BOARD TO CONTROL ALL POWER CO'S FISHERMAN LOSES LIFE FROM HALIBUT BOAT OFF COAST

Water and Power Board to Have Control of Prices and Right to Force Supply to any Consumer

No Discriminatory Rates to Be Allowed Even to Subsidiary Concerns of Power and Light Companies in British Columbia

VICTORIA, March 13.—Virtually the entire business of selling electricity will be placed under a governing tribunal to be known as the water and power board, which will take the place of the present water board of investigation, according to legislation drafted by the government.

The bill allows the water and power board to force any power company to supply a consumer with electricity at any distance from a power plant and under any condition it chooses to prescribe. The conditions under which the board should force the supply of power are left entirely to its judgment with the single provision that it sell reasonably and fairly.

The water and power board is given absolute power to fix rates charged by every company generating power in the province.

The bill has a specific provision against discriminatory power rates. This would make it impossible for a power company to sell electricity to a subsidiary or associated concern for less than the rate charged to ordinary consumers.

FASHIONABLE WEDDING AT OTTAWA

Hon. James Kenneth Weir, eldest son of Lord and Lady Weir, of Eastwood, Renfrewshire, Scotland, was married on Saturday at Ottawa to Miss Lucy Crowley, daughter of James Crowley, assistant secretary to His Excellency Viscount Willingdon, the Governor-General, and Mrs. Crowley. This photograph by Paul Horsdal, Ottawa, was taken at Government House immediately after the ceremony and shows, left to right: James F. Crowley, Mrs. Crowley, Dame Rachel Crowley, aunt of the bride; His Excellency Viscount Willingdon, the bride, the groom, viscountess Willingdon, James K. Crowley, brother of the bride, Lord Weir and Lady Weir.

After the wedding the bride and groom left for Japan, and after their honeymoon they will live at Capelrig, near Glasgow, Scotland.

DUST FROM GOBI BLOWS 1500 MILES

SHANGHAI, March 13.—Flour-like dust from the Gobi desert engulfed Shanghai in the worst storm reported here in 10 years. The dust was blown more than 1500 miles, originating in Mongolia on March 11.

REBEL LOSSES ARE REPORTED MEXICO TODAY

One of Biggest Battles in History of Mexican Revolutions Is Expected

NEW YORK, March 13.—Heavy losses were reported by the government today as powerful insurgent forces and the federal armies continued to converge on Torreon, where the next few days may witness either one of the biggest battles in the history of American revolutions or the speedy disintegration of the revolutionary movement.

SOLD HORSE FLESH FOR VEAL IN VANCOUVER AND PROSECUTIONS ARE LIKELY TO FOLLOW IN THAT CITY

VANCOUVER, March 13.—The meat dealers section of the Retail Merchants Association of Canada intends to press civic officials to initiate prosecutions against persons who are alleged to have sold horseflesh in Vancouver unlabelled as such.

George Matthews, provincial association secretary said today, "we are convinced that there have been sales of the flesh in the city." Mr. Matthews stated that he had information which showed that members of his association had been solicited to buy horse meat and sell it to the public. He declared that they had offered a member foal meat at 18 cents per pound and intimated it was indistinguishable from veal.

NEW MEMBER RAILWAY BOARD

John A. Stoneman of Saskatoon Is Appointed by Government

OTTAWA, March 13.—John A. Stoneman of Saskatoon was appointed a member of the board of railway commissioners to succeed the Hon. Frank Oliver, who recently retired. Mr. Stoneman is a past president of the United Farmers of Canada and at present he is a member of the royal grain commission, appointed by the Saskatchewan government.

OILS PROVED ATTRACTION

VANCOUVER, March 13.—Oils continued to monopolize the trade of the stock exchange yesterday. Home scoring an advance of \$2.15, Calmont 95c, Mayland \$1.25, Dalhousie 45c. There was tremendous trading in A. P. Consolidated, Dalhousie and Calmont. The trading in mines was slow.

ENGINEER HERE IN CONNECTION WITH FISHERMEN'S FLOATS

J. P. Forde, district engineer for the federal department of public works, arrived in the city on the Prince George today from Victoria, being here in connection with the institution of building of local fishery floats for which an appropriation of \$16,000 has been made by the federal government. A cove just east of the dry dock is the favored site for the floats, Mr. Forde says. Plans will soon be drawn up as the work is to proceed as soon as possible.

C.N. EMPLOYEES' ANNUAL MEETING

LONDON, March 13.—Lord Phillimore, celebrated jurist and specialist on international affairs, died today.

Halibut Fisherman Lost His Life From Dorey Near Cape Addington

Peter Fransvog and John Skartness Upset Into Sea and Latter Was Rescued After Hour and Half in Water

Reporting the fourth fatality of the so far short-lived halibut fishing season, the American schooner Tordenskjold, Capt. O. Sherwood, arrived at Prince Rupert today with a catch from the fishing grounds. The Tordenskjold lost one of her fishermen, Peter Fransvog, when a dory upset while the vessel was fishing 30 miles southwest of Cape Addington. Another man, John Skartness, fell in the water at the same time, but he managed to keep afloat and was rescued after having been in the sea an hour and a half. A search was made for Fransvog, but to no avail. The dead man was 22 years of age and had been out from Norway only three months.

Skartness, who is suffering rather severely from exposure as a result of his immersion, is being sent south aboard the Princess Mary this afternoon to hospital in Seattle.

H.M.S. COLOMBO COMING

H.M.S. Colombo, which visited Prince Rupert in 1927, is expected to be in port again during the coming summer. It is announced that the light cruiser will spend some six weeks or so in this coast.

STOCK BROKER IS ARRESTED

Charged With Theft of Funds Which Belonged to His Creditors

TORONTO, Mar. 13.—Col. Orlando Heron, head of Heron and Company, stock brokers, which failed recently, was arrested, following a meeting of the creditors on Tuesday, charged with the theft of more than \$100,000. The total liabilities of the firm amount to more than \$2,000,000 and the assets amount to little more than \$500,000.

Heron said at the meeting of the creditors, "I think my losses came from being short on the market."

LOCAL MEMBER ASKS QUESTION

Inquires Regard to Manufacture of Steel From Black Sand

OTTAWA, Mar. 13.—The question as to whether or not the British and United States interests presenting a capital of \$500,000,000 was approached by the Dominion Government with a view to establishing electric plants on Vancouver Island and at St. John to manufacture steel.

J. C. Brady, Conservative for the Skeena riding also asked whether John W. Houldsworth, managing director of the Iron Ore Process Ltd., of London, Eng. and a representative of the Anglo-United States interests, would hold an interview with Dominion government representatives in order to secure cooperation in that direction.

The question on the order paper by Mr. Brady has to do with manufacturing steel from black sand.

ROAD OUT OF PRINCE RUPERT

In the report given by the Victoria Colonist of the committee discussion in the legislature in which Prince Rupert is mentioned the following occurs:

Mr. Pattullo asked about the road from Prince Rupert, which Mr. Loughheed stated was to be followed up.

