Canada Welcomes The Royal Couple

Young Canada Welcomes Elizabeth And Phil

Vivacious Young Matron And Gallant Consort Will Come Calling on us Next Week

A vivacious young matron comes calling on Canada next week.

For Princess Elizabeth, it will be her first look at the country she some day may rule, by sentiment if not in fact. For Canadians at home, it will be their first glimpse of the 25-year-old woman with the softly-waved brown hair and grey-blue eyes who has won a place in their affections.

With her will be a tall, blond man of 30, her husband, the Duke of Edinburgh. Some time in the future he may become consort to a Queen, a difficult and delicate role last exercised in Britain by Prince Albert, consort to Queen Victoria.

They are due in Montreal from London by air next Monday, but their month-long tour of the oldest dominion will not begin officially until the following morning from Quebec City, just a week after the date originally set.

The tour through a countryside clothed in the golden dress of autumn will be the first by a member of the Royal Family since King George VI and Queen Elizabeth came in the spring of 1939. There will be fewer official functions, perhaps more informally, than in 1939. But it will follow much the same route.

There have been many changes in the 12 years since

the King and Queen won the hearts of Canadians. The rugged scenery of the mountainous East and West is unchanged, the pastoral aspect of the farming areas the same. But the population has grown from some 10,000,000 to more than 14,000,000. The cities and towns are larger; industry, manufacturing and commerce have grown immensely.

The Princess and the Duke will see many parts of Canada. They will see modern industrial cities and picturesque villages. They will see the West's immense grain fields—from which the crop has been harvested—mines, factories, seemingly limitless forests.

In Montreal the royal couple will land at Dorval Airport, Viscount Alexander, the Governor-General, and Prime Minister St. Laurent will welcome them.

After reception ceremonies, the party will be whisked to

Lautier, will view the magnificent sweep of the Gatineau Hills from the deck of a boat in the afternoon. The royal couple then must hasten back for a government reception at 5 p.m. and a buffet supper later at Government House. They leave by train at 1:05 a.m. Friday to open the Ontario section of their tour.

AT CORNWALL OCT. 12

First stop in Ontario after Ottawa is Friday, October 12, at Cornwall—from 8:45 a.m. EST to 9 a.m.—then on to Brockville for a 10-minute pause at 10:20 a.m. At Kingston during a visit of almost two hours the royal couple will inspect the Royal Military College and receive the city's welcome, then go on to Belleville for a 15-minute stop. Trenton, a few miles west, will see the visitors for two hours during which period they will inspect the RCAF's central command air station outside the town.

The Princess and the Duke will fly from Trenton to Milton, outside Toronto. Thousands of Peel county children—county authorities plan to hire 125 buses to carry 8000—will feature Ontario's official welcome at the airport.

From Milton to Toronto is some 10 miles. This distance will be covered by motor-car over the Queen Elizabeth Way, to be kept clear of motorists. Police also have ordered that two parallel highways be kept clear. "Utter chaos" has been the comment of some officers in their forecast of what traffic conditions are likely to be.

Once in Toronto itself, Their Royal Highnesses face one of the stiffest portions of the tour. They will be met at the city hall at 5:40 p.m. by Mayor Hiram McCallum and other civic dignitaries, then at 6:15 p.m. to take a short drive through the streets.

By 6:35 p.m. they will be in the royal train, their headquarters during their stay in Toronto, in the Front Street Railway yards where the view of Lake Ontario, to the south, is obscured by factories and other industrial buildings. That night they dine privately with the lieutenant-governor, Hon. Ray Lawson, and Mrs. Lawson.

Saturday, October 13, will be a crowded day. At 10 a.m. Their Royal Highnesses will drive slowly westward along Lake Shore Drive to the Canadian National Exhibition ground. Thirty-five thousand schoolchildren will be packed into the CNE grandstand, built to accommodate 23,000 adults. Seven holders of the Victoria Cross will be presented.

At 10:55 a.m. they will drive along a circuitous route to Hart House at the University of Toronto in central Toronto, arriving there at noon. At 12:20 o'clock, the Duke will attend a Board of Trade luncheon. His address will be broadcast. At the same time, the Princess will attend a luncheon given by Mrs. Lawson for younger married women.

For the remainder of the crowded day Their Royal Highnesses will speed to one point after another, mainly to spots where children will be congregated. High points will be visits to the new hospital for sick children on downtown University Avenue and to Sunnybrook Military Hospital in suburban North York.

That night, they will attend Ontario's state dinner in the Royal York Hotel. Directly after the dinner they leave for their train—almost across the street—and departure at 12:01 a.m. EST Sunday for Niagara Falls.

The royal couple arrive in the city of the world-famous cataract at 10 a.m. Sunday. They will worship that morning in Christ Church, largest of the city's three Anglican churches overlooking the Niagara River gorge. Rt. Rev. E. Walter Bagnall, Bishop of Niagara, will conduct the service.

Then, after participating in the city's program and viewing the 167-foot falls, it's off to St. Catharines at 1:30 p.m. for the royal tourists. After a 10-minute station stop at 2 p.m., they leave for Hamilton where a two-hour visit is scheduled from 3:30 p.m. to 5:30.

Friendships formed at the royal couple's summer home near Balmoral last August will be renewed when the Princess and her husband inspect the

Argyll and Sutherland Highlanders at Hamilton. The Princess is colonel-in-chief of the regiment. Lt.-Col. J. A. Farmer and 26 members of the band met the Princess and her family when the band competed in the Highland games at Stirling Castle.

The remainder of the Ontario schedule calls for an observation-platform appearance at Dundas, a stop in Brantford, 10 minutes at Woodstock, and a train-slowdown appearance in Ingersoll. They arrive in London at 7:55 p.m. for a half-hour stay, go on to Chatham at 10 p.m. for a 10-minute stop, and arrive in Windsor at 11:30 p.m. to spend the night.

They leave that city after meeting Detroit's mayor in the middle of the Ambassador Bridge—for Kapuskasing at 1 p.m. The visitors will spend almost a full day in the northern Ontario pulp and paper town, taking off for the west by RCAF plane at 10 a.m. October 13.

THROUGH RUGGED COUNTRY
Mile upon mile of forest, rugged mining country, lake and stream separate Kapuskasing and Winnipeg.

The 700-odd miles from Kapuskasing to Winnipeg will be covered by Princess Elizabeth and the Duke of Edinburgh in three hours Tuesday, October 16, when they take off in an RCAF plane on the western phase of their month's tour of Canada.

