

INTERNATIONAL COURT TAKES HAND

CEASE FIRE TALKS BEING ARRANGED

Fighting Still Goes On in Korea; Motives Are Being Questioned

TOKYO (CP)—Arrangements were made today for the Communist and Allied truce envoys to meet at Kaesong on Sunday (Saturday in Prince Rupert) to work out details for a peace conference but that did not stop the shooting in Korea.

Quebec Town Is Fireswept

CAP CHAT, Quebec —Raging fire today swept through this lumbering community 250 miles northeast of Quebec on the south shore of the St. Lawrence River. Thirty homes and business establishments were ablaze at 11 a.m. and thirty other buildings were in danger as the fire, driven by a strong wind, raged unchecked. The fire started in a hotel in the village of about 2500 persons. No injuries or deaths were reported.

Better Water For Greenville

Announcement is made at Ottawa that \$16,000 will be spent yearly to provide a water supply at Greenville, native village on the Naas River. This assurance was given E. T. Applewhite MP by the Minister of Citizenship, Hon. Paul Harris. Mr. Applewhite said the Indians of the village had told him the present water supply was very unsatisfactory.

Is Queen Of North

QUEEN OF NORTH — Elaine Steffens, Sons of Norway candidate. She will be crowned at the Civic Centre Carnival Ball on Friday night. Last night when the books of tickets, on the volume of sale of which the winner was determined, were counted it was found that Miss Steffens had scored a close victory. Miss Margaret Gagnon, Columbia Cellulose ball team, 47,200.

Lord Inverchapel, Once Envoy, Dies

GREENOCK, Scotland — Lord Inverchapel, former British ambassador to Washington, died here today. Inverchapel, who served as ambassador to Russia and China during his diplomatic career, was 69 years of age.

Ketchikan Wins Fourth Game of Baseball Series

KETCHIKAN.—Prince Rupert All Stars walked away with the International Baseball Trophy award although, in the toughest tussle of the four game series, Ketchikan yesterday afternoon rallied to win the last game in the ninth inning by one run. Score was 8-7.

Highway in Good Shape

Condition of the road between Burns Lake and Prince Rupert has never been better in the many years he has been travelling it, says E. G. Van der sluis who arrived early yesterday from Wistaria on Ootsa Lake where he is residing for the summer. "But the road from Burns Lake to Prince George is cruel," he adds. Prince Rupert drew first blood when they scored in the first two innings, counting one run in each. Ketchikan then came up to score five hits off pitcher Letourneau, each batted in for a run, bringing the score at the top of the eighth inning to 5-3 for Ketchikan. With bases loaded, Prince Rupert's veteran Bill Lambie knocked in two runs with a two-bagger. Letourneau followed, also with a two-bagger, bringing the score to 7-5 for the All Stars at the end of the first half of the eighth. Two runs were batted in for the home team when Duane Vincent tripled to tie the score at the last of the ninth inning when Letourneau was replaced by rookie hurler Larry Matthews, with bases loaded. The winning run by Ketchikan was knocked in off Matthews and an error by Cliff Dahl, second baseman, who let it go between his feet. Harry Ludvigson, Ketchikan's manager, was the starting and winning pitcher. The weather was sunny and more than 500 people turned out for the holiday feature.

48 Out of 600 Came Back

LEADER of the 48 men who survived the stand of the heroic 600 of the 1st Battalion of the British Gloucester Regiment in Korea. Captain Mike Harvey (right) is congratulated by Lieutenant-General Van Fleet, U.S. 8th Army Commander, when the Presidential Unit Citation, America's highest army group honor, and other decorations were bestowed upon the Britons. Against some 20,000 Chinese, without food or water, the British boys held the U.N. line for three days.

ELIZABETH AND PHILIP—

Royal Couple to See Most of Canada And States—If Invited

OTTAWA (CP)—Princess Elizabeth and her husband, Prince Philip, will make a coast to coast tour in October, according to yesterday's official announcement, but the details of their itinerary will be made public later. They are expected to visit most of the principal centres and will probably do a good deal of flying to save time. The royal couple are expected to remain in Canada about three weeks. The surprise announcement of the visit came from Prime Minister St. Laurent who said they had expressed the hope that their visit would be kept as simple as possible, "having regard to the circumstances of the times." For the 25-year-old Princess and direct heiress-presumptive to the throne it will be the first visit to this country. It will be Canada's second royal visit in little more than a decade. The King and Queen made a four-week tour of Canada in May and June of 1939. ALSO UNITED STATES? Princess Elizabeth and Prince Philip will also visit the United States, if they are invited, after their tour of Canada, responsible sources in London said today. The King and Queen visited the United States during their tour of Canada in 1939, spending four days as the guests of the late President Franklin D. Roosevelt and Mrs. Roosevelt. President Truman told his weekly press conference at Washington today that the young royal couple would be welcome to the United States.

Army Secretary In Korean Crash

UNITED STATES EIGHTH ARMY HEADQUARTERS IN KOREA (CP)—Under Secretary of the Army Archibald S. Alexander was injured Wednesday when his light plane crashed into the side of a mountain on the eastern front. An Eighth Army spokesman said Alexander and his pilot, Major Walter J. Borden of San Antonio, Texas, were shaken up and bruised but both were described as resting comfortably in hospital.

STAN LEONARD LEADS

TORONTO — Stan Leonard of Vancouver today shot a five under par 67 to take the lead among early finishers with a total of 137 at the half-way mark of the Canadian open golf championship. He had fired a two under 70 in the first round yesterday.