Mr. Pattullo asked about the bridge out of Prince Rupert.

The minister said it was not the intention to build that this year. It was not deemed wise to place it until the location of the road on the other side was fixed and construction entered upon. He also alluded to the need there was for road construction on Queen Charlotte Islands.

TENNIS COURTS FOR P. R. CLUB

Proposal Made to Build New Ones or Repairs May be Made to Old Ones

The Prince Rupert Tennis Club is finding itself in a position where something has to be done to provide courts on which to play. The old courts are out of repair and at best cannot last long, even if a good deal of money is spent on them. There are only two courts and the club would like more than two. Of course the difficulty is in the matter of finance. Money is needed to carry out improvements on any large scale. While the club is in good financial standing and has some cash on hand it will be necessary to raise a good deal to carry out such work as would place the courts in such condition as the members would like.

The general annual meeting of the club is being held tomorrow evening and the matter will then be discussed by the members and doubtless some course of action will be decided upon.

YUKON ICE TO GO OUT EARLY IN MAY

Private Wire From Dawson Forecasts When Northern River May be Clear This Year

A private wire received by a local citizen this morning from Dawson stated that, owing to the past winter having been so mild and snowfall so heavy, early dates in May were being favored for the ice to go out on the Yukon River this spring. Those interested in guessing on the going out of the ice may appreciate this information.

Passengers sailing from here for the south on the Princess Mary tonight will include: Miss E. Barnett and J. Waugh, for Vancouver; Mr. and Mrs. E. Bourgett, Miss S. McKellop and Mrs. A. McKellop and J. Skarpness, for Seattle.

HOW SEAGRAVE GOT HIS CAR

Was Gift of Millionaire, Oliver J. S. Piper, Noted English Sportsman

DAYTONA BEACH, Fla., March 12.—The \$75,000 racing car with which Major H. O. D. Seagrave wrested the speed record from the United States yesterday was the gift of a millionaire.

About 18 months ago Oliver J. S. Piper, noted British sportsman, and chairman of the board of directors of the Red Triangle group of cement companies, walked unexpectedly into Major Seagrave's office.

"I hear you want to get the record back," he said. "Well, go ahead and get a car built. Tell the designer that he can spend what he likes and that he is to spare no money in making the car as safe as is humanly possible."

Experts declare the car to be one of the most extraordinary feats of modern motor engineering. Almost every component part has been chiseled from solid chunks of steel, even to such minute parts as nuts and bolts. Specially constructed machines have turned out every bit of metal in its make-up with the care and delicate workmanship accorded a work of art.

The car was designed to yield a maximum speed of 280 miles per hour, but as a safety measure it has been curbed to do only 240 miles per hour. The cockpit, which just fits Major Seagrave's slim body, is encased in armor plating. It is thought impossible for the car to overturn, owing to its low centre of gravity, but should such an accident occur the armor plate is expected to take the shock. Major Seagrave is strapped in his seat.

The car is shaped like a bullet and steered like one. Every part is streamlined, including such small items as the steering-rod joints.

PORTLAND WGN HOCKEY GAME

Cubs Played Well but Lost by Score of 2 to 1

VICTORIA, March 13.—Although playing a fine brand of hockey, the Cubs went down to defeat in the Coast Hockey League fixture before the Portland Buckaroos here last night 2 to 1.

It is the last appearance of the Buckaroos here this season. The Buckaroos scored one in the first period and the Cubs evened in the second. Portland got the winning tally in the final session.

CHANGES MADE BISLEY MEET

BISLEY, Surrey, March 12.—Constant improvement is the keynote of the great annual shoot of the National Rifle Association at Bisley in July. The program, when available, will show few changes from last year, but every change is an improvement.

One of the most important alterations, and which has caused a great deal of discussion, is the new ruling concerning the mother country's team for the Kolapore cup. It is ordained that no one may be a member of the homeland team on more than three occasions and the rule is retrospective. This decision will be welcomed by aspirants to international status also probably by many of the veteran shots selected, willy-nilly year after year. In the last seven years 28 men have filled the 56 available places in the teams Arthur Fulton has been selected every year. Lt.-Col. Marchmont Dr. Kelly and H. G. Burr have each shot four times and Major Ranken and Captain Douglas figured in three teams. By the new rule they are all ineligible and their absence will leave places for young and comparatively untried marksmen. Some comment is made from the dominions, however, that the Empire contender from overseas have a right to be opposed by the best available shots.

I. SCHWARTZ HOLDS TITLE

Still Flyweight Champion After Slugging Match With Belanger

TORONTO, March 13.—Izzy Schwartz, recognized flyweight champion of the world by the New York state boxing commission, retained his title here last night in a sensational slugging 12-round bout with Frenchy Belanger of Toronto, the Canadian champion.

England Starts Second Innings With 28-Run Advantage but Crack Player Out First Ball

CAUGHT AT WICKET

Fifth Test Match Stands With England One Wicket Down and Lead of 46

MELBOURNE, Australia, Mar. 13.—England captured the remaining Australian wickets today to retire the side for 491 runs and took a 28-run advantage into the second innings of the fifth test match. This advantage was quickly nullified, however, when Jardine was caught at wicket on the first ball bowled to him. England had batted but a few minutes when the bad light compelled a halt for the day, leaving their score 18 runs for the loss of one wicket, a total lead for the visitors of 46.

BOSTON WILL PLAY FRENCH CANADIANS

Americans and Rangers Also to Meet in Two-Game Series

TORONTO, March 13.—If the present standings of the teams in the National Hockey League divisions remain unchanged, Boston and Canadians will meet in the best three out of five series commencing in Boston on March 19. The N. Y. Americans and the N. Y. Rangers in the meantime will play a two-game series, total goals to count, on March 19 and 21. Detroit and Toronto will stage a similar series on the same dates. The winner of the New York series and the winner of the Detroit-Toronto series will then meet in the best two out of three for the right to play either Boston or the Canadiens.

Sport Chat

It is extremely doubtful if the Mexican revolution will spread so much that any of their sources of real profit are endangered. Frinstance, nobody seems to be worrying about anyone wanting to capture Tijuana. The ponies continue to do their stuff and the followers of the sport scarcely know there is a revolution in progress. The Mexicans are not so dumb at that.

The general impression is that Bill Carey, big railway builder and a pal of Dempsey's since they joined forces in promoting the struggle of Jack Sharkey and Young Stribling to a financial success at Miami Beach, will make a final attempt to convince Jack Dempsey that he has at least one more good fight in his system. Dempsey admits that Carey is working on fertile ground, if at the same time it can be proved that the chances for victory are overwhelming. Dempsey will not come back to the ring if he has the slightest expectation of defeat.

Net Surplus Before Paying Dividends is \$14,892,257

MONTREAL, March 13.—Results of the operations of the Canadian National for the year ending December 31, 1928, as shown in the preliminary reports by the railway, indicate the gross earnings are at the highest level in the history of the road.