The 25-year-old Princess and her husband will see Winnipeg fully recovered from the effects of the great flood of 1950. And they will see a city greatly expanded in the 12 years since the King and Queen were there. For while Winnipeg still is the West's wheat-trading centre—and its life revolves around the grain trade—much industry has moved there in the last decade.

Greeted on arrival by Lieutenant-Governor R. F. McWilliams, the Princess and the Duke will spend 10½ hours in Winnipeg and in St. Boniface, the city across the Red River that once was largely French-speaking but now is giving way to an influx of English-speaking residents from Winnipeg, where most of them work.

LEAVE FOR WINNIPEG
From Winnipeg, the royal couple will travel west in the special train. At 10 a.m. MST they reach Regina, Saskatchewan's capital on the open prairie, which has prepared a gala welcome for an eight-hour visit. From Regina to Moose Jaw, which they reach at 7:30 p.m. for a half-hour station appearance, is an hour's run. Then it's rolling southwest, for a 20-minute stop at Swift Current through the ute stop at 10:05 p.m.

The royal couple reach Calgary at 10 a.m. Thursday, October 18. A five-hour program there calls for a downtown parade, a civic luncheon and a "chuck-wagon dinner"—with beef stew—at the Calgary Stampede corral—and a ride in an old-time stage coach. For an hour, they will see a miniature stampede.

IN BRITISH COLUMBIA
Leaving Calgary at 3 p.m., they reach Cochrane, Alta., at 3:47 o'clock. From there, they take motor-cars to Banff. They leave Banff at 7:30 p.m. by train for a succession of stops in British Columbia: Revelstoke at 11:50 a.m. PST, October 19, for

20 minutes; Sicamous at 1:45 p.m. for an observation-platform appearance; Salmon Arm at 2:25 p.m. for 10 minutes; Kamloops at 5 p.m. for an hour.

They reach Vancouver at 10 a.m. Saturday, October 20. The Princess and Princess will spend more than 26 hours in Canada's fourth largest city. They will be met on arrival by British Columbia's Lieutenant-Governor Clarence Wallace and will go immediately to the city hall where they will be presented with a silver bowl and an illuminated address.

After a civic luncheon at 12:30 p.m. they drive into Stanley Park to meet Vancouver's North

GIANTS ONE UP IN WORLD SERIES

Yankees Lose Second Game Today by 6 to 2

NEW YORK (CP)—Jim Hearn and Sheldon Jones teamed up on the New York Yankees today as the New York Giants routed Vic Raschi to win the third World Series game 6-2 before 52,035 fans at the Polo Grounds.

The win gives the Giants a 2-1 edge in games. The fourth game will be played tomorrow with Sal Maglie and Johnny Sain opposing pitchers. Hearn threw a shutout for seven innings until he lost his control and walked home a run in the eighth. Jones got him out of a deep hole by retiring Hank Bauer with three on and two out.

IN BLUE ROOM—This informal pose of King George and Queen Elizabeth with their Welsh Corgi pet, Crackers, was taken several years ago in the Blue Room at Buckingham Palace by Baron. This photo is from United Kingdom Information Office.

Thanks Offering

Accept the harvest of our hearts, O God, who giveth good to all. Our ceaseless gratitude and trust. Our promptness to obey each call of wisdom as we serve but Thee, Searching no other Mind than Thine.

Harvesting Delayed

WINNIPEG — Bad harvest weather continued throughout the three prairie provinces during the past week. At a few points in southern Manitoba where the previous snowfall was lighter than in Saskatchewan or Alberta, some harvesting operations were resumed but only for a day or two as further rains halted these operations.

Royal Couple Due at Montreal on Monday

Royal Standard To Fly, 21-Gun Salute, RCAF Band—Formal Welcome

MONTREAL.—If the weather on their flight across the Atlantic presents no difficulties, Princess Elizabeth and Prince Philip should arrive at Dorval Airport, northwest of this city, at noon Monday to commence their tour of Canada.

At their special BOAC plane comes in, the Royal Standard will be broken out over the airport. There will be a 21-gun salute and a Royal Canadian Air Force band will strike up "God Save the King."

After the official welcoming ceremonies, the royal couple will proceed to Quebec where the tour actually commences.

Meantime a last-minute flurry depended on Clarence House in London today as Princess Elizabeth and Prince Philip made final arrangements to take off Monday (6:30 p.m. Eastern Standard Time Sunday) for their Canadian tour.

Russia Would Use Atom Bomb

Nursing in Atom Warfare

Not only the nurses of the local hospital staffs but all graduate nurses in the area will have the opportunity of hearing about new nursing methods in event of atomic, biological or chemical warfare when Miss Fernie Trout R.N. of Vancouver comes to Prince Rupert toward the end of this month to give special lectures during a stay of three days.

Stalin Announces Program of Tests

LONDON (CP)—Soviet Prime Minister Joseph Stalin said in an interview that Russia recently exploded another atomic bomb and promised that there would be more to come.

Ship Founders Eighteen Lost

An independent daily newspaper devoted to the upbuilding of Prince Rupert and Northern and Central British Columbia...

Thanksgiving Day

GRATEFUL again for many blessings, Canadians celebrate Thanksgiving Day on Monday in observance of a custom that began back in the golden years of Victoria's reign.

Canada, as a self-governing Dominion, was not quite five years old when her citizens filed quietly into the churches to celebrate their first Thanksgiving Day—Monday, April 15, 1872.

While the day now marks thankfulness for a bountiful harvest, it was not so with the first Thanksgiving.

The then Prince of Wales, later to become Edward VII, was recovering from a long and serious illness and the government of the young Dominion proclaimed April 15 as a day of thanksgiving for his restoration to health.

History repeats and now after 79 years Canada's measure of thanksgiving will be the greater for the encouraging reports of the King's condition since his operation and the presence in the Dominion of Princess Elizabeth and the Duke of Edinburgh.

Since its first observance, the day has been celebrated in various months, on various days and, at times, for varying reasons. However, for the last 20 years, it has become custom for it to be celebrated on the second Monday in October and officials say there is no reason to expect a change.

Though Thanksgiving first was observed in 1872, it did not become established until 1879. In that year, the government proclaimed Thursday, November 6, as a day of thanksgiving for an abundant harvest earlier that fall.

One of those exceptions was in 1887 when June 21 was set aside to mark the 50th anniversary of Queen Victoria's accession to the throne. Again, in 1897, June 22 was proclaimed to celebrate Victoria's Diamond Jubilee.

Following the First World War, Parliament adopted a bill combining Thanksgiving and Armistice Day. The two were celebrated on the Monday of the week in which November 11 fell.

