Tenders Asked for Three Fine New Steamers for C.N.R. Alaska Service Ready for 1930 Tourist Season

MONTREAL, April 4.—Announcement is made here by officials of the Canadian National Steamships that tenders have been asked from Canadian and British shipbuilding firms for one, two or three steamships for service between Vancouver, Prince Rupert and Alaska. The vessels will be of the very latest type, 365 feet in length, and in accommodation will resemble somewhat the two C. P. R. vessels Princess Marguerite and Princess Kathleen. They will have a speed of over 20 knots and will be the very last word in coast steamship travel. The vessels have to be rushed through to completion in order to be ready for the 1930 tourist season.

PLANE CRASHED, TWO KILLED, NEAR REGINA

REGINA, April 4:—Royley Ford of Weyburn and John Sytorchuck of Khedive, section foreman, were instantly killed today at Khedive when a small monoplane piloted by Ford smashed into the bunkhouse of the Canadian Pacific Railway. The plane burst into flames burning the men. Ford was formerly in the Royal Air Force.

ANOTHER CLUE MISSING PLANE

LONDON, April 4:—The Evening News in a Melbourne despatch says that a morse code message has been picked up which may have bearing on the search for Captain Kingsford Smith and the missing Southern Cross fliers. The message was weak and fragmentary, coming from a distance. A set in Australia reported receiving the message.

Air Line to Alaska Through Prince Rupert Planned After Successful Survey Expedition

SEATTLE, April 4.—With survey work completed by a round trip flight to Juneau which was completed last night, P. T. McCarty, president and general manager of the International Airways, announced today that the company will start a passenger service from Seattle to British Columbia and Alaska this summer. Eight 10-passenger seaplanes will be operated, Mr. McCarty said.

Stops were made in the survey flight at Vancouver, Prince Rupert, Ketchikan and Juneau. The same points are scheduled for the proposed service. A branch line may be extended from Juneau to Sitka and possibly points further west in Alaska. The concern intends seeking mail contracts from the United States and Canadian governments.

BUCEY MAYOR OF KETCHIKAN

Electors Approve Central Heating Plant and Grant for Airport Facilities

KETCHIKAN, April 4:—M. J. Bucey was elected mayor of Ketchikan over Roy F. Jones, by a vote of 551 to 348. The councilmen selected were E. W. Brown, Hugh M. Sawyer, Percy G. Charles. The voters approved an ordinance granting the central steam heating plant franchise to L. S. Fisher and by referendum approved of the expenditure of the necessary money for airport facilities.

EARL BALFOUR IS RETIRING

LONDON, April 4:—The Earl of Balfour has decided to sell his London house and settle in the country. Doctors advised this step which is generally construed to mean that the Earl is quitting public life. He is eighty years of age and his throat has been a persistent source of trouble.

HEALTH OF GENERAL BRAMWELL BOOTH IS FAILING FAST

LONDON, April 4:—The health of General Bramwell Booth deposed commander of the Salvation Army is failing fast, his daughter Catherine Booth said today. She said that there was no immediate cause for anxiety.

CORRESPONDENCE COURSE OF B. C. HIGH SCHOOLS

VICTORIA, April 4:—An order in council has been passed under which J. Wesley Gibson, formerly in charge of the agricultural branch of the educational department, has been appointed officer in charge of the correspondence courses for the high schools.

OFFER MADE BY ALDERMAN PRUDHOMME

Alderman Prudhomme dropped in this morning to clarify the offer which he made at the council meeting Tuesday night. He says he is ready to supervise one or two pieces of work in order to show that he was right in his contention that the cement sidewalk work was not being done economically. If it costs more than half of what the engineer estimates he will pay anything over that amount out of his own pocket.

Alderman Prudhomme says he had no intention of offering to take a contract to do the work himself. All he wants is for the city to get value for the money expended.

MINERS PERISH

BRUSSELS, April 4:—Eight miners perished today in a fire and explosion at a colliery near Paturages.

Increase in School Population and Necessity for New Teachers Causes Added 3 Mills to Tax

Increased school population and the necessity for new teachers is largely responsible for the increase in general estimates of the school board this year to \$80,000 from last year's \$72,000, it is explained by J. O. Williamson, secretary of the school board. At the end of March there were 1073 pupils enrolled in the schools, or an increase of more than 100 from the 970 at a similar date last year. Extraordinary estimates of the school board this year amount to \$5900, as compared with \$5000 last year.

Two additional teachers will join the school staffs after the Easter holidays. These will be an assistant in the domestic science department and an assistant in the commercial class of the high school. There are now over 56 pupils in the commercial class. School teachers' salaries now amount to some \$6000 per month. It will also be necessary in September to put on even more teachers, it is expected. Owing to congestion in the high school, it is expected that it will soon be necessary to fit up the annex to King Edward school as a class room. Borden Street school is leaking badly and repairs will be necessary this year.