The showing was equal to 14.89 per cent on the indicated common stock and compares with 12.07 in the preceding year. The statement shows the gross earnings at \$229,039,297. Working expenses account \$177,344,848, leaving the net earnings at \$51,694,452. The net surplus for the year was \$14,892,257, as compared with \$5,497,230 in 1927.

HOPPS STATES RAISE TARIFF

Plunkett Says Enough Red-Blooded People in Country to Demand Increase Here

OTTAWA, March 13.—Speaking in the budget debate, Darryl P. Plunkett, Conservative member for Victoria, said the cabinet ministers had promised assistance to British Columbia industries, which he intended to ask them to implement.

Mr. Plunkett said it was hoped the United States would raise their tariffs because there were enough red-blooded people in this country who would then effectively demand an increase of the tariff here.

FORCE CANNERY CASE TAXES

Reimposition of Property Tax to Be Used as a Lever

VICTORIA, March 13.—A bill to amend the Taxation Act was introduced by the minister of finance, where power can be taken, in case of necessity, to reimpose a personal property tax in the case of fish cannery taxation. This was brought about in order to provide that the "case tax" which has been in force against the canneries, may be paid by all those concerned without any shirking of the responsibility.

PRINCE OF THE GOLDEN NORTH

That Prince Rupert should be known as "Prince of the Golden North" is a suggestion made to The Daily News. With the revival of interest in the north and its general development, it will soon be looked upon as a place where money may be made. Already the mines are getting into a condition in which they may be able to pay dividends and some will return fortunes to lucky investors. There is more interest taken today in northern and central British Columbia than ever before and Prince Rupert is the pivotal point, no matter what railway is built or what developments may go on at other places. "Prince of the Golden North" seems to be a rather appropriate title for this city.

PROVINCIAL GOVERNMENT

While we have objected to the curtailment of the work on the Skeena highway this year by the provincial government, and we feel that in this day of road building when huge sums are being spent in the south, we might at any rate have been given the bridge this year, so that work could proceed in 1930 without any handicap. We do not wish to set ourselves up as critics of everything the present government is doing. Judging from the meagre information at hand, it would seem as if the teachers' pensions scheme was a good one and the proposal to have a supervision of the public service corporations is also a step in the right direction.

JOINT PLANS WORKING OUT WELL

(Edmonton Journal)
 "When the C. N. R. and the C. P. R. decide to co-operate," Sir Henry Thornton told the railway committee, "they do so 100 per cent. When they decide to fight they do so 100 per cent." Their fights now seem to be fairly well adjusted and they ought to be able to concentrate on their co-operative plans. Those which concern this province are being worked out most satisfactorily, judging from the C.N.R. president's statement to the committee. That body had before it the bill approving of the agreement for joint purchase and operation of the northern Alberta lines. Sir Henry said that he could not conceive of any difficulty arising between the two companies in the carrying out of the project. When questioned regarding the coast outlet, he replied that he was considering it, as he had promised to do when the Peace River country had produced ten million bushels of grain. Vice-President Coleman of the C.P.R. declared that acquisition of the Alberta railways would advance the prospects for the outlet and Sir Henry is apparently of the same opinion. But he thinks that branch lines are more needed at the moment. His reference to the hardships imposed on farmers who have to haul their crops from 50 to 75 miles indicates that he is prepared to take energetic measures to give them relief. There was nothing in the arrangement, he informed the members, to prevent either company from building branches. But the likelihood is that the co-operative principle will also be applied to these and that they will be more numerous and more quickly constructed as a consequence.

HONORED BY THE KING

The King's Honors List, postponed from New Year's until His Majesty was sufficiently well to confer his honors on deserving subjects, was published on the last day of February. Among those to receive recognition for their excellent services to the Empire were Admiral Sir Osmond Brock (left), Commander-in-Chief of the Portsmouth Command, who was made one of the Knights Grand Cross of the Bath, and Lady Harry Brittain, (right), who was made Dame Commander of the British Empire.

FISHERY FLOAT SITE IS URGED

East End Property Owners Would Have it Near Dry Dock—Road Program to be Drawn up

The Section Seven and Eight Ratepayers' Association last night passed a resolution recommending that the fishermen's floats, money for which has been provided in this year's federal estimates, be installed in a small cove just east of the dry dock. This is considered to be as favorable and sheltered a site as is offered anywhere on the waterfront. It could also be made fairly central by a road up the east side of Hayes Creek. A committee was appointed to go into the matter of roads and other improvements which will be sought for the east end of town. Organization of the association is proceeding and a constitution was adopted last night. Officers will be elected at the next regular meeting on the second Tuesday in April. Last night's meeting was held in Rupert East United Church and there was a large attendance, including many ladies, with Ex-Ald. G. B. Casey presiding.

ASSISTANT TO LIBRARIAN IS BEING ASKED

Small Amount Placed in Estimates to Cover Expense of Part Time Service

The Prince Rupert library board is asking the city this year for an extra \$150 to cover the cost of an occasional assistant for the librarian. At the board meeting last night, Alderman Frank Dibb presiding, it was pointed out that at the present time Miss Cruickshank had more than she could do. In addition to the ordinary work which the public see, the librarian has to prepare the orders for new books, catalogue them on arrival, replace the books which come in during the day, repair those which are slightly torn or otherwise injured, make up shipments for re-binding, and attend to a large amount of minor detail, all of which takes time. The result is that books which might be repaired and replaced on the shelves are stacked up and generally there is a loss of effectiveness owing to there being more than one person can possibly do. To alleviate the pressure on the time of the librarian, it is proposed to employ a young lady two or three half days each week, doing the simple work which will to some extent relieve the librarian. While it was felt that regular help every day could be used with advantage, the board feared to ask too much this year, and accordingly are confining their request to \$150. The fact that insurance has to be paid this year also increases slightly the amount required for maintenance, so that the amount asked by the board from the city is about \$300 more than last year. That will not allow for any increase in the number of new books purchased.

The Greatest Man in the World

TO those dear to you, you are the greatest man in the world . . . the wisest and the most far-sighted. They trust you to protect them from hardship and privation. And to the best of your ability you would do so. Yet there may come a day when you will no longer be here to shield them . . . to provide for their needs. Will their faith in you then be justified? You realize that their confidence challenges you to greater vigilance in their behalf. Have you made the provision for them that you know to be

necessary? Is your Life Insurance sufficient to meet their needs? Do you realize that \$5,000 invested at 6% yields an income of less than \$6 per week? For the sake of those who love and respect and trust you . . . those to whom you are the "greatest man in the world" . . . take pencil and paper, and figure how much you have done toward the building up of an estate. Then call in the representative of any Life Insurance Company and learn how little is the cost of adequate protection.

Smith College she wrote the following:

Ivy Day Song

Ivy we plant, remembering these,
All beauties here we prize;
Purple of hill and bare black boughs
Against December skies.
Hour of trailing willow lace
We reverently name
And white April burning out
In Chestnut candle flame.