Since then, Thanksgiving has been celebrated on the second Monday of October. An exception occurred in 1935 when a general election was called for that day and Thanksgiving was put off until Thursday, October 23.

As I See It

by Elmore Philpott

Why Girls Die Young

HERE ARE some figures, prepared by Nathan Keyfitz of the Canadian Bureau of Statistics, which tell a big story.

They gave the total immigration and emigration from Canada, 1851 to 1950.

Came to Canada... 7,114,000 Left Canada... 6,633,000

THE UNREVISED figures for the 1951 census in India are:

Males... 183,384,807 Females... 173,508,817

The difference of ten million tells its own tragic story. A poor mother, who has maybe five children and who cannot possibly get enough food for them all, makes sure that SOME survive.

On Page 259 of INTERVIEW WITH INDIA, the fascinating book by John Frederick Muchi, we get one glimpse of this tragedy.

"One woman brought a sick baby for me to look at, that was swollen with malnutrition till her flesh was like putty. I pressed my finger into the skin of her ankle and the impression stayed for nearly five minutes."

There was nothing much that could be done at this stage, but I gave her some muk powder that had been lying in my pack.

Peculiarly enough, the same woman had a son of about two years who seemed perfectly healthy. It was not hard to see

that she had been forced to make a conscious choice between her two children. The drivers agreed that this was the case, when I asked them about it, and they went further than that.

Nehru's government plans population control by limiting births to the point the country can feed. But when I heard him telling vast crowds of this I was by no means sure they understood him, or would have approved if they had.

IT IS CERTAINLY a significant thing that when a Britisher and an American fought a match for the world's prize fight championship, both were colored men.

As a physical specimen, the man of African ancestry seems to be superior to all others. Certainly the colored one-tenth of the U.S. population wins many, many time more prizes in U.S. sport than its racial ratio would warrant.

The late Louis Labourdais once told the B.C. Legislature that eugenics was the key to this. In the old slave days, he said, the slave owners saw to it that the finest specimens were mated. Whatever the reason, it seems to be a fact that the black man can run faster than the white man—and can hit harder, too.

One of my old World War One chums turned out, years later, to be a frightful stuffed shirt—and developed ideas that out-blipped Col. Blimp. At the time of the Olympic Games of 1936, he was very worried for the effect on white man's prestige of the fact black men were running off with most prizes.

"There is a very simple remedy," I told him.

"What's that?" he asked eagerly.

"Let the white man run faster," I replied.

WINNIPEG (CP)—A three-ton stake truck takes Canada's pioneers west nowadays instead of the old Red River cart and team of horses. A truck was used by Mr. and Mrs. D. E. Birch, moving from here to Lulu Island near Vancouver.

ray... Reflects and Reminisces

Princess Elizabeth and the Duke of Edinburgh, zooming over the Gulf of St. Lawrence, west-bound, will see the largest front door in the British Empire. But they have not crossed the hall yet.

OUT OF SORTS Dr. Keenleyside, prominent executive in the United Nations, and Dr. Schacht, a former Nazi have been exchanging a few remarks concerning one another's personalities. Merely trifling small talk contrasted to what was shouted back and forth in 1914-18 and 1939-45.

SEEN NOTHING, YET! A Nashville (Tenn.) judge has ordered the proprietor of a saloon to remove from the walls, the painting of an almost nude woman. We'll wager it is not half as distressing as scores of art exhibits, magazine covers, illustrated stories and Hollywood yarns.

IT MIGHT HELP! A cow is said to move her jaws, on an average of 41,000 times daily. This may be interesting news for anyone who, while in a hurry, is obliged to wait at a telephone while some gossip with lots of leasure, is unloading.

Although Prince Rupert has a swimming pool a deep harbor and a beautiful lake, requests continue to be shown how to dive. It ought to be a simple matter. Only yesterday one heard the suggestion that a good way to start would be learning how to eat watermelon.

CAN'T GET THAT FEELING Why travel? Why picture yourself fooling around in some distant vale of beauty and romance? Dreams of far away places a taking a beating. Glancing

Services in the Church

Saturday Sermon

His Thanksgiving

(Rev. Fred Antrobus, First Baptist Church)

Standing before His disciples and lifting the cup, the Saviour "took the cup, and gave thanks..." (Matt. 26:27). We have here the highest point of thanksgiving. Nothing can compare with it.

feated the whole scheme of divine redemption.

The Cross with all that it entailed was His goal, and He reached it. When He had accomplished what needed to be done, and when God's righteousness had been vindicated and our sin debt had been paid to the uttermost, He cried out: "It is finished."

Jesus looked upon the broken bread and the wine in the cup which was to be sipped by all His disciples as something very deeply significant. The full measure was known only to Himself. Yet He could "thank God." Thanking God can give no higher. His blood has saved the race and rises to sprinkle the mercy seat before God.

"For we were not redeemed with corruptible things, such as silver and gold... but with the precious blood of Christ, as of a Lamb without blemish and without spot."

GRANDPA WOULDNT HAVE BELIEVED IT!...

