

Attack By MacArthur

Korean War Indecisive and U.S. Has No Foreign Policy

WASHINGTON (CP)—General Douglas MacArthur, in a whip-lashing attack, asserted Wednesday night that the result of the Korean war had been "indecisive" and that the United States has no foreign policy.

It was the most outspoken statement MacArthur has made since he was recalled from the Far East.

The general told a joint session of the Massachusetts House and Senate: "In Korea, despite the magnificent performance of our fighting forces, the result has been indecisive."

He added: "The threat of aggression upon the weak by those who are inclined among the nations has not been diminished. Nothing has been settled. The war has been decided."

MacArthur said: "The sorry state of affairs that we have no policy."

PRINCIPAL NATIVE CHIEF of the Prince Rupert area, 78-year-old Heber Clifton, shook hands with Lieut.-Governor Clarence Wallace when the King's representative was honored by a ceremony of fealty at Miller Bay Hospital last Sunday. Thirty native chiefs within 100 miles of Prince Rupert gathered to pledge their loyalty.

Banks In Lead Now

Boston Indians White Sox Lose to Pale Hose

NEW YORK (CP)—Big John Mize posted the New York Yankees' lead in the American League to a full game Wednesday when he sliced a two-run double off Cleveland's Mike Garcia for a ninth-inning 2 to 1 victory. It was the 13th straight loss for the Indians in Yankee Stadium since July 14, 1950.

Chicago White Sox snapped their five-game losing streak with a 6 to 2 win behind Ken Holmberg that dumped the Boston Red Sox one game off pace with the Yankees. A three-run homer by Don Lenhardt in the sixth inning ruined Mel Parnell's day.

NATIONAL LEAGUE

Brooklyn Dodgers widened their National League lead to nine games as Preacher Roe subdued Chicago 6 to 2 for his 14th victory and 12th complete game.

The runner-up New York Giants had to settle for an even break at Pittsburgh, losing half a game in the race. The Giants edged the Pirates 7 to 6 in 10 innings as they completed a "suspended game" called in the last of the eighth of June 17. However, the Pirates came back to lose the regular scheduled game 3 to 4.

Explanation Refused

LONDON (CP)—The government refused, under fire in the House of Commons Wednesday, to disclose just why it seized the passports of a Moscow-bound British atomic scientist and one of its own Foreign officials last week.

Ernest Davies, Under Secretary of Foreign Affairs, also declined to say whether similar action may be taken to halt the travels of the "Red" Dean of Canterbury, Very Rev. Hewell Johnson, whose pro-Soviet sentiments are often publicly voiced.

The scientist, whose trip to Moscow last Thursday was balked by Dr. E. H. Burhop, 40. The name of the Foreign Office man and his post have been kept secret. His passport was picked up last Wednesday.

Judges and News Man Make Cruise

With two Supreme Court judges, a prominent British Columbia newspaperman and author and company executives on board, B.C. Packers service yacht Friendship reached port last night and will be hereabouts for the next two or three days.

The judges are Mr. Justice J. C. Wilson and Mr. Justice Clyne. The newspaperman is Bruce Hutchison, managing editor of Victoria Times.

The company executives are R. E. Walker, production manager, and Ross Nicholson.

Anthony Eden On Way To Canada

OTTAWA (CP)—Hon. Anthony Eden, British deputy Conservative leader, now enroute to Canada, will be in this country three or four days. He expects to visit Montreal, Port Hope and Winnipeg. His destination is Denver, Colorado, where, August 6 he will address a World Affairs Institute meeting.

Brought In From Wilds

Topographical Surveyor Fractures Foot in Fall

R. P. Fillmore of Woodstock, Ontario, engineer of a Dominion topographical survey party which is spending the summer engaged in mapping along the Skeena River, was brought to the city this morning for hospitalization.

Yesterday morning Fillmore fell 50 feet down the side of a cliff on the south side of the Skeena River about across from Kwinitsa. Two companions—Lloyd Roberts and Fernan Polter, University of Toronto students (Commerce and Medicine, respectively)—packed him on their shoulders down a 1200-foot mountainside, placed him in a canoe and took him to base camp at Tyee, coming on to the city by jeep this morning.

Fillmore's right knee is bruised and his left foot sprained or fractured.

Another student, Ben Gulak of Rhein, Saskatchewan, Arts student from University of Saskatchewan, came in from base camp with the party which is returning up the Skeena this afternoon.

Seaway Rejected

U.S. Once Again Thumbs Down Canada May Go It Alone

WASHINGTON, D.C. (CP)—Legislation to authorize the St. Lawrence seaway and power project was killed today by the House public works committee which voted 15 to 12 against it. For all intents and purposes, the long-debated seaway proposal was again buried by Congress.

Round Up More Reds

WASHINGTON, D.C. (CP)—Department of justice today launched a new round-up of secondary Communist party leaders in Los Angeles, San Francisco and New York City.

