PORTCLEMENTS BOY SCOUTS ON

Lads Here Today to Visit Vancouver and Victoria and Call at Government House

Four Boy Scouts from Port Clements, who have lived on the Queen Charlotte Islands since infancy, and have never before been on a trip outside, are in the city today aboard the steamer Prince Charles bound for Vancouver and Victoria. The party is in charge of Scoutmaster N. L. Jones and the boys are Alfred Pelton, Lawrence Rennie, Ernest Chapman and Robert Tingley. They have thoroughly enjoyed their trip so far and are looking forward to the rest of it with keen enthusiasm.

The boys will spend two weeks in the south at Vancouver and Victoria, His Honor Lieutenant Governor R. R. Bruce, happens to be on the boat with them and the boys are very proud that Mr. Bruce has invited them to go over to Victoria and be his personal guests at Government House. It need not be said that they intend

to accept the invitation. To make this trip, each boy earned himself the sum of \$70 while the rest was raised by social functions and by other means.

VALUE OF SUNSHINE

the prevention of diseases cannot be put too high, states from where they intend motoring by A. E. Richards, supervisor of W. J. Woolsey, manager of the Balsac I, 11,000, Royal, 14.1c He was a sensation in the qualthe Social Service Council of Canada. It has been known to Ganges Harbor, where they are chief speaker is Dean F. M. Cle mill on Bitter Creek, has arrived Unome, 5,000. 14.2c and 8c. from time immemorial. Within comparatively recent being stationed in the work years scientists have shown that the value of sunshine is the United Church. due to the ultra-violet rays.

Sunshine prevents and cures rickets, bone tuberculosis NFW HAZELTON and anaemia. It is useful in the treatment of certain forms of rheumatism, chronic wounds, some chronic nervous diseases, debility and malnutrition in children. Sunshine acts beneficially on the skin, the muscles, the blood, the glands and the bones. It is a general tonic and blood builder, it develops and strengthens the body and increases teaching in New Hazelton for the resistance to disease. It increases the red blood corpuscles past year, left last week for her and the haemoglobin. It stimulates and strengthens the nervous system, increases the feeling of well-being, helps to maintain the morale and promotes the proper function ent, is taking a two weeks' holiof all body organs.

Children must have sunlight or they become puny and his mineral showings and farm weak. Therefore, sunshine, containing the health-giving lands in the district. J. G. Legultra-violet rays, should find its way into every room of Mr. Parent's absence. a dwelling-house, certainly into the living rooms, bedrooms and kitchens. Windows should be properly placed to receive the greatest amount of sunshine. In dark or week for a three weeks' trip to alcove rooms, in dark cellars or halls, the marvellous, health-conferring and health-restoring sun, the powerful force that kills and attenuates germs, that invigorates the whole body, is excluded to the great disadvantage of the mine staff and Mrs. Pease are dwellers therein.

Every room in every dwelling should have at least one Tulameen district on mining window opening directly upon the street or upon a yard business. or court of proper dimensions, and the combined glass area of such window should never be less than one-tenth of the floor space. Cellar rooms, with more than half their height below the level of the adjoining ground, are dark and impossible of ventilation, and are unfit for human habitation. Dark houses are difficult to keep clean and invite vermin.

THE GLORIOUS FOURTH

The United States is today celebrating the national J. W. Turner. holiday which is the anniversary of the declaration of indenendence from British domination. The States were be forty pupils in attendance at colonized mostly by British and the people living there the Smithers high school after and who rebelled against arbitrary rulings of the British the summer vacation. Government of the day were British. They had no idea at first of forming an independent country, but the struggle intensified the feeling against their motherland ing satisfactory progress in the and they set up for themselves.

It is to the credit of the British to be able to say that pendicitis. many of their political leaders were as much opposed to the British Government's action as were George Washington and the others who rebelled.

The declaration of American independence was one of they will spend the next month the steps in the working out of the system of self-government for the British people. Britain benefited very greatly from it and the effect on Canada has also been beneficial.

American people in Canada can be sure that Canadians are with them in all that makes for the advancement of the race and for better government throughout the ert to spend the summer vacation world.

ROLLER Bearings

Reduces Friction and Makes for Ease of Operation

Choice of colours \$5 to 65 miles on hour 40-horse power engine Full balloon tires Pully enclosed six-brake system Houdaille hydraulie shock

Matter proof glass windshield Theft proof ignition lock Reliability and low upkeep

AVISH use of ball and roller bearings in the Ford car greatly I reduce friction and contribute to easier operation and longer life of the car. Note the coasting ability of the Ford car as compared to any other automobile in its weight class.

Examination of the chassis will at once show the advantages of these bearings. On the rear axle pinion and differential all the taper roller bearings are held to such close limits that adjustment is unnecessary, pinion and ring gear always being held in proper mesh.

Spiral roller bearings are used in the rear hub because of their large bearing surface and ability to carry heavy loads. One is also used on the drive shaft at the universal joint end, to assure perfect alignment.

Taper roller bearings in the front wheels have a simple adjustment. Roller thrust bearings on the spindle bolts make for easy steering. Two bearings, one above and one below, take up the thrust on the steering worm.

The fan shaft operates on a roller bearing. The generator, the transmission, the connection between the spline and drive shafts, the clutch, the flywheel-all these important parts are made more efficient and enduring through the use of ball and roller bearings.

These bearings form a striking illustration of the engineering skill and care used in building the Ford car.

News of the Mines

AROUND PRINCE RUPERT

Stewart as Aerial Base for Mining Operations; Babine Bonanza Is Promising; Active Development of Babine Silver King

It is remarkable that, with a report made public such as Dr. F. Kerr has submitted on the mineral resources in Haines and Lionel Barrymore in the country back of the Portland Canal district, there are one picture was sure to be a not numerous prospecting parties outfitting at Stewart winner and that proved true last to locate this new and undoubtedly rich mineral zone, Jimmy Valentine." Haines is just writes H. D. Rochfort, well known Stewart broker. This grand as the bank-buster and new mineral belt is the same that the Premier, George heart breaker champion. It's a Copper, Granby, and other well known properties are sit- new kind of dramatic role for uated on. The question arising now is how to bring this him. No detective could trap him