U.S. Holiday Toll Lower

CHICAGO —The United States Fourth of July traffic death toll was below the National Safety Council's estimate and one of the lowest for the holiday in several years. Cool rainy weather during the mid-week holiday cut highway travel in many parts of the United States. The accidental death toll, traffic leading with 91, was 178.

Ship Blows —70 Dead

BERLIN —More than seventy children are feared to have been killed in the explosion of a pleasure steamer on the east Berlin Spree River today. Eyewitnesses said the steamer was taking a party of 200 East German children upwards of ten years of age to a holiday camp on the Baltic. Fifteen children are reported to have been taken to hospital with severe burns. Earlier reports from West Berlin police said the steamer's boiler exploded. East Berlin authorities refused to offer help to West Berlin German police it was said.

Dave Jones, in charge of the CNR bus service between here and Smithers, reports last week warm enough for anyone's taste. For a while, 90 and upwards was registered and the dust was stirred up by any kind of breeze.

H. R. MacMILLAN HERE—

Top Industrialist is Enthused With Rupert

In Prince Rupert yesterday afternoon and out again early this morning was one of Canada's top industrialists, H. R. MacMillan, who landed here in a private plane with Prentice Bloedel and James Petrie. Eager to take advantage of flying weather, the party returned to Vancouver several hours earlier than their plan for departure. Mr. Bloedel, former president of Bloedel, Stewart & Welch Co. Ltd. (now amalgamated with MacMillan Industries Ltd.), and Mr. Petrie, manager of the Port Alberni pulp mill, were mainly interested in the operations of Columbia Cellulose Co. Ltd. pulp mill here. After a tour of the plant yesterday afternoon, the party enthusiastically endorsed the plant as "a beautiful job."

Appeals to Britain And Iran to Settle Dispute

THE HAGUE (CP)—The International Court of Justice announced today that it is proposing provisional steps to Great Britain and Iran which would protect British oil rights pending negotiation of the oil dispute.

The court urged both Iran and Britain to avoid any acts which might interfere with the flow of oil or prejudice its findings in the dispute over Iran's seizure of the properties of the Anglo-Iranian Oil Co. (The Iranian government soon announced that it regarded the International Court's appeal as an intervention and declared it null and void.) The British government had asked for an injunction to stop Iranian "interference" which the British claimed threatened to prejudice final settlement of the dispute. Meanwhile, a government spokesman told the Iranian parliament that British technicians must leave Iran's newly nationalized oil fields unless they promise "full obedience" to the Iranian National Oil Company.

Oil Company Having Strike

VANCOUVER —Employees at the Shellburn plant of the Shell Oil Co. in South Burnaby went on strike today after rejecting a last-minute company offer of 20c an hour wage boost. The Shell workers had originally asked for a 28-cent increase and were offered 16.7c. Basic pay is at present \$1.04½ an hour. The men are members of the Oil Workers' International Union (C.I.O.) Local 596. Imperial and B.A. Oil Company employees are also taking a strike vote.

White Sox Lead Again

NEW YORK —The fighting Chicago White Sox retained the American League lead Wednesday by half a game and one percentage point while the Brooklyn Dodgers opened up the yawning 6½ game gap in the National by sinking the runner-up New York Giants twice, 6-5 and 4-2. "The two rags to riches" Sox bounced back to whip Detroit 5 to 1 after losing the first game 6 to 3 to take advantage of New York Yankee's double defeat by Washington 9 to 6 and 8 to 5. As a result, the traditional July 4 dividing line finds Chicago on top of the Yanks in the standings—630 to 229 with half a game margin in the win and loss column.

Delayed by connections at Red Pass, tonight's train, due from the East at 11:15, is reported an hour late so will not arrive before midnight.

WEATHER

Synopsis
Light rain fell over the northern coast during the night and light to moderate rain was reported at points in the Bulkley Valley. Cloudiness persists in the central interior and along the west coast but clear skies have returned to the rest of the province. The next 24 to 48 hours is expected to bring sunny skies to almost all regions although scattered afternoon showers will occur along the mountains of the interior.
Forecast
North coast region — Cloudy today with showers during the forenoon. A few clouds overnight and on Friday. Little change in temperature. Winds light. Lows tonight and highs Friday at Port Hardy, 46 and 60; Sandspit and Prince Rupert, 47 and 62.
Northern B.C. region — Sunny and warm today and Friday. Winds light. Lows tonight and highs Friday — at Telegraph Creek, 50 and 80.

Big and Magnanimous

THOSE who are acquainted with George Drew personally know the Progressive Conservative leader is a big and jolly man and, of course, everyone knows he is a hard political fighter. Sometimes, in the heat of debate, by his own admission, he says things that are "unparliamentary and inappropriate." It takes a big man to take back statements such as Mr. Drew said about Prime Minister St. Laurent when they quarrelled in the House last week over Mr. Howe and his company. But Mr. Drew came through with the eleventh hour apology which Mr. St. Laurent graciously and understandingly accepted.

The incident of "burying the hatchet" was a happy one in keeping with the harmony and goodwill which should well enough exist among men who, their political views and principles notwithstanding, are fundamentally interested above all in the welfare of their country and its people and in doing and seeing that things are done for the greatest good for the greatest number.

