DEMERS - Third Avenue

W. E. Williscroft in "Canadian Elk" Gives Local Point of View

anadian Elk" dealing with Prince Rupert as the outlet to the Peace water waving. Face massage and River is timely and interesting: | scalp treatments. An interesting topic today to those interested in the development of Western Canada is the controversy over an immediate RADIO BICYCLES coast outlet for the Peace River

dertaking, involving as it does a heavy outlay of capital, and we small fry will have to let the "Big Boys" do their stuff in determining when that coast outlet shall be built. But nevertheless, and notwithstanding the present attitude of the president of the Canadian Pacific Railway, this demand of the people of Western Canada will have to be recognized by those Quick Returns-Careful Finishing in authority and relief given to the WRATHALL'S PHOTO FINISHINGS settlers of the Peace River district. This is where we become interested, for we want that outlet for the Peace River district at our city Prince Rupert-and are behind our Board of Trade in pressing for this railroad to be routed by way of the Peace River through PRINCE RUPERT AUCTION Finlay Forks to the Skeem River and thence to Prince Rupert, thus opening up an immense agricultural and mineral area, the wealth of which no one can as yet estimate, truly an empire in itself.

Logical Seaport Prince Rupert is the logical and most economical coast seaport for railroad from the Peace River district. Moreover, being the western terminus of the Canadian National Railway, with a railroad grade of 4-10th of 1% compared with a 2% grade elsewhere to the coast, 485 miles nearer to the Orient, a market that is just opening up to receive the products of Canada, what economic condition can offset this advantage in Prince Rupert's favor?

Prince Rupert is situated on a harbor that is open the year round for navigation, free from ice, zero weather being practically unknown. Deep sea vessels can enter and-leave the harbor at any stage of the tide, which, by the way, has a maximum rise of 24 feet and an average of 16 feet. It is about eight miles in length with an average width of two and one-half Massett, B.C., intend to apply for

well as other port facilities that go cerns are recognizing our growing ment. importance by establishing their Dated at Massett, B.C. this 30th day interests here. Within a radius of of November, 1929. 90 miles of Prince Rupert the mineral wealth has only been scratched here and there and produced last year one and three-quarter million tons of ore with values in gold, silver, copper and lead. Power is required to operate, and the Power Corporation of Canada is developing hydro-electric projects in the Stewart mining area and the Prince Rupert district.

Good Prospects What better prospects can any young and energetic community have than the foregoing that would deny them the respect of the powers that be, when laying their claim to the coast outlet for the Peace River district. Prince Rupert citizens are eating their cereal every morning—their heads up and right foot forward—are holding the reins of progress and of young and energetic men known as "The Elks." Prince Rupert SUITS! as "The Elks," Prince Rupert lodge, No. 46.

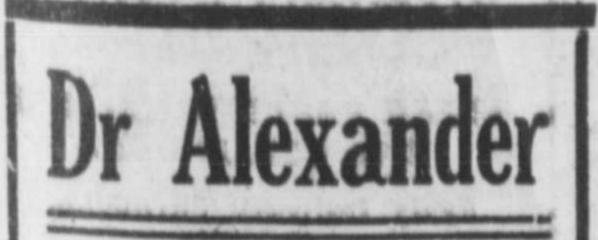

Twenty Years Ago

In Prince Rupert

December 7, 1909 The charter committee has presented its report on the matter of the incorporation of Prince Rupert. It recommends that city affairs be conducted either by board of control or a city council.

Prince Rupert citizens are complaining at the passenger boat service between here and Vancouver. It is said that the steamer Camosun is the only vessel giving really satisfactory service. She is the only boat to regularly sail and arrive on time.

Seven Kispiox Indians have been sentenced to jail for assaulting and intimidating surveyors who sought to enter their valley.

