BOOTH REFUSES TO GIVE UP SALVATION ARMY POSITION

Nineteen Year Old Lad Says He Helped to Kill Boys at Riverside Farm

GREENBORO, N.C., Jan. 15. — Declaring that he helped Gordon Stewart Northcott kill four of the children in a barn in California, Clarence Robertson, aged 19, who had been serving in the army, gave himself up last night to the police here.

He said that several months ago he obtained a pass from the government hospital and went to the farm where Northcott was staying and Northcott offered him \$3000 to kill the children. His story is being investigated.

RIVERSIDE, Cal., Jan. 15. — Sanford Clark, 15 years of age, nephew of Gordon Northcott, told today from the witness stand of beating to death with axes of Lewis and Nelson Winslow at Northcott's Wineville chicken ranch.

ACCLAMATION MANY MAYORS

Whole Council and School Board Chosen Yesterday in New Westminster.

REEVES ALSO ELECTED

Contests Avoided in Several Municipalities Result of Yesterday's Action

VANCOUVER, Jan. 15.—The following mayors were elected by acclamation yesterday:

New Westminster—A. Wells Gray and the entire city council and schoolboard.

North Vancouver—G. H. Morden.

Grand Forks—T. A. Love. Greenwood—T. M. Gulley and members of council.

Nelson—R. D. Barnes. Nanaimo—F. A. Busby. Trail—Herbert Clark.

Reeves were chosen by acclamation in the following municipalities:

South Vancouver district—J. M. Fromme.

Coldstream—W. H. C. Morris and all other offices. Saanich—E. C. Maynard and all councillors.

Esquimalt—James L. Rick. Tadanae—E. M. Stiles.

DOHERTY HONORED AT EDMONTON BY BOARD OF TRADE

EDMONTON, Jan. 15.—Fred W. Doherty, immediate past president of the Edmonton Chamber of Commerce and manager of the Royal Bank, who has been transferred to Calgary, was honored by members of the chamber at a banquet tendered him in the Macdonald Hotel.

Eulogistic speeches from several of the prominent citizens of Edmonton culminated in the presentation to Mr. Doherty, who is leaving soon for the southern city, of a beautiful desk clock, the presentation being made by John M. Imrie.

Some 75 persons were present. G. H. Van Allen, president, occupied the chair.

HIT AND RUN AUTO DRIVER SURRENDERS

Theodor Boggs Says He Was Man At Wheel When Kaye Was Killed

VANCOUVER, Jan. 15.—Walking into the police station late yesterday afternoon Theodor Boggs, aged twenty, told the police that he was the driver of the car which hit and killed Edward Kaye on Granville and Pacific Streets early Sunday morning. He is charged with manslaughter and was released on \$5,000 bail.

Boggs is a son of Professor T. H. Boggs of the department of economics in the University of B. C. and is a student at the university. He appeared in police court this morning charged with manslaughter and was remanded for a week on \$5,000 bail.

NEW BRUNSWICK'S NEW LIEUTENANT-GOVERNOR AND HIS ADVISORS

Major-General Hugh Havelock McLean, Lieutenant-Governor of New Brunswick, surrounded by members of the Provincial Government while they were being sworn in as Members of the Executive Council immediately after he had assumed office. Left to right: Hon. Lewis Smith, Minister of Agriculture; Hon. A. J. Leger, Provincial Secretary-Treasurer; Hon. E. A. Reilly, Chairman N. Brunswick Electric Power Commission; Hon. L. P. D. Tilley, President of the Executive Council; R. S. Barker, Official Secretary; Major-General H. H. McLean, Lieutenant-Governor; Major E. J. Lounsbury, A.D.C.; Hon. J. B. M. Baxter, Premier; Hon. C. D. Richards, Minister of Lands and Minerals; B. Dixon, Clerk of the Executive Council; and Hon. D. A. Stewart, Minister of Public Works.

MINE STOCKS AGAIN MOVE

Strike at Reeves McDonald Causes Flurry in That Property

VANCOUVER, Jan. 15.—There is a pretty general advance in mining stocks here today. Reeves McDonald has been affected favorably by news of a new strike at the property which has given the stock quite a boost.

THREE ROYAL INVALIDS ARE BETTER TODAY

LONDON, Jan. 15.—The three royal invalids at Buckingham Palace were making progress today. It was stated authoritatively that King George's very slow progress was continuing. Queen Mary's cold was much better and she had practically recovered from her indisposition. The prince's cold also was much better. Both the prince and his mother were confined to their rooms. The King enjoyed a comfortable day after the issuance of the bulletin which was the first since last Wednesday to record a definite improvement in his condition.

HIRAM L. PIPER LOST LIFE IN FIRE

MONTREAL, Jan. 15.—Hiram L. Piper, president of the railway supply company bearing his name, and his wife, sister of Sir James Carruthers, lost their lives today from suffocation when fire destroyed their home in Westmount, a suburb of Montreal.

NO REDUCTION OF ORIENTAL LICENSES

VANCOUVER, Jan. 15.—Pending the ruling of the Privy Council on the matter of the Dominion Fisheries department, they will not reduce the number of licenses issued to Oriental fishermen this year, was announced by Major J. A. Motherwell.

PROPOSAL TO CHANGE METHOD OF ELECTING MAYOR AT EDMONTON

EDMONTON, Jan. 15.—Abolition of the elective office of mayor and the election of 11 aldermen instead of 10, one of whom would be elected mayor by his fellow members of the council, and the striking out of property qualifications for candidates for civic office, will be charter amendments sought by the city at the forthcoming session of the legislature if recommendations of the bylaws committee are approved by the city council.

GENERAL FOCH IS NO BETTER

PARIS, Jan. 15.—The condition of Marshal Foch, suffering from a heart attack, was reported stationary this afternoon. The morning bulletin reported a slight attenuation of symptoms. The state of the heart and renal condition both presented an amelioration. This condition remains grave and another attack would cause the gravest forebodings.

PRICE OF WHEAT

VANCOUVER, Jan. 15.—The price of wheat here today was \$1.20 1/2.

General Booth Refuses to Retire and Strain Causes Relapse Today

LONDON, Jan. 15.—It was stated in well-informed circles this afternoon that General Bramwell Booth's reply to the high council of the Salvation Army was a refusal to retire.

SOUTHWOLD, Jan. 15.—The strain of the past few days is reported to have affected the condition of General Bramwell Booth adversely and he has suffered a minor relapse which is leaving him a decidedly sick man.

CEMENT WORKS IS TO RE-OPEN

Plant at Tod Inlet to Again Operate After Being Closed Ten Years

VICTORIA, Jan. 15.—Because of the growing development of the province, preparations are under way by the B.C. Cement Company Limited to reopen its second plant at Tod Inlet.

This plant is the unit adjoining Butchart's Gardens, and has been idle for the last ten years, while cement production operations were concentrated at the new Bamberton plant, on the Malahat side of Saanich Inlet.

Announcement of the doubling up of capacity at the cement works was made by Edwin Tomlin, managing director of the company.

