## ROYAL HOLIDAY SPOT

235-acre estate near Qualicum Beach, 108 miles north of Victoria, will be home of Princess Elizabeth and the Duke of Edinburgh during their private holiday which started today on Vancouver Island.

Old French habitant pieces match honey tones of knotty pine walls in suite chosen for Princess Elizabeth at Eaglecrest, the vacation home on Vancouver Island chosen for the holiday of the royal couple. Windows of the suite look out across the patio to the sea and a bedroom and bathroom are attached to the suite. Polar bear skins and hooked rugs are on the floor. (CP PHOTO)

# Labor Seen Somewhat Stronger In British Election Today

### Tory Odds Lessening

Conservatives Still Confident of Victory, However

LONDON (CP)—Millions of Britons trooped to the ballot boxes today in the critical general election that marked the second (and possibly the last) of Winston Churchill's relentless efforts to unseat the Socialist government of Prime Minister Clement Attlee. The polls close at 9 p.m. which is 1 p.m. Pacific Standard Time. (By late afternoon early returns should start coming in.)

Early reports indicated that voting throughout the morning was heavier than normal in many districts.

Weather, which had been foggy and cold when polls opened at 7 a.m., turned fair during the morning.

There was an unprecedented surge of voting during the first six hours, cooling some of the pre-election optimism in the Conservative party, one of its officials said.

"Estimates of the expected Tory majority have been scaled down," he added.

Survey of reports from virtually every major area of the country reached Conservative headquarters shortly after noon.

The official said that the number of people who cast ballots between 7 and 9 a.m. was

# NECHAKO RIVER IS PULLED OUT OF BED FOR ALCAN PROJECT

## Boy Spared From Noose

NEW WESTMINSTER (CP)—The death sentence on 17-year-old Francis Stephen Sykes of Mission has been commuted to life imprisonment.

He had been convicted June 2 of the sex-slaying of 13-year-old Laura Grant whose nude body was found in a pasture near her home. He had been sentenced to be hanged December 11.

Sheriff Frank Cotton of New Westminster was advised Wednesday by W. P. J. O'Meara, acting undersecretary of state at Ottawa, that the sentence had been commuted.

## Former Queen of Portugal Passes

VERSAILLES (CP)—Former Queen Marie Amelie of Portugal died today. She was 86 years of age.

## Prince Gets Eight Salmon

VICTORIA (CP)—Princess Elizabeth and Prince Philip went fishing on the Strait of Georgia Wednesday. Philip caught eight grise—young salmon weighing about two pounds.

An information officer, reporting on the royal couple's holiday activities at Eagle Crest Lodge, said the Princess did not nip a line. She wore a blue raincoat and hood with calf-high rubber boots.

Philip wore a tweed jacket and grey flannels.

The motorboat was handled by E. L. Boulbee, one of the owners of the lodge. Philip did not take the tiller.

During the morning it rained hard and the royal couple stayed indoors. In the afternoon it cleared off enough to allow them to fish and take a walk around the 225-acre estate surrounding the lodge.

Philip carried a shotgun but no pheasants were sighted.

It was a peaceful, restful day for the Princess and her husband after a wearying round of official receptions. With cooler but clearer weather forecast, the couple also have today free at Eagle Crest, 106 miles north of here, before they resume their Canadian tour Friday when they visit Nanaimo in the morning, cross on HMCS Crusader to Vancouver to board the Canadian National Railways royal train with stops at Chilliwack, Boston Bar and Edson enroute to Edmonton where they are due Saturday.

This morning the royal couple went into the woods and saw loggers topping fir and spruce trees.

## To Raise Income Tax to Meet Old Age Pension Cost

OTTAWA—Hon. Paul Martin, minister of health, announced today that personal income tax would be increased two percent as part of the plan to help finance the new \$1,000,000,000 universal old age security program.

There will also be an increase of two percent in the corporation tax and two percent of the general sales tax will be earmarked for the pension fund, starting January 1.

After January 1 there will be a \$40 a month pension for every Canadian over seventy years of age.

The income tax increase will become effective July 1 next and the corporation tax January 1. Under the plan the maximum a person will be expected to contribute to the personal income tax is \$60 per year.