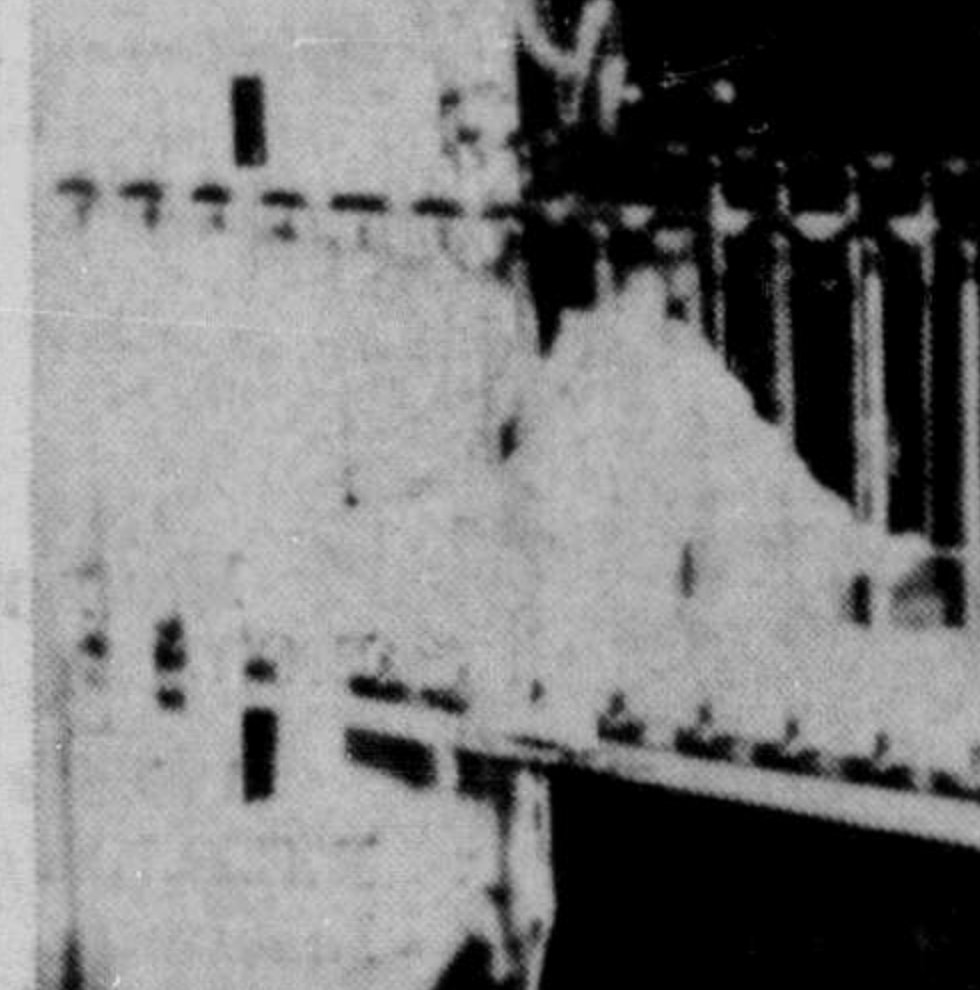

Eleven arrests have been made. The new move follows arrests of 17 Eastern seaboard Communists last month. All are accused of conspiracy to teach and advocate violent overthrow of the United States government.

U.S. Naval Ships Due

July could go down on record this year as Navy Month. Tomorrow, two more American warships arrive, and on Tuesday of next week, HMCS Cedarwood, RCN oceanographic vessel, docks here enroute to Esquimalt from the north. They had called here a few weeks ago on a previous voyage.

Doctor Facing Murder Charge

BRIDGEPORT, Connecticut—Dr. Donald F. Gibson is charged with killing his 74-year-old benefactress, Miss Elizabeth M. Ayres, who shared her home with him and who, the coroner's jury said, was "madly in love with him." He is 49. It is alleged he hastened her death for two reasons—to acquire sole possession of valuable real estate he and she held jointly—and to be "unfettered" in his plan to marry his office nurse.

HOSPITAL TOUR by Lt.-Gov. Clarence Wallace (centre) followed the outside ceremony. Three-year-old Jimmy Edwards sat "at attention" before the official party, led by Dr. J. D. Galbraith (right) medical superintendent of the hospital. Others are (from left) Commodore H. F. Pullen, Cdr. H. Paterson, Miss D. P. Hall, nursing superintendent, and Miss Muriel Vincent, dietitian.

Cavy's Birth Makes History

CALGARY (CP)—The Calgary zoo is proud to announce the birth to Mama and Papa Cavy of a son, Junior, a brother for the twins.

Mama and Papa live in quiet domesticity at the zoo, totally unaware of the distinction they rate in cavy society.

For cavies seldom breed in captivity, and Mama's babies were the first cavies born in Canada and among the few born in North America.

Cavies are small, buff-colored rodents with short round ears and just an apology for a tail.

Although they are closely related to guinea pigs, they breed only once a year whereas guinea pigs, well, they keep pretty busy.

Papa Cavy came to Calgary from Texas, while Mother originated in Argentina, the cavy homeland.

The five Calgary cavies—Mama, Papa, the twins and Junior who was born this spring—live a pretty nice life. Their favorite recreation, apart from digging, is basking in the sunshine.

Timid by nature, they live in burrows and eat grass and vegetation—which is just as well considering the price of meat nowadays.

Howe Party At Washington Meet

OTTAWA (CP)—Production Minister C. D. Howe, accompanied by four of his advisers, took off for Washington by plane Wednesday to meet the United States wish to revitalize joint Canada-United States industrial mobilization machinery.

With Mr. Howe were M. W. Mackenzie, his deputy; the non-ferrous metals administrator, Frank Hewett; E. P. Weeks, departmental economist, and Mitchell Shart, departmental prices authority.

They are meeting with Charles Wilson, United States defence mobilization director, and a group of his officials, including Eric Johnston, United States economic stabilizer, at an all-day conference today.

Tonight's train, due from the East at 11:15 daylight time, was reported this afternoon to be forty minutes late.

Cease Fire Agenda Is Agreed On Between UN And Red Envoys

Round Up More Reds Aircraft Contract

WASHINGTON, D.C. (CP)—A United States Air Force spokesman said Wednesday that Canada's largest aircraft manufacturers, will build "a substantial number" of advance trainers for the United States Air Force.

The exact number of planes and their value could not be disclosed at this time.

The planes will be advanced trainers developed by Beach Aircraft Co. and carrying designation T36.

The Beach Co. won in a competition for the new trainer in recent tests at Wright Field, Dayton, Ohio.

Canada is now building United States Lockheed T-33 trainers for the Royal Canadian Air Force and an arrangement with the United States Air Force and the North American Aviation Co. to produce F-86 jet fighters for the Canadians.

1st Round Of Talks Is Allied Win

WASHINGTON, D.C. (CP)—Military and diplomatic officials here consider the United Nations negotiators received everything they sought in the first round of Korean armistice talks without making any concessions on vital issues.

In fact, it was the Communists who gave ground by backing down twice from positions they had taken, especially on the question of withdrawal of foreign troops from Korean soil.

Many difficult problems remain to be solved and responsible officials here are only mildly optimistic about chances that negotiations will actually produce an armistice.

Some authorities believe it may be as much as a month before negotiations are concluded.

AGREE ON AGENDA
At United States Advance Headquarters in Korea, General Matthew D. Ridgway announced tonight that a five-point agenda for a cease-fire conference in the Korean war has been agreed upon.

The announcement means that the United Nations and Communist negotiators can begin discussions tomorrow on actual armistice terms to end the shooting. They have scheduled a session—their 11th—for 10 a.m. Friday (P.M. Eastern Daylight Time).

The announcement was made several hours after negotiators ended the shortest session they have yet held at Kaesong. It lasted only 58 minutes.

Informers sources indicated that the Reds have agreed to drop their demand for withdrawal of foreign troops from Korea. This explosive question will be discussed after an armistice has been declared.

Such a plan permits the Reds to "save face" on the issue they say is essential for peace in Korea and which the United Nations refused to make part of armistice talks.

FOUR ITEMS
General belief in this peace camp is that armistice negotiations will be restricted to four items:

1. Cease fire.
2. Buffer zone.
3. International commission to supervise a truce.
4. Exchange of war prisoners.

The international commission and where to draw the line for the buffer zone offer to be major stumbling blocks.

Fifth point in the agenda is believed to refer to the problem of withdrawing foreign troops from Korean soil.

NOTE OF CAUTION
The United Nations announcement cautioned that nobody knows how long it will take to agree on all points and that shooting will continue until an armistice is signed.

While negotiators met at Kaesong guns roared along the battle fronts and Red resistance was reported all along the battle line. There was fairly heavy action along the east-central front.

Collision—Loses Car Meantime

Geoff Hill returned this week to Prince Rupert after a 10-day tour of the Bulkley Valley on his new job with an insurance firm but he came back without his car.

On a trip from Burns Lake to Telkwa, a near head-on collision with another car left most of the chassis folded over the engine, says Mr. Hill.