NEW CHARGES AUTOMOBILE INDICTMENTS

VANCOUVER, April 4:—Alternative counts of "causing grievous bodily harm" and "furious driving so as to cause bodily harm" have been added by the Attorney General of British Columbia to the manslaughter indictments in automobile cases.

This was explained at the present assizes yesterday by Mr. Justice Gregory in presenting the manslaughter indictments to the Grand Jury. The addition follows the recent decision of the supreme court of Canada. "It has been found that juries are loath to find an accused guilty of manslaughter because they think it savors of moral turpitude," the judge said. "Juries can now act on the lesser counts."

WILKINS SUBMARINE

NEW YORK, April 4:—The submarine to be used by Sir George Hubert Wilkins for his North Polar expedition is being fitted for the voyage at Bridgeport, Connecticut. Commander Sloan Danenhoever is to command the vessel.

Victoria Man, Resident Now of Tacoma, Plans to Fly Tacoma-Tokio

Lieutenant Brownley Has Secured Wilkin's Antarctic Plane and Will Travel About 150 Miles an Hour

TACOMA, Wash., April 4.—A Canadian is planning to fly across the Pacific Ocean. The monster solo flight from Tacoma to Tokio as soon as wind and weather are favorable was announced today by Lieutenant Harold Bromley of Tacoma and a group of Tacoma capitalists.

Lieutenant Bromley is a native of Victoria, B.C., and served with the Canadian forces overseas and in the Royal Air Force. He is going to Los Angeles to supervise the completion of the Lougheed-Vega monoplane designed for Sir George Hubert Wilkins for use in the Antarctic which has been purchased for the flight. He is a qualified navigator and radio operator and is 29 years of age. He has had a thousand hours of actual flying experience.

The motor in the plane will be capable of driving it 150 miles an hour, thus cutting down the flying time for the 4700 miles to about 35 hours, leaving a safety margin of 1000 miles.

The radio to be used on the flight will be the same used by Martin Jansen on the Dole Hawaiian flight.

GOVERNOR-GENERAL REACHES VANCOUVER

VANCOUVER, April 4.—Governor-General Willingdon, Lady Willingdon and party arrived in Vancouver last night on their way to Victoria to attend the opening session of the National Council of education. After spending the day quietly here they leave tonight for the capital.

UNITED STATES IS WEAKENING FARM TARIFFS

Newspapers Say No Advance May Be Made if St. Lawrence Scheme Goes Through

WASHINGTON, April 4:—"If Canada will assure us that the St. Lawrence joint waterway will be commenced soon the duties on the products of the farm may not be greatly increased at the special session of congress which opens here shortly." This sums up a series of newspaper articles which have been printed in the leading American newspapers of all politics and partisanship, during the last two days. Quoting high authority the Washington Star, which generally speaks for administration, says that the increase of the tariff duty on certain farm products may depend to a considerable extent on the attitude of the Canadian government towards the proposed waterway connection of the Great Lakes with the Atlantic by way of the St. Lawrence River.

PROVIDENCE, R.I., April 4:—The girl students of Pembroke College, Brown University's co-ed branch, have voted that all dormitory students be permitted to smoke in their rooms. In addition the college authorities have opened a special smoking room for students in one of the college buildings.

UNEMPLOYED FROM BRITAIN MAY NOT COME

TORONTO, April 4.—"I cannot see my way clear to open the door to hundreds and thousands of unemployed who come from Great Britain to flood the labor market," Hon. Robert Forke, minister of immigration, said here in an address at the annual meeting of the Travellers' Aid Society. He refuted the statement that the immigration to Canada was falling off and quoted statistics for 1928 as proving that more British immigrants came to Canada than migrated to all the other dominions together.

PRICES CRASH AT VANCOUVER

Pend Oreille and Other Stocks Sold Lower Late Yesterday

VANCOUVER, April 4:—Prices crashed downward on the stock exchange this afternoon after a strong morning session. Pend Oreille and Reeves Macdonald despite optimistic announcement fell sharply, the former touching a low of 85 and closing at \$3.80 lower while Reeves sold down to \$2.25 and finished \$1.10 lower. Big Missouri lost 18 cents and Grandview 10. Oil stocks all closed lower.

Smithers' Boys and Girls Beat Terrace in Two Game Series of Basketball Games: Return Games

SMITHERS, April 4.—In the first of a series of basketball games between Terrace and Smithers on Wednesday night, the Smithers girls won out by a score of 22 to 17, while the local boys defeated the visitors 32 to 16.

In the second engagement last night Smithers girls again defeated Terrace 22 to 6, while the local boys downed the visitors 22 to 16.

The games were very closely contested and provided more interest than the scores imply.

The Smithers team left for Terrace on today's train, where they will play four games, in which the Terrace crowd with the advantage of playing in their own hall expect to administer a trouncing to their opposition.

