

COMPROMISE LOOMING IN KOREAN CRISIS

Asian-Arab Bloc Is Working With Canada

MAKE SUCCESS (CP)—The Asian-Arab bloc reported today to have revised its latest Korean formula to include most of a six-point proposal advanced yesterday by Canada in a compromise.

The Asian and Arab countries took their decision at a meeting just before the Nations political committee convened for its third session in three weeks. The meeting was delayed an hour by icy roads and up traffic from New York immediately began their key delegations to the revised text eliminate objections raised. There was no indication, however, as much support the proposed conference.

U.S. Prices Keep Thursday Levels

WASHINGTON (CP)—The government last froze prices and wages in the United States at level at midnight Thursday. The announcement made at a press conference held by Price Stabilization Director Michael V. Disalle and Chairman C. of the wage board.

Disalle said it means Thursday levels will be the stabilizing factor. The government turned today its task of making controls work.

Office of Price Stabilization has an SOS to the Federal Bureau of Investigation and agencies for help in the enforcement effort.

The twin freezes were welcomed by many men in Congress and in business, but leaders raised a big protest over the wage freeze. They said flexible controls that will lagging wages to catch up.

The wage stabilization board did not order the wage freeze and took no responsibility for it, renewed its work to make a flexible formula to the freeze.

The price freeze does not apply to all prices. A long list of goods, including many foods, will have leeway to rise. But prices were frozen at the level of the period from 1949 through 1950.

Some few things have dropped

Canadians Participate In New Landing At Inchon

Put Rupert On World Map

Another Hazen
Needed on This Coast
By PAGE RIDEOUT

The following is a paragraph from a letter I received from the Chamber of Commerce at Prince Rupert:

"We are corresponding with the Government Departments re routing grain through this port, and we are told they have no jurisdiction over the matter of compelling shippers to use any particular port, lack of inward cargoes is the excuse of the shippers."

Having regard to the present discrimination between Prince Rupert and Vancouver, this lack of inward cargoes brings to mind a bit of history which I have referred to before, but I think it will stand repeating under the present circumstances.

