# T. D. PATTULLO IS CHOSEN AS LEADER

## CHICAGO BEING CLEANED UP AND THOUSANDS ARRESTED

T. D. PATTULLO, M.L.A.

Former Minister of Lands, who was today chosen leader of the Liberal Opposition in the Legislature.

### T. D. Pattullo is Chosen Opposition Leader by the Liberal Executive

Was Considered Strongest Man on Opposition Benches and Has Good Record in Party Since 1916

VANCOUVER, Jan. 21.—T. D. Pattullo, member for Prince Rupert and minister of lands in the MacLean government, was today chosen leader of the Liberals in the legislature. The choice was made by the executive of the British Columbia Liberal Association, in session here.

The choice, it is considered, was the only practical one, as the former minister was by far the most outstanding figure among opposition members. He was a minister all the time the Liberals were in power following the defeat of the Bowser Government in 1916, until the defeat of the Liberal party last year.

Mr. Pattullo's appointment was made on motion of Hon. Ian Mackenzie, seconded by Hon. A. M. Monson. Executive appointed a committee of six to meet the committee from members-elect who had conferred Saturday. These committees returned and reported Mr. Pattullo was their unanimous choice.

About 80 attended the executive meeting. A vote of confidence was expressed in Premier Mackenzie.

### IMPORTANCE OF PAPAL STATE

ROME, Jan. 21.—The forthcoming settlement of the Roman question may mark a new era in the history of the Roman Catholic Church, in that the pope will have undoubted right to propose the candidacy of the papal state for admission to the League of Nations. Tentative moves in the past have been blocked by the lack of a defined boundary.

King and Hon. Dr. J. H. King. Mr. Pattullo celebrated his fifty-sixth birthday on Saturday so he has many years of useful service to give to the province.

New Leader's Career  
Mr. Pattullo was born at Woodstock, Ont., on January 19, 1873. He is the son of George Robson Pattullo who was a prominent political man during Sir Oliver Mowat's day. He was educated at the Woodstock High School and became editor of the Galt Reformer. He came west in 1897 to the Klondike where he became secretary of the Yukon Commission. He later became assistant gold commissioner for three years and was a member of the Dawson city council. He came to Prince Rupert in 1909 and was a member of the first city council here and later mayor.

Mr. Pattullo was first elected to the British Columbia legislature in the general election of 1916 and was appointed minister of lands in the Brewster administration. He has been re-elected here at every contest since that time. By religious belief, he is a Presbyterian.

### SUBDIVISION ON NEW ROAD

One Hundred and Twenty Acres Has Been Laid Off Near Galloway Rapids

Frank D. Rice, B.C.L.S., has just completed the surveying off for the provincial government of some 120 acres of land at the end of the Raven Island highway, near Galloway Rapids, for subdivision into lots of about three-quarters of an acre each, or 100 by 300 feet. The lots, it is understood, will be put on the market shortly.

The land is practically all on the shore and would be pre-eminently suitable for the establishment of summer homes. Some of the soil is also of good quality and might have horticultural and gardening possibilities.

### HISTORIC BUILDING DAWSON DESTROYED

DAWSON, Y.T., Jan. 21.—Fire destroyed the historic Eagle Hall here Saturday morning with the loss of \$10,000 which was partly covered by insurance.

### TEN-POUNDER COMES WEST

Was Placed On Farm in Saskatchewan by C.N.R. Department

WINNIPEG, Jan. 21.—The first ten pounder has arrived in Canada and has already found his niche. Within 24 hours after he reached Winnipeg, Thomas Turnbull Fletcher, of Morpeth, Northumberland had been placed on a farm in Saskatchewan by the Canadian National Railway's colonization department. He is the Canadian National Railway's col-fir-st to arrive on the new scheme under which single British subjects of good physical condition may come to Canada by paying only ten pounds for their passage. Fletcher, who is 27 years of age is fully experienced in farming and in addition has taken the Canadian National Railway's correspondence school course in agriculture. He is possessed of a little capital and intends to purchase land of his own when he knows the country better. He is now working on a farm at Togo, Sask.

### BOOTH CASE IS ADJOURNED

Temporary Injunction Against Salvation Army High Council Continues

LONDON, Jan. 21.—The injunction on the proceedings brought by General Booth were adjourned until Friday, when they came up in chancery court this morning. The temporary injunction which restrained the high council of the Salvation Army from electing a successor to General Booth will continue in effect until the next hearing.

### Chicago Jails Filled With Crooks and Gangsters Following Raid in Which Three Thousand Taken

CHICAGO, Jan. 21.—The jails of Chicago are filled as a result of raids throughout the city that began Saturday night and are still continuing. Up to this morning 3000 persons had been arrested and the end is not yet.

The raids follow the change of administration in which Mayor Thompson, the notorious anti-British fanatic, left office after being snowed under by those who stood for law and order and decency.

The raids were made against every known habitat of gangster, gunman and robber. Where the doors were locked they were smashed in. The theatre districts were swarmed with plain clothes men seeking dress suit crooks.

The drive was Chief William Russell's answer to a week of crime which was marked by 102 robberies in which four persons were shot and killed and several others seriously wounded.

### FLOODS TOOK TOLL OF LIVES IN ONTARIO

TORONTO, Jan. 21.—Floods which took toll of three lives and caused enormous property damage to various sections in Ontario on Friday and Saturday are receding today, following colder weather and drying winds.

Fatalities caused by railway washouts in addition, to Fireman Ricker who was killed near Stoney Creek in Friday night's railway accident, were Roy Post of Trenton who was killed when the engine of a C.N.R. freight overturned owing to the washout of a bridge near Bayside. John Pelky, brakeman on the train, died Sunday morning from burns.

### ST. MICHAEL'S ACADEMY IS GUTTED BY FIRE

BELLEVILLE, Ont., Jan. 21.—Fire completely gutted St. Michael's Academy here yesterday. Only three walls remain of a once beautiful edifice. The loss is estimated at \$125,000. Seven hundred students are without quarters.

### RESCUED FROM TOURING SHIP

President Went Aground in Bahamas and Passengers Taken Off

NEW YORK, Jan. 21.—Eighty-one passengers of the world cruise ship President Carfield together with baggage and mail cargo were transferred to the steamer Pan American after rescue from their own ship which ran aground early yesterday morning on the Mantanilla Reef on the north end of the Bahama Island group. Transfer was made last night after which the rescue ship proceeded to Nassau for which port she was bound. The officers and the crew of the Carfield remained aboard.

