

# HUGE EXPENDITURES PLANNED BY U. S.

## More Than \$8 Billion Tax Increase Promised Americans

WASHINGTON (CP)—President Truman today called on Congress to boost taxes this session "very much more" than the \$8,000,000,000 commo-

total of the last two increases. Truman, in his annual economic message, notified congressmen that United States security will demand lending and

anding authority totalling \$10,000,000,000 for this fiscal year and the next. The present year runs out next July 1.

Mr. Truman said, "Corporations should pay much higher taxes. Excise taxes should be higher and more numerous." The new tax proposals will be submitted to Congress shortly.

**E. Gustafson Dredged Yesterday**  
Old-time rock blaster and president of the city water board for 25 years, Edward Eric Gustafson died yesterday afternoon at his home here. The funeral, expected Sunday, will be held by the Lutheran Church.

Mr. Gustafson, 78, was suffering from a heart ailment during his illness. He was succeeded by his daughter-in-law, Mrs. C. J. Gustafson, at 353 9th St. West. The only immediate next-of-kin, C. J. Gustafson, 66, succeeded Mr. Gustafson as water works superintendent in 1946. The deceased's wife died two years ago.

Mr. Gustafson had served in the Swedish Coastal Army and received his pilot's license in the Klondike iron mines in northern British Columbia.

Mr. Gustafson was employed with the city water board in 1914. Mr. Gustafson maintained the system of water lines in this city from the inception of the Woodsworth Lake line. He succeeded the late Ralph Gustafson as superintendent of water works.

Most of the rock work and dredging done in city construction was taken in sub-contract by Mr. Gustafson.

**Diefenbaker Is Defence Counsel**  
VANCOUVER — John Diefenbaker, prominent Progressive Conservative member of Parliament from Saskatchewan, has been engaged to defend Alfred Arthur Atherton, former Canadian National Railways operating at Red Pass, who has been charged with manslaughter arising out of the Canoe Pass collision last November between a passenger and troop train when 15 persons were killed.

The case will cost Diefenbaker \$1500. He has agreed to practice law in British Columbia.

A preliminary hearing will be held at Prince George.

## Rotary Banned To Catholic Clergy

Vatican City (CP)—Roman Catholic clergyman were forbidden yesterday to belong to Rotary Clubs and laymen were warned to follow the canon law in regard to members.

The ban was disclosed with publication in the Vatican's newspaper, *L'Osservatore Romano*, of the decree by the supreme congregation of the Holy Office, which Pope Pius heads.

Reasons were not stated. A spokesman of Rotary International was mystified.

It is believed it is aimed at European and Latin American countries, where Masonic connections have been attributed to Rotary Clubs.

The decree, it was reported today also affects Kiwanis, Lions and similar service clubs and societies. It is specific regarding clergyman and reiterates that laymen associate themselves with Catholic or church-sponsored organizations.

There is a possibility, however, the decree might not apply in United States and Canada, but there is no official confirmation of this report.

Rotary's international president is Arthur Lageux of Quebec, who is a Catholic.

He said Rotary is not secret, nor does it seek to supplant any religious or political organization.

Don Barber, Port Arthur, Ont.; L.Cpl. Bill Cornwell, London, Ont.; L.Cpl. Ken McCleish, London, Ont.; and L.Cpl. Max Guyitt, Bridgetown, Ont. (CP PHOTO)

## Air Strikes And Barrage Break Communist Strike

TOKYO (CP)—Blistering Allied air strikes and artillery barrages crumpled a Red Korean attack near Wonju today. But another Communist force hitting 30 miles behind this Allied position threatened the entire United Nations stand in central Korea.

The deep-striking Red column skirted the American-French-Dutch line in the Wonju area. It fought several sharp clashes with Allied patrols on the approaches to Tanyang, 37 miles southeast of Wonju.

The flanking Reds set up a road block, mined a vital supply highway and poured a hail of small arms fire into the Allied force sent out to clear the route.

Two North Korean divisions—the 8th and 10th—are ramming a deep wedge into UN positions in central Korea. Possibly 20,000 Communist troops were in this force.

Immediate peril in the Wonju area eased as the day-long Allied air strikes and artillery barrages routed two Red Korean regiments which had seized a commanding height Thursday night.

Fighting raged in foot-deep snow and bitter cold. Allied planes, including big B-29 Superforts, rarely used on tactical missions, sowed heavy explosives and fragmentation bombs, machine-gun fire and jelled gasoline into the Red positions.

## Deal On Alice Arm Properties

Mining properties in the Alice Arm district are commanding attention again and at least two have been sold of late. These are Miles Donald's Sunrise and Standard groups of silver-lead-zinc claims in the Illiance Valley. Three payments have already been made. (Ald. George B. Casey of Prince Rupert has holdings nearby.)

Negotiations are also on in Vancouver now for the sale of Oscar Flint's Silver Bell group to New York interests.

The well known old La Rose mine in the Kitsault Valley, which one time shipped ore profitably, is also reported to be the subject of still another prospective deal.

## Valorous Feat of Navigation By R.C.N. Destroyers In Korea

WITH THE CANADIAN DESTROYERS IN KOREAN WATERS.—In the United Nations fleet operating on the west coast of Korea, one of the principal subjects of conversation continues to be the feat of navigation performed by a UN destroyer force under the command of Captain J. V. Brock, D.S.C., R.C.N., of Winnipeg and Vancouver, during the withdrawal from Chinnampo early in December.