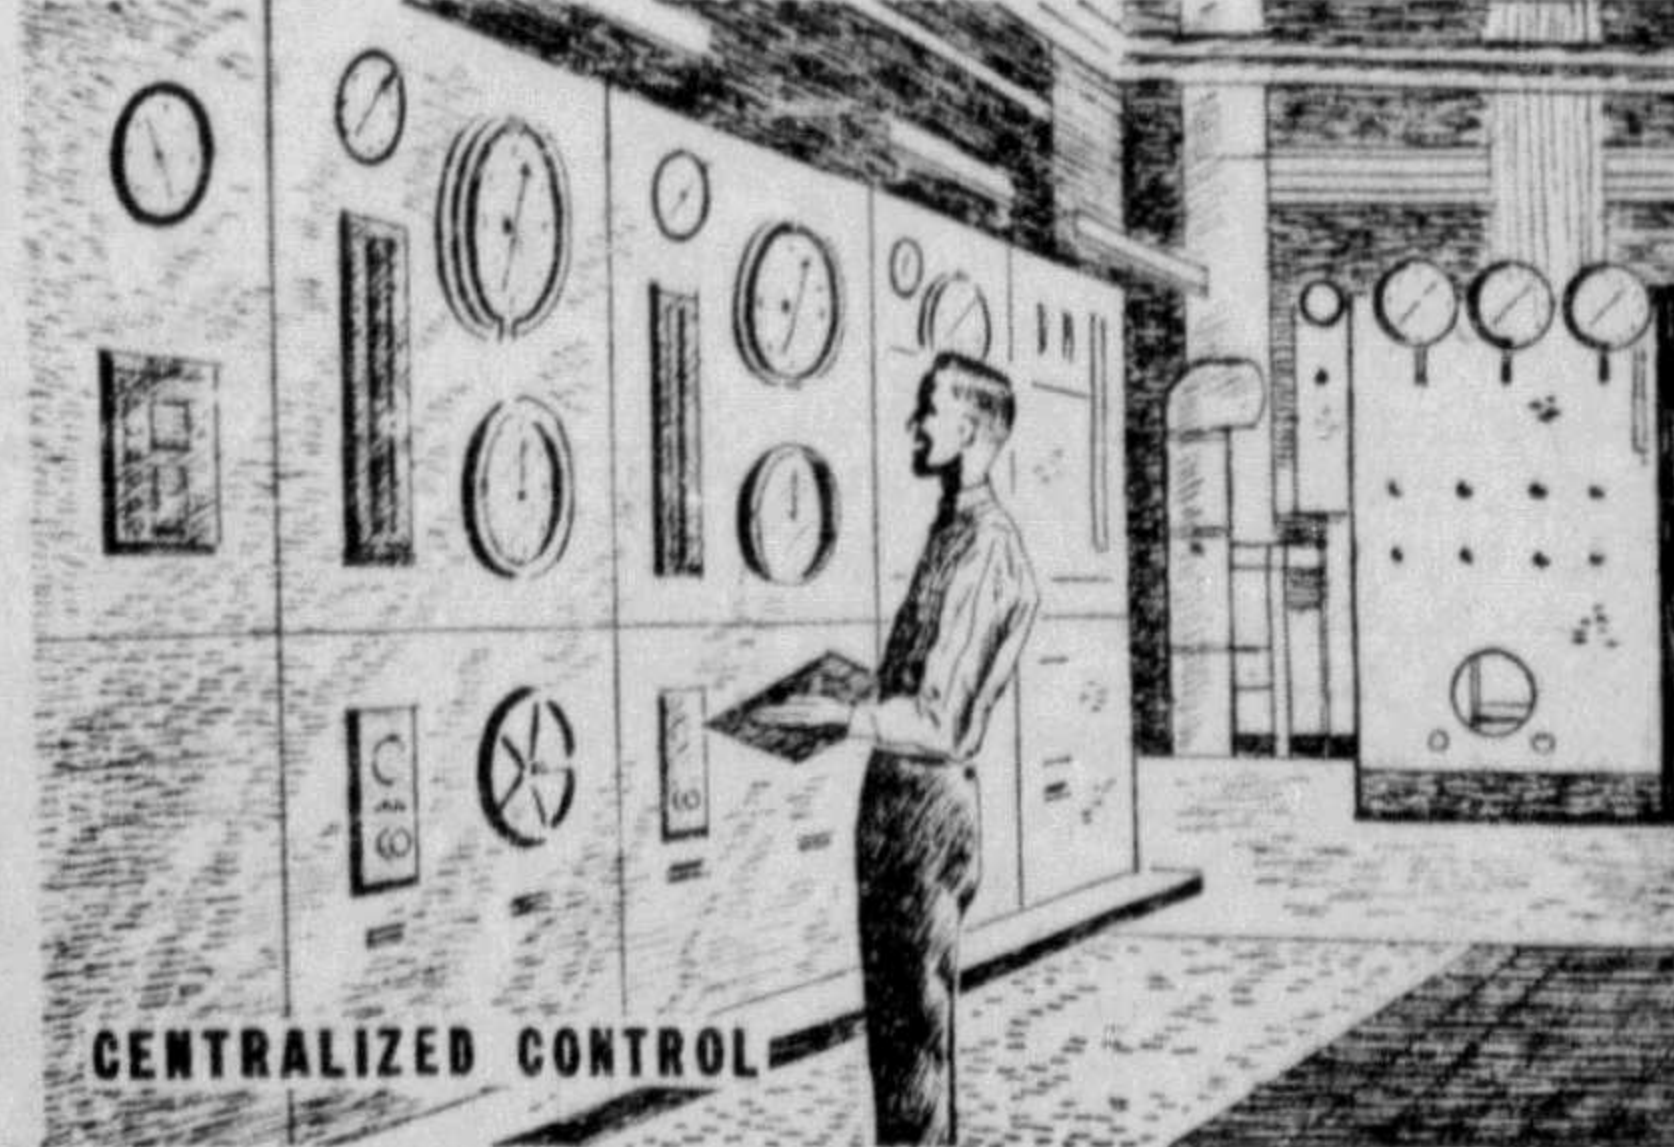

Take Grandpa into one of the modern mines or plants of the Consolidated Mining and Smelting Company. Show him the big machines, the fine tools and the safer, healthier working conditions.

Those who work for Cominco have other benefits Grandpa never even dreamed of. Apprenticeships for young men, housing loans for married couples, pensions for the old timers, life insurance and assisted hospital and medical protection for all, and many other plans.

Profits made all these advances possible. The constant "plowing back" of these profits* makes them secure. "Yes, if it weren't for 'Company Profits', we could very easily be back in Grandpa's day."

\$63,000,000 from Company profits is now being spent on new projects. The completion of these projects will mean the addition of 800 permanent jobs.

The Consolidated Mining and Smelting Company is the largest producer of lead and zinc in the world and Canada's leading producer of chemical fertilizers.

● Business and Professional Members! The speaker at our first fall meeting, October 10, will be Mr. William Scuby. His topic: "From the Trapper to You." (236c)
● Don't miss the outstanding event of the year—the Rotary Men's Tea, Thursday, October 11, 2:30 to 5:30 at the Civic Centre. Fur fashion show and a handsome fur set for a door prize. (237c)
● Buy with confidence from your jeweller. We sell watches, silverware, pens, clocks, Belleek china and many other articles at prices advertised in leading magazines. We always carry the best qualities. Bulger's Jewellery Store. (1tc)

● LADIES—Don't forget the Rotary Men's Tea, Thursday, October 11, 2:30 to 5:30 at the Civic Centre. Fur fashion show by Bill Scuby's Furs presented at 4 o'clock and 5:15. (237c)
● Richard Sephton, district agent, Mutual Life of Canada, is in the city at the Savoy Hotel, phone 37, where he will be glad to receive personal or phone calls. (235c)
● Mrs. A. Hampton is leaving on the Chilcotin Sunday for a trip to Vancouver.
● REMEMBER Rotary Men's Tea Thursday, October 11, from 2:30 to 5:30 at the Civic Centre. Country Store, home cooking and fur fashion show. (237c)

Mrs. Thomas Boulter, after an absence from the city of two months, returned to the city on Wednesday. She visited in San Diego, Los Angeles, Vancouver and Victoria. Her daughter, Miss Marie Boulter, is now in Victoria in the provincial government service.
● Wednesday Night Mixed Bowling. A mixed 12-team five-pin league will start bowling next Wednesday evening, October 10. All teams intending to join this league must have their entries registered at the Bowling Alleys not later than Monday, October 8. This league is limited to 12 teams so get your entries in early and enjoy a season of good sport. (235c)

This was a peaceful morning, contrasted with yesterday which, practically throughout the day, was gusty and windy enough. In the rock cut linking 1st and 2nd Avenues a small tree was blown down and up to this forenoon had not been removed.

Mr. and Mrs. Percy Knutsen and child returned to the city on the Chilcotin yesterday afternoon from a trip to Vancouver. Average sized cars can pass but it might be awkward for a bus or truck.

Support The Blind During October

The annual campaign of the Canadian National Institute For the Blind is underway. Contributions should be sent to Mr. E. Boulter c/o Canadian Bank of Commerce, Prince Rupert. Be sure and attend the Variety concert in the Capitol Theatre on Sunday, Oct. 14th for some excellent entertainment.
WE NEED YOUR SUPPORT

*MRS. IRIS NORTH...

How do you and your husband save, Mrs. North?
We save something out of everything my husband earns. He has a theory that you should save 10 cents out of every dollar of income!

What do you do with the money?
Buy Canada Savings Bonds.

Why?
Because they're guaranteed by the Dominion Government. The way we figure it out is that if you buy something that costs \$100 you want it to be worth \$100, and this is definitely the case with Canada Savings Bonds. They are always worth, and can always be cashed at, full value.

What method do you use to purchase the bonds?
We pay so much down at the bank and have the rest deducted from our savings account. The bonds are registered in my name but belong to both of us.

Have you bought Canada Savings Bonds regularly?
Yes. Every issue.

Do you intend to invest in Canada Savings Bonds again this year?
Certainly.

Have you had occasion to use any of the bonds you have bought?

Yes, so that my husband and his brother could buy out a business concern.

What is your basic purpose in saving?

So that when we get older we won't have to work so hard and will be protected against emergencies. Like when our house was badly flooded during the Winnipeg flood of 1950. The house was really damaged. You should have seen it. We had to live elsewhere from May to September. The government and insurance actually looked after most of the repairs, but when we didn't know what help we would get it was a wonderful thing to know that we had money in Canada Savings Bonds that we could use if we had to.

NOW BETTER THAN EVER
Canada Savings Bonds—6th Series—mature in 10 years and 9 months from date of issue and bear ten 3 1/4% coupons. The first coupon covers 1 year and 9 months and matures on August 1st, 1953; subsequent coupons mature August 1st each year thereafter until maturity. If cashed before August 1st, 1953, simple interest is paid at 2% per year calculated monthly. If held to maturity the overall yield is equivalent to 3.21% per annum. The limit for holdings in any one name is \$5,000 in the Sixth Series. The bonds are cashable at full face value plus interest at any time at any bank in Canada. They are registered in the owner's name. They are non-assignable and non-transferable.

*Mrs. Barbara Iris North, housewife, lives at 242 Scotia St., Winnipeg. Her husband, Herbert C. North, is a general insurance agent. Both are natives of rural communities in Manitoba. Prior to her marriage in 1940, Mrs. North, the former Iris Campbell of Austin, Man., was a country school teacher. She taught at Austin and Roblin. She is the mother of a girl, Barbara, aged 8. She has a brother working in the Bank of Montreal at Maple Creek, Sask. The residence of Mr. and Mrs. North was badly flooded during the 1950 Winnipeg flood. Mrs. North is one of more than a million Canadians who save regularly with Canada Savings Bonds.

CANADA SAVINGS BONDS on sale SOON

AT INVESTMENT DEALERS, BANKS AND THROUGH THE PAYROLL SAVINGS PLAN.

CAN ALWAYS BE CASHED AT FULL FACE VALUE PLUS INTEREST

A Page Devoted to Matter of Building

EDITORIAL

Talking of Building

We talk of building, not only think of new construction which, undoubtedly, is badly needed in the city, particularly in the building department.

Every situation that arises in housing accommodation, stringent points up the need of maintaining to advantage what we have and making the best use of the resources at our disposal for renovation, repair, and modernization.

Possibly put up with shoddy work and income in the fine summer months when our weather is best and the effectiveness of construction is tested. It is now approaching the time when we are home building, due to the difficulty of getting work done and other causes, may not have been as extensive this year as it could have been—certainly not adequate to meet the situation by any means—the city has nevertheless seen considerable improvement in the building line.

Many people have done a splendid job in renovating and improving their premises.

The business section has seen some notable additions. In all the residential sections, changes for the better are to be noted.

Outstanding housing achievement of the year, of course, is the conversion of the former United States administration building.

We have not stood still in building and improvement, to be sure, but there is still plenty to be done.