WELSH SOCCER TEAMS TO PLAY

Schedule Drawn Up For Games Throughout Canada in Big Centres

WINNIPEG, April 4.—Fifteen games will be included in the itinerary of the Welsh football team that has made arrangements for a tour of Canada this summer, it was announced today. The team will travel across the country playing games in all the leading cities to the Pacific Coast and then will return. They are scheduled to leave England on May 24, returning home from Montreal on July 5.

Pending satisfactory arrangements being made with district associations, the following schedule has been arranged: June 1, Montreal; June 3, Hamilton; June 5, Toronto; June 8, Winnipeg; June 10, Regina; June 12, Calgary; June 15, Vancouver; June 17, Nanaimo; June 19, Victoria; June 22, Vancouver; June 25, Edmonton; June 27, Saskatoon; June 29, Winnipeg; July 1, Toronto, and July 3, Montreal.

SCHOONER CASE IS TAKEN UP BY OTTAWA

OTTAWA, April 4.—The sinking of Canadian Schooner I'm Alone by United States coast guard vessels has been the subject of formal representations by the government of Canada to the United States, Premier Mackenzie King stated in the House of Commons this afternoon, answering a question by Hon. R. E. Bennett. The Premier said the case had been the subject of correspondence between Ottawa and Washington for the past week. He also said the correspondence would be brought down "in due course."

Harry Bennett and Herb Charlton are the champion badminton players of Stewart, having proved their supremacy in a men's doubles tournament which was recently held by the Canadian Legion of the Portland Canal mining camp. There were six entries and Bennett and Charlton won out in the final over Wilkinson and Cochrane.

The first baseball game of the season at Stewart was played this year on the unusually early date of March 24. Nine innings were played and a team known as the Rinky-Dinks won 10 to 9 over the Dinky-Rinks. The grounds are in good shape and an active baseball season is planned at Stewart this year.

Mechanics, having won both halves of the season, are the senior basketball champions of Anyox. Beach Girls are the champions of the Ladies' League. High School clinched the P. T. A. trophies for inter-school basketball at the smelter town in a nine week series with Public School. The basketball season recently closed at Anyox.

DUTY ON LOGS WHICH ARE SENT TO JAPAN

The new scale of duty on American and Canadian logs going to Japan is as follows: Red cedar logs will henceforth be taxed 12 1/2 per cent upon their value and fir logs will go to Japan under a 5 per cent duty. Twenty per cent will be imposed upon fir and cedar in the manufactured state. Formerly logs went in free and lumber was taxed at a rate of 3.10 on a cubic metre.

QUEER PHENOMENA AT NEW CATHEDRAL

Victoria People Puzzled at Hearing Singing in Empty Building

VICTORIA, April 4.—A little variety entered into the mysterious music emanating from the half-built new cathedral last night.

Dean C. S. Quainton stated today that besides organ music, the notes of a piano and vocalist were audible shortly after 9 o'clock last night.

No definite explanation has yet been found of the origin of these strange noises, which several people claimed they have heard coming from the new cathedral. Just over a week ago, it was reported that a full organ recital had been broadcast to the neighborhood from the building.

One of the simplest solutions to the mystery yet advanced is that the sounds come from a radio set somewhere in the neighborhood. On a clear night, a good loud speaker would provide enough volume to travel considerable distance and the large structure, acting as a reflector, might make it appear as if the music were coming from the building.

There is also the theory that the huge copper roof of the cathedral might in some way act as a radio receiver.

Give Him a C.C.M. for His Birthday

YOUR boy will only be a boy once. Let him know what it is to skim over the country roads on a C. C. M. He'll enjoy it just as you did—and more. Roads are better now than they were in your day.

A boy has only a few bicycle birthdays. So do not let this one pass. Nothing will please him more than a C. C. M.

C. C. M. Bicycles are built on the experience of two generations. They combine all the good features that have developed with the years.

Triplex Crank Hanger, Hercules Coaster Brake, 20-year nickel-plating, three coats of enamel baked on over a coat of rustproof, and Dunlop Tires—these are but some of the C. C. M. "points of superiority".

Why not give him a C. C. M. for his birthday and let him have the health and joy of the open road?

FELT MISERABLE ALL THE TIME

Headaches and Tiredness Ended by "FRUIT-A-TIVES"

Some people suffer for years with Headaches, without ever trying to find out what is the CAUSE of the pain. They get all run-down, and seem to think this weak, depressed feeling is the result of the headaches. As a matter of fact, chronic Headaches are the result of poisoned blood, due to faulty action of the bowels, kidneys and skin. "Fruit-a-tives" stops headaches because it regulates the bowels, kidneys and skin—freeing the body of waste matter which poisons the blood—and thus keeps the blood pure and rich.