He was driving around a bend, a taxi approaching. Suddenly, another car trying to overtake the taxi, was directly in Mr. Hill's path. The two cars collided.

"Lucky though," said the Junior Chamber of Commerce president, "we didn't get hurt a bit."

Mr. Hill's chief, Gordon Holtby of Vancouver was riding with him.

More Planes Join Search

Four Royal Canadian Air Force aircraft left Sea Island, Vancouver, today for Elmendorf Field in Alaska to scour the St. Elias area and search for a missing Canadian Pacific Air Lines DC-4 which has been missing since last Friday on a flight from Vancouver to Anchorage.

Forty planes are now engaged in the search but, up to early afternoon today, had found no trace.

Make Seamen's Wages Equal

LONDON—A declaration that the wages and conditions of employment of all seafarers must be placed on an equitable basis, irrespective of the flag under which they serve, was made at a meeting here of the seafarers' side of The International Transport Workers Federation boycott Committee. The meeting was considering the International Federations' action regarding sub-standard ships.

Vacations Necessary

THE routine of modern work tends to make the individual more of a mechanism than a human being, observes a national labor union publication in advocating the importance and necessity of everyone having a regular holiday. It is especially important at a time when everyone is plagued by inflation at home and crises in the international field to get away from the usual routine, if only for a short time, and see things in a broader perspective. A vacation provides an opportunity to make a psychological inventory, to think out one's problems and make a fresh start.

A vacation is like an annual overhaul for a hard-working machine. It also provides the opportunity for an annual inspection of the human machine.

What we need is "the pause that refreshes," an opportunity for rest and recuperation, for reconsideration of the meaning of life. Certainly it was never intended that human beings should spend their lives in continued activity, with all the stress and strain which this involves. Life is worth living only if one can raise his eyes from time to time to a wider horizon, appreciate the beauty of nature, and, to paraphrase Walt Whitman, "loaf and invite one's soul." That is why vacations are so vitally necessary in these modern days.

Pioneer Spirit Needed

CANADA'S first four score years were spent in building and cementing the massive arch that springs from the Atlantic to the Pacific, says the Winnipeg Tribune. Now the eyes of the Dominion are turning to the north.

A new vista is opening to the people of Canada. Millions of square miles that for years were looked on as rocky barrens incapable of supporting human life are now beginning to offer treasures as startling as those of the rich agricultural soil of the prairies.

But the spirit of the pioneer is needed to roll back these new frontiers. The faith, energy and determination that has made Canada what it is today are needed to meet the challenge of the future.

Jackass Age

DID YOU ever hear of a law which helped to keep down the cost of living?

Never? Or just hardly ever? Well, did you ever hear of a single week going by where some law was not used to make the cost of living higher?

DOWN in Brazil they burned 80 million bags of coffee in the 1930s, for the prices were too low to make it worth while selling.

But oh, some say, that was in the depression—not now when everything is scarce.

Scarce? Who said so? The Brazilian government has a scheme to buy up and take coffee "off the market" to keep the present high prices from falling. No, we haven't heard, very much about that up here because the U.S. State Department stepped in when Senator Guy M. Gillette had an agricultural sub-committee of Congress all set to expose the facts. It might cause "international complications," the State Department boys said.

IF YOU sigh and say it's too bad those foreigners have such low ideas, what about our own?

I heard over the radio the other day how one authority, set up under the laws of British Columbia, is now going to compel the farmers who sell products at their own road-side booths to charge the same prices as are charged in the big city stores.

I read in the bright monthly, The Northwest Digest, the sad tale of a Cariboo trucker who got the bright idea of buying fruit in the Okanagan, taking it to the north, and selling it direct.

The law caught up with him, and he was fined for trying to by-pass "the regular channels."

UNITED STATES under a capitalist government spent billions and billions of the people's money to buy up and hoard vast mountains of food—all of which was kept off the market. That was called "price support."

Much of the food—that which wasn't deliberately destroyed or given away to foreigners—is still in storage.

But hold everything, you irate socialists. The greatest price hold-up in all history was the wool racket, which I exposed in this column between 1945 and 1950. Several governments, led by those of Britain, Australia, New Zealand and South Africa, joined together to keep the price of wool from falling. The then stocks were enough to supply 20 years of normal trade. But so cunning was the scheme used that, instead of wool prices falling as they should have done under the "law of supply and demand," they were boosted to the highest level in history.

Three of the four governments which combined in this scheme were "socialist."

IF THERE ever was free enterprise it has long since become as hard to find as the sea-serpent, Ogopogo.

Strangely enough, the big business men who pay for big advertisements, in press and on radio, about "Free Enterprise" and "the American Way of Life" did more to kill their ideal than any other part of the population. Did you ever hear of a "free enterprise" manufacturer who really believed in "free trade"—that is, competition from outside? On the other hand—did you ever hear of a big business concern putting a small competitor out of business?

THE BIBLE plainly predicts a time when no person will be allowed to buy or sell unless he or she has "the mark of the beast" stamped on the hand or in the forehead. I think we are pretty close to that day now—in fact, I think of a very good design for that "mark of the beast." Not the lion, not the eagle, the bear or the beaver. No—make it the jackass.

Grain Hold-up Proves Costly

MONTREAL—The grain bottleneck continues to cause expense and inconvenience. No fewer than eleven freighters continue tied up in Montreal. This is costing \$1,000 a day for each of the eleven.

NEW ARRIVAL—By Robert Chambers in Halifax Chronicle Herald (CP PHOTO)

LETTERBOX

ENJOYED VISIT

Editor, Daily News—Our recent stay at Port Edward, also visiting Prince Rupert and Terrace, was very pleasant.

Being a veteran of the Boer War and World War I, I visited the Canadian Legion Hall and was amazed to see such a fine place. It is the best I have seen in all my visits through the United States and Canada.

The sights we saw in British Columbia we will never forget and we are very grateful to all for the way we have been treated.

C. MUSTO.

ROTARY TENNIS COURTS

Editor, Daily News—

I wonder if I may use a little of your space to write in regard to the Rotary tennis courts. I'm sure every tennis player in the city was more than pleased to see that the Rotary is going through with this project. However, I'm also sure there will be disappointment at the location chosen. It seems a shame to put such a badly needed facility in such an out-of-the-way place.

When the Rotary first started

on this project the location was to be on Sixth Avenue near the Armories. Couldn't somewhere in this vicinity still be obtained as it's pretty well central to the whole city?

I would like to see some others express an opinion on this matter. How about it, tennis players!

TENNIS ENTHUSIAST.

Scholarship For Gordon Graham

Gordon Richard Graham of Booth Memorial High School, Prince Rupert, was the top pupil for this district in the recent High School Junior Matriculation (University Entrance) examinations. His average was 87.9 percent. He receives a Chris Spencer Foundation award of \$225 and a general proficiency scholarship of \$175.

6th in a series to bring you the facts about your Hospital Insurance plan

WHAT ABOUT PRIVATE HOSPITAL INSURANCE PLANS?