The destroyers—three Canadian, two Australian and one American—covered the withdrawal of more than 8400 military and civilian personnel and a quantity of valuable equipment from Chinnampo, in the face of onrushing Communist forces. When the withdrawal was accomplished, three of the destroyers stayed behind to shell and destroy important installations in the port.

The destroyers and other UN ships had gathered in the approaches to Chinnampo, some 40 miles from the city, to assist in the withdrawal when an urgent message was received from the commander of the transports loading in the port. He required immediate gunfire support to seal off the city and protect the withdrawal from threatened enemy attack.

Captain Brock, as senior destroyer commander, immediately convened a conference of destroyer captains and staff officers and made plans for the voyage.

Captain Brock's ship, HMCS Cayuga, led the way. In pitch darkness, hampered by winds and strong currents, the Canadian destroyer picked her way through minefields and past treacherous shoals and mudbanks.

It took her four hours, and during this period the Cayuga's navigating officer, Lieut. Andrew Collier, R.C.N., of New Westminster, fixed the ship's position 132 times. By doing so he kept a constant check on the Cayuga's position and was able to pass to Captain Brock a continuous flow of information needed to direct the ship's course. This information, in turn, was passed to the ships following astern.

TRICKY NAVIGATION  
The darkness, absence of lighted buoys and uncertain location of the few markings that could be seen forced Lieut. Collier to depend mostly on the ship's radar in fixing her position. He practically wore a path between the radar set and his chart table.

Able Seaman Bill Kebece of Inglewood, Man., who was working in the plot room with Lieut. Collier, said later: "It was asking for trouble to be anywhere near the radar set or the chart. (Continued on page 6)

## Legion Asks Branches To Demand Reserve Service

OTTAWA (CP)—The Canadian Legion, voice of 300,000 veterans, sent out a signal today for a nationwide blitz campaign designed to overcome cabinet objections and to bring compulsory military service into effect in Canada. Dominion Command called on all branches to besiege members of Parliament with

demands for compulsory part-time training in the reserve forces.

The Legion memorandum, sent to all branches, claimed a "serious shortage of ships, planes, and equipment and even boots and

clothing, as well as the admitted absence of adequate organization necessary to any appreciable expansion of the reserve forces."

## Emil Haugland Re-elected Commissioners Chairman

TERRACE.—Emil Haugland was again unanimously elected chairman of the village commissioners at Wednesday afternoon's meeting, the first one for the new five-man commission, attended also by Commissioners Little, Osborne and Lambley. Illness in hospital through an eye infection kept Commissioner

Kirkaldy away. Village Clerk A. J. Harmon, because of the heavy increase of work, was granted an increase in salary.

The new commissioners were welcomed by Mr. Haugland, who expressed the hope that they would all work together for the benefit of the village.

A step toward economy was taken when it was decided to hire Len "Curley" Casey (who was called into the meeting) as full-time maintenance man on salary. His duties will not interfere in any way with his duties as fireman in charge of the fire hall. This action was taken following the reading of the bills which included several accounts for essential services to the village. Large sums of money have been paid out each year in this way during the past years and it was felt that the time has now come when these services could be taken care of much more satisfactorily and at much less cost by one man. In order to eliminate confusion of orders, the commissioners decided that Mr. Casey's schedule of work would be given to him daily by the village clerk and no one else.

Correspondence dealt with included a letter from Hon. E. T. Kenney with good wishes to the village commissioners for the coming year. Through him, also, it was learned that the Board of Village Commissioners Act is up for review. He also sent word concerning the speedy handling of the aged. At present, proper statutory forms must be filled out, with two doctors certifying the mental state of the aged

## British Subjects Told To Register

HONG KONG (CP)—All British subjects in Hong Kong—men and women—today were ordered to register for military service by February 1. A government spokesman said the decision was made "in the light of the world situation," but that no immediate call under the emergency ordinance was expected. Unemployment has grown here with reports that Chinese Communists have massed 45,000 soldiers on the border less than 80 miles to the north.

## Gravediggers Drafted To Handle Influenza Dead

MANCHESTER (CP)—Extra gravediggers were drafted to cemeteries here to bury victims of the violent influenza epidemic sweeping the North of England. Reports that there have been 3000 deaths in Liverpool alone in the last two weeks have been denied by health ministry officials, who reported

only 90 deaths in that city in the week ending January 6. Meanwhile, burials at public cemeteries are being "telescoped" with ministers taking as many as five simultaneously.

Thousands of people are ill and more reporting sick every hour. There are long queues at doctors and druggists. The epidemic, the worst since 1918, threatens to cripple industry.

## Eisenhower To Visit Ottawa

OTTAWA.—General Dwight D. Eisenhower, commander in chief of the combined armies of western Europe and Atlantic Pact countries, will visit Ottawa February 1 to confer with Canadian military authorities following his tour of Europe.

### As I See It

#### By ELMORE PHILPOTT WHITE BOSS OUT

ON THE EVE of my rip to the Middle East and India it might be a good idea for me to give readers (especially new readers) my general interpretation of what is happening in Asia.

It seems to me that it is a mistake to classify the wars in Asia as a mere expression of the super-power struggle between the U.S.A. and Russia—though of course that is true of Korea, despite the fact that it is Russia's allies, and not Russians, who are doing the dirty work.