First Aid For Homes

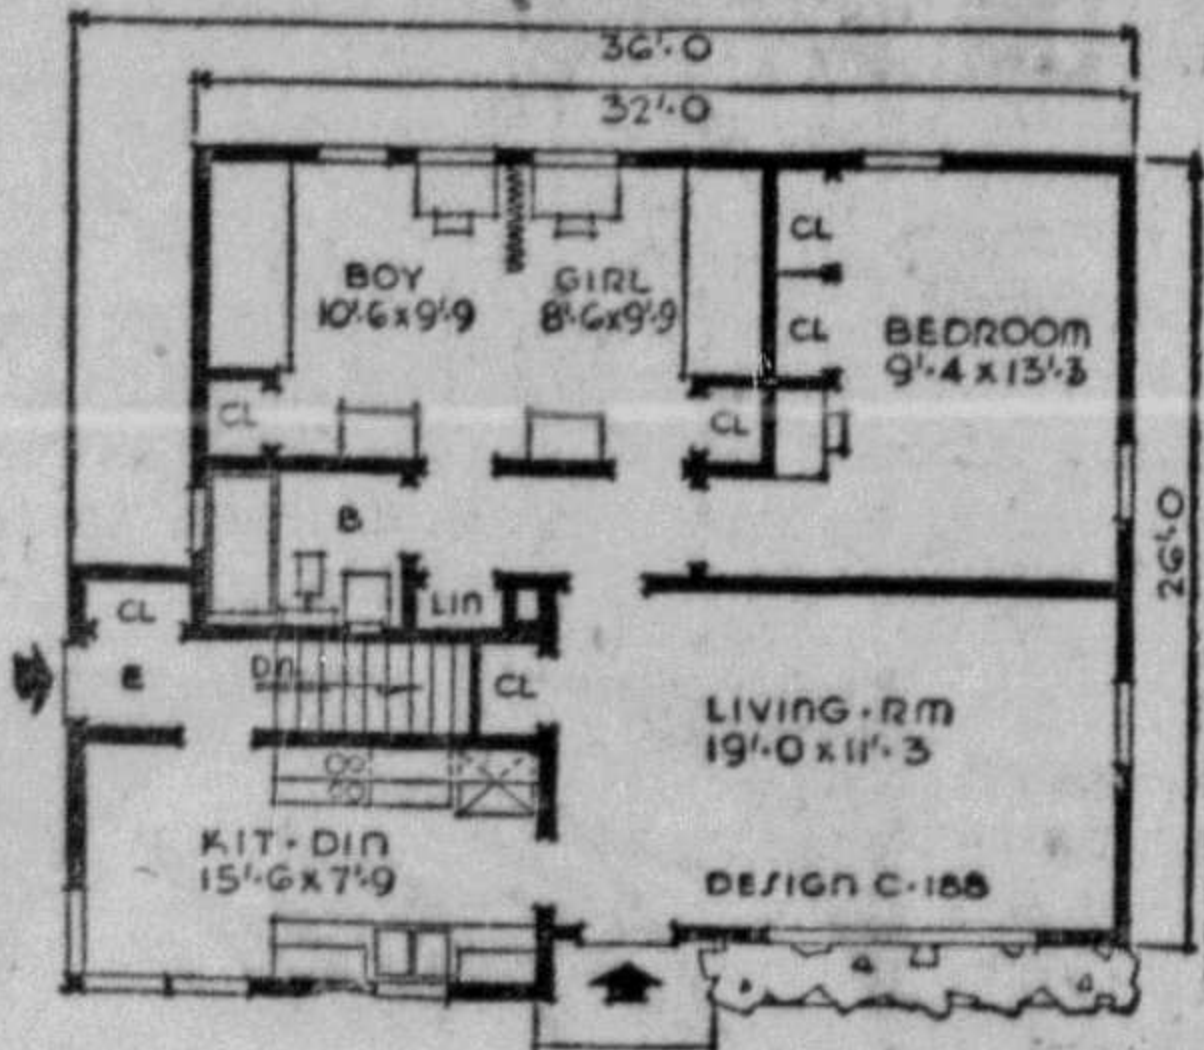

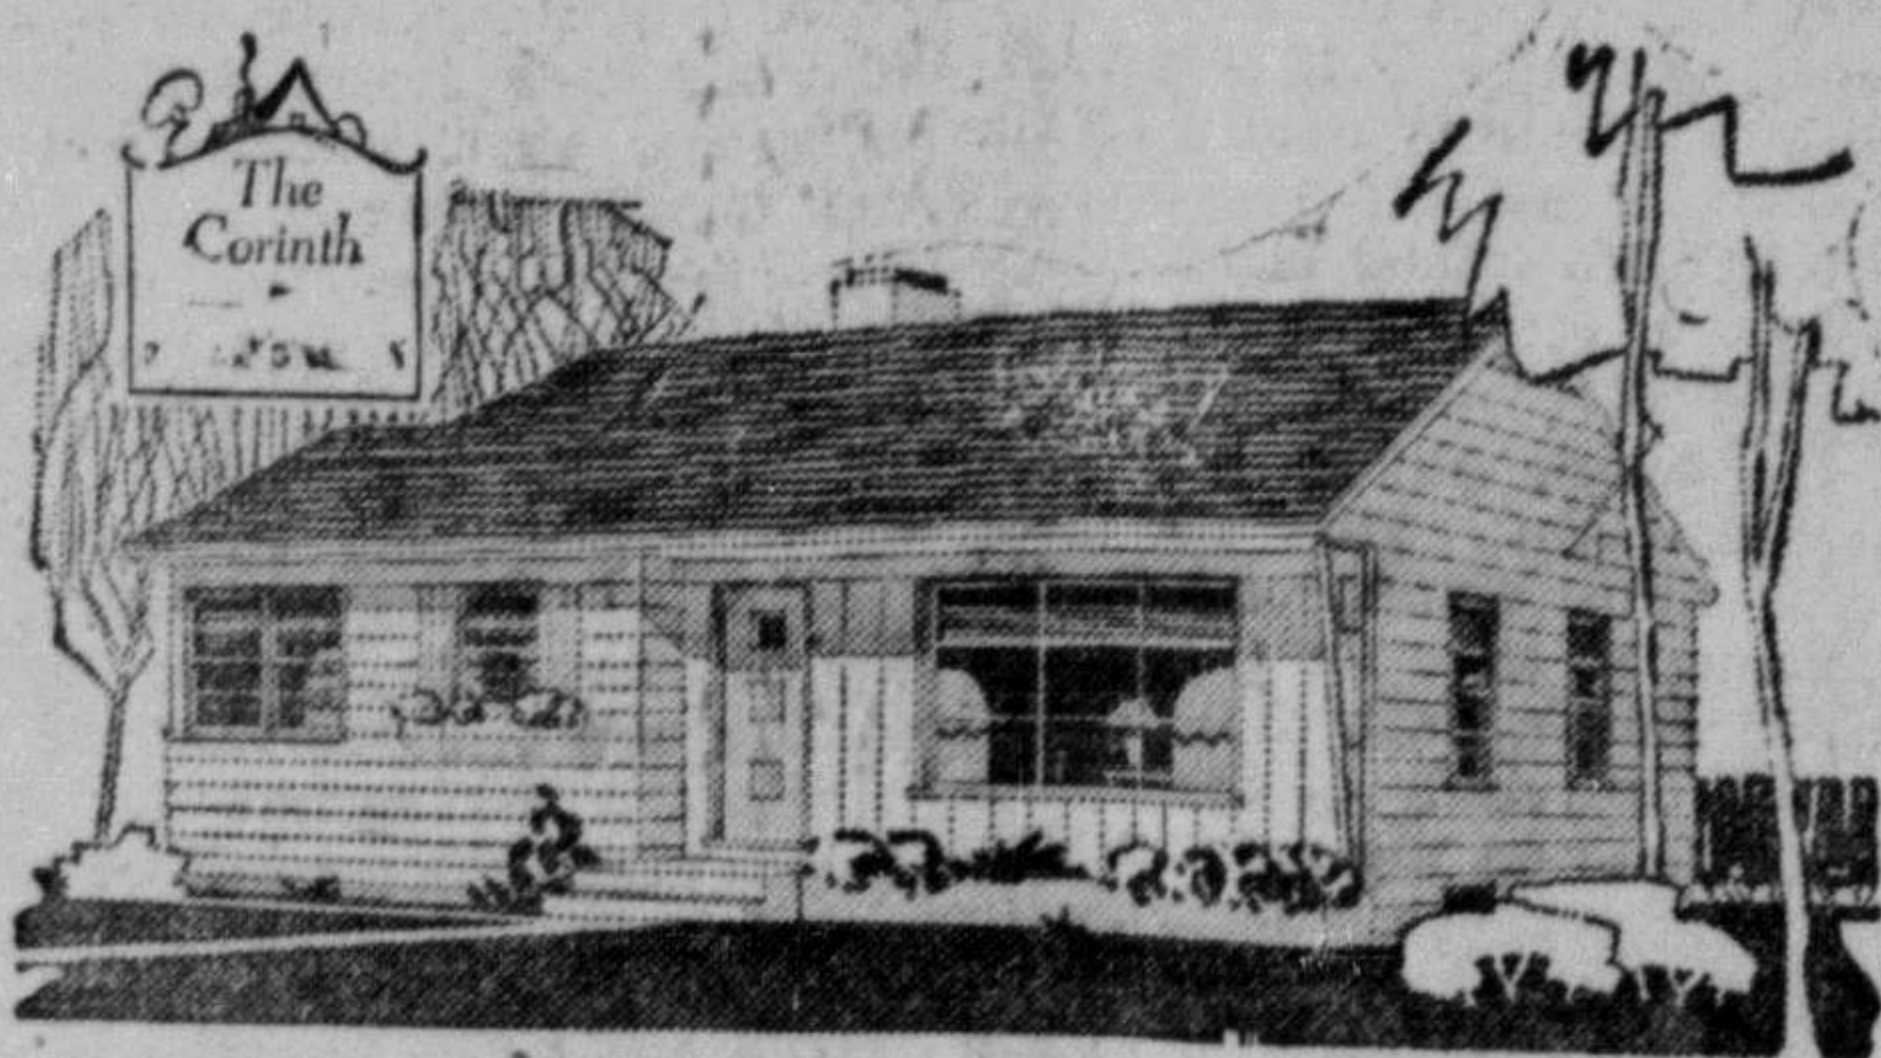

Often householders may have wondered how to remove paint effectively which has dried and hardened on house hardware such as chrome and brass door-knobs, lighting and plumbing fixtures.

It should be remembered that paint will remove easily a day or so after painting has been done by wiping with turpentine. To remove hardened paint from metal and tile surface, a solution of washing soda or trisodium phosphate in a cup of warm water will do the trick.

A little fine steel wool will help to accelerate the paint removing job, but do not rub very hard.

Do not use this solution on wooden floors. Dried paint there is best removed with steel wool only. A covering of wax will hide any blemishes.

It may be desired also by some homeowners to keep a deteriorating asphalt roof a year or two longer. If so, a roof of this kind can be coated with an asphalt roof coating, generally sold by roofing supply dealers or hardware stores.

THE CORINTH has two of the three bedrooms shown divided by a folding partition. This may be opened into a daytime playroom. Each room has a closet and a space for single bed, chest of drawers and desk. Other closets include two coat closets, linen cabinet in

bedroom hall and wardrobes in large bedroom. Note the minimum amount of hall required and the compact arrangement of kitchen cabinets. Range and refrigerator are placed on the inside wall and sink with flanking work counters under the front window.

The plans of this small house call for a picture window and a planting area as well, with a wide eave overhang, vertical siding in front, concrete steps and asphalt shingles.

The dimensions of the Corinth are 36 feet by 28 feet, with a floor area totalling 916 square feet and a cubage amounting to 17,775 cubic feet.

Ottawa Making Building Easier

