Senate Adopts Resolutions Regarding Treaty of Peace; King is Candidate in P.E.I.

Government criticised for having neglected to deal with the Cost of Living after authority given it; Sir Robert Borden expresses regret at delay

(Special to The News via G. T. P. Telegraphs.)

Ottawa, Sept. 5.—The Senate last evening took the lead in the ratification of the peace treaty and the agreement between the United States, the Governments of the British Empire, France and Germany with respect to military occupation of the Rhine lands. It adopted the three resolutions which the Government had placed on the order paper. A request for an extension of time to consider the documents was not acceded to.

In the House of Commons debate on the address followed a somewhat perfunctory course at the afternoon sitting. The cost of living came in for some sharp criticism. The statement was made that July and August had passed without anything being done under the Board of Commerce Act passed at the last session. With something like three and a half years of investigation, Mr. McKenzie said, he thought the Government should have been ready to reduce the cost of necessities without delay.

Sir Robert Borden said he regretted it had not been possible to appoint a Board of Commissioners earlier.

It was announced here today that Hon. W. L. McKenzie King, leader of the Liberal party, had accepted the nomination for a Prince Edward Island constituency.

LABOR LEADER WANTS TREATY

Demands that Senate Ratify it in Order to Stabilize Conditions.

(Special via G. T. P. Telegraphs.)

Cleveland, Sept. 5.—Immediate ratification of the peace treaty including the League of Nations by the United States Senate was demanded by Warren S. Stone, grand chairman of the Brotherhood of Locomotive Engineers.

He said he did not know of anything that would tend to stabilize conditions so much as the settlement of this question.

PECK TAKES UP LOCAL MATTER

Brings to Attention of Minister of Customs Handicap Under Which This port Labors.

(Special via G. T. P. Telegraphs.)

G. A. Woodland, manager of the Imperial Oil Co., this morning received a letter from Lieut.-Col. C. W. Peck regarding allowing an American tanker to carry distillate from Inco, near Vancouver, to Prince Rupert. The member says that he is taking the matter up with the Minister of Customs and if no action is taken as a result to wire him again and he will again take it up with the minister.

There is plenty of distillate at the refinery at Vancouver, but none to speak of in Prince Rupert. There are no Canadian tankers on the coast but the tanker Atlas, which is under American registry, is available. Under the orders of the government, however, she cannot carry freight from one Canadian port to another.

In the meantime the fishermen are unable to get their fuel here and the port is much handicapped.

MINING MAN PAYS VISIT TO STEWART

Preston Locke of the American Smelting & Refining Co. Returns From Examining Properties.

Among the many mining men in town yesterday was Preston Locke, representing the American Smelting & Refining Co., the owners of the Tacoma Smelter. He has been to Stewart and was much pleased with the general outlook at that place. While speaking very conservatively of the prospects he said that the fact that he has been in there twice this year and that he had remained a number of weeks on the second occasion, showed that he was intensely interested in the district.

Mr. Locke said it was too early to predict just how big a camp it would be, but the Premier and the Joker were already mines and there were a great many good prospects that were being proved. R. K. Neil had spent a lot of money on the road through Alaskan territory and that was the only way to develop it. He thought the people of the district were going about the work in the right way.

Naturally Mr. Locke was very reticent in regard to what he had seen. He said that his company was interested in the district. The managing director of the concern had recently made a visit to Stewart and had examined some of the properties. That in itself was proof that they thought the camp had a future. Mining men did not usually flock around a place where there was no prospect of developments.

Paris, Sept. 5.—Thirteen people were killed and forty injured in a collision between two trains near Toulouse.

BIRTH

There was born to Mr. and Mrs. Robert S. Thompson of Port Clements this morning, a daughter.

That work is proceeding nicely on the development of his property on the Chickamin Mountain is the word brought by A. C. Garde who recently returned from there. The property is under bond to the Consolidated Mining and Smelting Co. of Trail. It is situated on Eutsuk Lake, west of Ootsa. Mr. Garde reports that James Cronin is working the Sabola property and is getting good showings.