Among the passengers were Mr. and Mrs. H. M. Drost of Vancouver, B. C.

### WOMAN KILLED; STRUCK BY CAR IN VANCOUVER

VANCOUVER, Jan. 21.—When she was struck by an automobile allegedly driven by Oswald Ryley, Mrs. John B. Duncan was instantly killed at Twelfth and Columbia Streets on Sunday night.

The deceased stepped from the curb directly in front of the car, witnesses stated. She was 45 years of age. Ryley is charged with manslaughter.

## WHO WILL WIN NEXT BIG BOUT

### Much Guessing as to Outcome of Fight Between Sharkey and Stribling

NEW YORK, Jan. 21.—It's going to be Sharkey against Stribling at Miami Beach, February 26. This is virtually certain. The question then is: Who will the winner be?

The guessing is more widespread than it ordinarily would be because fistians still has an ear cocked for an announcement that Dempsey, now jack of all trades except boxing, will oppose the victor of the Florida fuss.

But Jack has picked up an interest in horse racing. Perhaps the turf game will replenish the Dempsey pocketbook and circumvent a comeback drive.

Dempsey or no, it now appears that the winner of the Stribling-Sharkey bout will get a choice class of vast financial dimensions during the 1929 outdoor season.

Matching Stribling, Tex Rickard's own choice for a high contending position, and Sharkey, admittedly one of the best of the big boys, may mean that the remaining challengers have been passed up as unwanted elimination series material.

## DOG DERBY TO BE REVIVED

### Famous Mushers Will Race This Year From The Pas to The Flin Flon

THE PAS, Man., Jan. 21.—After a lapse of four years, the endurance dog derby which once thrilled the north country, and it might even be said, the world, is returning to The Pas. The gruelling non-stop race which brought fame to Northern Manitoba and its hardy mushers will be revived at the frontier town's winter carnival, March 4 to 7. This time, romance will be added to the course. The course will be from The Pas to the famous Flin Flon mine and back, a distance of 200 miles.

Two thousand dollars in cash prizes, besides other valuable awards, and the Walter Goyne-Grant Rice memorial cup, which has an intrinsic value of \$1,000, will attract mushers from wherever mushers mush. The winner will have the dog racing championship of the world.

"Shorty" Russick, veteran driver, and the youthful, though none the less noted Emil St. Godard, present world's champion, each have a leg on the memorial cup. St. Godard will be one of the leading contestants this year and it is likely that Russick will also enter. Other noted mushers are bound to make a strong bid for more fame at the derby since it has gone back to epic proportions. Seppala, Alaska's pride, has been itching for another endurance race, his friends say, and other mushers, from both the east and the west, have already sent in their applications for entrance forms.

Drivers are already training their teams for the test in March. St. Godard's dogs are in fine shape after a summer and a fall of workouts. The team of the French-Canadian musher had been trained for the speedier, 120-mile lap races of the last three years, but Emil claims that the dogs have the endurance for the longer route. They have been harnessed to an auto chassis in the warm months and are in good condition for the snow trail.

## CLOSE RUN BETWEEN BOSTON AND GRIMSBY AS FISHING LEADERS

HALIFAX, N.S., Jan. 21.—The question as to whether Grimsby, England, or Boston, Mass., takes precedence as the premier fishing port in the world has been newly aroused by the announcement that catches landed at the Massachusetts pier last year constitute a new high record. The secretary of the Boston fish bureau has issued an announcement placing the number of pounds of fish landed there during 1928 at 222,513,195, an increase over 1927 of more than 24,000,000 pounds. Returns from Grimsby are not yet in.

The increase in poundage landed is attributed to the fact that more steamers have been operating, and the large number of draggers or "baby" trawlers, now in service, making quick trips to and from the grounds.

## TUNNEL FROM ENGLAND TO CONTINENT

LONDON, Jan. 21.—An informal poll of the house of commons by William Ball was said to show that an overwhelming majority of members favored the English Channel tunnel. When parliament reassembles on Tuesday Ernest Thurtle, Laborite, will ask the premier when the question can be discussed in parliament.

## Sport Chat

Prince George hockey players defeated visitors from Hansard in a recent game by a score of 5 to 3. The Hansard men were out of practice and could not withstand the pace set by Prince George. Efforts are now being made to have hockey teams from Jasper, Vanderhoof and Quesnel visit Prince George and, when the Jasper team comes, the Hansard aggregation will play it in Prince George.

William F. Carey, new power behind the Madison Square Garden throne, has left New York for Miami Beach to handle, with Jack Dempsey, the promotion of the Sharkey-Stribling bout there February 27. Lionel Levy, Garden architect, has also left for the south to plan arrangements for the seating of 40,000 in the Koppel club arena where the bout will be staged.

## FAST HOCKEY IN NATIONAL

TORONTO, Jan. 21.—The six games in the National Hockey League over the week-end failed to change the relative positions of the ten teams competing, but they furnished a half dozen worthy exhibitions of the fastest hockey games on earth.

Pittsburgh were the surprise of the week-end by defeating Detroit and ending a losing streak by downing Toronto on Sunday.

## ENGLISH CUP GAMES PLAYED

LONDON, Jan. 21.—Millwall defeated Northampton 2 to 0 in a third round English cup play today. In another replay Middlesbrough defeated Walsall 5 to 1. In Saturday's games Birmingham defeated Everton 2 to 0.

## KILLED DURING BOXING BOUT

OTTAWA, Jan. 21.—William Paul of Hamilton died on Sunday from injuries received in an amateur boxing bout with Chuck Vans of Queen's University. Paul was knocked down and hit his head. An inquest is to be held.

## SKI RACING IN BLIZZARD

### Annual Event at Jasper Proved Hard Going and Slow Time Made

JASPER, Jan. 21.—The fourth annual ski race held in Jasper was run off yesterday afternoon with four entries, consisting of three local runners and one visitor, Paul Gottas of Camrose, and Frank Burstrom, Joe Weiss and D. Hartley of Jasper. Gottas was the winner of the cross-country race last year, when he carried away the Mrs. W. S. Jeffery cup, and returned to defend it this year for his club.

The race started at the rangers' cabin at Maligne canyon and continued through to the upper end of Medicine lake and return to the canyon, a distance of 30 miles. Heading into a raging blizzard and head wind, the skiers struck out into the Maligne Valley, encountering deep snow and heavy drifts, which slowed up their time considerably over that of last year. The track had been broken the night before, but due to the storm the contestants asked that trail again be broken for them, which necessitated the withdrawal from the race of Doug Jeffery, who was to break trail for the others.