As Mrs. Michael Coulis of Killaloe, Ont., writes—"I used to feel tired out and run-down and had severe Headaches. After using 'Fruit-a-tives' the headaches and tiredness quickly disappeared and for two years now I have been in the best of health." And you? Do you suffer? Mrs. Coulis shows you the way to get well—take "Fruit-a-tives," 25c. and 50c. a box—at dealers everywhere.

DISCUSSION ON CHILD WELFARE

Bishop Rix and J. C. Brady M. P. Interesting Speakers Before Moose Lodge Last Night

Highly instructive and interesting address on the subject of "Child Welfare" were delivered before members of the Moose Lodge last night after the regular meeting by Rt. Rev. G. A. Rix, Bishop of Caledonia, and J. C. Brady, M. P. for Skeena. After more or less theoretical remarks both speakers stressed the necessity for so much better means for youths in Prince Rupert to spend their time than on the streets as at present. Work of the Moose Lodge along these lines was alluded to and both speakers lauded the project for the formation of a junior Moose order in the city and the establishment of a gymnasium in the basement of the lodge hall.

D. C. Schubert, dictator of the lodge, presided over the meeting which was largely attended. An enjoyable musical program included vocal solos by Mrs. Simon A. Swanson, Miss Bessie Derry and Walter Howarth, who were accompanied by Al Small, and there were selections by the Eleventh Avenue Orchestra under the leadership of W. H. Derry.

There was a delicious luncheon spread, arrangements for which were in the capable hands of W. Lamb.

Bishop E. M. Buzoz O. M. I. sailed yesterday afternoon by the Prince George on a trip to Anox on ecclesiastical duties.

WEATHER COMPLAINTS

A good many complaints have been made at the unseasonable weather the past few days. Those who complain must remember that in the central states many people lost their lives in the blizzards and in Ontario a million dollars damage was caused by the wintry storms. In Seattle there was snow and nearly every place suffered more or less wintry weather. A letter just received from California states that for only the last few days has it been warm.

ATHLETIC PARK

This is a good time to investigate the question of an athletic park. If there is room for it in McClymont Park, it will be useless to secure it elsewhere, but if that site is not suitable, then steps should be taken to secure land for one. While the ground at the Acropolis Hill will doubtless be useful, there should also be a piece of land suitable for rugby, football and lacrosse.

SAVED BY GRACE

Prince Rupert's financial position was saved by grace. Only the fact that she was able to sell the power plant made it possible to get by without raising the tax rate to an inordinate amount. As it is the city is to be congratulated on her position. Whereas two or three years ago her tax rate was 50 mills on the dollar, since that time the assessment has been reduced considerably and the tax rate will probably this year be 45 mills. The future financing of the city will also be improved.

GOES A GLIMMERING

Years ago the Grand Trunk Pacific Railway obtained concessions from the city of Prince Rupert on the strength of going to erect a fine hotel. The work of excavation proceeded and a large sum was spent getting out the rock in readiness for an immense hotel building. That was as far as it got. The railway obtained the concessions, but Prince Rupert did not obtain the hotel. Now it is announced that the site is to be subdivided and sold. So goes the last hope for a big railway hotel. There may possibly be a hotel, but not the big one. It was a dream.

Miss Cash Who is the Youngest Preacher in Conference

BELFAST, Me., April 4:—Rev. Regina Cash has resigned her pastorate in the village of Searsmont to enter the Know County Hospital nurses training school.

Miss Cash, who is 25 years old, has been the youngest preacher in the Eastern Maine conference. During her pastorate in Searsmont she was successful in building up the church and adding many to the attendance. Miss Cash is a vivacious brunette with a pleasing personality. She was graduated from the Moody Bible School in Chicago three years ago and for three years attended the Gordon Theological School in Boston.

JAIL A REAL "COOLER"

KINGSTON, Mass., April 4:—This town has a jail that very properly merits the popular designation of "cooler." The local lockup is situated in the basement of the town hall and it is so cold and damp that even in the summer a fire must be maintained to make the place habitable. Whenever possible the police take prisoners to the more modern jail at Plymouth.

SCHOONER SOLD FOR \$500

NEW LONDON, Conn., April 4:—After a trying experience on Block Island, where she went ashore heavily loaded with fish, the fishing schooner Emily H. has been sold for \$500. Tugs attempted unsuccessfully to haul the vessel off after she stranded, and finally abandoned the effort. Then came a high tide and off floated the unmanned and Emily H. She drifted two miles

to again go aground two miles down the beach. A hole was stove in her bow, but her new owner says expenditure of \$8000 will make the schooner, which was valued at \$30,000 as sound as ever.

TERRACE

The Rebekahs held their annual sale of home cooking and candy on Saturday afternoon in the Terrace Theatre and as a result their funds were increased to the extent of about thirty dollars. Mrs. Harry King had charge of the home cooking and Mrs. E. T. Kenney of candy. Mrs. W. E. Smith superintended the tea room and Mrs. McLaren had charge of the kitchen activities. Many other members were out to assist in making the sale a success and the affair was well patronized.