## New Deal On BCHIS

VICTORIA (CP)—A new deal for hospital insurance of non-registrants and delinquents is included in four changes in a plan announced Wednesday by the minister of health and welfare, Hon. A. D. Turnbull, on the eve of the special session of the Legislature.

Mr. Turnbull said that none of the changes, all interim recommendations of the recent board of inquiry, required legislation.

The changes are:

1. Introduction of a system where non-registrants and delinquents can become eligible by paying one year's premiums by November 30 and agreeing to pay off the rest in instalments.
2. Reduction of the 30-day waiting period to fourteen days and allowing a period of seven days grace on payments.
3. Acceptance of "terminal cases" who are paid up and recommended by their doctors as responsibility of British Columbia Hospital Insurance.
4. "Regularizing" of practice, already provided for in the Act, of suspending indefinitely arrears of persons of very limited incomes who pay for the current six months and allowing them coverage.

## Settling Down To Peace Talk

MUNSAN, Korea (CP)—Following the deferred acceptance yesterday by the Communists of Panmunjon as the site for renewal of Korean armistice talks, Red and Allied five-man delegations went into full dress conference again today. It is their first meeting since August 22, the day before the Reds broke off discussion after charging that an Allied plane had bombed and strafed the old conference site of Kaeson.

## LULL ON GROUND

TOKYO—A comparative lull fell over the Korean battlefields today as truce negotiations re-opened in Panmunjon. But jet fights raged for the fifth straight day. In the air, Allied and Communist jets tangled in two brisk skirmishes. One Communist plane was damaged. There was no report of Allied losses.

The Panmunjon agreement, setting up new security rules, had been signed Monday by Allied and Red liaison officers and ratified a few hours later by the Allied truce delegation, the Reds delaying their approval for 48 hours.

The Red ratification came after the Chinese Communist leader, Mao Tze-Tung, had called upon the United States to settle the Korean war by peaceful means.

## Hospital Meet More Friendly

There was "a much friendlier" atmosphere at the annual B.C. Hospitals Association convention this year than in 1950, reports C. C. Stevenson, Prince Rupert General Hospital administrator, who recently returned from the meeting.

Hon. A. D. Turnbull, minister of health and welfare, told hospital administrators and directors: "You and I have both been subject to a lot of unjust criticism but we'll just have to live through it."

M. Turnbull told hospital men and women that, because of fast rising costs, the "fixed budget" which B.C. Hospital Insurance System had advanced last year would probably be extended in many cases.

The provincial government would, he said, make up the difference between budgeted finances and actual costs of operation where these were unprecedented.

The Association passed the resolution that hospitals could not go to the people for finances for operation, but that it would be the responsibility of the provincial government.

Miles Donald, pioneer Alice Arm mining and transportation man, having arrived from the north on Tuesday, is sailing tonight on the Prince George for Vancouver enroute to his home at Upper Blackville, near Newcastle, New Brunswick, to spend the winter. Mr. Donald is still suffering from the effects of injuries sustained in the Canoe River railway wreck over a year ago and will receive treatment in Vancouver.

## Maggie Back At Halifax

HALIFAX—HMCS Magnificent returned to Halifax yesterday from a two months' Mediterranean cruise.

The commander of the Magnificent, Capt. Kenneth Adams, turns over command to Captain Kenneth Dyer and goes to the Pacific coast to take charge of the establishment at Victoria.

Then members of the Magnificent crew, who had been stricken with polio, are at work again.

R. G. Benson and his wife returned recently to Prince Rupert from the Atlin district where, for the past year he has been Forest Ranger. This is the first time there has been a ranger in that area.

## Accident in Galley Death

Such Is Latest Claim in Ocean Falls Murder Trial At Vancouver

VANCOUVER (CP)—Testimony that Joseph Ferguson died accidentally was heard yesterday at the murder trial of Winfred Stanfield Young.

Ferguson, second cook on the American freighter Washington, was fatally stabbed at Ocean Falls June 26.

Two Royal Canadian Mounted Police constables testified that Young, chief cook, first said to them: "Oh, hell, I'm guilty. I stabbed him."

Later, they said, Young explained that he and Ferguson were alone in the ship's galley. Turning, Young said he found Ferguson standing over him in a menacing position, holding a large pot of beans.