But on the most bedrock basis the great upheaval in Asia seems to me to centre around the truth that the long-sleeping Asia giant is saying "white boss get out."

FOR A FEW HUNDRED years what we call "the white man"—the pale pink, or dirty grey skinned human from northwestern Europe—got the jump on his fellows.

He never was a world leader before, in the long history of the human race. He may, or may not, be "boss man" in the future. But over a period of some four or five hundred years he became the virtual overlord of the human race because of a unique combination of circumstances.

The development of comparatively quick means of navigation (sail power, instead of oar power) coincided with the discovery of the globe shape of the earth. There were vast new continents for the white man to exploit. This he did because his gunpowder weapons were too much for other human beings to cope with.

The white man became world boss not because his civilization was superior to that of all the peoples he finally overcame. On the contrary, it became superior, economically because of the material wealth the white man gained in his conquests.

THE WHITE MAN teamed up with the brown man to enslave the black man. (Arab slave merchants actually captured the negro men, women and children who were herded to the coasts of Africa and sold to white slave ship masters). The white man's conquest of the brown skinned was more often by infiltration and political deals.

But the white man never did fully succeed in achieving overlordship of the yellow-skinned races. Japan showed an amazing facility to imitate the mechanics and techniques of the west. China was slower to wake up—but who can fail to see the handwriting on the world wall now?

Whatever else is certain this is: China which for thousands of years was one of the recognized main pillars of human civilization is destined to regain the proud place which she held for so long, and lost only for a hundred years or so.

ANYONE WHO THINKS that this revitalized giant, China, will long remain a bears-paw for Russia should have his head examined.

It probably was Japan's victory over Russia in 1904 which acted like a galvanic shock through all Asia. The yellow man had beaten the white man! All Asia learned that—given modern arms—she could tell the white boss to go home. Now all Asia has arms.

So Russia's present rules, may not be in the seventh heaven of delight about the proof of strength of the reborn Chinese giant.

Have you heard of Russia moving any of that vast Russian army from the Far East, over to Europe? If not, why not?

LIMIT SKI JUMPS OSLO — Thirty-nine out of 58 leading Norwegian ski jumpers have voted in favor of limiting ski jumps to a maximum capacity of 270 feet. Super jumps, they maintained, would threaten ski jumping as a popular sport by discouraging newcomers.

#### Daily Health Hint

Those who are careless about sneezing or coughing are among the world's top germ spreaders. Everyone should have cough and sneeze disposable handkerchiefs—this would help prevent spread of such diseases as colds.

## Russia vs United Nations

WHEN the United Nations Organization was formed, the supreme purpose was to prevent another world war. It was thought and believed that, as the three great world powers—Britain, the United States and Russia—had united and fought together to defeat the aggressor in two world conflicts, they would naturally and gladly combine to prevent a third. Britain and the United States put so much faith in that compact that they demobilized their military forces, scrapped millions of dollars worth of equipment and dumped tons of ammunition into the sea. They virtually disarmed themselves for any adequate defence and applied their resources and energies to the restoration of the war-shattered world, confident that they were entering a new era of peace for mankind.

Even though Russia did not demobilize her forces, but continued to strengthen them and thwarted every effort to arrive at a peace settlement, the western powers still held on to the hope that the Soviet government would eventually honor its pledge as a member of the United Nations. Why should it not do so, since that organization was intended as a bulwark of peace for Russia as much as for all other countries? What was the reason for the Iron Curtain? Why the veto? And why the cold war? The only answer to these questions was that Russia was in the United Nations under false pretences, and that the Soviet government had never any intention of co-operating for the establishment of world peace. The Soviet delegates were at Lake Success for the purpose of disrupting the proceedings, maligning the western powers and spreading communistic propaganda.

In spite of all this, the western powers displayed great restraint and the utmost patience, and the wonder is that they endured it so long. That restraint and patience have been regarded by Moscow as appeasement and a sign of weakness and fear. Whenever we have turned the other cheek to the smiter he slapped it with increasing vigor. When the Soviet delegates walked out of the United Nations' councils the doors should have been closed against their return. But they were received with open arms, although it was obvious that their absence was a ruse to avoid taking part in further discussion on the question of the admission of the Chinese Communists into the United Nations. Plans had already been laid for the invasion of South Korea, and the Soviet delegates did not want to be present at the UN when that took place, because they would have to veto any action against it. Moscow wanted to get the United States involved in a war with China, and Korea was the trap.

The only hope now is that the UN forces can retain a foothold in Korea and continue the war from the sea and air until the Chinese Communists come to their senses and realize that they are not fighting for China, but are being used as a spearhead for Russian Conquest of the whole of Asia. When they realize this there might be some hope of a compromise between Mao Tse-tung and Chiang Kai-shek. They are both Chinese and their followers are blood brothers. Millions of their fellow-countrymen don't know what the fight is about.

It would be a great thing, and the United Nations would be fulfilling its supreme purpose, if those two leaders could be brought together at Lake Success and resolve their political difference for the sake of the Chinese people, whose interests they both profess to have at heart. They have a historical example in the conclusion of the American Civil War, when the leaders of the North and South came together and the United States entered a period of reconstruction which resulted in the creation of the most peace-loving and progressive nation in the western world. By following that example, a United States of China could emerge from the present conflict as the greatest nation of the eastern world. China's only alternative is to become a slave state in an extended Russian Empire.