Mrs. D. D. Munro who has been a much feted visitor here for the past two weeks returned to Smithers on Monday.

Miss McRae, school teacher at Giscome arrived Sunday to spend her vacation with Mrs. McKenney.

NEW MEMBERS TERRACE U. C.

TERRACE, April 4.—The Easter services of Knox United Church, Terrace, were well attended last Sunday.

During the forenoon confirmation service and reception of new members was observed when 12 new members were added to the church roll. The sacrament of the Lord's supper was then partaken of, James McConnell and Thomas Brookes assisting as elders of the church.

At the evening service the church building was taxed to its fullest capacity. On this occasion Easter music was featured as follows:

Solo, "O Dry Those Tears," Mrs. Allan; chorus, "Love That Passeth Knowledge," by the Canadian Girls in Training; solo, "Father in Heaven," Rev. W. Allan; quartet, "I Am He That Liveth," Mrs. McKenney and Mrs. Dyson, Messrs. Dyson and Allan. Solo, "Nearer, My God, to Thee," Mrs. Dyson.

EASTER SERVICES ANGLICAN CHURCH TERRACE POPULAR

TERRACE, April 3.—Special Easter services were conducted in the Anglican Church both morning and evening on Sunday, large congregations being in attendance at both services. The church was attractively decorated with ferns and daffodils. Holy communion was celebrated at the morning service and inspiring Easter messages delivered by the rector, Rev. A. W. Robinson. Special music by the children's choir was a feature of both services. At the morning service a quartette was rendered by Messrs. Dyson, Attree, Dover and Chalk, and at the evening service, Rev. A. W. Robinson was soloist.

DRUNK IN JAIL

SPRINGFIELD, Mass., April 4.—Thomas McGregor, 65, told the district court here that he remained intoxicated throughout a six months term he served at the Hampden County jail. McGregor said he drank alcohol used in the prison work shop to shellack chairs. One of the jail officers told the court that the jail did not want McGregor, who was picked up there for drunkenness and sent back to the jail. He was released on condition that he leave the city.

GRAIN MIXING IS DISCUSSED

Proposal to Declare It Illegal Will Arouse Argument in House

OTTAWA, April 4.—(By the Canadian Press)—Observers of political affairs in the capital believe that the big battle in parliament after the Easter recess will be on the proposal that mixing of wheat intended for export in Canadian elevators be declared illegal. The demand has come from the prairies that the ultimate purchasers of Canada's wheat abroad should get it as it is graded when the farmer delivers it at the country elevator. Many of the prairie members who have already spoken in parliament on this question are determined the practice of mixing of grades now so prevalent should be stamped out.

The government is evidently inclined to give an attentive ear to the protests from the prairies. "In my opinion," said Hon. C. A. Dunning, minister of railways, speaking in the house, "we will never get back to where the wheat of western Canada will take its proper place in the markets of the world until we eliminate the mixing of the straight grades of grain."

Dissatisfaction is found in the west over the handling of the 1928 grain crop—the largest in the history of the Canadian prairies, amounting to more than 500,000,000 bushels. While there is difference of opinion among the members of parliament from the wheat growing districts as to the extent of this discontent, there is unanimity that discontent exists. Some of the members have told parliament "the prairies are on fire over this question," that the farmers are demanding action and the present board of grain commissioners who administer the Canada Grain Act, the legislation under which the government exercises a certain control over the handling of the crop, should be dismissed. Other members did not go as far as that, but suggested that a few changes in the act would meet the situation.

The complaints the farmer members have made refer to grading, mixing and skimming, and the administration of the act. They claimed that the wheat growers have lost millions of dollars because of the manner in which the wheat was marketed.

MONEY SPENT GRAIN SHIPS

Vancouver Compares Costs of Handling Vessels at Prince Rupert

In view of the shutting down of the elevator here this year by the Wheat Pool the following article published in the Vancouver Province will prove of interest here:

The actual expenses of a foreign or deepsea ship in Vancouver and the cost of preparing and loading cargoes of grain or lumber has been prepared in a comprehensive report published by one of the shipping companies. Taken from actual expense paid on ships handled by the company, the figures are undoubtedly correct and give a good idea of the amount of money the hundreds of grain ships leave in Vancouver in a year.

Revenues are derived from the grain ships through pilotage, sick mariners dues, harbor dues, port warden fees, consular fees, bills of health, fresh water, shipping master fees, launch hire, watchman, tugboat charges, fumigation, elevator overtime, grain bags, and burlap, stevedoring, electric lighting for holds and grain fittings.

In preparing the report the company also prepared comparative costs with Prince Rupert.

