## Collective Purchasing to Prevent Undue Speculation And the Raising of Prices

### International Action Proposed by Supreme Economic Council with View to Co-Operation Between Europe and America; Unwarranted Boosting of Prices made Action Necessary.

(Special to The News via G. T. P. Telegraphs.)  
 London, August 2.—Steps toward the international collective purchasing of foodstuffs to check profiteering and speculation were taken at a meeting of the Supreme Economic Council.  
 A return to the system in vogue during the war was proposed by British, French and Italian representatives. The proposal was referred to a committee which will co-ordinate the plans and present a recommendation to the United States Government with an invitation for co-operation.  
 Owing to shortage of food and other supplies following the opening of business with Germany there has been great activity toward unwarranted price raising during the past thirty days. So marked has this become that the condition has become alarming.

### PLENTY OF FISH ARE RUNNING UP SKEENA

That there have been so many fish go up the Skeena this year that the people at Essington are tired of catching them is the word brought from that place by Mrs. James Adams who was in the city yesterday. Mrs. Adams says that everybody is earning big money and that they will have plenty to spend later. There seems to be no let up in the fish that are coming.

### LIBERALS ARE LOOKING FOR A NEW LEADER

Martin of Saskatchewan Being Looted by Western Representatives Fielding and McKenzie.

(Special via G. T. P. Telegraphs.)

Ottawa, Aug. 2.—The western delegates to the Liberal Convention are starting a movement to secure the leadership of the party for Premier Martin of Saskatchewan. Martin has already stated that he does not want the position but if it is formally offered it is thought he will accept.

The eastern delegates to the convention seem to be divided between W. S. Fielding and D. D. McKenzie. Fielding is a Liberal Unionist but he was very open in his criticisms of the Union Government. His choice would mean the healing of the breach between the stand-pat Liberals and the Liberal Unionists. McKenzie who was chosen as temporary leader is supported by the anti-unionist element in Quebec.

Five and a Half per cent Interest But Subject to Income Tax on Fifteen Year Bonds.

(Special via G. T. P. Telegraphs.)

Ottawa, August 2.—Preparations are being made for the floating of the first Peace Loan, following the great victory. The sum to be raised is set at not less than \$250,000,000 and the interest to be paid will be 5½ per cent on fifteen year bonds.

The great difference between the new issue and the last is that these bonds will be taxable, whereas the last issue was free from income tax.

### WALTER DRINNAN MEETS VETERANS

At the general meeting of the Great War Veterans last evening Walter Drinnan, the provincial secretary, addressed the gathering and gave some very useful information as to what the association in other parts of the province are doing. He told too of the recent convention and all that it meant to the members.

It is only about once a year that the provincial organizer makes such a trip as this and he was pleased to see so many present. Walter Drinnan is very well known throughout the north as this is by no means his first visit. He left the city today, having arrived from up the river on Thursday night.

### KING ASSENTS TO TREATIES

Peace Treaty and Anglo French Treaty Passed by Parliament and are Approved.

(Special via G. T. P. Telegraphs.)

Ottawa, August 2.—News despatches from England stating that the King has given his assent to the Peace Treaty are arousing much concern. Just what the despatch means is uncertain. There were two bills before the British Parliament, one expressed approval of the German Peace Treaty and the other of the Anglo-French treaty.

Under the bills the King "may do everything necessary" for the carrying out of the treaties. It is assumed here that the despatches mean that the King has given his assent to the two bills.

Chautauqua Becomes Popular Institution.

For fifty years the Chautauqua has been a more or less popular institution in the United States, growing in favor every year. For only three years have circuits been established in Canada, but already 300 towns are included in the circuits, whereas the first year there were but 42. The idea is largely educative, but amusement also enters into the programs.