Patterned on a twilight slope
Shadows on the grass
And after dark along the walks
Laughter and steps that pass.

Net ours alone, we leave to you
Shadows and hills and trees.
We plant the ivy here today
Remembering these.

Another of her undergraduate poems follows:

Remembrance

Yours hands have curved about
this bowl. Your lips have left
a kiss upon this teacup's rim.
Frail and inanimate things that
can outlast
Your beauty.

Have they no memory of you
singing still about them, echoes
of yond melody,
If I might catch my breath and
bow my head
To hear?

Do their bright surfaces remember
not so faint and tremulous
flutter of the wings of light
and shade and color that were
you?

No print of touch, no perfume
lingering,
That beauty's ghosts joined
hand to hand might serve as
beauty's self, refashioning your
loveliness for me?

Mute bowl!
Mute cup!
I might as vainly ask
The scene of some late jonquil to
recall
Lost April.

TELLS ABOUT BURIED VILLAGE

Member of Stoll-McCracken Expedition Lectures Before Anthropology Club

NEW HAVEN, Conn., Mar. 12:—The discovery in Alaska of buried prehistoric villages which yielded hundreds of archaeological relics new to science was described here by Edward Moffatt Weyer, anthropologist and archaeologist for the Stoll-McCracken arctic expedition which set out from New York last spring on the ship *Hermes*.

Mr. Weyer, who lectured before the Yale Anthropology Club, described Alaska as the probable gateway through which passed the early Asiatic immigrants and where the first scene of human history in America took place.

"The American continent is younger with regard to human occupation than the eastern hemisphere," Mr. Weyer told his audience. "The very first immigrants to them, the forerunners of the American Indians, doubtless came from Asia. Thus Alaska, which lies much closer to Asia than any other part of America, was probably the gateway through which passed these early Asiatic immigrants. The northwestern corner of North America, therefore, can be regarded as the

most scene of human history in America.

"No aborigines of Arctic America, so far as is known, ever used a written language. Consequently the mute relics of material culture are the only source of historical information here. Nevertheless, the buried prehistoric villages of Alaska yield secrets to the archaeologist."

On the almost inaccessible summit of a precipitous island in the Aleutian chain, the expedition discovered a grave containing mummies of unknown age. By reason of their careful preparation for burial, the bodies remained in a remarkable state of preservation. This grave afforded the first comprehensive information concerning this type of burial in the Aleutian Islands before the introduction of higher civilization.

Later, for six weeks, Mr. Weyer pursued his investigation in the region of Bering Strait, the neck of water fifty miles wide separating Asia and Alaska. Part of his time he passed on the Diomede Islands, where dwell the most primitive Eskimos in this section of the Arctic. In connection with his motion pictures, which are the only ones ever taken on these islands, he related many interesting customs which these Eskimos practice.

LINDY'S GIRL WRITES POETRY

One or Two Selections From Pen of Miss Anne Spencer Morrow

NEW YORK, Mar. 13:—The "Lone Eagle" is to marry a poet, some of whose verse tells of the rapture of pushing one's head against the blue sky and one's lips against a cloud. Miss Anne Spencer Morrow already has flown with Col. Charles A. Lindbergh. Her poem "Height," winner of an alumnae prize, was published by Scribner's magazine in April, 1928, after the Lone Eagle's first visit to Mexico City. The poem follows:

Height

When I was young I felt so small
And frightened, for the world
was tall.
And even grasses seemed to me
A forest of immensity.
Until I learned that I could grow
A glance would leave them far
below.
Spanning a tree's height with my
eye,
Suddenly I seemed as high;
And fixing on a star I grew—
I pushed my head against the
blue;
Still, like a singing bird, I find
Rapture to leave the grass be-
hind.

And sometimes, standing in a
crowd,
My lips are cool against a cloud.

Vary your dinners with fish and eggs

by Mary Blake

Women often tell me that their greatest difficulty in meal planning is to get variety into the main dish. It is easy enough to build a dinner, once you have selected the meat, but it takes thought to get away from the obvious round of steaks and chops and roasts.

Why not now and then substitute fish or eggs? By combining either one with milk, you have a dish rich in food values—proteins, minerals and vitamins. There are any number of delectable ways in which these combinations may be made—omelets of all sorts, creamed eggs, souffles, creamed tuna, shrimp or lobster, scalloped oysters, salmon souffle.

You must have a dependable milk supply
In any cooking that calls for milk, I never take chances. I use nothing but Carnation Milk. I know that it is the purest of high grade milk from selected herds. I know that it is rich in cream—doubly so—for it is evaporated to double thickness. I know that I will always find it sweet and good, no matter how large the quantity I have on hand, for it is sterilized for safe-keeping.

I can count on Carnation always for notably delicious results—extra creaminess, velvety smoothness of texture, fragile delicacy of flavor. The best informed domestic scientists agree that it is not only better in results than ordinary bottled milk, but that it is particularly economical.

If you want to know what a great new field of cooking success awaits you in the use of Carnation Milk, send for free Cook Book. Address Carnation Milk Products Co., Limited, 134 Abbott Street, Vancouver, B.C.

Carnation Tuna Fish a la King
2 tbs. butter, 1/4 green pepper shredded, 1 hard-cooked egg, 1/4 cup chopped mushrooms, 3 tbs. flour, 1 cup Carnation Milk, 1 cup water, salt and pepper, 1 1/2 cups tuna fish, 1/2 cup peas. Sauté green pepper and mushrooms in butter until tender (about 10 minutes), keeping covered. Remove mushrooms and pepper and blend flour with butter; add Carnation diluted with water and cook until mixture is thickened, stirring constantly. Place flaked tuna fish, peas, egg, mushrooms and pepper in double boiler; add sauce; cook over hot water 10 minutes. Serve in patty shells or on toast points. Serves 6. Lobster or shrimp may be used in place of tuna.

Baked Eggs a la Carnation
1 1/2 tbs. butter, 1 1/2 tbs. flour, 1/4 tsp. salt, 1/4 tsp. pepper, 1/2 cup Carnation Milk, 1/2 cup water, 4 to 6 eggs, buttered bread crumbs. Make white sauce of butter, flour, seasonings and Carnation diluted with water. Pour into shallow baking dish. Cover sauce with eggs, being careful not to break yolks. Sprinkle buttered bread crumbs over top and bake in moderately slow (325°F.) oven until eggs are firm. Garnish with parsley.

The Best of Milk

Carnation Milk is simply pure, sweet whole milk, evaporated to double creaminess. Nothing is added; nothing removed but about half the water. Try this dependable, convenient, economical milk.

BRIDGE PARTY AND DANCE AT SOUTHBANK

Mrs. H. C. Shinn and Mrs. Howard Pringle Hostesses at Delightful Affair Held Recently

SOUTHBANK, Francois Lake, Mar. 13.—Mrs. H. C. Shinn and Mrs. Howard Pringle were joint hostesses at a five table bridge party and social evening which was held here recently. Dancing and the serving of delicious refreshments were other features of the affair.