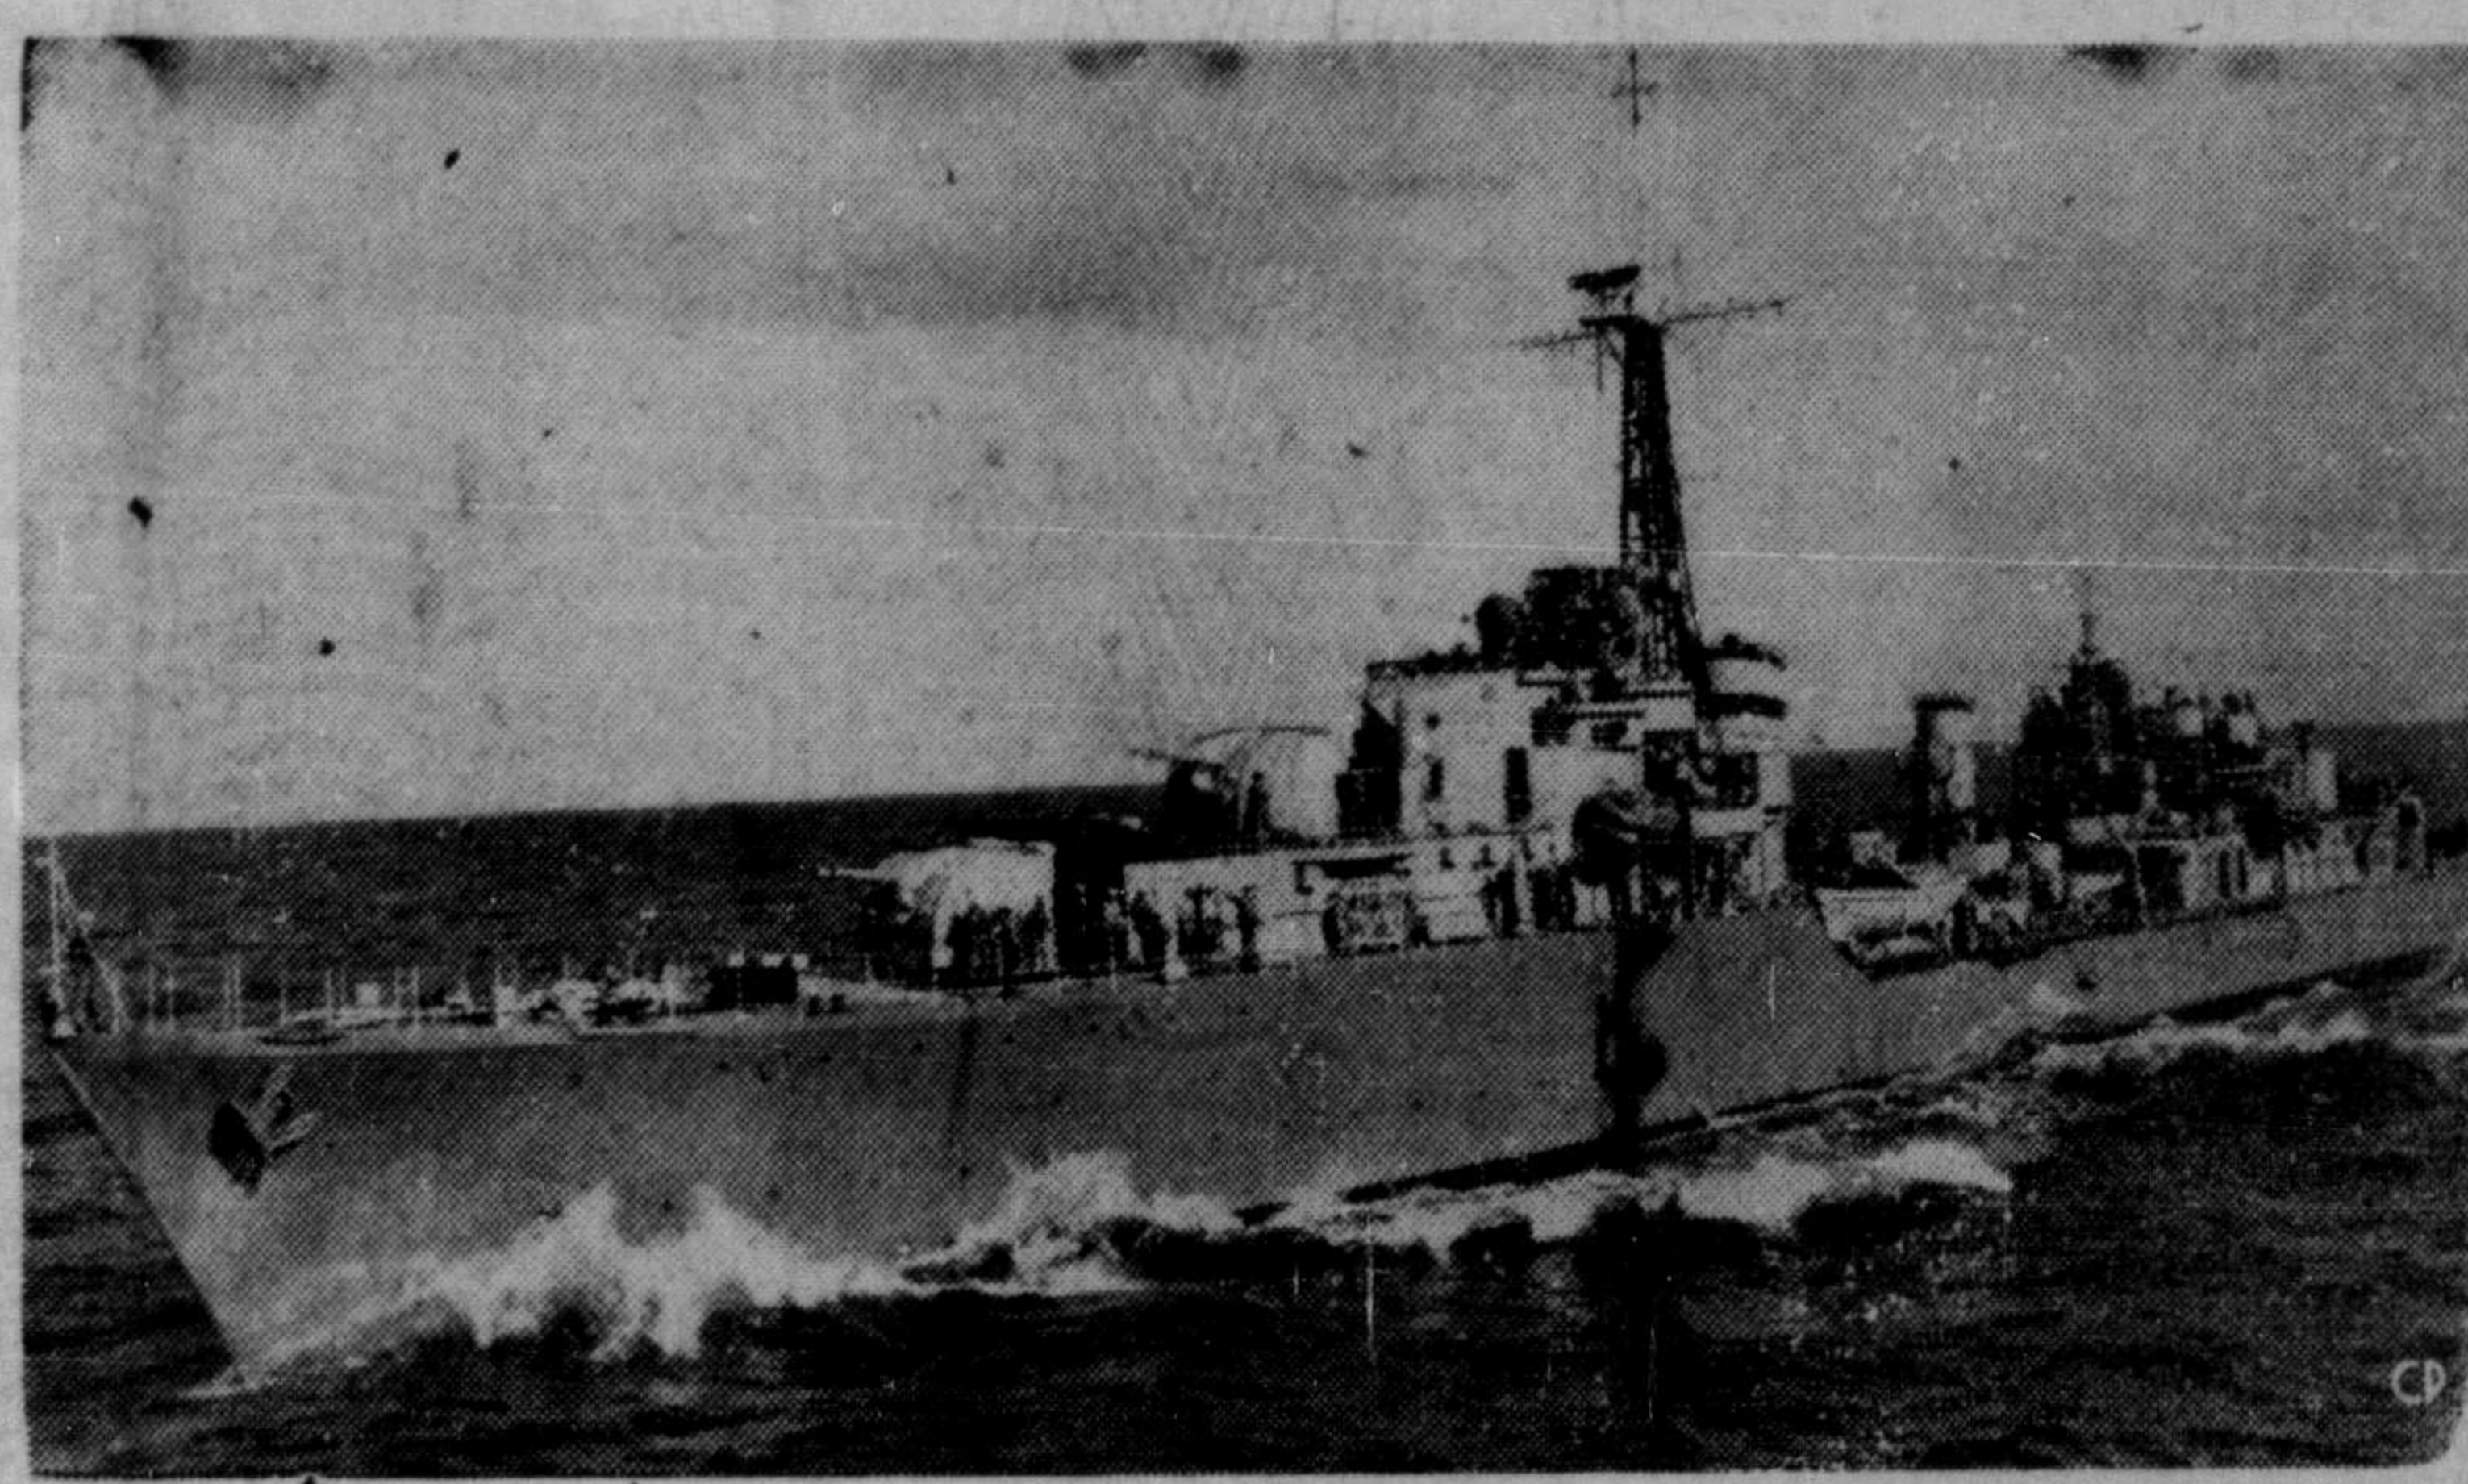

No doubt but there are a few silverheads in our country that hail from the old Acadia or Blue-nose Provinces, who can recall how the port of St. John was put on the map of Canada by the wooden ships carrying the ironmen crews out on the Seven Seas. But when the steam and steel ship replaced her wind-jammer sister her owners made Portland, Maine, their port and the Grand Trunk Railway moved all Canadian traffic direct to Montreal, and the powers that be of that date were quite satisfied, while Saint John and all the country beyond it were sidetracked. As a matter of course the people on the north shore of the Bay of Fundy staged a desperate fight, which was counteracted by the claim of no inward cargo, and stemming the strong tides of the Bay of Fundy.

While this fight was in its fever heat a new ship company appeared on the scene known as the Beaver Lines, who offered to

make Saint John their port providing they were favored with the Trans-Atlantic mail contract. It so happened that Saint John had produced a very ambitious young man by the name of J. Douglas Hazen who was then budding into a long and active political life. Young Hazen immediately took advantage of the situation and made a rush trip to Ottawa to have the mail contract signed.

The story is that George Foster met the boy at the door and shooed him home saying his proposition was being handled by order-in-council. Hazen went home and waited for the order-in-council which failed to show up. Hazen then got busy among the Government supporters of the M.P.'s in New Brunswick and procured a pledge from each of them to resign when called on to do so. Hazen then wired Sir John A. Macdonald personally saying "Unless the mail contract with the Beaver Lines is signed within 48 hours the resignation of each of your supporters in N.B. will be forwarded to Mr. Speaker forthwith." Owing to the severe shakeup the Government had suffered in Quebec over the execution of Louis Riel, Sir John was in no position to lose support anywhere, and the story is, it did not require 48 hours to sign the Beaver Lines mail contract.

THINGS HAPPEN
It was around these times that things began to happen, the CPR absorbed the Beaver Lines and their Trans-Atlantic mail contract, and the CPR completed arrangements for, and built their short line from Montreal down through Maine to Saint John. Then William Van Horne, who was the power behind the throne in the CPR world, put on a special train which he named the "Overseas Limited." This train had no schedule to run on. She (Continued on page 6)

IN ACTION—United Nations naval guns, which gave protection to South Korean sailors in a landing at Inchon, on the west coast of Korea at dawn today, include those of the Canadian destroyer, HMCS Cayuga, pictured above.

Sioux Now At Pearl Harbor

PEARL HARBOR (CP)—The Canadian destroyer Sioux arrived here after five months' patrol duty in Korean waters. It will sail Monday for its home base at Esquimalt.

Cdr. Paul D. Taylor of Victoria said the ship had destroyed nine enemy mines off western Korea and had participated in a number of naval bombardments.

The Sioux was greeted by Hawaiian dancers, a U.S. Navy band and British Consul Geoffrey C. Davies.

Influenza Menace Recalls Ravages Of 1918 Epidemic

By D'ARCY O'DONNELL
Canadian Press Staff Writer

OTTAWA (CP)—Will flu epidemics now spreading through Britain, Sweden, North Germany and Belgium eventually strike Canada where the disease caused untold suffering and close to 40,000 deaths in 1918?

That is a question Canadian medical authorities are asking while watching developments overseas. Influenza appears in different parts of the world almost every year. Each time doctors wonder if they can expect local epidemics or a pandemic—a world outbreak of the disease. Ships from overseas carried the flu virus to Quebec during the 1918 pandemic and within a few months every province in Canada had felt the ravages of the disease. The disease continued during 1919, 1920 and 1921, but with greatly diminished force.

Today no one will claim that Canada can be isolated, but as a precaution a close check is being made on travellers from overseas. Doctors in the federal government's quarantine service say that a traveller might pass a medical examination on arriving in Canada. A few days later, he might have the flu. The period of incubation of the flu virus is 24 to 72 hours.

Any traveller suffering from influenza on entering the country will be taken at once to hospital and placed in isolation until he has recovered and can travel again without danger of spreading the infection.

INFORMATION CENTRE
The federal health department has established an influenza information centre to keep Canadian medical authorities abreast of developments in all parts of the world. The federal department's laboratory of hygiene has been equipped to identify quickly any specimens of virus sent to it by provincial health laboratories. (Continued on page 3)

GALE WARNING
North Coast region—Gale warning posted. Variable cloudiness and a few snow flurries over northern Vancouver Island and along the east coast of Queen Charlotte's otherwise, clear, continuing very cold. Winds northerly, 25, except northeast, 40, in inlets and over Queen Charlotte Sound, decreasing slowly to northerly 15 this evening. Lows tonight and highs tomorrow—At Port Hardy and Sandspit, 20 and 30; Prince Rupert, 10 and 25.

Cayuga Helps Cover Raid On Port of Seoul

TOKYO (CP)—South Korean soldiers drove ashore at Inchon in the cold grey dawn today and raided the port of Seoul for four hours under protection of United States naval guns including those of the Canadian destroyer Cayuga.

To the east, Allied tanks and troops drove through deep snow to within less than 13 miles of the old South Korean capital of Seoul.

The tank column, leading off two Allied corps of American, British, Turkish and South Korean foot soldiers, thrust 4½ miles north of Suwon, site of Korea's best airfield.

At its northernmost point of advance, the column was only 14 road miles from Seoul.

South Korean commandos killed 40 Red Koreans at Inchon and captured two. They met no Chinese.

The raiders swarmed ashore under guns of the American cruiser St. Paul and the United States destroyer Hank as well as the Cayuga.

The swift-striking raiders suffered no casualties.

Hong Kong To Prince Rupert In Two Days Travel By Air

Thursday morning two 15-year-old Chinese boys were in Hong Kong. Next Tuesday they will arrive here to join the staff of the Sunrise Grocery.

Mah Fon Dap and Chow Fon arrived by plane in Vancouver yesterday morning, one day after they left Hong Kong. They had intended to continue on to Prince Rupert on today's plane but changed their minds. After spending a few days in Vancouver they will come here Tuesday.

Born in the interior of China, both boys have lived most of their lives in Hong Kong. Mah Fon Dap is a nephew of Mah Chung Kee, proprietor of the Sunrise Grocery. The other is Chow Hong Fon, son of an employee at the store, Chow Yuen Que.

Delayed by connections at Jasper owing to cold weather on the prairies, tonight's train, due from the East at 10:15 p.m., was reported this morning to be seven hours and thirty minutes late which would bring it in at 5:45 tomorrow morning.

Canada In Cold Grip

EDMONTON (CP)—Alberta last night experienced its coldest night of the winter. Overnight minimum temperatures ranged from 35 below at Banff and Red Deer to 23 below at Coronation. It was 29 below at Edmonton and 25 below at Calgary.

A mass of Arctic air now spreads from the head of the Great Lakes to the West Coast, bringing temperatures down to 41 below at Prince George and 19 above at Vancouver today.

The coldest spot in Canada overnight was Mayo, Yukon, where the mercury plunged to 52 below.

Opening Up Peace River

OF COURSE, if British Columbia is to get the trade and traffic of the Peace River which Premier Johnson told the Vancouver Board of Trade is its due, there will have to be more than the highway to Prince George. There will also have to be a railway to handle the coal and the wheat and a gas and oil line such as George Murray, M.P. for Cariboo, advocates in an interview in Edmonton which is today the real outlet city for the Peace River and will be until the highway and railway are built westward through central British Columbia.

With Premier Johnson saying the opening up of the Peace River country in this direction is long overdue, we should be getting some real action soon. This is something in which Prince Rupert people should be vitally interested although outsiders seem to see the picture more clearly than some of us do.