Vancouver Rate Lower

A shelter-deck ship, loading 570 tons of grain at Vancouver

paid a total of \$3433; a shelter-deck ship loading 8617 tons at Prince Rupert paid \$3776. A single deck steamer loading 7210 tons grain at Vancouver paid \$2143; and a single deck ship loaded 7500 tons bulk wheat at Prince Rupert for \$2565.

Prince Rupert pilotage dues are higher than Vancouver's; but the harbor dues are only a set \$7, while the Vancouver harbor dues are in the neighborhood of \$100 for each vessel.

Details of a shelter-deck steamer's Vancouver expenses are: Pilotage, \$168; harbor dues, \$119; sick mariner, \$79; Canadian bills of health, \$1, and U.S. bill of health, \$5; port warden survey \$50; handling lines, \$28; launch hire, \$7; stevedoring, \$2288; fitting for grain \$394; telegrams and cables, \$23; postage and sundries, \$10; electric light clusters, \$10; telephone installation, \$1; agency fees and assessment, \$247.

Details of Prince Rupert costs of a similar ship are: Pilotage, \$269; harbor dues, \$7; bill of health, \$7; sick mariner dues, \$68; port warden survey, \$50; handling lines, \$10; stevedoring, \$1827; fitting grain \$1250; telegrams and cables, \$19; postage, sundries and agency, \$210.

Loading Lumber

A steamer loading 4,740,000 feet of lumber at Vancouver, Nanoose and New Westminster paid \$8652; pilotage totaled \$133; harbor dues were \$94 at Vancouver and \$7 at New Westminster. Vancouver stevedoring costs were \$1083, Nanoose was \$1074; New Westminster \$5218. Another ship loading 4,968,000 feet of lumber at Vancouver, New Westminster, Alberni, Victoria and Chemainus paid \$593 pilotage, \$93 harbor dues Vancouver, \$7 harbor dues New Westminster, \$7 harbor dues at Chemainus, \$7 harbor dues and shipping master at Victoria. Labor took nearly \$7000 in handling this ship, the total expenses of which were \$9313.

These figures for handling ships of this size show that the cost of loading ships at British Columbia ports compares favorably with the cost of similar ships at foreign ports.

Disappointment at Delay in Telkwa Coal Project;
Annual Report of Premier; Bear
River Getting Capital

Considerable disappointment has been expressed in the district at the probability of the development of the Telkwa coal fields being delayed for one year, although there is still a possibility that preliminaries may be carried out this season to get the huge undertaking under way. The disappointment arises through the recent action of the British Columbia legislature in postponing action with regard to the granting of a charter for the proposed railway from Telkwa to the coal fields and thence to tidewater at Kitimaat. While the government was satisfied with the bona fides and financial ability of the coal company, the matter was considered too important to deal with without the most detailed information which was not then available.

Some frank statements in regard to the Premier Gold Mining Co.'s holdings are made in the annual report for 1928 of H. A. Guess, vice-president and managing director of the company. It is stated that Premier's original property has failed to find ore at greater depth than about 80 feet above its No. 5 level and that all diamond drilling was stopped in 1928, this action being taken as an apparent abandonment of hope of finding further commercial ore bodies within the main ore zone of the property. It is also stated that the estimate of broken and unbroken ore reserves is down steeply, being 456,203 tons, as compared with 634,537 tons at December 31, 1927, and that Porter Idaho and Prosperity groups, now under Premier control, show somewhat erratic mineralization with values falling off with depth in the case of the Porter Idaho. On the other hand, to these less cheerful features of the report must be balanced the fact that Premier's operating costs have been reduced \$1.10 a ton to a total of \$3.46 per ton. Total earnings for 1928 were \$2,342,982.57, or \$141,576.39 over 1927, despite the fact that the ore averaged approximately \$2.50 a ton lower in gross value than in 1927, the advance in earnings being attributable to the increased output of the mill and mine and lowered operating costs. It might also be kept in mind that Premier may endeavor to make arrangements with other properties of the district not in a position to mill their own ores and thereby may either maintain its mill in operation profitably as a custom plant some time after its own reserves of ore are exhausted, may acquire other nearby ground outright or may sell mill and tramway on a basis which would give the company a return not available to the average mining company after it has finished "mopping up." It is thought, however, that if anything drastic is contemplated by the management, it will give due warning as to possible further curtailment or passing of dividends. In any case, it is stated that there are ore reserves sufficient to keep the plant running at present production for almost three years. Mr. Guess' report gives full details of the work carried on during 1928 and the results thereof both on the original Premier property and on the Silverado, Prosperity and Porter Idaho mines.

