding of the TABLE FIGS-2 lbs. 45c oroner's jury which sat yester-TABLE RAISINS-2 pkgs. ... 45c ay afternoon before Coroner orman A. Watt to investigate the circumstances. The jury SOFT SHELLED ALMONDS- ivan and F. G. Pyle. There INSTANT POSTUM-

he had found a diseased coronary 2 lbs. \$1.55 artery and other symptoms of diseased heart. His conclusion

> West's theory of the cause of death and told of having been 10. called to the library where he found deceased practically dead. There was no breathing or heart action but a twitching of the lips and an apparent final effort to

> > library, he spoke to Mr. McIn- P. GAMULA, Proprietor tyre who nodded and smiled. He Fifth Street. appeared to be in normal health. As he (witness) was opening the loor to go out. Mr. Kirkpatrick testified that Mr. McIntyre fell against his leg. Witness turned and found him lying on the floor. He was gasping and twitching and witness testified that deceased opened his eyes and looked at him as if to speak. The jury took about fifteen minutes to arrive at its verdict. The late Mr. McIntyre, according to later information, was 52 E. McIntyre, is a farmer at Mount Pleasant near Brantford, Ontario.