New Snagboat For Local Waters; Olof Anderson to Build New Halibut Vessel; Discussion Over Fishermen's Floats

During the coming winter the federal department of public works will call for tenders for the construction of a new vessel to replace the steamer Bobolink as snagboat on while Harry Sobels is relieving for the Skeena and Naas Rivers with headquarters at this before Shef is able to resume his port. Like the Bobolink, the new boat will be a sternwheel- duties. er but will be larger and more up-to-date than the present craft. The engines, but not the boilers, of the Bobolink will be installed in the new boat, construction of which will probably start some time next*-

spring at the shipyard successful in securing the contract. The probability is that the Bobolink will carry on the work for all or the most of next season and, with that end in view, certain repairs are now being carried out on the old vessel at Digby Island, where she is tied up for the winter. The Bobolink has been the snagboat in this district for many years and has given noble to the Prince Rupert Yacht & Rowservice. The vessel was formerly named the Cygnet. On completion of the new boat, it is understood the Bobolink hull will be offered for

be called upon to carry out. Roomy floats. inside quarters, including a spacious engine room, are features of the boat, the cost of which it is understood was in the neighborhood of reports the sale to Karl Ehn of a 15 \$15,000. The Naskeena is moored at h.p. Vivian gasoline engine for inthe floats of the Pacific Salvage Co. stallation in a new trolling boat he which will probably be her perma- is having built by K. Tsumura, nent quarters. The vessel was Prince Rupert Japanese boatbrought up the coast by Capt. D. builder. Barry, who sailed Thursday night by the Prince Rupert on his return to Vancouver after having turned week on redecking of the east end the boat over to Indian Agent W. E. of the C.N.R. wharves near head-Collison that day.

The well known Tacoma halibut boat Eureka, Capt. Matt Nelson, which makes this port her headquarters, arrived during the last few days from Seattle, where she had been for a few weeks undergoing annual overhaul, as a result of which she looks distinctly fit and fine. She is now tied up at the floats of F. E. Hunt, Ltd., and will remain here until the opening of the next fishing season.

To Build New Boat

Olof Anderson, a member of the crew of the R. W. during the past the Pacific Machine Works. The season and who had command of vessel is moored at the Pacific Salthe Kaien a couple of years ago in a vage Co. floats. with the McLean Yard at Seal Oove with a view to letting the contract local halibut boats Rose Spit and for the construction during the Oslo, leaves today for trip which will coming winter of a new 44-foot hal- start at Lakelse Lake and is planbut boat, thus making his debut as ned to end at Vancouver. He will led. vessel owner. He plans on instal- be away holidaying for the next ing a 29 h.p. Rap motor in the new several weeks. vessel. Anderson, a couple of months ago, won a city lot which was raffled by the Prince Rupert Exhibition and the proceeds from same have aided him with his boatbuilding venture.

an expansion of the premises of I A number of other Prince Rupert E. Hunt, Ltd., local ship chandlery halibut men are understood to be and marine supply concern. ORDERS TROLLING BOAT

J. F. Eyolfsen, local troller, has given the contract to the dry dock here to build for him a 40-foot Capt. Axel Olsen, owner of the trolling boat of ordinary type. Construction is starting at once. Vivian gas engine will be instal-

Delayed by fog down the coast, C.N.R. steamer Prince Charles Ever increasing business, which Capt. Neil McLean, is reported due the popular Mil Nickerson seems to at 6 o'clock this evening from Vanhave the happy knack of attracting couver and Ocean Falls. Today's to him and which faculty he has train for the east is awaiting the ably disseminated to other memarrival of the boat. Under revised bers of his staff, has made necessary schedule which eliminates the vessel's call at Anyox north from here, the Prince Charles will sail at 8 p.m. for Stewart only, returning here tomorrow evening south-

It is sometimes wise to buy Term Insurance

For a young married man with a good job and bright prospects, but with a limited income, the cheapest insurance to buy is Term Insurance.

It will provide his family, for a period of years, with the greatest amount of real protection at the lowest cost. Then, as his financial position improves, he can convert the policy into a limited pay life, straight life, endowment or some other form of permanent insurance.

By so doing he doesn't lose what he has paid in, but enjoys the full benefits of the utmost protection at the time when his family needs it most and when his salary is limited.

We shall be pleased to issue Convertible Term Insurance to those needing it. If you are interested, write for our pamphlet entitled "The Danger of Delay". Address:

five-line plant and was probably Confederation the most modern and up-to-date was built only three or four years