Upper Bear River section of the Portland Canal mining district is rapidly being transformed from an isolated district of perilous zig-zag mountain trails and haunts of lonely prospectors to a favored mecca for industrial capitalists seeking to enhance their own wealth and at the same time conferring a benefit to the people of Canada in general and British Columbia in particular by opening the doors of nature's vaults of vast mineral deposits, says the Vancouver Province. Co-operation and consolidation of properties and interests was found necessary by the prospectors in order to interest capital and thus secure transportation and development facilities. Thus is found a large number of claims in this section consolidated and known as the George Copper group with almost unlimited tonnage of gold, silver, copper and lead ore now under bond and being developed by the Consolidated Mining & Smelting Co. A number of other holdings adjoining George Copper cast their lot together and formed what is now known as the Rufus-Argenta Mines Ltd. Then they enlisted the financial support of the well known mine operators and capitalists, J. F. Duthie and associates. Likewise owners of various other groups on both sides of this valley have followed a similar course. Thus co-operation has solved the problem for the prospector. Capital has been interested and secured; a market is created for skilled and unskilled labor; the country's natural resources are being developed, and the prospector will in due time reap his just and richly deserved reward.

DOUGHTY WELSHMAN MAN FOR EMERGENCY AFTER UNEMPLOYMENT

(Winnipeg Free Press)
Lloyd George has various reputations; but his reputation for being a good man in an emergency, which has survived the post-war political disasters which have befallen him, now promises to yield him handsome dividends. Unemployment is the ogre which is laying waste the fair land of Britain; before its forbidding countenance the appointed champions of the people have blanched. But David, the giant killer, surveying the horrendous monster, says zestfully: "If you will kindly hand me a sword I shall eliminate this dragon; it will take me just 12 months to do it; and there will be no charge." Whereupon the other champions who have been studying the ogre from a discreet distance cry out that the man is a fakir and a blowhard and not to be trusted. His promise is, they say, just a stunt—that the would-be giant-killer is brave in his offer because he knows that it will not be taken up; that he can afford to promise much because he knows he will not be asked to deliver.

All of which may conceivably be true; yet it seems to be that many recall that in days gone by, this doughty little warrior from the Welsh marches did take

FINANCE COMMITTEE OF CITY COUNCIL MAKES PURCHASE OF NUMBER OF BONDS FROM VARIOUS FINANCIAL CONCERNS AT EXCELLENT PRICES

The finance committee of the city council at its meeting yesterday considered the offers made for debentures which the city wished to purchase in order to invest a portion of the money received from the sale of the power plant. They were considered very satisfactory and all the securities purchased yield the city over 5 per cent. The amount actually invested was \$205,510, the difference between that amount and the total holdback of \$228,000 being used to redeem bonds maturing this year.

The committee also purchased \$5800 Prince Rupert bonds from the Royal Financial Co., yielding from 5.25 to 5.40 per cent and \$11,000 from Ames & Co., yielding 5½ per cent.

The total purchases made on behalf of the trust fund under the hydro-electric sale were as follows:

Awful Pimples On Face and Neck For Four Years

Mrs. Mary Rail, Eganville, Ont., writes:—"I am writing to tell you that I suffered terribly with awful pimples, all over my face and neck, for four years. I had tried everything, but got no relief until one day a friend told me about

and advised me to use it. I used four bottles and my face is now completely clear of pimples."

ALIENS DEPORTED

PROVIDENCE, R.I., April 4:—The first group of aliens deported from Boston under a cleanup drive now in force were placed on board the Fabre Line steamer Alesia at this port and sent out of the country. There were eight Spaniards in the group, deserters from vessels which have touched at American ports. About thirty other aliens are now awaiting deportation from Boston.

WATER NOTICE

Diversion and Use

TAKE NOTICE that Alfred H. Bryant, whose address is 609 Bank of Nova Scotia Building, Vancouver, B.C., will apply for a licence to take and use one thousand miners inches or 28 c. f. s. of water out of Buck Gulch Creek, which flows northerly and westerly into Dease Creek about eight miles from Dease Lake.

The water will be diverted from the stream at a point about three-quarters of a mile from Dease Creek and will be used for hydraulic mining purpose upon the mine described as Ready Money Lease, Sunrise Lease No. 103 and Creek Claims Daisy and May, Brossom.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C. within thirty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is March 11, 1929.

ALFRED H. BRYANT.

CORPORATION OF THE CITY OF PRINCE RUPERT

TAKE NOTICE THAT:

1. The Council of the Corporation of the City of Prince Rupert intends to construct a pavement sixteen feet wide on Ambrose Avenue beginning at a point where the centre line of 6th Avenue intersects the centre line of Ambrose Avenue and extending to the intersection of the centre line of 6th Avenue, as a local improvement, and intends to specially assess the cost upon the land abutting directly on the work, except such portion of the cost as is incurred at street intersections.

2. The estimated cost of the work is \$12,000.00, of which \$3,200.00 is to be paid by the Corporation, and the estimated annual special rate per frontage is \$4.00. The special assessment is to be paid in 10 annual instalments.