Young had reached behind him for a kitchen knife to defend himself, Ferguson had lunged forward and impaled himself on the blade.

Although the wound was small, an artery had been cut, Ferguson staggered onto the deck where he collapsed and died.

## Diversion Of Waters

Mighty Blast Changes Course of Swift Interior River

VANDERHOOF (CP)—Man on Wednesday pulled the Nechako River out of its bed for the first time in history.

The incident marked completion of the first step in the Aluminum Co. of Canada's \$550,000,000 project to build a mighty power dam and aluminum plant in the heart of the British Columbia north country.

Three bulldozers and a dragline closed a 100-foot gap in a cofferdam to send foaming waters through a 1500-foot diversion tunnel.

Site of the new dam has been drained of water and dam construction work will now begin. The damsite is 60 miles southwest of this bustling central interior town.

Earlier Wednesday a deafening dynamite blast had freed the lower end of the tunnel so the water could flow through.

More than 1200 pounds of powder set off the blast which hurled rock and shoved boulders hundred of feet into the air.

The entire construction camp of 900 had been put on the alert. Hardrock drillers, caterpillar operators, cooks and foremen alike crouched in corners of buildings and under beds.

So swift is the water in the canyon where the dam will be built that engineers have not yet been able to determine the exact nature of the river bottom on which the great earth fill will rest.

## WEATHER

Synopsis  
Cold air from the interior of the province was sweeping down the coastal inlets this morning and temperatures will be generally colder tonight in most mainland areas by Friday morning.

At Prince George a new October record was set with 13 below as compared with the previous mark of 4 below set in 1935. Temperatures in the southern interior were mistily just above freezing while on the coast minimums were in the mid-thirties.

Cloudiness is decreasing as the dry polar air moves southward and most interior and south coast points will be sunny today. In the north coast it will remain cloudy due to a weak storm but there will be very little precipitation from this disturbance.

Forecast  
North coast region - Cloudy today and Friday. Rain showers on Queen Charlottes and over open waters. A few snow flurries tonight at heads mainland inlets in north portion. Little change in temperature. Light easterly winds except northeast (20), some mainland inlets, becoming light this afternoon and southeast (15) tonight over open water. Lows tonight and highs tomorrow—at Port Hardy, 32 and 45; Sandspit, 38 and 48; Prince Rupert, 35 and 45.

## Prince Dies—Flag Half Staff

The flag over the Swedish consulate here flies at half mast today. The reason is that Prince Carl, a brother of the late King Gustave, died yesterday.

## Sees End of War in Korea

NEW YORK—United Nations Secretary General Trygve Lie expressed confidence today that there would be an early settlement of the war in Korea as a result of the resumed truce talks. The war there might come to an end within a month. Often settlements of this kind came suddenly.

## Would Settle Dock Strike

Top United States Trouble Shooter Arrives in New York

NEW YORK (CP)—A United States top trouble shooter came to New York yesterday to try and untangle the wildcat strike that is choking the east coast.

The federal mediation director Cyrus S. Ching sent his chief aide, Clyde Mills, on a hurried mission as cry arose for White House intervention in the snowballing strike.

Mills got here a few hours after CIC seamen threw their weight behind the dock strike and threatened to make passenger liners as well as cargo ships idle.

Rebel American Federation of labor dock workers have crippled the vast port of New York as tens of thousands of tons of supplies are backed up.

Ships are also tied up at Boston and Albany, stevedores there quitting in sympathy with the New York strike.

Air Force material for General Eisenhower's North Atlantic treaty forces in Europe lie on the Newark docks. Stevedores there refuse to touch it.

## DOCK DISORDER

A brief but spirited scuffle erupted on New York's strike-became waterfront today when some 100 longshoremen drove through strikers' picket line.

Fist fights broke out but no one was seriously hurt.

Wildcat dock strikers' leaders said the walkout would spread to Philadelphia, Baltimore and Chester, Pennsylvania, today.

### Oldest Vet Treated Moose

SUDBURY, Ont. (CP)—Dr. Thomas Craig Young, at 81 believed Canada's oldest practising veterinary, has inspected more than 100,000 horses in his career and once acted as medical advisor to two moose.