Important Session

THE fourth session of Canada's 21st Parliament, called for Tuesday, promises to be one of the most significant in our parliamentary history. It is being convened against a backdrop of warnings that we are committed now to a course which will mean hardship to some and sacrifice to all.

We can expect to be told what is happening in regard to our armed forces and our whole program of preparedness. With statements of ministers challenged and their opinions tested against the opinions of others, some interesting facts are bound to emerge.

It will be a session which will bring home to us as never before the value of Parliament—inasmuch as it is a democratic institution forming the very foundations of liberties. There will be a challenge for us to demonstrate our interest in what is going on or take the risk of losing the power we now possess.

Defence and a tense international situation will be the main preoccupation of legislators while many of the other issues will be tied indirectly to these questions.

Scripture Passage for Today

"Be not ignorant of this one thing, that one day is with the Lord as a thousand years, and a thousand years as one day. The Lord is not slack concerning his promise, as some men count slackness, but long-suffering to us-ward."

—2 Peter 3:8-9

Cariboo Member Anxious About Defences of North

Calls for Edmonton-Prince George Road and Prince Rupert Oil Line

EDMONTON.—More intensive defence effort north of Edmonton was urged by George M. Murray, M.P. for Cariboo, who was in the city en route to the session of the House of Commons.

"The Alaska Highway offers an ideal training base for infantry, and I would suggest that troops of cavalry could profitably be organized at Grande Prairie, Fort St. John, Dawson Creek and other points between Edmonton and Whitehorse," Mr. Murray said.

"Adequate defence of the Edmonton area also calls for a highway directly west via Jasper and McBride to Prince George," the B.C. member said. "Such a highway would connect with the great highway system north and south in British Columbia. It would connect with the present excellent highway from Prince George to Prince Rupert."

"Looking well to the future a further defence project would be the proposed natural gas and oil pipeline from northern Alberta via the Pine Pass Highway via Prince George and Omineca to Vancouver and via Prince George to Prince Rupert," the member said. "If such a pipeline passes to the south paralleling existing railway trunk lines, trans-Alberta highway and main telephone and telegraph communications, it would be a sitting duck for the first enemy bomber to attack the Pacific slope."

"I assume to bring this point prominently to the attention of the Board of Transport Commis-

sioners when the hearing takes place this month at Ottawa. I propose to assist Hon. Gordon S. Wismer, attorney-general of B.C. in his presentation on behalf of the government of B.C. in support of the Peace River-Cariboo route for the first pipeline to be constructed to the Pacific Coast."

"While the government of B.C. is valiantly leading in steering the world away from the threat of a third world war, we cannot afford to relax defence measures," the Cariboo member said. "The people of the north feel that they may be in a no-man's land on the event of such a war."

"There is grave doubt as to the security of the Alaska perimeter of defence if there is not universal civil defence in the north preparatory to universal service of manpower and resources in the event of hostilities. It is desirable that all strategic points on Alaska Highway should be brought up to full strength. At present there is little being done in civilian defence in the Peace River area of British Columbia."

Slavery was a general practice in many lands in ancient days, and was practised in Greece in

"BIRTH OF A NEW WORLD"

The scene is ancient Babylon in the time of Nebuchadnezzar, and the opening sequences in full color represent the story of his dream, and Daniel's interpretation. The great image, written in in Daniel 2, appears, and a voice utters the words of its prophetic significance, even now in process of fulfillment. This is an interesting and most unusual film, with very definite teaching on the Second Coming of Christ as a physical and imminent event.

Saturday Sermon

Let's Be Consistent About Christ

(By Rev. Leonard A. Thorpe, Pastor of the Regular Baptist Church)

There is such a large number and wide variety of opinions and teachings regarding the Lord Jesus Christ that it must be difficult for the uninitiated to form accurate conclusions. On one side we hear of a human Christ, on the other a Christ who is God the Son, and in between we are likely to be blasted

with the announcement that Christ is superhuman but sub-divine. Only one can be right. Which is and why?

Let us remember that, in answering this top-priority question, as in our search for all spiritual truth, we have only one text-book. Only Scripture has the seal of being "inspired of God and profitable for instruction in righteousness." The sad plight of the "Children of Light" warns us of the instability of "unfettered" mediums of enlightenment. The Bible is not only our reliable text-book but it is also our sufficient store of knowledge. This wonderful Book contains the answer to life's every problem, and can, if allowed, direct us unerringly through the Door that leads into eternal glory.

Within the four Gospel narratives, we have the accurately recorded words of the Person under discussion so let us allow Him to speak for Himself.

In John 4:25-6 we read His clear claim to being the Old Testament Messiah, who had been promised for centuries to take away the sin of the world. "I know that Messiah cometh which is called Christ" said the Samaritan woman. "I that speak unto you am He" was His reply.

During His conversation with the man that was born blind (John 9) He distinctly claims to be the Son of God.

We can read in John 8 the fact expressed in His own words that He was sent by God and that He came from God to fulfill His earthly mission of redemption. (verse 42).

In John 14 the Lord Jesus Christ tells us that He is the preparer of and the future Host in the eternal abode of God's children. "I go to prepare a place for you . . . I will come again and receive you unto myself."

Many times and in different ways He claimed to be in unity with and equal to the Father. "Ye believe in God, believe also in me." "I and my Father are one" (John 10:30) and also, "He that hath seen me hath seen the Father." All these and many similar assertions are found in the Book of John and many others can be read in the other three Gospels.

Now to be consistent, we must either accept everything He says about Himself or else reject Him entirely. For He is either an unique Person, outshining mankind as the sun outshines the moon, or else He is the greatest liar and deceiver that ever walked upon the face of the globe. To be consistent, because of His own claims, we must wholly accept, or completely reject Jesus Christ. There is no consistent middle path!

If for reasons of indifference or selfishness, the rejection of Christ's claims of Saviour serves you best, remember also that He warns: "If ye believe not that I decide now to learn about Him am He, ye shall die in your sins," and to know Him personally as your Saviour. "He that cometh to me, I will in no wise cast out."

Presbyterians Honor Burns

Over Two Hundred Persons At Banquet for Scotia's Bard

Two hundred and twenty persons gathered last evening in the social parlor of First Presbyterian Church to honor the memory of Robert Burns, Scotland's national bard, with fine dining and appropriate speaking and musical entertainment. The affair was arranged by the Ladies' Aid, under the presidency of Mrs. William Bremner, and was a great success—in keeping with such events of the past. J. D. McKee, M.A. was in the chair.

Before the gathering proceeded to do full justice to the "rich gold meal," Rev. E. A. Wright pronounced the Burns grace—"Some had meat."

The traditional ceremony of piping in the bagpipes "we a' the bonnies" was performed. Capt. Harry Calderwood bore the steaming delicacy and Piper W. McKay, in full regalia, led the way. Jack Frew recited the address and was in splendid form.

Dr. Wright gave the address (Continued on page 9)

As I See It

By ELMORE PHILPOTT
LONDON SHOWS OF 1951

LONDON.—There is a significant change in the complexion of the London theatre since I was here before in 1949.

Now, as then, there are about 35 downtown theatres putting on live plays. But whereas in 1949 nearly one-third of all the performances were showing a strong American influence, it is virtually non-existent today.

I DO NOT MEAN that one-third of the London theatres were in 1949 putting on plays written by Americans. But one-third were either made-in-U.S.A. or were starring American performers.

It may be that our 1949 visit happened to hit a specially strong American wave. For instance, some Britishers were standing in line all night to get the privilege of paying to see Danny Kaye.

Now there are many more U.S. Air Corps uniforms in sight. But I see little trace of American influence on the London stage of 1951.

IT COST ME \$1.70 to see a hardy perennial play called "Worm's Eye View." This has been running now for several years, and while it no longer draws sell-out crowds, it is still packing them in.

The play itself is a simple sort of comedy. It deals with the goings-on in a small town where RAF trainees are billeted in the home of an acid-tongued landlady, with a pompous stuffed-shirt (civilian) son and a lovely daughter.

The rather thin love interest centres around the corporal, a peace-time school master, and the daughter. There is not a lover's clench or real kiss in the

BUY YOUR drapes NOW 10% DISCOUNT ON ALL DRAPERY MATERIAL!

Says Caning Best Method

CHELMSFORD, England.—The children's committee of the Essex County Council believe that judicious use of the cane is still the most effective means of imposing discipline.

While banning corporal punishment in homes administered by the council, the committee insisted that those in charge would be deprived of the only means of enforcing discipline where it was most needed.

"We have therefore decided, that subject to suitable safeguards, corporal punishment should be allowed," the report added. "It is our decision that a cane shall only be used in exceptional cases and that otherwise punishment shall be given by the hand. In no circumstances is any child ever to be struck on the head."

The committee agreed that the names of all those punished should be entered in a special book, available for inspection at all times.

whole business. Most of the action centres around the antics of a city slicker (a "spiv in uniform," they call him). He is strong on "private enterprise," in such things as opening locks with half-pins. He has really witty arguments with his pal, Taffy, Socialist son of a Welsh coal miner's family.

It intrigues me that, at a time of the greatest and swiftly accumulating crisis in history, the London stage smash hit should be this simple play.

THE BRITISH MOVIES obviously think they have discovered something as precious as uranium ore in Kerima, a dusky and really lovely female star who hails from North Africa.

You can hardly pick up a popular London newspaper these days without seeing or reading something about Kerima.

For my money, I'll take seeing, not reading.

For Kerima is quite an eye-ful, and I don't blame editors for giving her three-column pictures on the upper right-hand corners of Page One. It takes your mind off dreary things like the flu, or the next cut in the meat rations.

But the press agent blurbs are something out of this world. Kerima was a quite serious young lady going through for a doctor before the movie scouts

found her. Now this is a sort of thing ghost writers will conquer me. Some must be gentle as a lamb, times savage as a lion. I won't go to Hollywood, the women would conquer. They not conquer. They conquered."

A few weeks more of a sort of thing and the promoters will be able enough out of Hollywood Kerima to close the door for years to come.