### Scripture Passage for Today

"If we say that we have no sin, we deceive ourselves, and the truth is not in us. If we confess our sins, he is faithful and just to forgive us our sins, and to cleanse us from all unrighteousness."—1 John 1:8-9.

FOR FOLIO TREATMENT—One of the most modern pools for physiotherapy treatment of poliomyelitis victims is included in the new Toronto Hospital for Sick Children, to be opened Jan. 15. The pool, 14 by 30 feet, ranges in depth from 15 inches to eight feet. The water is kept between 95 and 98 degrees by thermostatic control. Here two physiotherapists, Miss Marion Naylor, left, and Miss Mary MacTaggart, right, of the hospital staff, are shown giving exercises to two young patients. In the background is a hydraulic lift—believed the only one of its type in Canada—for placing the crippled patients in the pool. The public is invited to tour the building from January 15 to 20. (CP PHOTO)

## RAY ... Reflects and Reminisces

People living in the Sandspit area of the Queen Charlotte Islands complain they are unable to know what day it is because of inability to obtain a 1951 calendar. What are they doing? Like enough, in the autumn, they fish. And in winter, they do not hunt.

A fleet of mahogany fishing vessels is about to be built in Vancouver. Being cheaper than cedar, the mahogany was imported from the Philippine Islands. This may be setting a precedent from the economic standpoint. A wage raise might seem to be the proper course to follow. Mahogany is a stylish if not exclusive sort of wood, with historic past. It will never do to have the inferiority complex show its weather beaten face.

Since December, fifty daily papers in the United States have raised prices on mailed and delivered copies. Increases averaged five cents. And to this may be added the L'Evening-Journal, French morning publication of Quebec. Saure-Bieu!

For reaching and earnest continue efforts to prevent the outbreak of war. In deed, there is already a suspicion that a movement like warfare has already developed somewhere across the Pacific. What gives the story an air of credence is the rumor of renewed disputes between correspondents and highly-placed officers in the service of the United Nations.

Today is Friday, January 12. It could have been a shade more disturbing.

The deputy sheriff of Brighton, Colorado, tells this one with relish. Noting a man struggling to board a car, he suggested to him that surely it was not his intention to try and drive. "You just bet it is," said the drunk, "for God knows I'm in no shape to walk."

## Scientists Join Stem Rust Fight

Ottawa — Scientists in Canada and the United States are mobilizing to fight a new attack of stem rust threatening to bring disaster to wheat crops in both countries.

Dr. F. L. Drayton, Association of Dominion Botanists, said the

Fungus growth that damages part of Manitoba's crop last year is now expected to spread to other parts of the prairie this year.

The 1946 stem rust destroyed about 100,000,000 bushels of wheat in Canada.

Six carloads of frozen wheat were shipped from Prince Rupert Thursday night, four by rail and two by boat.

**BACK TO WORK**—Arthur J. Reaume, is sworn in as mayor of Windsor, Ont., by city clerk C. V. Waters, after he regained the post in a mayoralty election recount that reversed an election-night decision. Thomas R. Brophy was originally declared the winner by 38 votes. City council ordered a recount, however, and Mayor Reaume was re-elected with a majority of 16 votes, to continue his 10-year hold on the office. (CP PHOTO)

**Pioneer Settler Cashes In On Kitimaat Homestead**

Rudolf Braun Lives To Hit the Jackpot — Sells One Parcel for \$10,000 and Still Has Another

Little did Rudolf Braun, who homesteaded at lovely Kitimaat in 1913, and remained there until 1939 farming in a small way and bringing honey, vegetables and dairy products by gasboat to market at Prince Rupert, think that one day his land might be the jackpot of a townsite development in connection with Canada's greatest industrial project. But such appears to be the possibility today as the Aluminum Company of Canada prepares to instal a \$500,000,000 plant which will be the basis for a new British Columbia city of an estimated 50,000 population.

Braun has been the owner for those 37 years of two 40-acre parcels of land, one an original pre-emption and a second piece a mile away which he acquired by purchase. The latter he recently sold to a syndicate for \$10,000. He admits that he is prepared to sell the other parcel for a like amount but "I am in no hurry," he confided to a Daily News reporter in the course of conversation about Kitimaat's bright prospects.

Nobody seems to have much idea yet as to just where Aluminum Co. of Canada will locate its great mill and establish its townsite but Braun believes it will be at or near two-mile-long Minette Bay at the head of Kitimaat Arm and just to the east of the mouth of Kitimaat River. It is on Minette Bay that Braun has his property, close by the original Kitimaat townsite which was laid out back in the days before World War I when Lord Rhondda, the Welsh coal baron planned opening up the Groundhog coal fields and Mackenzie and Mann talked of building a railroad to Kitimaat via Terrace. Those were among the projects which faded when war came, to the world in 1914 and dealt a body blow to the industrial development of northern and central British Columbia for 35 years and from which it is only today beginning to recover.

The rocky shores and the moderately deep and safe waters of the head of Kitimaat Arm are well adapted to harbor development, says Braun, although in the immediate vicinity of the mouth of Kitimaat River it silts up and dredging would be required.

Recalling the early days of Kitimaat, Braun tells of one distinguished visitor who once went

there when big industrial developments and railway construction were planned. This was no less a person than Andrew Bonar Law, the Canadian who was destined to one day become Prime Minister of Great Britain.

