Canada Will Maintain Position in Spite of U. S. Tariff Declares Hon. Earnest Lapointe in Speech

If United States Makes It Difficult to Trade Then Business Must Go Elsewhere, Declares the Minister of Justice

GRAND BEND, Ont., June 20.—"Canada will maintain her trade position and if the United States makes it more difficult for Canadian trade, Canada will find other outlets and take the necessary means for that purpose," declared Hon. Ernest Lapointe, minister of justice, in an address to a large crowd at the South Huron Liberal picnic here yesterday.

"We will continue to shape our policies on a national basis in the interest of all sections of Canada," the minister said. "We will legislate, not for one class, but for all classes and groups of the Canadian people."

Mr. Lapointe remarked that United States would still require Canadian products, tariff or no tariff.

Mr. Lapointe opposed any suggestion that there should be reprisals by Canada against the United States tariff along the lines adopted by the United States. "We are satisfied with Canadian methods and doctrines and we will keep them," he said. "We will shape our policies, fiscal and otherwise, at Ottawa, and we will not take them from Washington."

Mr. Lapointe asserted that the Canadian Government did not propose to follow the United States tariff ideals. He made reference to repeated appeals which had been made to Ontario audiences during the present tour of R. B. Bennett, Dominion leader of the Conservative party, and to Mr. Bennett's attitude toward the action of the United States in increasing the tariffs against Canadian products. He said that the British preferential trade treaties had been part of the Government's policy.

NAVAL RESERVE HERE DISBANDS

Orders Come Through From Ottawa to Discontinue Local Unit of R. C. N. V. R.

Orders were received today from the Department of National Defence in Ottawa to disband the local unit of the Royal Canadian Naval Reserve because there are not sufficient men enrolled and also because enough were not being sent from here to Esquimaux for training. The premises on the waterfront used as naval headquarters are now being abandoned and the unit's equipment will be sent away.

Local officers of the unit will assign their commissions and Petty Officer Instructor Young, who has been stationed here, will be transferred to R.C.N.V.R. headquarters in Vancouver.

YELLOWBIRD CREW HONORED

French Officialdom Does Honor to Men Who Flew Atlantic

PARIS, June 20.—Members of the crew of the trans-Atlantic monoplane Yellowbird, were received by the Chamber of Deputies and Senate yesterday at the Hotel De Ville, the highest honor possible for any Frenchman to receive.

Pilot Jean Assolant received the gold medal of the French Aero Club and Rene Lefevre, the navigator, gets a silver medal.

The only person on the monoplane receiving no recognition is the American stowaway Arthur Scheiber, who is being generally ignored. He will be shipped back to the States after being allowed to see the sights of Paris for a few days as the guest of the flyers.

DROWNED IN GORGE VICTORIA YESTERDAY

VICTORIA, June 20.—When the punt which he was navigating against a strong tide race in the Gorge late yesterday afternoon capsized, John Moore, 15 years of age, was drowned, and his body had not been recovered this morning.

B. C. PEOPLE MOST WEALTHY IN ALL CANADA

OTTAWA, June 20.—The national wealth of Canada, exclusive of the undeveloped natural resources in placed at \$27,687,000,000 for the year 1927 in an estimate made public by the bureau of statistics yesterday.

In the division of wealth, Ontario comes first of the provinces, with 34.53 of the total. Quebec is second with 24.75; Saskatchewan third with 10.83, and British Columbia fourth with 8.38 per cent.

While Ontario and Quebec lead in absolute wealth, the western provinces come first in per capita wealth as follows:

British Columbia, \$4,032.
Alberta, \$3,600.
Saskatchewan, \$3,586.
Ontario, \$3,000.
Manitoba, \$2,976.

OPINION DIFFERS ON BRITISH IMMIGRANT AS FARM SUCCESS

SASKATOON, June 20.—Interesting views on immigration gathered from various provinces were outlined in reports presented by two committee conveners—Mrs. F. B. Fadden, Huntington, B.C., and Mrs. John B. Owens, St. John, N.B., before the Federated Women's Institutes of Canada today.

Speaking for the west, Mrs. Fadden said that while it was the feeling that British immigrants were wanted, yet Manitoba felt that the British immigrant was not so successful as farming as the foreigners who seem to succeed on the poorest land. Many Britishers could not easily make a living from the land, Saskatchewan, on the other hand, had reported that English and Scotch soldier settlers are second to none, 80 per cent of the 650 families located there making good. The view had been expressed in some quarters that more immigration should come by way of the Canadian cradle.

