Canada and United States Agree to Arbitration of Case Involving the Sinking of Schooner "I'm Alone"

Wide Divergence of Opinion Between the Two Countries Over Interpretation of the Anti-Smuggling Treaty With Britain

OTTAWA, April 26.—Canada and the United States have agreed to arbitrate the dispute over the sinking of the Canadian schooner I'm Alone by the American coastguard.

This decision was revealed last night when Premier King tabled in the House of Commons correspondence between the two governments relating to the case.

The case is to be submitted to two arbiters, one selected by each government, under the terms of the liquor smuggling treaty between the United States and Great Britain. They will decide whether Canada is entitled to redress.

The Canadian case was predicated on several points: That the I'm Alone was at all times beyond an hour's sailing distance from the United States shore provided in the treaty.

That the essential elements of the international doctrine of hot pursuit were lacking in the case.

That the sinking constituted too severe measures to give effect to the American rights under the treaty.

In replying, United States Secretary Stimson based the American case on three points:

That the I'm Alone was 10.8 miles from shore when first hailed by the coastguard Wolcott and thus within an hour's sailing distance from shore.

That continuous and hot pursuit did take place and that the sinking was justified, being the inevitable with the coastguard having acted throughout in full accord with the law.

Stimson's latest note concluded by saying that if Canada still found itself unable to concur with the findings set forth by him, the United States agreed to submit the matter to arbitration as provided in the treaty.

The correspondence showed a wide divergence of opinion between the United States and the Canadian governments on the question of pursuit outside of an hour's morning. This afternoon they are dian Fish & Cold Storage Co. sailing distance from the shore when pursuit had begun meeting the executive of the 12.1c and 6c. within that limit.

The Canadian government contended that pursuit should be confined to the boundary of the one-hour limit unless begun within the three-mile territorial waters limit recognized by international law.

Stimson argued that when hailed within the hour limit,

pursuit might be continued outside the area.

Canada replied that she was not able to recognize the force of the view that such an extension is to be implied, Board of Railway Commissioners because otherwise advantages granted by the convention who took the place of Hon. KNOW many ways to make coffee -but I know of only one way to make good coffee. It's so simple -- try it!

First an earthen-wate pot (never metal or enamel). Heat it with boiling water -empty and place in it one dessert spoonful of Malkin's Best coffee for each person. Pour on boiling water, one capful per person. Drop in a dash of table salt and stir thoroughly. Allow it to stand as hot as possible without boiling for about 8 minutes. (Never boil coffee.) A dash of cold water will settle the grounds. It is then ready to serve.

I formally tested Malkin's Best coffee with this method of making. The result was a true coffee flavor, delicious in the extreme. Words fail to describe the aroma and pleasant freshness of Malkin's Best.

Roads First Interest of People Northern and Central B. C. Urges Contributor to News Contest

For the immediate advancement of the interests of Northern and Central British Columbia, the very first requisite is easy means of communication between the various communities, so as to link them into one entity. From the beginning of history right down to the railway epoch now closing, the routes of travel and trade have controlled the growth of cities. King Solomon knew it, for the height of Israel's glory was when that wise monarch controlled the ancient trade routes, making access into his mountainous kingdom easy. Duty to Community

Now, as I see it, the great duty to the community lies with the trading or business men of the city. The employment, or rather the provision of employment for he rising generation lies with them. Which is a duty often overlooked by local merchants everywhere. Are they creating that expansion of their business to take care of the growing young folks city, and of the whole community after they leave school? Trade Denied City

Now to recapitulate what I've said already:

Prince Rupert is broke because of the lack of trade with the districts contiguous. Many of the merchants pass their discount dates-and on this I speak with knowledge.

This trade is denied Prince Rupert merchants because of the lack of a road, even as far as Haysport, some twenty miles, which alone would double the number of wage-earners who might trade in the city. Were Alice Arm, Anyox and Stewart connected by road with Prince Rupert, this trade might be quad-

JIOUSE MOURIAIN GREATER COMMUNITY SPIRIT CAMPAIGN

A Fortune In Prizes \$1 Makes You Eligible

REAT cities are built ... gigantic projects are created, where ambition in the hearts of men and women will them to be. It is the spirit of the people that counts. It has been said that we in Canada, lack that spirit. We challenge that statement with this Grouse Mountain Greater Community Spirit Campaign. The Plan is simple.

The Company has made provision for a \$25,000.00 Grand Prize and substantial Weekly Cash Prizes which will be given to those individuals who help to make this Greater Community Spirit Campaign a success. For the duration of the Campaign there will be 39 Cash Prizes each week . . . One, \$200 Cash Prize; One, \$100 Cash Prize; Twenty-eight, \$25 Cash Prizes. Every purchaser of a \$1.00 Grouse Mountain Highway Community Spirit Ticket is eligible to receive one of these Weekly Cash Prizes. A person purchasing more than one ticket is eligible to receive a Cash Prize for each ticket purchased. The names and addresses of the Prize Winners will be published each week. At the end of the Campaign, the persons who have won a Weekly Prize will be eligible to receive the \$25,000 Grand Prize. And, it is to one of these Weekly Prize Winners that this fortune of \$25,000 in cash will be awarded. Read the Rules for full particulars.

These \$1.00 Greater Community Spirit Tickets entitle the purchaser to motor over the Grouse Mountain Highway once, now or at any future time, for each ticket purchased. The price of these Highway Tickets was formerly \$1.50. Our purpose in reducing the price is to offer thousands the opportunity to view this scenic wonderland and better understand its potentialities.

Grouse Mountain is potentially the outstanding scenic playground in Canada. World travellers and executives of transportation companies whose business it is to promote tourist travel, have stated that Grouse Mountain can be made the most attractive scenic resort on the continent.

Sir Frederick Williams-Taylor states that the tourist industry ranks second to wheat only in Canada in the

promotion of our prosperity. We, in Western Canada, must develop Grouse Mountain for our material wellbeing. Then, too, we want Grouse Mountain developed for our own pleasure, and the health-giving fun it will afford our children.

Approximately \$750,000 has been invested in the development to date. A broad highway has been built to the summit . . . trails have been surveyed leading to nature's hidden scenic treasures . . . a unique chalet has been constructed and equipped.

Much remains to be done. \$500,000 is required to complete development. A modern resort hotel must be built ... facilities for hikers and picnic parties must be created . . . the highway must be hard-surfacedbridle paths and foot paths must be completed . . . a great scenic aerial tramway must be erected . . . the plateau must be converted into a magnificent garden with mountain flowers and shrubs in summer-time . . . and for winter sports there must be bob-sled runs, toboggan slides, and ski-jumps.

These, and other developments remain to be completed. Then, will Western Canada have a mountain playground which every citizen will enjoy . . . and which thousands of tourists will come to see . . pouring their money into the trade channels of Western Canada.

In purchasing one or more of these Greater Community Spirity Tickets, you are helping to solve this problem. Every dollar received in this Campaign is paid into a fund for the development of Grouse Mountain. In return you get a Grouse Mountain Highway Ticket which represents full value for your money. In addition, it makes you eligible to win Cash Prizes which represent a fortune. Fill in the attached coupon NOW . . . Mail it today!