Kitimaat, while considerably inland up its long channel, has fairly moderate climate. Five-below zero was the lowest temperature Braun ever experienced there and the average annual rainfall is about 80 inches—about the same as Prince Rupert.

Kitimaat has everything for the development of a city, says this pioneer, Hirsch Creek, a substantial stream which flows into Kitimaat River a few miles from the mouth, is admirably fitted for damming as the reservoir of adequate water supply. Electric light and power would, of course, come from the big Kemano River power plant which is an integral part of the whole aluminum project.

In 1939 Braun lost his farmhouse by fire. Kitimaat seemed to have little prospect of amounting to much then, so Braun moved to Prince Rupert and built a new home on Digby Island at Crippen Bay where he has since lived. However, he retained his Kitimaat holdings and is glad, of course, that he did so. He already has \$10,000 cash in his pocket and that is only half of the jackpot.

**Tiny Tots Class Still Growing**

The Tiny Tots class at the Civic Centre is growing by leaps and bounds. Ten new members joined the first class during the new year January 3 and 13 last Wednesday, bringing the total enrolment to over 100. Wednesday's class saw a turnout of 90.

The wide variety of activities keep the young minds and bodies active all during the afternoon. Leader Mrs. Don Forward said yesterday the children are well behaved and never cause trouble. She said there are no bad children and if they are kept interested and occupied they will not get into trouble.

Activities for the Tiny Tots include singing games, music appreciation, imaginative play under Mrs. Emil Blaine, a character-building story and under Miss Gloria Sather, dancing and marching, simple acrobatics and simple gymnastics.

Other leaders are Mrs. R. Macbrnis, Mrs. A. Boas, Mrs. F. R. Peagan, Mrs. Viola Anderson, Mrs. Bergman and Mrs. J. Bowman, pianist.

In the marching and dancing classes the children have learned to march to music, the Hansel and Gretel dance and the Looby Loo. They are starting on the Shoemaker dance. They plan on a recital toward the end of March.

**SOCIAL AND PERSONAL**

J. T. Harvey sailed last night on the Prince George for a brief trip to Vancouver on legal business.

Don Arney sailed last night on the Prince George for a trip to Vancouver.

● **ELKS MEETING**, January 17, POSTPONED to January 24. Oddfellows' Hall, 7:30 p.m. (11)

Mrs. J. C. Henkel of Francois Lake arrived in the city on last night's train from the interior and sailed on the Prince George for Vancouver.

● **ATTENTION ODDFELLOWS**—Special meeting Sunday, Jan. 14. Visit of Terrace Lodge and installation, 2 p.m. sharp. (11c)

● **S.O.N. Whist and Dance**, Friday, January 12, Whist, 8 o'clock, Music by Mike Colussi. Refreshments, Everybody welcome. (10c)

T. W. S. Pope arrived in the city from Osoyoos to join the staff of the local branch of the Bank of Montreal. Robert Lywood has been transferred from here to White Rock.

● **POTATOES** — Netted Gem variety, excellent keepers, \$3.19 sack. Fancy Mac apples, 1/2 box size, \$2.09. We feature farm fresh eggs. **MIDWAY GROCERY AND MEAT MARKET**. Free delivery service. Phone 659. (H)

● **Mrs. Christensen and Mrs. Franklin of the SPORT SHOP** wish to announce that Mr. A. E. Jones has retired from the business. They would also like to take this opportunity to thank their many customers for their patronage and hope that they will continue to give the same courteous service in the coming year. (13c)

**Annual Meeting Of Gyro Club**

Hears of Good Work Done at McClymont Park And Other Playgrounds

Annual reports presented at the luncheon of the Prince Rupert Gyro Club on Wednesday featured that of the playground committee presented by Chairman Mark Gormely.

"The past season has been one of the most successful in the history of Prince Rupert in respect to parks and playgrounds activities, largely due to the aggressive and effective program of supervision by Civic Centre officials under direction of Don Forward," said the report.

The report recommended further improvements at McClymont Park including the construction of regulation diving board and properly equipped bathroom. Suggestion was made that there might be co-operation from the newly-constituted parks board in connection with maintenance, repair and equipping of playgrounds.