The City Council has instructed the collector to get after the people who have not paid their road tax and have the whole list cleaned up this month. Any who have not paid may expect a jolt within the next few days.

Dr. H. R. Grant and Lorraine returned from the interior by last evening's train. The little girl has been visiting in Terrace whilst her father was spending brief holidays along the line as far as Hazelton.

OVER FOURTEEN FOR HALIBUT CATCHES

Pacific Sea Products Steps Into Buying Ring and Purchases Panama's Cargo.

At the Fish Exchange this morning the price of halibut soared over the 14 cent mark and with the keen bidding the fishermen had hopes of fifteen cents. The prices paid averaged 14.1 for first class and 9.2 for second class. The following boats sold their catches: Tye, 10,000; Lincoln, 8,000; Volunteer, 4,000; Cora, 12,000; Hilda, 14,000; Brothers, 27,000; Vesta, 15,000; Niagara, 11,000; Marguerite, 12,000; Minnie V., 9,000.

Yesterday the Panama sold to the Pacific Sea Products at 10 and 7 cents. The fish were put in the local cold storage. This is the first purchase by that firm. The Chief Skugaid came in the night before last with a grand catch of 100,000 black cod.

This morning shortly before eleven o'clock the trolling boats Bravo and Dip arrived in from the banks. The former had 500 cohoes and the latter 400. The selling price was 78 cents for cohoes and 7.10 for other salmon.

THE LADY AND THE TIGER (OF FRANCE)

GEORGES CLEMENCEAU IN A NEW ROLE

Among all the great figures whom France loves and whom she welcomed to her peace celebration on July 14 one stands out alone—that of Clemenceau. "Père Victoire," the army calls the man who fought so tirelessly and so magnificently. On what was, perhaps, the greatest day in the history of France her people's deepest cheers were for the octogenarian statesman, who never faltered or hesitated even when the day was darkest but who, fighting at home as gallantly as the poilus were fighting at the front, led his country to victory.

Claim Getting

Rupert's Business.

Ketchikan is claiming that it is doing a lot of the repair work for Prince Rupert boats as they do the work cheaper than it is done here. We hardly see how this can be, but if it is true it is time we were finding out the reason why. Prince Rupert has a number of shops all of which do good work and it is to be hoped they are not so exorbitant in their charges as to drive the business away.

Importance Tends

To Dignified Demeanor.

The Pacific Coast is much in the eye of the world today. It is the point where business is going to boom, where new problems will be settled, where the danger point lies, the meeting point between East and West. The people who live on the coast are assuming a new importance in world events.

Prince Rupert will share in the growing importance of all coast points. Already she is feeling the change and within a few years the change will be much more strongly marked.

The growing importance of the city must make us all grow bigger both in our dealings with the outside world and with each other. We can well afford to avoid pettiness and to replace it with a broad tolerance such as becomes those who can afford to be dignified. We shall soon leave the village era behind and blossom out into a town or, as we call it here, a city.

Archbishop on

Family Life.

The true principle of democracy can be best learnt in the home. Experience in family life is not simply the best preparation for citizenship in the larger community, but it is the actual beginning of the social life which is essentially one, whether the sphere be the family, the community, the nation, or the world. More than this, the social life is essentially one with the religious life. Our Heavenly Father loves all His earthly children. His spirit dwells in the souls of all in such a way that we cannot love the Infinite Father without loving His children, and we cannot love His children in any genuine sense unless this be in the active sense of promoting good relationship with all—in other words, social welfare. It is this recognition of the practical unity between the social and the religious life which will help more than anything else to bring religion into every nook and corner of our daily life, especially our home life.

As this article is being written, a little girl is mothering a doll near by. The parental instinct is divine. It is a fragment of the love of God. The spirit of service is part of the spirit of Christ, and it must take the form of social service, first in the home, then in the community in ever widening circles. True democracy must finally embrace the whole family of God.