Graduating from Ontario Veterinary College in 1892, he practised for 18 years at Cobden, 60 miles west of Ottawa. He was persuaded to come here when his cousin, a Sudbury veterinarian, was killed in a railway accident.

At that time Sudbury had a population of 8000, with 300 horses in the city and another 2000 in lumber camps and farms of the district.

He considers the horse as man's most faithful helper. "Today there are about 30 horses drawing milk in the city," he means. "The bulldozer and the tractor has displaced them in the bush and on the farm."

Practising in Sudbury, he was often called out into the bush to attend a sick horse. On one such mission about 15 years ago the team of huskies pulling his sled broke away and in the upset he suffered a broken hand. But the horse was attended to before he returned to Sudbury to get his hand set.

His Moose patients were two animals captured at Chelmsford and broken to harness. For two seasons they were feature attractions at the harness track there, under the medical care of Dr. Young.

**BELSAW Can Put Money in Your Pocket**

You can make big profits with a Belsaw portable sawmill to operate. It can be powered by tractor or automobile power take-off, and requires only one man operating. Portable sawmill will pay for itself in a short time.

Of compact light-weight steel construction, the Belsaw sawmill can be taken to the job and quickly set up. It mills all corners of the world here come letters to Belsaw users, telling of their success.

## LETTERBOX

### CHILDREN ON STREETS

Editor, Daily News.

The letter in Tuesday's Daily News about children in the streets prompts me to write. It's all too true, not only about those on Eighth East but all over the city, even in some of the so-called "better" sections. Children under 18 months of age are allowed to wander the streets alone. It's only by the grace of God that some mischief doesn't befall them.

Many parents here go to shows, parties, dances, beer parlors, leaving their children with some immature sitter, or often with no one at all. Next day, they're too tired and groggy to give a thought to the poor thing they brought into this world who are left to wander around, half-dressed, unaid and neglected. The working mother cannot possibly do full justice to a home and job both.

In Prince Rupert, the rule seems to be, unless children are dirty, rough and tough, they aren't accepted. That's why they do such things as flood the high school with water when they reach the gang stage.

Such youngsters who aren't neglected, but are looked after, and praised properly, seem out of place. I was told before coming to Prince Rupert that this was a bad place to raise children. Now, after half a dozen years here, I'm afraid I must agree.

NOW A RUPERTITE.

### FARMERS AND MILK PRICE

Editor, Daily News.

To try and improve the public relations between the consumers of Prince Rupert and the farmers of the Bulkley Valley, we would like to raise what we consider to be the \$34 question: who is getting the high price for the milk you drink?

In a recent issue of the Daily News it was intimated that the farmers were taking advantage of the scarcity of milk to skyrocket the price of their product.

The farmer has been receiving the palatial sum of \$5.50 per 100 pounds, or 14½ cents per quart. The railroad alone gets 2½ cents per quart of this amount. This leaves the farmer 12 cents to produce and get a quart of milk to the railroad.

We would also like to point out the fact that Vancouver and Fraser Valley milk is being sold at the expense of the Bulkley Valley farmer. As previously stated, the Bulkley Valley farmer gets \$5.50 per 100 pounds at Prince Rupert, whereas Vancouver milk costs at least \$6.00 per 100 pounds.

It should be quite obvious to anyone stopping to consider that the farmer has to compete in the labor market at the present wage scale. He also has to feed \$50 per ton hay and \$30 per ton grain, use cows that cost from \$300 to \$400 each, besides maintaining a farm and a full line of equipment. The farmer will be an awfully long time getting rich.

Again we ask you, who is getting the high price for milk?

JOHN C. GREENE.

Telkwa.

LONDON (CP)—Edgar Judge, 80, still working in a drug store, said "when I was 50 some people thought I was going to retire, but I enjoy work too much. Celebrating your 80th birthday does not seem to me to be a reason for retiring."

ARABIAN NIGHTMARE—By Robert Chambers in Halifax Chronicle-Herald. (CP PHOTO)

## THE EXPERTS Say...

By KAY REX

Canadian Press Staff Writer

**CUTTING COSTS**—Food storage is one way to cut living costs, says the National Council of Women. And the council doesn't necessarily mean renting a deep-freeze locker or buying one for the kitchen.