Mr. Drew and Mr. St. Laurent may both have their faults, there may be things about them we do not like and certainly we cannot be all in accord with all their views and actions, but we do believe that both hold the common weal far and above personal interests—and the same goes also for the other leaders such as Mr. Coldwell and Mr. Low.

By and large, we are fortunate in our political leaders in Canada. In broadmindedness and traits of statesmanship, they are on a higher plane than some other countries where politics are a little too much of an actuating influence.

A giant new mill for the manufacture of cellulose pulp from the heavy forests along the coast and river valleys of northern B.C. has recently been opened a few miles from Prince Rupert. This event the Prince Rupert Daily News, in an excellent special edition to mark the occasion, heralds as the beginning of a new era for the city. In this new era, a part of the vast industrial expansion which is taking place across Canada, Prince Rupert may find its moisture the symbol of its progress.—Saskatoon Star-Phoenix.

Scripture Passage for Today

"Where your treasure is, there will your heart be also."
—St. Matt. 6:21

Mr. and Mrs. W. M. Martin and Prince Rupert for Duncan, Vancou, Reg. and daughter, Eliza—couver Island, where they will beth, are sailing tonight on the take up future residence.

Let's Smile

Are people in this town really as downcast as they would have us think? I look out the window very early in the morning and see men staggering to work and at about five in the afternoon I see them staggering home again. It makes one think of the feudal days in England when the serf got up at dawn, worked until sunset for his master, and then carried himself home too tired to do anything but fall into bed (if he had one). Even with the international situation as it is we hardly have the excuse to assume the characteristics of a serf. But watching the people go by, many of them seem half-way in the grave.

Could life be that dark? There's always a brighter side of things. Think of the weather, for instance.

I was told yesterday that I have a very sadistic view. The person said: "Do you really think everyone is going to be killed off?" Well, while optimism might very well be disastrous I don't believe that such a thing will come to pass. Anyway, except for Korea there is no war in which we are immediately involved. Or look at it this way: There are many people in the world who deserve to be shot; maybe another war would eliminate the necessity. And as a person said to me the population of the world is developing beyond our means to feed it in our present predicament. A war has its possibilities. However, this was not my idea. Though it may be practical, it is just a trifle cold-blooded.

But anyway it could be much.

ray... Reflects and Reminiscences

YES! HOW ABOUT IT?

The expression "GI" has been ruled out so far as the United States Army is concerned. This appears officially in Liaison Bulletin 242. In the future, one will be required to refer to a soldier as a soldier. This will be quite a twings for "GIJoe." It's slang, of course. But where is the army without its sideline of informal speech? How about T. Atkins, gorbline?

STRICTLY AN AMATEUR

They were chatting of things in general and, of course, Alcan was not neglected.

"Think of it," remarked the visitor. "FIVE HUNDRED MILLION DOLLARS! Can you imagine an amount like that?"

"Can't," replied the local old timer. "Never had any practice."

Prospective home makers in Winnipeg should cultivate cold courage, after reading a questionnaire concerning apartment rentals. In the event of a family within three years there must be immediate cancellation of pre-

...ch worse. A cheerful smile on the way to work in the morning would help our morale considerably. Just think now, if this were Russia and not Canada... (Thanks to Gordie Graham) DICK KILBORN

Applewhaite on Fisheries

Talks of Sea Lions, Halibut, Japanese and Aluminum

OTTAWA (Special to Daily News)—When the House was discussing Fisheries Department estimates just before the closing of the session, Edward T. Applewhaite, member for Skeena, was critical of the reduction in the funds allotted for destruction of seals and read to the House a resolution of the Prince Rupert Fishermen's Co-operative asking for a vigorous policy of destruction of sea lions.

Fisheries Minister Mayhew replied that the department intends to initiate such a campaign in B.C., having found that bounties alone are not sufficient to meet the menace.

Applewhaite also spoke on the halibut season and commended the department and the International Fisheries Commission for their action in providing two experimental areas where later halibut seasons were being opened this year to ascertain whether or not certain fishing grounds are not being exploited at the proper season.

The Skeena member also urged the Canadian government to take every possible action to assure that, when peace with Japan is formally signed, adequate steps be taken to assure that Canadian and American conserved waters are not exploited by Japanese fishermen.

In this connection Applewhaite referred to an article by Edward W. Allen, chairman of the International Fisheries Commission, in a recent issue of the American Journal of International Law in which Mr. Allen

expressed some fear that full and adequate protection might not be given.

The B.C. member also referred to the plans of Aluminia Co. of Canada in hydro-electric development in Central British Columbia and read into the records of the Commons a resolution on the subject by the Prince Rupert Fishermen's Co-operative. He urged assistance to new industry but full protection for the existing salmon industry.

BOTTLE-FED BABIES

If your baby is bottle-fed, be sure to watch little bowels closely. Mother's milk has a natural laxative effect which helps take care of baby's need. Lacking this, a bottle-fed baby often gets fretful, feverish and suffers constipation and upset stomach. Let Baby's Own Tablets help you keep baby's bowels on schedule—sweeten upset stomach—relieve feverishness and teething troubles. No "sleepy" stuff—no dulling effect. Easily crushed to a powder, if desired. Don't let your baby suffer—get Baby's Own Tablets today at your druggist. Only 50c.

mises, willingness to pay three or six months' rent in advance, entertain only in moderation, and be prepared to pay \$80 a month for a three-room suite. Entertainment will be in moderation, all right, all right.