During the supper hour, prizes were presented to the bridge players. Mrs. T. Jeffery received a Pyrex pie plate while a novelty Easter package went to Mrs. J. H. Keefe. F. R. Keefe received the men's first prize, a cigarette lighter, while the men's consolation prize, another Easter package, was presented to V. Taylor. A thoroughly good time was enjoyed by all.

Those present were: Mrs. John Bostrom, Miss Thelma Bostrom, Miss Alma Bostrom and Evra Bostrom, Grassy Plains; Mr. and Mrs. V. Taylor, Mrs. W. Jeffery and Mrs. T. Jeffery, North Francois Lake, and Mrs. H. Corner, Mr. and Mrs. P. R. Keefe, Mr. and Mrs. J. H. Keefe, Reginald Tweed, Mr. and Mrs. B. Little and Mr. and Mrs. H. C. Shinn, Southbank.

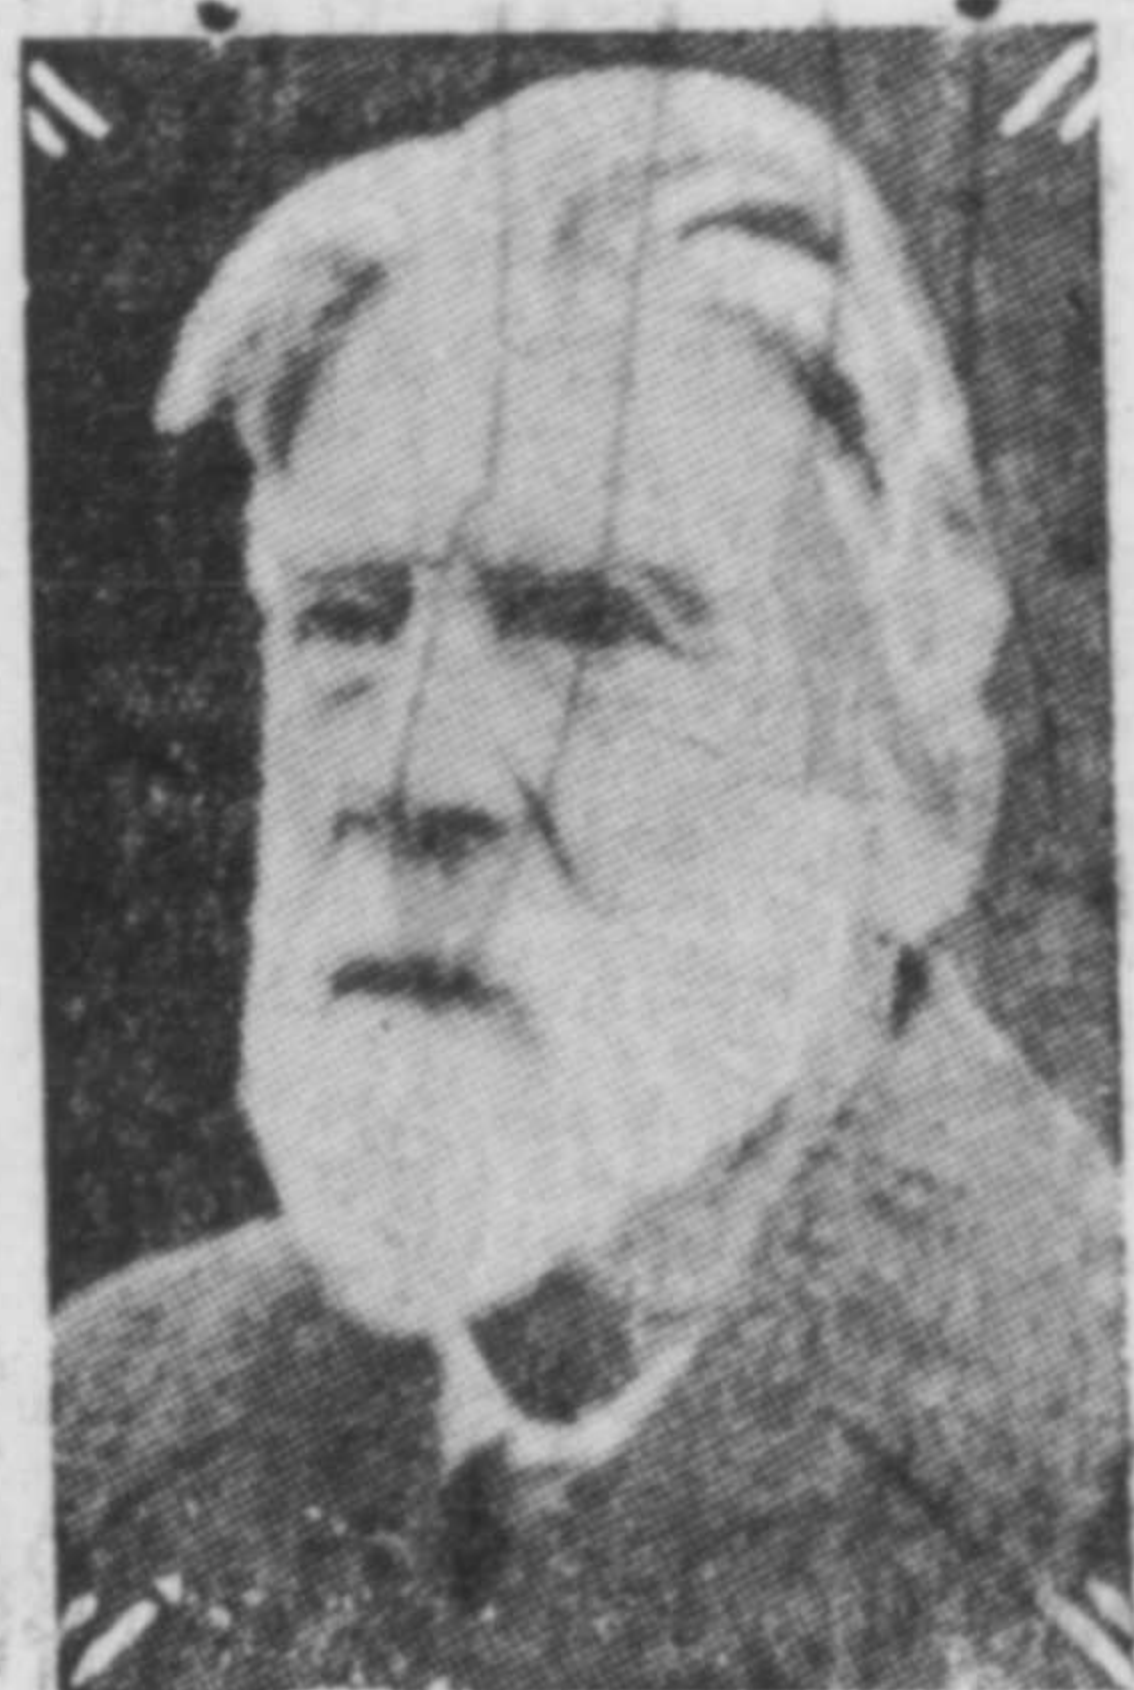

PUBLIC WORKS MEN IN DISTRICT MOVE

Pethick Transferred From Smithers to Vernon and Young From Bella Coola to Powell River

G. H. Pethick, assistant district engineer for the provincial department of public works at Smithers for some time, and who was identified with the engineering department of the Grand Trunk Pacific Railway during construction days in this district, has been transferred to Vernon and will be succeeded at Smithers by G. C. Tassie from Vernon.