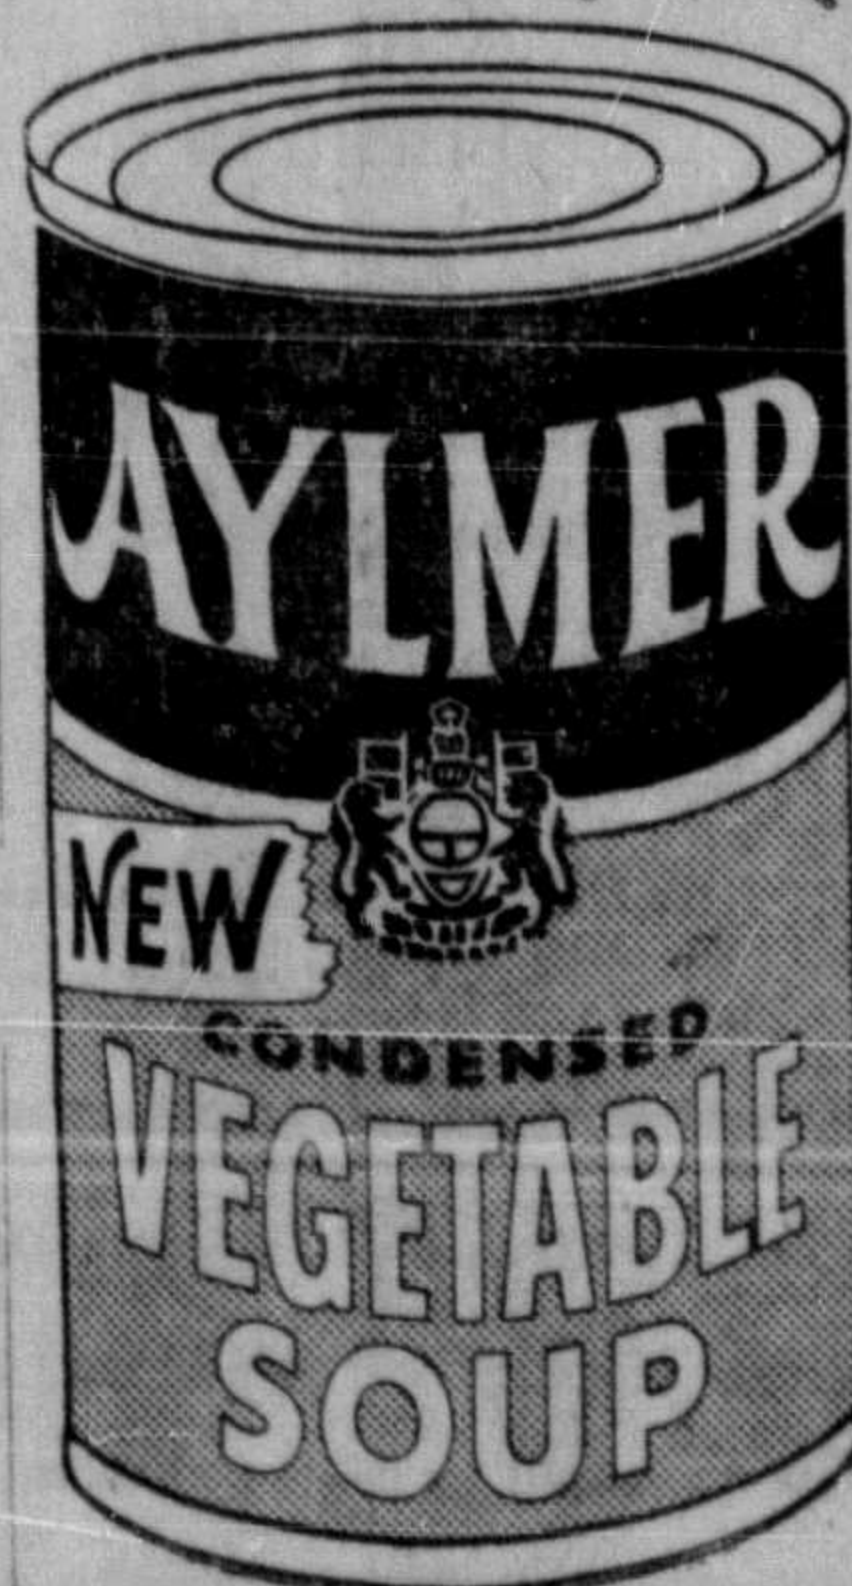

Total season's attendance at McClymont Park was placed in the report at 16,275 with 4,575 at the pool. Average daily attendance at park was 180 with 56 at pool.

Wednesday's meeting also heard the annual report of President A. J. Dominato, Treasurer Grant Stewart and Alf Rivett, chairman of the Purple and Gold committee.

Next Wednesday Past District Governor Wilson Hunt, accompanied by Mrs. Hunt, will be here to conduct the installation of President E. D. Forward and other 1951 officers, featured event to be a dinner dance that evening on the steamer Prince George.

**Mrs. Elizabeth McCubbin Dies**

News was received here by Mrs. H. C. Halliday of the death in Saskatoon yesterday morning of her mother, Mrs. Elizabeth McCubbin.

Born at Kippen, Scotland, 70 years ago, Mrs. McCubbin came to Prince Rupert in 1912 to marry Thomas McCubbin. They made their home at Pacific. She was interested in Presbyterian Church activities, particularly the choir and missionary society. Her husband predeceased her in 1939.

For eight years, Mrs. McCubbin

made her home with Mrs. Halliday in Prince Rupert. In 1949 she travelled to her native Scotland for a year's visit. On her return trip she became ill and stopped off with another daughter, Mrs. Elizabeth Siekawitch, in Saskatoon, where she has been for the past six months. Mrs. Siekawitch will arrive here with the remains Saturday.

Besides her two daughters, Mrs. McCubbin is survived by a son, John, in Victoria.

The funeral will be held from the First Presbyterian Church Monday afternoon, Rev. Dr. E. A. Wright officiating. Interment will be in Fairview cemetery.

Trevor Hill sailed last night on the Prince George for a business trip to Vancouver.

**Blackwood on Bridge**

By Easley Blackwood

Let me repeat that the requirements for use of the Blackwood four no trump bid are that there is a reasonable prospect of slam, that the hand is safe at five-odd, and that the only information you need for your decision is the number of aces partner holds.

None vulnerable.  
South dealer.