FISHING ON SKEENA OPENS

Not Many Fish Taken First Night But All Canneries Ready to Receive Them

JAPANESE TOO EAGER
Eleven Hundred Is Limit of Boats Set For River This Year By Department

Fishing with sockeye nets became permissible last night at midnight and all the canneries in District No. 2 which will operate this season were ready to receive the silvery annual harvest of salmon for packing. Such meagre reports as were available from the Skeena River this morning indicated that the catches there were small though about the same size as usual on the opening day of the season. No reports were in up to noon from the Neas River or from other parts of the district. It will be Sunday night before the most of the fishermen start operations.

Four arrests were made by the department patrol in the district just before the opening of the season. Jap fishermen from Oceanic, Wales Island, Sunnyside and Claxton are alleged to have had their nets in the water about an hour before the opening.

There will be a 48-hour weekly close season this year from 6 o'clock Friday night until 6 p.m. Sunday. Should the number of licenses issued on the Skeena River exceed 1100, and there are not that number yet, there will be an additional twelve hours placed on the weekly close season.

DISCLAIMS BEING HERO AFTER RESCUE FROM BROKEN VESSEL

PORTLAND, Ore., June 20.—Captain Lewis Johnstone of the freighter Laurel was rescued from the vessel yesterday, two days after she had broken in two on the Columbia River bar.

"Hero Hell," muttered the skipper as he stalked ashore as a reply to suggestions of some of the bystanders.

High Flyer Sets New Record

Lt. Apollo Soucek premier flyer of the Naval Air Station of Anacostis, is believed to have set a new world's record by soaring 40,000 feet in the air in his aeroplane. Lt. Soucek carried sixty gallons of gas and took seventy-three minutes to make the flight which may be declared a record after the instruments have been officially checked.

Latest Thing in Modern Boat Construction Seen in the Vessels Built Locally and Going South

Two fine new sixty-six foot fish packers, built at the Prince Rupert drydock and combining the last word in modern construction and general efficiency, will leave at 11 o'clock tonight for Queen's Cove on the west coast of Vancouver Island, where they will go into commission for the Island Packing Co. as pilchard packers. The boats are named Ispaco I and Ispaco II and are commanded by Capt. Al Woie and Capt. Harry Berry, crews of seven men each having been signed on here this week to man the boats.

Yesterday both boats were given their trials and H. J. Bradbury, an official of the Island Packing Co., stated that he was highly pleased both with their workmanship and performance. Running at moderate speed, they both turned up eight and a half knots per hour with no difficulty. Each boat is equipped with a 75 Atlas Imperial full diesel engine. The aggregate cost of the two vessels was about \$42,000.

If these boats prove satisfactory, as it is almost certain they will, Mr. Bradbury stated that his company might build more like them at the local yard next spring.

URGES SALE OF RAILWAY TO C. P. R.

Members of the Rotary Club today were rather startled out of their usual complacency to hear one of their members in an address advocate instead of the formation of a new province for northern B. C., the selling of the railway from Red Pass Junction to Prince Rupert to the Canadian Pacific Railway. Such action as this, he thought, would put new spirit into the people and would cure the ills of which the people of the north at present complained.

President Hoover is Said to be Seeking Tariff Modification

Feeling in Canada in Favor of Imperial Preference Causes United States Governmental Heads to Pause

TORONTO, June 20.—A despatch to the Toronto Star from its Ottawa correspondent says:

"It is credibly reported in Ottawa that President Hoover and his chief lieutenants are seeking to modify the tariff increases against Canada. The growth of Imperial trade sentiment in Canada as a means of combating these increases are said to have been reported to Washington by the United States legation here and the danger to United States trade with Canada emphasized. These reports are now common talk at Parliament Hill and may have accounted for the Dominion Government postponing action until the United States tariff proposals are stamped with finality.

"The initial steps in the Government's Imperial preference policy for the development of trade within the Empire will be brought down at the next session of Parliament. Details of the actual tariff revision are not yet worked out, but it is understood that ministers of the crown most interested in the subject will spend most of the summer and fall working on the subject.

"The cabinet on Tuesday had a desultory conversation on the subject, but went into no specific phases of the tariff revisions."

YACHT RACE ON LAST LAP

Kloss of Shelton Leads Olympia-Juneau Racers; Japp Second, Maide, Third

KETCHIKAN, June 20.—One hundred and ten miles south of Ketchikan, the Kloss of Shelton, Washington, was leading ten yachts in the capitol-to-capitol race from Olympia, Washington, to Juneau, Alaska. The Jazz of Juneau was about half an hour astern of the leader while the Maide of Seattle was eight miles behind.