A cellar will do—just as long as it's cool. The council, now sponsoring a country-wide "thrift" campaign, says this is just the place to store root vegetables—the potatoes, beets, carrots, parsnips and turnips that are so plentiful these days.

While temperatures should range from 30 to 40 degrees

**Ilka Chase Compares Blue Bonnet — It's Her Favorite!**

Want to get good reception? Here's an idea from Ilka Chase. Compare BLUE BONNET Margarine with any spread at any price. Like the famous television star and author, you'll love the delicate, sunny-sweet flavor of this fine-quality all vegetable margarine. You'll appreciate BLUE BONNET's nutrition. And you'll welcome its real economy. So buy BLUE BONNET and get "all 3" — Flavor! Nutrition! Economy—e! Use it in cooking on vegetables, as a delicious spread.

BLUE BONNET Margarine is sold in two types — regular economy package with color wafer, and also in the famous YELLOW QUIK bag for fast, easy color.

Fahrenheit, there should not be any danger of freezing. High humidity, ventilation and protection against light are necessary.

Vegetables should be permitted to cool off overnight before being placed in storage. All damaged specimens should be removed.

Potatoes, says the council, should be kept in bins, bags or boxes. However, as ventilation is important, orange-crates are best—or any other container, made of slats.

Cover the spuds so the light cannot reach them. Examine them periodically, removing any which show signs of decay. Remove sprouts as soon as they appear. Under ideal conditions they should keep as long as six months.

Fruits or dairy products should not be kept in the same storage, as they absorb a potato flavor.

Slightly dampened—but not wet—sand is the best place to store vegetables such as beets, carrots, parsnips and turnips. Storage temperature for these should be 32 degrees Fahrenheit. Place a layer of sand in the bin or box and add sand simultaneously with the vegetables so that all spaces are filled. Spread a layer of sand on top. Sprinkle the top with water when required—to keep it slightly damp.

**STORAGE CABBAGE**—Firm heavy heads are best. Remove diseased or broken outer leaves. Store in bins, boxes or on shelves—but leave room for ventilation. Humidity can be maintained around 90 per cent by sprinkling water on the floor or by setting out pans of water. Don't sprinkle cabbage.

Onions must be kept dry, preferably in shallow, slatted trays or open mesh bags. The latter can be suspended from the ceiling which permits ample ventilation. Temperature may range from 32 to 50 degrees Fahrenheit.

It doesn't pay to store celery, cauliflower or tomatoes as they can be kept only a short time.

Squash may be kept for several months—in warm dry storage at between 55 and 60 degrees. Pumpkins should be stored under the same conditions

but won't keep as long. Winter apples should be stored in well ventilated boxes. Each apple should be wrapped in tissue and kept at a 32-degree temperature with relative humidity 90 per cent.

### BURNS LAKE SHOCKED

Editor, Daily News.

I was appalled to read in your October 19 issue of the Daily News an article giving an entirely wrong impression of the village of Burns Lake. It was amusing certainly but we, the sober residents of this village, were not amused. I suppose in any beer parlor there are at times scenes where the police have to be called in. This is regrettable but does not stamp the village.

I have followed E. Vann's article with much interest and had hoped that she would write up some of the many fine points about this community... we have our characters, not necessarily drunks, and we have our beautiful setting among the mountains and lakes of this plateau. There is always something of interest going on in the community... for example, the residents are getting together to build a curling rink, the Parent-Teachers' Association has presented the elementary school with a radio, the Ladies of the Royal Purple are planning a Halloween party for the youngsters and so on... perhaps not very colorful, but certainly worth

### PT Opposed to Daylight Time

Boost for Alaska Music Trail—Discussion on Report Cards

A resolution seeking abolition of daylight saving was adopted in principle at the regular monthly meeting of King Edward Parent-Teacher Association.

Over 80 people attended the meeting. A prize of a book was given to the class with the largest number of parents present. Miss Beketov's class was the winner for October.

Mrs. J. T. Harvey gave a brief report on the Alaska Music Trail and brought to the attention of the meeting the fact that the people of Prince Rupert are very fortunate to have the opportunity of hearing the type of music that is brought here at such reasonable prices.

Mrs. W. Boves will represent the school as delegate to the dental clinic committee and Mrs. K. Hardy will be delegate to the Citizenship Council meeting to be held October 23.