North (Mr. Champion) S-9 6 2 H-7 3 2 D-7 C-A K J 8 4	East (Mrs. Keep) S-3 5 4 H-9 4 D-3 10 9 5 C-Q 10 7 3
---	---

The bidding:  
South West North East  
1D 1S 2C Pass  
2H Pass 3H Pass  
4NT Pass 5D Pass  
5NT Pass 6D Pass  
6H All pas

Miss Brash's hand today did not meet the last requirement named. She had no right to assume the trump suit was good enough to go slamming. Her partner's two club bid should have cooled her ardor somewhat because her own singleton club warned of a misfit—the thing that good bridge players fear most.

Knowledge that her partner had the ace of clubs did not (or should not) assure Miss Brash that a slam in hearts was makeable. Actually Mr. Champion could have had a lesser hand, not including the ace of clubs, which would have made the heart slam practically a lay-down. For example, give him the king, queen four long in hearts, the king of spades and five clubs to the jack.

Note that Mr. Dale did not double the six-heart bid even though he was morally certain he could beat it. His decision was absolutely right. When your opponents have such a preponderance of high cards that they are willing to contract for a slam,

**Indian Tram Nearly Ready**

Dale L. Pitt, managing director of Silbak Premier Mines Limited, who has just returned to Vancouver after a two-and-a-half-months stay at Premier, has made a detailed report to the directors of Indian Mines Limited.

Mr. Pitt advises that construction work on the two-mile aerial tramway being built from Silbak's mill to the Indian mines is 80 per cent completed. The lower terminal and all towers on the entire line have been completed. Cables are in place to Ladder Lake, over halfway to the mine, and a temporary sheave installed there permits running the tramway that far. Timbers and other freight are being hauled over the tram to this point currently. All this section of the tram is working very satisfactorily.

A small amount of rock excavation at the upper terminal of the tramway still have to be done. This is at the mouth of No. 2 tunnel where the loading ore bin will be built. The drilling in this excavation is complete and partly biased.

Work here had to be stopped for the present as excessively heavy snows make it practically impossible to make any headway. There has been a snowfall of 11 feet so far this winter and at the present time over seven feet of snow is lying on the ground. Any attempt to shovel this snow so that rock work or construction could be carried on entailed such expense and such disappointing results that all the work was discontinued.

Just as soon as the weather settles down in the early spring, work will be resumed and the tramway completed. With the completion of the tramway, delivery of ore to Silbak's mill will commence.

**CIVIC CENTRE**

The Civic Centre has one booster who likes to remain anonymous. He is an old age pensioner. Each year he takes out a membership in the Civic Centre. Yesterday he dropped around to see if his membership was due again. "I do it for the kids," he said. "When I was a kid we didn't have anything like this and I think it a good idea."

Miss Eileen Cross will be taking classes at U.B.C. most of next month. For the duration of her course—February 5 to 24—classes at the Civic Centre will be suspended.

Classes in square dancing were resumed last night with participants just as enthusiastic as they were before the Christmas break.

Wanda Dale is so enthusiastic about her Run-Rec classes that she turned out yesterday afternoon at 2:45 for a class that started at 3:30.

The Drama Service Library of Ontario's community programs branch has more than 1000 plays available for local programs. MOSTLY SUGAR  
Sugar plantations form the main industry on the islands of Mauritius and Reunion, twin peaks in the Indian Ocean.

## To Attend Wedding Of Son In South

Mr. and Mrs. G. E. Moore left yesterday for Vancouver, Mr. Moore on department of fisheries business.

While in Vancouver they will attend the marriage of their son, Roy John, to Esther MacAngus, daughter of Mrs. H. T. Moody an dthe late Mr. MacAngus. The service will be held in the Canadian Memorial Church, Vancouver, January 19. Best man will be the groom's brother, Eric Webster Moore, who became apprenticed to a firm of chartered accountants in Vancouver after receiving his senior matriculation at Booth Memorial School

last spring. The groom graduated from Booth Memorial School in 1944 and received his Bachelor of Commerce degree from the University of British Columbia in 1948. Since that time he has been employed with Canadian Fishing Company as bookkeeper at Port Alton and, for the past two years, at the company's cannery at Humpback Bay, Porcher Island.

## Mining Active In Smithers Area

SMITHERS — Mining in the Bulkley Valley is showing a steady increase in the new year, and stock offerings being publicised throughout the province are creating considerable excitement in the district.

The Cronin-Babine Mines offering is being backed with an extensive, though difficult, road program to get into their properties for mining work as soon as possible.

Smithers notes continued. The Sil-Van properties on the old Duthie and Mamie workings on Hudson Bay Mountain are reported to have a satisfactory development program, and definite mining work is expected this year.

Glacier Gulch has received a considerable amount of new mining machinery this week, and more is on the way as their workings on Hudson Bay Mountain get farther underground. This mine, like Cronin Babine, and Sil-van is planning a concentrating mill, the size depending on how much ore proves up in their present preliminary mining program.

## Mrs. Wold Heads Terrace Guides

The annual meeting and election of officers of the Terrace Girl Guide Association was held at the home of Mrs. E. Head last Tuesday afternoon. Mrs. Head was in the chair for the election of officers. Mrs. Wold was re-elected president; Mrs. Squires, vice-president; Mrs. Kennedy, secretary, temporarily; Mrs. D. Kerr, treasurer.

More members were asked for to carry on the work of the association, and all showing interest were asked to join to help the Guide work and leaders.

There was a very good attendance at the meeting and, though the matter of summer camp for the girls was discussed, no definite plans were made.

At the close of the business session, refreshments were served by the hostess.

## Popular Steward Passes Suddenly

SMITHERS—Robt W. (Dick) Champion, popular Legion steward, passed unexpectedly at his home Wednesday morning after completing his regular evening duties Tuesday with no apparent ill effects.

Mr. Champion is survived by his wife in Smithers and a married daughter in Edmonton. He was 66 years of age and has been in Canada 48 years, 31 in Smithers, where he recently retired from the CNR.

## Seventeen Tables At Catholic Cards

Seventeen tables were at play at the Catholic League card tournament last night. This is the largest turnout for a long time.

Winners were: Women's high, Mrs. S. Duncan; Men's, Mrs. E. Jones; Cribbage, Women's high, Mrs. L. Williams; Men's, M. J. Saunders; Bridge, Women's high, Mrs. G. W. Rudderham; Men's, E. C. Trumbell.

Committee charge was Mrs. L. Dolron, convener; Mrs. G. R. Brett, Mrs. W. A. Pierce, Mrs. J. Garon. Cashier was Miss M. Zogas.

## Hotel Arrivals

Prince Rupert

J. I. Sweet, Peter Subotin, Miss J. Galbraith, Vancouver; B. Van Rhyn, Houston; R. H. Dunlop, Smithers; J. W. Anderson, Alice Arm; Kovy Martell, Prince Rupert; Mr. and Mrs. Sirosky, Queen Charlotte City; S. S. Leith, Williams Lake; Mrs. D. Weatherley, Pacific; N. J. Tycho, Edmonton.

The warships got under way, rounded up the transports and other craft that had remained in the anchorage and channel during the night, and headed down-river on the last leg of the operation.

Luck was with the ships. Hardly had they got out of the channel when a blinding snowstorm struck, cutting visibility to less than 200 yards.

The ships anchored for two hours, waiting for the storm to clear. Then the transports and LST's, screened by escorts, shaped their course southward.

A cryptic signal from Captain Brock to UN authorities told the story in three words: "Withdrawal successfully completed."

ed by the plot room to get a glimpse of the chart.

"It's a shame to do this," said Petty Officer Graham as he erased the pencilled markings and put the chart back in its folio. "This should be mounted in a glass case."

Said a U.S. Navy officer later: "That's something for the Mariner's Manual."

Throughout December 5, the day of their arrival, the destroyers stood by, their guns trained on the outskirts of the city, while the transports and landing craft were loaded. By 5 o'clock, all had left. Then, in the winter twilight, the warships began their bombardment.

The Cayuga opened up in impressive fashion, hitting an oil tank with her first salvo. It burst into flames. During the next 40 minutes the ships sent nearly 800 "bricks" into targets ashore. The Cayuga took on oil tanks, freight cars and port installations. HMAS Bataan and USS Forrest Royal sought out marshalling yards, ammunition and stores dumps, factories and warehouses.

All salvos fell within the waterfront area, where the military targets were concentrated. The residential section, set further back among the hills, was undamaged. Many junks and motor fishing vessels, the only homes of some Korean families, were spared. All other craft were destroyed.

### JOB COMPLETED

With the demolition job completed, the three destroyers headed out of the city and anchored in a defended anchorage. The Canadian destroyer Athabaskan, which had been protecting the anchorage, had taken no chances and shot up gun emplacements on the hills overlooking the area.

As dawn broke on Wednesday,

## VALOROUS FEAT

(Continued from page 1)

Lieut. Collier went back and forth like a shuttle and would have bowled over anyone who was in his way.

Another member of the plot room team, Petty Officer Ray Graham of Regina, admitted that they sweated out some anxious moments, particularly when it came time for the ship to turn—which was pretty often.

"The toughest spot was just before we entered the harbor proper, Lieut. Collier allowed for a tide that was there—and then wasn't. We headed right for a mudbank but a quick alteration brought us back on the course."

Lieut. Collier agreed that the corners were the toughest sections of a course that described a rough semi-circle from entrance to harbor.

He did not know until he examined the chart later that he had made so many fixes.

During the day after the Cayuga's arrival in the harbor, a parade of curious sailors troop-

All through his life...NICKEL

Since the discovery of Canada's Nickel deposits, hundreds of uses and vast markets have been developed for Nickel through a planned program of research. So Nickel is now one of our most important exports to the United States and other countries. As a result millions of U.S. dollars come to Canada, which the Nickel industry uses to pay wages, taxes, freight, and to purchase lumber, machinery and supplies.

In the laundry where baby's diapers are washed, Nickel alloy equipment eliminates rust and verdigris stains because it is rust-proof and corrosion-resistant. It does not develop jagged edges, so prevents tearing of the wash

Much of the equipment used in the plants where cod liver oil, medicines and toiletries are processed, is made of Nickel alloys to maintain the purity of the product.

To commemorate the 200th anniversary of Cronstedt's discovery of Nickel in 1751, the Royal Canadian Mint has this year issued a new five-cent coin. This coin, like previous five-cent pieces, is made of pure Nickel.

**CANADIAN NICKEL**

"The Romance of Nickel" a 60-page book fully illustrated, will be sent free on request to anyone interested.