The Chautauqua was originated by the Indians, it being an annual festival at which oratory and song were combined. The late Bishop Vincent conceived the idea of adapting the idea of the Chautauqua Indians so he established a summer school which gradually developed into the present institution. Already it has spread to New Zealand and Australia, and has been taken up with enthusiasm in the former country. Prince Rupert will hold her second Chautauqua Festival next month.

Much Good Land Along G. T. P.

One of the speakers at the banquet at Prince George given to the members of the visiting Boards of Trade stated that less than ten per cent of the land in this province was agricultural land and that more than half of it was along the line of the Grand Trunk Pacific Railway. If that is true, and there is no reason to doubt it, the future of the country between here and Prince George seems very bright. It takes time to develop an agricultural community, but, where the clearing is light, as it is in those districts, it is not many years before an energetic people are getting results.

Britain Has Back To Land Policy.

Great Britain has a "back to the land" policy, especially with a view to caring for the returned soldiers. She proposes to make available certain tracts of farm land and the Board of Agriculture has been empowered to spend \$100,000,000 in settling returned soldiers. The Board has authority to purchase 60,000 acres in England and 20,000 acres in Scotland. Four small colonies totalling 6,000 acres have been established. The settlement is following largely the plan of colonies divided into small farms with a central demonstration farm which will supply instructors for the settlers in the colony and where implements for working the land will be available.

An educational qualification is exacted. The British scheme is designed to settle all ranks providing they are of suitable educational promise.

Allowances amounting to \$725 a year are provided for residential training with experienced farmers. A man who has been a life long agriculturist is required to put in at least one season in this way on probation before the Board will settle him in a colony. A longer period for less experienced farmers is provided.

The plan does not contemplate extensive credit to the occupants of land in soldier colonies. A co-operative credit bank is to be established in partnership with the State and will extend credit for the purchase of stock and equipment.

Time to Think About the Winter.

The autumn will be here very soon and it is time the people of this city were considering whether they are going to drift through without making any provision for winter sports. Last autumn the influenza came and upset all our plans. This year it is to be hoped that there will be no such visitation.

The city is fairly well provided for summer sports, but there is nothing to do in the winter. A strong amateur organization is required that will make provision for the physical development of the young people, men and women. Whatever is done there will have to be a manager or paid secretary who will give his whole time to the work. Now is the time to begin thinking about it. We hope to have more to say on the subject later.

## EXCEPTION TO NEGLECT BY SCRIBBLERS

Resolution Passed by Board of Trade Asks Members to Look Out for Publicity Features.

At the meeting of the Board of Trade last evening the following resolution was passed on motion of G. W. Nickerson:

"It is with regret that our Board learned that a body of 225 editors of the National Editorial Association of the United States, now touring Western Canada under the auspices of the Dominion Government, will not be given an opportunity of making a trip to Prince Rupert and obtaining first hand information as to the valuable industries and resources of northern and Central British Columbia. In wording this resolution we are not solely prompted from a residential point of view but more particularly through national sentiment in order that our fair Dominion as a whole may benefit by the exploitation of our undeveloped natural resources. No portion of Canada can compare favorably with this section of the country in this respect and what will help us will help our country in general.

"We know no greater medium of advertising than the press and as the information gathered will be spread broadcast throughout Canada and the United States we honestly believe that our Dominion and more particularly our province will have suffered an irreparable loss through this association not having been given an opportunity of coming to this district.

"Be it therefore resolved that a copy of this resolution be sent to our illustrious member, Lieut.-Col. C. W. Peck, and a copy to our energetic member, Hon. T. D. Pattullo, Minister of Lands, asking that they use their very best efforts in our behalf of future matters pertaining to such valuable publicity and suggesting that more sympathetic consideration should be given a new district, struggling for its bare existence and making superhuman efforts towards advancing with the sole object of shouldering more of her country's burden and making it lighter for others.

"We would also respectfully urge upon both our Federal and Provincial Governments that they adopt a closer working system with reference to what might be properly termed research work as only in this way can Canada as a whole reap the benefit of such ventures."