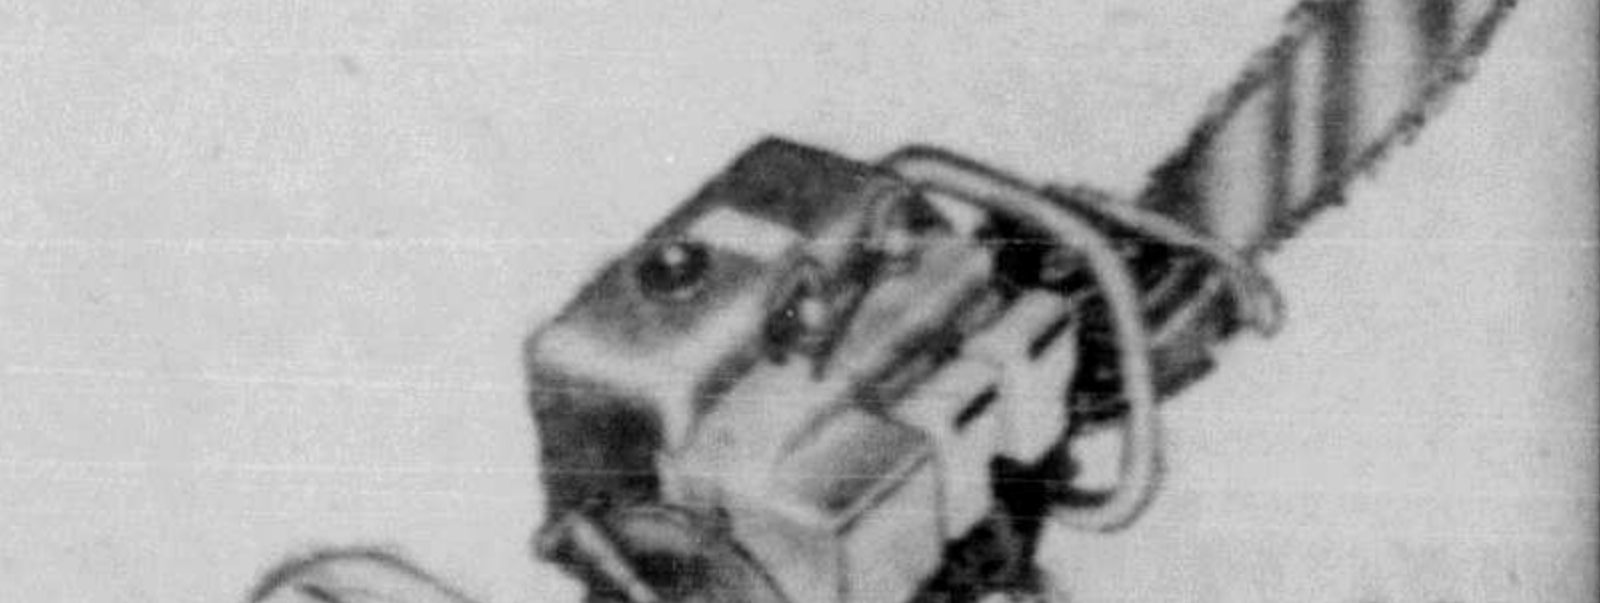

MOST OF THE London theatres still start the evening at 7:30. Most of the 1951 class or technician. When, in 1949, I first London theatre, as a First World War, no sitting civilian would appear dress.

Now they are at a roast beef which used the British Sunday. There is less wealth British nation of 1951 was in 1915. But things there are like atre—are more and by the workers and suits gents.

Old Kills Motorist

Man Freezes to Death When Car Becomes Stuck in Snow

A howling blizzard in the Kootenay Park district about 35 miles west of here killed the life of one man, his wife to hospital, and 12 other persons in a car.

A Patterson, aged 40, Banff, was taken to death when he was separated from a party on its way to Inver-

Patterson is in hospital suffering from severe frost-bites. The other 12 persons, as yet un-

identified, have been isolated in a small cabin of a park ward for the last two nights. All reported to have suffered from cold although they are not expected to be in any immediate danger.

Local organizations were told after noon by Aid. George B. that the chairman of the civic board and board of works, equipment of the city public department would be available to assist with the preparation of Gyro Ball Park, Sixth

and McBride, for use as outdoor skating rink.

During the November cold preliminary preparation of the rink had been carried out but, the first flooding were made, the weather ameliorated and there been little if any frost.

The coldest snap of the winter has suddenly arrived and was stated this morning only small amount of work in the of banking up snow on the and flooding was required. Skating sheet available. Skaters, it was expected, would be speedily available once the one took hold and a time set.

Take Herring
Tomorrow will see the of herring fishing in the sub-district, it is expected.

Annual catches to those already reported were 4,580 tons to 11 a.m. today. Total take in the sub-district to date is 144 tons, just 3,956 tons short of the 40,000-ton quota.

Most of the fish taken have come from Upper Kildid Sound and the south of Watt Creek. Re-

ports the fish are plentiful in the area and that there are no signs of depletion.

There has been an exceptional herring fishing. Practically all fish taken from the sub-district—50,000 tons—has been taken from the 20,000-ton extension when the quota was reached before Christmas—were in the Kitkatla area. Those in the Kitkatla area have practically all about 20,000 tons—

from the Kildid area.

Medal For Naughton
General A. G. Naughton, soldier, statesman and engineer, was honored by colleagues of the engineering fraternity for "outstanding accomplishment to the

year-old wartime commander of the Canadian Army was presented with the medal of the Association of Professional Engineers of Ontario. The organization's award.

SOCIAL AND PER SONAL

• Cash for old gold. Bulger's Dr. L. W. Kergin returned to the city by plane yesterday from a brief trip to Vancouver.

• Dance at Valhalla Hall to-night. Music by Mike Colussi. (11c)

J. B. Downie sails tomorrow night for Vancouver on the Chilcotin.

H. L. Hansen will be a passenger on the Chilcotin to Vancouver tomorrow night.

Reg Childs was a passenger on the Chilcotin last night for Queen Charlotte City.

• Women's Hospital Auxiliary tea, Nurses' Home, 4th Ave. East, Wednesday, February 1, 2:30 p.m. (26c)

Mr. and Mrs. William Flewin, Sr., were passengers on the Chilcotin last night for Queen Charlotte City.

Douglas Frizzell sailed Thursday night on the Prince George for a business trip to Vancouver. He will be away for a couple of weeks.

• Liberal Association of Prince Rupert—Annual general meeting being held in lounge room of Civic Centre at 8 p.m. Tuesday, January 30. Election of officers and other business. Everybody welcome. (25c)

Canadian Club Sees Pictures

Featured at last night's meeting of the Women's Canadian Club were four highly instructive films on art.

"Painters of Quebec" presented pictures of outstanding Quebec artists in relation to the Canadian environment which has inspired them.

"West Wind" showed pictures of Tom Thompson and the Algonquin Park landscape which was his painting ground.

"Canadian Landscape" depicted A. Y. Jackson, one of Canada's foremost modern painters, at work in the hills of Northern Ontario and Quebec.

"Loon's Neckline" was a story based on the use of Indian masks. There was a good attendance at the meeting, which was held in the Common Lounge of the Civic Centre. President Mrs. G. R. S. Blackaby was in the chair.

Rev. Dr. E. A. Wright, pastor of First Presbyterian Church, sails tomorrow night on the Chilcotin for Vancouver to attend sessions of Presbytery at which he will be inducted as minister of the local church where he has been the incumbent for the past several months. Dr. Wright will return to the city next Friday afternoon.

Gardening....

WINDOW BOX CAN MAKE APARTMENT DWELLERS DREAM COME TRUE

Do you live in an apartment, but buy the garden magazines, and read the garden articles in your newspaper? Then this is written for you.

Your interest in gardening is deep seated, and you will be happier if it can be satisfied. Why not try a window box garden this spring?

This is the type of garden which everyone can grow, whether he lives in a suburb or a city. It will serve two purposes, first to decorate the house you live in, and what is even more important, it will satisfy to a surprising degree your desire to grow things.

To get this satisfaction, you must give serious attention to selecting the plants to grow, preparing fertile, porous soil, and if possible growing your own plants from seed. It will be an excellent beginning to construct your own window box, which can easily be done from the diagram here-with.

For a standard single window, a box 3½ feet long, 8 inches deep and 10 inches wide is a good size. But measure your windows and make boxes to fit. Where larger or multiple windows demand greater length, the other dimensions must be larger in proportion, or single boxes may be provided for each window in a group. Think of the box as a decoration of the house; make it of a suitable size and a color to match the house color or trim. The flowers should be chosen to furnish a contrasting, yet harmonious color accent. There is a wealth of suitable varieties from which to choose.

Rich soil, of the type which florists call potting soil, must be used for window boxes. Because

Larry Stanwood of the Daily News staff left on last evening's train for a business trip to Smithers and Terrace.

E. T. S. Moore and Alan Hale, Canadian Fishing Company, sailed last night on the Chilcotin for Skidegate.

• Canadian Legion "Bring Your Missus" night, Saturday, January 27, at 8 p.m. Members may bring guests. Refreshments and entertainment. (23c)

Duncan Munro, local pioneer citizen and formerly identified with the Premier mine staff, has been under treatment in Prince Rupert General Hospital for the past few weeks.

• Of interest to those who did not have the opportunity of visiting H.M.C.S. Chatham during Navy Week, the Drill Hall will be open to the public from 2 to 5 p.m. Sunday, January 28. The interesting film "Fighting Lady" will be shown at 2:30 p.m. (23c)

The Romans first built fortifications at Trieste, Adriatic gulf port, in 33 B.C.

INFLUENZA MENACE
(Continued from page 1)

Medical authorities hope that these precautionary moves coupled with the use of new drugs developed since 1918 will help minimize any flu outbreak in this country.

Although many Canadians remember what happened in 1918, a vivid description of the ravages caused by the disease is contained in the records of Dr. Heagerty, author of the book, "Four Centuries of Medical History in Canada."

The outbreak originated in Spain and quickly spread through Europe, hitting both Allied and German troops. The first cases reported in Canada were found among the crew of an Indian ship examined at the quarantine station on Grosbe Isle, in the St. Lawrence River below Quebec. That was July 9, 1918.

The disease appeared in Quebec. It hit Montreal in September. In October, November and December it spread along the lines of travel and struck at even the remotest sections of the country.

Conditions were such that it was impossible to obtain accurate statistics on the number of cases. Dr. Heagerty estimated that one-sixth of the Canadian population was attacked and that the death toll was 30,000.

BREAKDOWN BY PROVINCES
The Bureau of Statistics, on the basis of reports from the then nine provinces, has estimated the death toll at 37,665. It gives this breakdown:

Prince Edward Island, 86; Nova Scotia, 1636; New Brunswick, 1394; Quebec, 10,157; Ontario, 10,021; Manitoba, 3121; Saskatchewan, 3834; Alberta, 4002; and British Columbia, 3404.

No record is available of the number of deaths in outlying sections of the country, but it is known that in Labrador whole villages were eliminated.

In Montreal, when the disease was at its height, there were 201 deaths in one day. Dr. Heagerty estimated that at least 100,000 persons in Montreal suffered from the disease.

Committees were organized in the city to make a house-to-house check on the number of sick and the need for assistance. At times whole families were ill in bed, unable to help themselves. In some cases the dead were in bed alongside the sick.