Another departmental transfer is that of George Young as general foreman from Bella Coola to Powell River. Mr. Young was at one time located at Alice Arm in the service of the department.

ALICE ARM LODGINGS ACCOUNT SUBJECT OF SUPREME COURT CASE

The court of appeal in Vancouver has reserved judgment in an appeal of J. E. Tretheway, William Gray and R. W. Harrit, as executors of the estate of the late J. O. Tretheway, against a \$500 judgment by Judge Ruggles of Vancouver in favor of Mrs. Elsie M. McCoy of Vancouver. Mrs. McCoy claimed that the late Mr. Tretheway became indebted to her for lodging at the Alice Arm Hotel, which she conducted several years ago. She successfully sued the estate in county court.

WANTED TO SPEAK TO MR. KIPLING IN THE EDMONTON LIBRARY

(W. A. deGraves in Bulletin) He was a very dignified sort of a man and he walked into the city library a few days ago, and paused as he passed the janitor, who was just cleaning up the entrance.

"I want to find a poem that says, 'I learned about women from her, if you don't mind,'" he said amiably. The janitor was unable to assist him, but another book-borrower who heard the query volunteered the answer. "Just go over to the counter there and ask for Kipling," he said, and walked on as the stranger bowed in the style of one of the old guard. "I want to find Mr. Kipling," he

said a moment later, quite importantly, to the assistant librarian on duty. The assistant meditated a moment.

"I don't know of any Mr. Kipling working in the library. What does he do?"

"I don't know what he does," said the dignified one, "but I was informed that I should see him about a matter of some importance to me." Told again that there was no Mr. Kipling working at the library he refused to leave, standing his ground and still unconvinced. It wasn't until he happened to mention what he wanted to see Mr. Kipling for that the truth dawned on the library officials. Then he got the book he wanted.

That's a story told by a confirmed library visitor—but it sounds too good to be true.

FOOD FISHES

Since its inception in Canada, fish cultural operations have been almost entirely confined to the more important fresh water and anadromous food fishes, but in recent years more attention has been given to the propagation of game fish, such as speckled trout in the east and cut-throat and rainbow trout in the west.

Beauty and Performance

BEAUTY finds a new expression in the Ford car. Perfect proportion serves to mould its low lines in pleasing harmony. Graceful, full crown fenders, acorn type headlights and full-nicked radiator shell and appointments set off its dignified appearance.

Performance in the Ford car implies more than smooth speed, flexibility, getaway and instant response to the brakes. The word covers inbuilt quality, precision methods of manufacture, and inherent balance—all of which make for many thousands of miles of carefree motoring.

ECONOMY—Month after month, as you have the opportunity to test this Ford car of yours, the realization grows that it costs very little to operate. You find that you get over twenty miles to the gallon of gasoline in city driving; nearer thirty on the open road. It is sparing on oil. Tires last longer than you anticipated, because the car is light and braking smooth and even. Ford labour and parts are low and Ford service is available everywhere.

LONG LIFE—Your Ford car is not outstyled from year to year. You can drive it as long as you like and it will hold its own in any company. Rather than creating yearly models, the Ford Motor Company's policy is constantly to make improvements which can be incorporated with your car at low cost.

SAFETY—The fully enclosed six brake system grips the flying wheels with silent power. The windshield is of shatterproof glass. A steel body gives maximum protection. Even at high speeds the perfect balance of the Ford car and its unique and effective transverse springs hold it firmly on the road. These features contribute to both physical and mental comfort.