Many people have asked, "Why don't private hospital insurance plans operate in B.C.?"

Private hospital insurance plans do not operate in B.C. because they can not match B.C.H.I.S. services for the same low premium. When the government introduced Hospital Insurance, provision was made whereby any existing plan could continue operation providing it could give equal benefits and coverage for the same low premium. Private plans readily saw that they could not do this without raising their rates over those charged by B.C.H.I.S. and as a result left the field on their own accord.

When comparisons are made between B.C.H.I.S. and private plans, it is often forgotten that B.C.H.I.S. covers everyone, and seldom remembered that private plans were restricted in services and in membership. As a result, their benefits were limited to certain groups. In most cases, private plans select the people they will insure, and limit what they will cover.

For example, private plans do not insure against the re-occurrence of a previous ailment, nor insure anyone over a certain age. This feature automatically excludes a large number of people. Private plans did a good job as far as they went, but they didn't go far enough. They were not designed to meet the needs of all the people of B.C.

The people of B.C. needed a Hospital Insurance plan. Before B.C.H.I.S. started in 1949, one out of every three persons could not pay his hospital bill. Many hospitals were losing money and cities, municipalities and the provincial government had to give cash grants to keep them in operation. Something had to be worked out to protect the people from high hospital bills, and at the same time help the hospitals. B.C.H.I.S. was the answer. B.C. citizens can now enjoy protection against large hospital bills for acute care.

Some people have said, "Give the Hospital Insurance plan back to the private plans" without realizing that these private plans operated before B.C.H.I.S. They didn't help the overall situation in 1948, and they wouldn't help it now. Private plans were good as far as they went, but they didn't go far enough to solve B.C.'s problems.

It's true that B.C.H.I.S. premiums have increased, but these private plans could not have kept their premiums stationary in the face of rising hospital costs. Their premiums would be as high if not higher than those now charged by B.C.H.I.S.

B.C.H.I.S. has solved B.C.'s hospitalization problems and accomplished its major objectives. People may now have protection against large hospital bills for acute care, and the hospitals are now in a position to operate on a sound financial basis.

Next week, we will discuss "What about the different hospital public ward rates?"

Be sure to read these messages. They deal with your Hospital Insurance plan—a plan which has already paid over \$40,000,000 for more than 500,000 hospital cases, and providing benefits for thousands more each month.

Carnation - Evaporated Milk at its Best
The familiar red and white Carnation label is your assurance of finest quality. Rigid standards — from raw milk to finished product... over 50 years' experience, make Carnation Milk the better evaporated milk.
Only good milk is accepted at the Carnation condenseries. Evaporated to double-rich goodness, homogenized and heat-refined, Carnation Milk is creamier, smoother, richer-flavored. Compare it with any evaporated milk.
"from Contented Cows"
Let Carnation, undiluted, replace more costly cream in coffee, on cereals, in cream recipes — and for whipping.
Use Carnation, diluted 50-50 with water, for all whole milk uses.

Local and PERSONAL

Mrs. W. F. Robertson is sailing tonight on the Prince Rupert for a trip to Vancouver.

Meeting of International Union of Operating Engineers, Friday, July 27, Carpenters' Hall, 8 p.m. (175c)

Prince Rupert Shrine Band open air concert, Court House lawn Thursday, July 26, at 8:00 p.m. All welcome. (174c)

Mrs. and Mrs. C. H. Elkins returned to the city on Tuesday night from a motor trip which included visits at Terrace, Smithers and Burns Lake.

Mr. and Mrs. H. G. Smith sailed Tuesday night by the Prince George on their return to their home in Vancouver after a two week visit in the city with relatives.

See advertisement of Auction Sale to be held this Saturday, July 28, in Smith's warehouse, corner 1st Ave. and McBride, opposite Naval Drill Hall — by Tom Christie. (175c)

Mrs. and Mrs. Jack McKee will motor to Terrace on Sunday for a brief visit at Lakelse Lake with Hon. and Mrs. E. T. Kenney while R. E. Powell, president of Aluminum Co. of Canada, and his party are there.

William C. Stump, Ketchikan attorney, and J. T. Notman, general agent of the Canadian Pacific Railway at Prince Rupert, have sent acceptances to attend the annual convention of the Associated Boards of Trade of Central British Columbia to be held in Prince Rupert early in September.

Large Coho Run Is On
Such a substantial run of fine coho has developed along the coast during the past ten days that the packers have been taxed getting the fish into the canneries, according to official reports. The run has been particularly heavy in the Queen Charlotte Island and Milbank Sound areas. It is the biggest run in five or six years. Trollers have been making up for lost time after a rather poor start.

Gillnetters on the Skeena River have been doing only "fairly" well, averaging about 25 fish a day. This is better than last year. About 500 boats are operating on the Skeena. Naas River fishing is running about the same as last year. An exceptionally good run of sockeye in the Smith's and Rivers Inlet areas is now tapering off.

As for salmon, indications are for a fair run of chums which are now being caught at about 350 fish per day by seiners in Whale Channel near Butedale. A catch of 2000 pinks by one seiner in the Naas River area has been reported.

All varieties of salmon, with the exception of pinks, have been running considerably earlier than usual this season.

To Celebrate Golden Wedding
Mr. and Mrs. W. Crego and family of Port Edward have left by car for Vancouver where they will be joined by Mrs. Crego's octogenarian parents, Mr. and Mrs. C. Musto, who were recent visitors here. After the celebration of Mr. and Mrs. Musto's golden wedding anniversary in Vancouver, the elderly couple will proceed to Detroit for a visit before continuing by air to their home in Florida following a western tour.

Alcan Head on Way West Now
R. E. Powell, president of the Aluminum Co. of Canada, has acknowledged an invitation of the Prince Rupert Chamber of Commerce to meet the executive council at luncheon on the occasion of his visit to the city during the coming week-end. However, as the length of his stay at Prince Rupert is so far uncertain, Mr. Powell is unable to make a definite appointment but will communicate further from Terrace.

Mr. Powell left Montreal with his party by Canadian National Railways Tuesday night.

The Alcan chief, who is accompanied by his wife and friends, is due at Terrace 6 o'clock Sunday morning and will be entertained at a buffet luncheon by the Terrace and District Board of Trade that day at the summer home of Hon. and Mrs. E. T. Kenney at Lakelse Lake. Later in the day, they will continue on to Prince Rupert. Here they will be met by the yacht Sonora which will take them to Kitimat.

Flying Established Here, Aero Club Would Expand Activities
Has Turned Out Three Pilots and 16 Are Now Training

"Well done, Pat—just keep her nose up a little more when coming in on the rough."

The whirring stopped with a cough or two and the sleek little Taylorcraft pontoon plane was quickly tied to the float. That was Bob Kelsey talking to Pat Dean. Bob is president and part-time instructor of the Prince Rupert Aero Club while Pat is taking his last few hours in solo flying before taking his private pilot's exam next month.

Pat also is navigation instructor at the club's ground school. He's an ex-navigator of the RCAF.