Viewed in this light, a fresh halo of glory encircles the earthly home, the place where the great truth that we are all ministering members of society is first learnt. It is necessary, however, that an intelligent application of the principle of democracy should be made in the home. The welfare of the whole family should be the foundation of all rule and authority. When the head of the house recognizes this authority over him as the authority of God, who wills the welfare of all, we have the beginning of true religion. The children should early learn the difference between this and a false autocracy which has in it all the elements of tyranny. The welfare of the whole society involves the welfare of each part, and the Government is only a means to promote the welfare of the whole society—not an end in itself for which society exists. "Helping father" is the first infantile step towards social service which the boy makes in the family. "Helping the Heavenly Father" to promote the welfare of all His children is the first step towards true religion, which must never be confused with a selfish seeking for safety first.

DID YOU EVER THINK

why that skin trouble, from which you are suffering, will not heal? It is because it is so deeply rooted that ordinary ointments are incapable of penetrating to the seat of the disease.

Zam-Buk, on the contrary, is so refined that it is capable of reaching the underlying tissues, and that is why so many cases of skin trouble, which have defied all other treatments, have yielded to Zam-Buk.

Don't delay! Get a box of Zam-Buk and prove it for yourself. Not only is it best for eczema and all skin troubles, but also for ring-worm, ulcers, old sores, blood-poisoning, boils, piles, burns, cuts and all skin injuries. All druggists or Zam-Buk Co., Toronto. 50c. box, \$1.25.

WON BY SONS OF ENGLAND

Trail Beaten at Football to Tune of 3 Goals to Nil.

The Sons of England proved themselves the superior team in the football match last evening and beat the Trail Athletics to the tune of 3 to 0. It was a beautiful evening for a game and from the first whistle the play was fast and furious with the Sons kicking down hill. They were hard pressed for a goal, however, and could not seem to get a clear shot on account of the opposing defence. Finally a penalty was given in their favor and Kelsey took the leather. He shot it straight for the goal keeper but it did not pass through. Coming down the field Johnnie Robinson slipped the ball to his brother just past the back and the outside man shot and scored. This was the only point in the first half.

On the changing of ends it was thought that the Trail boys would now get away with a good lead as they had been making a very good show on the up grade. Their combination was broken up too easily by the English defence and more than once was what appeared to be a good rush for the post averted. At the other end of the field things were happening and Percy Tinker headed a nice clean ball into the net from an ideally centred ball from the outside. Percy had hurt his leg and was limping badly but he

knew his position. A penalty given against Harry Day for charging Robinson was won which gave them the third goal which was shot by D. Robinson.

A feature of last evening's match was that out of four penalties granted by the referee there was only one goal scored which is rather phenomenal for any league.

J. Day Bell was referee and Doc Clapperton and Slocomb linesmen.

The players who showed up particularly well for the Sons last evening were D. Robinson, Tinker and Wearmouth. For the Trail Harry Day as back played a very cool game and was very careful in getting the ball up to the forwards. Sid Hardy as the centre was trying hard but he lacked support from the insides. His shots too frequently went wide.

For the Trail Athletics:—S. Winsby; H. Day and H. Menzie; C. Watman, W. Booth and G. Shaw; W. Anderson, V. Menzie, S. Hardy, G. Waugh and E. Craggs.

For the Sons of England:—Judge; Darton and Wearmouth; Tabrum, Kelsey and Wells; D. Robinson, J. Robinson, Tinker, Williamson and Davis.

Sport Briefs

The Red Sox baseball team which made a name for itself on Labor Day is figuring on a match with the Prince Rupert senior team. Harry Day will not be pitching and it is very likely that Clementson will be put on as clean up man for the younger fellows. With Harry Astoria pitching for the city team the Red Sox think they can put up a good show as they are accustomed to his twirling at Market Place. The winners of the Labor Day event are also contemplating holding a dance in the near future. The dancing season is again coming round and they want to start off the amusement with an affair in which the dances will be named in baseball terms.

Ben Self arrived at the football game last evening too late to boost for his team. The great calamity had already occurred and the Trail boys were beginning to slow up more than ever. Ben heard the score and a few minutes later the whistle blew for time so he turned right around and went home.

D. Robinson, who played outside right for the Sons of England in last evening's match, arrived back from Anyox with his wife and child a short time after seven o'clock. It was hard to have to stand at the rail and await the letting down of the gang plank, when he knew that the team on the hill was going to play ten men until his arrival. However, he wasted no time after getting ashore but rushed up to Acropolis Hill and he played a very excellent game all evening. Both he and his brother John are very fast men and form a very pressing and fast outside combination.

Only on one or two occasions was it necessary for Referee Bell to check up the players for misdemeanors last evening. At every match the men are showing better form and are usually content to go after the ball instead of the player. However, there are still one or two who are always yelling out for grand stand sympathy that they are getting raw deals from the referee. This was stopped last night. Some of the players too when they are checked seem to think that no man has the right to put another off the field and this was the action taken by one of them last evening. Such pigheadedness is not going to help in building up the association.

GIVEN DEMONSTRATION

(Special via G. T. P. Telegraphs.)

Melbourne, Sept. 4.—Premier Hughes has arrived here from Paris and on landing was received with remarkable demonstration, all joining to give him a welcome.

The sister of Geo. Edward Boyle is searching for some trace of him. He is aged 35 years, hair red, eyes grey, height 5 ft. 6 in. He originally came from Ottawa, Ontario, was in the Canadian Engineers, C. E. F., discharged March 3rd, 1919, and stated his intention of proceeding to Vancouver, B. C. Since then no trace of him has been found. If any information is received notify R. N. W. M. Police, Prince Rupert.

Mrs. Forbes Makes Butter

She calls it Economy Butter, and it is well named, considering the quantity she gets, and the low cost of the extra butter.

To half a pound of butter add one SMALL tin of Pacific Milk, in which has been dissolved a small pinch of baking soda.

Whip 'till the butter has all been taken up and allow to set gradually in a cool place.

It makes almost a pound of butter—good butter, too.

Many will thank Mrs. Forbes for her kindness, as we do.

THRILLS AND EPISODES OF ANGLING TRIP

Party Went Up Wark Channel and Caught Many Fish and Heard Wonderful Tales.

Many stories are now beginning to leak out about some of the excursions organized last week end by local sportsmen. None, however, had any more wonderful episodes and startling revelations than did the party of eleven who made the trip up to Wark Channel aboard the Eleanor Mac.

On the return of the various groups in the evening the tales of Billy Reid and Joe Brown were particularly thrilling to all the interested listeners who had not accompanied these dauntless ones on their little jaunt from the main party.

The flies were rather troublesome and Harry Lipssett had to set fire to some of his perfectly good Jaeger clothing in order to keep the pests away. He was caught on an island off shore without the customary protection.

BIRTH CONTROL IS BEING DISCUSSED

Harold Cox, giving evidence at the Birth Rate Commission in London said that if birth control was in itself immoral now it would be immoral still when our population had reached a volume that the necessity for a reduction in the rate of increase became indisputable.

Fears had been expressed lest a decline in our population should weaken England in relation to other countries. But we need not disquiet ourselves if the German population should increase more rapidly than ours.

MANY SPORTS AT THE FAIR

Indian Teams are Expected and Telkwa and Anyox Will Have Baseball Nines Here.

One of the most outstanding features of the Fall Fair will be the full program of sports which is being arranged by the directors. The Aiyansh football team will be here and if it is possible will be matched with the Kitimat eleven. Last year there was very great interest in these Indian events and everything will be done on this occasion to stimulate the interest of the many visitors from the outside. In former years it has been hard to find accommodation for all who come and a special effort will be made this year to have living quarters for everyone.