Changes in National Housing Act Announced By Minister

OTTAWA (CP)—The government today announced easier loan terms in state financing for ordinary house and apartment construction in Canada and steps to encourage erection of homes for defence workers in selected defence areas.

Minister of Resources Winters said the government intends, with improvement in the material supply position, to place "special emphasis" on homes for defence workers and give other Canadians opportunity to build to the limit of capacity.

He announced the Central Mortgage and Housing Corporation shortly:

1. Boost National Housing Act loans to 80 per cent of the agreed maximum sale price for ordinary civilian homes.
2. Provide housing loans for defence workers in specified areas on the basis of down payment of 10 per cent with 25 years to pay off the remainder. This is a new provision under the Housing Act.
3. Reinstate the rental insurance plan under which the builder may obtain an 80 per cent loan for multiple dwellings

of not less than eight units if he agrees on fixed rental of each unit for three years. This feature of the act has been dormant for some time.

Central Mortgage and Housing Corporation will shortly issue details of the new financing plan.

HOIST THE FLAG

MOOSE JAW, Sask. (CP)—A new flagpole costing between \$175 and \$200 is being erected on the city hall here. The 70-foot pole replaces one that was removed some time ago.

MONSTER VINES

EDMONTON (CP)—"Jack the Giant Killer" could find some fine beanstalks to practise on here. One resident has a potato vine stretching 6½ feet, and another has scarlet runner bean pods 11 inches long.

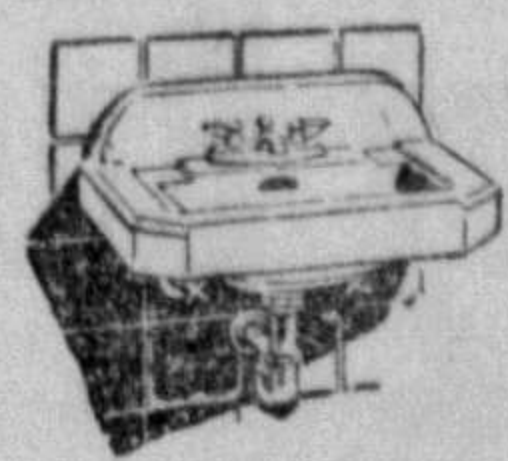

UNTIMELY WEATHER

REGINA (CP)—The Chamber of Commerce monthly bulletin urged member firms to allow their staffs time off to help with the harvest. But when the bulletin reached members an early snow-storm had blanketed the crops.