Gottas took the lead from the start and held it throughout to the opposite end of the trip, where he arrived three minutes before Burstrom, who lead in the remaining part of the group, the return was a different story, the trail which they had opened up going up the valley had now become filled and drifted in and made the going very heavy and for several miles it was a toss-up between Gattas and Burstrom as to who was going to hold the lead, each making his own trail. However, on the downward slope, Gattas seemed to get the slide and gradually increased his lead, beating Burstrom to the finish line by six minutes and seven seconds, with Weiss coming in third. Hartley gave up the ghost, arriving at the finish over one hour behind Weiss. The time for each for the round trip was: Gattas, five hours seven minutes 20 seconds; Burstrom, five hours 13 minutes and 37 seconds; Weiss, six hours one minute and 37 seconds; Hartley, seven hours 15 minutes.

## COMMITTED FOR TRIAL

Elwood Bard, on a charge of breaking and entering the Sunrise Grocery store on Fulton Street last week, was committed for trial by Magistrate McClymont in city police court this morning. Walter Bard, similarly charged, was remanded for eight days.

## HE NEVER COULD DIGEST HIS FOOD

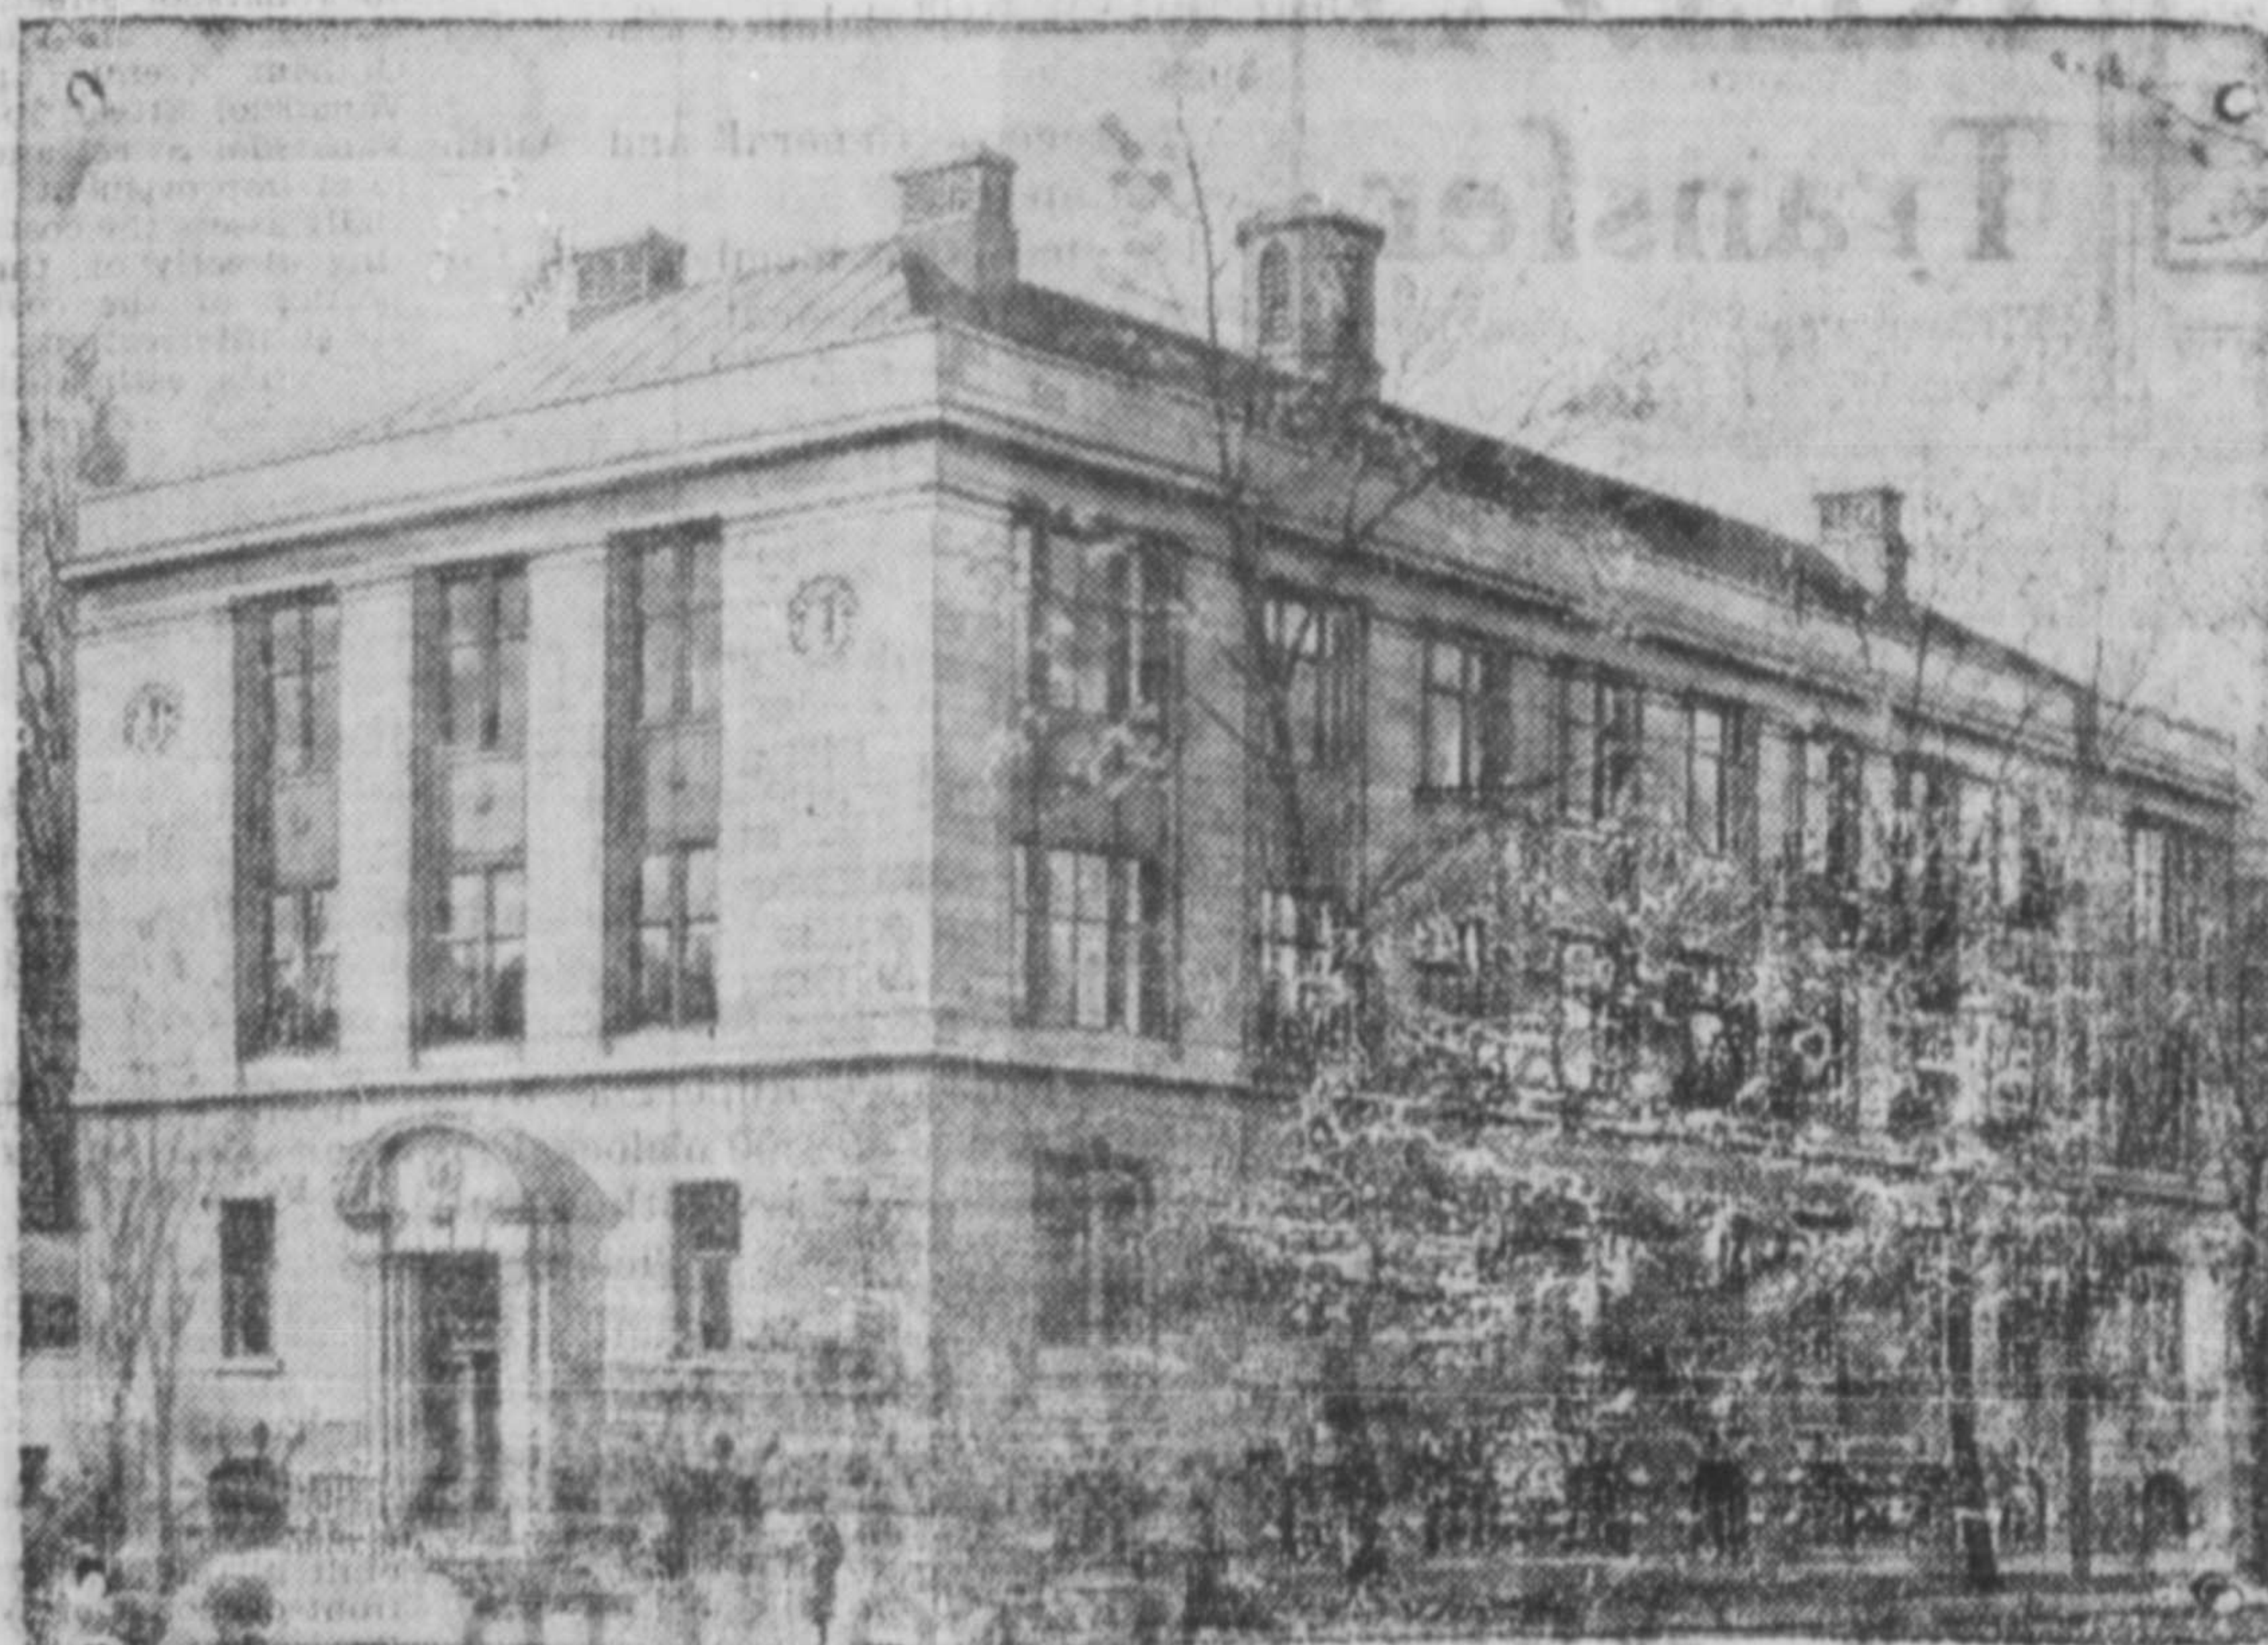

"FRUIT-A-TIVES" Brought Perfect Health. What miserable years Mr. Leo Gold spent when his stomach was all upset and he was destitute with bilious attacks. As he writes from Montreal, "It seemed to me that I was always bilious and never digested my food. Finally, an old friend told me to try 'Fruit-a-tives.' Since taking them, I have been so well that I want to congratulate you on this wonderful medicine." This is the way it goes. People suffer for years with Indigestion, Bilious Attacks, Pain in the Back, Bladder Trouble, Rheumatism, Headaches and never realize that the CAUSE of these troubles is weakness or poor action of the bowels, kidneys and skin. "Fruit-a-tives" restores these three great purifying agents of the body to normal healthy action, sweetens the stomach, makes digestion sound, enables you to eat and sleep and enjoy life. 25c. and 50c. a box—at dealers everywhere.

## NEW INSTITUTE IN THE INTERESTS OF PAPER

Above is an exterior view of the Pulp and Paper Research Institute of Canada, established at a cost of \$500,000 at McGill University, Montreal, by the Canadian Pulp and Paper Association. This new Institute is to be opened on January 25 by His Excellency, Viscount Willingdon. The equipment includes a complete experimental paper mill to produce actual paper from raw pulpwood, including all the different processes together with the necessary laboratory machinery and appliances for carrying on industrial and scientific research for the paper industry. It is the first institution of its kind in which a government, university and an industry have pooled their interests for the purpose of furthering scientific investigation, and is the only instance in Canada of such an institution being established by trade association.