And with Pat, taking the big stride in August, will be Norin Skogmo and Bill Strahl, both of whom have completed their 36 hours of flying and the cross-country hop.

But learning to fly isn't just a matter of knowing how to handle the controls of an airplane, nor does all the instruction take place in and around the aircraft.

"We'd better get over to the school, Pat. It's near 8:30 now and the boys should be there." A short drive around the quay brought Bob and Pat to a low, rambling building where several cars already were parked.

As the pair entered, voices issued from the classroom. About 10 young men inside were discussing seriously a point in air-manship. They are men who are learning to fly a plane, and they come from all walks of life.

Lorne, for instance, is a switchman on the railroad. Chris is a sulphite worker; Jay, a grocer with his own business, and Sig is a shipwright. And so on. These men have wanted to learn to fly for a long time, but "we just never had the chance."

"It takes quite a bit of money to go to a regular flying school. Besides, you have to go out of town and that increases the cost. But now that we have the club, we can take our lessons at our convenience and when we have the money to spare," is the way most of them speak.

In the ground school classes such subjects as meteorology, navigation, air regulations and air-manship are thoroughly thrashed out. Between Kelsey and Dean, difficult points are presented in half-a-dozen different ways until they become clear to the last man.

"When you should make this move or that, watch out for one thing or another, it's so much easier when it comes to practical flying," says the club president, a former RCAF pilot and instructor.

Letter From England Praises Emerald Oil - Says
"I am now in England and cannot get Emerald Oil here. If you have an agent, let me know by return his address as this is very urgent."
"I had Emerald Oil the best remedy I have ever used for all kinds of skin irritation." Mr. J. S. Bedfordshire, England.
If you or any relative or friend are suffering from the itching irritation of many common forms of skin disease, get a bottle of Moore's Emerald Oil. You'll make no mistake. There's nothing finer or quicker-acting. Skinless—Greaseless—Economical. A small bottle lasts a long time. On sale wherever drugs are sold.
WALLACE PHARMACY

Tooth Decay
...help prevent it

AMMONIATED LISTERINE TOOTH PASTE
...designed to help prevent decay 3 ways!

1. Chemical action reduces mouth acidity. Mouth acidity encourages decay.
2. Mechanical action cleans surfaces as teeth are brushed—helps break up and remove decay-breeding deposits.
3. Chemical action checks acid-forming bacteria—a major cause of decay.

In preliminary tests conducted with this famous formula at the University of Illinois Foundation, case after case of reduction in the incidence of tooth decay was reported. No wonder it has caused such interest in dental circles! Now the manufacturers of Listerine Antiseptic make this same formula readily available to you and to your family.
Use Listerine Ammoniated Tooth Paste regularly, as directed, morning and night and right after eating. Lambert Pharmaceutical Co. (Canada) Ltd., Toronto.

THE EXPERTS Say...

By KAY REX
Canadian Press Staff Writer

SALAD WEEK — This is National Salad Week, seven days set aside to point up the value of crisp, colorful uncooked dishes.

Sponsored by the Canadian Horticultural Council, Salad Week was founded to promote the use of farm and garden products.

There are three types of persons—those who eat salads because they like them; those who eat salads to be healthy; those who won't eat salads at all.

For a wife faced with a non-salad-eating husband, the department suggests a subtle approach.

Does he like cheese? Then try a salad in which cheese is the dominant ingredient. Is salmon a favorite? Stress salmon.

"Many a man... has been weaned away from less nutritious food to a liking for salads by such wiles," advises the department. "But don't expect him to ever admit it."

SALAD DRESSINGS

Home economists have a few tips on dressings which may prove valuable to the salad-conscious housewife.

French dressing:
Ingredients: One-quarter cup cider vinegar; three-quarters

cup salad oil; one teaspoon sugar; dash of pepper; one-half teaspoon salt; one-half teaspoon dry mustard.

Place all ingredients in a jar with a tight-fitting lid. Shake until thick and creamy looking. Store in a cold place. Shake well before using.

FOR VARIETY — Add two tablespoons chopped parsley, one chopped hard-cooked egg and one-quarter cup chopped cooked beets. Use this dressing with a plain lettuce salad.

Add one-quarter cup tomato catsup and serve on meat salads.

Add one teaspoon of meat sauce and serve with vegetable and egg salads.

Add three tablespoons of peanut butter and use on cabbage

or carrot salads.
Add three tablespoons of grated cheese and serve with vegetable salads.

ANOTHER RECIPE

Carrot salad is a favorite with those who like bright dishes. Ingredients: one bunch of carrots cooked and diced; one can peas, drained; one teaspoon chopped onion, celery diced in small pieces; dash of lemon juice; salt and pepper to taste two hard-boiled eggs; salad dressing.

Line a salad bowl with lettuce. Fill in centre with salad. Slice eggs and put on top.