"The prospect of steadily increasing development in British Columbia in the next few years has prompted the B.C. Cement Company to put the Tod Inlet plant in readiness to take care of the business when it comes," Mr. Tomlin said in his announcement.

"We are not yet quite up to capacity at the Bamberton plant, which is 3,000 barrels a day. The capacity at the Tod Inlet plant is 2,000 barrels a day. The joint capacity of both plants is 1,500,000 barrels a year. The consumption here has been running about 600,000 barrels a year. Preparations to open the Tod Inlet plant are taken as a precautionary measure."

POPE TALKS OF SITUATION

ROME, Jan. 15.—Pope Pius had a long conversation with Cardinal Gasparri, secretary of state, this morning in which the possibilities of the situation in regard to the Roman question were discussed. The conversation followed the receipt of various messages from America reporting the impression produced thereby from the announcement that a provisional informal agreement had been reached between the Holy See and the Italian state.

NEW KING IN AFGHANISTAN

NEW DELHI, India, Jan. 15.—The abdication of Amanullah as king of Afghanistan occurred at Kabul at noon yesterday. His elder brother, Prince Inayatullah, was immediately crowned king in his place.

YOUNG IRISH PEOPLE DROWN

DUBLIN, Jan. 15.—Three youths and three girls were drowned off Rossmuth, Bonnemara, Galway, last night while returning from a dance. The boat in which they were riding apparently capsized.

TRAWLER FOUNDERED, CREW OF SIXTEEN LOST

TROMSØE, Norway, Jan. 15.—Word was received here today that the British trawler Thomas Hardy foundered in the Arctic Ocean and the crew of 16 were drowned.

PROBE DEATH OF MRS. RUTH

WATERTOWN, Mass., Jan. 15.—After questioning Dr. Edward H. Kinder, the Boston dentist, for four hours concerning his relations with Mrs. George Herman Ruth, who was burned to death in Dr. Kinder's home here, Chief of Police Milmore said he was satisfied with Kinder's statement.

Kinder said he had lived with Mrs. Ruth at intervals since 1927.

PARIS, Jan. 15.—Georges Clemenceau, war-time premier of France, has been confined to his home several days with the grippe.

Prince Rupert One of Three Different Gates to the Peace River Says C.P.R. President

In an interview, said to have been given to Paul Reading, a special correspondent of the Edmonton Journal, E. W. Beatty is said to have indicated that there were three logical gates to the Peace River country, one of which was through Prince Rupert.

"The Peace River District," Mr. Beatty pointed out, "is divided by the river itself and from Peace River crossing to Hudson's Hope there is not a place where the river can be bridged. North and south of the river our branch lines will be extended westward and as this development brings increased traffic the time for considering a western outlet through the mountains may arrive." He showed how a line might one day be carried westward through the Peace River pass and on to Stewart at the northern tip of the Portland Canal, how another line might run south from Finlay Forks along the Parsnip River valley to link up with the Canadian National at Prince George and the Canadian Pacific at Lytton or Ashcroft.

"There are three logical gates to the Pacific," he said, "Vancouver which is well situated, well equipped and has the advantage of a steady flow of traffic inward and outward. Prince Rupert, which is less used but nearer to the Orient, and Stewart, which at present is hardly known at all." The national dividing line between the eastward and westward flow of traffic from the Peace River country, he said, lay through Spirit River and Grande Prairie. As population and production moved westward from this line the consideration of a new road through the mountains would arise. The opportunity for lower grades was another important factor prompting it.

PUBLIC MEETING
Westholme Theatre
Wednesday, 8:00 p.m.
S. P. McMordie, candidate for re-election as MAYOR, will address the electors. All candidates for public office are invited to speak at this meeting.

Economical Administration And No Taxes On Improvements

PUBLIC MEETING
In the interest of M. M. STEPHENS, candidate for Mayor, will be held in MOOSE HALL WEDNESDAY EVENING at 8 p.m. Candidates for Mayor, Aldermen and School Trustee invited. Come.

News and Views In The World of Sport

PENALTIES IN HOCKEY GAME

Eskimos Chief Offenders in Losing Contest With Lions

VANCOUVER, Jan. 15.—The Vancouver Lions won a three to nil victory over the Eskimos of Seattle and chalked up the twelfth victory of the season and the eighth straight win on home ice.

The Lions scored their goals one in each period and an airtight defense prevented Seattle from breaking through. Play was fast and toward the close became rough with the result that many penalties were handed out, the Eskimos being the chief offenders.

Around The World With Sport Fans

(By The Tramp)

The Nelson News editorially says: "No team can win any permanent success, or any worthwhile honors for itself or the city it represents if its members do not "play the game." The most successful hockey players are far too busy playing hockey to dissipate their energies in taking cracks at members of opposing teams."

What is true of hockey is true of every other branch of sports. The player who deliberately lays for an opponent with the idea of doing him bodily injury should be expelled from the team.

PLATINUM IN CANADA

With the exception of a very few ounces of platinum obtained from the black sands of British Columbia, all the Canadian platinum and allied metals are obtained from the treatment of the Sudbury, Ont. nickel-copper matter. The precious metal residues are allowed to accumulate over irregular periods before being treated, so that recoveries do not bear any definite relation to the quantity of matter treated in any articular year.

ETHICS FOR SPORTSMEN

The University of Illinois has issued a code of ethics. It says that the true sportsman:

"Will consider all athletic opponents as guests and treat them with all the courtesy due friends and guests.

"Will accept all the decisions of officials without question.

"Will never hiss or boo a player or official.

"Will never utter abusive or irritating remarks from the side lines.

"Will applaud opponents who make good plays or show good sportsmanship.

"Will never attempt to rattle an opposing player, such as the pitcher in a baseball game or a player attempting to make a free toss in basketball.

"Will seek to win by fair and lawful means, according to the rules of the game.

"Will love the game for what the winning will bring him.

"Will do unto others as he would have them do unto him.

"Will win without boasting and lose without excuses."

Sport Chat

The Bankers' team, winning two games and playing the third to a draw, has come through the first series in the Prince George hockey schedule with a substantial margin over the other three teams in the league. A second series is now in progress, the winner of which will play off with the Bankers. The other three teams in the league are Elks, Legion and C.N.R. Though good hockey is being played, the public at Prince George has so far been lending little support.

Terry Johnson brought a team of bushers from Hansard at the end of last week to Prince George and a fast game was the result. There is the makings of a good team at Hansard, all of whom have played for Prince George at one time or another. The players include Walter Nehring, Jack Johnson, Hal Rogers, Al Kitchener and others. It is planned to have further similar games as the season advances.

The Y.P.E.A. basketball team from Port Simpson, which will play a local Senior representative team on Friday night, are a fast aggregation. They defeated the leading Port Simpson Senior entry in the local city league by the overwhelming score of 39 to 9 on New Year's Eve. It looks like the locals will have to extend themselves to hold their own against these fast moving visitors.

ELKS' WEEKLY WHIST TOURNEYS RESUMED

Mr. and Mrs. Joseph Howe Prize Winners Last Night; Many Players in Attendance

The second half of the schedule of weekly whist tournaments under the auspices of the Elks' Lodge commenced last night with a good crowd of players in attendance. Prize winners were Mr. and Mrs. Joseph Howe with scores of 202 and 205, respectively.

W. D. Vance, W. E. Willis-croft, K. A. McQuaig and Eddie Clapp were in charge.

ILLEGAL HOLDING OF FURS IN ALBERTA IS BEING PUNISHED

EDMONTON, Jan. 15.— Alberta provincial police, following their taking over the enforcement of the Game Act, have started a clean-up of the numerous fur "bootleggers" dealing in illegally caught muskrats. Reports from various detachments in the province, received by Commissioner Bryan, show that many convictions have already been obtained. Caught near Six with a car load of 400 muskrat pelts, by Sergeant McPherson on January 5, Maurice Walkove of Edmonton was fined \$50 and costs by Magistrate Gray of Stettler and had all the pelts confiscated. In lieu of the fine Walkove had the option of serving three months in jail. He paid the fine.

Walkove is only one of the many fur buyers traveling by car through the province, buying illegally caught muskrats, for less than a third of their actual value.

YOUNG CHAPS ARE TOO BRASH

Lads Who Stole Auto Should Have Good Birchings Declares Edmonton Magistrate

EDMONTON, Jan. 15.—The "machine" of young men and youths that has been preying on the public of Edmonton has got to be broken up. It has been running too long and too loose for some time now, and I am going to see that it stops if I have any say in the matter," declared Col. P. C. H. Primrose, police magistrate, in court after stating that he found James Patrick and Charles Cain guilty of stealing a motor car. They were both given a year at Fort Saskatchewan.

"You young chaps are too brash," he continued. "As for you Patrick, what you need is a good whipping. I don't mean lashes, but that you should be given a good birching. It might do you some good."

Patrick and Cain appeared Tuesday. Patrick pleading guilty to the charge and Cain not guilty. In making his finding known, Magistrate Primrose pointed out that the youths admitted they were partners, that they had travelled together, had registered under false names at Ponoka and had in their company a girl who was a ward of the court, and who had been registered as the wife of Cain. These facts combined left him no other course but to find both guilty of the charge.

A Daily News want-ad will bring results.

G. C. Walker returned to the city on the Catala this morning from a week's business trip to Stewart.

L.O.L. Whist Drive and Dance, Metropole Hall, January 17. \$5.00 prize. Gentlemen 75c. Ladies 50c. Good time for all.

Owing to small attendance, the annual meeting of the congregation of St. Paul's Lutheran Church, called for last night, was postponed until a later date.

H. L. Batten, well known Vancouver mining engineer, arrived in the city from Stewart on the Catala this morning and will proceed by tomorrow morning's train to the interior.

H. F. Kergin of Alice Arm, M. L. A. for Atlin, is a passenger aboard the Catala today going through to Victoria where he will attend the session of the legislature which opens next week.

Adjutant William Kerr of the Salvation Army is expected to return to the city toward the end of the week from a visit to various corps along the Skeena River.

Union steamer Catala, Capt. A. E. Dickson, returned to port at 10:30 this morning from Anyox, Stewart and other northern points of call and will sail at 3:30 this afternoon for the south.

Sam Deschamps, well known Stewart mining man, who is at present in charge of operations on the Independence property, is a passenger aboard the Catala today going through to Victoria.

Passengers disembarking here from northern points on the steamer Catala this morning included: R. Smurthwaite, Leo Contoli, D. Storie, G. C. Walker, E. Erpesvweg, Alex Dodds and H. L. Batten, from Stewart; James Calvin, from Alice Arm, and Mrs. Van Winkle and Mrs. J. Pottinger, from Anyox.

Miss Jean Harrison R.N., lady superintendent, reported at last night's board meeting that the hospital was very busy just now. Many of the nurses had been ill and those who were on duty had been working long hours. There had been a considerable number of severe influenza cases in the institution.

The regular monthly meeting of the hospital board was held last night in the hospital. President James H. Thompson occupied the chair and those present were: Ald. Wm. Brown, Ald. G. P. Tinker, Ald. W. L. Greer, H. E. Rochester, L. W. Waugh and Dr. J. P. Cade, directors; H. W. Birch, managing secretary, and Miss Jean Harrison R. N., lady superintendent.

Passengers going through from northern points to Vancouver on the steamer Catala today include: T. Sullivan, Sam Deschamps, Mr. and Mrs. D. E. McLean, S. P. Fitzgerald, Mrs. F. Young, Mr. and Mrs. S. G. McNeill, P. J. Taylor, Dr. C. D. Carter, W. Smurthwaite, E. G. Langville and George Kustus, from Stewart; H. F. Kergin and Angus McLeod, from Alice Arm; Johnson Russ, from Kincolith, and Wong Jin Sam, Mr. and Mrs. Nick Caviglia and R. G. Dickinson, from Anyox.

FLU is now Epidemic!

FLU is now Epidemic!

Compared with 1918, this epidemic, so far, is mild; and yet, in spite of vastly increased capacity, the Vicks laboratories are once more operating night and day to meet the emergency demand for more and more Vicks VapoRub.

How best to use Vicks VapoRub

1. AS A PREVENTIVE

Several times a day, insert Vicks up the nostrils. Also melt a little night and morning in a bowl of boiling water and inhale the steaming medicated vapors. This helps to ward off germ-infection.

2. IF A COLD STARTS

If possible, go home and go to bed. Take a laxative and a hot lemonade. Apply hot, wet towels over throat and chest until the skin is thoroughly reddened. Then rub vigorously with Vicks. Spread on thickly and cover with warm flannel. Leave the bed-covering loose, so that the vapors, released by the body-warmth, may be freely inhaled. At the same time, Vicks also acts through the skin like a poultice. Repeat this treatment every four hours, eat lightly, and stay in bed until the cold is broken. Complete rest helps the body throw off cold more quickly.

3. AFTER A FLU ATTACK

Physicians advise that the chief danger in this epidemic is after influenza. Then, more than ever, colds, attacking the weakened system, may lead to bronchitis, sinus-trouble or pneumonia. This is especially true of children or old folks. Heed even the slightest cold as a danger signal. Vicks is especially valuable here, because it is applied externally, and so can be used freely, as often as needed, without upsetting delicate digestions, as too much "dosing" is so apt to do.

VICKS VAPORUB

DESTRUCTIVENESS OF FIRE AND WATER IS SUBJECT OF DEBATE

Edward Kane, the judge, decided that honors were even in the debate before the Salvation Army Young People's Legion last night on the destructiveness of fire and water. George Almon, assisted by Frank Pierce, argued that water was the more destructive, while an exposition of the destruction by fire was given by Capt. E. Anderson, assisted by Johnny Pierce and Mrs. William Kerr. After

the debate refreshments were served.

Edward Kane was elected librarian of the legion. Next week's meeting will take the form of a paper chase, weather permitting.

Leo Contoli returned to the city on the Catala this morning from a brief business trip to Stewart.

Union freighter Chilliwick, Capt. W. W. Mounce, arrived in port from the south at 2 o'clock yesterday afternoon and, after

discharging a small parcel of local freight, sailed later in the afternoon for Stewart.

DAILY EDITION

Tuesday, January 15, 1929

AIRPLANES FOR MINING

Almost every day our attention is drawn to the need of the development of air transportation to meet the demands of the mining interests in this part of the country. Much mineral country could be explored and developed if transportation were easier.

There are in the country plenty of lakes, but some of them are not open very early in the season. With airplanes operating for carrying men and supplies much of the delay at present holding back development would be obviated. The outlook for the use of planes is one that has enormous possibilities.

GROUPS OF UNIONS

There are at present in Canada two groups of labor unions, one the international organization represented by the local trades and labor councils and federally by the Trades and Labor Congress and the other a newer organization represented federally by the All-Canadian Congress of Labor, which met recently in Toronto. The latter organization seems to be growing rapidly.

There seems to be keen opposition between the organizations, and the All-Canadian group accuses the older organization of paying more attention to them than to trying to improve labor conditions.

The All-Canadian organization comes out strongly against company towns, and in favor of employment and old age pensions, for the cessation of military preparations and military teaching in the schools, to improve conditions for women, for compulsory education of all children up to the age of 16, and for the resumption of diplomatic and trade relations with Russia.

EXPENDITURES IN THE CITY

The following items indicate where money of taxpayer has gone:

The following expenditures were made during the past year from the civic exchequer:

HEAD OF ROYAL AIR FORCE

Sir John Maitland Salmond, Air Marshal, has been appointed Chief Marshal of the British Royal Air Force in succession to Sir Hugh Trenchard, who resigned last month.

CAR BARGE WILL BE FINISHED SOON NOW

Craft, Built At Local Dry Dock, Will Be Used In Grain Carrying to Victoria

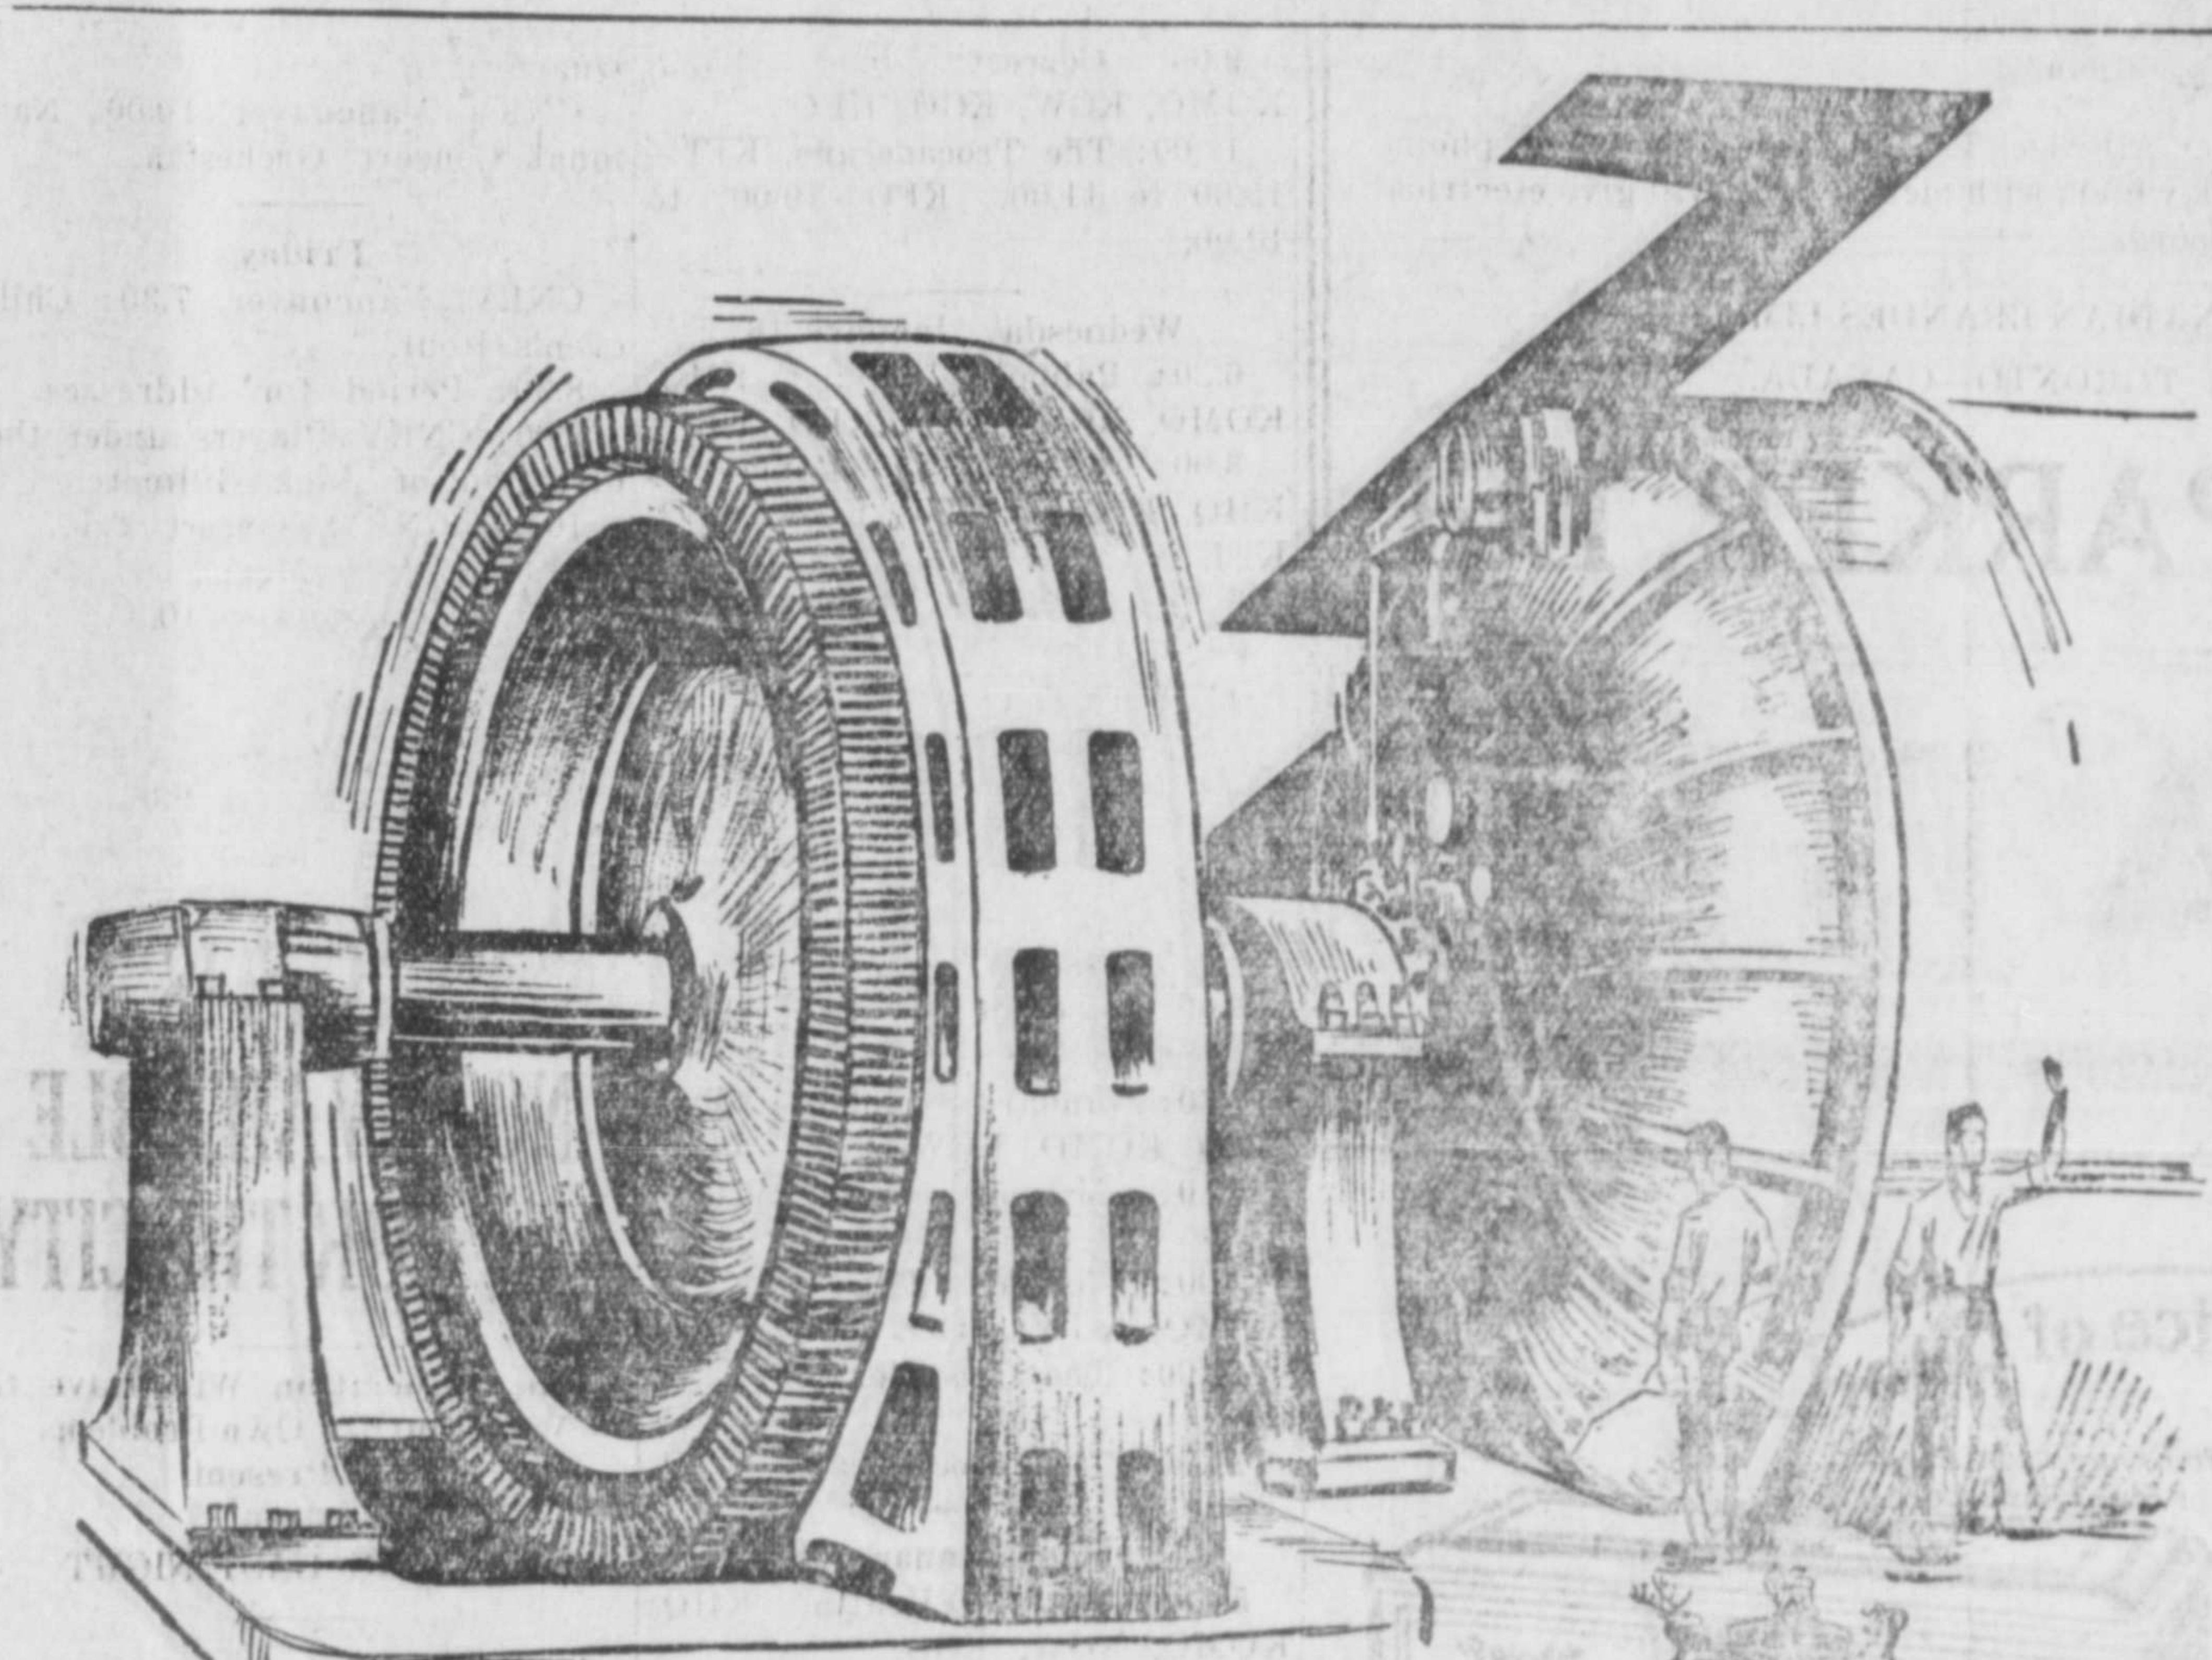

It will be a few days yet before the big car barge, being built at the local dry dock for the Canadian National Railways, is completed and turned over to its owners. A tug will come north to take the craft to Vancouver. The barge is to be used in hauling grain from Port Mann to the new elevator which has been built at Victoria.

CANADA'S IRON INDUSTRY

Hamilton and Sault Ste. Marie in Ontario, and Sydney, in Nova Scotia are at present the great centres of the iron industry in Canada.

Here are two of the aces who took part in the Schneider Cup air races. R. L. Atcherly (left) and Flight Lieut. G. Stainforth.

POWER Builds Industries!

POWER DEVELOPMENT	
1916	1,000,000
1927	10,000,000
Capital Invested in Manufacturing-	
1916	100,000,000
1927	1,000,000,000

BRITISH Columbia's Power resources are the envy of the world. With Power, the riches of the world can be won; with Power, ores can be mined . . . smelted; transportation problems solved; manufacturing industries developed, and with them population . . . pay-rolls. Power is British Columbia's strongest bid for more industries . . . more people.

Of the millions of horsepower available in our province, but half a million are now harnessed to turn the wheels of industry. The great hydro-electric development at Bridge River will ultimately generate more than 600,000 horsepower, while the output at Bonnington Falls and other points is being steadily increased. The Campbell and Chilko Rivers, on the mainland, and the Nimpkish on Vancouver Island, are capable of tremendous power development for the conversion of our forest and mineral resources into fabulous wealth.

Two of British Columbia's Electric Power systems are among the greatest in Canada, each generating more than 400,000,000 kilowatt hours in 1927. This represents an increase in the last ten years of 98% . . . truly a remarkable achievement!

Foreign authorities speak of this record as a measure of the great vitality of British Columbia.

Today we rank third in power and industrial development among Canadian provinces. We have made greater progress per capita than any!

It is the policy of British Columbia to foster the development of the hydro-electric powers for the benefit of the public. They are allotted to private enterprises on condition that they will be developed within a certain time, so that no exploitation of public assets may take place.

Millions of dollars are now earmarked for Power development in our province. Dams are being built, turbines installed . . . transmission lines erected to care for the imminent industrial development.

Thousands of dollars are being expended weekly on materials and wages; thousands are feeling the immediate benefits of this enterprise.

Side by side with our power development, industrial expansion has kept pace. Today 17% of Canada's external trade is handled by British Columbia. During the past decade, our basic industries have increased 101.3%. Our total payroll, including all classes, is estimated at 210 million dollars. Today, our Lumbering, Mining and Fishing industries employ 72,517 people, paying them 175 million dollars in wages . . . distributing an average wage ranking among the highest in Canada.

These 175 millions in wages are a great contribution to our annual internal trade in the province. They have given our industrial workers a buying power ranking second in the Dominion and have largely been responsible for our ever increasing prosperity, as evidenced by the fact that the number of automobiles registered in the province last year was 76,187 as compared with 8,396 in 1916.

British Columbia's steady and varied industrial development has changed the conception in Eastern Canada and the United States of our province. No longer are we entirely dependent on the East for our manufactured products. British Columbia is increasingly furnishing her own needs. She now ranks third in the whole Dominion as a manufacturing province.

Our phenomenal Power and Industrial growth has focused the attention of the great industrialists and investors on our province. Today, British Columbia in the eyes of the world, stands for Power, Progress and Plenty. May our efforts of the next ten years stabilize and increase our Prosperity!

Read these announcements and understand your province's progress . . . clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!

Radio Broadcasting and Reception

KOLSTER

The new Kolster models have created an entirely new set of standards by which radio quality and radio value are being measured today.

Kolster performance—pure, natural tone—rare distance-getting ability—precision of program selection—reaches new heights of radio excellence. Kolster reproduction is so realistic that it brings a sense of actual presence. Lovely cabinets, conceived in the mode of to-morrow, make Kolster as pleasing to the eye as to the ear. See Kolster—hear Kolster—there's a . . . delightful . . . treat . . . in . . . store . . . for . . . you.

The new Kolster AU-Electric sets are equipped with phonograph plug-in jack which, with pick-up unit, will give electrical reproduction of records.

KETCHIKAN GETS CONTROL OF WAVE LENGTH ONCE MORE

The Ketchikan radio broadcasting stations seems to have its instrument under control once more and is using a wave length very close to KOMO of Seattle, but far enough away not to interfere. For a few days nothing but a whistle could be obtained from either station, when they were using the same wave length.

The chief objection to the Ketchikan station is the poor announcing. The announcer has not a carrying voice and the result is that much of what he says is missed by the fans here.

CANADIAN MOUNTIE GOES TO ABERDEEN ON HOLIDAY

Constable James Murray of the world famous R.C.M.P., who is holidaying with his "ain folk" in Aberdeenshire is the hero of the nine hundred mile dash across the snow-covered wastes of Baffanland, to recover the dead body of Hector J. P. Pitchforth, the English fur-trader, who was stationed at Cape Kater, and was called the "loneliest man in the world." Constable Murray is here seen with his niece, who is very proud of the Eskimo summer coat he took home to her.

Fashion Fancies

An Evening Cape of Unusual Charm and Luxuriousness

An interesting shirring treatment on shoulders and back is a feature of this lovely evening cape of ivory velvet. Which fabric, by the way, is becoming smarter each season for formal wear.

The collar and cape band are of sable, lending a rich contrast to the cape. Worn over an ivory satin gown the cape adds the note of luxury so important in the formal mode this season.

A New Evening Fashion

This is not a daytime frock! It is one of the very new jackets of chiffon made to wear with evening frocks of a heavier medium.

This particular jacket is of light yellow, beaded with crystals. And the frock worn with it is of deep corn-colored velvet. The panels at the sides are of chiffon. Although the combination sounds poisonous, I beg you take my word for it that it is perfectly beautiful.

INSPECTOR IS NOT AVAILABLE FOR THE CITY

Radio Association Will Have to Work Out Its Own Problems for Present

MEETING LAST NIGHT

List of Regenerative Sets Made Which Are Causing Trouble

At a meeting of the executive of the Prince Rupert Radio Association last night, D. C. McRae presiding it was reported that a test had been made at the local telegraph office which showed that the interference reported from the motor had been abated.

A copy of a telegram was read from the president to E. J. Haughton at Victoria asking for an inspector to be sent to thoroughly investigate the local situation. A reply was received stating that an inspector could not be sent north at present and mentioning that a copy of the wire had been forwarded to the director.

The executive made a list of all the regenerative sets in the city which proved such a nuisance to local reception. These sets interfere to such an extent that when they are active they sometimes entirely stop reception at the station to which they are trying to tune in.

J. J. Little, superintendent of utilities, was present at the meeting by request and set the members right on a number of matters in regard to the city noises.

ROAR CONTINUES ON LOCAL RECEPTION

Radio fans must all appreciate the efforts of the Radio Association in trying to clean up the local reception situation so that radio fans here may get the best possible use of their receiving sets. Sunday early in the evening there was splendid reception in the downtown district, but as the evening advanced the roar came in which drowned out everything. Then when the big stations at Seattle had shut down for the night the local interference also stopped.

LOCAL INVESTIGATION INTO INTERFERENCE RADIO RECEPTION

One of the difficulties found in investigating radio interference is that often just at the time when the detector set goes out the big noises are not on. That was true last night. During the early part of the evening there was no downtown interference and it was around 10 o'clock when it began to roar and drown out everything else.

ATTEMPT TO RAISE PRINCE OF WALES

KETCHIKAN, Jan. 15.—An attempt has been made to raise the power boat Prince of Wales, which carried mail and passengers in and out of Ketchikan prior to her sinking. The plan is to try to tow her to a shallow beach where she can be repaired.

UTILIZING COAL RESOURCES

The new Fuel Research Laboratories of the Department of Mines at Ottawa were designed and the equipment selected with a view to carrying out investigations which would be in the interests of the development of the coal resources of the Dominion.

WINTER FLYING IN CANADA

The handicaps of winter flying in Canada have now been largely overcome. Year-round operations are increasing, greatly to the benefit of the operating companies which can now keep their aircraft in constant work.

District News

BURNS LAKE

The provincial department of public works has delivered a snow plow to Burns Lake. It will be used in keeping the various auto roads in the district clear during the winter season.

Andrew Anderson is expected back this week from Victoria where he has been spending the holidays with Mrs. Anderson and baby daughter who are visiting with Mrs. Anderson's parents, Mr. and Mrs. Saul.

Business visitors in town during the past week have included: Albert Bach, P. Williams, Palling; Mr. and Mrs. P. J. Carroll and daughter, Decker Lake; William Blair, Prince George.

Robert Lowe left last week on a trip to Vancouver. He will visit with Mrs. Lowe who is at present with her mother at West Vancouver, and also has business matters to attend to.

VANDERHOOF

The Vanderhoof and District Board of Trade has elected officers for 1929 as follows: president, R. G. Mathews; vice-president, John W. Paterson; secretary-treasurer, George Orston; executive, J. W. H. Day, John H. MacMillan, M. M. Connelly (Fraser Lake) and R. C. McCordell. M. E. Fasten of Mapes and John M. A. Eva and Caleb Prout have become members of the board. The board is endeavouring to have the provincial government resume operations at the Nechako Creamery.

The annual meeting of the Nechako Farmers' Institute was held here last Saturday afternoon.

Bishop G. A. Rix of Prince Rupert was a visitor here on Sunday and held services in Vanderhoof and Chilco.

Miss Dorothy Urquhart has resumed her school teaching duties at Stuart River after having spent the holidays with her parents in Victoria.

ANGLICAN W. A. ANNUAL MEETING

Mrs. Thomas Andrew Honored by Presentation on Starting Fifth Year as President

The annual meeting of the Junior Branch of the Women's Auxiliary to St. Andrew's Anglican Cathedral was held yesterday afternoon in the Cathedral Hall. The proceedings opened with Holy Communion which was administered by the rector, Rev. J. B. Gibson, who also gave a helpful address. Miss Marjorie Lancaster presided at the organ.

A notable feature of the proceedings was the presentation by Mrs. G. A. Rix, assisted by Mrs. L. Mcintosh and Mrs. W. A. McLean, of a diocesan life membership to Mrs. Thomas Andrew for her work and devotion with the Women's Auxiliary. Mrs. Andrew had just completed her fourth term as president and, during the four years, has missed only one meeting. She was re-elected president.

The complete list of new officers is as follows:

Honorary president, Mrs. G. A. Rix.
 President, Mrs. Thomas Andrew.
 First vice-president, Mrs. G. Woodland.
 Second vice-president, Mrs. W. J. Greer.
 Secretary, Mrs. W. A. McLean.
 Treasurer, Mrs. R. V. G. LePine.
 Dorcas secretary, Mrs. George Rorie and Mrs. F. G. Pyle (jointly).
 Girls' secretary, Mrs. C. C. Mills.
 Junior secretary, Mrs. C. V. Eviitt.
 Little Helpers' secretary, Mrs. E. W. Tucker.
 Envelope secretary, Mrs. W. C. Aspinall.
 Leaflets secretary, Mrs. A. G. Rix.
 Literature secretary, Mrs. A. T. Parkin.
 Diocesan delegates, Mrs. W. H. Weston and Mrs. Stamp-Vincent.
 Readers, Mrs. Bert West and Mrs. P. M. Kaynor.

RUTH WAS LIVING AWAY FROM WIFE

WATERBURY, Mass., Jan. 15.—Babe Ruth made the following statement concerning his wife yesterday: "My wife and I have not lived together for the last three years. During that time I have seldom met her. I have done all that I can to comply with her wishes. Her death is a great shock to me."

KITIMAAT COUNCIL GETTING OUT LOGS FROM THE RESERVE

KITIMAAT, Jan. 15.—The Indian council decided to make some improvements to the village. They started cutting logs on Reserve No. 1 and expect to get out from 2000 to 3000 feet of spruce. James Atkins' steam donkey will be used in connection with this work. One of the members of the village passed away last week in the person of Mrs. Simon Hall.

GROUNDWOOD PULP Had 17 Boils On His Neck Arms and Legs

Mr. A. L. Willos, Supton, Man., writes: "I had been bothered with boils for about two years. I had seventeen on my neck, arms and legs. I tried all kinds of medicine, but none of them seemed to help me any. I then used two bottles of Burdock Blood Bitters and I have never been bothered with any boils since then."

Burdock Blood Bitters
 and I have never been bothered with any boils since then.

QUEEN OF HOLLAND

This unusual photo shows the opening of the Dutch States General by Her Majesty Queen Wilhelmina of Holland, in the presence of H.R.H. Prince Hendrik, her royal consort (right), and the Princess Juliana, their daughter (left). The Queen is shown reading her speech from the Throne.

News of the Mines

AROUND PRINCE RUPERT
 B. C. Mining Empire Moving North; Progress at Topley Richfield; Mohawk at New Hazelton Shipping Ore

Every year that passes by sees the mining empire of British Columbia flung a little further north and opening to individual enterprise new opportunities in the settlement of the province, transportation and merchandising, writes E. A. Hagen, editor of the Mining and Industrial Record. A year ago the mineral discoveries on the Ingenika River were sufficiently demonstrated to attract the attention of strong capital and mining enterprise into a section of the country 300 miles beyond any railway service.

The success of the development carried out since then leaves no doubt that here we have in the making one of the most important mining fields yet discovered in the province. It is not so long ago that a mining development so far removed from present transportation services would have been regarded as an absurdity. Not so today. The increasing demand of the age for metals gives a value to mineral deposits undreamed of a few years ago, no matter where located. It has come to be a maxim of the mining industry of today that, given ore deposits of sufficient extent and value a means of finding transportation and bringing them into production will be found.

It requires no stretch of the imagination to foresee the day when the valley of the Finlay country, with its great stretches of agricultural and pastoral lands will be spanned by a new railway and become the scene of new towns, villages and industries, supporting a happy and prosperous people on the basis of great mining and metallurgical enterprises for which the prospector has paved the way.

Further west, in the most northerly part of the Portland Canal mining division, we see repeated the story of the Ingenika discoveries. Near Bowser Lake, on Bell-Irving River, prospectors a year ago found outcrops of ore from which they brought out samples. One of the Consolidated Mining & Smelting Co.'s engineers was so favorably impressed with what had been found that the company undertook its development. The minerals include gold, silver, lead and zinc in a zone between 700 and 800 feet in width and traceable for several miles.