All racers were expected to arrive in Petersburg during the morning. The last lap from Petersburg to Juneau will start at 10 o'clock tonight when the yachts will have easier going.

The Kloss was the first to reach here, mooring in at 11:16 a. m. and leaving at 11:30 a. m. Most of the racing yachts are expected to put in at Prince Rupert for a call on the way south.

JAIL BREAK IN TEXAS PRISON

Forty-Four Men Kidnap Guards and Make Escape—Three Are Recaptured

BRAZORIA, Texas, June 20.—Forty-four convicts kidnaped three guards at Clements State Prison Farm near here early today and escaped. A few hours later three of them were recaptured, two after they had been shot by a cattleman in the vicinity of the farm. The others are believed to have scattered through the dense underbrush of the Brazos River bottoms.

OFFICIAL BAN LIQUOR EXPORT

Recommendation Made By Committee on Legislation to Women's Institutes Convention

SASKATOON, Sask., June 20.—Creation of public opinion demanding an official ban of Canada's liquor traffic with the United States; provincial legislation to ratify the Labor Convention; and improvement of the national status of the married women—these objects for the activity of the Federated Women's Institutes of Canada have been suggested in the report of the committee on legislation.

In her official statement, presented last night, Mrs. W. R. Lang, Toronto, convener of the committee, reviewed completely the outstanding provincial and federal legislation from the standpoint of the associated women's bodies. Her directions for the institution's activity cover the next two years, being advanced at the sixth biennial conference.

Emphasis is placed in the report on the economic status and nationality of married women and their rights of inheritance, as well as on general social legislation, including mothers' allowances, adoption, care of children born out of wedlock, and so on.

COUNCIL WILL DECIDE MONDAY

No Announcement Made Following Full and Free Discussion of Public Works Last Night

Meeting in committee of the whole last night after a brief public session for transaction of business, members of the city council engaged in a full and free discussion of affairs pertaining to the municipal public works department. A decision as to future policy will be made at the regular fortnightly meeting of the council next Monday evening. Mayor McMordeie announced this morning. He declined to comment further on the situation at this time.

All members of the council were present at last night's meeting except Ald. Dawson, who is out of the city.

TRYING TO START THINGS

There is a little story told in one of the Alberta newspapers about four people passing a closed factory and three of them commented on the waste of money. Then the fourth spoke up and remarked that at any rate somebody had tried to start something, which was more than the rest of them had done. There was a long silence.

If we might be excused for doing so, we might ask Prince Rupert people individually if they have ever tried to start anything. Some have done so and have failed; others have done so and have succeeded. To make the effort is worth while even if three out of four of the remainder of the community stand aside and make caustic remarks.

Start something. Perhaps someone else will keep it going and perhaps not, but if nobody starts there can be nothing done.

VERY FINEST FOR HOLIDAY

Mrs. Rajout Has Opened Her New Farm Home at Tiel With 14 Rooms

The holiday season is here and many people are looking for a place at which to spend a real holiday. Here is a suggestion. Mrs. Rajout has just opened a new farm home at Tiel on Queen Charlotte Islands, and is prepared to receive summer boarders.

The new home is situated in the midst of a 200-acre farm of open park-like natural meadow decorated with clumps of trees. It faces on the straits at one side and the Tiel River on the other. In one trout fishing is excellent, and salmon trolling is the sport in the other.

For children the place is ideal because there are huge sand drifts on the shore. The food is wholesome and there is an abundant supply of milk and cream supplied from the farm cows. River and sea bathing may be enjoyed.

A few Prince Rupert people have been in the habit of holidaying at the Rajout Farm but the accommodation was limited. Now all that is changed. A fine new building has been erected and all is in readiness for the visitors.

passing through water in which there is drifting ice, and it not only gives heat but light which penetrates fog so that photographs can be taken showing if there are any drifting icebergs in the path of a ship. The other ice-fighting weapon, solite, is a substance with which ice is melted and exploded, and it is the only agent known that will cause ice to explode.

HONEYMOONERS ON COAST STEAMSHIPS AND AT JASPER PARK

JASPER, June 20.—Coming as it does in June, the inauguration of the summer Alaska service is great allure to honeymooners, according to Robert McMan, passenger traffic manager of the Canadian National Railways, who was in Jasper last night on his way back to Winnipeg after enjoying the first trip of the season in the Canadian National Steamships service from Vancouver to Skagway. There were no less than eight honeymoon couples on board, he said. Three of them came to Jasper and were added to the four already here.

Passenger traffic to Alaska would be very heavy this summer, Mr. Creelman said, the list of the first sailing was a good indication. The interest of Callaghan in the more northern ports of their coast was growing by leaps and bounds every year. Many of them took a round-trip from Prince Rupert to Jasper and down to Vancouver by train.

URGES EDUCATION IN HOME ECONOMIES FOR GIRLS OF COUNTRY

SASKATOON, June 20.—Recommendations that the organization's work of surveying home economics education in Canada be carried on until finished was recommended in the report of the Committee of Household Economics by Mrs. T. L. Guild, national convener, to the Federated Women's Institutes of Canada here today. She also urged that more opportunities to study economics be given girls in rural sections.

Prince Edward Island branches had asked for a more serious attitude toward the daily round within the house, toward the responsibility of community work, and developing the aesthetic side of home-making through music, pictures and literature.

Ontario, Nova Scotia, New Brunswick, Manitoba and Alberta had sponsored extensive short courses in all branches of economics. Alberta had provided scholarships for girls attending agricultural colleges. Saskatchewan also offered a scholarship for the highest standing in home economics upon graduating from the University. The Farm Girls' Camp at the University, the summer five-weeks short courses for farmers' daughters at the University were all to the credit of Saskatchewan. British Columbia had completed its survey on the home economics education of that province.

KEEPING RIVER OPEN FOR OCEAN VESSELS

Montreal Ice Expert Has Two Powerful Weapons For Fighting Ice In St. Lawrence

MONTREAL, June 20.—Two new weapons for fighting ice in the River St. Lawrence by which Dr. Howard T. Barnes, ice expert, hopes to keep navigation open to Montreal for a longer period than seven months in the year, as is the case at present, were explained at a meeting here recently by a brother of the ice expert, Wilfred M. Barnes, a painter, who is familiar with his brother's work and methods in the matter of prolonging navigation to this port. The two weapons are the thermit flare and solite, comprising the heat unit with which ice-packs were destroyed during the high water this spring, when floods were thus prevented. The thermit flare, it was explained, is projected from the bow of a ship

THE FORD CAR SIX-BRAKE SYSTEM

Grips with Silent Power

THE greatest safety feature on any automobile—the braking system—has been developed on the Ford car to a degree that insures absolute driving confidence. Being fully enclosed, the internal expanding brakes on all four wheels are free from any danger of impaired performance from mud, sand, road dirt, grease or other foreign matter entering the mechanism or between the bands and drum.

The four wheel system is operated by a foot pedal, while the emergency or parking system of two brakes, one on each rear wheel, is distinct and separate, operated by a hand lever. This added security is made possible through the unique design of the Ford steel spoke wheels to which drums are fitted to accommodate two sets of internal brakes on the rear wheels.

The smooth, even braking of the Ford car yields more advantages than maximum safety at all times, since it makes tires last longer and adds immeasurably to riding ease and driving comfort.

Drive it Yourself—there is no Better Test

Ford Car Features

- Choice of colours
- 55 to 65 miles an hour
- 40-horse power engine
- Full balloon tires
- Fully enclosed six-brake system
- 4 Hydraulic hydraulic shock absorbers
- 20 to 30 miles per gallon of gasoline
- Shatterproof glass windshield
- Theft proof ignition lock
- Reliability and low upkeep

LAKES STOCKED JASPER PARK

JASPER, June 20.—Renowned for its beauty and its size, Maligne Lake and in the Canadian Rockies, will give another claim to fame. Within a few years it will be a fisherman's paradise. The stocking of Maligne Lake with speckled trout was a Dominion Government experiment and a triumph of the ingenuity of man.

Maligne Lake is a high altitude lake, situated at a depth of 10,000 feet. The water is pure and clear, and the trout are five and six inches long, are free from insects and are as lively as you can see. Bright, superintendent of the Qu'Appelle hatchery, who has just completed an inspection, has declared himself highly delighted with the results. A few days ago Maligne received 20,000 more inhabitants. They arrived in the per during the winter as eggs from Cresco, Pennsylvania. In addition to these 40,000 rainbow trout from Maligne have just been put into Cabin Lake.