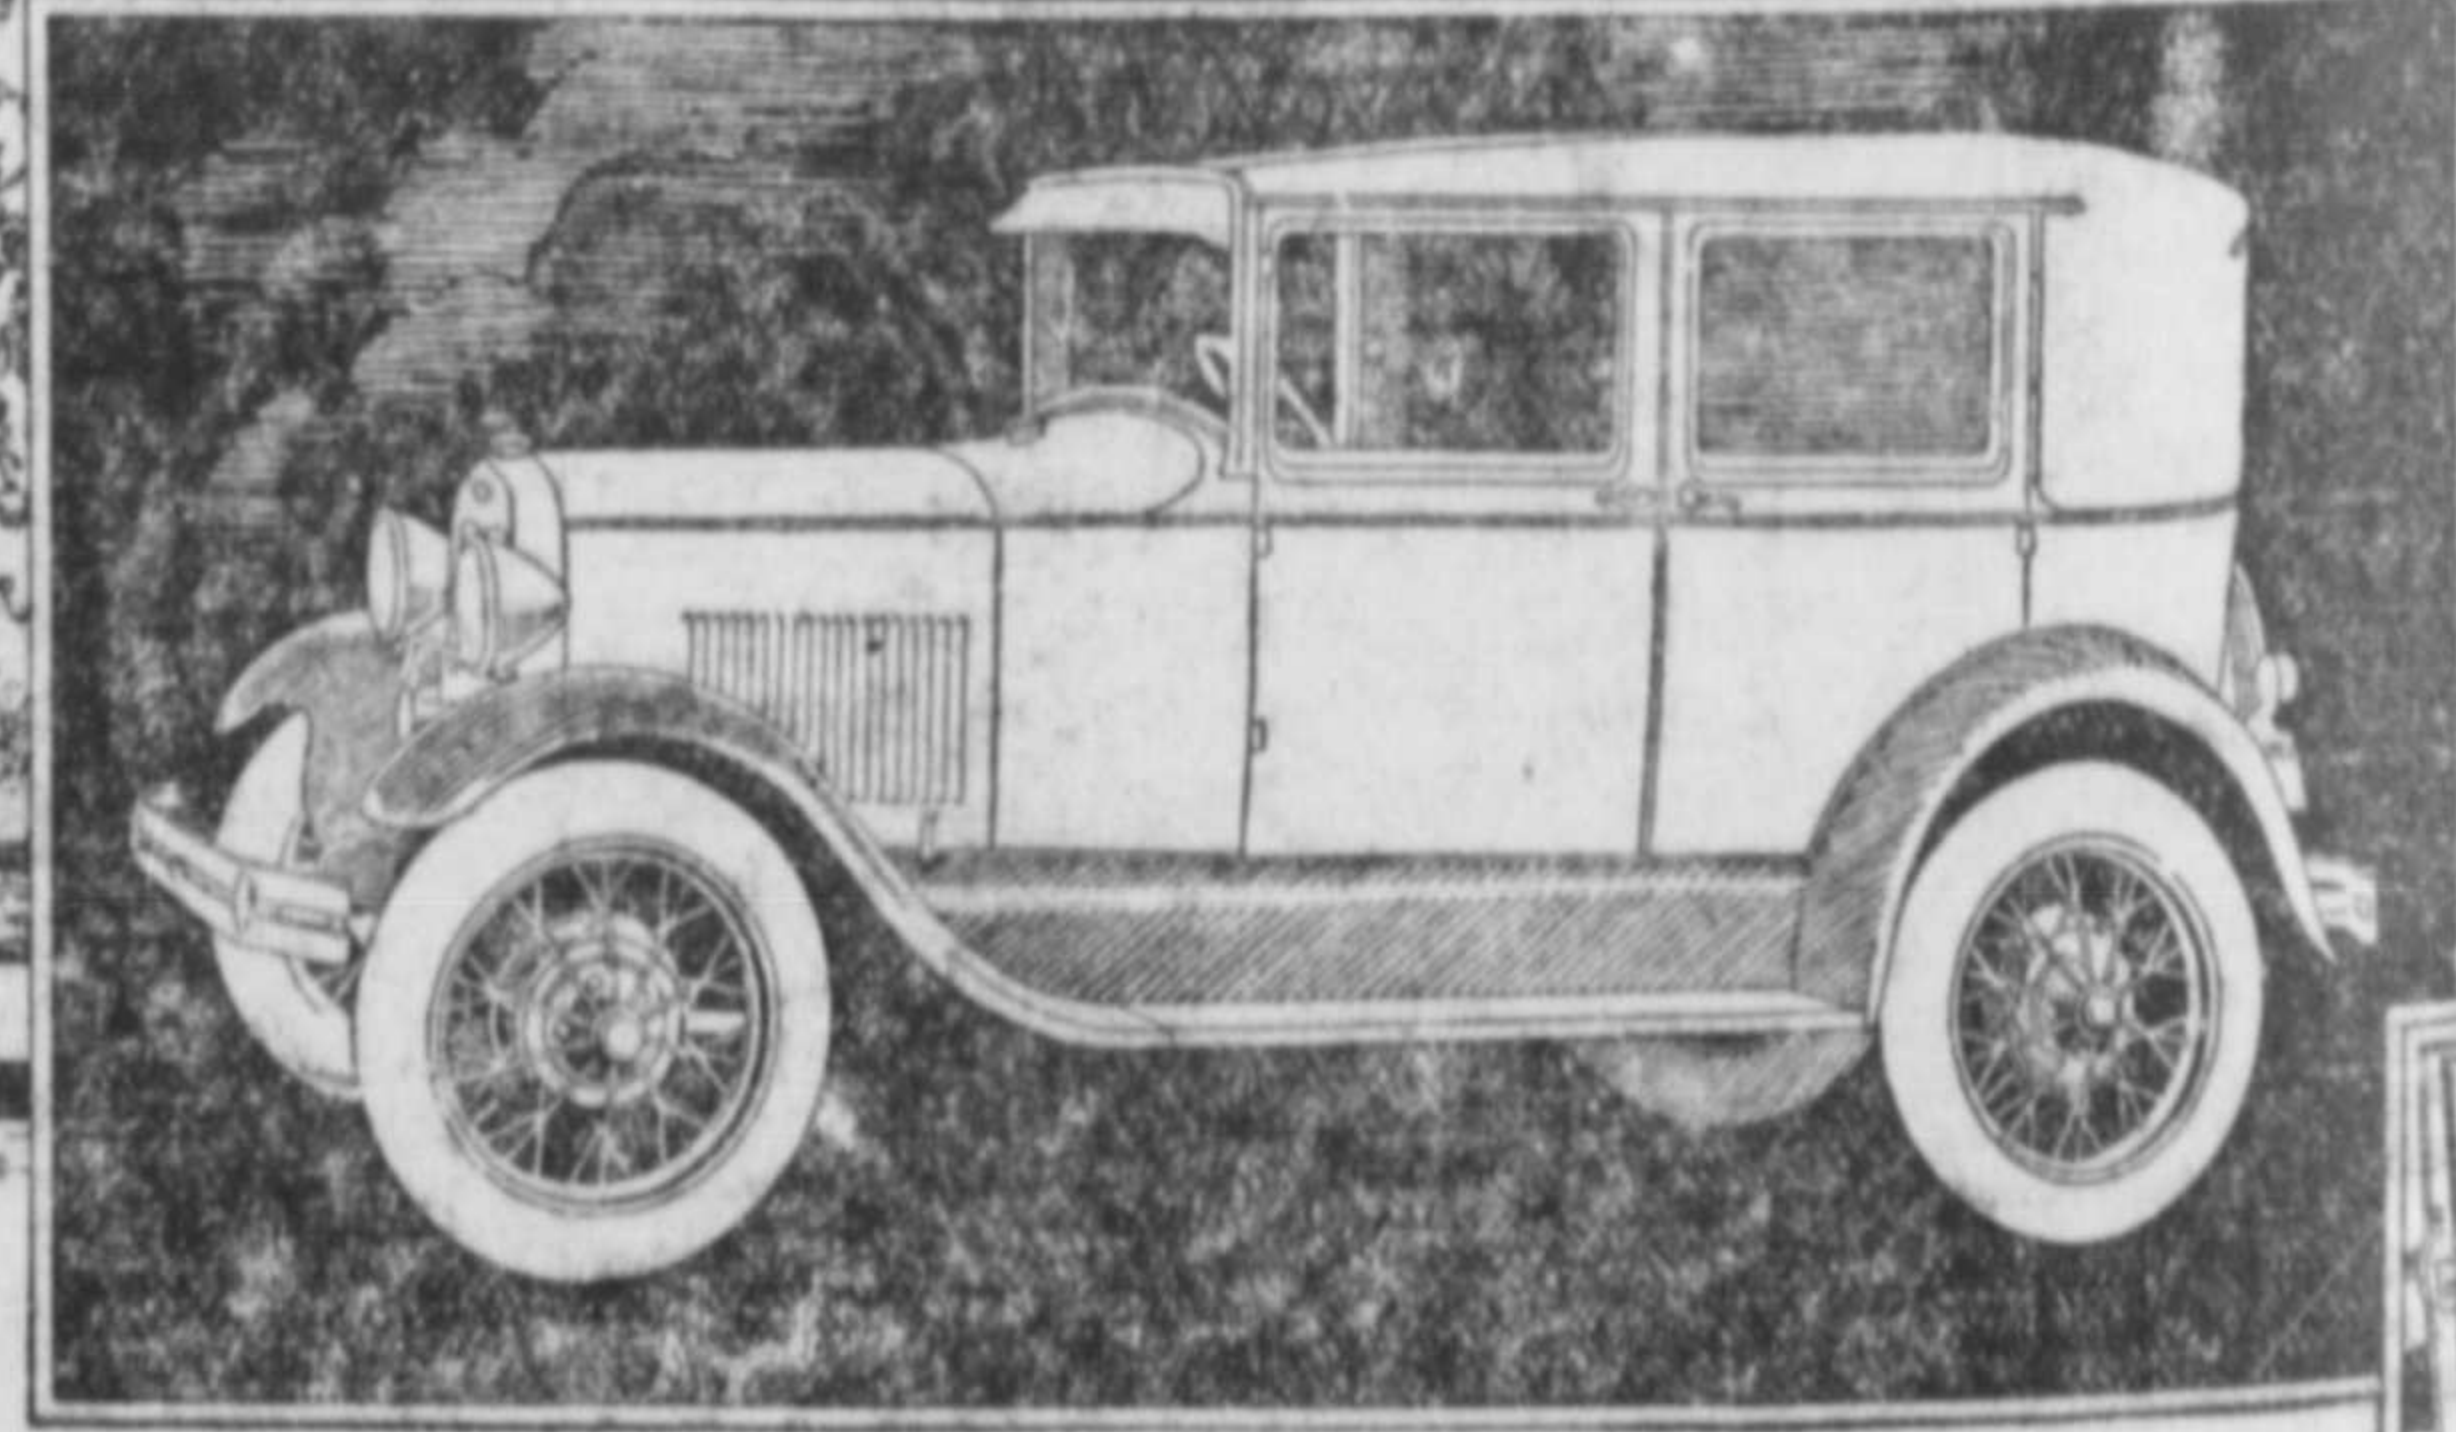

SIMPLICITY—Behind the whole plan of the Ford car is a basic principle that has been followed to the letter. This may be expressed in the words "Make it better—make it simpler".

TIME PAYMENT—If you prefer to buy out of income, you will find the authorized time payment plan offered by all Ford dealers most attractive.

Drive it Yourself—there is no Better Test

Ford Car Features

- Choice of colours
- 25 to 35 miles per hour
- 40-horse power engine
- Full balloon tires
- Fully enclosed six-brake system
- Houdaille hydraulic shock absorbers
- 20 to 30 miles per gallon of gasoline
- Shatterproof glass windshield
- Theft proof ignition lock
- Reliability and low upkeep

The inherent safety of the Ford car is comparable to that of a modern built car. Note the inward seat and the protective arm rest.

Newlyweds Fact and Fable Both MARRIAGE—Bells! There's a home to be planned, each room to equip and arrange, house, plans to discuss, consultations with contractors, many stores to visit and many visits to stores. To the newlyweds there are the spending days of a lifetime—days of joy and thrill—buying for the home to be, but still another pleasure they have added to these memorable shopping hours—pride in knowing that the products of their homeland. "Because our mutual progress through the years to come depends on the prosperity of our country, we will build our home and make our home with the products of our local industries."—This is the pledge of the newlyweds.

SOUND ADVICE

Young married people will easily recognize the importance of the "Buy B.C. Products" idea. The prosperity of both depend on the young husband's progress in his vocation. As the demand for the manufactured articles of British Columbia increase so will the young husband's position be made more secure and his advancement more certain. Obviously we should demand first and always the B.C. Product.

SKYSCRAPER IN PRINCE RUPERT

"Skyscraper," starring William Boyd, whose rapid rise in the movie world caused a sensation, is the mid-week attraction at the Westholme. It is a story of exceptional interest and novelty with lots of pep and action. Boyd and Alan Hale are a couple of rough-neck steel workers and their love affairs throughout the picture are a source of merriment and joy. The scrap on an eight-inch girder ten stories above the pavement provides an honest to goodness thrill.

Supporting roles are taken by Sue Carol and Alberta Vaughn. There is also a tip-top comedy and a gazette. A fine musical program has been arranged.

CRITICS ACCLAIM "SUBMARINE" GREATEST PICTURE OF YEAR

Big Picture Opening at Capitol Tonight Is Composite of All Great Undersea Disasters Made Into Dynamic Photodrama

"Submarine," the Columbia De Luxe special, which comes to the Capitol Theatre tonight, is a composite of the most thrilling incidents in all the great submarine disasters of the past. It graphically pictures the conditions under which the rescuers work, the steps being taken by the government to safeguard the lives of the men in submarine service, the conditions of the sailors entombed in a wrecked underwater craft and the efforts to get oxygen down to the vessel.