All types of vehicles were pressed into service to carry the dead to cemeteries. The vaults were soon filled to overflowing and the coffins had to be piled along the roads in the cemeteries.

What occurred in Montreal was repeated in Toronto and in other Canadian communities on a small scale.

Exploding Back Board Mystery

A mystery to Civic Centre officials was an explosion last night which shattered one of the glass backboards in the main gymnasium. There was no play at the time. Fred Calderone was cut by one of the flying splinters. In any case, basketball will henceforth be played with one glass backboard and one wooden.

Quietly Wed At Cathedral

A quiet ceremony at St. Andrew's Cathedral Wednesday afternoon united in marriage Miss Irene Marjorie Murray, Calgary, and Edward Graham White of Prince Rupert. Rev. Canon Basil S. Procter officiated. Witnesses were Miss Joan Vivian and V. Dyke McMillan. The couple intends to reside in Prince Rupert.

Mrs. Harlan Passes Away

Mrs. Marcia Harlan passed away at her home at the waterfront last night in her fifty-ninth year.

Born in Bukovina, Austria, Mrs. Harlan came to Canada when she was one year old and lived in Prince Rupert for 30 years. She followed the hairdressing business.

She is survived by one nephew, Roy Boychuck, and two nieces, Mrs. A. K. Nelson and Mrs. Fred Green, in Prince Rupert, two brothers and a sister in Winnipeg and a brother in California.

Mrs. Skattebol Dies Suddenly

Esteemed resident of Prince Rupert for thirty-four years, Mrs. Lena Agnes Skattebol passed away Thursday morning at her home, 340 Biggar Place. She was the wife of Harold Skattebol, for many years identified with the dispatching department of the Canadian National Railways and who retired last year from the railway service.

Mrs. Skattebol had been a sufferer for some time with heart trouble but the end came quite unexpectedly and as a shock to her family as well as to friends.

Born in Frazee, Minnesota, 64 years, ten month ago, Mrs. Skattebol came here in 1917 from North Dakota when her husband, who had been with the Great Northern Railway, came to Prince Rupert to join the then Grand Trunk Pacific Railway. She had lived here ever since.

Besides her husband, Mrs. Skattebol is survived by one son, Arthur, and a daughter, Mrs. John (Emily) Cross of Bella Bella who will be arriving in the city tomorrow afternoon on the Camosun.

There are also two brothers, Arthur Fisher of Milwaukee and Paul Fisher of Walker, Minnesota, and two sisters, Mrs. Marie Gilmore of St. Paul and Mrs. Elsie Mapes of Frazee, Minnesota.

The funeral will take place Monday afternoon from the Grenville Court chapel of the B.C. Undertakers with Rev. Earl Soland, pastor of St. Paul's Lutheran Church, officiating.

How Can I???

By Anne Ashley

Q. How can I make a good toilet perfume?

A. A good toilet perfume can be made by mixing two ounces of alcohol with one-half ounce of orris root. Keep in a bottle, tightly corked, and shake well before using.

Q. How can I bleach a scorched spot?

A. Rub the spot immediately with a cloth dipped in diluted peroxide. Then run the iron over it and it will be as white as originally. Do not use this method on colored material.

Q. How can I test eggs for freshness?

A. Place the egg in a pan of water. If fresh, it will lie on its side. If a few days old, it will tilt upwards. If stale, it will stand on end. If very old, it will float.

If you want to sell it, advertise it. News classifieds.

WOJM Hospital Guild Tea-Sale

The Hospital Guild committee of the Women of the Moose held a very successful tea Thursday at Mrs. A. Ritchie's home, 146 Seventh Avenue East. The sale of home cooking was convened by Mrs. B. Bellamy and Mrs. J. Morrison while Mrs. A. Hinton, Mrs. C. M. McIntyre and Mrs. R. Wilson served tea.

Mrs. A. Ritchie welcomed the many guests and Mrs. D. Morrison acted as cashier.

In the kitchen were Mrs. C. Erickson, Mrs. H. Dickens and Mrs. C. B. MacIntyre.

Winners of the raffles were: Cake, donated by Mrs. O. Stegavig, won by Mrs. R. Giske, ticket No. 2.

Ruffled dolly, donated by Mrs. C. B. McIntyre, won by Johnnie Olsen, ticket No. 105.

Modern Etiquette

By Roberta Lee

Q. Is it permissible to apply make-up in an office, comb the hair or manicure the nails?

A. Never.

Q. When callers arrive in succession which should leave first?

A. The first to arrive.

Q. Should toothpicks be used at dinner?

A. Never in the presence of others.

SPORT SHOTS

Foster Hewitt, internationally-
famous hockey broadcaster, is
to open his own radio station
in Toronto soon. But his Na-
tional Hockey League broad-
casts every Saturday night will
still go over the CBC.

The new station is CKFH, the
initials standing for the owner's
name, and it is Toronto's sixth
radio station. The studio is in
downtown Toronto and the
transmitting towers are on the
island across the bay, which
Hewitt thinks is "the finest loca-
tion in Canada," directly south
of Toronto's downtown section
and facing Lake Ontario.

Hewitt's Saturday night hock-
ey broadcasts have made him
known to millions. He may
broadcast midweek games
through his own station where
his son Billy is in charge of
special events broadcasting.

The station staff has been re-
cruited from points across Can-
ada, including a man each from
Vancouver, Regina, Timmins,
Ont., and Moncton.

"One thing we're aiming at is
new voices for Toronto listen-
ers," Foster Hewitt explained.
"We will have no dramatized
make-believe broadcasts. If we
can't do them 'live' we won't do
them at all."

Hewitt did his first hockey
broadcast 28 years ago in the
old Mutual Street arena, an OHA
senior amateur game. In those
days he broadcast over a tele-
phone from a tiny glassed-in
booth. At the Gardens, home of
the Toronto Maple Leafs of the
NHL, he works from a gondola
high over the seats, and he
climbs 265 steps to get there.

Many a celebrity has declined
to make that climb to Hewitt's
hockey booth. Ben Bernie, the
late American bandleader, was
one who turned back, while
George Raft, the movie actor,
had to be helped across the cat-
walk.

Hewitt himself still gets but-
terflies in his stomach before
each broadcast and he's a nerv-
ous wreck by the time the play-
offs start. His broadcasting
booth is open to the roar of the
crowd and the Gardens' loud-
speaker announcements and
when some incident on the ice
brings an uproar he has to be
careful. "If I stray as much as
an inch away from the mike,
my voice, even at a scream,
would be lost," he said.

"This means you're constantly
thinking of two things: what's
going on down there on the ice
and where is the mike?"
His new station is of 250 watts
power, designed to cover Tor-
onto and district 24 hours a day.

Thirteen Die In Air Crash

ROME (C)—An Italian air liner,
en route from Paris to Rome,
crashed near Tarquinia, north of
Rome, today, killing 13 and in-
juring four of seven passengers
and crew.

Looking
Ahead
with
JOHN T. FOWLE

Are you worried about living
too long—or not long enough?
Many people are worried about
one or the other. Some even
about both.

Yes—the fear of outliving life
savings after advancing age has
forced them into retirement.
And the fear of what will hap-
pen to wife and family should
death occur before sufficient
money has been saved, gravely
concerns many thoughtful
young men.