### WHY AN ATTACK?

A few days ago the B. C. Packers proposed to open an office in Prince Rupert. On Saturday, two days after the announcement was made, we were asked to publish a lengthy letter attacking them and sneering at the proposal as having any benefit to the city. The letter was refused.

No one thinks the B. C. Packers want to come here for their health. They are here because they think they will benefit from doing so. That is why we all are here. We are here because this is the best place we know in which to carry on the kind of business in which we are engaged. If it were not so we should be elsewhere. The fishermen are here because this is the best place for them to fish. We are glad to have them fish here.

If the B. C. Packers are making any move that will tend to make Prince Rupert a better or more prosperous city, we are with them. We want any and all big interests to come here as long as they do not oppress anybody and as long as their presence is a benefit to the community. Doubtless the big fishing company will deal mostly with the wholesalers. We all expect that. No one is misled. We are not concerned who they do business with, as long as they buy here and bring some money into town. The more they spend here the more the city will benefit.

We also welcome the representatives of the Consolidated Mining & Smelting Company, who are to open an office here. It is the people who do things who are needed here just now. Anybody can sit back and criticize the operations of the big companies, but it takes brains to organize and carry on big work.

### FOOLISH SOCIALISTS

Those who hold socialistic beliefs and who prate about the wealth of the world being all the product of labor are able to enjoy modern luxuries because others are working hard while they theorize. They forget that if socialism is ever to amount to anything it must come by means of big organizations. The big race has to learn to rise above the petty and learn to handle big things in a big way before the utopia of which they dream can come to pass. Where years ago nations were composed of a few thousand people, today the inhabitants are reckoned in millions and we are talking of world alliances and federations. Great men are seeing great developments as the result of the great work that is being done. Carping criticism by little men gets a country nowhere. What is needed today is men of wide vision who can do things or get them done. Today we want big people here and have expressed ourselves clearly by deciding to sell our power franchise to one of the biggest companies in Canada. They are not here for their health and if we display a tendency to criticize and snarl at them they will not want to come. We need them and they can use us. As long as we get what we want we are willing that they shall get what they want. That is co-operation. Carping criticism has held Prince Rupert back long enough. Let us show a spirit of mutual helpfulness which will give us a chance to become a real factor in the life of the country.

## Fashion Fancies

This Frock Features a New Material Combination

