# Resignation Now Accepted

OTTAWA (CP)-Canadian Congress of Labor executive yesterday accepted the resignation of Pat Conroy as its national secretary-treasurer and appointed Donald Macdonald of Sydney, Nova Scotia, in his place.

Conroy resigned at the C.C.L.'s Vancouver convention in September during an internal policy fight.

## Railway Line to Kitimat Now Under Consideration | clude transmission line clearing between Kemano Bay and Kiti-

OTTAWA ()-Transport Minister Chevrier said in the House of Commons yesterday that the Canadian National Railway is considering building a railway line to Kitimat.

The minister was replying to a question from Howard Green (Progressive Conservative, Vancouver-Quadra) who referred to published reports which Green said indicated probability that a line will be built from Prince Rupert to Kitimat.

The minister said that the CNR is discussing the matter with the Aluminum Co. of Canada.

(CNR is now engaged in making surveys of a railway which would connect Kitimat with the Prince Rupert line of the Canadian National Railways from Remo, about ninety miles east of Prince Rupert.)

J. L. Charles, chief engineer of the Canadian National Railways for the western region, visited the proposed Kitimat branch line a few days ago. Robert McElroy is the engineer in charge of the survey.

# Jaycees Delegation to Carry Highway Protest Right on to Victoria Armistice

Smithers and Prince Rupert Young Men Meet At Terrace after Driving over "Terrible" Road

To seek immediate confirmation of action on hard-surfacing and general upkeep of Highway 16, a delegation of Jaycees from Smithers and Prince Rupert Junior of Chamber bodies will travel to Victoria.

highway from Prince Rupert to joint meeting of Smithers and Rupert Jaycees at Terrace Sunday voted a resolution to this

Gordon Williams, regional vice-president, led the discussion on highway conditions.

"There is no reason why we should tolerate the consistent negative attitude of the government in respect to this highway. The traffic is heavy and we need a better grade of road if Central and Northern B.C. is to develop," he said.

Prince Rupert members who miles east, told of the "terrible condition" of the highway-"so full of potholes it made driving over 20 miles an hour 'actually dangerous' besides causing one's car to become "a total wreck."

In many places seepage from the mountain sides has eaten U.J. into the road bed because there is no drainage by culverts. Where the road runs parallel to the Skeena River, the riverside edge is being eroded often to a point to allow only single lane traffic.

Morrison-Knudsen Officials Pay Visit of Inspection to Construction

A. O. Strandberg, projec Co., and C. P. Dunn, vice-president of the company, left Kemano Bay today in the Princess Norah on their return to Vancouver after a visit of inspection to the progress of operations in connection with the great power development for the Aluminum Co. of Canada. They had come north on the same vessel on Sunday so had a couple of days in the area.

Some 1700 men are now employed on the Kemano operation which is being concentrated on the driving of the huge tunnel which will bring Tahtsa Lake water to the Kemano power house. Nine hundred of these men are in the main Camp 5 ten miles from the beach, near the end of the tunnel and the proposed power house site. The 600 others are working from several smaller camps scattered along the river engaged in road construction work and transmission line clearing.

Other Alcan operations include transmission line clearing I mat, the site of the aluminum

## What Oil May Mean

IL in the Peace River may mean more to Prince Rupert than we, on first thought, may realize. It is a propitious circumstance that that rich liscovery should have been made a few miles from Fort St. John just as the Pine Pass Highway to connect Fort St. John with Prince George and the heart of Central British Columbia should be on the eve of completion.

There is good reason to suppose that the route of the highway is the logical route for a pipe line which could lead to the coast at Vancouver or Prince Rupert or both. The whole oil supply situation of the Pacific Northwest may be changed and, in the changing, a further important development be realized in the constantly changing picture of central and northern British Columbia with all its unexpected facets.

Yes, oil at Fort St. John is an occurrence the full import of which may not yet be realized as it affects British Columbia as a whole and this area in particular.

## Indoor Game Back

Thaving been away most of the time since last 'HAT old familiar, the indoor game, is back again, spring. His presence makes up to some extent for the darkened evenings. He reassembles married couples who, after the enchanted sunlight of better months, now resume their Contract Bridge.

Among the men, some who saw each other only casually during the healthy, active holiday season, now begin their pallid, comfortable evening Dealer's Option sessions. Members of families who got along well during the summer as they passed on their ways to various vocations, are now reunited at Canasta, or split up forever by it.

Then there are the two-player contests, such as pegging some Cribbage.

The indoor game is back, the old familiar solace when, seen from around the covered table with its sweetmeat dish, the window panes gleam black in the Autumn evening.

# Killing Christmas

RUNKEN parties, speeding cars, suggestive greeting cards and blatant commercialismthose are fast becoming the symbols of our celebration of one of the holiest days of the year, the anniversary of the birth of Christ. Our Christmas orgies of sex, liquor and smashup have reached the point where they are a national disgrace, protests an article in the December issue of Pageant magazine entitled, "Are We Killing Christmas?"

What has happened to the real spiritual meaning of Christmas? It has dissolved into a vulgar, commercialized celebration that has nothing to do with the origin of the "holiday" which, of course, was once called "holy day." Take Christmas cards as an example, suggests Pageant. We send cards that are arty, folksy, humorous and even suggestive -but only rarely spiritual. Many of them have no Christmas meaning whatever. They are illustrated with pictures of cocktail shakers, cigarettes, ships, airplanes, dogs and sometimes even psychiatrists!

But perhaps the grossest travesty on the spiritual joy that Christmas should mean is the "office party"--sometimes held in homes and taverns toowhich disguises drunkenness, vulgarity and even lewdness as legitimate Christmas jollification. In all too many homes, Christmas Day is not a time of church and family celebration, but a dull, remorseful hangover of aching or broken skulls. The "observance" of Christmas last year, points out Pageant, took 724 lives, 144 more than the previous year.

The holiday street scene in any American city bears out this growing misconception as to the meaning of Christmas. Starting even before Thanksgiving store windows are jammed with every materialistic luxury that can be bought. In every store a Santa Claus prompts greedy recitations of the bikes, games and toys that children want. But the Manger, concludes the Pageant article, is tucked away in the churches and must be deliberately sought out. Are we killing Christmas?

## Reflects and Reminisces

Live ammunition was used in what was called a mock battle at Smith from British Columbia received a bullet through the head and that ended his career, military as well as civilian. Some fellows spend years in a real war and never come that close to a slug of lead.

Social Welfare in Canada sponsored in Ottawa, makes its appeal but hardly to the extent some folks say. There's room in Canada for both Social Welfare and the Salvation Army. The latter was founded nearly as long ago as Confederation. It's here to stay, no matter how many new goodwill and shake hands organizations.

## NO-DIFFERENT TODAY

Napoleon Bonaparte is said be able to use that road. to have described Egypt as the the moment only a few rich men most important country in the with their private planes and Liberal premier, wouldn't be a 150 years later. Today, public the beauties of Buttle Lake. men vitally concerned in preserv-Canal are saying it over again.

## FOUND IN SCRIPTURE

When the Fathers of Confederation were wondering what to call the newly reorganized set of provinces, Sir Leonard Tilley found it in the Bible. "Dominion" was considered acceptable. Since then, efforts have been made to abolish it. And now, further attempts are heard of, as well as another scheme to fly a different style of flag. That's been [tried, already, but no one was able to agree. What is this country coming to, anyway?

It's a century this month since the birth of R.L.S. The story of the life of Robert Louis Stavenson does not lack in itself something of the same color and romance that distinguished his novels. Born in Edinburgh, he found final rest on the island of Samoa in 1894.

# New Swiss Discovery for Eczemas, Boils, Psoriasis, Leg Ulcers

MINENT Scientists have discovered that the lack of unsaturated fatty acids in human nutrition is one of the main causes of skin diseases, such as Eczemas, Boils, Leg Ulcers and Psoriasis. The modern diet, in which these essential substances are often completely lacking, have brought about a deficiency in a great number of individuals.

## Remarkable Swiss Discovery

A Swiss chemist, Dr. W. Schmitz, succeeded after 10 years of research work in extracting from pure vegetable oils an unsaturated fatty acid in a concentration of 99% and therefore named F "99". Thanks to this hitherto unattained purity, F "99" is so readily absorbed into the blood stream that it has a decisive biological activity in the treatment of skin diseases.

Illustrated Booklet on F "99" containing all the interesting facts concerning this remarkable new Swiss Discovery which will bring new health and happiness to innumerable skin sufferers, can be obtained free of charge from any good drug store. Diva Laboratories, Dept. 623, P. O. Box 116, Victoria, B.C.

Natural way to clear up skin troubles F "99" is not a synthetic drug but a concentrate of natural nutritive substances. It is so harmless that it may be given even to infants without any hesitation. Its remarkable efficiency in the treatment of Eczemas, Boils, Leg Ulcers and Psoriasis has astonished even Skin Specialists of international reputation. As its name suggests, the F "99" Two-Way Treatment acts internally as well as externally. While "99" Capsules or Liquid give the body the power to suppress the cause and combat successfully skin disease, the F "99" Ointment treats its external, visible symptoms. To many thousands of skin sufferers all over the world, F "99" Two-Way Treatment has already proved its tremendous value and is being used with outstanding results even on cases where all ordinary treatments have failed.

In the third place, today. Of course, not everyone do not freeze hard-cooked egg in Canada is able to have a home fillings because the white tends freezer, but there are a great to become tough and porous. number of locker plants through- Most important of all, package out the ten provinces. When the sandwiches in wrapping sold homemakers take advantage of specially for freezing foods, such freezing facilities, they find it a simple matter to conserve large quantities of foods. For those who have neither a locker nor a freezer, a host of commercially frozen foods are available in the shops.

A freezer or locker is a real en foods can save the day. Such favorable for "forcing." things as baked beans, stews and soups can be prepared in three or four times the regular amount, then divided up into cartons and frozen fo: future meals. Just think of sitting down to a Saturday night supper of baked beans and brown bread prepared and frozen a month before hand. With careful planning even the extra busy person can freeze a good supply of fruits and vegetables to use when they are out of season, for it takes little time and energy to get them ready for freezing. In this way, with a variety of foods practically ready to use, preparing meals does become a simple matter.

Home economists have been carrying on some tests on storing frozen cooked foods. The results of this work shows that all cooked meats or poultry freeze well but, there are a few points to keep in mind when freezing

1. Meats or poultry must be properly w. apped or packaged in moisture-vapor-proof material.

2. Cooked meats and smoked pork products generally should not by stored longer than three months.
