EN ROUTE TOKIO

LONDON, Aug. 16.—Renewed alarming aspects of T.D. PATTULLO the Chinese-Soviet is reported in Reuter's despatch from Mukden, Manchuria, today, which stated that Chang Hseuh Liang, head of the Manchurian government, had ordered 60,000 Fengtin troops to the Siberian border.

It is said that 300 marines who have occupied two small towns on the lower Sungari River have been driven off, six Russians being killed.

LONDON, Aug. 16—Reuter's Nanking correspondent states that the Nationalist government has instructed the Criticizes Attitude of Hon. R. B. Chinese minister at Washington to notify the Ke'logg pact signatories that Russia has begun an offensive along the .Manchurian border. At the same time they instructed the minister to state that China, while resisting invasion, would abide by the spirit of the pact.

The Chinese action followed after Nanking had re- and other portions of his conceived reports confirming previous despatches that Rus- stituency, as well as other porsians had invaded Chinese territory.

DROPPED DEAD

Charles Sweeney Had Been Resident Here for Some Years and Was Well Known and Esteemed

Charles Sweeney, who had lived in this district for a number of years and was quite well known and esteemed, dropped dead about midnight last night in the Port Clements Cafe, evidently the victim of a sudden heart attack, for he had apparently been in the best of health and spirits right up to the time of his demise.

Sixty-two years of age and a ELECTROC native of Renfrew, Ont., the late Mr. Sweeney had been in this district about ten years and was for some time identified with the bridges and building department of the Canadian National Railwas. Empire Conference on Trade Relations is Now Proposed by Winston Churchill at Ottawa

OTTAWA, Aug. 16.—The suggestion that an Empire conference of businessmen should take place antecedent to any action by the various administrations of Empire countries and that this conference should canvass all the different ways and means of expanding imperial trade was advanced by Rt. Hon. Winston Churchill, former chancellor of the exchequer, yesterday before the Canadian Club here.

The whole issue of intra-imperial commerce should be dragged out of the arena of party politics and lifted to a higher and more reasonable platform, in Mr: Churchill's opinion. The world of business should survey the problem in the same spirit as a board of directors of the world's largest merger and should advise Empire governments following their investigations.

This seems to indicate that the choice of route will depend very largely on the crossing of the Skeena. The north shore of the Skeena is declared to be too difficult if not impossible for a highway, whereas on the south side of the river there is fairly good route. Boys, instead of exercising their talents in the woodyard and around the farmyard, have to be trained in the schools. It is done scientifically and in most cases well and the lads who take a keen interest in it become better able to carry out the ordinary duties of life.

DEER IN THE PARK

Kaien Island is a big park reserved for park purposes except where needed for industry or horticulture. No one is permitted to shoot deer and as a result they are becoming tame. Along the new highway they may be seen any morning and the poacher who kills them is liable to be punished.

Many Prince Rupert people like to have the deer tame and within easy sight of those who pass. Taxi-drivers take people out to see the deer. Very soon, if they are properly protected the animals will come down to the road and feed out of the hands of the passersby just as they do in Bushy Park on the Thames in England and at many other places.

It has been suggested that those who often go along the new highway should be given a license to act as special constables to protect the wild life on the island. This would give them power to arrest or 'ay a charge and would be an important move toward protection. A few people would have their gardens damaged by invasion from the deer, but steps would be taken to prevent that

It has also been suggested that a strip of land around the lake on the new highway should be cleared, so that the deer might be easily seen as they come down there. Anything that can help to conserve the deer on the island is a commendable move.

APALMOLIVE

"I earnestly recommend to my clients that they use only Palmolive Soap because its gentle action leaves the skin in a healthy, smooth, normal condition which is the very foundation of a beautiful complexion."

NONSIEUR Pessl, of Vienna and Buds. LVI pest, has one favorite home treatment for keeping complexions youthful . . . a treatment based on twice-a-day use of Palmolive Soap. And all the great beauty specialists of Europe agree in this with Pessl. "I should naturally have been led, by my

knowledge of the complexion effects of palm and olive oils, to have invented a soap made exclusively from them," says S. Pessl.

"As these oils are already combined in Palmolive Soap, I earnestly recommend to my patrons that they use only this soap," Pessl's "foundation treatment" is just this: massage the warm rich lather of Palmolive into the skin for 2 minutes-rinse with warm, then cold water. That is all. Yet millions find renewed youth each day this way.

VATIVE SONS IN BASEBALL

Elks in Five Inning Game at Acropolis Hill Last Night

Sons of Canada retained their hold on first place in the City Baseball League last night when they defeated the Elks in five inning game, five to three. Vic Menzies started for the Sons and pitched effectively for three and one-third innings, holding the Elks to three hits. Downie relieved him in the fourth and, after making a wild pitch on the first ball he threw, which allowed Gosse to tie the score from third, held the Elks down for the remainder of the game. Loblick hurled for the Antlered crew and was nicked for nine safeties altogether.

The Elks scored one run in the first inning. Harold went out. Wendle to Mitchell. Arseneau hit Loblick then hit into a double, day and Saturday, \$2 return. Their other two runs came in the special weekly rates. fourth. Loblick was safe on Wendle's error. He stole second and was hit on the head by the throw. W. Mitchell dropped the throw from Smith on Gurvich's grounder and Loblick took third. Gosse hit past the pitcher and Loblick scored and Lambie's throw-in cut Gurvich off at the plate, Gosse taking third on the Fine beach and meadows for play. Mitchell then drove one into right field and Smith and Menzies crossed the plate. Phillips ended the inning trying to steal third. In the fourth Menzies was safe on Budinich's error after Smith had struck out. He For Rent By the Week or Month went to second on Astoria's hit. He stole third as Phillips fanned, and scored on Frizzell's hit to right, Astoria being caught at the plate by Moore's throw-in. They got two more in the fifth: Mitchell hit to left. Lambie was safe when A. Mitchell threw his brother out at third. Wendle hit to left. Downie then smacked a line drive over Mitchell's head and Wendle and Lambie scored. Smith fanned and Menzies hit one to left which Arseneau grabbed to end the inning. The score follows:
