C.N.R. May Take Part of Coal Output from Copper River Mines

Mining Expert Tells of Plans of English Company Which Has Option on Properties and Is Applying For Charter

(E. A. Haggen in Vancouver Province)

There is a great deal of misapprehension abroad concerning the English company which has taken the option on the Copper River coal deposits in the Skeena country. It has been confounded with the British Industries Company, headed by the Mond Interests of Great Britain and Canada. This is due to the similarity of title, that of the company interested in Copper River coal being the British Pacific Industries Ltd., a private company with an authorized capital of £40,000. The promoter of this company is Mr. Frank S. Taggart, one of the pioneer railway engineers of British Columbia. Mr. Taggart was engineer on the Onderdonk contract for construction of the section of the Canadian Pacific Railway from Emory's Bar to Savona. The company has in view extensive undertakings in Telkwa, Copper River and Kitimaat. Its coal operations are based on the acquisition of the rights for British Columbia of the Bussey low temperature process of coal beneficiation and treatment. The directors are: Sir Alfred Welby, K.B.E., chairman Saxon Securities Trust Co.; Gowan Haaland, ship broker; Edward Harrison and Robert Hutton, engineers; and Edmund Smith, East India merchant, all of London.

DIVERSION OF TRAFFIC FROM U.S. PORTS

Matter to Be Taken Up With Canada by President

WASHINGTON, Jan. 30.—The senate was informed yesterday of a report submitted by President Coolidge that diplomatic negotiations would be begun with Canada on the subject of Canada's customs preference on imports routed through her seaports.

The report, made after a long investigation, said that Canadian preferences had resulted in some diversion of traffic from American to Canadian ports.

INDUSTRIES DEPARTMENT

Government Wishes Loans Closed Out as Soon as Possible

VICTORIA, Jan. 30.—The policy of the government will be to unload its industrial loans as rapidly as possible without injuring any business. This was indicated yesterday when the public accounts committee of the legislature started on its annual investigation of the industries department. Colonel D. B. Martyn, deputy minister of agriculture, said that 25 loans had been paid up in full and \$100,000 had been written off as loss.

"I would like to see industries which are in a good position and have loans from the government secure money somewhere else," said George A. Walkem, chairman.

"We are agreed on that," said A. M. Manson.

TROOP PLANE MISSING TODAY

NEW DELHI, India, Jan. 30.—The huge British Air Force troop carrying plane which has been engaged in the rescuing of foreigners from Afghanistan was missing today in the wild hill country north of Khyber Pass.

SIX MONTHS SENTENCE ON DOUKHOBORS

Religious Fanatics Punished For Obstructing Police Officers in Execution of Duty

GRAND FORKS, Jan. 30.—For obstructing police officers when they sought to arrest those who drove the children from some of the public schools near Nelson, parading in the nude and attacking them, eight members of the Sons of Freedom Society of Doukhobors, religious fanatics, were each sentenced to serve six months in jail. They were tried and found guilty yesterday.

SALVATION ARMY MUST HEAR BOOTH

Cannot Act Court Says, Until General Has Opportunity to Speak

LONDON, Jan. 30.—An injunction against the High Council of the Salvation Army was granted in Chancery Court today by Mr. Justice Eve preventing it from acting on its resolution of deposing General Bramwell Booth and electing a successor until a further meeting of the council at which the General will have an opportunity of being heard.

MONTREAL, Jan. 30.—Sir Charles Peir Davidon, former chief justice of the supreme court of Quebec and later an active member of the Canadian government war commission, died at New York, aged 89.

A. M. Manson's Proposal Regard to Election Act Voted Down by Legislature, Straight Party Vote

VICTORIA, Jan. 30.—The debate on the address in reply to the speech from the throne will be concluded early next week, Hon. R. H. Pooley stated in the legislature yesterday afternoon.

Former Attorney-General Manson's motion to appoint a committee of the house to investigate matters connected with the late election for the purpose of suggesting amendments to the Election Act was defeated on a straight party vote. Manson alluded to incidents where the ballots were so thin that the way the elector voted could be read through the ballot when it was handed in. It was pointed out by members of the government that the abuses the attorney-general complained of were carried out under the government of which he was a member. The present government, it was stated, would see that the next election ballot was a secret one.

The debate address continued by Mr. MacKenzie of Cariboo, who advocated that district hospitals in the province under which the district served would be taxed in organized parts by the government for hospital purposes. The amount, he said, would be small, but would mean a lot to the institutions.

LABOR WINS SEAT BRITISH ELECTION

EDINBURGH, Scotland, Jan. 30.—Conservatives lost the northern division of Midlothian yesterday when Andrew Clarke, Laborite, was returned over three other candidates in the by-election.

NEW HOSPITAL BOARD SELECTED

J. H. Thompson, G. P. Tinker, G. V. Wilkinson, R. W. Cameron and Alex McRae Are Named Directors

James H. Thompson, president; G. P. Tinker, member of last year's board; G. V. Wilkinson, R. W. Cameron and Alex McRae (printer) were elected to the 1929 board of directors of the Prince Rupert General Hospital at the annual meeting last night in the city hall. The board will also comprise Ald. Wm. Brown and Ald. S. D. Macdonald, representing the city council; two appointed from the provincial government, and one representing the Prince Rupert Medical Association. George Rorie C. A. was re-elected auditor. The new board had its initial meeting at noon today and re-elected James H. Thompson as president, G. P. Tinker, vice-president, and H. W. Birch, managing secretary. Those present at the meeting last night were:

James H. Thompson, who presided, Ald. Wm. Brown, Ald. Frank Dibb, G. P. Tinker, C. V. Eviatt, Alex McRae, R. E. Benson, H. B. Rochester, G. V. Wilkinson, N. Mussallem, P. C. Miller, M. M. Stephens, R. W. Cameron, D. C. Stuart, L. Lamby, W. B. Morgan, A. R. Phillips, Robert Gordon, Miss Jean Harrison R.N., Ald. S. D. Macdonald, J. J. Little and P. M. Ray.

Winnipeg, Jan. 30.—Lethbridge registered the prairie's coldest weather last night with 38 below zero.

FORMER PREMIER OF PRINCE EDWARD ISD. KILLED IN LOS ANGELES

LOS ANGELES, Cal., Jan. 30.—John H. Bell, aged 80, former premier of Prince Edward Island, died here. His skull was fractured when he was knocked down by an automobile when crossing the street on Saturday night.

FOUND BODY FROZEN MAN

VANCOUVER, Jan. 30.—The body of an unidentified man, aged about 70, was found frozen in an abandoned mill office on Georgia Street. The man, destitute, had apparently taken refuge in the building.

He is a stout man, about five feet eight inches tall. Dressed in a jacket and trousers of dark blue with a light stripe.

SILVER MAPLE TAKEN IN TOW

BOSTON, Jan. 30.—The disabled British freighter Silver Maple was safely in tow of coast-guard cutters today after drifting helplessly for 250 miles since Saturday.

FIGURE IN THE SALVATION ARMY WRANGLE

Commander Catherine Booth and Commissioner Hubert Kitchen, in front, and Commissioner J. R. Laurie, in the rear, snapped as they left the meeting of the Salvation Army leaders at Sunbury-on-Thames, England, during the heated sessions of the High Council. They were called together to choose a successor to General Bramwell Booth, aged supreme head of the organization.

COLD TODAY VANCOUVER

Coldest Weather in 13 Years Registered at B. C.'s Largest City

VANCOUVER, Jan. 30.—The lowest temperature here this morning was seven degrees above zero, the coldest it has been here for 13 years. Weather was clear and cold over most of British Columbia today. At Kamloops it was 20 below zero. Higher temperatures are forecast.

WINNIPEG, Jan. 30.—Lethbridge registered the prairie's coldest weather last night with 38 below zero.

NEW HOSPITAL Will Have to be Built Before Long In the City States J. H. Thompson Report

While it is not an immediate necessity, a new hospital will eventually have to be built in this city and hospital boards from now on should keep it in mind, stated James H. Thompson, in presenting the president's report for 1928 at the annual meeting last night of the Prince Rupert General Hospital Association. The present hospital capacity had been on several occasions taxed during the past year and it had been necessary to instal additional equipment. The presence of a number of incurables, for whom no other provision could be made, had tended to crowd the institution at some times. Mr. Thompson gave an estimate of \$300,000 as the cost of a new 100-bed hospital here.

The hospital was in a satisfactory financial condition, continued Mr. Thompson's report, and the premises were in good repair, improvements having also been made to the grounds. Excellent work was being done in the training school, which presented a good opportunity for young women desirous of taking up the nursing profession. Mr. Thompson thanked all those who had assisted in hospital work during the year, including the members of the board, lady superintendent, managing secretary, members of the medical profession for lectures given the student nurses and W. D. Vance, who had relieved the managing secretary for several months during the year.

Superintendent's Report

The report of Miss Jean Harrison (Continued on page five)

BIRTH NOTICE

A daughter was born yesterday, January 29, at the Prince Rupert General Hospital to Mr. and Mrs. W. B. Cornish, 411 Seventh Avenue W.

Slow Market MINING STOCKS

VANCOUVER, Jan. 30.—The volume of trading on the stock exchange was extremely small today compared with the past fortnight, price changes with few exceptions being downward.

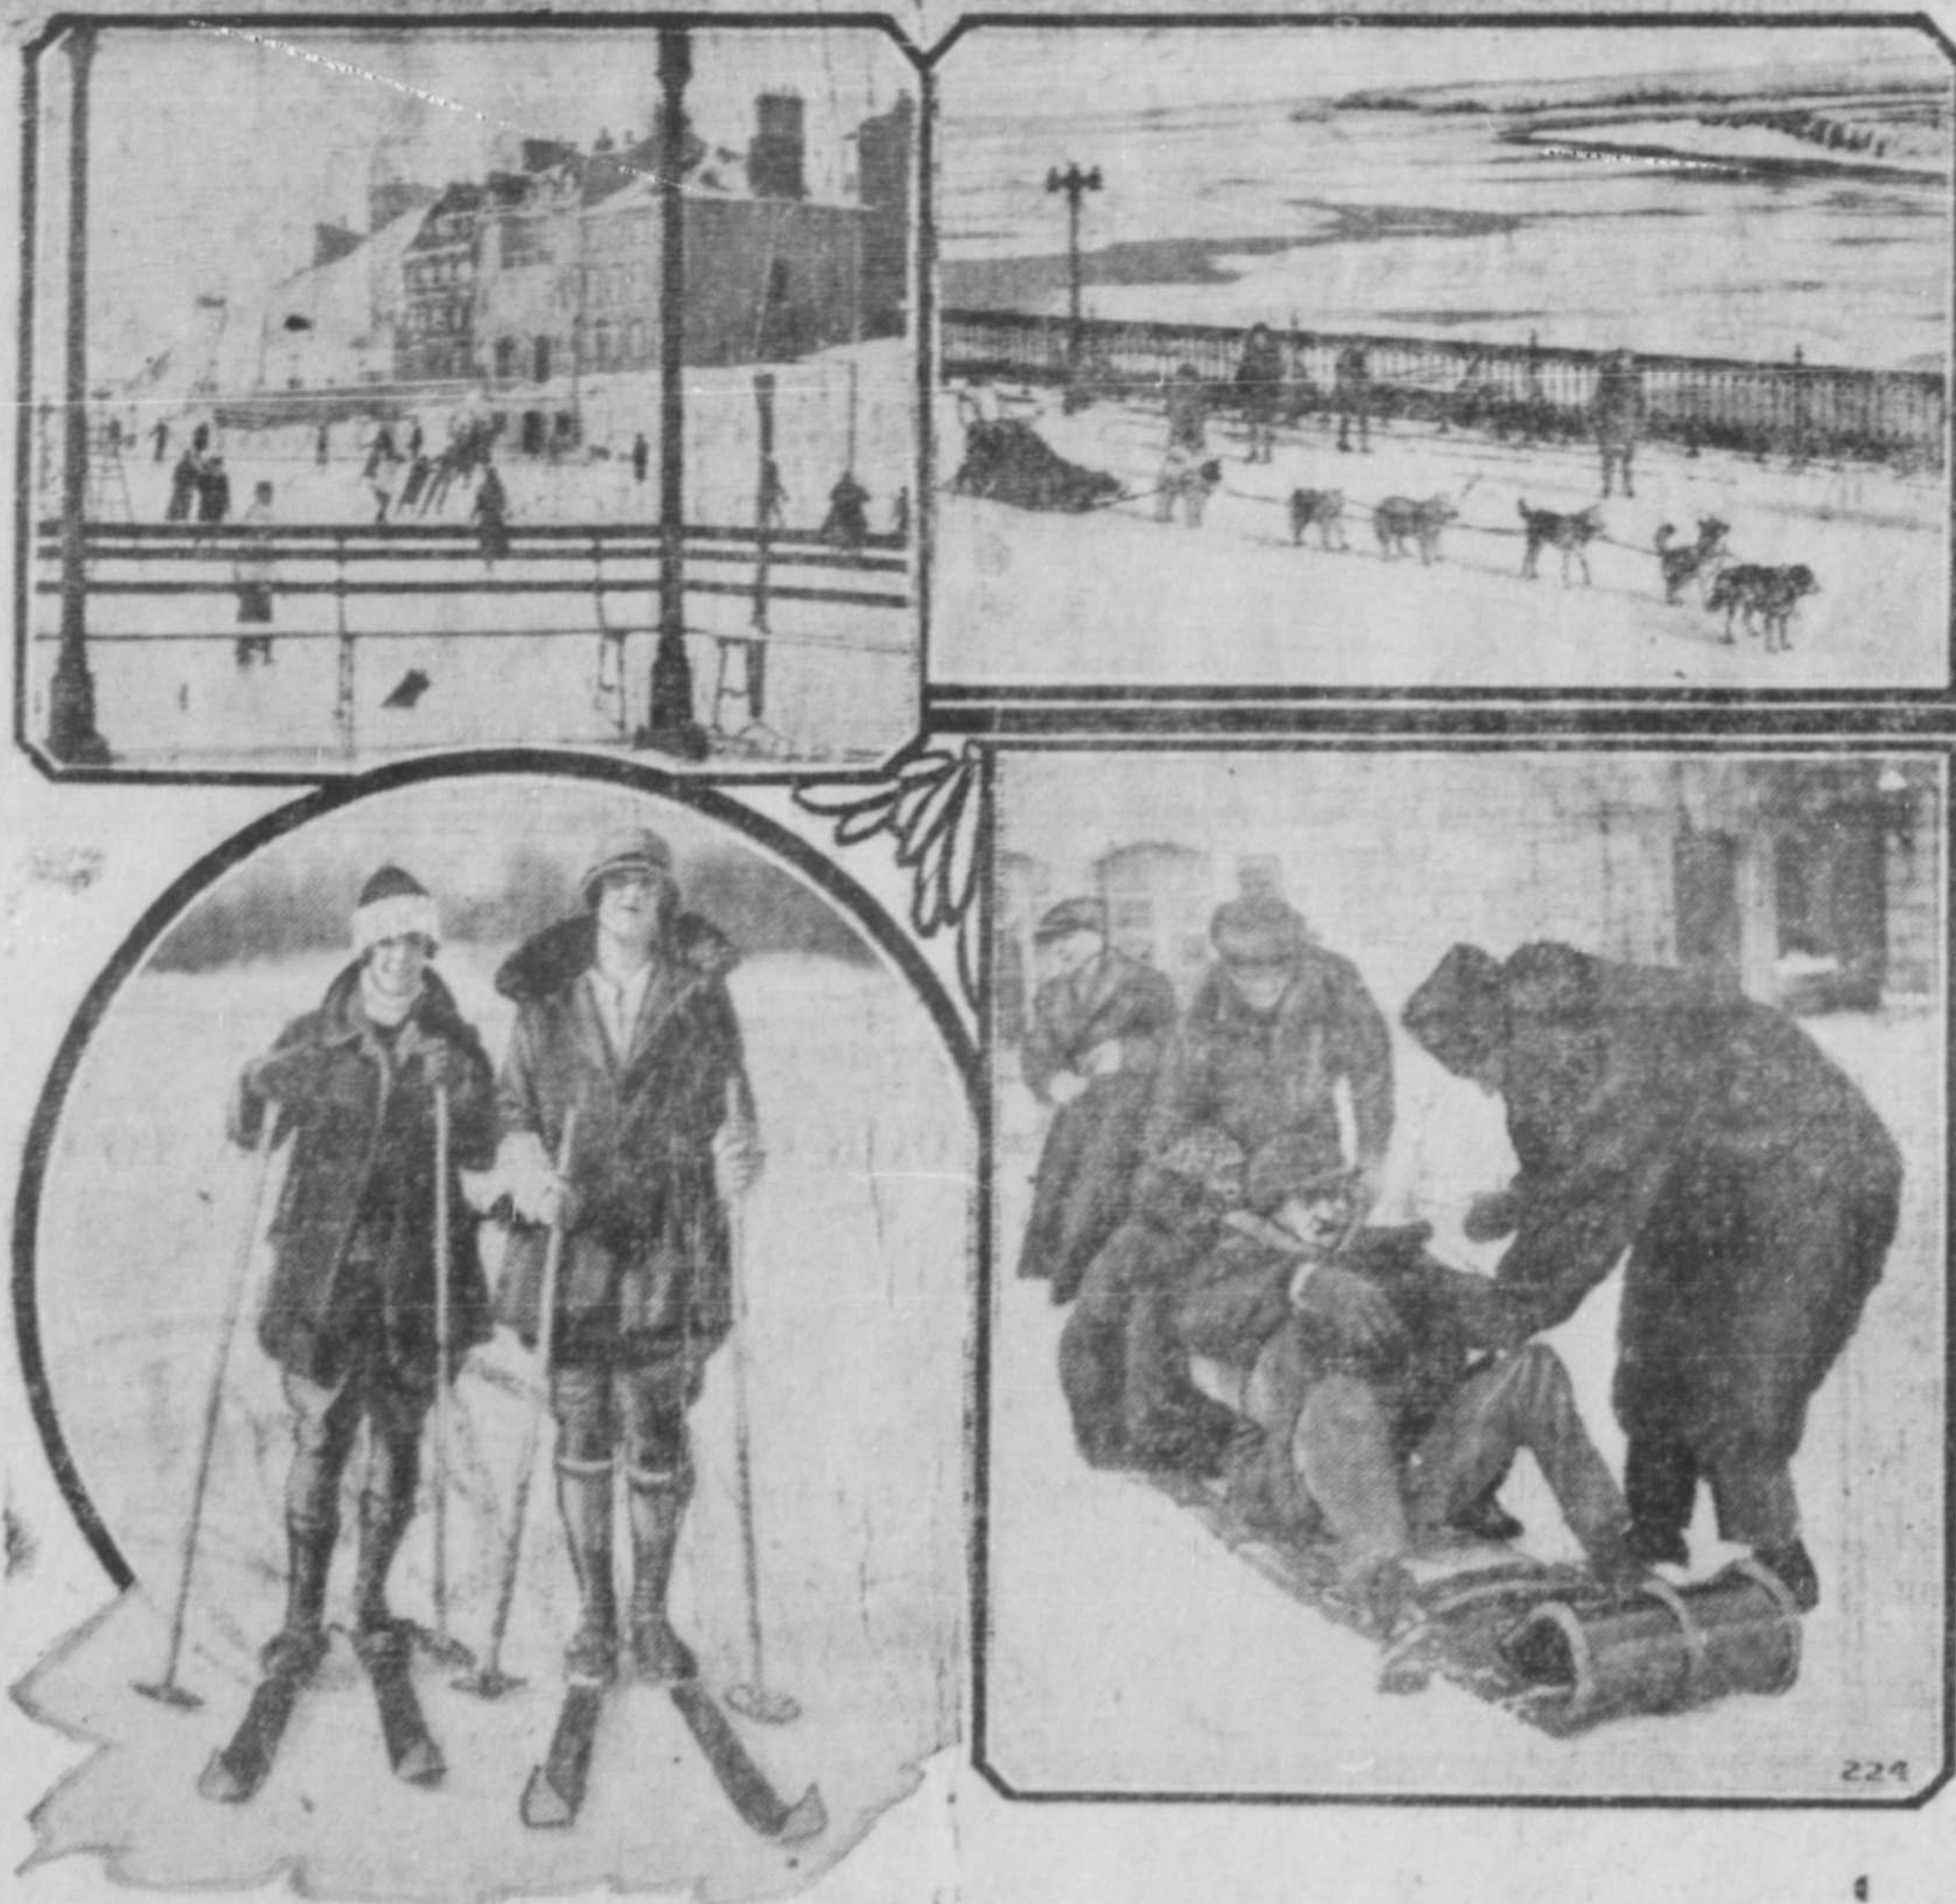

Big Missouri moved up three cents, Whitewater four, Pend Oreille under heavy offerings closed at \$1.25 lower, and Reeves McDonald lost 15. Premier lost one on a small trade.

MINES ACT CHANGE SOON

VICTORIA, Jan. 30.—Increased protection for the public in mining investments, broadening the scope of activities of resident mining engineers, and offering further protection for wage earners employed on bonded properties are included in a new mineral survey and development act being introduced by the minister of mines.

News and Views In The World of Sport

Ste. Petronille

Jack Strathdee, the very able winter sports director at the Chateau Frontenac, his friends will be pleased to learn, is losing weight. Jack runs a summer camp at French River in the fishing season and he took his present job for the reason that he wanted to rest and draw a salary at the same time. When he has time to reflect, and this is seldom, he longs for the easy job of operating a camp and handling a crowd of Indian guides. He finds no rest, for during every daylight hour there is something doing on the ski-hill, on the rink, on the slide—and a hundred people to provide with sports equipment and direction. But he keeps fit as they all do. The air is bracing and invigorating and there is lots of fun.

In the group above one sees the director assisting Their Excellencies Lord and Lady Willington who have just come down the slide for the third time. The other group perhaps explains why he finds so much pleasure in his work and why he has taken up skiing again. There is also a picture of his rink which shows how the slide in the background drops down steeply from the citadel. But take the other picture. This will show you Jack Strathdee's most recent discovery. Beyond the dogs and the terrace is a field of free ice. Beyond that the Isle of Orleans is a shadowy form. Now to the left of the island, just above the lamp standard, great slabs and chunks of crystal and opaque ice hurled themselves in a mass,

cast reefs of glistening pinnacles to the sky in one glorious chaos and screeching, groaningly settled down. Then the mayor of St. Gregoire and the mayor of Ste-Petronille set out, each armed with a small spruce cutting. They met somewhere in the centre of the river, solemnly shook hands, and the ice bridge was declared open. It was after that that the sports director drove over and discovered Ste-Petronille with its ski slopes and toboggan and snowshoe prospects, and also the "Catalogne". The "Catalogne" has a rubble-stone fire place of catalogne about the floor and as window drapes, the oddest old furniture and quaint bed-rooms and, above all a splendid cuisine. It is less than one hour from Quebec and is hailed as a great discovery.

Canadiens of Montreal Defeat New York Americans and Take Lead in National Hockey League

TORONTO, Jan. 30. — The New York Americans were out of first place in the international section of the National Hockey League today for the first time since December 13. The Canadiens defeated them last night and went one point in the lead.

Since December 22 the Frenchmen have lost only one game in 15. The Canadiens still had enough speed to outskate the Americans and stop every attack after Joliat put them ahead with flashy individual play in the first period.

Boston cut the N. Y. Rangers' lead to two points by defeating Chicago.

With only three minutes to go Ottawa held a two-nil lead over Toronto. Toronto shot in two successive goals to even the game, but Ottawa regained their margin in overtime. There were 27 penalties.

The following were the scores: Toronto 2, Ottawa 4. Canadiens 1, N. Y. Americans 0. Chicago 1, Boston 4.

PORTLAND TIED WITH VICTORIA HOCKEY GAME

VICTORIA, Jan. 30.—Portland tied up the score with the Victoria Cubs in a coast hockey fixture here last night just before the close of the third period and the contest went over and ended in a deadlock of two goals each. The Cubs tallied almost immediately after the game opened. The Bucks evened up in the second and the Cubs a few minutes later went into the lead again. In the third period the visitors evened up. The Cubs had the edge on the play.

HIGH SCORES IN CRIBBAGE

This list contains all players having a score of 50 or over, up to and including January 28.

Players Name	Team	Score
1. West, P. R. Hotel	81

54. H. Killen, Eagles	50

SKATING HERE VERY POPULAR

Large Parties Visited Island Lake Last Night; Morse Creek Well Patronized

The lake near the end of the Kaien Island highway proved a popular rendezvous for local skaters last night. There were well over 100 on the ice there, which was in splendid shape. Two of the larger parties were those of the First Baptist Church Fire-side Club and the United Church Young People's Society, as well as smaller groups. From 8 o'clock until midnight, skating was in full swing and the air rang with the joyful shouts of the young people. Hot dogs and coffee were supplied to whet the youthful appetites and four big bonfires sparkled into the frigid air. Handier to town, the Gyo Club's sheet of ice on Morse Creek is also being well patronized these days—in the afternoon by the children and in the evening by many grown-ups.

CURLING WAS MUCH ENJOYED

Two Rinks Played Here Yesterday Afternoon and Evening

The knights of the broom were out in force yesterday enjoying curling on the ice in the Old Grand Trunk Pacific Hotel excavation. Two rinks were used. The local curling club has eight pairs of stones which are brought up from the basement for an occasion like this. Both Monday and yesterday the curlers were out and doubtless they are at it again this afternoon and evening. Among the players were R. L. McIntosh, J. B. Mellish, J. W. Scott, Ralph Lapine, W. H. Tobey, Roy McNaughton, W. J. Nelson, Thomas McClymont, J. H. Thompson, Fred Stork, William Millar, S. E. Parker and F. E. Robertson.

ORANGE LADIES LEADING WHIST

Second Half of Men's Division to Be Commenced Tomorrow Night

Canadian National Ladies won 5 to 4 over Orange Ladies in last night's games in the ladies' section of the Fraternal Whist League and the Moose Ladies defeated St. George's Ladies by 6 to 3.

The league standings are as follows:

	W. L. P.
C. N. R.	4 4 4
Orange	5 3 5
Moose	4 4 4
St. George's	3 5 3

Men's Section
Play in the men's section will be resumed tomorrow night following the Christmas and New Year intermission. Games will be: Seal Cove vs. Lief Erikson Society and Knights of Pythias vs. St. George's Society with New B. Horn, C. N. Mechanics receiving a bye. The fixture between Grotto and Moose will be played at the week-end.

Prince Rupert, B.C.

Mrs. E. R. Cox of Hazelton arrived on the Prince Rupert this afternoon from Vancouver and proceeded to the interior by train.

Norwegian Dance in Metropole Hall, Third Avenue, Wednesday evening at 8:30 o'clock. Norsk Accordion Musik. Admission, Gentlemen 75c, Ladies 25c.

G. A. Woodland, local agent of the Imperial Oil Co., returned to the city on the Prince Rupert this afternoon from a business trip to Ocean Falls.

R. W. Kennedy, Stewart lawyer, is a passenger aboard the Prince Rupert this afternoon returning north after having spent a holiday in Vancouver.

Jack Crawford and Norman McLean are now making alternate trips north as purser aboard the steamer Prince Rupert. It is Purser McLean's turn this week.

H. F. Glassey returned to the city on the Prince Rupert this afternoon from Vancouver where he attended the recent convention of the British Columbia Liberal Association.

Mrs. C. G. Barber arrived in the city on the Prince Rupert this afternoon to join her husband, Corporal Barber, who is now a member of the city detachment of the provincial police.

Fred Coram, who was formerly employed regularly on the company's coastal boats and for the past few years has been with the C. N. R. freight department in Vancouver, is making the trip north this week aboard the steamer Prince Rupert relieving one of the freight clerks.

Notes of thanks were passed last night at the annual meeting of the Prince Rupert General Hospital to various organizations that had assisted the institution during the year, also to the managing secretary, lady superintendent and the press. On motion of D. C. Stuart, seconded by C. V. Evitt, the retiring board of directors was thanked for its splendid work during 1928.

Frank Glass, George Dyer, William Bagshaw and William Nesbitt, members of the local unit of the Royal Canadian Naval Volunteer Reserve, returned to the city on the Prince Rupert this afternoon from Esquimalt where they have been taking courses of training. Norman McGlashin is making a two months' trip to Mexican ports on H. M. C. S. destroyer Vancouver and Henry Deacon is taking an extra two weeks' training at Esquimalt barracks.

Angus Macdonald, who is identified with the Esperanza Mining Co., is a passenger aboard the Prince Rupert today bound from Vancouver to Alice Arm.

William Martin, purchasing agent for the B. C. Packers Ltd., is a visitor in the city on company business having arrived this afternoon on the Prince Rupert from Vancouver.

John McMahon, master mechanic for P. Burns Co. Ltd., arrived in the city on the Prince Rupert this afternoon from Vancouver, being here in connection with improvements that are being made to the company's retail store in the city.

HOSPITAL HAD GOOD SURPLUS

Revenue Exceeded Expenditure By \$3,410.71 During Year 1928

A surplus of \$3,410.71 exclusive of depreciation amounting to \$2,945, resulted from the operation of the Prince Rupert General Hospital during the year 1928, according to the financial statement which was presented at the annual meeting of the Association last night. Revenue for the year amounted to \$77,648.87 and expenditure \$74,238.16.

Revenue included \$13,398.95 in government grants, \$10,849.20 city grant, and \$49,529.40 from hospital fees charged. Accounts recovered amounted to \$1,966.29. The chief expenditure was \$20,127.81 in salaries and wages while house supplies accounted for \$14,991.23. The sum of \$19,234.20 was charged to bad and doubtful debts.

The statement was presented by G. P. Tinker, chairman of the finance committee, who stated that the hospital had had a very busy year as evidenced by an increased number of patients treated and hospital days. One of the notable items of expenditure was the increase in cost of laundry for the year from \$2,500 in 1927 to \$4,655. The board had been unable to set aside any money for the building extension fund but had not had to call upon the provincial government or the city for any additional grants. The report was accepted without discussion.

Isaac—Can you beat it? I say, can you beat it? I insured my house on Tuesday, set fire to it on Sunday, and now when I call to collect the insurance money I find those swindlers have gone into liquidation!—Rags & Bones.

DAILY EDITION Wednesday, Jan. 30, 1929

CLASS RULE OBNOXIOUS

Class rule is obnoxious, no matter in what country or what class which does the ruling. People have fought against an aristocracy of birth and also against an aristocracy of wealth ruling a country. The latest class rule which does not seem to be proving a success is that in Russia; where only the labor class or a part of it is allowed to take part in affairs.

It is prophesied that the Soviet government will fall in the near future to be replaced by a democracy. That may be correct. At any rate, the Soviet has served its purpose in bringing about the permanent downfall of the rule of the aristocracy. It has been a painful operation, most of the men formerly prominent in the country having lost their lives. Whether the country will again be the scene of a revolution or gradually become democratic does not seem clear here. Eventually the people of Russia will assert themselves and refuse to allow a small coterie to rule them. British people would not stand for it and Russians will be sure to resent it sooner or later.

UNEMPLOYED SITUATION

There are a number of unemployed in the city just now, a good many having drifted in from outside and others being idle owing to the temporary closing of the mill, the closed season for fishing and the slowness of grain shipping from this port.

While Prince Rupert is not really responsible for any but the residents, it must be remembered that the city benefits from all who work within a wide radius of the city and for that reason may be held morally responsible for the men when they are not employed and are without funds.

If the city council can do anything by pushing ahead the sewer construction work, it will alleviate the present situation. Also a beginning might be made on the proposed game ground adjoining McClymont Park. In any event, it would be a good thing to try to keep as many as possible of the men employed. They must live.

Cortege on its way to Lamborne church for the service. The lord-lieutenant of Essex, president of the Horticultural Society, passed away in his 82nd year from bronchitis.

CANADA AND UNITED STATES

Movement to Secure Use of Own Ports by Government of This Country

(Winnipeg Free Press)
 A movement has been started in the Atlantic ports of the United States to offset the measures taken by Canada to secure the routing of our export and import trade through our own ports. Senator Walsh, of Massachusetts, has been telling the United States Senate about it, and quoting the protest of the Boston Chamber of Commerce which mentioned particularly the tariff preference of 50 cents a bunch on bananas imported into Canada from the British West Indies, provided that they enter at a Canadian port. It is said that 100,000 bunches of bananas were handled at Boston last year on their way to Canada, and Boston does not like to lose the business.

Canada, however, will not depart from the policy she has adopted of encouraging the maximum use of Canadian ports. She first granted an additional preference on British goods that came in by Canadian ports, then she decided that the preference would be given only if the imports were so routed. Preference given to other parts of the British Commonwealth are now subject to the same condition. And lately the government railway system made an arrangement with the Cunard and White Star lines for providing a better steamship service from Halifax.

The United States ports do not like the results of this policy, which are now evidently being felt. But it might be pointed out that the United States itself is largely responsible for the adoption of the policy. It was the adoption of an exclusive tariff that did as much or more than anything else to cause the serious economic condition in the Maritime Provinces, and brought the Dominion Government to their assistance. It was as one of the forms of assistance, and in response to the appeal of the cities of Halifax and St. John, that the Government decided on the measures calculated to build up those ports by increasing the trade passing through them. If Maritime fishermen had not been affected so much by the shutting out of their product from the United States market, and if the Maritime farmers had not suffered from the shutting out of their potatoes and other products, those provinces would not have become so depressed, and the policy now complained of by the United States ports might not have been adopted as one of the remedies.

The high tariff policy of the United States has compelled Canada to seek trade with other countries, and it might be interesting to the people of the United States to know just how energetically Canada has taken to that alternative. She is doing everything possible to encourage

trade with Great Britain and other parts of the Commonwealth, and she has made treaties with a great many other countries in which mutual tariff concessions are granted. British industries

are studying the Canadian market more carefully and making more effort to cater to it. We shall have increasing imports from Britain, and, doubtless, many branches of British industries

We shall also import more from the countries that take our exports. The United States may sometime find it to its advantage to adopt a less exclusive tariff pol-

icy. In the meantime, Canada is capable of looking out for herself. She is pushing her trade to every corner of the world, and the total volume of that trade is growing at a remarkable rate.

"NOW I KNOW how to Save that Baby's Arm!"

REMOTE settlement in Northern New Brunswick. A famous orthopaedist explaining to a group of doctors and nurses the newest treatment for crippled children

In the middle of the story of a remarkable healing, an excited interruption. A frontier doctor springs to his feet with the exclamation: "Now I know how to save that baby's arm!"

This physician—one of hundreds like the beloved Dr. Maclure of Ian Maclaren's tale—could not afford the time nor the money for a post-graduate course. Neither could the community spare him.

Help has come to these men for the past three years through the visits of eminent doctors sent by the Canadian Medical Association to isolated districts. Last year over 300 such lecturers travelled Canada and Newfoundland, and conducted over 800 clinics, with an aggregate attendance of 25,000 people. Besides bringing relief to hundreds of patients with other ailments, they either helped or cured over 100 deformed children.

The entire cost of this service is annually borne by the Sun Life Assurance Company of Canada. It is one of several similar services, maintained or assisted by this Company to relieve suffering and prolong life.

Brownlee, Premier of the Province, and (right), His Honor Dr. Egbert, Lieutenant-Governor of Alberta.

News of the Mines

AROUND PRINCE RUPERT

Premier Making Good Progress on Prosperity; Independence to Double Crew; Proving Up Marmot Engineer

Progress on the Prosperity group at Stewart by the Premier Gold Mining Co. is reported to be of a very satisfactory nature. The long tunnel has cross-cut three veins and the third of these, which was the objective of the tunnel, is now being drifted on both ways by the two machines that have been in continual operation. The width of this vein varies from a few inches to the full face of the drift. The upper tunnel on the property has had to be temporarily abandoned on account of snowslides. There are 18 men employed at the property and they are housed in a building constructed last summer of rock slabs gathered on the hillside and chinked with cement. All portable horses were pressed into service to take supplies to the mine before the snow came last fall.

A second shift is to be started to work immediately on the Independence property at Stewart upon which only one crew has been engaged during the past few weeks. S. P. Fitzgerald, who is driving the long tunnel under contract, says that he is going to rush the work with all possible speed. One thousand gallons of oil was taken up to the mine at the first of this week by A. E. Young.

The management of the Marmot Engineer property at Stewart is pushing ahead a development program by which it is intended to open up several veins on the property, the first of which will be a showing of chalcoppyrite copper ore which was prospected by means of open cuts, shallow drifts and a short tunnel and showed about a foot of high-grade copper ore which will stand shipping direct and nine or 10 feet of lower grade material which will make good mill feed when the property reaches the stage of installing a mill. This tunnel will in all probability be later extended to open up two silver veins which occur in such a position that they are difficult to get at on the surface and can only be worked from underground. A little work was done last summer on one of these veins and Dr. H. T. James, resident mining engineer, was very much interested in the results and recommended that work be carried out at this spot. The development tunnel was driven 153 feet, at which point a turn was necessary, so a cross-cut was started. This kind of mining is similar to that employed at the Silverado, where, in order to obtain depth, the tunnel was driven into the hill and then swung across the formation to cross-cut the veins at right angles. The Marmot Engineer tunnel is penetrating a shear zone and has gone through calcite porphyry principally, then penetrating 50 feet of green stone which is heavily mineralized with pyrite iron. Timbering in the tunnel has delayed progress somewhat, it being necessary to use timbers for 75 feet of its length. All supplies for mining and cookhouse purposes to last

five months are on the ground and the property is excellently equipped. The property, which was at first syndicated, has now been incorporated with a capitalization of \$150,000 and George Bunn, locator and managing director of the company, expects to get the stock listed soon on the Vancouver exchange.

President J. J. Warren of the Consolidated Mining & Smelting Co., in commenting upon the advisability of a smelter and refinery at some point on the coast for the treatment of B. C. copper ores, lets fall the suggestion that some pressure in the matter may be brought from the To'mie government, says the Prince George Citizen. The Consolidated Company will shortly enter the field as a large copper producer with its mines on Vancouver Island and in the Portland Canal district. President Warren says it will erect a copper refinery on the coast as a sequel to the mining development but that the refinery will come much sooner if the other copper producers could be induced to send their ores to a British Columbia refinery in preference to refining plants in the United States. It may be that the Consolidated will be able to treat copper ore as cheaply as it is treated in the United States. If it fails in this the suggestion is that some form of coercion should be applied to the copper producers or some bonus be given to British Columbia smelters for the treatment of customs ores. It would be worth a great deal to British Columbia to have all its ores smelted and refined within the province.

NEW BRUNSWICK MINERALS

Cypsum, coal, oil-shale, abrasives, limestone and iron, manganese and tungsten ores are the leading minerals of New Brunswick.

LINDSAY'S Cartage and Storage Phone 68 Cartage, Warehousing, and Distributing, Team or Motor Service. Coal, Sand and Gravel We Specialize in Piano and Furniture Moving.

C.N.R. MAY TAKE PART OF COAL OUTPUT FROM COPPER RIVER MINES

(Continued from page one)

the present session of the Legislature. A liberal land grant, including valuable timber areas, mainly spruce, will be required. As a matter of fact, when the route of the Grand Trunk Pacific Railway was originally laid out it was a question whether the Copper Valley route should not be adopted in preference to that along the Skeena and Bulkley Valleys. It is certainly much shorter between Smithers or Telkwa and Copper City on the lower Skeena River.

The Copper River coal field covers an area of twenty square miles and is estimated to contain 400,000,000 tons of bituminous coal of high class. It was originally taken up by the National Finance Company. Mr. Robert R. Hedley, who was mining engineer in charge of the company's operations, informed a meeting of the Canadian Institute of Mining and Metallurgy at Vancouver at the time when the property was under development that investigations had shown it to be the best coal tributary to the coast for the production of metallurgical coke—that is, coke of such freedom from sulphur and low in ash as to be adapted to the manufacture of iron and steel, which demand the highest grade of coke. British Pacific Industries Ltd. has retained an eminent British firm of mining engineers, Messrs. Foster, Brown & Rees, as engineers in charge of its coal operations. That firm knows the field well, having favorably reported on it for the National Finance Co. Ltd. about eighteen years ago.

Initial Market Copper River Coal was the best asset of National Finance Company when it went into liquidation, and the trustees, Yorkshire and Canadian Trust Co., have worked hard to find a purchaser for the property so that the asset might be realized to advantage.

The promoters appear to have made an arrangement with the Canadian National Railway to use Copper River coal for steaming their engines on the division west of Jasper. If so that will provide a market, as it is estimated the railway operation between Prince Rupert and Jasper can consume around 1000 tons a day. It has long been a cause of complaint that this railway should use fuel oil of foreign extraction for its engines when it passes through a country so rich in coal as that between Telkwa and Copper River. The development of coal mines in that area would bring to the railway an immense revenue, now lost, as well as promote the general progress of the country.

The high quality of Copper River coal is best shown by the analysis, an average of which is: Moisture 3.3% Volatile Combustible Matter 34.5% Fixed Carbon 56.1% Ash 6.1% Sulphur 0.5% B. T. U. 12,000 to 13,000 The two main seams of coal are 9 1/2 and 6 feet feet in thick-

ness respectively. Several other seams were located in the process of diamond drilling and development.

Plants For By-Products

It is proposed to establish by-product plants, in which gas is apparently reckoned as an asset, as the coal is stated to be capable of producing 11,080 cubic feet of gas per ton. Other by-products are stated to be 22 lbs. sulphate of ammonia, 2.7 gallons benzol for motor fuel and 8 gallons tar. It is proposed to take advantage of the assistance given by the Dominion Government for the establishment of coking plants.

While the market for coke on the coast is at present small, it is likely to show a large increase within the next few years. Granby's by-product coking plant at Anyox is in the market, and that company would be a purchaser of considerable tonnage for the smelter. The proposed smelters of Ladysmith Tidewater Smelters Ltd. and Consolidated Mining & Smelting on the coast will be additional consumers, and then there are the large chemical plants projected on the coast by British-American interests. The town of Prince Rupert offers the opportunity for a gas plant, and this the company may establish.

Iron and Steel

The development of an iron and steel industry, based on the limonite deposits on Copper River near the coal field, is proposed. These contain a large tonnage of iron ore of good quality and the feasibility of an iron and steel industry based on the deposits has long been recognized. It is, of course, dependent on railway transportation being provided, but with good metallurgical coke and fluxes practically on the ground and a suitable ore in sufficient quantities in proximity to the coal mines the conditions would appear favorable and opportune for the establishment of such an industry. If the company's plans are carried out as outlined this will be the first application of the modern scientific methods of handling coal and coke in this province, and will lead to their adoption by other coal companies to their own and the public advantage. Smokeless, sootless and ashless coal is what the consumer is looking for and will have to get sooner or later. It will mean the more economic utilization of the coal resources of the province, with better demand and greater prosperity for coal operators, who have now had eighteen years of adversity through the inroads on their markets of fuel oil and electric power.

HOSPITAL W.A. IS DISBANDING

Disgruntlement Expressed at Never Being Consulted by Board or Superintendent

Having never been consulted by the board or the lady superintendent with regard to work of the institution, the Women's Auxiliary to the Prince Rupert General Hospital, in its report to the annual meeting of the hospital association last night, announced that, as it had apparently outlived its usefulness, it had been decided to disband the auxiliary. The report was signed by the secretary of the Auxiliary, Mrs. F. G. Pyle. During the year, membership of the Auxiliary had dwindled as had also the activities of the group. New linoleums had been purchased for the wards and the usual Christmas gifts had been supplied to the patients. The Auxiliary had just decided to spend \$250 in purchasing men's dressing gowns and providing chairs for the public wards.

President J. H. Thompson expressed regret at the decision of the Auxiliary, which had done much useful work. Activities of the Auxiliary had always been welcomed and he pointed out that the organization had its representative on the board. On motion of G. P. Tinker, seconded by Ald. W. M. Brown, the report of the Auxiliary was received, disappointment being expressed at its decision to disband and good work that had been done being acknowledged.

ENVOY TO JAPAN

Hon. Herbert M. Marler of Montreal, who has just been appointed as Envoy Extraordinary and Minister Plenipotentiary of the Dominion of Canada to Japan.

NEW HOSPITAL WILL HAVE TO BE BUILT BEFORE LONG IN THE CITY STATES J. H. THOMPSON IN REPORT

(Continued from page one.)

son, lady superintendent, gave a general resume of hospital work for the year. A total of 943 patients had been treated during the year, the average stay in the hospital for each patient being 20 days. There had been 18,082 hospital days, or an increase of 5086 days over the previous year. There had been 51 deaths during the year. Three student nurses had graduated and five new students had been accepted. Miss Harrison thanked the board and managing secretary for splendid support given during the year.

Ald. W. M. Brown presented the annual report of the house committee, of which he was chairman. Improvements that had been made during the year were referred to. These included the putting in of new lights outside the building, renovating of the case room, repairing of the wards, reopening of the old ward in the basement and improvement and repairs to the foundation underneath the nurses' dining room. Work On Grounds In presenting the report of the grounds committee, M. M. Stephenson in installing a new sterilizer in the operating room on the Fifth Avenue side of the

the AFTER effects of FLU more dangerous than Flu itself

Physicians advise that the chief danger in this epidemic is AFTER Influenza. Then, more than ever, colds attacking the weakened system may lead to bronchitis, pneumonia, sinus trouble, abscess of the ear, mastoiditis, or even the dread meningitis. This is especially true of children or old folks.

AT FIRST SIGN OF A COLD—Put some Vicks up each nostril and snuff well back. At bedtime, apply hot wet towels over throat and chest until the skin is thoroughly reddened. Then rub vigorously with Vicks. Spread it on thickly and cover with warm flannel.

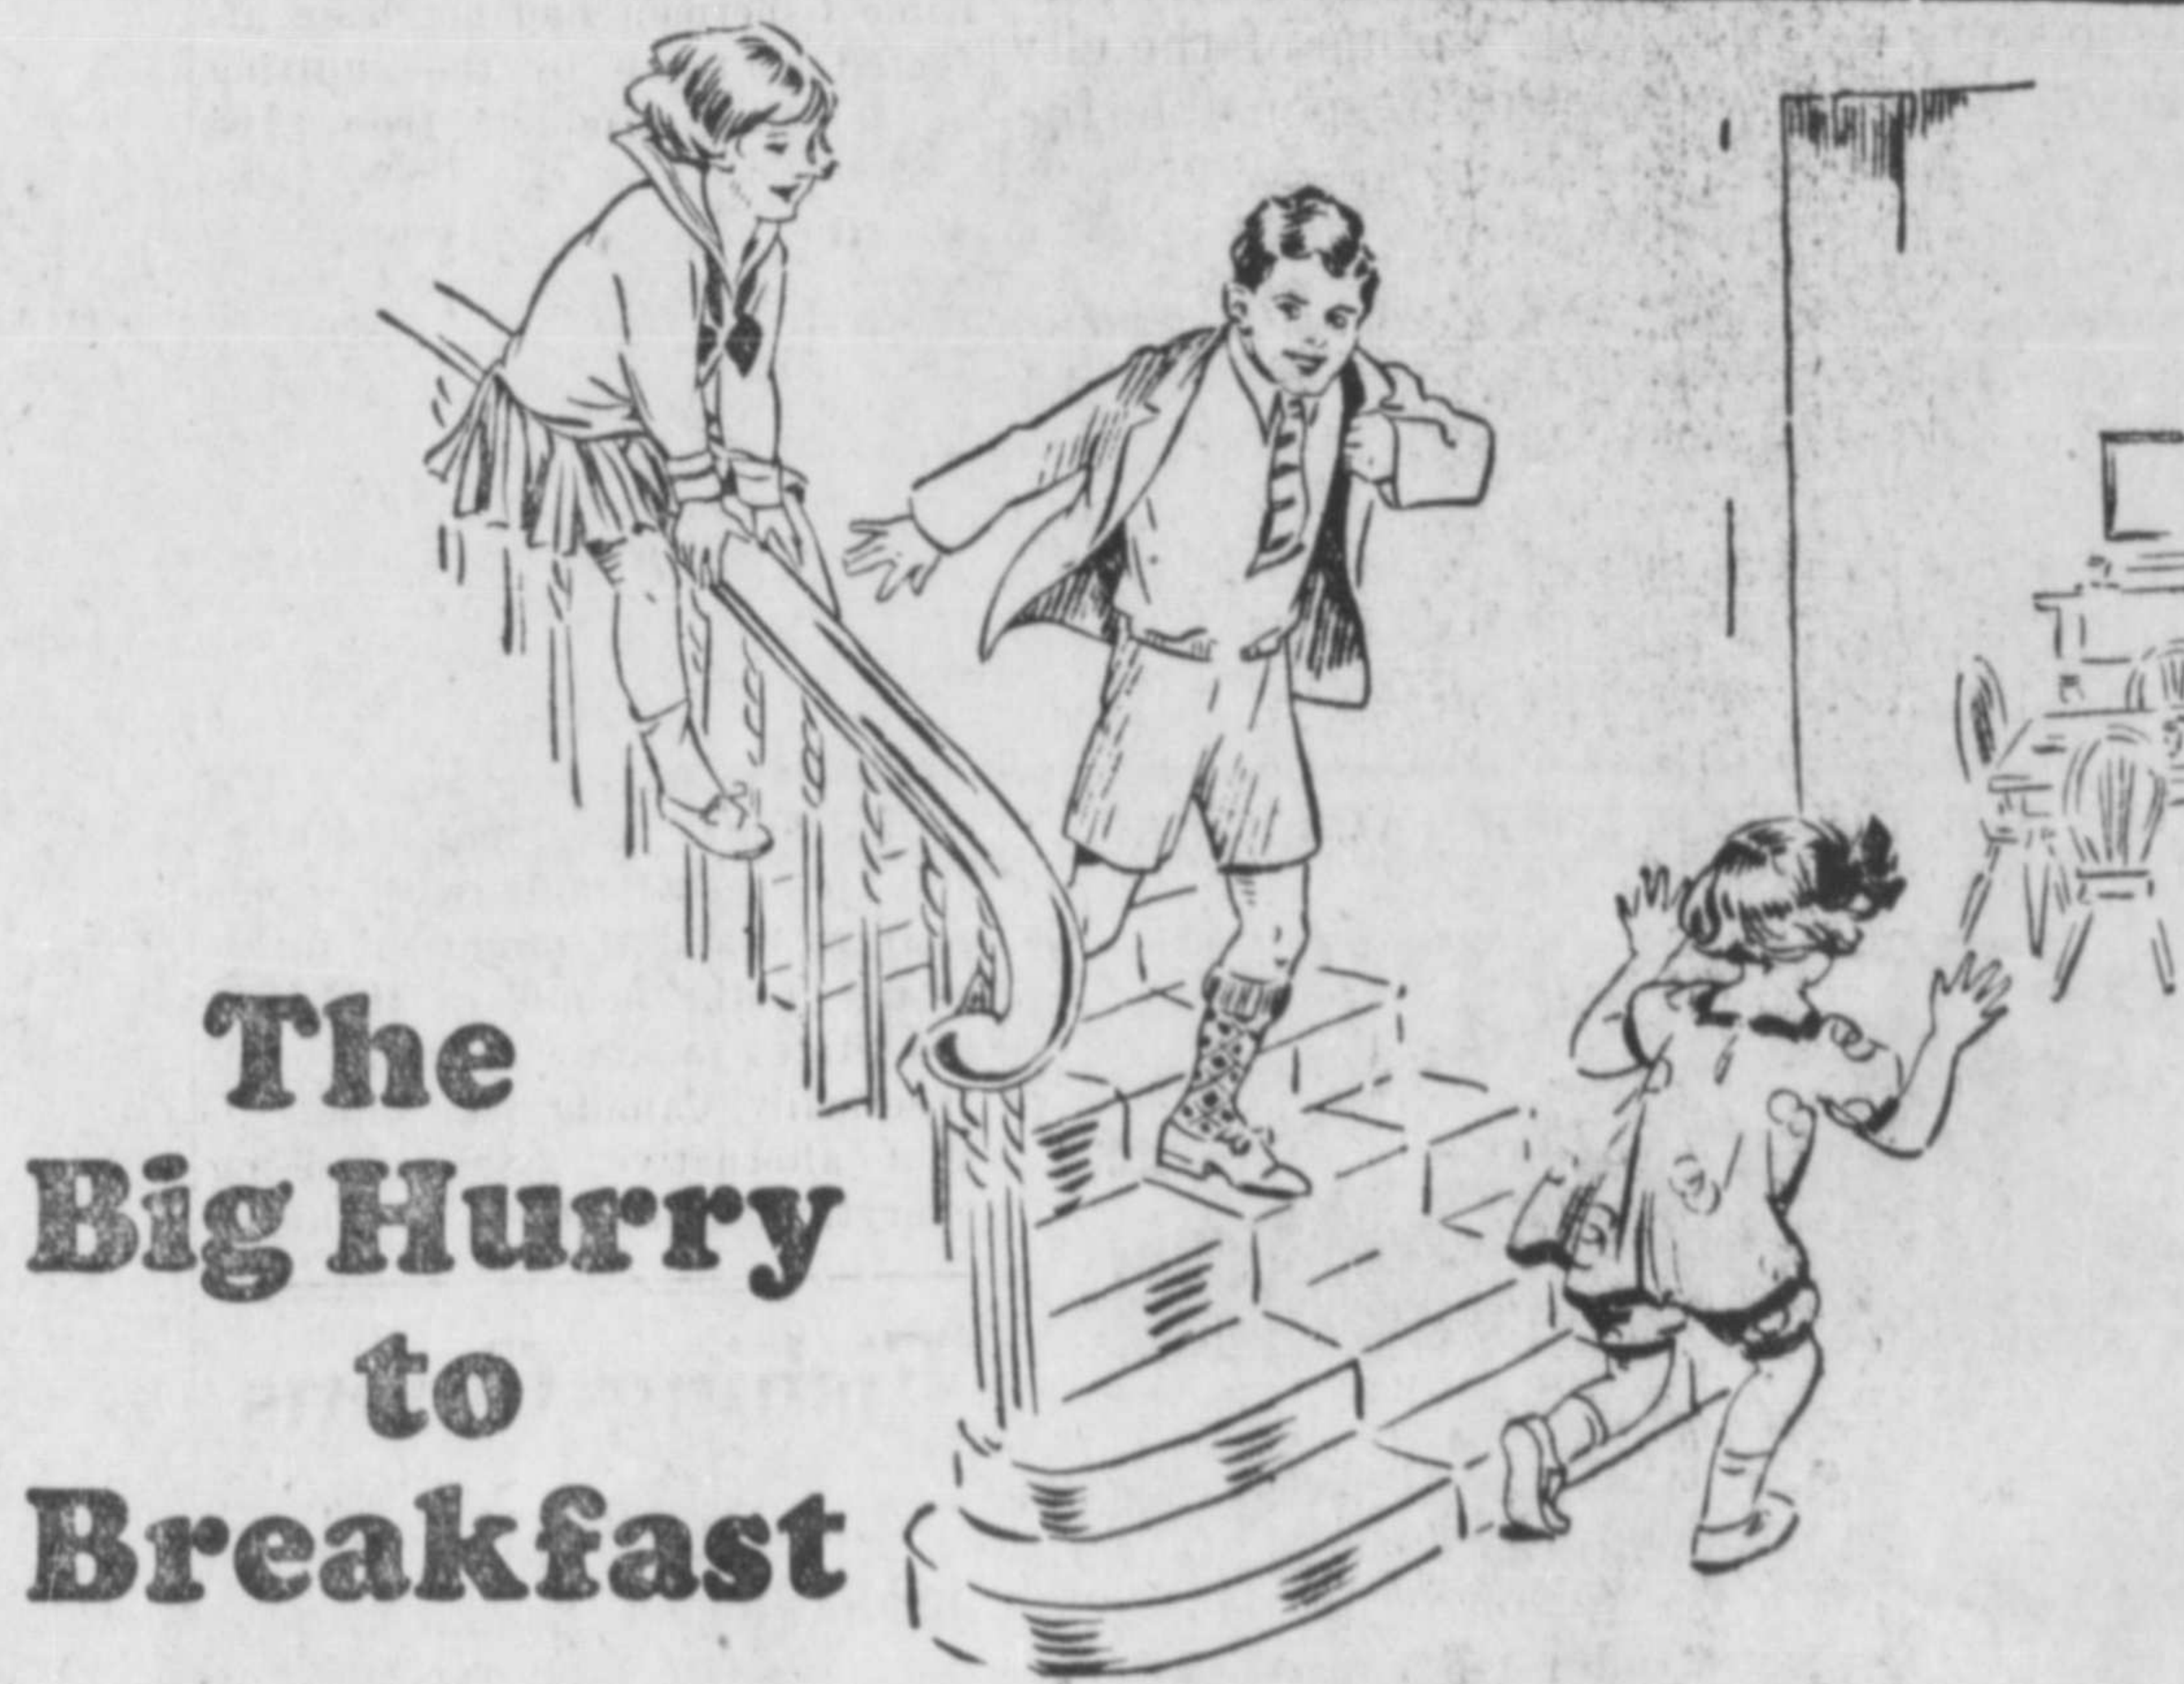

Vicks acts 2 ways at once (absorbed and inhaled) and often checks a cold overnight. If by morning the cold still lingers, stay in bed and repeat the treatment every 4 hours.

AVOID TOO MUCH DOSING—A peculiarity of influenza is that its toxins leave the digestive system upset. Constant "dosing," especially in the case of children, still further disturbs the digestion and lessens the appetite, just when the body needs nourishment more than ever.

Vicks VapoRub is especially valuable here because it is applied externally, and so can be used freely at the first sign of every cold, without upsetting the most delicate digestion.

VICKS VAPORUB

hospital had been turned over, drained and put in a crop of potatoes which had been used in the hospital. Further draining had been undertaken in the fall. Mr. Stephens recommended that the grounds be fenced this year.

The Big Hurry to Breakfast

DOWN they come, pell-mell to breakfast, for they know that Quick Quaker is ready. It takes only 2 1/2 to 5 minutes to cook. It tastes so good they want it every morning.

Quick Quaker is the cure for the wrong breakfast which so many people eat. Its nut-like flavour is a relish and the digestive organs respond to its warm, creamy texture. No other cereal has such a perfect food balance. Protein, 16%, the growth element which fosters mental activity as well as bodily stamina; carbohydrates, 65%, the energy food. Your children need Quick Quaker to sustain them throughout the busy forenoon—the hours that make the greatest strain on their physical and nervous energy.

Here is the breakfast that tastes good and feeds you well.

STEEL BOUNTY BILL IN HOUSE

VICTORIA, Jan. 30.—A bill providing bounties for the production of iron and steel in British Columbia has been introduced by the minister of mines.

It repeats the former act providing a bounty of \$3 a ton on pig iron produced from ores mined in the province and re-enacts that measure coupled with the further clause giving power to grant bounties of \$1.50 a ton on steel shapes manufactured within the province. Purpose of the new clause is to cover the steel manufactured from scrap iron.

HORNE-PAYNE DIES, LONDON

VANCOUVER, Jan. 30.—R. M. Horne-Payne, founder of the British Columbia Electric, died at his home at Brentwood, near London, England, today, according to cable advices.

COUNCIL OF WOMEN REFUSE TO ENDORSE ANTI-DUMPING BILL

EDMONTON, Jan. 30.—Feeling that there was a possibility of being "stranded" for a good many months of the year without fruit, the local council of women in annual meeting refused to endorse a resolution from the national council asking the government to enact legislation to prevent dumping of American fruit on the Canadian market.

Although the situation was considered urgent in the fruit-growing districts of Canada owing to the importation of American fruit (often at a loss to keep the American market high), the members did not wish to take any action until further information had been received.

SENTENCE ON INDIAN IS ALTERED BY JUDGE

Joshua Tall, Port Simpson Indian, appeared in county court before Judge Young yesterday afternoon against a sentence imposed by Dr. R. G. Large, justice of the peace, of two months for common assault on William Kelly, another native, and three months for being intoxicated on an Indian reserve. The sentences to run concurrently. His Honor altered the sentences to two months for assault and two months for drunkenness on the reserve, the terms to be served concurrently.

W. O. Fulton appeared on behalf of the appellant, while W. E. Fisher acted for the crown.

Fashion Fancies The Summer Fashion Wrap Takes To Lace

Over a filmy chiffon evening dress smart designers are advocating lace evening wraps to preserve the effect of eternal grace. And while chiffon velvet evening wraps will be shown for summer wear, lace is to be the favorite.

The model shown here is black, with a large satin bow at the neck, with ends that tie in front. The elbow cape is shirred and scalloped, and this effect is repeated effectively at the hem.

COLDEST YET IN INTERIOR

One Point Shows 50 Below Zero but Dawson Only 34 Below

Endako seems to be the coldest point reporting in northern British Columbia, 50 below being recorded there this morning. Burns Lake runs it close with 42 below and zero weather still continues all along the line. Dawson is a little warmer, only 34 below being recorded. Following is the government telegraphs report at 8 a.m. today:

Prince Rupert—Clear, light east wind; temperature, 19.
 Port Simpson—Part cloudy, calm, 8 above.
 Haysport—Clear, 14 above, light wind.
 Hazelton—Clear, calm, 6 below.
 Smithers—Clear, calm, 32 below.
 Burns Lake—Clear, calm, 42 below.

FOUR FIRES HERE TODAY

Considerable Damage Done To Building on First Avenue

Owned by Capt. Swanson

COLD IS CAUSE

Cold and dry weather conditions caused the fire department to be called out no less than four times within three hours today.

At 10 o'clock this morning, thawing of pipes caused dry brush to become ignited behind some houses near the corner of Seventh Avenue and Taylor Street. Half an hour later there was another brush fire at the junction of Graham and Atlin Avenues in Westview and at 11 a.m. a grass fire on the water front near the elevator called the brigade out for the third time within an hour. No damage was done in any of these fires.

Considerable damage was done to the interior of a two-storey building on First Avenue near the corner of McBride Street at about 1 o'clock this afternoon. An overheated stove pipe was the cause of this fire which gutted three of the upstairs rooms and caused damage from smoke and water. Workmen were in the building making repairs when the fire started and, by the time the brigade arrived, the interior of several rooms was in flames. It took about half an hour to extinguish the blaze. The building is owned by Capt. Alfred Swanson.

CORDIAL

C. N. R. MAKES TAX APPEALS

Otherwise, Municipal Court of Revision Will Have Light Work This Year

Apart from the perennial appeals of the Canadian National Railways and the Grand Trunk Pacific Development Co., there is but a light list of work for the court of revision on the municipal assessment roll which will sit on February 8. The development company is appealing against allegedly excessive valuations of property in various parts of the city and the C.N.R. appeal, on similar grounds, involves all the company's waterfront land as well as leaseholds. Olier Besner is appealing the assessment on lots at the corner of Third Avenue and Third Street where his new building has been erected.

Other appeals, together with the sections in which property involved is located, are: T. Ferrer, Section 6; Jeanie M. Hanson, section 1; George E. Brooks, section 2; L. W. Patmore, section 2; W. de Moulplied, section 6; J. and C. Pederson, section 6; H. A.

YOUNG FISHERMAN PASSES SUDDENLY

Death Occurred Last Night in Prince Rupert General Hospital of James Postgate

Following a brief illness, the death occurred suddenly last night in the Prince Rupert General Hospital of James Postgate, aged 23, well known local halibut fisherman. He is survived by a widow, having been married only a year ago. Deceased had lived here about two years and resided in the 500-block, Eight Avenue East. He was born in Whitby, Yorkshire, England, and had been in Vancouver before coming here. He fished last season with Capt. Donald Ritchie on the Unome. Deceased's mother arrived in the city on the Prince Rupert this afternoon from Vancouver to attend the funeral, arrangements for which are in the hands of the B. C. Undertakers. Deceased's father, as well as several brothers and sisters reside in Vancouver.

COLD WEATHER IS STILL FELT HERE

Wind in East and Barometer Steady; Lowest Reading Last Night 16 Above

The wind was in the east this morning and, with the barometer still steady around 30, Prince Rupert's cold snap is continuing today with no immediate prospect of amelioration though the thermometer rose last night went down to only 16 degrees above zero, as compared with 14 degrees the night before. Prospects yesterday of a thaw washed into the cool afternoon, leaving many Prince Rupert people in the hope of an early abatement, because of frozen water pipes and other discomforts, probably an equal number, are taking a great enjoyment of skating, are only hoping the continues.

C.N.R. steamer Prince Rupert, Capt. Harry Neddien, arrived port at 1:20 this afternoon from Vancouver. Powell, Ocean Falls and Stewart, Anyox, returning here at 6 o'clock Friday morning and south at 9 a.m.

DAILY NEWS' SHOPPING SERVICE

for Out-of-Town Subscribers

To serve its women readers, and particularly those who live at a distance from a retail centre, The Daily News has instituted a Shopping Service. The Daily News is read by hundreds of women living far from any urban facilities for shopping and it is for these that this shopping service is primarily intended. Of course, The Daily News Shopper will attend to the man also, although he can buy a pair of braces anywhere. But not everywhere can a woman get a bit of lace matched—or a piece of embroidery thread—or the thousand and one things that make up the difference between a woman's wants and a man's.

The Prince Rupert Merchants Carry between them Stocks running up to \$2,000,000

and while it is not possible to purchase everything in this world in Prince Rupert, most things are available by return mail.

None of the Prince Rupert merchants can possibly advertise everything they carry in stock, but if the thing wanted is to be got in this city, our out-of-town readers may be sure that The Daily News Shopper will get it when asked for.

If any of our women readers cannot get what they want in their nearest store, all there is to do is to write to The Daily News Shopper, stating what is required with whatever details there may be, enclosing the cost, and if it is in Prince Rupert, The Daily News Shopper makes your purchase.

This Service Free

to our women readers and is the outcome of many individual requests made to our staff on their travels through the district in seasons past. This service has been appreciated in these individual cases and is now extended to all with the hope of the same appreciation.

So Do Not Hesitate

Do not think you are imposing upon The Daily News. Our shopper is awaiting your requests.

THE DAILY NEWS
 PRINCE RUPERT B. C.

Man in the Moon

Most things when boiled become soft. Only man is supposed to become "hard boiled."

It matters not what I become Nor if my raiment's soiled. For none of these I care a fig Long as I'm not hard boiled.

Some of those English mining towns are like tag day in Aberdeen.

Vancouver has had a deep snowfall and glories in the fact.

My kit was rather countrified I thought I would improve her And so I pulled up stakes and went To dwell in Great Vancouver

But there the winter was so cold The fogs were thick and often I felt that if I lived there long I'd surely reach a coffin.

I wrote the Rupert Board of Trade

To find out about the weather, Came and after living here My hide is tough as leather.

"I wish you'd say 'our' occasionally," stormed Mrs. Jones. "I am tired of hearing you say 'my car,' 'my house.' You know everything doesn't belong to you alone."

The next morning Mr. Jones was rummaging around the room, swearing as usual.

"What's the matter now?" asked Mrs. Jones.

"I'm looking for our trousers," replied Mr. Jones.

Ten Years Ago in Prince Rupert

January 30, 1919

Prince Rupert must look to the fishing industry as her chief source of wealth, declares J. P. Babcock, provincial commissioner of fisheries, who is a visitor here. There is a great future for the trawling business and it will be bigger than those now in the business expect, he says. This is the natural port for the fishing business and the industry should be built up.

Rough weather still continues on the fishing grounds and the halibut vessels are landing very small catches. The Lebanon is in with 3,000 pounds; the Saturn, with 400 and the Advance with 300.

The Prince Rupert Trades & Labor Council has elected officers as follows: president, W. E. Thompson vice-president, S. V. Cox; secretary, George Rudderham; treasurer, W. Reid; statistician, John Rank; sergeant-at-arms, John Watson.

WATER NOTICE

Diversion and Use Take notice that Billmor Spruce Mills, Limited, whose address is 311 Rogers Building, 470 Granville St., Vancouver, B.C. will apply for a license to take and use 100,000 of water out of an unnamed stream, which flows southerly and drains into the head of Horseshoe Harbour, half mile northeast of Lot 6535, Range 5, C.D. The water will be diverted from the stream at a point about half mile distant from its mouth and will be used for industrial purposes upon the land described in the notice of intention to lease. This notice was posted on the ground on the 22nd day of December, 1928. Objection to this notice and an application pursuant thereto and to the Water Act will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the said Water Recorder or with the Commissioner of Water Rights, Parliament Buildings, Victoria, B.C. within thirty days after the first appearance of this notice in a local newspaper. BILLMOR SPRUCE MILLS, LIMITED. Applicant. BY B. E. MORGAN, Agent. The date of the first publication of this notice is January 9th, 1929.

CORPORATION OF THE CITY OF PRINCE RUPERT

TAKE NOTICE THAT: 1. The Council of the Corporation of the City of Prince Rupert intends to construct a pavement sixteen feet wide on Vanarsdol Street, commencing at the intersection of Vanarsdol Street and Graham Avenue and extending along Vanarsdol Street to the intersection of Vanarsdol Street and Atlin Avenue as a local improvement, and intends to specially assess the cost upon the land abutting directly on the work, except such portion of the cost as is incurred at street intersections. 2. The estimated cost of the work is \$7500.00, of which \$5635.69 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is \$ 7552. The special assessment is to be paid in 10 annual instalments. 3. Persons desiring to petition against undertaking the work must do so on or before the 25th day of February, 1929. E. F. JONES, City Clerk. Dated this 21st day of January, 1929.

TWO MEN WHO KEPT SHOP STABLE FOR YOU/ME

ONCE there were two men who kept shop. Both shopkeepers were in the same mode of business, but their methods differed widely. In fact it was only a matter of time, a short time, before one must close. Now the other shopkeeper was different, he was prosperous. His store looked neat and clean, spruce, tidy and colorful, with a front that bespoke quality and service. Now this shopkeeper was a great community booster. His bid for patronage was based on selling his customers the products of his local industries first. He claimed that the industries in his locality employed men who earned wages, who spent wages, and kept others employed. His pet theory was, the more of Pat's mouse traps he sold the more Pat must make, and the more Pat would earn to buy goods from him, the wise shopkeeper. And so he succeeded and became prosperous and popular, and his philosophy and wise counsel spread rapidly. Now, there's a moral to this story: Every dollar paid for foreign made goods departs from your homeland never to return; but, each dollar exchanged for a B.C. product remains in British Columbia and quickly grows in value. It enriches industry, ensures employment and introduces prosperity into the homes of the workers. This is the third advertisement of a series authorized by the B.C. Producers Bureau of the Vancouver Board of Trade in the interests of the manufacturers of British Columbia. BE PROUD TO BUY B.C. PRODUCTS

BLUE DANUBE

BIG ROMANCE

Extremely Human Picture at the
Westholme Tonight Featur-
ing Beatrice Joy

Romance, spelled in capitals—
that is Beatrice Joy's new De
Mille star studio production,
"The Blue Danube." It is a tre-
mendous throbbing love theme
dominating in a plot blending
tense dramatic action with deli-
cious comedy. It is a Paul Sloane
production of the finest grade.

The story is extremely human,
with a background as colorful as
any ever seen on the screen.
Though not a war picture, the
undercurrent of the World War
is felt in several sequences and
it stresses the tragedy of a
proud nation suffering the pangs
of galling defeat.

Joseph Schildkraut and Nils
Asther, featured players in sup-
port of Miss Joy, are ideally
cast. They stand at the apex of
their profession. In the sup-
porting cast are two players of ex-
ceptional reputation and drawing
power. They are May Robson,
former stage star and Sena
Owen, for many years a popular
screen star. Then there is Al-
bert Gran, who won fame by his
impersonation of the cab driver
in "Seventh Heaven," and Frank
Reicher, a veteran of stage and
screen. Few pictures produced
in recent months exhibit better
casts.

Week-end Specials

Exciting Film

AT CAPITOL

Rex Beach Story Starring Renee
Adoree of "Big Parade" Fame
Is Full of Thrills and
Romance

Rex Beach never wrote a more
romantic, exciting novel of Al-
aska in gold rush days than
"The Michigan Kid," the film
version of which will open at
the Capitol Theatre tonight, with
Conrad Nagel and Renee Adoree
co-starring.

Universal has turned out a
thrilling photoplay from the
story set in the colorful times
of gambling houses, dance halls
and rough men when the gold
fever gripped the country.

The film is a combination of
the highest cinematic beauty of
locale and Rex Beach's most
powerful drama of the northern
wilderness.

WEEK AT THEATRES

Wednesday and Thursday
Capitol: "The Michigan
Kid" with Renee Adoree and
Conrad Nagel.
Westholme: Beatrice Joy in
"The Blue Danube."

Friday and Saturday
Capitol: "Excess Bag-
gage."
Serial "Tarzan Number 3."
Westholme: Charles Far-
rell and Greta Nissen in
"Fazil."

District News

PRINCE GEORGE

John T. Cowart, Ivor Smaaslet
and two other trappers started
out from here last week on a
three hundred mile hike into the
Ingeniko by way of Summit Lake.

Two local rinks of curlers have
been visiting McBride and Jas-
per for a series of games. One
of the rinks consists of W. G. D.
Harper, Bert Harper, Lloyd Har-
per and William Bexon, while
the other is made up of J. C.
Pidgeon, Edward Opie, Frank
Whitmore and Paul Wieland.

William Bunday has been com-
mitted for trial by Magistrate J.
P. Moran on a charge of as-
saulting Mrs. DeGrosse in her
place on Dominion Street.

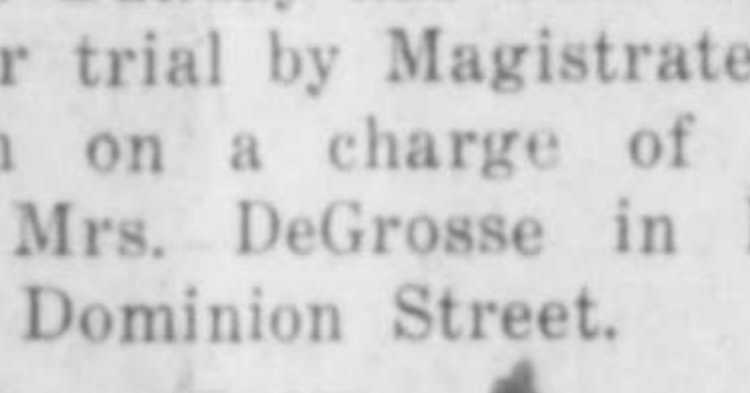

Allan Lemonte of Valemont
has been found guilty and fined
\$300 by Justices of the Peace T.
R. Lloyd and David Hay at Mc-
Bride on a charge of keeping
liquor for sale.

The total revenue of St. Mich-
ael's Anglican Church here dur-
ing 1928 was \$2,300. The church
is in a good financial position,
having paid all accounts in con-
nection with enlargement under-
taken during the past year.

The city council has decided to
purchase at a cost of \$265 an oil
purifier for the local power
house. It will bring about econ-
omies in the saving of oil.

The mill of the Longworth
Lumber Co. near Prince George
is now working a double shift,
having found a good market in
the United States for its produc-
tion. The payroll of the company
for the past month amounted to
\$16,900.

Dr. Wood's Norway Pine Syrup

I took a few doses and I was greatly
relieved.
"It also relieved my son, aged nine,
of the croup."
"I will never be without a bottle of
"Dr. Wood's" in the house, and I cannot
recommend it too highly."
Price 35c. a bottle; large family size
60c. at all druggists and dealers.
Put up only by The T. Milburn Co.,
Ltd., Toronto, Ont.

BAD EYES

Are your eyes peculiar—a
little different? Harder to
test than many?

That is the kind we take
a special interest in and
usually satisfy our cus-
tomers.

In fact, if the eye is not
diseased, and glasses are
really what is needed, we are
sure we can suit you.

Lenses ground specially
for each eye when necessary.

'THE MICHIGAN KID'

BY REX BEACH

Starring RENEE ADOREE and CONRAD NAGEL

A story of action and romance in the gold camps of Alaska
with a notorious gambler and a crooked mine supervisor, bat-
tling for the heart of a wonderful girl,—the toss of a coin and
a laugh on his lips, and the Michigan Kid was ready for any-
thing.

BRACKMAN-KER MILLING CO. LTD. DISTRIBUTORS

BETTER COWS BETTER MILK

In order to bring to you,
under the red and white
Carnation label, as fine
milk as the world produces,
we are constantly introduc-
ing the high milk producing
strain of our blue ribbon
"Contented Cows" into the
herds that daily supply milk
to the Carnation Condens-
eries. In fact, one of the
most famous Holstein herds
in all the world is owned by
the Carnation Milk Farms.

In this, as in many other
ways, we insure the quality
of Carnation Milk. Insure
that it really will add rich-
ness and flavor whenever you use it. For Carnation is just pure,
fresh milk—evaporated to double richness, "homogenized" so that
every drop has its full share of cream. Diluted, it is used in cooking
to give greater smoothness and richness. Undiluted, it takes the
place of cream at one-third the cost of cream. Order from your
grocer several tins or a case of 48 tins.

Send for a free copy of Mary Blake's Cook Book. Address Carnation Milk
Products Company, Limited, Aylmer, Ontario.

CARNATION CREAM CAMELS—Two cups sugar, 2 cups corn syrup, 1/4
cup butter, 2 cups Carnation Milk, few grains salt, 1 teaspoon vanilla. Place in
sauce pan over fire, sugar, syrup, salt and butter. Stir until mass boils to clear,
thick consistency; then add gradually so as not to stop boiling, the Carnation
Milk. Cook to 242 degrees F. or to firm ball stage, stirring constantly. Add 1
teaspoon vanilla, pour into buttered pans and mark in squares.