If You Need a Furnace, Don't Feel Too Blue

If you are one of many who needs a new furnace this year, don't feel you are an exception. Statistics show that far more heating plants are installed in older-type homes than are ordered for new homes.

Aside from the natural wear and tear, antiquated heating plants become economic liabilities. They consume more fuel than they should, and in many instances are fire hazards.

Of all the heating units that were sold in the province last year, more than 60 per cent went into older homes as replacements.

Protect Those Water Pipes!

With winter's breath slowly but surely wafting down from the north, the homeowner is well advised now to begin thinking about uncovered pipes.

As many found out last winter, frozen water pipes can cause all manner of discomforts and annoyances, not to mention expenses. But with a little advance planning, much or all of this can be spared.

If you have a basement and water pipes are exposed, look for crevices and other places air can enter. Nothing will freeze a pipe faster than a cold draft of air.

If pipes are exposed outside, a substantial mound of earth covering will keep them safe, or where this is not possible, pipes should be wrapped well with insulating material.

ELEMENTARY METHOD

VANCOUVER (CP)—Robert McBay, 67, caught a 10-pound salmon with his bare hands at Kitsilano Beach here. He waded into the water with his clothing on and scooped the fish up, taking 10 minutes to subdue the flipping salmon.

YOUNG CANADA
(Continued from page 2)

Shore residents—as in other centres, flag-waving children will be out in thousands—then go to Shaughnessy Hospital and to nearby Queen Elizabeth Park where the Princess will plant a tree and receive a golden spade. After touring the general area of the University of British Columbia, they will attend a private dinner and then see a lacrosse game at 8 p.m.

On Sunday, the royal visitors will attend services in Christ Church Cathedral, leaving immediately afterward for Vancouver Island on the Canadian destroyer Crusader. They are due at Victoria, B.C.'s capital, at 5 p.m. From Victoria, the Princess will broadcast a short message to the Commonwealth October 22.

After a reception at Victoria's city hall Monday, the royal couple go to the Legislative Buildings to meet members and their wives. This will be followed by a short Indian ceremony at Thunderbird Park. A luncheon will be given at 12:30 p.m. by the provincial government, followed by a drive through the streets and a visit to the dockyard.

THREE-DAY HOLIDAY
Then begins for the royal couple a three-day holiday. Tuesday, Wednesday and Thursday they will be "on their own." A secluded lodge on Sprout Lake, 90 miles northeast of Victoria, may be the holiday site. Quail hunting has also been mentioned.

The royal tour will resume Friday, October 26, with their arrival in Vancouver at 9:45 a.m. for a stay of 45 minutes. Then it's back to the Crusader and over to Vancouver by noon for a motor trip to New Westminster, leaving by train at 1:15 p.m.

Other B.C. stops: Chilliwack at 2:35 p.m. for 10 minutes; Hope at 3:35 for observation-platform appearance; Boston Bar at 4:01 p.m. for 10 minutes; and Lytton at 6:17 p.m. for another appearance from the observation platform as their train

moves slowly through the station.

The Princess and the Duke enter Alberta again at Edson Saturday, October 27, at 10:35 a.m. MST. They spend 10 minutes there, reaching Edmonton at 2 p.m. There, after welcoming ceremonies at the city hall and the Legislative Building, they will inspect the Royal Canadian Mounted Police barracks with a mounted escort. If the weather is suitable, they will see the RCMP's famed musical ride. A tour of an oil refinery also is scheduled.

The couple will leave by train at midnight. This will bring them into Saskatoon Sunday morning in time for the service in St. John's Cathedral. A visit to the University of Saskatchewan also is on the program and drives about the north Saskatchewan city.

From Saskatoon, the royal party fly to Rivers, Man., site of the RCAF's great training base, where they will spend a half-hour. Then they fly to the Lakehead cities of Fort William and Port Arthur.

Arriving at Port Arthur at 7:30 p.m. EST Sunday, the royal couple will spend almost two hours there, motoring the short distance to Port Arthur for a 9:15 p.m. arrival. They spend the night in Port Arthur, touring that city at 9 a.m. Monday, then motoring back to Fort William by 10:45 a.m. They leave at noon for North Bay, still travelling in their RCAF plane.

After a half-hour at North Bay, the royal couple continue their flight to Montreal, where they land at 4:30 p.m. They spend a day and a half in Canada's largest city—from 4:30 p.m. Monday, October 29, to 1:30 p.m. Wednesday.

On the night of their arrival, the Prince and Princess will attend a National Hockey League game in Montreal Forum and, on the following day, visit McGill University, Molson Stadium and Delorimier Stadium. Luncheon will be served at the Chalet atop Mount Royal following a visit to the University of Montreal. An official dinner will be held in the evening.

Then it's off to Washington at 1:30 p.m. Wednesday, October 31, to visit President Truman.

Dr. Myron Lazareczuk, who has been relieving Dr. L. P. Charbonneau of the Indian Health Services here for several weeks, leaves tomorrow on the Chilcoth for Vancouver. Dr. and Mrs. Charbonneau return from their vacation next week.

Meals For Royalty

MONTREAL — Canadian Thanksgiving dinner, the first in their experience, will be available for their Royal Highnesses aboard the royal train next Monday if they desire it.

J. A. Lemieux, the veteran Canadian National Railway chef, who is catering to the royal visitors throughout their rail tour, is preparing to serve a typical holiday dinner featuring roast turkey with dressing, cranberry sauce and pumpkin pie.

However, as menus for the Prince and Princess will be prepared daily for their approval throughout the tour the Thanksgiving dinner on Monday is but one of a number of suggestions that will be submitted to them. Other suggestions will include fish, pork and lamb for main courses; while English plum pudding, hot mince pie, fruit sundae and cheese are desserts that will be available in addition to the traditional pumpkin pie.

Junior and Senior High School Students of B.C. . . your choice of these and other wonderful prizes for a winning 250 word essay. We'll send you entry form and full information on receipt of your name and address on the coupon below.

This essay contest is directed to our younger citizens to increase their awareness of the importance of British Columbia's growing Pulp and Paper Industry.

DID YOU KNOW? . . . the Pulp and Paper Industry is solidly backed up by factories and machinery worth more than 225 million dollars . . . an investment in British Columbia's future in which all British Columbians share. Valuable pulp and paper products sold on world markets return large amounts of foreign exchange to B.C., which in turn creates new jobs, new industries and increased demands for British Columbia's goods and services.

Canadian Pulp and Paper Assn., 805 Dominion Bldg., Vancouver, B.C. Please send full information on contest to:
