

Truman Warns Against Spreading of War

Atomic Attacks on American Cities Would be Certain

WASHINGTON, D.C. (CP)—President Truman last night that extending the war as General MacArthur proposed might lead to a rain of atomic bombs on American cities. Revising a major policy speech after copies had been disclosed, President Truman said:

"Remember this: If we do have another world war, it will be an atomic war. We could expect many atomic bombs to be dropped on American cities. And a single one of them could cause many times more casualties than we have suffered in all the fighting in Korea."

"I do not want to be responsible for bringing that about." The President added these statements to a speech prepared for the National Civil Defence Conference in which he declared anew that spreading the war beyond Korea might well incite a third world war.

The President said that the free nations, by their stand in Korea, have stopped the march of Communism in Asia and "dealt a heavy blow to the Kremlin conspiracy."

All over the world already, Mr. Truman said, there are signs of a crack-up behind the Iron Curtain.

He mentioned the fact that the Navy League broadcasts that all games should be on the network if they were sponsored or noted that all World War games were broadcast as growing, cricket, Davis horse races, none of which were of as much as Canada's national committee will go further matters.

QUAKE KILLS 4,000
SAN SALVADOR (CP)—Rescuers today dug into the debris in half a dozen shattered towns, seeking victims of Sunday's earthquake. More than a thousand persons are reported killed and government officials say the number injured may run to 4,000.

APPROVAL OF EMBARGO
NEW YORK—Eventual United States approval of the arms embargo against Red China appeared assured today as a result of crumbling opposition in the world organization. Both Great Britain and France have dropped their objections. The United States proposed the embargo.

Ship Run to Japan Starts

VANCOUVER.—Pacific Marine Freighters Ltd., agent for States Marine Corporation of Delaware, announces monthly service between B.C. and Japanese ports and also to North Europe.

New Apartment At Prince George

PRINCE GEORGE—Council has approved issuance of a building permit to A. Fichtner for construction of a \$50,000 apartment building on 3rd avenue. Site is being levelled to prepare for an early start on erection of the 21-suite structure.

ROYAL MAUNDY—His Majesty the King, accompanied by Her Majesty the Queen and Her Royal Highness the Princess Margaret recently attended Westminster Abbey for the Royal Maundy Service. His Majesty the King distributed the Royal Maundy Money, (Royal Maundy Alms) to old people, a royal charity which dates back over 600 years. This picture shows Their Majesties holding their traditional poses passing through the lines of King's Scholars of Westminster School after the service. In the foreground is Canon Don, the Dean of Westminster.

City Tax Rate Hits High of 65 Mills

Water Rates Are Increased by 25 Per Cent And Garbage 10 Per Cent

Living costs for Prince Rupert home-owners and householders climbed several steps last night as city council at a special meeting brought down its budget for 1951.

Taxes were raised five mills; water rates, across the board, 25 per cent, and garbage collection rates were increased by 10 per cent, with a minimum of 10 cents. New rates are effective June 1, 1951.

More Bodies Recovered

VICTORIA—Two more bodies have been recovered from Tahsis Canal where police believe six men were drowned Sunday when their small boat overturned.

The bodies are those of Johnny Ambrose and Andy Jackson, both members of an Indian tribe at Tahsis.

First body found was that of Burbax Singh which was recovered Sunday.

Marshall At Probe

Minister of Finance Still Shy of Control

GRANDMERE, Quebec (CP)—Finance Minister Douglas Abbott appealed to Canadians last night to work an extra 40 minutes daily to help slay the dragon of inflation.

Quebec Tory Senator Dies

ST. ROMAULD, Quebec (CP)—Senator Eugene Paquet, aged 83, died today. A Conservative in politics, he was appointed to the Senate in 1933. His seat in the House of Commons was 11st, Quebec.

Aluminum Contracts

VANCOUVER.—A survey of the townsite of Kitimat, location of the \$550,000,000 Aluminum Company of Canada Ltd. development, is nearing completion by Kitimat Constructors Ltd., an affiliation of eight general contracting firms.

Joining forces in the new company are: Campbell-Bennett Ltd., Marwell Construction Co. Ltd., Bennett & White Construction Co. Ltd., B.C. Bridge & Dredging Co. Ltd., Dawson, Wade & Co. Ltd., and Dawson & Hall Ltd., all of Vancouver, and Emil Anderson Construction Co. of Hope.

Temporarily in charge of Kitimat Constructors Ltd. are Harry Anderson and Don McAllister of General Construction Co. Ltd. The new company expects to know within 10 days the nature of future work to be carried out at Kitimat.

Contracts for other work on the huge aluminum project are held by Morrison-Knutsen Co. of Canada Ltd., Vancouver. This firm, together with its affiliate, Mannix Construction Co., is now progressing with roads to provide access into Tahtsa Lake, a dam and a tunnel from Tahtsa Lake to the dam site.

Korean Front Still Quiet

WEATHER
Synopsis
A moist, stagnant air mass blankets almost all regions of British Columbia. Skies will be generally cloudy during the next 24 to 48 hours with periods of sunshine in the afternoons. Temperatures will reach the low sixties near the coast and seventy to seventy-five in the southern and southeastern interior valleys.

Forecast
North coast region — Cloudy today and Wednesday. Little change in temperature. Winds light. Lows tonight and highs Wednesday — At Port Hardy and Sandspit, 45 and 55; Prince Rupert, 40 and 55.

Freighter Repairing

Western Trader, a 289-ton American freighter, which ran aground near Milbank Sound two weeks ago, is in Prince Rupert dry dock undergoing extensive repairs, according to dry dock officials.

New propellers, new shafts and several bottom plates are being installed. The work is expected to last three weeks.

The Alberni, lighthouse tender, is in drydock for annual overhaul.

Small boats, halibutters mainly, have kept the dry dock busy for the past few weeks.

Fort Lewis to Alberta Camp

VANCOUVER—Canadian soldiers, enroute from their Fort Lewis training camp in Washington to Wainwright, Alberta, passed through Vancouver early today.

Pulling out of Fort Lewis last night, the Canadians left behind only a scattering of thousands who went there for training.

Three troop trains carried the men who numbered approximately 600.

The soldiers are members of the Twenty-First Infantry Brigade, a replacement group which remained after the brigade went to Korea.

LOOE, Cornwall, England—Local canning factories said they could accept no more fish because they were short-staffed.

The fishermen agreed to work day and night shifts to overcome the difficulty.

Russ Plan Is Rejected

WASHINGTON, D.C. (CP)—The United States today rejected Russia's proposal to turn over the drafting of a Japanese peace treaty to the four Pacific powers including Communist China.

Russia's purpose in advancing the proposal yesterday was made to obtain a "double veto" over the Japanese peace settlement, the Department of State said.

INDIA'S STAND
NEW DELHI, India (CP)—Informed Indian quarters said today that India will probably support Russia's demand that Communist China should be associated with drawing up of a Japanese peace treaty.

SCHOOL RADIO
Nearly 7,000 Canadian schools listen regularly to half-hour educational broadcasts arranged for children.

Hidden Tax Is Protested

The "iniquitous" proposal of an amendment to the British North America Act to permit the provinces to impose hidden taxes is to be protested by the Prince Rupert Chamber of Commerce.

W. J. Scott brought the matter forward at the chamber's meeting last night with the proposal that a protest be sent to Victoria for assenting to such an amendment to the BNA Act.

When J. D. McRae, M.L.A., reminded Mr. Scott that the Legislature had already given its assent, Mr. Scott changed his motion to direct the protest to Ottawa instead of Victoria.

After some discussion as to the wording of the motion, it was unanimously adopted.

The New Traffic

MORE numerous traffic accidents in Prince Rupert bring home to us an appreciation of the greatly increased volume of motor vehicle use in the city and the care that must be exercised by all who use the streets—motorists and pedestrians alike. They also point up the responsibilities of those charged with the direction and regulation of traffic.

Motorists must be imbued with the attitude that it is better to be safe than sorry—that it is better to go out of one's way to be careful.

Pedestrians should also be impressed with the importance of seeing that they do their part out of fairness to the motorists and also for their own protection.

Both cars and pedestrians have their rights and responsibilities.

There is little use in discussing who, if any, may be to blame after a serious and irreparable accident has happened. The idea is to prevent accidents.

There is also a responsibility on the part of the civic government to see that everything possible is done to make conditions for traffic as safe as possible—that the facilities for safe traffic are provided including streets in decent condition and adequate sidewalks. All this, we realize, cannot be done at once but it is important that those concerned should realize that improvement of the public thoroughfares should have a high priority in municipal planning—particularly since safety of life and limb is so vitally involved.

Live Long—And Like it

THE AVERAGE child born today can expect to live 68 years. This is the highest life span in history, but it can be pushed even higher not only by new medical discoveries but by right living on the part of individual men and women.

Amram Scheinfeld, author of the recent book, "The New You and Heredity," examines in a May Reader's Digest article the chief factors influencing the life span.

Some of these factors are completely or partly beyond your control—your sex, for instance, and the kind of work you do. If you're a female you have an overwhelming advantage. In middle life, 15 per cent more women than men have survived; by the 70's, 20 per cent more, and among nonagenarians women outnumber men by two to one.

Farmers and professional men—clergymen, teachers, lawyers, doctors—live longer than other occupational groups. Slightly shorter are the lives of businessmen and white-collar workers. Next are skilled and unskilled workers; lowest on the list are artists, writers, actors and musicians.

But you can do some things to push the average span above the 68-year mark. You can worry less, avoid overwork, keep your weight down, eat, drink and smoke in moderation. If you're a bachelor—and not too confirmed in your bachelorhood—you can boost your life span by getting married. Married men, Scheinfeld says, have lower mortality rates at all ages; in the 25-to-44-year range twice as many bachelors die.

Medical men agree that humans can and should live longer. But this ideal of longevity imposes another challenge to mankind: to make the world a place wherein a long life can be enjoyed.

Reflects and Reminisces

NO SERIOUS WORRIES

Many an old soldier is having trouble financially, but it's not that way with General MacArthur. He is drawing \$18,000 and, if that is rather slim, there's five millions for his memoirs.

STAY COOL

A United States senator says he understands an atomic bomb will shortly be exploded 300 feet underground in an Aleutian island, to determine what happens. There are thousands of islands of all shapes and sizes anywhere north of Queen Charlotte Sound and we live on one. It is always easy to make a miscalculation. However, nothing is gained by being nervous and it's a good swift way to go, anyhow.

"All they know is the north" is what Alderman Bert Glassey says when invited to describe Vancouver's views concerning other parts of the province. He returned from a recent visit there, respecting census taking, next month.

Mid-month is when the fleet of coastal craft will step out. The date is the fifteenth. Officials representing all lines speak freely. Business is away ahead of any previous record at this time.

NO SPACE TO SPARE

"We're loaded to the gunwales with bulldozers and now the canneries are booking loads of cans and supplies. I don't know where it's all going to, but we are going to handle every bit of it somehow." That's the way steamboat men speak as they think of the next month or so.

The biggest up coast shipping boom in B.C. history. That's what they're saying. Flush times and more on the way. Heavy machinery for Alcan, Kitimat and all that. Goods in quantity for the great cellulose plant just outside Prince Rupert. Deliveries soon due for defence projects in the north! More freight, at this time than in any previous spring British Columbia has known.

THE QUINTS

The Dionne quintuplets have youth and wealth and it follows, as a matter of course, that they must also have beauty or what it amounts to. The quint's latest photos appearing in the News Friday shows five good looking. Now that they are growing up, their future will be a matter of permanent interest. And right here is the place to mention that, when they were born, there were not a few who took only a casual concern in what was almost a miracle.

Video Hitting Movies Hard

Newspapers and Radio Little Affected

NEW YORK (AP)—While the movie industry faces the problems of films for television, a survey shows that newspaper reading has been virtually unaffected by the increase in television and radio listening has been affected a lot less than many had expected.

A leading advertising agency, after a survey in all 48 states, reported "the number of persons who read daily and Sunday newspapers is about the same in homes with television as in homes without it." While radio listening drops when television comes into the home, 67 per cent of those with TV sets reported they still tune in radio too.

But the report said that movie attendance is apparently the hardest hit, with 18 per cent of those in homes without television attending on an average day, compared to only 12 per cent from homes with television.

This points directly to the problem facing the movie industry. The federal communications commission has strongly hinted that the movie-makers should make their films available for television.

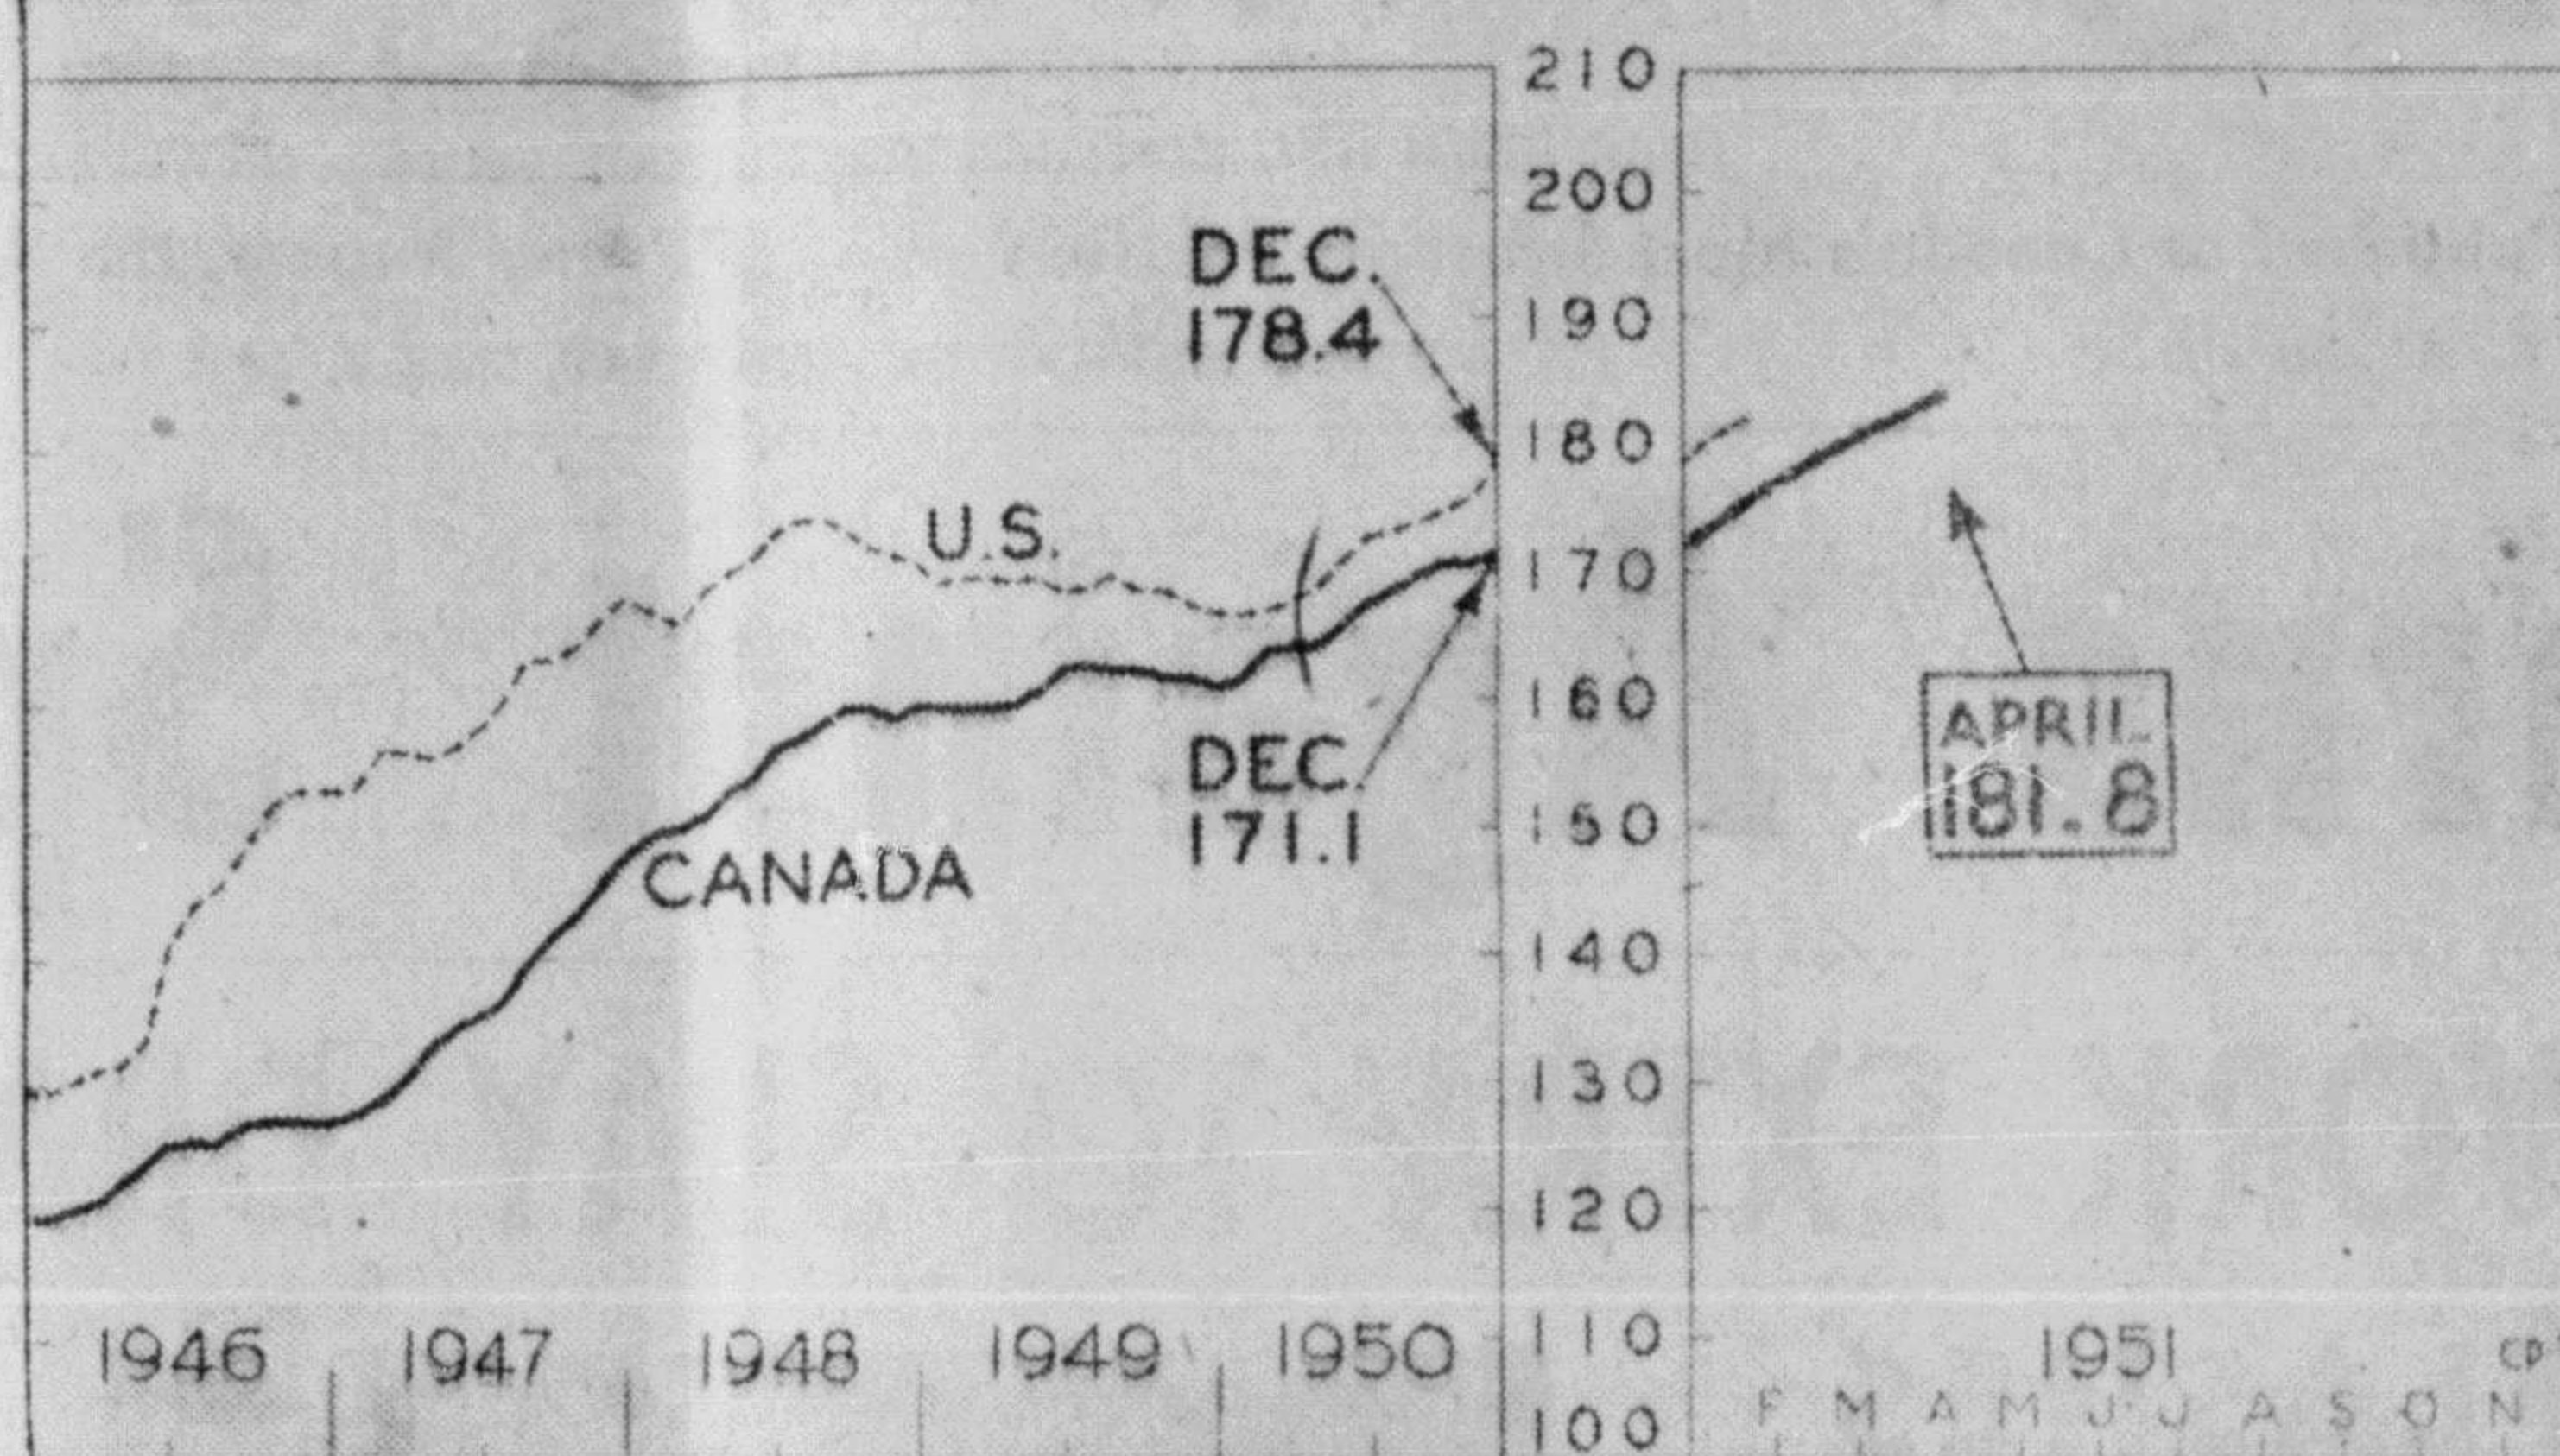

To which the movie industry replies, in effect: How can you sell a house that cost \$100,000 to build to someone who can afford to pay only \$4,000?

A good film costs around a million dollars and some much more — the forthcoming "Quo Vadis" hit \$7,000,000. Very few of the top television programs cost as much as \$40,000 to \$50,000 for production of a one-hour show, which is exclusive of the costs for network and station broadcast time.

If the film is released on television so you can see it at home for nothing, who is going to pay to see it at a theatre, ask industry

CANADA'S COST-OF-LIVING INDEX

1935-39 = 100

LIVING COSTS SOAR—An advance of 2.1 points in March in the cost-of-living index from 179.7 to 181.8 was announced Thursday in the House of Commons by Rt. Hon. C. D. Howe, trade minister. Almost half the increase was due to the price of butter. U.S. Consumer's Price Index stood at 181.5 on Jan. 15, but the two figures are not directly comparable. Solid line represents the Canadian figure; dotted the U.S.

Alcan Now Under Way

Company Official Reviews Operations in Getting Great Project Moving

Aluminum Co. of Canada is already going full blast toward the establishment of the multi-million dollar smelter at Kitimat, an undertaking that will have a great benefit to all northern and central British Columbia and to the port of Prince Rupert. George G. Vincent, official of Alcan, who has been a visitor to city and district during the past week or so, told the Prince Rupert Chamber of Commerce last night. The new project is attracting a measure of interest to this part of the province such as it has never had before and the publicity thus being obtained is of great value. People and money were becoming interested and the speaker predicted the establishment of important secondary establishments in the wake of Alcan's industry.

Accounting for his presence in this area, Mr. Vincent explained that he was collecting interesting facts and imparting such information as he could. He had just come from the interior after viewing preliminary progress which had already been taken towards the great new project—the super dam and diversion in the Nechako Canyon, the lesser dam at Tahtsa Lake, the tunnel to be driven through the mountains from Tahtsa to the 800,000 h.p. power plant at Kemano Bay, the great smelting plant and city at Kitimat.

There was no time to lose, he said, since 1954 was set as the year for the first aluminum to be produced. The road was now in from Vanderhoof down to the Nechako River dam site and an aircraft landing strip had been established there. The supply line from Burns Lake to Tahtsa including the road along Francois Lake and by way of the Emerald Mine and Nadina was being commenced. Lake tugs and barges were under construction on the shores of Ootsa Lake so that supplies might be taken in by way of the lakes pending the completion of the road to Tahtsa Lake whence a 10-mile water

observers. And if the producer not only fails to make a profit but gets back only a fraction of his cost, how is he going to keep making films of that quality? PRODUCED FOR T.V.

A number of movie companies have television and radio stations on the air or applications pending with the FCC. The industry is asking the FCC to set aside special television channels for use by theatres so they can have their own networks with television programs exclusively for theatre showing, to supplement film fare.

The FCC said that in considering applications it would examine the co-operation of the movies with television which, it declared, needed Hollywood's films and services of Hollywood's stars—many of whom are required by their contracts to stay out of television.

However, a half-dozen or more independent producers are turning out films specifically for television.

United Television Programs, Inc., with headquarters here, handles the television film output of four independent producers, particularly for second showings. But on the question of costs, a spokesman said a producer can't spend over \$15,000 for a half-hour video film (at the rate of \$30,000 an hour) and make a profit on it. Even at \$15,000, he said, the producer has to sell the film for second or third showings before he gets onto the profit side.

100,000th DP Here

Vanderhoof and Burns Lake are already stirring under the impetus of the new construction work. Terrace was hopeful of developments in that area in the direction of Kitimat.

Putting in of a new city in what was previously regarded as a wasteland was quickening the pulse of activity in the whole province and in this picture Prince Rupert was destined to play a great part. He predicted no sudden rush but a steady and progressive development of the whole hinterland. Indeed, as it commenced to take its place in the industrial development of Canada, Prince Rupert would become an important artery. He said credit was due to Hon. E. T. Kenney, minister of lands and forests, and to northern members.

Mr. Vincent expressed pleasure at the cordiality and hospitality that had been extended to him here. "And I have been fascinated by the weather," he commented.

The Alcan official left on today's plane for Vancouver.

Earthquake in El Salvador

SAN SALVADOR, El Salvador (CP)—At least 1050 persons were reported killed in an earthquake Sunday in the cities of Jucupapa and Chinameca, about 92 miles east of here.

Strong quakes destroyed many homes and public buildings. Many persons were buried in the ruins.

Longest Air Race Planned

CHRISTCHURCH, N.Z. (CP)—Plans have been completed for the longest air race ever prompted—the 1953 contest from England to New Zealand.

Sponsored by the Canterbury International Air Race Council, the race is due to start on or about Oct. 10, 1953. The shortest great circle route between the start and finish is 10,208 nautical miles.

There will be two sections—speed and transport. Aircraft now in operation could fly non-stop from England to Christchurch, and it is possible that by 1953 there will be planes which can complete the course in a single day. Aircraft in the speed section are permitted to refuel in flight.

Pilots may use any route provided they check in at the one intermediate check point, which will be in the vicinity of Basra. There are numerous great circle routes which could be followed, some taking a northerly course and others following routes much further south. Some cross from Curtin countries for a considerable distance and may be ruled out by pilots on that score.

Entries are open to any country, organization or individual. Provisional entries have already been made in the handicap transport section by British Overseas Airways, British Empire Airways, Royal Dutch Airlines, Qantas Airways, and Armstrong-Whitworth Ltd. De Havillands have also indicated that they will enter in at least one section.

The Royal Aero Club in London will control the race as far as Basra, and the Canterbury International Air Race Council the remainder. On each section the prizes will be: first, £10,000 (\$30,000); second, £3,000; third, £1,000; fourth, £500.

100,000th DP Here

HALIFAX—Greeted by Canadian government immigration and other officials as he stepped on Canadian soil, sixteen-year-old Leons Ziemanis, the 100,000th displaced person to immigrate to Canada, got a rousing welcome on his arrival here from Bremerhaven, Germany, on Saturday. He was among 1,300 immigrants who made the trans-Atlantic crossing to their new Canadian home in the SS Nelly.

But his biggest thrill of the day came as he stood admiring one of three big, streamlined Canadian National Railways steam locomotives which idled at the head of long boat trains at dockside waiting to take the immigrants to all sections of Canada. Mechanically inclined Leons, who speaks English, chatted with Engineer Elmo Hall, of Halifax and on the invitation of the driver, beamingly stepped up into the cab and the engineer's seat.

Hand on the throttle, Leons assumed a pose worthy of Casey Jones himself, while Engineer Hall let him in on some of the secrets of driving big engines. Yanking the cord and tooting the whistle of the C.N.R. engine gave him a big laugh, and Engineer Hall finally had to say "Someone

Tungsten Ore Is Required

JUNEAU—Needed to toughen the hides of tanks, ships and armour, tungsten ore is being sought by defense industries in the Territory. It is reported by the Alaska Development Board.

The nation is in a bad way tungsten-wise, imports to meet industrial requirements having increased from 53 to 80 percent during the past 10 years. Moreover, in some instances large foreign sources have been cut off altogether. These include China

and Korea which account for a sizeable percentage of ports. Internal troubles in China also have tended to the supply.

The only tungsten mine in Alaska during 1950 was the Riverside mine near Fairbanks, Alaska, on Seward Peninsula.

will think something's wrong if we keep blowing it," before Leons was ready to turn to something else.

The immigrants are one of the most diversified groups of workers to come to Canada. They include farmers, miners, domestics, woods, textile, sugar beet, leather, lumber and other classes of workers.

Rummage Sale Aids Hospital

Rummage sale, staged by the Women's Hospital Auxiliary Friday and Saturday brought in a sum which the auxiliary thinks "is very gratifying."

The money is earmarked for purchase of hospital equipment, to be used in a new wing of Prince Rupert General Hospital when it opens.

An annual tea and home cooking sale will be held on Florence Nightingale Day, next Saturday. Convener at the rummage sale was Mrs. Jens Munthe, assisted by Mrs. A. M. Hurst, Mrs. Robert Davidson, Mrs. R. G. Moore, Mrs. Norton Youngs and other members who collected the items for sale.

Delegates to Port Alberni

Two delegates from Prince Rupert to the Canadian Legion Women's Auxiliary annual convention at Port Alberni will be Mrs. Sheila Chater and Mrs. J. E. Adams. It was decided at Women's Auxiliary meeting last week.

Mrs. J. S. Black, vice-president of the Dominion command, will also attend the convention and will present two resolutions from the local auxiliary, one of which speaks against daylight-saving time in Prince Rupert.

It was also decided that a fashion show would be held early in the fall and a tea and sale to be held next month.

Mrs. Stegavich won the monthly raffle. Refreshments were served after the meeting.

udney received 81 and 84 points with Dick Kilborn, Clive Strand and Lorna Melvin each only one point less.

Anita Rogerson and Eloise Lahti, under 12 girls, received praise for their artistic performance in a piano duet, getting 86 points and a place in the honor performance.

Prince Rupert Gyro Club will be in regular monthly business session at tomorrow's luncheon. The executive of the club met yesterday.

Regular Moose meeting, Tuesday, May 8, 8 p.m. (108c)

Jerry Mathison, director of physical education for the province of British Columbia, arrived in the city on yesterday afternoon's plane from Vancouver. He will open the annual Rup-Rec display here tonight and will also visit the Civic Centre at Terrace during his stay in the district.

Here From Korean War

A United States Navy petty officer, second class, who has been in the thick of action in Korea since last August, is visiting his parents in the city. He is Petty Officer Miles Bartlett Lehman, whose father is Carl Lehman, a shipwright at the Prince Rupert dry dock.

I.O. Lehman has been in on several beachheads including bombardments, landings and evacuations.

He enlisted originally from Bellingham three years ago and served in the Korean campaign on USS Henderson, a destroyer.

He arrived yesterday by plane from San Diego.

After a month's visit here, he will be transferred to Atlantic service.

Spring Fogs After Rain

By MURIEL NARRAWAY

Canadian Press Staff Writer

LONDON (CP)—In the first days of spring sunshine bright shop windows proved an irresistible magnet for British women bored by the long wet winter.

Lunch-time crowds flocked around clothing stores, drawn by windows dressed in spring flowers and displaying crisp, fresh linens and colored cottons.

The office worker dreaming of summer week-ends on the Thames or rush trips to the seaside, and the Mayfair debutante contemplating her Ascot finery all went window-shopping—or shop-gazing, as they call it here.

With memories of the wettest winter on record and the dull summer of 1950, would-be Ascot belles can't make up their minds between shantung or taffeta, organza or nylon and the sensible light-weight wools—that may mean the difference between a heavy cold and a snug enjoyment of the race.

Designers try to meet necessity half-way by combining cleverly tailored coats of shantung and taffeta and matching or lighter-weight dresses. One such attempt is a slim woven shantung dress in black and white horizontal patterning teamed with a full black taffeta coat with big bell sleeves cut in one piece.

This ensemble and others like it cost around £40 (\$120). The full coat is complementary to the dress when merely carried over the arm.

NYLONS FEATURE

Top choice in summer materials, both for race meetings and holiday planning, will be the latest nylons, a British product with new weave and texture. There are more than 50 types of sheer and brocade materials including the latest organzas made from superfine yarn, woven lace effects, voiles with satin stripes and iridescent organzas with metal threads.

Tub frocks and garden frocks in gaily-colored cottons can still be had for less than 30s. (\$4.50), while lovely shantungs with skirt fullness, cuffed, strapless top and matching bolero cost around £8.

Surprise of the season is the increasing number of smart-cut play-suits and beach-suits at moderate prices. Typical is a tailored white sharkskin play-suit with straight, strapless bra-line and brief, uncuffed shorts tied by a colored waist sash costing only 63s.

Leaving for Vancouver today on steamer Camosun were John Hansen, of Terrace; J. Llewellyn, Mrs. F. Stone, G. A. Black, Mr. and Mrs. M. Nordhagen, of Prince Rupert, Mr. and Mrs. L. Holland left for Klemtu.

Mrs. C. H. St. Laurent, post-mistress at Hyder, arrived in the city on the Camosun this morning from the north. The funeral of her husband, who died in the city in February, will be held this week.

WASHING'S NO PROBLEM NOW!

"Mummy took Auntie's advice"
"It takes seven colours to make true white," Auntie said. "One of them is blue. That's why you must use Blue in your wash. Just swish Reckitt's Blue through the rinse. It prevents that yellow tinge and you avoid taking chances with anything that may damage fabrics." Reckitt's Blue costs so little, mummy says, "and out of the blue comes the whitest wash."

Dream
Scheme

This is the sort of bedroom where you'll "wake up and sing". It's so "chintzy" and cheerful. And the floor covering, too, will win admiration, for a Gold Seal Congoleum rug stays so new-looking so long! The reason for that is Congoleum's wear layer of heat-toughened paint and baked enamel... equal in thickness to 8 coats of the best floor paint applied by hand! Gold Seal Congoleum freshens up prettily with just the swish of a damp cloth. Be sure to look for the seal when you buy. It carries the famous money-back guarantee of satisfaction! See your house furnishing dealer soon. You'll be delighted with how much long-lasting beauty you can get for so little.

ADIAN
ATIONAL

The Department of National Defence announces the formation of the **27th CANADIAN INFANTRY BRIGADE GROUP**

To strengthen the forces of freedom in accordance with the United Nations Charter and the North Atlantic Treaty.

The units of this newly formed group, the 27th Canadian Infantry Brigade Group, will be raised ...
from the RESERVE FORCE

Famous Reserve Force Units from every part of Canada will be represented in the 27th Canadian Infantry Brigade Group. Companies, batteries, squadrons or troops will be raised by the following Reserve Force units:

INFANTRY:

Canadian Highland Battalion

The Black Watch (Royal Highland Regiment) of Canada
The North Nova Scotia Highlanders
43th Highlanders of Canada
The Seaforth Highlanders of Canada
The Canadian Scottish Regiment (Princess Mary's)

Canadian Rifle Battalion

The Queen's Own Rifles of Canada
Victoria Rifles of Canada
The Royal Hamilton Light Infantry (Wentworth Regiment)
The Royal Winnipeg Rifles
The Regina Rifle Regiment

Canadian Infantry Battalion

The Hastings and Prince Edward Regiment
Les Fusiliers Mont-Royal
The Carleton and York Regiment
The Algonquin Regiment
The Loyal Edmonton Regiment

ARMOUR:

The Governor General's Horse Guards
The Halifax Rifles
8th Princess Louise's (New Brunswick) Hussars
Le Régiment de Trois-Rivières
The Prince Edward Island Regiment
The British Columbia Regiment (Duke of Connaught's Own)
The King's Own Calgary Regiment
The British Columbia Dragoons
The Fort Garry Horse
Le Régiment de Hull

ARTILLERY:

6th Field Regiment
11th Field Regiment
14th Field Regiment
29th Field Regiment
34th Field Regiment
39th Field Regiment

ENGINEERS:

56th Independent Field Squadron
6th Field Engineer Regiment
33rd Field Park Squadron

SIGNALS:

Men from training regiments and squadrons of all Commands

SERVICE CORPS:

Men from RCASC units of all Commands

MEDICAL CORPS:

7th Canadian Field Ambulance
9th Canadian Field Ambulance

ORDNANCE CORPS:

7th Infantry Division Field Park

RCEME:

Men from technical regiments and squadrons of all commands

PROVOST CORPS:

1st Canadian Provost Company

INTELLIGENCE CORPS:

1st Intelligence Training Company

Each Armoured and Infantry unit designated will retain its name and insignia in this new Active Force Brigade Group

MEN ARE WANTED NOW!

ENROLLMENT STANDARDS:

To enlist you must:

1. Volunteer to serve anywhere.
2. Be a Canadian Citizen or other British Subject.
3. Be 17 to 40 (Tradesmen to 45).
4. Meet Army requirements.
5. Married men will be accepted.

TERMS OF ENGAGEMENT:

You will be enrolled in the Canadian Army Active Force for a period of three years.
All men are eligible for Overseas Service. If the military situation permits, married men after one year's Service Overseas, single men after two years' Service Overseas, may request discharge even if they have not completed full three years' service.

CONDITIONS OF SERVICE:

Current rates of pay and allowances.

VETERANS' BENEFITS:

Reinstatement in civil employment, Unemployment Insurance and other appropriate benefits under Veterans' Charter as extended by Parliament.

MEN:

Retention of present Reserve Force rank or the rank held in Second World War subject to proving qualifications in service within a 90-day period.

OFFICERS:

Short Service Commissions will be granted to officers who do not wish to enroll in the Active Force on a career basis. Further information should be obtained from your own unit or the nearest Army Personnel Depot.

APPLY TO:- Any unit listed above, or the nearest Army Recruiting Depot.

Recruiting begins Monday, May 7, 1951

the new
DRY Yeast

HONEY-BUN RING

Hot goodies come puffing from your oven in quick time with new Fleischmann's Fast DRY Yeast! No more spoiled cakes of yeast! No more last-minute trips—this new form of Fleischmann's Yeast keeps in your cupboard! Order a month's supply.

1/4 c. milk, 1/2 c. granulated sugar, 1/2 tsp. salt and 1/4 c. yeast; cool to lukewarm. Measure into a large bowl. Add lukewarm water, 1 tsp. oil and sugar; stir until sugar dissolved. Sprinkle with 1 c. Fleischmann's Fast Rising Yeast. Let stand 10 mins., stir well.

Boiled milk mixture and well-beaten egg and 1 tsp. lemon rind. Stir in 2 c. bread flour; beat until smooth. Work in 2 c. (about) bread flour. Knead until elastic. Place in bowl and grease top of

Gardening....

LOTS OF TIME — For every plant or seed lost through late planting there are probably a dozen that perish through being put in too soon. There's nothing to be gained by getting in a dither. True, certain grass seed, peas, nursery stock, and such lovers of cool weather, can hardly be put in too soon. But with the great majority of the flowers and vegetables we grow in Canada there is no terrible rush. The main growing period, speaking generally, will be June and early July and often those things which are planted a week or two later than the first will catch up. Of course, with most vegetables experienced gardeners advise planting not once but several times and at about a fortnight or three-week intervals. This brings them along in succession, spreading the harvesting or good-eating season over weeks instead of days. To extend that season still further it is also advisable to use at least one early and one late maturing variety of each sort.

SPREAD OUT — Except where the summer is unusually hot and dry one can go on planting beans, beets, carrots, lettuce and such vegetables and some of the quick-growing annual flowers too, right up to mid-July with good chances of getting a crop or bloom. In a few sections of the country where first frosts do not usually arrive until October, and summers are cool and moist, one can also plant early spring type vegetables like lettuce, peas and spinach along in late July or early August with fair chances of success.

POP NEW HOMES — For those who have just moved into new homes, usually the ground is in pretty rough or raw condition. About all one can expect the first year in permanent work is to

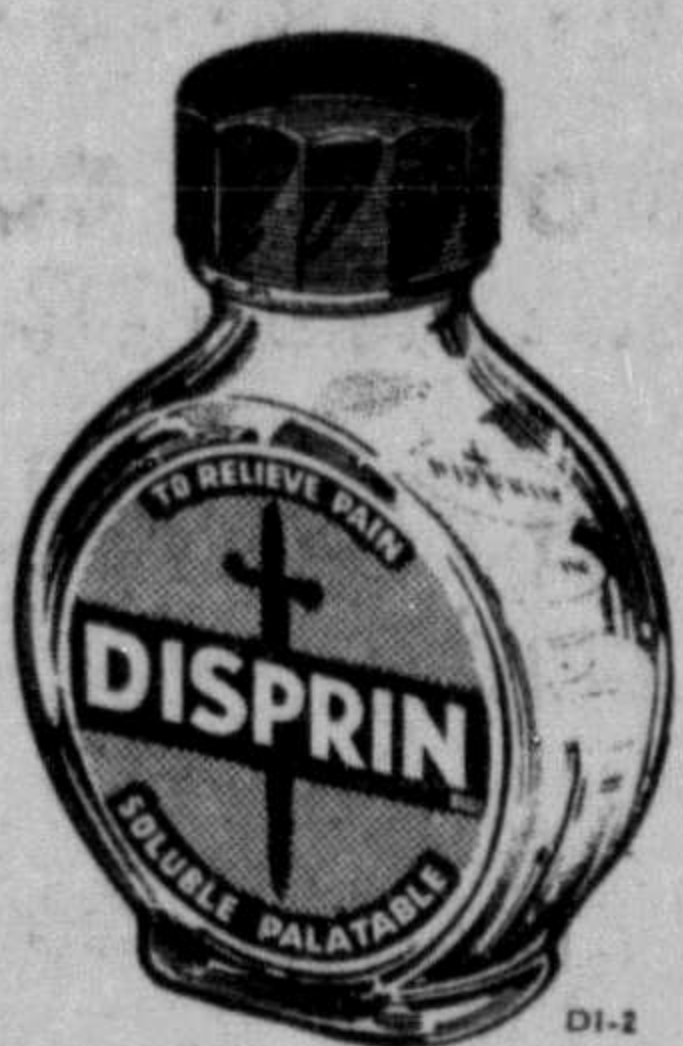

things levelled out for the lawn and a layout made on paper. Even under these conditions, however, one does not need to go without some pretty satisfactory decoration. Of course we can't grow trees, shrubs and perennial vines overnight. We can't expect to have all the roses, peonies, iris, etc., we would like the very first year. We can't have real hedges. But it is amazing what one can do with annuals alone, and in just a few weeks. The best plan is to get in early whatever nursery stock and perennial flowers are available and financially possible. Then in between these can be used all sorts of annuals which will soon look as if they had always been there. There are big, bushy annuals like cosmos, dahlias, cannas, castor oil and spider plants, ornamental sunflowers or helianthus, African marigolds and giant larkspur that can be used in the place of flowering shrubbery. Then there are quick-growing climbing plants, scarlet runner beans, morning glories, climbing nasturtium, sweet peas, hops and such for covering trellis or fence. And as for solid beds, edging and whatnot there are at least a hundred annual flowers from which to choose.

TRANSPLANTING — If there is any secret about successful transplanting, and every gardener must do a lot of this, the answer is plenty of moisture. Under normal conditions it is quite possible to water too often if not too much, and a hose in the hands of the careless is not always an unmixed blessing. But in transplanting some extra watering is almost vital. In this business it is important to take as much soil with the plant or shrub as possible so that the fine roots are not broken or disturbed. Then the roots must be covered firmly with good, fine soil and dampened down with water. If the sun is hot it is good to shade for a few hours. Better still, transplant in the cool evening.

Science Progresses

For 50 years we have used little white tablets—acetylsalicylic acid—for relief of pain. Today this familiar pain-killer is available in a new form without the disadvantages of acidity, insolubility and bitter taste. It is called 'DISPRIN' and is sold at druggists everywhere.

'DISPRIN' is available in Bottles of 26 tablets or Handy Pocket Folders of 8.

Headache?... take a Disprin

DISPRIN? Because DISPRIN is soluble and substantially neutral. Taken in water as recommended, it enters the stomach as a solution and not as undissolved particles. It is therefore less liable to cause stomach discomfort.

DISPRIN is readily absorbed. Because it definitely dissolves (not merely suspends) DISPRIN permits speedy absorption and gives relief without delay.

DISPRIN is palatable. Even children will take it readily.

Prison Priest To Abbey

VANCOUVER (CP)—Rev. Alfred F. Carlyle, British Columbia prison chaplain who personally aided 10,000 persons in his long career, is going home.

The 78-year-old Roman Catholic priest will re-enter the monastery he founded more than 40 years ago at Prinknash Abbey in Gloucestershire and there will spend the remainder of his life. "I am a little blind, a little deaf, a little wobbly in the legs—but I feel fine," said the beloved man who has spent 28 years in British Columbia.

He was a missionary among the Indians of the Kootenay and Okanagan, later a parish priest at Princeton and Ocean Falls and then prison chaplain in Vancouver.

As an Anglican, Father Carlyle founded the first Benedictine monastery to be established in the Church of England since the Reformation.

In 1913, the monastery renounced allegiance to the Anglican Church and was received into the Church of Rome.

A slight stroke forced him to retire from active work in 1949. He has been in poor health since. Recently he was given extended leave of absence from the diocese.

His motto was: "Hate the sin, but love the sinner."

GIANT'S MOUTHFUL
GALMPTON, Devon, England (CP)—Villagers will bake a gooseberry pie weighing more than 100 pounds on Midsummer Day to celebrate the Festival of Britain.

Marriage at Prince George

Copper River Girl Is Beautiful Bride

PRINCE GEORGE — A trellis covered with fern, pussy willow and narcissus made a charming background for the candlelight ceremony uniting in marriage Helen, daughter of Mr. and Mrs. George Somerville of Copper River and William John Bunton, son of Mr. and Mrs. F. W. Bunton of Prince George.

The marriage was performed at the home of Mr. and Mrs. M. A. Bader, Sixth Avenue. Rev. Gordon G. McL. Boothroy officiated. The bride, who was given away by her father, wore a beautiful princess-styled ballerina gown of white lace, with off-the-shoulder neckline and bouffant skirt. Her shoulder-length veil fell softly from a Juliette cap. Her only ornament was a string of pearls, the gift of the groom, and she carried a white prayerbook.

Her corsage bouquet was composed of two large mauve orchids.

Her only attendant, Mrs. M. A. Bader, chose a dress of navy blue organza with white flower sprays, made in princess style in ballerina length with sweetheart neckline. Her corsage was of white gardenias, and she also wore a Juliette cap.

Gordon Swanky was the groomsman for Mr. Bunton.

RECEPTION

About 90 guests gathered at the reception at the Prince George Hotel ballroom which followed the marriage service.

The happy couple were assisted in receiving by their parents,

Prince Rupert Daily News
Tuesday, May 8, 1951

5

Mrs. Somerville choosing for the occasion a gown in royal blue, with which she wore navy and white accessories, and Mrs. Bunton a navy model with which she wore grey accessories.

The bride's table was centered with a three-tiered square wedding cake, flanked by silver candlesticks and lighted tapers. The toast to the bride was proposed by Mr. Arthur Bader and suitably responded to by the groom.

A delicious luncheon was catered by the Priscilla Evening Circle of Knox United Church. Rhythm Aces orchestra played for dancing, which was highlighted by a series of numbers rendered by the Harmony Kings Quartette. The sister of the groom, Miss Elizabeth Bunton, gave a delightful rendition of "At Dawning."

Out of town guests at the wedding included Mr. and Mrs. G. Somerville of Copper River, and Mrs. W. R. Comstock of Quesnel, maternal grandmother of the groom.

For their honeymoon trip, Mr.

and Mrs. Bunton are en route to Toronto and New York, after which they will reside in Prince George, where the groom is associated with his father in the Fraser River Hardware Company.

Rup-Rec Season Closing With Display Tonight

Hundreds of children, ranging in age from the pre-school to the teen-employed, will go through their paces at the Civic Centre gymnasium tonight and tomorrow night at the fourth annual Rup-Rec display, climaxing the active indoor recreation season of the past eight months.

Last year the Rup-Rec show was cancelled after several weeks of sparsely attended and often cancelled classes due to the power shortage. This year the work has been under the direction of Miss Gloria Sather, who has arranged a program. The show on both nights will be opened by Jerry Mathisen, provincial supervisor for Pro-Rec movement, who is paying an official visit to Prince Rupert and Ter-

race Civic Centres this week. The program will include singing games by the Tiny Tois class, gymnastics by the junior boys and girls, mat tumbling, square dancing, badminton, and of course the ever-popular acrobatic clown. The Civic Centre Golden Glove winners will be seen in action when Mouse Morrison and Andy Marshall appear in a short exhibition. The local badminton champions will play a doubles match and Miss Sather's junior leaders will provide specialty numbers. Something new in Prince Rupert will be seen, when several numbers are done under the black-lights operated by Don Forward.

SPORT SHOTS

Babe Ruth, then pitching for Boston Red Sox, outlasted the great Walter Johnson in a pitcher's duel at Washington 34 years ago. Ruth allowed only two hits while Boston got four hits to win 1-0. Ruth of course gained greatest fame as a home-run slugger with the New York Yankees in later years.

Tony Canzoneri, then light-champion of the world, survived a terrific first-round attack to win the decision over Vancouver's Jimmy McLarnin 15 years ago in New York. McLarnin was favored in the betting odds but Canzoneri won an unanimous decision when the 10 rounds were over.

Al Sabath's great colt Alsab, purchased for \$700 as a yearling, set a record of one minute 57 seconds to win the Preakness Stakes over the 1 3/16 mile route at Pimlico nine years ago. A crowd of 25,000 cheered the three-year-old's run which clipped 1 1/5 seconds off the previous mark. Alsab's record was beaten when Capot won the race in .56 two years ago.

23-Inning Ball Game

VICTORIA (CP)—Salem Senators and Victoria Athletics went at it for 23 innings Saturday night before Salem emerged with a 1-to-0 baseball victory. The struggle lasted for four hours and 36 minutes. At least three records were set: The longest Western International League game; Most consecutive scoreless innings; Longest string of shut-out innings by one pitcher.

To Divide Up Field

Baseball Association Proposes New Arrangement At Roosevelt Park

Prince Rupert Baseball Association will ask city parks board to rearrange the soccer pitch at Roosevelt Park so that it will not interfere with the baseball diamond.

The Association decided at their general meeting last Friday they would ask soccer clubs to play across the outfield of the present diamond to protect the infield which, it was said, had given infielders trouble for some years.

A committee was appointed to measure the park from different angles to support the request. Tentative plans are being laid

SERIES TIED—A 4-2 win by Fort Frances Canadians over Owen Sound Mercury's in Owen Sound Wednesday night tied the final series for the All in Cup at two games each. Tommy Burlington, left, rounds the net after scoring one of his two goals for Owen Sound. The puck is shown, arrow, in the net. Canadian goalie Harry Barzoot looks too late. Bob Fero of Fort Frances skates in at right while Sambo Fedoruk sprawls on the ice to the left. (CP PHOTO)

Forest Conservation Week Is Coming Up

May 19 to 26 will be Forest Conservation Week in British Columbia and in its observance co-operation of the Prince Rupert Chamber of Commerce was asked in a letter read at last night's meeting. The Chamber gave assurance of this as far as possible.

ST. JOHN'S, Nfld. (C)—The engineer of a freight train saw six moose on the track near Codroy Pond on the west coast while more were seen by others of the crew. All the moose were travelling in pairs. None were struck, although the train halted once while the moose ambled off the track.

CENTENARY — These postage stamps, commemorating 100 years of British North American postal administration, will be issued Sept. 24 to coincide with the opening of the International Philatelic Exhibition in Toronto. The red 15-cent denomination reproduces the first postage stamp issued in Canada in 1851. The other three denominations — blue seven-cent, purple five-cent and black four-cent — will emphasize the development of communications by land, water and air over the century in Canada. (CP PHOTO)

The climate of the British Isles, with a mean temperature of 48 degrees, is kept mild by an offshoot of the Gulf Stream.

for a three-team baseball league which would play first game on May 24, in conjunction with Kinmen's sports day.

Election of officers for coming season will be held tonight at the Civic Centre and managers of respective clubs will be announced. Team entries will be called for in the near future.

International Air Service

Correspondence from the Ellis Air Lines read at last night's meeting of the Prince Rupert Chamber of Commerce disclosed that the Ketchikan commercial aviation concern has an application before the Civil Aeronautics Board at Washington now seeking to establish a commercial air service between Ketchikan and Prince Rupert. If Washington approves, then the application will have to come before the international aviation body. Ellis suggests that then might be an appropriate time for the Prince Rupert Chamber of Commerce to make representations in the matter.

OIL MAKES A COUNTRY STRONG

WHEN DID THEY OPEN UP THE WEST?

The "opening up of the west" didn't end when the railroads and the settlers and the wheat had come. Nor is it ended today. It is a continuing story of our country's growth and each generation adds its chapter.

Today it is prairie oil that holds out new opportunity, bringing with it new benefits and new security.

In four years discoveries in the west have increased Canada's proven oil reserves more than fifteen fold and the production of crude is six times what it was. These advances, and the half-billion dollars the oil industry has spent on them, have not benefited the west alone. All of Canada is stronger and more prosperous.

Our people and our factories have been made busier by the needs of the growing oil industry. There are new jobs and new businesses. Many millions of dollars once spent for foreign oil now stay at home—or are available for other purposes. And of special importance, our supply of oil is being made more certain, less dependent on sources beyond our borders.

Opening up of the west goes on, bringing closer Canada's self-sufficiency in oil, giving new strength to the nation.

About Canada's Oil

Imperial has drilled more than 1,000 wells in western Canada searching for and developing oil fields.

The oil industry is expected to spend about \$4 millions a week on exploration and development in western Canada this year.

By replacing imports, production from Canada's new oil fields is expected to save 150 million U.S. dollars in 1951.

Jack McAuley
Dies in South

John W. McAuley, who for many years was locomotive foreman for Canadian National Railways here and later became assistant superintendent at Prince George, passed away Monday in White Rock where he had resided for some years in retirement. He had been in failing health for a considerable time.

During World War II and since his retirement from the railway service, Mr. McAuley had been for a time with wartime shipping organization.

Besides his widow, the former Miss Chris Stephen, a well known pioneer Prince Rupert girl, Mr. McAuley is survived by a son, Jack, and a married daughter in California, the former Miss Helen McAuley, R.N., a graduate of the Prince Rupert General Hospital training school for nurses.

LONDON ©—The British Broadcasting Corporation is to open a television school here. The idea is to build up a reserve of interested persons who can be called upon when services are extended.

Columbia Cellulose to Cut
School Cost to Municipality

Due to the large industrial operations of Columbia Cellulose Company Limited in the district of Prince Rupert, there will be a greatly reduced school cost in coming years. At present, the city bears 78.82 per cent of school costs, or, for this year, \$150,495.10. The district, through taxes to the provincial government, pays 21.18 per cent.

This is based on the following assessments for school purposes—
100 per cent of land value and
75 per cent on improvements:
1. For the municipality—\$6,700,000.
2. For the rural area—\$1,800,000.

Because of the operations of Columbia Cellulose, the rural assessment is expected to be much greater in the future, thus reducing the obligation of school costs to the city.

Some idea of the important bearing that operation of Columbia Cellulose will have on the increase in ratio of rural area school taxes in relation to the municipal area may be gained

United Church
Sale Success

A spring sale, held by First United Church Women's Association last Thursday was "highly successful."

Three stalls had been arranged in which were displayed fancywork, aprons and home-cooking.

Convenor of fancywork was Mrs. A. Logan, assisted by Mrs. E. Pedersen and Mrs. C. MacIneau.

Apron stall was convened by Mrs. J. P. Macdonald, assisted by Mrs. A. K. Gibson and Mrs. R. J. Pollock.

Mrs. R. B. Skinner was convenor of home-cooking, assisted by Mrs. R. Webster, Mrs. J. Hoskins and Mrs. J. Adelman.

In the kitchen were Mrs. D. R. Green, convenor, and Mrs. C. Young, Mrs. W. D. McCrae, Mrs. C. Andrew, Mrs. D. L. Sherk and Mrs. D. Gubraith.

The tearoom was under the direction of Mrs. J. Harden, aided by Mrs. A. J. Dominato, Mrs. Richardson, Mrs. T. Petroff, Mrs. P. Knutsen, Mrs. K. Faught, Mrs. G. E. M. McClintock, Mrs. Dominato and Mrs. Gibson.

Ocean Dock is
Being Re-roofed

Canadian National Railways is proceeding with the re-roofing of the whole of the ocean dock instead of one-half as had been originally planned, the Prince Rupert Chamber of Commerce was advised last night. Recently, the leaky condition of the dock and its effect on canned salmon stored there had been brought to the attention of the chamber.

Soup-Sauces for Spring Vegetables

GUARANTEED to melt in your mouth are fresh spring vegetables in a rich cream sauce. And for a quick, grand sauce, you can use condensed soups.

Cream of mushroom, chicken, and celery soups all have flattering ways with vegetables. Try the chicken or mushroom soup with new little green peas or tender asparagus. And any of these soups sauces team well with cooked carrots, green snap beans, or corn. The sauces have two special advantages besides their good eating qualities: They're quick to fix. And they help your campaign to "be kind to the budget."

When preparing a condensed soup for a sauce, stir in 1/4 cup milk; then heat it. You may use slightly more or less milk according to your likes. And each can of soup makes enough sauce for about a pound of vegetables (before they are cooked). Here are some pleasing vegetable-sauce combinations.

SPRING VEGETABLE TRIO
(Serve any one of these as a special treat for dinner or lunch.)

Potatoes and Peas in Mushroom Sauce: Stir 2 cups of cooked peas into 1 can of condensed cream of mushroom soup (blended and heated with 1/4 cup milk). Pour over cooked new potatoes (6 to 8 small ones).

—SOUP SCOOPS—

TREAT FOR MOTHER: Youngsters are pretty proud when they can fix supper for the main meal on Mother's Day. And they can do it well with a simple menu like this: Hot chicken noodle soup, cold sliced meat, deviled eggs, potato chips, and chocolate nut sundaes.

BABY'S BOWL OF SOUP: When the whole family is dining on soup, serve it to your one-year-old also. He's ready for condensed soup as soon as he's eating soft chewing foods.

CHEESE FLOATERS: On top each bowlful of tomato soup, float a toasted slice of French or Italian bread, sprinkled with grated cheese. A flavorful flourish. Also good on hot consommé or bouillon.

from the disclosure that valuation of the pulp mill property in 1950 was \$380,000 which will be up to \$950,000 this year on the basis of non-operation and \$14,000,000 on operation. Next year the valuation will be \$15,000,000.

Tightening up
Is Approved

Harbormaster W. H. Koughlan last night was accorded the approval of the Prince Rupert Chamber of Commerce for his action in strictly enforcing the safety regulations regarding the mooring of fishing and other vessels at local fuel stations on the waterfront except when actually in the process of loading fuel.

This practice has long been considered a serious fire hazard and, particularly at night, has been a worry to the fuel station operators.

President C. G. Gilker pointed out the inadequate facilities for loading supplies to fishing vessels, something that was emphasized even more sharply now that they were unable to use the oil docks.

It was urged that representations should be made to the appropriate authorities regarding the need of such loading facilities.

(Recently the Prince Rupert Liberal Association brought the matter to attention of the government.)

Chamber Gets
Clean-up Urge

Advent of spring brings thoughts of civic cleanliness and the Prince Rupert Chamber of Commerce felt the urge last night.

Cleanliness of streets was one thing which came up. Orme Stuart thought that the street cleaners were doing a good job but he suggested it might be helpful if garbage receptacles were made available to help merchants in keeping the sidewalks clean in front of their premises.

Norton Youngs thought something should be done about the downtown dust nuisance. He suggested that the streets be flushed regularly. A. P. Crawley thought that the accumulation of loose sand on the city streets following the winter's sanding should be picked up and taken away. Representations will be made to the city about the dust nuisance.

The question of the debris from the old Central Hotel fire site was also brought up again.

Friendship Is
Demonstrated

Women of the Moose Friendship Session, held at the Moose Temple Sunday, bestowed Friendship Degrees on ten candidates. Mrs. Charlie Lundstrom, Stewart, arrived to aid in this ceremony.

Out of town guests for the afternoon session of the Friendship Rally were Gladys Hamilton, Vancouver; Jean Stewart, Ollie Risch, Betty Stewart, Elsie Kustus, Violet Manojlovich, Stewart; Jean MacKenzie and Cora Canton, Prince George; Flora Nygard and Gwen Sapp, Ketchikan.

Six candidates were initiated into "Our Defending Circle" by Mrs. J. Kasper, deputy grand regent. Registrar of the session was Mrs. Irene Muncey.

Cathy Wilson and Clara Belamy were hostesses at the luncheon and banquet.

BLONDIE

Drive For
Air Field

Prince Rupert Chamber of
Commerce To Resume Fight

Prince Rupert Chamber of Commerce last night decided to renew the campaign at Ottawa for the establishment of an air field at Prince Rupert, thus backing up the efforts of E. T. Applewhite, MP for Skeena, who carried the matter a few days ago to the floor of the House of Commons in Ottawa. Further representations will go to the minister of transport, Hon. Lionel Chevrier, who promised Mr. Applewhite that further consideration would be given to the matter.

Prince Rupert's airport lack came vividly before the chamber last night when reference was made to the recent inauguration of the Central B. C. Airways service between Prince George and Terrace which would have come through to Prince Rupert had there been an air field here. The chamber sent its congratulations to Central B. C. Airways together with expression of regret that it was impossible for it to operate into Prince Rupert.

Close touch will be kept with Mr. Applewhite on the matter.

Bigger Spot
For Women

CALGARY ©—Two prominent bachelors who guided Canadian affairs of state for a long time have been blamed for the lack of women in the country's political life.

The accused: the late Rt. Hon. W. L. Mackenzie King and the late Viscount Bennett. The accuser: Mrs. Evelyn Tufts of Ottawa, resident correspondent in the parliamentary press gallery for 15 years.

"They never had a chance to get acquainted with women and they didn't appreciate them, but we may do a lot better from now on," the still blonde grandmother said here on a recent visit.

She noted the late President Roosevelt had a woman as minister of labor in his cabinet. He also appointed the first woman diplomat, Mrs. Ruth Owen, to Denmark.

This placing of confidence in women by President Roosevelt, she believed, was due largely to the fact that he had as his wife a most outstanding woman who set a pattern of public service few American women have equaled.

INDIA ON THE MARCH

Mrs. Tufts wondered why we sent missionaries to India. She thought it should be the other way about.

"We haven't got anywhere near the position Indian women have achieved in public life and yet we look upon them as backward and send missionaries to them. I think they should send missionaries over here to educate us," she said.

Mrs. Tufts, the wife of a retired public servant, has represented her paper—The Halifax Chronicle-Herald—in Ottawa for the last 15 years.

She recently returned from a months assignment in Italy, Germany and Yugoslavia. During the last few months she has interviewed Maritime troops in Canada's special force training at Fort Lewis, Wash.

At present, Mrs. Tufts is doing a series of articles on Alberta's oil industry prior to returning to Ottawa where she missed reporting the budget this year for the first time since taking the parliamentary post.

Funeral of
John Mattson

Funeral of John Mattson was held Friday afternoon from Grenville Court chapel. Rev. E. Soiland of St. Paul's Lutheran Church officiating. Organist was Mrs. J. C. Gilker.

Fallbearers were Emil Solild, Roy Lunningdal, H. Hamma, Nels Sydney, Andy Anderson and Al Larsen.

Burial was at Fairview Cemetery.

Hospital Insurance

Brief to be Presented
By Chamber of Commerce

A joint presentation of the Associated Boards of Central B.C. and Prince Rupert Chamber of Commerce in support of objections to the increase in British Columbia hospital insurance premiums and the imposition of co-insurance may be presented to a special select committee of the legislature which is to investigate all phases of the scheme.

The matter came up at last night's meeting of the Prince Rupert Chamber of Commerce when Hon. A. D. Turnbull, minister of health and welfare, and J. D. McRae, MLA for Prince Rupert, had letters before the Chamber in reply to its objections registered a month ago. W. J. Scott suggested the joint presentation.

Mr. McRae suggested that members of the Chamber, before registering protests at the increase in premiums, should acquaint themselves with the facts. He wondered, for instance, how many members of the Chamber were even members of the Prince Rupert General Hospital Association.

W. J. Scott offered to act as a member of the local Chamber which will be named by the executive. He also offered to collate material for a joint brief.