Following the business part of the meeting, J. Goscoe, accompanied by Mrs. J. Bowman, introduced at P-TA song. This is a lively number and was sung with gusto.

Gordon Freeman and R. G. Davidson of the Booth Memorial High School lead a discussion on report cards which proved very interesting.

Mrs. K. Hardy was in the chair. Delicious refreshments were served by Mrs. Peterson and her helpers.

### Personals

Mr. and Mrs. B. Hedstrom, who have been on a trip to Vancouver, returned to the city on the Prince George yesterday.

Mr. and Mrs. J. B. Hurst of Vancouver arrived yesterday on the Prince George to attend the wedding of their elder son, Ronald, to Miss Shirley Robins, tonight.

Mr. and Mrs. Thomas McMeekin, who have been away for the last couple of months on a holiday trip which took them to Eastern Canada and the United States, returned home on the Prince George yesterday.

The condition of Fred Read, who was obliged to enter hospital shortly after his return from an extended stay in London during the summer, is reported to be somewhat improved.

Rev. H. M. Wingfield, United Church pastor at Queen Charlotte City, is in the city for the fall session of the Prince Rupert Presbytery of the United Church of Canada of which he is secretary. He arrived from the Islands on Tuesday afternoon's plane.

A photo of Duncan Munro of Prince Rupert is included in a large illustration in the Vancouver Province that features a visit by Princess Elizabeth to Shaughnessy Military Hospital. The Princess is seen in conversation, convenient to the parade of veterans where the old timer from the north is standing.

## Guide and Brownie Rally Draws Parents and Friends

Interested parents and friends attended the joint rally of more than 100 Guides and Brownies on Wednesday afternoon at Conrad Street School to see little Brownie recruits, being enrolled as Brownies and to witness 11 older Brownies advance to Girl Guides.

Twenty-one little recruits solemnly repeated the Brownie law and were admitted to full membership in the Conrad, Cathedral and Catholic Brownie packs. They were Janet Sherry, Virginia Genders, Darleen Gordon, Kathie Beaton, Wilma Denluck, Diane Mori, Judy Fedoruk, Phyllis Perch, Louise Thomas, Judy Hogan, Gwennie Warren, Sharon Robertson, Thelma Childs, Lynn Griffiths, Maureen Murdoch, Margaret Johanson, Brenda Brentzen, Judith Thompson, Loretta Destalais, Doreen Pipke and Gail Lund.

Several Brownies who had so qualified by reason of proficiency were "flown-up" to the Guides by Brown Ows Mrs. W. S. Kergin and Mrs. Williams. They were received by the captain of the Guides, Mrs. Duncan Black, aided by patrol leaders of both the Conrad and Cathedral Guide Companies. "Flying-up" to Guides were Nita Weise, Muriel Prockter, Louise Anderson, Betty Sykes and Anna Colussi. Also advancing to Guide companies were Diana Davidson, Sharon Williams, Gail Berg, Diana Richards, Diana Smith and Betty Blair.

Concluding the rally, cookies were served to the happy group whose enthusiasm for Guide and Brownie work attests to the fine leadership of those sponsoring this movement.

## Mrs. Massey And Princess

Former Prince Rupert Woman Almost Fainted

(By HERC MUNRO in Vancouver Province)

An interview with Princess Elizabeth and Prince Philip in the royal suite at Hotel Vancouver will be a "most beautiful memory for a little Scots city widow."

Mrs. Sam Massey, 1525 Wolfe, is a cousin of Sir John Weir, personal physician to the royal family for more than 30 years.

Sir John arranged for Mrs. Massey to meet Princess Elizabeth and Prince Philip while the young royal couple were in Vancouver.

But Mrs. Massey didn't know arrangements had been completed until 7 Saturday night, when she received a phone call from the princess' secretary, Col. Martin Charteris.

ROYAL COMMAND  
The princess requests that you come to the hotel to meet her," Col. Charteris said.

"I just about fainted," Mrs. Massey told The Daily Province.

Mrs. Massey asked Dr. and Mrs. H. L. Patrick, 4987 Marguerite, to accompany her "for moral support."

