VANCOUVER, April 24.—Criticism of the proposed sale by the Provincial Government of six million dollars worth of bonds was made today by T. D. Pattullo, opposition leader. He said:

"This is another private sale. Announcement of the public tender is only a blind as to what is actually happening. Local firms received notice Monday of the intention of the sale, tenders for which closed Thursday at noon.

"How can the Government expect competition on so large an issue as six million dollars on only three days' notice? The answer is that the Government does not expect competition. It has already sounded out the situation in the east. Eastern interests have long since been aware of the new issue and are prepared for it and in its practical working out the sale is a private one.

The wild goose, which visited the local Court House grounds yesterday morning, has been paying regular calls since to feed on the grass of the .lawn .there. The fowl has also been flying low over various parts of the town and has been creating interest generally.

It is suggested that the bird may have been a resident of some park, thus accounting for his comparative tameness. Usually, the wild goose is very timid as all bird hunters know.

At 8 o'clock this morning, this particular goose was seen on the Court House grounds by members of the Daily News staff as they came to work.

Ensconced in her sumptuous salon, on the Avenue Victor Emmanuel III., Lina Cavalieri tells her patrons of a simple home beauty treatment with a soap blended of palm and olive oils.

"I am visited by some of the most famous beauties of two continents," she says. "In addition to my own beauty products, I always recommend them to use Palmolive Soap."

When dirt, dust, oil, powder and rouge get into the pores they are choked up. To these poisonous secretions Cavalieri attributes blackheads, pimples, enlarged pores, blemishes.

Mme. Cavalieri feels that the unique lather of Palmolive frees those hardening masses of dirt and make-up and leaves the complexion soft and glowing.

This opinion has long been held by beauty specialists of prominence throughout Canada. They, too, recommend this famous twice-a-day treatment which Cavalieri suggests to her discriminating clientele:

The Evening Mode Introduces

Polka dots have achieved such popularity that they are now being presented in a variety of color-combinations and designs. Big dots, little dots, and clusters of dots are making their way into the hearts of smart women.

The latest idea is to reverse the colors-thus, instead of dark dots on a light background, designers are throwing light dots on dark grounds. This ensemble, of brown crepe with yellow dots, is a case in point. The blouse is dotted brown on yellow.