The Port Essington Red Sox have been entered for the baseball competition and other teams will be invited to take up the game. Ben Self will arrange for at least one other team so that the match will be well worth seeing. Besides the baseball and football teams it has been rumored that there will be some specially first class Indian athletes who will enter for the jumping and the foot races. The boys have been practising around the canneries during their spare time and are said to be in very good shape.

The local baseball boys are going to have a very busy time as there are to be teams from both Telkwa and Anyox. Transportation will be reduced considerably and many supporters are expected along with the respective nines. Rupert more than ever is going to be the mecca of pleasure seekers for the three fair days. From all the neighboring districts residents are going to avail themselves of the opportunity of seeing and conversing with people who are visiting from other parts.

ORE FROM THE SPIDER HERE

S. G. Benson Brought in Sample Yesterday From Stewart Showing Native Silver.

S. G. Benson came in yesterday from Stewart bringing a sample of the ore from the big strike of native silver from the Spider property. It was very rich stuff and he says it assays 2,000 ounces to the ton. He says it is a very large showing and it has caused a good deal of excitement in the camp. The property is owned by R. Woods and Bob Martin, but there are others interested, including Harry Rochester of this city.

Mr. Benson says that they have a very fine chunk of ore for the Prince Rupert Exhibition. It is one of the richest and most handsome pieces he had ever seen. The native silver makes a peculiar formation.

Mr. Benson is very enthusiastic over the camp, and especially over the Spider property which he thinks will be a big thing.

FIRE INSURANCE

Fire insurance is the cheapest commodity on the market today. The rate on your dwelling is from \$1.30 to \$2.00 for each \$100.00 of insurance for 3 years, depending on its location. This means that if you carry insurance on your dwelling for 150 years without a fire you will have paid out only the amount for which you are insured. It is so cheap you can not afford to be without it. We write it.

before purchasing a baking powder that may possibly contain injurious ingredients. Many food scientists claim that baking powder containing alum is unsafe for use in food. The mere fact that some brands of baking powder have the words "No Alum" on the label is not sufficient proof that they are what they are represented to be. Our chemists find a good many have "No Alum" on the outside, but large quantities of it inside.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportional improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$500 per annum and records same each year. Failure to make improvements or record same will operate for forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown grant land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stampage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and acting with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1915. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependants, acquired direct or indirect, remitted from enlistment to March 21, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete fulfilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority based on classed owners. Stock-owners may be distributed proportionately over whole area. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Mrs. J. C. Brady and children arrived back from Smithers by the train last evening. During the summer months they have been guests at the Prudhomme ranch and the children are looking fine after their sojourn on the farm.

The funeral is taking place this afternoon at Port Simpson of the late Mrs. Sanderson, wife of Capt. Sanderson of the G. E. Foster. Rev. J. B. Rowell is officiating.

The funeral will take place tomorrow of Peter Asplund who died at the Empress Hotel on August 30. The ceremony will take place at Haynor Bros. chapel at 2:30 p. m.

MEN MORE FIT TO WED AT 40 THAN WOMEN

London.—The large number of marriages of men of 40 to women of 23 or 24 has raised the question in London: "Would children of such a marriage be normally healthy so far as the father's age exercised any influence?" Answering the question a doctor says that there is nothing from the physiological standpoint to prevent such marriages.

"A notion has arisen among men that the children of a father of 40 are not likely to be strong," said he. "Provided the man is in good health, there is no such consequences. Doctors do not look with favor on marriage for the first time of women older than 38. And it is certainly better that a man of 40 should marry a woman of 25 than one of his own age. As a rule, a man, after passing his 34th or 35th year is at least ten years younger physically than a woman of his own age, notwithstanding that women live longer and generally enjoy better health in old age than men."

Olof Hanson was among those arriving back in the city from a trip up the line by yesterday's train.

But never in our lives have we felt that we did the subject justice.

And we never expect to. Because we have a command of words that will describe the beauties of our cut glass.

We can tell you that it radiates light of endless colors, of its weight, and that there is no higher grade of cut glass made, etc., and yet we feel that we haven't said much about it.

To make it easier will you just make a visit here?