Here's a combination of materials that but a few seasons ago would have been hooted at. Jersey and velvet. Today, it's about as smart as it can be, and simply shouts Paris.

The popular tan and brown combination is utilized here. The tan, of course, carried out in the jersey, the brown, in the velvet.

This model comes in other colors. One that I particularly admired was light and deep gray.

The Crisp, Flaring Silhouette is Illustrated by This New Model

Crisp, flaring materials are most popular for evening frocks. Of these the taffetas, tulle and mousselines lead the field.

White mousseline, stiffened with horsehair to give the desired flare, is the medium for this frock, while silver paillettes sprinkled unevenly over the material lend it a delightfully imaginative quality.

The model is made with the regulation long-waisted bodice with V-neck. The skirt, however, consists of four wide circular inserts applied to the bodice in points.

## LEGISLATION FOR ONTARIO

Government Will Submit Bill to Ratify Old Age Pensions at Coming Session

TORONTO, Jan. 21.—A grist of fairly important legislation, in the form of government and public bills, will be presented to the Assembly at the coming session which opens Jan. 30.

Government bills are to include the old age pension measure; providing for additional aid to the Ontario Research Foundation, and important revision of the Hospital Act. There is a possibility of amendments to the Inn Keeper's Act, and the announced increase of gas tax requires change of the statute. Amendments to the Liquor Control Act

if any, will be of a minor nature. Premier G. H. Ferguson has intimated.

A bill creating a racing Commission for Ontario may be submitted, but it is understood that the matter is not yet definitely settled. Recommendations by Judge Godson, arising out of the Hollinger fire, may require some legislation.

A bill providing for licensing of real estate dealers, is regarded as likely to be introduced. The measure was asked for by the dealers in September, 1927, and consideration was then promised. The object is to protect the profession and the public against unscrupulous operators.

A somewhat similar measure has been urged by the Architects' Association. It is proposed to require registration, with a suitable examination provided for, though members of the profession now practising would not need to undergo any test.

Organized labor is asking for

licensing of barber shops. Institution of the three-platoon system for firemen, equivalent to eight-hour day, is also sought, as well as changes in the Workmen's Compensation Act and Mothers' Allowance Act.

A proposal for the bonding of lawyers to give protection against defalcations in respect to trust funds, also comes from labor, but so far as can be learned at this stage, the government does not regard the need urgent, on account of the matter having been taken up direct by the Law Society.

Extension of the Minimum Wage Act to apply to boys, was urged by Labor in January 1927. Recently a report was submitted to Government by the Minimum Wage Board, dealing with the matter, but neither Hon. Forbes Godfrey nor Premier Ferguson seem favorably inclined toward legislation.

# Going up!

AFTER all, there's no place like British Columbia in which to work and live and play! Here, there are no long "off seasons" to cut down a man's working time. Our temperate climate keeps a man fit... enables him to produce more... earn more.

The producers' average weekly wage in British Columbia is \$28.39... 49% higher than the rest of Canada. In 1926 seventeen industries increased weekly wages by \$12.95! Actually in ten years our annual payroll has grown from 78 million dollars to 175 million dollars... the greatest advance by far of any Province during that period. This, of course, does not include agricultural workers, professionals, clerks and others. British Columbia's gross payroll is estimated at 210 million dollars!

Life is more enjoyable... we have more time to enjoy the year-round pleasures and recreations at our doors, while our general standard of living is very much higher.

Taxation during the last four years has been reduced by two and a half million dollars... concrete proof of our province's sound financial condition.

Construction, that outward evidence of the faith we have in our province, has played a large part in the wage situation. In ten years British Columbia's construction activity has gone up ten times. In 1916 it involved only \$2,800,000... for 10 months in 1927 it amounted to \$27,277,000!

This activity has an immediate effect on current conditions. Cash funds are disbursed for materials, employment is good... wages fairly steady... money in circulation.

It increases the capital investment in our Province. And there can be no surer indication of future progress than when producing machinery increases... a sign of growing markets... a sign that British Columbia products are winning a place in the markets of the world.

Read these announcements and understand your province's progress... clip them out and send them to friends! If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!

## AROUND PRINCE RUPERT

### New Development at Duthie Mine; Aivazoff Abandons Cedarvale Coal Showings; Consolidated Bonds D. W. Mines, Ltd.

Following the recent changing of hands of the property, a new development campaign is now under way at the Duthie mine under the direction of Major C. B. North and workmen are rushing exploratory work at the mill level. Opening up of ore reserves will continue until about the end of March, when the mill will again go into production on an increased capacity for with shipments assuming important tonnage and high values. Work is still being rushed on the construction of new camp buildings, but of outstanding importance is the exploratory work now being carried on to establish still another level about 200 feet below the mill level. Six or seven machines are now engaged on the new program and several important cross-cut tunnels are being run from the mill tunnel with a view to picking up ore in other veins. The fault-plane vein and the Ashman vein are both experiencing considerable development and a cross-cut tunnel is being cut to intersect the two showings at this level. From this latter work the new shaft will be run to depth. Ideal weather has been favoring the carrying on of the work. C. A. Banks, managing-director of the re-organized Duthie Mines, Ltd., paid a visit to the property last week and inspected the progress of development and new construction work.

Misak Aivazoff of Vancouver has abandoned his coal interests near Cedarvale, where he had several men working on the outcropping on the north side of the river and close to the railway track. After making an examination of the ground he came to the decision that it was but the tail end of the Groundhog deposit and had not commercial possibilities.

The Consolidated Mining & Smelting Co. has taken a bond on the Seven Sisters property of the D. W. Mines, Ltd., near Cedarvale, and will continue development of the property upon which Ex-Governor D. W. Davis and associates have already done considerable work. The Consolidated Co., under the terms of the deal, will expend \$25,000 on development within the next year.

## THIS STARTED A \$9,000,000 SUIT

This is a spectacular scene that confronted news cameramen just after the Black Tom (N.J.) munitions blast of 1916, a rolling thunder of detonations that blew scores of millions in war material into the air and brought death to many workers. Now on behalf of the Lehigh Valley Railroad, the United States is suing the German Government for damages of \$9,000,000, it being held that the blast was the work of a trio of German spies.

## LEGAL RIGHT TO THE AIR

### Woman Colliding With Flagstaff Draws Attention to Flying Laws

SOUTHAMPTON, Jan. 21.—An accident beside Hamble aerodrome, near Southampton, when a woman flier collided with a flagstaff erected in a garden and caused, has focused public attention on the problem of the ownership of the air.

The flying became a recognized means of transport within the last 25 years—the legal ownership of the air followed, with certain modifications, the old Roman law that the ground underneath the land and the air above belonged to the owner of the land.

Obviously such law could be interpreted to prevent flying entirely. In 1920 the Air Navigation act (which with various consolidation orders still controls flying in this country) became law. One of its most important clauses provides that:

"No action for trespass shall lie in respect of trespass or in respect of nuisance, by reason only of the flight of aircraft at any height over the ground,

which, having regard to wind, weather, and all the circumstances of the case is reasonable.

This clause assures the flyer the freedom of the air. The next section of the same Act lays down the penalty for dangerous flying—where an aircraft is flown in such a manner as to be the cause of unnecessary danger to any person or property on land or water." The penalties are a fine not exceeding \$1,000 or imprisonment with or without hard labor for a term not exceeding six months. Where damage or loss is caused shall be recoverable from the owner of the aircraft. Here there will frequently be obvious difficulties of identification.

The Air Navigation (Consolidation) Order, 1923, provides that a flier shall not—

"Carry out any trick flying or exhibit on flying over any town or populous district.

"Carry out any flying which by reason of low altitude or proximity to persons or dwelling or for any other reason is the cause of unnecessary danger to any person or property on air or water."

The same order further provides that "an aircraft shall not fly over any city or town except at such altitude as will enable the aircraft to land outside the city or town should the means of propulsion fail through mechanical breakdown or other cause."

People who live near or beside an aerodrome would seem fated to grin and bear certain annoyances. The prohibition of low flying in the 1923 order is specifically stated not to apply to any area within a radius of one mile from the centre of a licensed aerodrome or of a Royal Air Force aerodrome, or of an aerodrome under the control of the air minister.

## Widows and Orphans, Limited

It is upon them that the schemer preys!  
The lure of easy money is almost irresistible and the savings of a lifetime are often gambled away, unknowingly, in unfortunate speculations.

Even the husband and father, anxious to leave his family well provided for, often becomes the victim of some get-rich-quick scheme. Almost without exception, the results are failure and disappointment.

When the head of the home is taken away, a hundred enticing baits are set for the estate he leaves behind. With the vision of winning financial independence

for her children and herself, the widow falls prey to ignorant or unscrupulous advisers.

There is one safe, sure method of protecting your loved ones after you are gone . . . the creating of an adequate estate through Life Insurance. And, by arranging for its payment in the form of a regular income for your widow, you can guard her for as long as she may live.