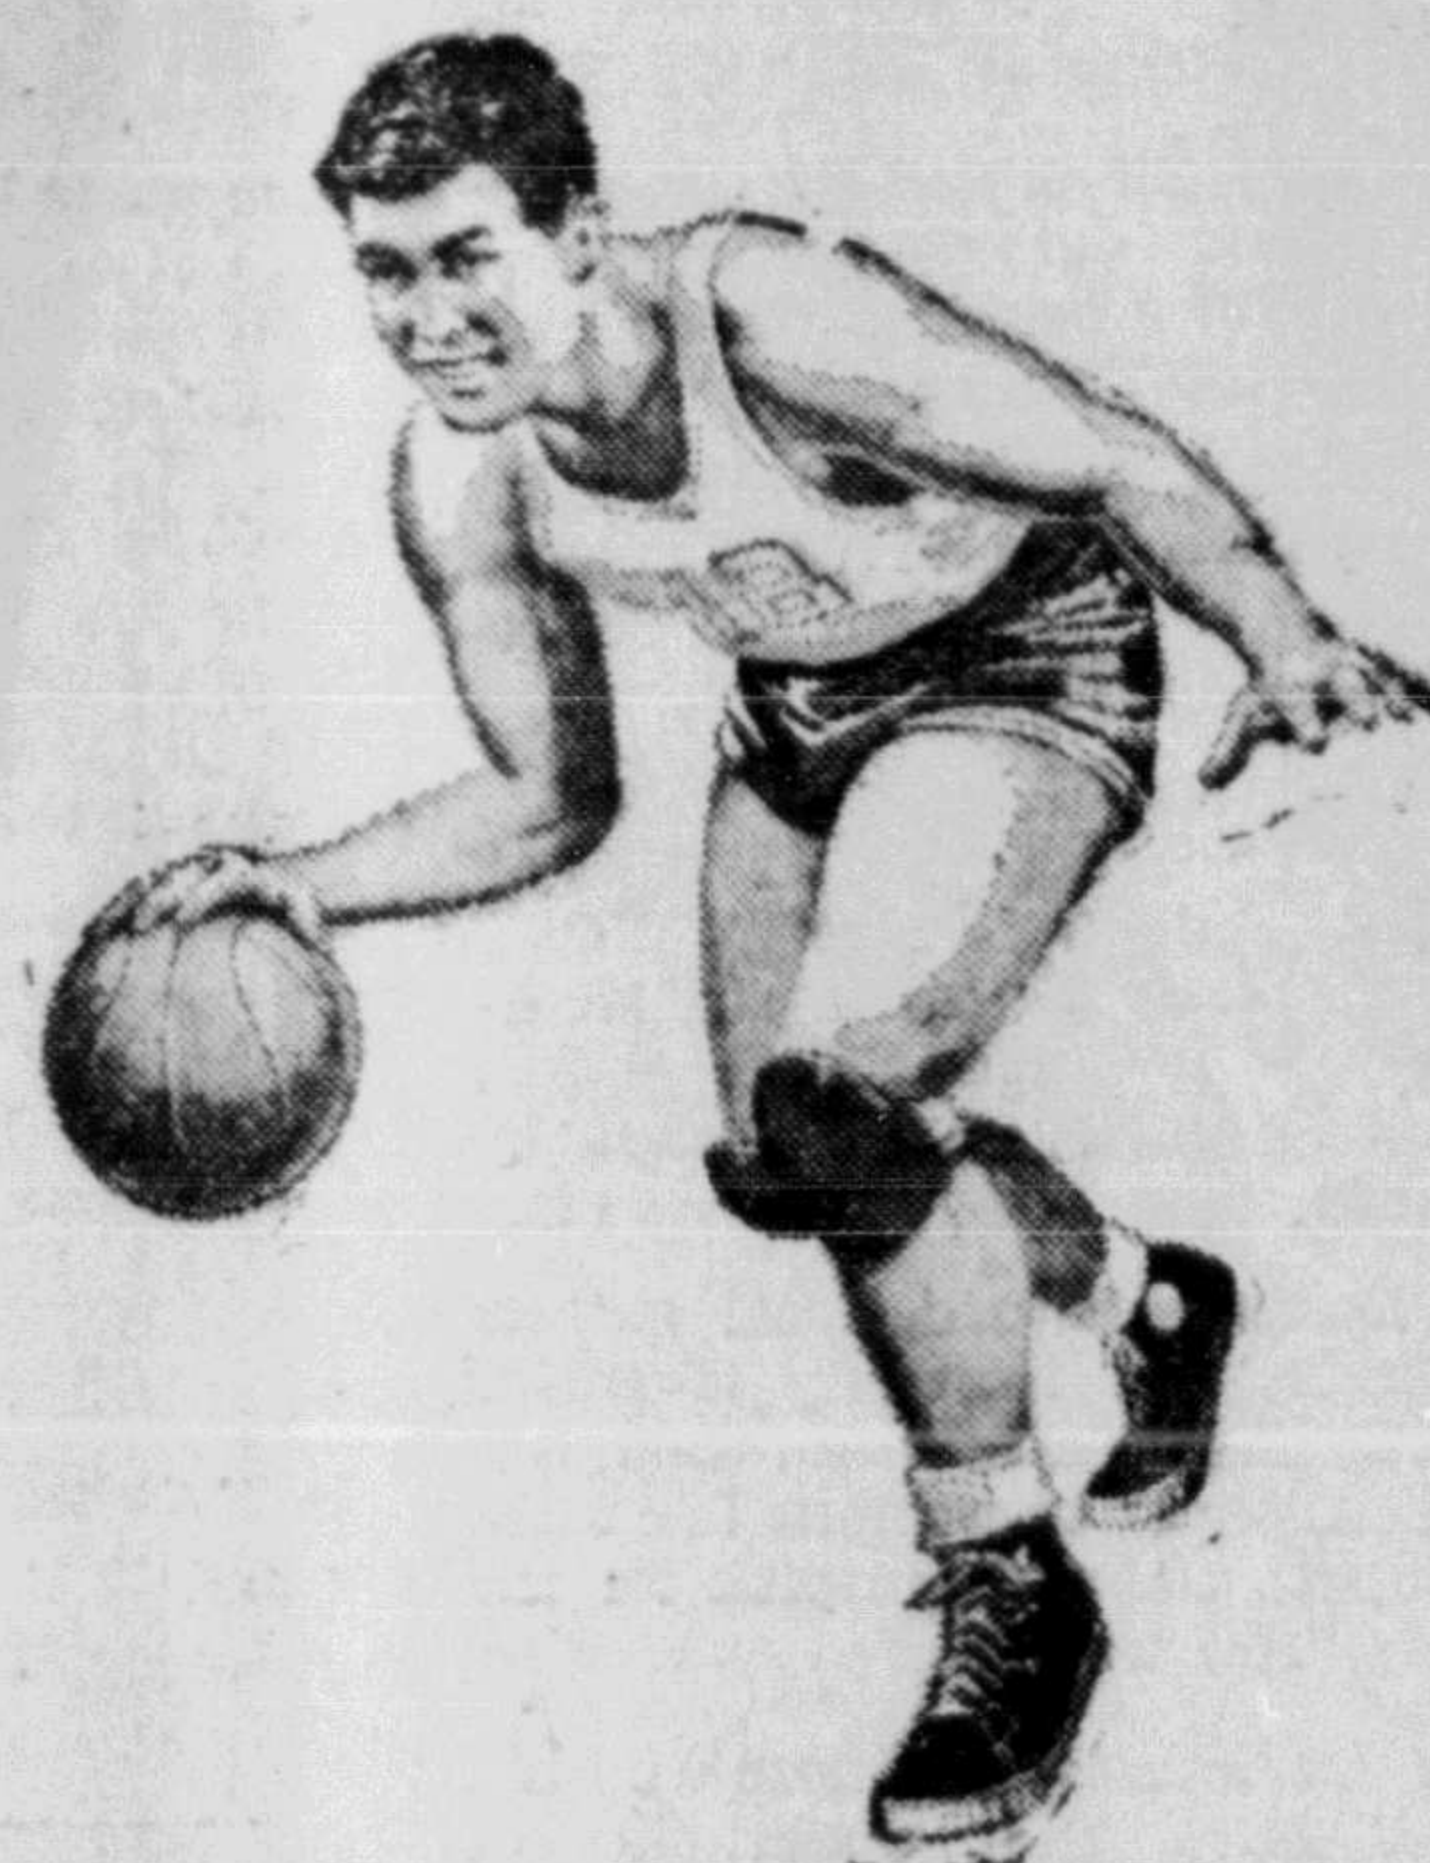

Both of these fears can be
removed forever by carefully
planned life insurance. Planned
life insurance brings peace-of-
mind in youth and old age. It
is a blessing throughout life.
You cannot afford to be without it.

Y

Am happy to report that Doug
Souter, general head man of B.C.
Packers hereabouts, has prom-
ised us a shot at the Packer spon-
sored "Clover Leafs" of Van-
couver, former Dominion titlehold-
ers in Senior basketball.

I sat in in Vancouver recently
when the Clover Leafs lost their
first league game this season
and I can't wait until I see how
our lads will do against the big
city products. In the height de-
partment the southerners will
sport a decided advantage in
Pickel and Bakken who outreach
any of our boys by about three
inches and, as long as they keep
that basket up in the air, the big
boys have that edge. We'll see
however.

Tonight it is Doc Montgomery's
lads against Co-op in a mighty
important game for the Fishmen.
With Brownwoods breathing
down their neck only one game
away from tying them it does
look dangerous alright. Maybe
the management have plans, but
if they don't start trying to ac-
quaint their charges with that
old stuff called condition the
pace will surely show.

They don't have any rest peri-
ods in basketball any more
around here and by the looks of
some of the Co-op players Tues-
day evening, the Society for Pre-
vention of Cruelty to Animals
should be notified as soon as
possible. Somehow or other the
B.C.A.B.A., whatever that is—
decided that it was taking too
long to decide who was going to
be named the winner at most of
our contests so no more breathers
at the quarter marks.

Now I am not too sure that
that was the reason for the
league leaders taking such a
walloping from Alex Bill and his
crew but, whatever the reason,
poor Minor Simundsen, Co-op
manager, was in bad shape after
it was all over. Seems his bow-
ling team, the Royal Hotel lads,
were also handed a decisive four
point whipping on the Sunday
previous and that, my friends is
bad when it happens to a guy
like Minor.

Angus Macphie neglected even
to visit the locker room after the
game and sat staring at the
scoreboard for a full ten minutes
before Minor came out and said:
"Now these guys are hollering
for you to go in and tell them
what's wrong with them Mac."

"Say it would take more than
one night to tell that gang what
is wrong with them," retorted

Bo-Me-Hi will host the Wran-
gel Wolves next week and,
as usual, a brisk movement of
tickets is reported. If you wish to
get in on the show, don't say you
weren't warned.

LAND REGISTRY ACT
Re: Certificate of Title 10661-1 to the
East Half of Lot Nine Hundred and
Ninety-one (191), Queen
Charlotte District, said to con-
tain Three Hundred and Twenty
(320) acres, more or less, except-
ing thereout and therefrom Five
(5) acres of the South-east cor-
ner and excepting also the North-
east Quarter of the North-east
Quarter.
WHEREAS satisfactory proof of loss
of the above Certificate of Title is
shown in the name of Ernest Radcliffe
Crump (in Trust 40, 5055), has been
filed in this office, notice is hereby
given that I shall, at the expiration
of one month from the date of the
first publication hereof, issue a Pro-
visional Certificate of Title in lieu
of said lost Certificate, unless in the
meantime valid objection be made to
me in writing.
DATED at the Land Registry Of-
fice, Prince Rupert, British Columbia,
this 19th day of January, 1951, A.D.
ANDREW THOMPSON,

Pte. Danny Seguin, of Edmonton, lines up his bazooka weapon on an imaginary Communist tank. Seguin, only 20 years old, is typical of the fine type of young soldier with the PPCLI.

Mountainous terrain massed with stones and low-lying brush in which the Canadians train in Southern Korea is evidenced here. The 'Patricia's' find the going tough but are determined to carry on the tradition of their famed regiment.

PREPARE FOR BATTLE—Readying to go into action against the Reds in Korea, the 2nd Battalion, Princess Patricia's Canadian Light Infantry, are putting everything into their training at the Canadian camp just outside Miryang in South Korea. Their extensive training includes the use of several types of U.S. Army equipment, including the bazooka, 60 and 81 mm mortars and flame throwers. These above National Defence photos depict phases of this training.

Blackwood on Bridge

By Easley Blackwood

After you bid four no trump and hear partner's response, you know how many aces the partnership has. As I have outlined in previous articles you should not follow with a bid of five no trump unless your side has all the aces. In fact, at rubber bridge, you are guaranteeing all the aces to partner when you have bid five no trump.

There is an exception to this part of the Blackwood Convention. The exception is that it does not apply in match point duplicate bridge. Here is the reason. At rubber bridge it makes practically no difference whether you play a slam in a suit or in no trump (assuming the slam is makeable in either case.)

But in duplicate bridge the extra ten points you get for playing a slam in six no trump instead of six spades may mean the difference between a top and a bottom.

Therefore at duplicate your five no trump call, following your bid of four no trump does not guarantee all the aces. Your partner must realize that there may be an ace off the hand and that you may be merely probing the king situation to determine whether the hand will play safely at the "top spot" of six no trump.

Look at today's deal. Mr. Masters has a fine hand and enjoys the additional advantages of hearing his partner open the bidding and then make a jump rebid. He knows there is a slam, probably in either spades or diamonds but he uses the Blackwood to test for a possible six no trump contract.

Mr. Champion's response to the four no trump shows two aces and that means that one ace is

Both sides vulnerable

3 S Pass 4 NT Pass
5 H Pass 5 NT Pass
6 H Pass 6 NT All pass

in the hands of the enemy. Now Mr. Masters bids five no trump and is pleased to learn that his partner has two kings.