KETCHIKAN TO HAVE A GOLF COURSE MADE

Businessmen of City Meet and Decide to Carry Out Project at Once

KETCHIKAN, June 19.—Thirty business and professional men of Ketchikan met in the council chamber and voted unanimously to give financial support and other work to give the First City a first-class golf course. Funds have been raised for the initial work of having surveys and topographical maps of the ground made. This work will go forward at once and immediately thereafter a golf expert is to have charge of the actual laying out of the course.

The work of organization was left to the board of directors of the Deer Mountain Golf Club, a corporation recently formed. The matter of finance was placed in the hands of a committee consisting of W. F. Schlotman, W. A. Pries and K. Jessen. H. C. Strong was elected manager of the club only for the purpose of providing for the surveys, and this part of the project will be commenced immediately.

The name Dixie is derived from the Mason & Dixie line.

Sport Chat

Gyros and Native Sons of Canada are to meet this evening on the Acropolis Hill grounds at 6:45. A very lively tilt is looked for which should attract many fans. Should the Canucks win they will have a substantial lead over the Gyros on the standing sheet while a victory for the Gyros would put them at the top.

The Anxys Tennis Club recently held a very successful American tournament in which many smaller town players participated. The high scorers were: Mrs. Cody and Mr. Lee, 215; Miss Richards and Miss Greenwood, 209; Mrs. Wenerstrom and Mr. McIntyre, 209; Mrs. McIntyre and Mr. Field, 205; Miss M. Dresser and Mr. Clark, 205.

A hotly contested league baseball game was held recently at Anxys when the Concentrator beat the Mine by a score of 1 to nothing. More errors than hits featured the game. The batteries were Resetter and Deane for the Min and Musser and Somerville for the Concentrator.

BOY SOPRANOS COMING TO TOWN

When the world-famed Westminster Glee Singers of London, England, appear in this city at the Moose Hall on Friday and Saturday (and with a special bargain matinee on Saturday afternoon, adults \$1.00, children 50c), music lovers of this city will have the opportunity of hearing one of the finest singing organizations ever presented to the musical world.

The organization consists of famous boy sopranos, very seldom heard on this continent, and brilliant men soloists, all from the leading cathedrals and concert and operatic stages of Great Britain. All of them reveal voices of rare quality and beauty, and the exquisite work of the boy sopranos will be especially appreciated here as it is so rarely heard in America.

The local concert here is under the auspices of the Gyro Club, which is to be congratulated for its enterprise in bringing such a famous and meritorious concert attraction to this community. Tickets are on sale at Ormes, Rupert Pharmacy and Rose, Cowan & Latta.

HANDSOME VANCOUVER YACHT OFF FOR SOUTH AFTER TWO DAYS HERE

One of the most handsome yachts that has visited this port was the twin screw power cruiser Dear Leap, having on board A. W. McCilmont of Vancouver and party, which left yesterday afternoon from the Union Oil Co.'s station after having spent two days here. It had been intended to make a cruise to Alaska but, owing to unpleasant weather, decision was made to return south from here. The Dear Leap, a fine looking boat from the outside and elegantly and modernly equipped inside, is 80 feet long and is powered with two 175 Hall-Scott gasoline engines.

CANADIAN DOLLS OUST THE GERMAN FROM THE MARKET

TORONTO, June 20.—Dolls manufactured in Toronto have cut out German dolls in the South African, New Zealand and Australian markets, according to G. B. Stevens, Canadian trade commissioner to South Africa.

In a recent interview Mr. Stevens said the greatest surprise he got during his several years regime as Canadian trade commissioner to South Africa was that a Canadian firm was able to produce better and cheaper dolls than the Germans and undersell them in the South African market.

The history of this enterprise is a most interesting one. In 1921 two Toronto brothers started to manufacture dolls. They started in one room at 591 Queen St. W. Their present warehouse, which they have occupied for two years, comprises over ten thousand square feet of floor space. Last year their business increased 50 per cent.

Recently the buyer of a large Toronto firm ordered a sample doll. He took the sample to Germany and asked a firm to duplicate it in quality and price. They were unable to do so. Today the Toronto firm have 300 different types of dolls on the market and they are almost unable to keep up with the demand.

GARBAGE COLLECTIONS REMAIN AS AT PRESENT CITY COUNCIL DECIDES

The city council at a special meeting last night decided to carry on the work of garbage collection as in the past instead of letting the work by contract. A tender of \$4457 for the half year was received by the Casey Cartage Ltd. This was slightly lower than the cost to the city at present, but not enough the council decided to warrant the making of a change. There was some little discussion but none spoke in favor of making a change.