3. Persons desiring to petition against undertaking the work must do so on or before the 8th day of May, 1929.

When friends drop in for Sunday night tea

by *Fairy Blake*

The late afternoon on Sunday, when so many people like to get out after the day's inactivity, is a pleasant time for the exercise of an informal hospitality—the Sunday night tea. No one wants a heavy meal at that time. Thin sandwiches, creamed chicken, a soufflé or a salad of separate small mounds of vegetables, each on a crisp bit of lettuce, with Carnationmilk heaped in the center, makes an amply satisfying meal. If you haven't the recipe for Carnationmilk, I will be glad to send it to you. It is a particularly delicious mayonnaise made with Carnation Milk. To finish the meal a sweet and a small cup of coffee may be served.

A new cake made with Carnation Milk

For the Sunday evening tea I think you will like this Carnation Caramel Nut Cake. It is different enough to be a real treat. I make it with Carnation Milk, because I have found that it gives an exceptionally smooth, fine texture, and that the cake keeps better.

The texture is fine and fragile, due to the "homogenization" of the milk, by which the cream is broken up into finest particles. Carnation is doubly rich in cream, so it saves butter and makes the smoothest of sauces, soups, candies and ice creams.

the creamiest of custards, the most delicate puddings. I find it more economical, convenient and dependable, too, because it is always uniform in quality, always sweet and pure and can be kept on hand all the time, ready for use.

If you want to know what a great new field of cooking success awaits you in the use of Carnation Milk, send for free Cook Book. Address Carnation Milk Products Co., Limited, 134 Abbott Street, Vancouver, B.C.

Carnation Caramel Nut Cake

1 1/2 cups pastry flour, 2 tsp. baking powder, 3/4 tsp. salt, 3/4 cup Carnation Milk diluted with 1/4 cup water, 3/4 cup shortening, 1 cup brown sugar, 2 eggs, 3/4 cup chopped nuts, 3/4 tsp. vanilla. Sift flour, measure, resift with baking powder and salt. Cream shortening and sugar thoroughly; add well beaten eggs; beat until creamy. Dredge nuts with part of flour; add flour and milk alternately to creamed mixture, beginning and ending with flour; add nuts and vanilla. Bake in moderate (375°F.) oven. Ice with Carnation Caramel Icing.

Carnation Caramel Icing

2 cups light brown sugar, 3/4 cup Carnation Milk, 1/2 cup water, 1 tsp. butter, 3/4 tsp. vanilla. Mix sugar, Carnation and water; cook until soft ball is formed in cold water; add butter, cool, add vanilla, beat until creamy.

For Fine-Textured Cakes

There is a fragile delicacy about a cake made with Carnation Milk. This is because its double cream content is broken up into finest particles. Carnation makes smoother sauces, creamier puddings, richer soups, finer-textured ice creams and candies. Try it! (See recipes above)

OLD-TIMERS WERE ON SKATES LAST NIGHT AT THE AUDITORIUM

Some old-timers who had not been on skates for 20 years were on wheels last night at the local auditorium. There were a few casualties, but no damage of importance resulted. It was a very jolly skating party and the few forced landings as the old-timers tried to navigate the turns added zest to the proceedings. The boys' band will be in attendance at the rink tonight.

COLLEEN MOORE ASCENDS TO NEW HEIGHTS IN "LILAC TIME"

The "Darling of Millions" in Great Dramatic Triumph; Capitol Crowded Last Night

Acclaimed everywhere as one of the greatest film epics ever produced, "Lilac Time," First National's Colleen Moore-George Fitzmaurice special production, based on the stage play by Jane Cowl and Jane Murfin, opened last night at the Capitol before a capacity audience.

"Lilac Time" is by all odds a great special and the most pretentious in which Colleen Moore has appeared to date. Already known as the screen's foremost comedienne, her role in this production establishes her on the topmost pinnacle as a dramatic actress. The tenderness, pathos and realism of her characterization of the little French girl makes "Lilac Time" one of the most discussed pictures of the year and the Capitol is indeed fortunate in obtaining such an early booking.

De Jausserand Pleases
As an added attraction between shows, the popular conductor of the Capitols gave a splendid performance on the violin, his solo numbers being Thais' meditation and Beethoven's Menuet.

There's a wonderful time waiting for all who see "Lilac Time" again tonight and Friday at the Capitol.

Weather Clear and Cold After Rather Heavy Fall of Snow
There was a rather sharp touch of frost last night for this time of the year, the thermometer registering 27 above zero during the night. With several inches of snow lying on the ground, prospects this morning were for a continuation for a day or so at least of cool weather which has prevailed since yesterday afternoon. The barometer was steady with a tendency upwards and the wind was in the northeast.

Bright sunshine yesterday and today has been melting the snow rapidly and some of the streets are clear in spite of the fact that nine inches fell since the first of the week.