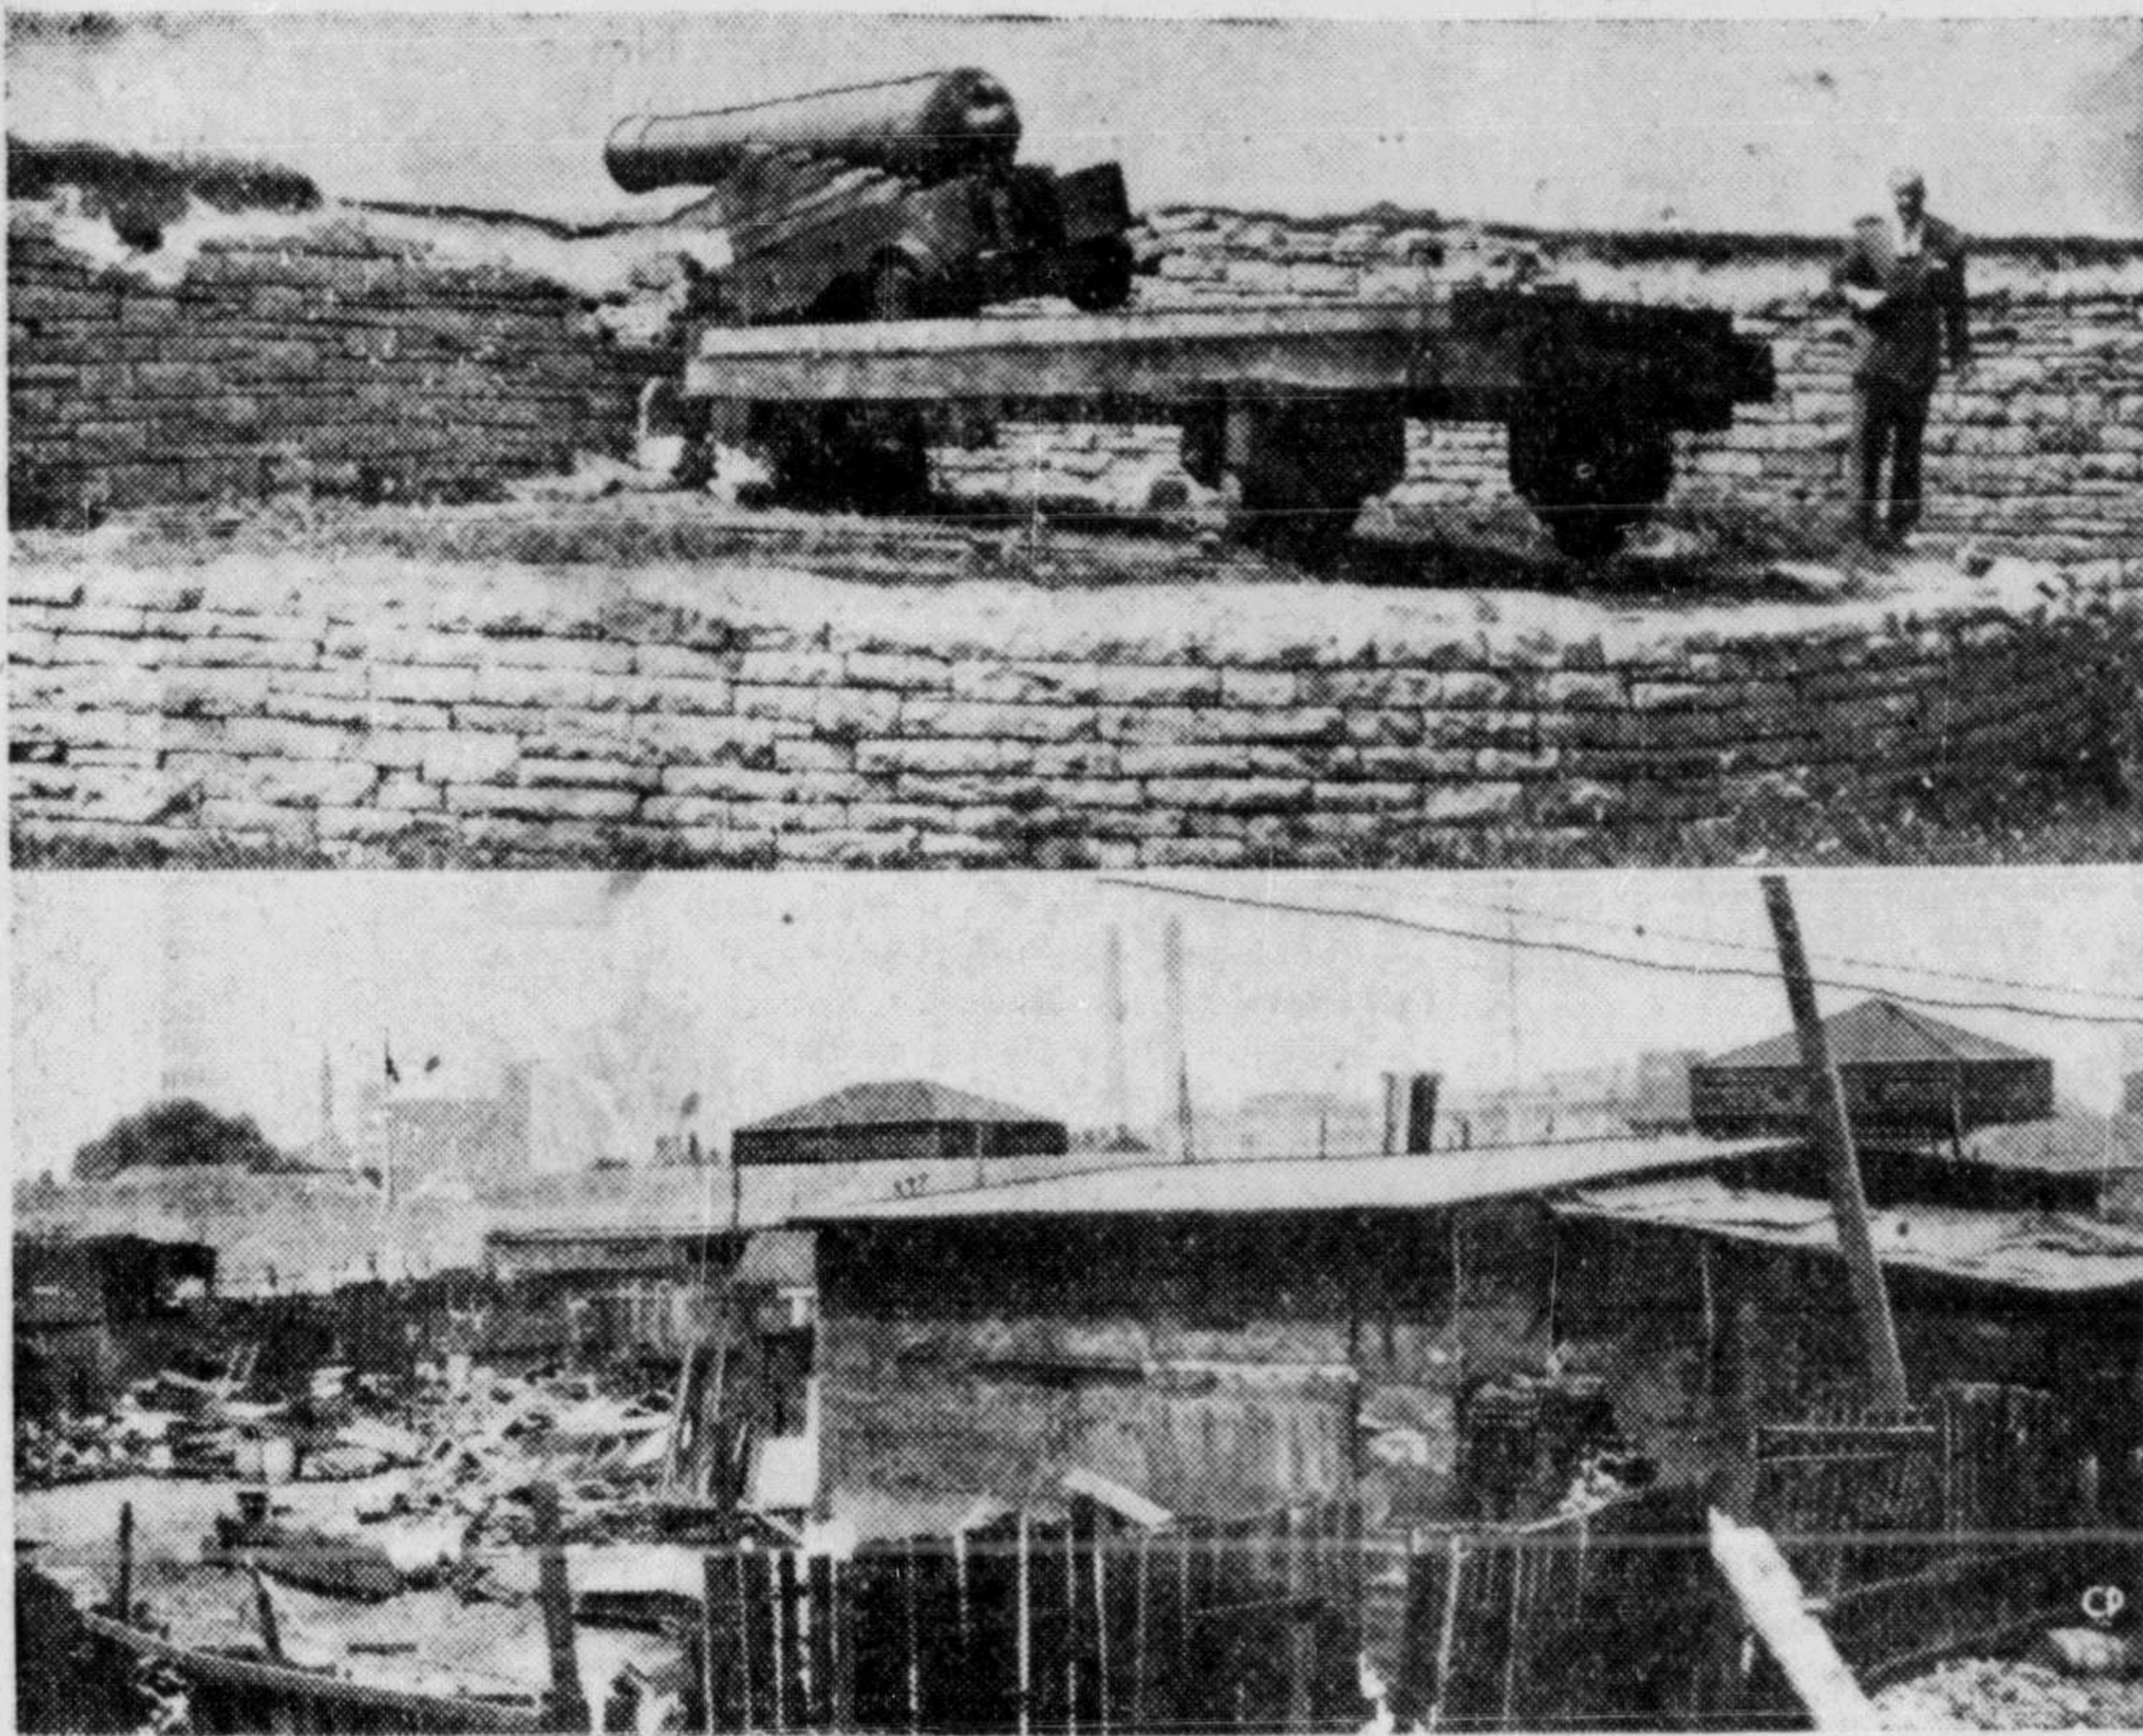

Recent tests have proved that most persons like frozen peas with sugar. At the California Foods Research Institute 190 women each were given two paper cups of peas. Of this figure 155 preferred those to which three percent sugar (by weight)

REGINA — For the first time in 20 years a woman—Miss Alexandra E. Graham—has been appointed principal of a Regina public school.

HUMBLE POLITICIAN
Former Premier Ralston, chair of Madras used to wear his own homespun clothes before beginning his official duties in morning.

had been added. Thirty-one preferred peas packed in their natural state, without sugar. Four expressed no preference.

STRIKING EXPERIENCE
Some 250 Americans witnessed a lethal bolt of lightning

ORIGINAL CAPITAL—Fort York, original site of Ontario's capital, located on the shore of Lake Ontario in the western section of Toronto, has fallen into a state of decay in recent years. Crumbling parapets are unable to support the old cannon on display at the 158-year-old fortification. Broken windows dot the blockhouses and a junk-yard clutters the view of the historical site from the south. The fort fell to United States invaders in the War of 1812; was rebuilt to become the main defence of Upper Canada and was restored in 1934 as part of Toronto's centenary celebrations. It hasn't been touched since. The top photo shows the cannon leaning against the parapets. The bottom photo shows the blockhouses with the junk-yard in the foreground. (CP PHOTO)

Labor Inquiry Date Here Set

Special committee of the Legislature on the Industrial Conciliation Act, in the course of a tour of the province for the conducting of hearings, will be in Prince Rupert September 27 and 28 and in Prince George September 29, according to notification received by J. D. McRae, MLA for Prince Rupert, who is a member of the committee. Chairman of the committee is Arthur Ash, MLA for Saanich.

The committee will start out from Victoria August 21 and will tour Vancouver Island, the Okanagan and Kootenay before coming to Prince Rupert and Prince George. Travelling through the Cariboo it will be back for sessions in Vancouver October 9.

The committee's report on possible overhaul of the Industrial Conciliation Act, on certain phases of which there has been considerable discontent on the part of organized labor, is to be presented to the Legislature at its next session.

The Prince Rupert Trades and Labor Council is among local organizations preparing to make representations here.