Let a Life Insurance representative explain to you how easily and safely you may provide for the future of your family.

**NEWS OF NORTHERN B.C.**

**TERRACE**

J. B. Agar returned on Saturday after spending the past two weeks in Vancouver where he attended the General Motors convention. Mrs. Agar and son, Charley, are remaining in the south for a visit with her parents, Mr. and Mrs. Wm. Vanderlip, at Parksville, Vancouver Island, and with Mr. and Mrs. Wm. Vanderlip jr., in Victoria.

Chas. Carpenter of Dorreen was a visitor here at the end of the week.

Donald McLeod of Vancouver, private secretary for Gen. J. W. Stewart, who has been in the north since the New Year, visiting with his sister, Mrs. James Richmond in Terrace, and with friends in Hazelton, left on Saturday for the interior enroute home.

Dr. J. R. Gosse of Prince Rupert spent the week end here.

George Alger and J. L. Bethurem of Usk were visitors to Terrace during the week.

Mrs. Diggles and children left on Sunday for Estew where they will spend the next few weeks with Mr. Diggles.

Wm. Smith returned to Prince Rupert on Thursday after spending a short time at his home on the bench north of town.

The new allotment of books in the Canadian Legion government travelling library have arrived and will be available to members next week. Semi-annual membership fees are again due.

W. Aird, Pacific, was in town on Thursday.

Grade 9 pupils were put through an interesting and somewhat strenuous initiation proceedings on Thursday during the school hours and again in the evening in the G.W.V.A. Blue room, and after performing all the stunts insisted on by their more advanced student friends, may now consider themselves full fledged members of the high school classes. While some of them may have been somewhat uncomfortable in the styles demanded and may have thought the stunts rather severe and strenuous, they will no doubt be quite eager to try the same performance out on the junior class next year. The evening's fun was concluded after refreshments were served.

**FOUND AMBERGRIS BUT FAILED TO MARKET IT SO FORTUNE WAS LOST**

SKIDEGATE, Jan. 21.—One of the boys living at Skidegate found on the shore a large piece of ambergris. He thought it was ambergris. This is a very valuable material, being used as the base for the highest grade perfumes.

The finder invited a friend over to supper to talk over the find and discuss how it should be marketed and what it might be worth. The friend brought his dog with him.

After a long conversation the two cronies went out to take another look at the find which was to make them a fortune. To their dismay they found that the dog had eaten up what was estimated to be about ten thousand dollars worth of ambergris. Another friend was called in who suggested that the dog be cut open and the ambergris rescued. This seemed but a doubtful measure and was abandoned. Now the finder is pondering over another of his lost opportunities.

**MISCELLANEOUS SHOWER FOR A TERRACE LADY**

Miss Elsie Kenney Guest of Honor at Event on Friday Evening

TERRACE, Jan. 21.—Miss Elsie Kenney, a popular bride-elect, was honored on Friday afternoon at an attractively arranged miscellaneous shower at which Mrs. Dover and Mrs. Little were hostesses.

Wedding motifs in pink and white were used in decoration and a miniature bride adorned with veil and bouquet centred a decorated tea wagon on which the gifts, wrapped in pink and white, were presented. A poetical address was read by Mrs. Dover as the well-laden wagon was wheeled to the bride.

Many of the parcels were accompanied by bits of verse which proved humorous reading.

Miss Kenney was taken by surprise, but thanked the guests for the many useful and attractive gifts and for the good wishes which accompanied them.

Dainty refreshments were served, Mrs. O. T. Sindal, mother of the guest of honor, presiding at the coffee urn and Mrs. Burnett and the young daughters of the hostess assisting in serving.

Those present included Mesdames Burnett, Barker, Sindal, Moore, Keith, Robinson, Allan, Brooks, Holmwood, Brummitt, McKinnon, H. L. Smith, Kenney, Skinner, Christy, Cole, Watt, Greig, Kirkaldy, and Misses Deacon, Kerr, Pillsbury, Donald, Cousins, Gladys Kenney, Edna Dover and Clara and Dorothy Little.

**BARTLETT WOULD LIKE TO MAKE ANOTHER TRIP TO THE ARCTIC REGION**

Almost immediately after his arrival back in New York with the Effie M. Morrissey, Captain Bartlett announced that he would like to make another trip to the Arctic with a small party of scientific mariners on a boat built specially for the work. It would be formed almost like a saucer in order to withstand ice pressure.

Bartlett's plan would be to pass through Behring Strait and drift through the Arctic emerging in about four years time in the neighborhood of Spitzbergen. The cost of such an expedition would be approximately \$330,000 this being sufficient to equip and operate reconnoitering airplanes.

Domestic Science Counselor

**Giving Vegetables New Wrills**

If your family inclines to a diet of meat and bread and potatoes, you'll have to lure them into the vegetable habit by subtle, feminine wiles. Let your vegetables appear in new guises, their downright, honest virtues adorned with all the trimmings of new sauces and new flavors that your imagination can devise. Remember it isn't the girl with the compeens shoes and the mannish tie that wins hearts.

High among the vegetables to which we owe allegiance is spinach. Rich in iron, rich in vitamins, it should be eaten much more often than it is. Yet somehow noses turn up at the word "spinach." I blame the cook. I wonder if she has served it au gratin, with a hollandaise sauce, as a salad with mayonnaise, or combined with onions or leeks and cream sauce in a most tempting puree.

**The Sauce Is the Secret**

A fine cream sauce is times innumerable the making of a vegetable dish. There's practically nothing it doesn't go well with, practically nothing that doesn't take on added deliciousness—if your sauce is a really good one. I have a recipe that is really wonderful—richer, smoother, creamier, more delicious in flavor by far than the ordinary recipe. It's made with Carnation Milk.

Of course you know that Carnation Milk is more dependable—certain to be pure and sweet—which ordinary milk isn't always. But for Cream Sauces there are certain other qualities particularly advantageous. One is the double cream content of Carnation Milk, which when you use it undiluted, gives a sauce twice as rich in cream as ordinary milk.

**Carnation Baked Cauliflower**

Prepare by soaking in water with 1 tsp. vinegar and 1 tsp. salt for 15 minutes. Cook whole, stem up, in boiling salted water for 7 minutes. Put in baking dish, cover with Carnation Cream Sauce, buttered crumbs and grated cheese. Brown in moderate oven.

**Carnation Scalloped Cabbage**  
Put layers of boiled cabbage in baking dish alternating with layers of Carnation Cream Sauce, chips of bacon, green peppers and cheese. Sprinkle with grated cheese and buttered crumbs. Brown in moderate oven.

