### MUSICAL HANDICAP

One of Prince Rupert's greatest handicaps as a result of its geopraphical isolation is the difficulty of hearing The Beament cut-off on the Clubs. She gave Terrace credit noted speakers, musicians and instrumentalists. This is main highway, eliminating a num- for being the most active rural all he more reason why when one comes he should be given a hearty welcome.

Just now there is an expert here from Toronto to examine upwards of one hundred and fifty pupils of the various music teachers of Prince Rupert. The expense entailed in this long journey is considerable. Indeed, the Conservatory has considered that the expense is probably too high and the possibility arises of not having an examiner another year. Yet when this question came up recently one of the previous examiners was so enthusiastic regarding the quality of the teaching here and the progress of the pupils that he offered to pay part at least of the expenses in order that the children might not be deprived of the inestimable value of preparation for the Toronto Conservatory examinations. Surely if an outsider appreciates the work to such an extent the people of Prince Rupert can do no less.

Already we have pretensions to be considered a musical centre. The existence of the Boys' Band, the more recent concert by the Prince Rupert Singers and the prospects of a musical festival next year all show that there are many actively interested in the advancement of the branch of art that is of so much value in the culture of a

people. If Prince Rupert is really interested in the best music and the desire for the best musical training of our young musicians then they should take advantage of any opportunity that offers to hear the best and to encourage those who come.

# A Great Car tor Women to Drive

THE FORD car is a great car for women to drive not only because it is so smart and good looking, but also because of its comfort, ease of control, and reliability. Especially its reliability.

You know the Ford will take you there and bring you back. You know you can depend on it. You know it has been built to give you thousands of miles of faithful, uninterrupted service. This freedom from trouble-this mental comfort-means a great deal to every woman who drives a car.

Another feature of the Ford that appeals to women is the safety afforded by the fully enclosed efficient six-brake system, steel body, and shatterproof glass windshield.

You can see the value of this when you consider that 65 per cent of automobile injuries are caused by flying glass. The windshield of the Ford will not shatter under the hardest impact. A demonstration drive is convincing.

### High Class Baseball Game Played Here Last Night Gyros Defeat Native Sons

Games like that last night in which Gyro Club beat Native Sons of Canada 5 to 4 will do much toward putting baseball on the map in Prince Rupert. It took three extra innings to decide the issue and, during much of the game, real big league baseball was played. Both pitchers worked well and were accorded fine support. Nick Chenoski, for League leadership by walloping the Gyros, fanned twelve Canuck batters and allowed nine the Brooklyn Robins yesterday. hits, while Bob Matheson, native hurler for the Sons, also turned in a good performance, fanning nine Gyro batters three pitchers for twelve hits to