Dr. Patrick is a nephew and Mrs. Patrick is a niece of Sir Lancelot Barrington Ward, a famous British physician who also had attended the King.

"We were all so excited," Mrs. Massey said. "Dr. and Mrs. Patrick had a guest for dinner, but when I called they rushed off and left him to baby-sit with their children."

Mrs. Patrick confirmed this and termed the interview "very exciting;" the royal couple, "very charming."

Mrs. Massey said the princess told her: "We (the royal family) have the loveliest doctor. You have no idea how nice he is to all of us."

Her royal highness was referring to Sir John Weir, Mrs. Massey's cousin.

Mrs. Massey said Prince Philip told her: "I'm so glad to hear you, lovely Scots accent."

"Then he asked me where I was born and a lot of other questions, but I can't remember what all was said. It was just as though I were in a dream."

"It will be one of my life's most beautiful memories."

Mrs. Massey recalled that she told the princess she had seen her royal highness during the tour of the city.

"I was so close I could have shaken hands with you," she told her apparent to Britain's throne.

"Why didn't you?" the princess asked. And when Mrs. Massey replied: "I would probably have been arrested," her royal highness laughed gaily.

Mrs. Massey was born in Scotland, and came to Canada as a bride in 1919. She lived in Prince Rupert until 1948. Her husband passed away 18 months ago.

One of her uncles, Rev. John Fleming, often preached to royalty at Windsor Castle, she said.

Among her prized possessions is a copy of a page from the July 22, 1891 edition of the Birmingham Daily Gazette printed on satin.

It formerly was the property of Queen Victoria, and Mrs. Massey took it to the interview Saturday night, but didn't get a chance to show it to the princess.

## Comments on Alaska Trail readers

### COM ON ALASKA TRAIL

D. Jens Munthe—The only time I go into the Civic Centre is to a concert of this type. If for nothing else than the education of children I think the concerts are very worth while.

What do the children hear on the radio, nothing but hillbilly and boogie woogie, so how can they be expected to appreciate anything else? The more they hear of this good music, the less they'll think of the other stuff. And this applies to grown-ups too. Living up here on the outskirts away from concert life altogether, perhaps brought up here, many have never had the opportunity to learn to enjoy good music. But they will learn and simply by attending these good concerts.

Jennifer Large—Mummy might take me to the concerts next year.

Paul Antrobus—I've always thoroughly enjoyed the concerts but I'm particularly interested in hearing Donald Gramm tonight. He must be very good to have attained such outstanding success while still so young.

Christopher Harvey—Last year a man sounded just like the singing wha'e. My dad said he looked a bit like him too.

Diane Gilker—No one should miss any of the concerts, we get so few opportunities in Prince Rupert of hearing such outstanding artists. The program for the concert tonight with its variety of ballads, favorite songs, and light opera is one that should give everyone a wonderful evening.

Hube—The artists who come on the Alaska Trail realize that here as well as in Alaska that they are playing to an average cross-section of people.

## on the ALLEYS

Breaking the season's record in the Men's Five Pin Bowling League, Benny Windle of Manson's came through Monday night with a total of 809, bowling games of 302, 322 and 185. He tied with Harry Cutress of Bud's for high single with his 322.

Both team high single and his three—and new highs for the season—fell to the bowls of Manson's, scoring for the single game 1314, and 3453 for three games of 1182 and 959 additional.

**RESULTS**  
"A" League—Home Oil, 1; Rupert Butchers, 3; Manson's, 4; Moose, 0; Sport Shop, 3; Firemen, 1; P.R. Amusements, 4; Bulgers, 0; Cook's Jewellers, 2; CNRA No. 1, 2; Thom Sheet Metal, 3; Bud's, 1.

"B" League—Paramounts, 4; Royal Fish, 0; Can. Legion, 1; Northwest Const., 3; Jaycees, 3; Kaien Industries, 1; Short Circuits, 3; Bulky Market, 1; CNRA No. 2, 3; Co-op, 1; Coastal Painters, 0; Hot Shots, 0.