Blackwood on Bridge

By Easley Blackwood

Playing the people as well as the cards, Mr. Dale jumped all the way to four spades when Mr. Meek raised his opening bid to two. Playing with Mr. Masters, he would have bid only three spades on the second round. But Mr. Meek is very cautious. For almost every one of his bids he has a little "left over."

There was another important consideration, however. The clubs had to be set up without giving the lead to Miss Brash, thereby preventing a lead through the king of diamonds.

So at trick four Mr. Dale led a heart to dummy's ace and the opening lead by Mr.

4S All pass

Champion was the jack of hearts and Mr. Dale won his own hand with the king. He extracted the opponents' trumps in two leads and then paused to look the situation over.

Clearly the hand was easily makable if Miss Brash had the ace of diamonds. That was a 50-50 chance. Mr. Dale likes to do better than that whenever he can.

He turned his attention to the club suit in which the defenders held six cards. Now, a little more than one third of the time, six cards of a suit in the opponents' hands will be divided 3-3. Well, if the clubs were divided 3-3 here, it wouldn't make much difference who had the ace of diamonds. Mr. Dale could come back with a low club. Miss Brash played the deuce and the

Holder of the Military Cross for gallantry in the First World War, Mr. Kennedy succeeds Rev. Frank Scott MacKenzie of the Presbyterian College of Montreal. (CP PHOTO)

MP Attacks Misuse Of Oil

LONDON—A woman applied for a free bottle of olive oil under Britain's state health service and then used it for frying fish and chips, the House of Commons was told.

Sir Herbert Williams, Conservative member of Parliament for Croydon East, said a doctor in the Midlands told him the story.

The doctor said he refused to prescribe the oil, so the "patient" transferred to another doctor who gave her the necessary form. The second doctor didn't find out until later what the woman wanted the oil for.

"That sort of thing is going on on a large scale," Sir Herbert said. "Masses of people today are abusing their rights under the health service and stealing from the public till."

Dr. Charles Hill, Britain's "Radio Doctor" and a National Liberal—Conservative member, told the House that five prescriptions a year are written for every man, woman and child in Britain.

The House was debating a motion to reduce health service estimates. It was defeated by 257 to 233.