The interior scenes were reconstructed from actual descriptions by survivors. They are tense, dramatic and pathetic. The captain trying to keep up the spirits of his men when he realizes that there is practically no hope of rescue; the efforts of Graves, as an officer to entertain the men with card tricks and by telling fortunes; the pathetic scene of a youth, who had visions of becoming an admiral, writing a postscript on a card to his mother "I guess I won't be an admiral now," are a few of the highlights in the production.

Every newspaper reader recalls the horror of submarine disasters, the interest with which the public read descriptions and breathlessness with which it awaited news of the rescue. "Submarine" gives the summary of each of these in a most dramatic manner. It is real, convincing and illustrates just what occurs under water.

This wonderful picture had a two weeks' run at the Pantages, Vancouver, last month, a great record for any film. It carries just enough comedy to make it "ideal picture entertainment." Don't miss it!

NOISE LAST NIGHT IN RADIO RECEPTION

Complaints were made to The Daily News this morning that there was a great deal of noise on the radio receivers last night. While reception was weak and very few local stations could get anything worth while, all seemed to have been annoyed by what seemed like a local disturbance. It was something new that has developed and seems to have affected the whole city.

CHAS. COURTIER IN NEW ROLE

Master Sleight-of-Hand Artist to Sing at Capitol Tonight

Charles Courtier, whose clever sleight-of-hand performances have been so mystifying to Capitol audiences this week, will appear tonight, Thursday and Friday in an entirely new act giving his own conception of the famous "Cigarette Catching" as performed by such stars as Traxton and Cardini, together with miscellaneous magic.

In addition, Mr. Courtier, who is late principal tenor with the De Wolf Hopper Opera Co. in Gilbert and Sullivan repertoire, will offer a group of songs.

PRAISE FOR THE LIBRARY

Secretary of Public Library Commission Commends Work as Carried on in City

Prince Rupert people are proud of their library and it is satisfactory to know that it is appreciated by experts who should know what is required. Following the sending of the annual report to the Public Library Commission, the local librarian, Miss Alice D. Cruikshank, received the following acknowledgment from Herbert Killam, the secretary:

"Many thanks for your letter with the detailed statements regarding your library. You had not sent such figures with your annual report, and I am very glad to have them. It gives me a clear idea of your operations and progress."

"You seem to have a very good proportion of your citizens signed on as card-holders; and the average use of books is good. Apparently your duplicate pay collection is a help in releasing some of your funds for the purchase of other books than fiction. By the way, you are certainly buying some good stuff. I notice that your expenditures for various purposes are just about in the proportions recommended as best, by various library authorities."