Some years ago, the Bowser Lake country seemed so inaccessible that nothing less than gold bricks would be likely to attract attention to it. Although it is about 100 miles north of Stewart by present routes of travel, it will be possible to land prospectors and supplies by airplane as is being done in the outlying parts of Ontario, Manitoba and Alaska. If development proves up anything like surface indications, the discovery will provide an additional incentive to the provision of railway transportation into the hinterland via the great valley of the Naas River.

The Sullivan mine of East Kootenay is the standard by which all new discoveries of any size are measured. The Ingenika is spoken of as a "second Sullivan," and the Bowser Lake discovery as a "third Sullivan." These discoveries encourage prospectors to push into the far-flung corners of the province in the hope of finding something bigger and better than has been found before.

Sinking of the shaft to the 200-foot level on the Topley-Richfield property is now the chief object of the company and three shifts daily are concentrated on the work. The shaft is being sunk to this level to open for development two ore bodies disclosed recently by diamond drilling operations. It is the intention of the management to link the two zones by lateral work immediately the shaft reaches its objective. It is expected that large ore bodies will be intersected by the tunnels at intervals between the two diamond drill holes. The present working shaft will be utilized and extended for the new level to be established for further development operations. Values of the ore disclosed on the 200-foot level by the diamond drilling have far surpassed the values obtained on the old levels.

Rapid progress is being made in development of the Mohawk mine at New Hazelton following the recent doubling of the crew. The 150-foot raise from the main tunnel to the surface is well under way and the high grade ore disclosed in the tunnel maintains as work progresses. The mineralization in the raise, from which high grade ore is being shipped direct to the smelter, shows greatly increased width and values. The drift tunnel continues to disclose high grade ore beyond the point where the raise was started and large ore reserves are being rapidly blocked out. Considerable attention was directed to the property as a result of a recent strike when the drift tunnel encountered a new ore zone, the shipping ore being increased in width from 16 to 27 inches. Assays showed high silver values of 212 ounces to the ton in addition to lead, zinc and gold values. The returns of five carloads of ore which are being shipped to smelter are expected to not only pay for all development costs to date but to leave a strong treasury to continue de-

velopment work. Average return of the ore being shipped to smelter run 156 ounces silver, 31 ounces of gold, 30.2 percent lead and 8 percent zinc to the ton.

KING MAKES PROGRESS

LONDON, Jan. 15.—The night bulletin says: "King George has a quiet day. The progress previously noted though slow continues. The next bulletin will be issued Thursday morning."

FUNERAL TODAY

PERTH, Ont., Jan. 15.—The funeral of Major Graham Bell, deputy minister of railways, will be held here today.

ARSENIC IN CANADA

All the white arsenic produced in Canada is obtained by treating the arsenical silver-cobalt-nickel ores of northern Ontario. Arsenical gold concentrates are shipped from British Columbia to the United States.

CANADIAN CHEESE

The production of factory cheese in Canada in 1928 amounted to 171,731,631 pounds. The value was \$61,753,390.

Nervous and Run Down The Least Noise Would Bother Her

Mrs. R. Burton, Okhawa, Ont., writes: "Three years ago I was nervous and run down I could hardly bear to have the children make a noise it would bother me so. A friend advised me to take

and after taking two boxes I began to feel stronger, looked better and the color came back into my cheeks, and now I am feeling fine again."
 Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

A Single Sip and Throat Feels Fine!

Physicians, lawyers, singers, public speakers and all who suffer from throat strain and irritation find Buckley's Mixture a priceless blessing. Relief is instant and positive. A sip night and morning for throat and chest health—and insurance against epidemic Colds, Coughs, Bronchitis, "Flu" and Pneumonia. Just say "Buckley's" at any drug store.

GRAIN STEAMER HINDPOOL SAILS

Sixth Ship of Season Off Today
With Full Cargo for U. K.
or Continent

The British steamer Hindpool, sixth ship of the season, sailed this morning for the United Kingdom or continent with a full cargo loaded from the Alberta Wheat Pool's elevator. The steamer Adra is now loading and will get away later in the week.

The grain movement to the port from the prairies is slow in picking up following its recent cessation owing to the elevator being full. Thirty carloads arrived yesterday and 55 cars were reported this morning to be on the division west of Jasper Park bound here.

No further boats for local loading were reported up to this morning.

SERIES OF PAPERS ON CHINA STARTED

Miss Alva Garnett Speaker Before
United Church Y. P. at Home
of Miss Edna Vickers

The Young People's Society of First United Church met last evening at the home of Miss Edna Vickers, 212 Ninth Avenue East. George H. Stocks, the president, occupied the chair, and, after the regular business and devotional period, Miss Alva Garnett read the first of a series of eight papers on China, which will be given by various members of the society. Miss Garnett sketched briefly the characteristics of the country and its peoples and referred to the missionary work being carried on there by the United Church.

After the reading of the paper, games were played and delightful refreshments were served by the hostess. There was a good attendance of members.

ANNUAL REPORT FOR HOSPITAL

Financial Statement Considered
and Passed On to General
Meeting on January 29

The hospital board last night considered the 1928 financial statement and passed it on to the annual meeting for adoption. The statement shows the finances of the hospital to be in good shape with a small surplus on the year's operations. January 29 was set as the date for the annual meeting of the association.

In connection with the annual report, a discussion on fire insurance arose. H. B. Rochester questioned if the institution was adequately covered by \$40,000, \$30,000 of which was on the building. It was felt that the protection on the furnishings and equipment might be increased. Ald. Greer suggested that the building should be depreciated at a rate of 7 1-2 per cent instead of 5 per cent annually.

Reporting for the finance committee for the month of December, Ald. G. P. Tinker announced that receipts had totalled \$5713.92 while expenditure had been \$5235.09 leaving a surplus of \$478.86. There had been 15 1/2 hospital days at \$31.46 per day.

H. B. Rochester suggested, in connection with the reading of accounts, that, in future, details of the various items be given, in addition to the mere amount and name of the creditor.

NEW STERILIZER AT HOSPITAL NECESSARY

Action in Regard to Matter Referred to Incoming Board of Directors

Reporting for the house committee at last night's meeting of the hospital board, Ald. William Brown stated that the operating room sterilizer was in bad shape and probably would have to be replaced. Miss Harrison, lady superintendent, gave further details and stated that the sterilizer was to small in any case. It would probably cost some \$1500 to put in a new one. The matter was referred to the incoming board with the suggestion that a special meeting be held if necessary.

Ald. Brown also reported that the foundation under the nurses' dining room had been temporarily repaired by L. C. Eby. Joists, studs and sills had been found to have rotted away.

An order of 20 new blankets had been received and had been found to be very satisfactory.

An Up-to-date Optical Dept.

We pride ourselves on our complete equipment for accurate testing of the eyes. No longer must we replace lens after lens in front of your eyes till we find the correct one. Our new automatic instrument can change to any combination in a second and does not tire you out. Mr. Jack Bulger took the full course required by law covering six months in 1925 and got his diploma with honors.

We subscribe to the leading weekly and monthly optical journals and any new methods are always noticed and adopted if suitable.

We are sure we can suit you.