The information is particularly important because it assures the absolute solidity of his six card diamond suit. With the opening lead of a club or a heart coming up to his kings in those suits, Mr. Masters is justified in bidding the slam in no trump.

Increase Mather was a clergyman and former president of Harvard College who died in 1723.

Daylight Saving Coming In April

VICTORIA—The government does not believe there should be a plebiscite on daylight saving in British Columbia. Minister of Finance Herbert Anscomb said the cost would be prohibitive and was not warranted. Anyway the most of the people in the province favored daylight saving although he would not himself if he lived in the country.

A delegation from the Union of B. C. Municipalities was told daylight saving would commence the end of April and end in late September. The delegation included Mayor P. W. George of Victoria and Reeve Solomon Mussallem of Haney.

The fire department was called out twice yesterday to chimney fires. In neither case was any damage reported. The first, at 1:50 p.m., was to the home of C. E. Robinson, 418 Sherbrooke. The second was to the Washington Block. At the latter place the chimney was reported to be faulty.

PRESBYTERIANS HONOR (Continued from page 2)

of the evening in responding to the toast to the Immortal Memory.

James Nicol was effective in his response to "Bonnie Scotland."

W. D. Smith, in fitting manner, proposed the toast to "The Lassies" and Mrs. Robert Cameron responded.

The appropriate musical program included the singing of "Road to the Isles" by W. D. Smith; vocal duet, "O Wert Thou in the Cauld Blast" and "The Banks o' Doon" by Mrs. William Martin and Miss Elizabeth Martin; instrumental selection "The Wee Macgregor" by Vaughan Tattersall, Robert Barclay, Fred Conrad and Mrs. E. J. Smith, violins, and Miss Elizabeth Martin, piano. Community singing of famous Burns songs lent further enlivening atmosphere to the occasion.

Mrs. E. J. Smith was accompanist for the evening.

Union Women Are Organizing

About 20 turned out Thursday night to organize a women's auxiliary to the United Fishermen's and Allied Workers' Union.

Provisional officers elected were:

President—Mrs. Verna Patrick.

Secretary-treasurer—Mrs. Violet Patrick.

Executive committee—Mrs. Helen Van Pykstra, Mrs. Olga Newton, Mrs. M. Penney.

First objective of the auxiliary will be membership. Plans were made to have all wives and female relatives of fishermen and shoreworkers join.

Another meeting next Thursday will set up sick visiting and social committees. An annual Christmas party for the children is also planned.

Permanent officers will be elected at a later meeting.

Elderly Miner Succumbs Here

The district lost an old-time prospector and miner this morning in the passing at Prince Rupert General Hospital of Lawrence Sinclair in his eighty-third year.

Born in the Shetland Islands, Mr. Sinclair had spent much of his life in the mountains of British Columbia. He came here from Tulsequah about five months ago.

PUT RUPERT (Continued from page 1)

met each boat when it arrived, took on passengers and mail and headed into the west. The open throttle was her speed limit. She had the right-of-way over everything. All trains were sidetracked and switches locked minutes before she hove in sight. Passengers and mail for Canadian points were taken off at divisional points while they changed engines and train crews, and tested car wheels. Her lowest time flight was 92 hours between boat at Saint John and boat at Vancouver and may we remember there was not the roadbed and the one hundred pound rail of today.

While I was young in years then yet I have some knowledge of Saint John in those early days, and I know something of Prince Rupert of today. There was no inward or outward traffic to Saint John because all the boats went to Portland, Maine, just as all the boats go to Vancouver today. But when Douglas Hazen who possessed the vision and the nerve to back up his dream took the Government of the day by the throat and forced the issue which brought the Trans-Atlantic mail to Saint John, it not only brought the boats with their inward and outward cargoes, but it brought the CPR into Saint John in a big way.

Now let us remember that all mail, passenger and cargo traffic on the Pacific is held on board ship two days in order to pass up Prince Rupert and dock it at Vancouver and that 48 hours would put the mail and passenger traffic from Prince Rupert into Winnipeg. Now, where is the nigger in the woodpile? If our M.P.'s could locate that mysterious gentleman, and put their hand on another Douglas Hazen who possessed the nerve to manipulate this wool-headed gent to the funeral pyle, and switch the Oriental mail boats to Prince Rupert where they belong, then the CPR would be nosing into Prince Rupert in the big way they entered Saint John, and all inward and outward cargo problems would be solved for time in hereafter.

THE EXPERTS Say...

By KAY REX
Canadian Press Staff Writer

BRINGING DOWN FOOD BILL
—Difficult as it may sound there still are a few tricks which may help bring down the family food bill.

Don't forget the powdered skimmed milk now selling in most grocery stores is one way to cut milk costs. The fat is missing but the powdered skimmed milk is ideal for putting on cereals and using in cakes. It isn't as good for drinking.

Eggs may be down in price (they've dropped 20 cents to 49 cents a dozen in Ottawa) but they're still expensive enough to make a one-egg cake look attractive economically.

ONE-EGG WHITE CAKE—Ingredients: One-third cup shortening or margarine; two-thirds cup sugar; one-half cup milk (powdered skimmed milk and water may be used here); 1 1/2 cups pastry flour; one-quarter teaspoon baking powder; one-teaspoon baking powder; one-half teaspoon vanilla. Method: Mix and sift flour, salt and baking powder. Cream shortening and sugar together thoroughly. Add beaten egg, then sifted flour and milk alternately. Pour into greased and floured pan. Bake in a moderate oven (350 degrees Fahrenheit) about 35 minutes.

This recipe may be varied to make chocolate cake. To the above recipe add one-quarter cup of cocoa mixed with one-quarter cup boiling water, one-third cup sugar and one-teaspoon vanilla.