Yesterday was the Fourth of July. Chinese Generals tell General Ridgway they are prepared to discuss peace in Korea! What a golden opportunity for a few pithy remarks from General MacArthur!

The Old Age Pension Board of British Columbia ask \$60 for all persons of sixty, no charge against an estate, free hospitalization, free medical, dental, optical and hearing services, pension authorities given power to accept evidence of age of applicants from relatives and others, free use of cortisone and cheques two days before the end of each month. It's just as well to go over it again. As a rule, something is always missed.

DOESN'T ALWAYS WORK

Premier St. Laurent, accepting Mr. Drew's explanation of the three days' sharp dispute with the Minister of Trade, succeeds in burying the hatchet with considerable aplomb, and Parliament becomes amiable again. "A little spice," he reminds the House, "does no harm." Just so. Too bad it can't be applied with equal smoothness in wider international zones.

You can afford to say

Decker Lake Anniversary

DECKER LAKE—Decker Lake celebrated its semi-centennial when the early pack trains gave place to the modern cars hailing from points between Mexico and Alaska and from Newfoundland to the Queen Charlotte Islands. Finnes of the Mannix Construction engaged in the construction of the huge dam of the Alcan Company were constantly overhead and local fliers landed their planes in the sheltered waters of Decker Lake.

The Mounted Police were in attendance, adding to the eclat of the occasion. They congratulated the various committees on the maintenance of perfect order.

A giant Scandinavian named Emmet Carlson represented the Canadian Legion, playing the part of Paul Bunyan to perfection. He swung a huge axe with an eight-foot shaft and twelve-inch bits with easy nonchalance.

In the log bucking contest a power saw operated by Ot. Miller of Decker Lake, took an 18-inch cut from a newly fallen spruce tree in forty-six seconds, but his time was discounted when Halvor Eide, backed up by Piper Bart, drove a cross-cut saw through the adjoining cut in 22½ seconds. Then the muscular Piper of the Highlanders saving alone, tore the eight-foot

cross-cut saw through the next section of the big log in forty-one seconds as against the time of the power saw of 46 seconds, to prove, as he stated, "the supremacy of man."

The occasion was featured by the official opening of the Decker Lake Saw Mill, "the most modern in the Central Interior," and Sievert Anderson, pioneer timber man, was congratulated by William Saunders, of Palling, on his ability to gather such a crew as experts as headed by Oliver Stalder who pulled the lever that started the first log to go through the mill to come off at the loading platform as finished lumber.

Tooth Decay

... help prevent it

DURING CHILDHOOD ... FOR THE YEARS AHEAD!

AMMONIATED LISTERINE TOOTH PASTE
... designed to help prevent decay 3 ways!

In preliminary tests conducted with this famous formula at the University of Illinois Foundation, case after case of reduction in the incidence of tooth decay was reported. No wonder it has caused such interest in dental circles! Now the manufacturers of Listerine Antiseptic make this same formula readily available to you and to your family.

Use Listerine Ammoniated Tooth Paste regularly, as directed, morning and night and right after eating. Lambert Pharmaceutical Co. (Canada) Ltd., Toronto.

1. Chemical action reduces mouth acidity. Mouth acidity encourages decay.
2. Mechanical action cleans faces as teeth are brushed—helps break up and remove decay-breeding deposits.
3. Chemical action checks acid-forming bacteria—a major cause of decay.

This Nurse Is Versatile

REGINA — Pulling teeth and delivering babies are all in a day's work for Nurse Glenna Beckham.

She lives just 150 miles from the Arctic Circle at the nursing station in Fort Norman, in the Northwest Territories, and since the nearest doctor is 300 miles away, she has to handle all phases of medical work except serious emergencies.

A native of Brantford, Ont., and a graduate of the Brantford General Hospital, Miss Beckham is one of 25 white people in Fort Norman. The rest are mainly Indians (Eskimos rarely migrate inland from the Arctic coast).

"Tuberculosis is perhaps the greatest problem among the Indians," she says, "because they seem to be particularly susceptible to it."

"Then too, the close contact between one another in their homes causes the disease to spread rapidly."

The X-ray, says Miss Beckham, has not been very successful because the Indians have the idea it is the X-ray machine that causes T.B.

"According to their line of reasoning, they didn't have it before they were X-rayed," she says.

Schooling Indian youngsters is a problem, too, because most of the Indians earn their living by trapping and usually take their wives and children with them on hunting expeditions.

Northland summers aren't much different from summers in the rest of Canada—average temperature is 80 to 85 degrees—except there is almost 24 hours of daylight from May until the end of July.

Moose Publicity Women's Session

Final meeting of the season of the publicity committee of the Women of the Moose was held at the home of the chairman, Mrs. G. Robinson. After a brief business session, cards were enjoyed. First prize winner was Mrs. McDougall while consolation award went to Mrs. A. Hamilton. Present were eight members and one guest—Mrs. McDougall, Mrs. Hamilton, Mrs. Morrison, Mrs. Matson, Mrs. Taylor, Mrs. T. Glenn, Mrs. G. Robinson and Miss Sylvia Johnson.

DOOR PRIZE WINNER
D. Thorey was the winner of the \$100 door prize at the Civic Centre's Exhibition last night.

Library committee of the Women of the Moose, at their final meeting until fall, enjoyed cards after a business session. Four members and four visitors were present and prize-winners at cards were visitors. Attending were Mrs. E. Blais, Mrs. H. Paulson, Mrs. O. Tweed, Mrs. Harold Muncy, Mrs. J. McDougall, Mrs. Good, Mrs. M. Blair and Mrs. C. M. McRae.

Timely RECIPES

BAKED BEAN AND PORK CHOP CASSEROLE

1 20-ounce can oven-baked beans in tomato sauce or with pork and tomato sauce
½ cup chopped onion
½ teaspoon salt
2 tablespoons tomato ketchup
3 medium size pork chops

Heat oven to 350° F. Combine first 4 ingredients into 1 quart casserole. Brown pork chops in skillet. Place on top of beans. Bake, uncovered, in moderate oven (350° F) 1 to 1½ hours or until meat is tender. Makes 3 servings.

Music, Physics In Bottle Band

SWIFT CURRENT, Sask. (CP)—An old aluminum teapot and a pile of soda-pop bottles are the mainstays of Swift Current's unique "bottle blowers' orchestra."

They aren't a commercial music-producing aggregation, but 27 school pupils whose principal, Kenneth Aberdeen, thought a pop-bottle orchestra would be an economical method of teaching his pupils music and physics.

Using small medicine bottles, ordinary-size pop bottles, and quart-size pop bottles (the "bass" section) for accompaniment, the youngsters supplement the musical group with tonettes, an auto-harp, drum, and a set of melodic bells.

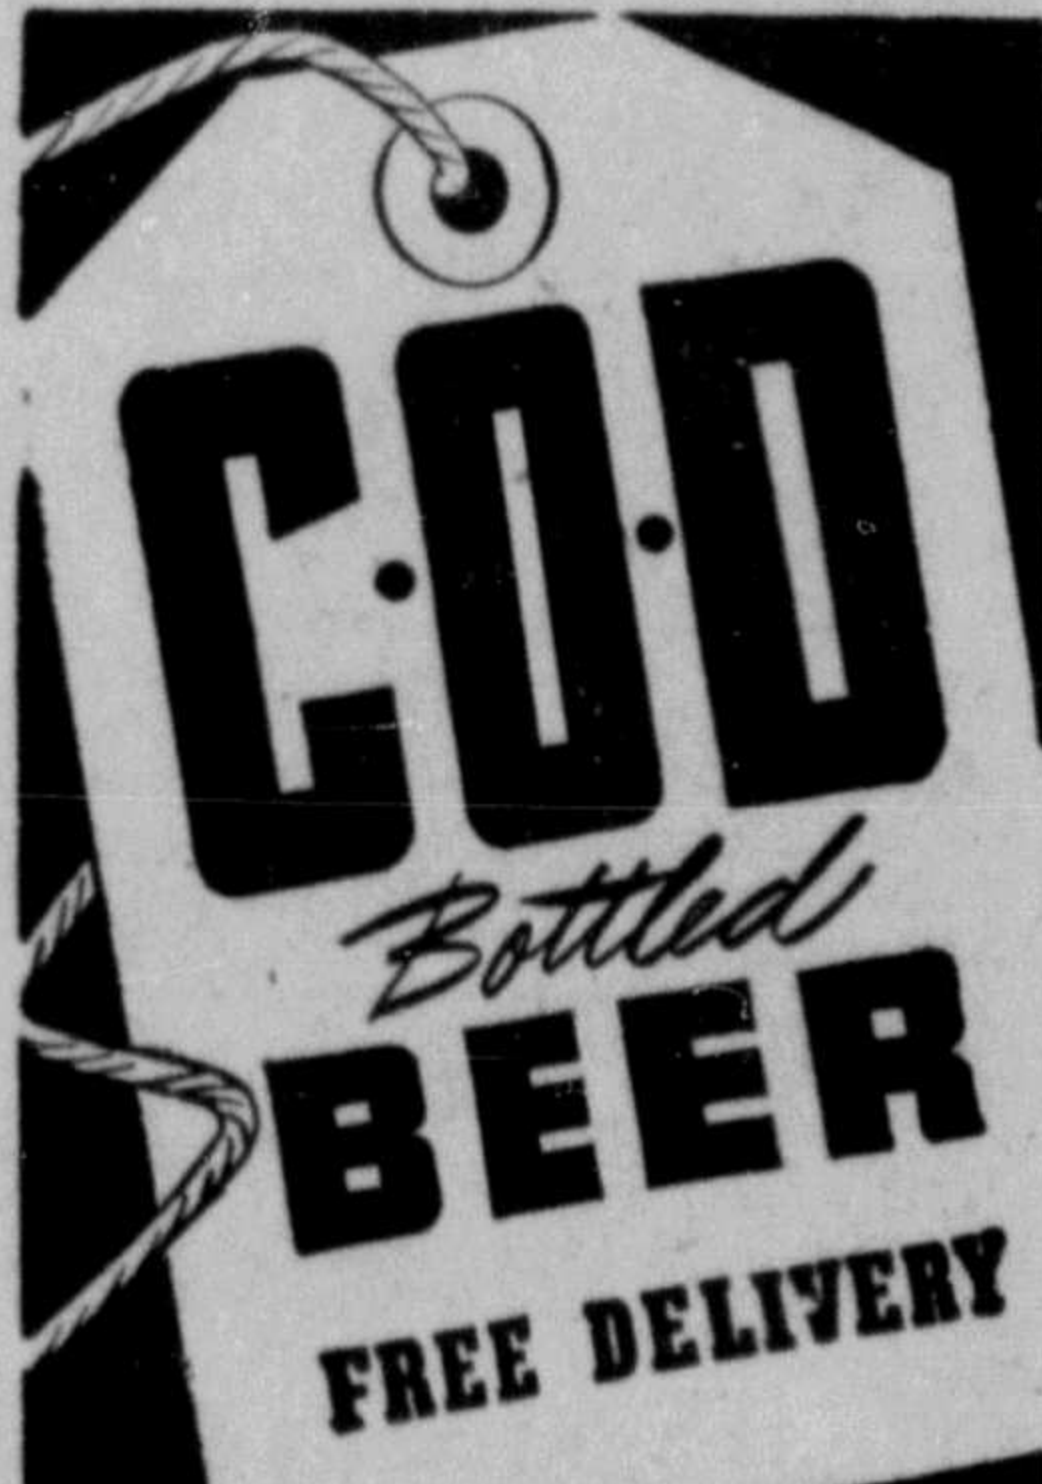

Each bottle is filled with colored water to a different level, producing a musical note when the player blows into the top of the bottle.

The bottles are tuned to the school piano before each performance, the "timers" using a water-filled teapot to fill the instruments to the right level.

All musicians play from music. Mr. Aberdeen says the orchestra actually teaches the pupils more than to read music. It teaches each student how musical notes can be obtained by the length of an air column in a bottle by adding or subtracting water from the teapot.

Thus the children have learned the principles of such wind instruments as the pipe organ.

Saskatchewan's school supervisor of music, R. J. Staples, calls the "bottle blowers' one of the most remarkable orchestras he has ever heard.

Sam Snead Pro Champ

OAKMONT, Pa. — Sam Snead, West Virginia silky-stroking hill billy, climaxed one of the most spectacular sub-par strokes in golf history Tuesday to

smother Walter Jenkins of Franklin, Michigan, 7 and 6 for his third professional golf association championship.

It was the second worst defeat recorded in thirty-three Professional Golf Association finals, being outranked only by the humiliating 8 and 7 licking Snead took from Paul Runyan in 1938.

Ben Hogan, who decided his

legs would no longer carry him in this event, trounced Mike Turnesa 7 and 6 in 1948.

When Snead closed the door on the popular pug-nosed battler from Michigan on the thirtieth hole, he was 22 under par for 166 match play holes over the Oakmont course whose par 37-35-72 has withstood prolonged assaults for years.

Fred Scradden, at today's weekly luncheon of the Prince Rupert Rotary Club, gave a report on a recent regional conference in Nanaimo from which he returned yesterday. There was also an autobiographical talk by Harold Thom, a new member. President A. B. Brown was in the chair.

Prince Rupert Daily News

Canada Golf Open Now On

TORONTO (CP)—A steady parade of traffic almost cluttered up the Mississauga Golf Club course while some 185 entrants in the 1951 Canadian open golf championship sharpened their shots.

The value of practice rounds was somewhat dissipated when Lou Ford of Briarcliffe, New York, who started pre-tournament peckers Monday with a sensational 61, wound up ten strokes higher Tuesday against a par 72 lay-out.

Earl Stewart of Dallas, Texas, went around in 65.

The competitive record for the course was set by Ben Hogan in 1941. The 1951 United States open winner is not here to aim at that mark again but the title still shapes up as a wide open affair.

The American contingent gets the nod.

Part of the coastal area of British Columbia is below sea level and intersected with canals.

PRINCE RUPERT
AND RECORDING DISTRICT
TAKE NOTICE that Columbia Cellulose Company Limited, of Watson Island, B.C., Cellulose Manufacturers, intends to apply for a lease of the following described lands:

Commencing at a post planted on the high water line at about seven feet six inches Easterly of the S.E. corner of Lot 7386. Thence following the high water line or the South boundary line of the Canadian National Railway right-of-way, as the case may be, in a South Easterly direction a distance of approximately FOUR THOUSAND FIVE HUNDRED FEET to large white triangular beacon at North entrance to Inverness Passage, thence South 58° West a distance of THREE HUNDRED AND FIFTY feet, Thence Northwesterly to the high water line on the S. Easterly extremity of Stapledon Island, thence Northerly a distance of FOUR HUNDRED FEET, Thence to the South West corner of Lot 7386 a distance of approximately ELEVEN HUNDRED FEET, Thence North 47° East a distance of TWO HUNDRED AND NINETY TWO FEET SIX INCHES to the point of commencement. The above containing FORTY acres more or less, to be used for storage of logs in transit to Watson Island.

The purpose for which the lease is required is for log storage.

Sport Shorts

The Canadian Sports Monthly says golf caddy "is becoming a lost art."

An editorial quotes Jules Huot, professional at Laval Golf Club in Montreal, as saying: "Caddy needs to be re-sold among kids and parents. The whole affair must be organized as a modern employment system."

Huot pointed out, the article continues, "that there are three types of caddy: 1) The regulars—everyday boys; 2) Week-end and holiday boys; 3) Schoolboys." Sports Monthly says Huot found that caddies at Laval made as high as \$250 during vacation in period with bonuses of up to \$1000 available to top caddies. A "wetness bonus" of 50 cents is also paid to caddies at Laval when they get wet in severe rain.

Veck Takes Over Browns

ST. LOUIS (CP)—Bill Veck, the man with the golden touch who combines fireworks with baseball, celebrated the Fourth of July holiday assured of ownership of the St. Louis Browns.

Veck, who brought winning baseball to Cleveland and crowds out to see it, clinched the deal Tuesday night twelve hours before the deadline he had set for acquiring 75 percent of the Browns' stock.

Wilt Clements, former St. Louis lightweight boxing champion, says poor management is responsible for many ring deaths. "It's a wonder there aren't more fatal accidents," he said. He said many promising young fighters are not properly handled, especially after bouts have begun. Clements, who also has acted as referee, said also that many young boxers are being booked in preliminary bouts and tossed into the ring with practically no help or support from their corner. Clements said, in that way, licence trainers and second men would be allowed to second fighters.

For Action Advertiser!

Why was Co-Insurance Started?

1. To control abuse of hospital benefits and therefore help relieve the bed shortage.
2. To keep premiums as low as possible by charging a small sum to those who actually receive benefit.

One of the main problems in any hospital insurance plan is that some people will abuse the benefits. They will go to hospital when they don't need to, and will stay longer than they should. This situation results in overcrowding of hospital beds, and increased costs. Co-insurance was started to help control this situation.

Co-insurance is designed to reduce the patient's length of stay in hospital and thereby make more beds available, and in the long run reduce costs. Unfortunately there are some people who, because they pay a premium, feel that they are owed something that they can only collect by occupying a hospital bed for as long as possible. People who pay fire insurance do not want a fire, nor when they pay automobile insurance do they hope for an accident. In each case, the insurance is protection against something which is hoped will never happen.

Hospital Insurance is protection against the expense of future illness. A protection, however, designed for those who are really sick and not for those people who wish to enter hospital on any excuse solely because they paid a premium. Hospital accommodation is intended primarily for those who need skilled professional care.

The co-insurance rate is determined by the hospital's public ward rate, and ranges from \$2.00 to \$3.50 a day, for the first ten days of hospital stay. The most any individual or family group (which includes all listed dependents) will pay in co-insurance for any single year is limited to ten days co-insurance charges. Regardless of how often a person (or his dependents) may go to hospital in any one year, only a total of ten days co-insurance may be charged.

In addition to controlling abuse, co-insurance will help to raise money to pay for the higher hospital costs. Without it, premiums would be even higher than they are today. With it, the highest standard of care can be given at the lowest reasonable cost to everyone by making a small charge to those persons actually receiving benefits.

It is the wish of the government to keep operating costs of the plan, and also premiums, as low as possible. Co-insurance will help to do this.

The next article in this series will deal with the question "What are the facts of the hospital bed situation?"

Be sure to read these messages. They deal with your Hospital Insurance plan—a plan which has already paid over \$40,000,000 for more than 500,000 hospital cases, and is providing benefits for thousands more each month.

Citation Is
Winner Again

INGLEWOOD, Cal. (P)—Citation yesterday won the \$50,000 American Handicap at Hollywood Park. Time for the 1 1/8-mile romp was 1 minute 48 2/5 seconds.

Citation's stablemate, the mare Bewitch, was second by one-half length with Sturdy third.

The victory, cheered wildly by a holiday crowd of 54,300, boosted "Cy's" earnings to \$785,705—still short of his goal of \$1,000,000.

Mr. and Mrs. Peter D. Allen, with their little son, Denny, and daughter, Brenda, left yesterday on their return home to Victoria after a two weeks' holiday with Mrs. Allen's parents, Mr. and Mrs. W. Whiffin. They were accompanied by Mrs. Allen's niece, Miss Carol Wick, who will spend the summer holidays with them.

Local Family on
Trip to Norway

Mr. and Mrs. I. T. Fossen and two children, Ivar and Shirley, leave on Monday night's train for a three months' holiday trip to Norway. Stopping over at Prince Albert, Saskatchewan, for a few days, they sail from Montreal July 18 on the steamship Ascania, via England.

Mr. Fossen has been away from his native land 22 years. His home is at Loiten, in the province of Hedemarken, 15 miles north of Oslo.

June Biggest Building Month
Here Since Second World War

Building permits for greater value construction than has been seen in any one month in Prince Rupert since the Second World War were issued locally in June.

And of the \$145,875 worth of building, Northern Properties Ltd. applied for the largest slice—\$100,000—for construction of 52 apartment units in the old United States Army administration building on First Avenue.

Next builders is Sheardown Bros. who are constructing a grocery store on Third Avenue for \$35,000.

Permit for the only new house was issued to Foster Husoy.

Balance of the permits were for repairs to homes.

Building permits issued in June, 1950, totalled \$35,805; for the year, \$349,832. Including June, permits for 1951 in Prince Rupert totalled \$240,300.

Balance of permits were issued to the following:
A. O. Morse, \$300, repairs; R. E. Roberts, \$100, repairs; J. Steinberger, \$1000, basement repairs; J. Ewart, \$300; R. E. Mortimer, \$500; R. C. Mutch, \$500; H. Knutson, \$275; A. W. Jones, \$500; A. Ogilvie, \$150; S. Balinger, \$600, and A. Leighton, \$250.

forty-two-foot seiner, was towed to Ketchikan from Behm Canal (Alaska) last week by the U.S. coast guard cutter Kimball. She had a burned out clutch. The boat is owned in Ketchikan.

Is Faster
And HigherNew Record by Supersonic
Aircraft

LOS ANGELES (CP)—A Douglas Sky Rocket, supersonic research plane, has flown "higher and faster" than any other known aircraft, the Navy has announced.

The accepted speed record is 670.981 miles per hour, established September 18, 1948, by the North American F-86.

A Bell X-1 in 1949 reported having reached about 1000 miles an hour for a brief period in its excursions into the range beyond the speed of sound. It travelled at altitudes of more than ten miles high.

The Navy said that the exact speed and height at which the swept-wing Sky Rocket has operated is being withheld for security reasons. However, Marvin Miles, aviator editor of the Los Angeles Times, estimated the plane's actual speed at just short of 1300 miles an hour.

Air Passengers

From Vancouver (Wednesday)—A. Johnson, R. Drayton, S. Dabner, S. A. Sanderson, C. L. Sarr, W. Drummond, Mr. Mulaney, Mr. Sargent, Miss R. Black, Mrs. N. Bussey and three children, Mr. Humes, T. Tapper, A. Kajanpoa, A. Sarich, R. W. McBride, A. Young.

To Vancouver (today)—J. C. Calhoun, L. F. Smith, Mrs. W. Lee, C. Kerr, A. Iverson, J. P. Jensen, Mrs. Jensen and three children, Mrs. Winterborn.

General in London
Visits Prince Rupert

A key official of British Columbia House in London, who has been twenty-six years in the service there, has been paying his first visit to the province he represents. He is A. J. Satchell, chief clerk to the Agent General for B.C., who spent yesterday in Prince Rupert.

Mr. Satchell, of course, has studied much about British Columbia and was familiar with all parts of the province through reading and pictures—"and," he told a Daily News reporter while here, "I have been finding things very much as I expected."

Even Prince Rupert was about as he anticipated—only he had the idea that the Skeena River actually lapped the shores of the city and was somewhat surprised to find that its mouth was actually about ten miles away.

"But I had heard of the natural beauty of the setting and your wonderful sunsets," he said, incidentally being treated to a beauty last evening while here.

Mr. Satchell had also heard of the new industrial era which was developing for Prince Rupert and the central interior through the advent of Columbia Cellulose and Aluminum Co. of Canada, and was even more impressed after his visit here during which he saw the fishing industry in action with visits to local fisheries plants.

F. H. Linzey, secretary of the Prince Rupert Chamber of Commerce, took him in tow and drove him around and courtesies of the Canadian National Railways were extended by Superintendent C. A. Berner.

Mr. Satchell also paid a timely visit to the Prince Rupert Exhibition and saw the industrial and natural resources display which was a revelation.

Mr. Satchell reached here yesterday on the Prince Rupert after a "wonderful" trip up the coast from Vancouver and left on last evening's train for Prince George where he will spend a couple of days. From there he will go to Jasper Park for a day and then to Montreal to sail for home on the Empress of France July 12. He has been six weeks in the province and, before coming here, visited Vancouver and Victoria as well as covering the southern interior districts and Vancouver Island.

"The trip has certainly filled up the gaps in my knowledge of the province," he said.

Mr. Satchell is a London-born Englishman.

Lt. Cdr. J. R. Golby, who has been staff officer at HMCS Chatham here, is sailing tonight on the Prince Rupert for Vancouver when he will proceed to HMCS Cornwallis, Halifax, where he has been transferred. Mrs. Golby and family, who have been visiting in Vancouver, will join him to also proceed east.

Retires After
Long Service

After a career touching on forty years with the Canadian National Telegraphs, thirty-seven years of which was spent in the territory between Prince Rupert and Terrace, L. J. (Jimmy) North is now holidaying at Terrace pending retirement on superannuation.

Before leaving for Terrace, some forty or fifty associates of Mr. North in the railway service gathered at the general office where he was presented by W. A. Simmons, local telegraph manager, with a purse as a token of esteem and well-wishing. Suitable remarks were made by Mr. Simmons and Mr. North replied appropriately. There were telegrams from C. A. Berner, divisional superintendent, and C. A. Radford, telegraphs superintendent at Edmonton.

Mr. North entered the railway service at Watrous, Saskatchewan, but soon came to Prince Rupert about the time the railway was completed in 1914, and since that time had worked as linesman except for absence while serving overseas in World War I.

Mr. and Mrs. North and family will remain in Prince Rupert. They reside at 1926 Atlin Avenue, Westview.

Postman Dad
Makes June's
Stage Gowns

ROTHESAY, Scotland (P)—Dark-haired 21-year-old June Balmer, leading soprano in the summer show here, is noted for her voice—and her wardrobe. June has 17 lovely gowns for stage wear—cut, designed and made by her father, a postman in Stockport, Lancashire, who has made all her wardrobe since childhood. If June needs a special frock for any new theatrical part she writes dad giving details of style and color. Back comes the finished article in a couple of days and June guarantees it will fit to perfection.

The travelling public is hereby warned that, commencing July 2, 1951, and continuing from time to time throughout the summer, asphalt spraying operations will be carried out on the Northern Trans-Provincial Highway from Prince Rupert to Port Edward in connection with the forthcoming paving program.

It is important that travelers heed carefully all warning signs and flagmen for the benefit of themselves and the work.

Since no available detours exist a certain amount of inconvenience will be caused and motorists should be careful to keep their speed down to ten miles per hour when driving over fresh oil.

The Department cannot in any way be responsible for the removal of asphalt stains which may be caused from driving over the fresh oil nor for accidents which might occur due to the road being freshly oiled.

L. E. SMITH
Divisional Engineer.