PRINCE RUPERT
LAND RECORDING DISTRICT
TAKE NOTICE that Columbia Cellulose Company Limited, of Watson Island, B.C., Cellulose Manufacturer, intends to apply for a lease of the following described lands—
Commencing at a post planted on the high water line at about seven feet six inches easterly of the S.E. corner of Lot 7386. Thence following the high water line or the South boundary line of the Canadian National Railway right-of-way, as the case may be, in a South Easterly direction a distance of approximately FOUR THOUSAND FIVE HUNDRED FEET to large white triangular beacon at North entrance to Inverness Passage, thence South 35° West a distance of THREE HUNDRED AND FIFTY feet. Thence Northwesterly to the high water line on the S. Easterly extremity of Stapleton Island, Thence Northerly a distance of "NINE HUNDRED FEET" thence to the South West corner of Lot 7386 a distance of approximately ELEVEN HUNDRED FEET. Thence North 47° 30' East a distance of TWO HUNDRED AND NINETY TWO FEET SIX INCHES to the point of commencement. The above containing FORTY acres more or less, to be used for storage of logs in transit to Watson Island.
The purpose for which the lease is required is for log storage.
COLUMBIA CELLULOSE COMPANY LIMITED,

VICKERS' LONDON DRY GIN
famous since 1750

VICKERS' LONDON DRY GIN is distilled in Canada and distributed by **Calvert** DISTILLERS (CANADA) LIMITED

ten was played from the closed hand, Mr. Champion winning with the queen.
A heart return at this point would be ruffed in dummy while Mr. Dale threw a losing diamond from his hand. A diamond lead would make Mr. Dale's king a winner. Mr. Champion apparently knew these things because he returned the nine of clubs.
Mr. Dale won with the ace and led to the king of clubs on the board. When the clubs broke 3-3, the thirteenth club was led and Mr. Dale discarded the four of diamonds.
It was well that the diamond lead was postponed until now because Mr. Champion turned up with the ace and the defenders cash two tricks in that suit. But Mr. Dale made his game, losing only the two diamonds and a club.

CONTINENT'S BEST—Bob Williams, 19, of Hamilton, Ont., won the single-scull championship of the National Association of Amateur Oarsmen with a three-length victory at Worcester, Mass. Williams, rowing under the banner of the Hamilton Leander Boat Club, is the first Canadian to hold the title in 18 years and the fourth since 1899. (CP PHOTO)

ROUNDER REPS MEET—

Local Softballers May Play For Province Championship

Two representative Prince Rupert softball teams will meet in an exhibition game Friday night at Gyro Park to decide which is the better team. One team is managed by Rusty Ford of Rupert Radio, the other by Harry LePage of Columbia Cellulose.

As regular league teams were split up for these games against the Ontario, this game will find many regular season teammates battling against each other and a tight ball game should result. There is a possibility that Prince Rupert may be invited to play in the B.C. Senior "B" playoffs this year and, if this happens, a representative team will be chosen by the league. Most of the logical candidates for such a team are playing Friday. It means that the boys will be hustling to gain a place on the team for the playoffs and the ensuing Vancouver trip.

The teams are:
 Rusty Ford, manager; Daryl Young, Rupert Radio, c.; Monk Sunburg, Rupert Radio, p.; Lloyd Lhati, Hawks, p.; Don Hartwig, Rupert Radio, 1b.; Bud Ratenford, Firemen, 2b.; Ray Spring, Col. Cellulose, ss.; Larry Matthews, Rupert Radio, 3b.; Tommy Sedgwick, Hawks, inf.; Tiny Carlsen, Firemen, lf.; Bill Martin, Hawks, cf.; Ben Wagner, Col. Cellulose, rf.; Denny Waters, uof.
 Harry LePage, manager; Windy Schwab, firemen, c.; Art Olsen, Firemen, p.; Chuck Teichman, Col. Cellulose, p.; Danny Bill, Firemen, 1b.; Jerry Ford, Rupert Radio, 2b.; Don Scherk, Rupert Radio, ss.; Chris Dallya, Col. Cellulose, 3b.; Jack Franks, Firemen, inf.; Bob Losie, Col. Cellulose, lf.; Jordy Smith, Hawks, cf.; Frenchy Vigar, Hawks, rf.; Ed Watson, Rupert Radio, uof.

Rupert Radio Winner Again

Rupert Radio strengthened their first place spot in the local Softball league with a 16-7 defeat of the runner-up Firemen last night. Radios have lost only one game this year and that to the Cellulose team early in the season.

Last night's game was a free-hitter right from the start with Radios ahead 7-2 at the end of the second inning.

Leading hitters of the night were Don Scherk with two doubles and a single; Larry Matthews with three one-baggers and Watson with two doubles. Tiny Carlsen hit two for three for Firemen and Pitcher Art Olsen had a single and a double.

Firemen—	AB	R	H	E
Franks, 3b	4	0	1	0
Whatlam, 2b	4	0	1	2
Tschabold, ss	4	0	0	1
Carlsen, lf	3	1	2	0

BATTER UP

By LARRY STANWOOD

Come more good news for Prince Rupert baseball fans. Next Sunday will see the same brand of ball at Roosevelt Park that packed such crowds over the Dominion Day holidays—a Ketchikan-Prince Rupert All-Star set to, and there'll be two for the price of one. Yes, it's going to be a double-header.

Arrangement for the games is being made by Prince Rupert, Elks Club and the Baseball Association. While here, the Ketchikan visitors will be guests of the Elks, says President Art Murray.

Principally, the same line-up for the Alaskans as played in the International series will fly down Sunday morning. That, of course, will give added incentive to both teams for neither have forgotten their recent bout in which Prince Rupert were the victors and winners of the International Trophy.

Tickets to the game will be available starting tomorrow as advertised elsewhere in this newspaper.

If it should rain, however, the game will be put off until the following Sunday, and so on. An hour or two before they take off, Ketchikan will be advised of weather conditions here.

The All-Star line-up for the home team will be decided tomorrow, say the managers, and choice will be made according to batting averages and fielding percentages to be published in Friday's edition of the Daily

Rockets away...

...to BLAST the target!

Speed and deflection accounted for... target in sights... button pressed! Lethal rockets roar from the wings—off for the target—at 1,200 miles per hour!

The blasting of targets by air-launched rockets is made possible by teams of trained R.C.A.F. Armament Technicians on the ground—the men who plant the firepower and service the complex sighting and firing equipment.

More Armament Technicians are needed now in the R. C. A. F. as well as men to train as... AERO-ENGINE... RADIO-RADAR... INSTRUMENT... AND AIR FRAME TECHNICIANS

The Air Force will train you in the highly specialized field of explosives—a service training that has many valuable applications in civilian industry. Courses in radio, radar and television are available to advanced Armament Technicians.

Serve Canada and yourself—as a skilled Armament Technician in the R.C.A.F.

TO BE ELIGIBLE, you must be... between 17 and 40... physically fit... have Grade 8 education or better.