**Carnation Cream Sauce**  
Melt 2 tbsp. butter in top of double boiler; add 1 tsp. salt, few grains pepper and 2 tbsp. flour; blend without boiling. Add 1 cup Carnation Milk, which when you use it undiluted, gives a sauce twice as rich in cream as ordinary milk. Cook over hot water 10 minutes, strain occasionally.

**Makes Creamier Cream Sauces**

THE sauce is the secret of delicious creamed vegetables—and Carnation Milk is the secret of the perfect cream sauce. Carnation is double-rich and creamy-smooth. You can't help getting better results with it. (See recipes above)

It's all right, Gladys, to marry a self made man but you must be prepared to allow for alterations.

The most generous people I know are those who like to give others a piece of their mind.

Tomorrow the provincial mill begins to grind and we hope some of the flour comes this way instead of the chaff.

If I could only get paid a seasonal indemnity for sitting around and talking occasionally, I feel as if I could get rich. I excel in that particular line.

You may have heard of the man who featured his wife in a talking picture but he went broke before the film finished. She never stopped.

The Legislature opens tomorrow and Jake says he thinks the new Premier will fill the seat more completely than either of his predecessors.

I think I know the worst now. All the January bills have arrived. The annoying thing is that the February bills will soon begin to come. Life is just one dinner after another.

Ten Years Ago in Prince Rupert

January 21, 1919 Mayor McClymont made the suggestion at last night's council meeting that, to relieve the local shortage of houses, the city might build houses on its own lots and sell them on the installment plan.

Five decrees of divorce were granted by Mr. Justice Denis Murphy at the Supreme Court Assizes here yesterday.

Mayor McClymont has appointed the following as committee chairman for the year: Board of Works, Ald. Casey; Utilities, Ald. McRae; Finance, Ald. Rochester; Board of Fuel Control, S. M. Newton.

### KING OF KINGS AT WESTHOLME GREAT PICTURE

New York Newspapers Declare It Magnificent Monument to Skill And Efficiency

Cecil B. De Mille's production of "The King of Kings" achieved an unparalleled triumph on its world premiere presentation at the Gaiety Theatre, New York. Critics and public alike were unanimous in declaring it the greatest picture production in the history of the screen, a magnificent monument to the skill and efficiency of De Mille as producer. The picture ran at the Gaiety for eight months and thereafter was shown with great success in the leading cities of the country and abroad. An excerpt from the review printed in the New York Times follows:

Most Impressive of Pictures "During its initial screening hardly a whispered word was uttered among the audience. It is in fact the most impressive of all motion pictures. This long series of animated scenes, with its fine settings, adequate costumes and uniforms and its host of players, is an extraordinary and unprecedented film undertaking. With admirable dignity and sympathy H. B. Warner acts the part of Christ. One of the most beautiful scenes is that of the Last Supper, strikingly like the old paintings of this subject, but here the figures come to life. The cast of this production is an imposing one, for a number of well-known actors have been content to appear in minor parts. One could in fact go down the long list of players and command one after another."—Mordaunt Hall, NEW YORK TIMES.

### MIGHTY SPECTACLE "WINGS" OPENS AT CAPITOL TONIGHT

#### DEDICATION

To those young warriors of the sky, whose wings are folded about them forever, this picture is reverently dedicated.

Tonight is the night! The mighty picture "Wings" which has broken all records of any picture at any price, and which has been road-showed for several months at top prices, comes to the Capitol tonight, Tuesday and Wednesday at the usual popular prices.

This wonderful film is the dramatic epic of two young men who tramped together up the long pathway of glory that mounted to the stars—a mighty drama of war among the clouds, made into a picture by men who were themselves war-birds—a love story that might have happened in your own neighborhood—the thrilling hazards of aviation combined in a daring spectacle—Broadway thrilled to it—thousands flocked to it during its New York showing at big show prices—standing room sold out for weeks in advance—smashed all records wherever it has shown—viewed and praised by notables the world over—hailed as the greatest the screen has produced—such is the picture which opens at the Capitol Theatre tonight.

#### HOME OIL COMPANY TO ESTABLISH HERE

Permission Formally Requested to Build Wharf on Local Waterfront

Formal application by the Home Oil Distributors Co. for permission to build a wharf on lot 3, waterfront block "C" here, has been made to the department of marine and fisheries, the necessary statutory advertisement appearing in the Daily News today. Intention of the Home Oil Co. to establish a station in Prince Rupert was referred to in this paper 10 days ago.

### MRS. SINCLAIR DIED Q. C. CITY

Whole Community Turned Out to the Funeral, Rev. R. Scott Officiating

SKIDEGATE, Jan. 21. — The death occurred at Queen Charlotte City hospital of Mrs. J. Sinclair after an illness lasting for several months. She and her husband had come from Scotland only four years ago.

Two daughters and three sons are left to mourn their loss, the daughters being Mrs. B. F. Roberts of Skidegate and Mrs. G. Grey of Winnipeg. The sons are in the United States.

Rev. R. Scott officiated at the funeral. The pall bearers were Capt. C. Valey, B. F. Munro, R. Roberts, G. Turner, A. J. Gordon and E. C. Stevens. Among those sending flowers were R. Schaffer, the Richardson family, the Stevens family, Mr. and Mrs. Gordon, Mr. and Mrs. Turner, Mr. and Mrs. Atkins, Mr. and Mrs. R. M. McKenzie, Mr. and Mrs. B. F. Roberts. The whole community attended the funeral, crossing to the cemetery in the mission launch.

### INSPECTOR GOWER OF PRINCE GEORGE MOVES

To Take Charge of Newly-Formed Vancouver Island Inspectorate With Headquarters at Courtenay

Gordon H. Gower, who was the first resident inspector of schools in Prince Rupert and who for nearly 10 years now has been in charge of the Prince George inspectorate, has left the north for Courtenay to take charge of a new inspectorate which has been formed on Vancouver Island. Fort George district has now been taken into a newly formed inspectorate which also includes the Cariboo, Chilcotin and Peace River districts. Mr. G. Gamble, formerly principal of the Mission City High School, has been appointed to take charge.

Over the week-end twenty carloads of grain arrived from the prairies for the local elevator and this morning there were reported to be about twenty cars on the territory west of Jasper Park bound here. No further ships for local grain loading are reported.

### JEAN WILSON-BROWN OPENS ENGAGEMENT

Clever Artist to Perform All Week at Capitol