## "THE WHIP" IS A GREAT FILM

Spectacular Production Shown at Empress Theatre Last Night To Large Crowds.

"The Whip" is the thing. It was shown last night to a large crowd and aroused the greatest enthusiasm. It is a picture of pictures. During its second week in Vancouver and Victoria it filled the largest theatres night after night. People went to see it again and again.

"The Whip" is a great motion picture. One scene alone, that of the great train wreck, was staged at an enormous expense merely for this offering. And it is the biggest and best train wreck yet seen in motion pictures. An automobile race and wreck that is so vivid as to hold the spectators gasping is another big feature. But, of course, the biggest feature of all the tremendous scenes and events in this gigantic production is the horse race. The scenes for this splendid event were taken at Saratoga, where the biggest racing events of the world are pulled off, and the excitement and the enjoyment of Saratoga with striking fidelity. "The Whip" has not one star but six. From start to finish it has been staged on a remarkably elaborate scale. The production has been made by that genius of the screen Maurice Tourneur, and he has excelled all his previous efforts in this tremendously successful production. By all means, see "The Whip." It is the only motion picture that you cannot afford to miss.

## A RESOLUTION IN REGARD TO THE FISHERIES

Board of Trade Takes Exception to Neglect of Fishing Industry" By Minister.

At the regular meeting of the Board of Trade held last evening in the council chamber the following resolution, moved by G. W. Nickerson and seconded by Jas. McRae, was passed:

"In view of the fact that the Hon. Wm. Sloan, commissioner of fisheries, on his first visit to this district since his appointment, did not consider or see fit to give any consideration to the fisheries industry, it would seem that he is not sufficiently interested in this district to warrant his holding the position of commissioner of fisheries, therefore

"Be it resolved that this, the Prince Rupert Board of Trade, petition the Hon. John Oliver, Premier of the province, to assign to the head of this industry a man sufficiently interested to justify its existence, or abolish the department, and

"Be it resolved that in our opinion the work of this department is practically confined to the collecting of data, from year to year, said data as published being largely a repetition of previous reports, the only real changes being in figures, and

"Be it resolved that the provincial Government take steps to compile data to lay before the Hon. Mr. Ballantyne, on his proposed visit to this city in September, in an effort to convince him of the abuses that exist in the fishing industry of this province.

"This data should be compiled independently of the present fisheries staff.

PRESERVING TIME IS NOW

Berries Will Be Gone Soon, But Other Fruits are Arriving.

Now is the time to buy fresh fruits for preserving. The market for strawberries is rapidly on the wane and local merchants are not sure from one train to another as to the possibility of getting a further supply. The up river berries which have been in such fine condition so far are now becoming less firm although still fairly plentiful. Apricots are now arriving in twenty pound crates which is a very convenient quantity for preserving.

There is very slight fluctuation in the prices in the more staple line of goods. Dry onions are down to ten cents per pound otherwise the vegetables remain the same. Meat prices have been falling steadily for the past few weeks and veal and mutton are now at a considerably lower value. Cooked ham has climbed the scale to 75 cents per pound.

## GERALDINE FARRAR AT THE WESTHOLME

Popular Drama in Which Monte Carlo Gambling is Featured

The romantic and dramatic atmosphere of Monte Carlo supplies the environment of Geraldine Farrar's first Goldwyn Picture, the "Turn of the Wheel," which is to be at the Westholme tonight.

The only operatic star who has brought her high estate to the world of motion pictures and held it is provided by Goldwyn with a powerful drama.

Geraldine Farrar is Rosalie Dean, an American, who sees at the great gambling tables a young man feverishly watching the turn of the wheel. She cannot tell why she is attracted to him more than any man she has ever seen, but it explains why her sympathy goes out to Maxfield Grey when he sees his stakes swept away. Rosalie halts his hand when he is on the brink of suicide and her humane act brings the young man back to himself. The story is a tense drama of the popular type.
