Terrible Blizzard Sweeps Central Western Region of United States Bringing Death and Destruction

CHICAGO, Dec. 20 .- A cold blast swept over the midwest yesterday, causing untold suffering and many deaths FRINCE RECEIVED and, in addition, huge property losses. In this city alone 26 deaths were reported as a result of the fierce blizzard and intense cold. In the country covered by the terrible storm 100 deaths had been reported up to late last evening and & ceived Chairman Zokolnikov, & many of the victims of the cold were not expected to survive.

The property loss is variously estimated at from one his credentials. and a half to two million dollars, but it probably will exceed that amount.

As a result of the blizzard schools are closed, deliveries by merchants stopped, street cars are unable to operate, MUNICIPAL trains are held back, and throughout the country autos have been stalled by hundreds in the drifts of snow and the occupants are quartered at the various farm houses along the highways.

Supplies Taken In By Aiyansh Men to Last Power Corporation Party Three Months

In a message received over the Government Telegraphs Aiyansh on the Naas River, it is learned that James Smythe and Michael Bright have returned to Aiyansh with their pack train of six horses after having packed into the Meziaden Lake district winter supplies for the party of E. S. Holloway, Power Corporation Canada exploration engineer. The pack train started from Stewart some time ago and, after delivering the supplies, crossed overland to Aiyansh, the distance of the trip being close to 200 miles.

Mr. Holloway, who has been spending the entire summer with his party in that isolated part of It the north country, is making a general survey of water conditions on the Naas slope with a view to future power development in the Stewart area. Supplies have been delivered sufficient to last party for three months should they be snowed in this winter.

SMITHERS

Assistance Proffered by Interior Board of Trade Acknowledged

The following letter has been sent by Ald. Theo Collart, chairman of the Prince Rupert-Peace River Out-let Committee, to H. M. Mathews, secretary, Smithers District Board of Trade: I was pleased to receive your letter of December 12 and was surprised, at the same time, to learn that you had written me as soon as you got the circular letter concerning the Peace River outlet. I must say that your letter never reached me and cannot understand how it could have gone astray, so have enquired at the post office here, but they tell me it must be at Smithers post office that probably a mistake pletely gone." was made.

I want to thank you, on behalf of the association, for the interest you are taking in this movement to secure for the Peace River farmers the right to get their products to the market by the most economical and shortest route to the coast, and, since such a route must come to Prince Rupert to reach a port already provided with shipping facilities, it will have the effect of giving an impetus to the development of the country through which it will northern and central part of British Columbia. It will not matter which way the route goes if it comes straight west, because the development of this port depends on the development of the country along the C.N.R., and vice versa. Our only aim is to show the powers that be that the Peace River people, as well as the people along the C.N.R., have a right to have a place in the sun as well as the other parts of the province and the only way to do that is to keep up the agitation until a decision is made.

The maritime provinces have succeeded in their fight for their right I.O.O.F. to share in the prosperity of the rest Grotto of Canada, although it took time St. Andrews and money to succeed. The prov- Drydock inces of Manitoba and Saskatche- Moose wan have also, through their con- Leif Erikson stant agitation and representation Seal Cove to the government, been successful Can. Legion in getting the Hudson Bay Railway Six Musketeers built, and there is no reason on Elevator earth why the Pace River country as well as the central and northern part of British Columbia should not

secure what is their right as well. To carry on that fight we need noney, and the idea of this association is to secure funds to provide mainly for advertising in the pasider that the east is the main factor in the matter. It is all very well to say that the engineers will have the last say in the matter, but from past experience we all know that such is not often the case and that 'pull and politics' have a lot to do with it. Such articles as the one in the Interior News the other day. putting the question in the most vivid and impressive manner in regard to the P.G.E., if sent to some pers would go a long way to open the eyes of those who will have the weight in the balance when it comes to a decision as to the proper out-

How Can Help

The best way, then, I imagine, that you could be of real help and assistance for the carrying on of this fight would be to interest the people in your district in buying 'booster buttons" which we are issuing as a membership fee in the association at \$1 each, in order to help the financial part of it. At our MIXED NUTSend here we have already sold number of them and secured also from the present city counneil an appropriation of \$300 to help along. We hope to do much better, of course, with the incoming council and get them to provide a larger sum in the estimates. As you must have seen in the papers in the south each municipality is asked to proand the committee has been provided, free of charge, with furnished offices for all time necessary as decided by the committee.

The next thing would be, as you have already done, to get from time to time articles in your daily paper, or write articles for eastern papers dealing with the subject. You will see on the envelope enclosed that we have a slogan printed that will go all over the country through private correspondence and suggest that your business men might do the same. We are also taking a full page in the Evening Empire special Christmas edition giving all particulars about the question of the CRANBERRIES-Peace River outlet. Any other means of putting the matter forward in the most illuminating manner that you might suggest would be welcomed, because we cannot ne-

glect the least thing that we believe RED might be a factor in our favor. If you wish me to mail you some buttons I shall be only too glad to do so, and would like to hear from you again at your earliest convenience. I must say in passing that the Fairview Board of Trade, in the Peace River, have pledged themselves to sell a hundred buttons, and that enquiries are coming from all over the country as far as the Queen Charlotte Islands, and that even from friends in California and Seattle in particular we have been HOLLYasked for buttons. It is a gratifying proof that not only the whole of the northern part of British Columbia is deeply interested, but that even old residents of this part of the province are in with us, and I feel it is a very good omen, for the ulti-mate result of this fight which can but only end in a great victory.

Inspector James M. Tupper R. C. M. P. returned to the city on yesterday afternoon's train from Advertise in "The Daily News" sesterday afternoon's train from a brief trip to the interior on official duties.

Little Bouquet For Daily News From Subscriber

Yesterday The Daily News had a renewal subscription from Doughty and a dollar was enclosed for a booster button for the Peace River

Outlet Association. The writer says that he has numerous other papers and magazines and did not think he needed The Daily News. Now that he has had it a year he finds he needs it and plans to continue it as long as finances permit. He says: "One point is very noticeable about The News. It's a sure booster for the district it represents without showing the little mean, selfish spirit so common among pioneer papers. As I view this policy, it is broad and clean and fair to all."

Hazing At King Edward School

"Freshies" Suffering Conventional Indignities This Aftternoon; Collegiates Dance Tonight

"Freshies" at the King Edward High School are being subjected this afternoon to the rigors of fullfledged collegiate initiation ceremonies. To the great delight of sophomores and seniors, they are submitting to ducking, paddling, greasing and kindred indignities. Then they are being required to take the pledge of fealty to King Edward High School.

The proceedings will come to all dignified conclusion with the holding of the High School Christmas dance in the auditorium of Booth Memorial School this evening
