A SLIGHT DIFFERENCE

A General died in India, and a newspaper referred to him in an obituary notice as " a bottlescarred warrior."

This statement called forth the wrath of the late General's relatives, one of whom called on the editor and insisted on a correction appearing in the paper the next day, as the deceased had

always been a strict teetotaller. The paper next day made its attempt to placate the relatives, and referred to the General as "a battle-scared warrior!"