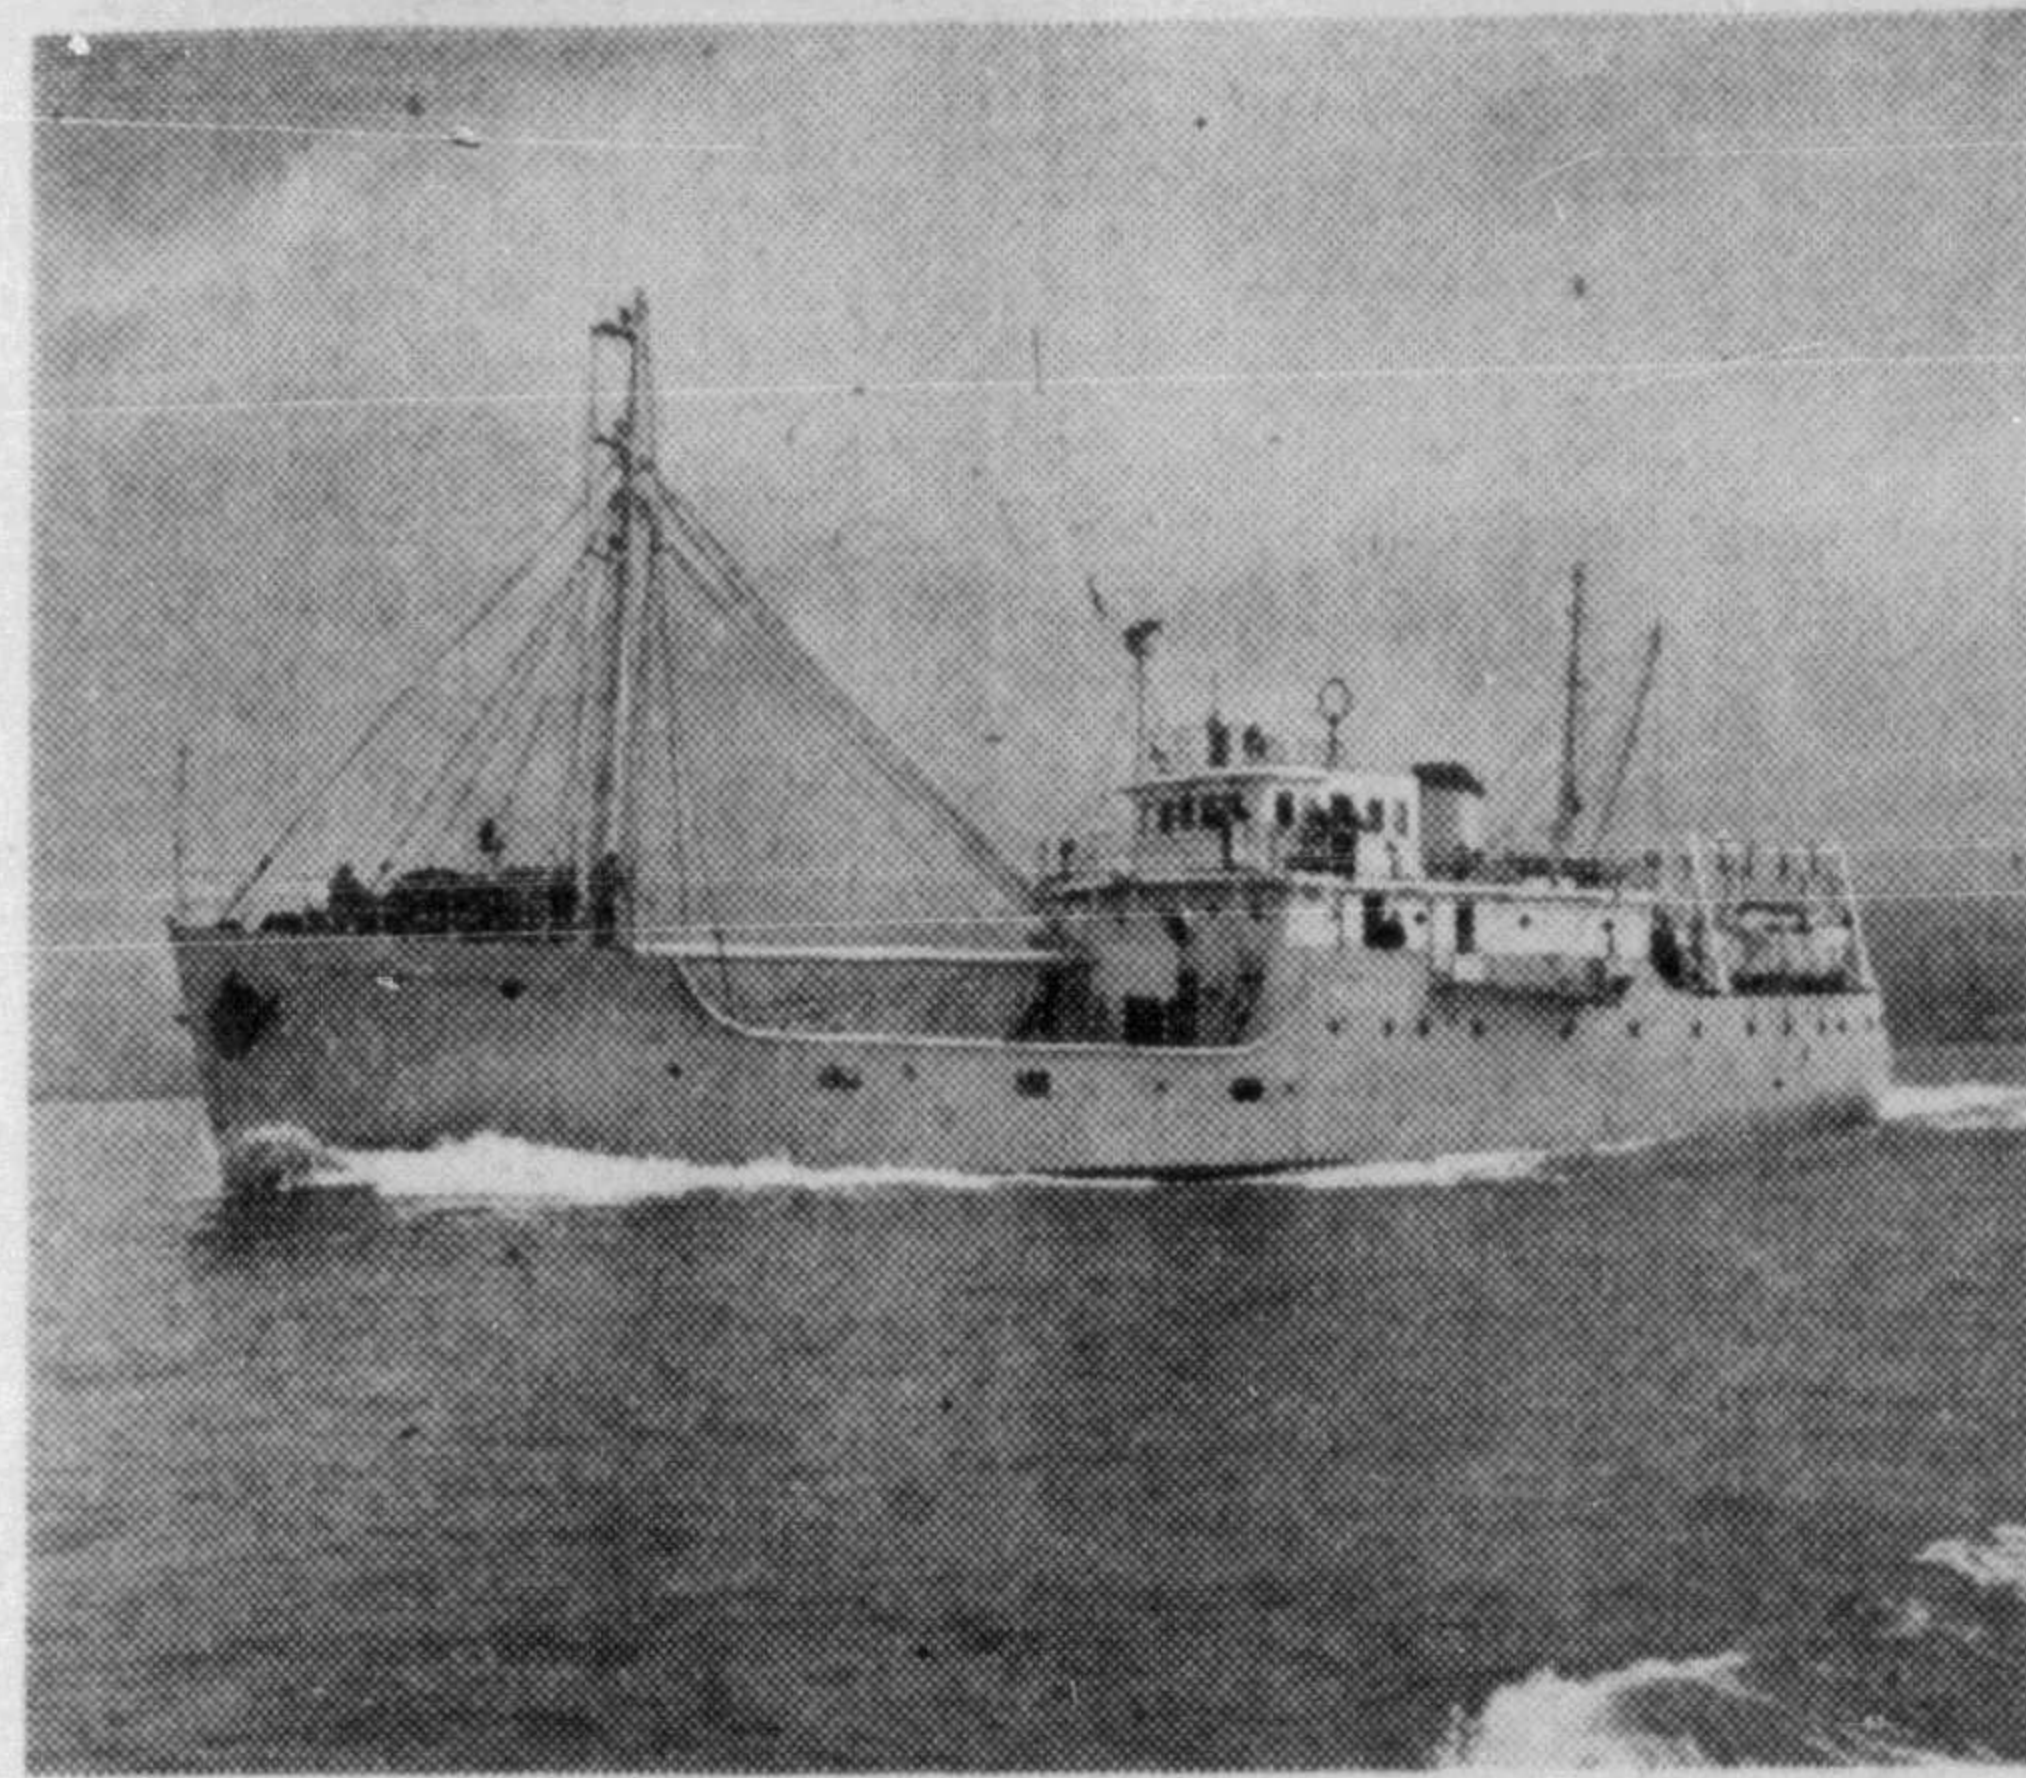

APPLESAUCE CAKE—Ingredients for this eggless and milkless cake: One cup sugar; one-third cup shortening; 1 teaspoon salt; one teaspoon cinnamon; one-half teaspoon cloves; few grains nutmeg; one-half cup chopped raisins; one teaspoon soda; one cup sour applesauce; 1 1/4 cups flour.

Cream the first six ingredients. Add fruit. Dissolve one teaspoon soda in a little warm water and stir into the sour applesauce. Beat all together thoroughly and add flour. Bake slowly 45 minutes.

ECONOMICAL COOKING
Health Department experts also have a few tips on the economical side of cooking. They urge careful cooking of meat which now is well up on the high-priced-food list.

Temperature and length of time of cooking govern shrinkage, say the experts. Tougher cuts can be improved by cooking in tomato juice and water—which later forms into a delicious gravy.

Sweet potatoes can make a welcome change in the family diet. The health experts also say they are rich in vitamins and minerals.

BACK ON JOB—Lighthouse tender Alexander Mackenzie, after dry docking

WATERFRONT - - WHIFFS

Ritchie's Here With New Boat—Speeding Up Island Logging—Mackenzie Back on Job

David Ritchie and sons Alf and Jack arrived in port Thursday morning in their new seiner-type boat New Laurel. Built in Victoria, the New Laurel is over 60 feet long. It is the intention of the owners to fit the vessel up for dragging and halibut fishing. Fitting is expected to take about one month. On the way up, the New Laurel was forced to wait one day before crossing Queen Charlotte Sound. Otherwise, they were not affected by the storm of the week-end.

Aero Camp Manager George Bell, with a crew of about 25 men, came from Vancouver to Cumsheewa Inlet on the Queen Charlotte Islands to speed up operations after slowing down during the Christmas season. They passed through this port yesterday on the Chilcotin.

Lighthouse tender C.G.S. Alexander Mackenzie, Capt. Norman McKay, sailed yesterday afternoon for Cape St. James. Last week-end she spent in dry dock for her first repainting job since being commissioned in August.

Union steamer Chilcotin, Capt. H. E. McLean, arrived in port at 1:30 p.m. yesterday from Vancouver with a passenger list of about 50. Disembarking here were Mrs. Hilda Berg, H. Miller, B. Foster, H. R. Moat, Mrs. G. M. Turner, Miss K. E. Stordale, F. Fairwell, D. Brown, J. Robertson, W. Thompson and M. Esawolf. She sailed last night for Skidegate and other south Queen Charlotte ports. She will pick up from 7 1/2 to 10 tons of frozen fish for Vancouver on her return Sunday.

Lieut. Cdr. J. M. Golby, HMCS Chatham staff officer, and N. A. Beketov, marine superintendent, attended an at home aboard the British survey vessel HMS Challenger Thursday night at Port Simpson. Also attending were about 12 residents of Port Simpson. While aboard the ship, which Lieut. Cdr. Golby describes as well appointed. The Challenger is spending several months on this coast engaged in hydrographic and geodetic survey work.

Sunday is another Navy Day at HMCS Chatham. The Drill Hall will be thrown open to the public during the afternoon. Feature will be the showing of the authentic United States Navy film, "Our Fighting Lady." The greater part of the film was taken from carrier-based planes and in many cases with the cameras sighted along the gun barrels. There are thrills and action aplenty in the filming of actual combat scenes of a great aircraft carrier during World War II.

Art Murray returned a few days ago from Vancouver where he placed an order with the Arrow Boat Works for the construction of a 20-foot gasboat which will be operated as a water taxi from Port Edward to various Skeena River points having no

STUDIES FISH—E. Arthur Day, whose appointment as Supervisor of Fisheries for the Department of Research and Development, Canadian National Railways, has been announced by M. W. Maxwell, chief of development for the company. Mr. Day, with headquarters at Montreal, will supervise studies of Canadian sea and inland fisheries bearing especially on features affecting transportation.

other means of transportation. The vessel will have a 110-h.p. high speed Mercury engine which will give a speed of 15 to 20 miles an hour. The vessel is to be here and ready for service by April 1. If business justifies, a second vessel may be put on the run.