**STANDINGS**  
"A" League—Manson's, 15; P.R. Amusements, 13; Sport Shop, 11; CNRA No. 1, 10; Thom Sheet Metal, 9; Home Oil, 8; Bud's, 8; Moose, 7; Rupert Butchers, 7; Cook's Jewellers, 6; Bulgers, 4; Firemen, 2.  
"B" League—Paramounts, 11; Hot Shots, 10; Royal Fish, 10; Northwest Const., 10; Jaycees, 9; Kaien Industries, 8; Can. Legion, 7; Short Circuits, 7; Bulky Market, 6; CNRA No. 2, 6; Co-op, 2; Coastal Painters, 1.

**MONDAY'S SCHEDULE**  
First—CNRA No. 1 vs. Bud's; Rupert Butchers vs. Bulgers; P.R. Amusements vs. Cook's Jewellers; Manson's vs. Thom Sheet Metal; Home Oil vs. Firemen; Sport Shop vs. Moose.  
Second—Royal Fish vs. Jaycees; Coastal Painters vs. Can. Legion; Northwest Const. vs. Paramounts; Bulky Market vs. Kaien Industries; Hot Shots vs. CNRA No. 2; Co-op vs. Short Circuits.

A meeting last Sunday of Prince Rupert bowlers decided that less than five men on a team at league games constitutes a "default." The point had become contentious after some teams had been allowed to bowl with only four men.

**LADIES' LEAGUE**  
In Ladies' Bowling League, Tuesday night, Vi Patrick of Co-op, copped the high single with 277 and rolled three for a total of 609, as runner-up to high three of the night, K. Johnson, of Cloverleafs, whose three-game total was 640, and single, 262.

**Results**  
"A" Division—Rosa Lee 3, Annette's 2, McMeekin's 2, Savoys 2, Stars 2, Cloverleafs 0; Dibb Printing 6, Wrathall's 1, Skeena Gro-

## City Hunters Draw Blank

Three city nimrods returned from a nine-day venture into the wilds of Ootsa Lake yesterday with a feeling that Prince Rupert has a lovely, hot climate. Harry Black, Fire Chief Earl Becker and Ald. Harold Whalen felt something like Robert Service's "man from Tennessee" who couldn't get warm enough as they faced snow, ice and 12-above weather for nearly a week.

And to top it, they did not get their moose. Total luck—one goose by Ald. Whalen, and several ducks by Mr. Black.

"But we did have quite an exciting trip, at times," Ald. Whalen said today. Working out of the farm of E. J. and E. C. Mohr, father-in-law and brother-in-law of Chief Becker, the trio forced their way down the ice-crusted Ootsa river in an out-board powered river boat.

One of them had to stand in the bow, breaking the ice.

"The weather was horrible," according to Ald. Whalen. It was snowing a lot, he said.

On another expedition with a tractor through the forestlands, Chief Becker had a "close call" when the vehicle he was driving slipped partly off a narrow bridge, then hung suspended over the edge. Took the men several hours to get the tractor back on the road.

"Funny what a man will do when he's not getting paid for it," reflected the alderman.

Meanwhile, John Hewstick, holidaying with friends at Vanderhoof came in for several meals of moose meat.

"They're taking them left and right down there," he said.

At Ootsa, however, "there was not a fresh track anywhere."

## Boston Wins From Rangers

NEW YORK (AP)—Boston Bruins defeated New York 3 to 1 here last night and moved out of their cellar tie with the Rangers to join Toronto Maple Leafs and Chicago Black Hawks in third place.

## Japanese Junior Team Probable

Junior basketball in Prince Rupert will have at least four teams, and maybe five, says Registrar Fred Calderoni, following announcement by Both Memorial High School that another team—Japanese of Port Edward—can be fielded.

And still another junior team may be sponsored by the high school, or by a city business firm. This indication is good, thinks Calderoni, "for our future basketballers are today's juniors."

Three junior teams registered so far are Manson's, Annunciation School, and High School.

## Remember when?

Chicago Black Hawks of the National Hockey League traded forwards Bud Poile and George Gee to Detroit three years ago today, in exchange for forwards Armond (Bep) Guidolin and Jimmy Conacher, and defenseman Doug McCaig. Chicago General Manager Johnny Gottselig said the deal "will help strengthen our defence" but the Hawks during the summer were still trading in efforts to improve.

## Curling and Skating Rinks at Burns Lake

### Big Difficulty Getting Stones—Plan for Ski Championship

BURNS LAKE.—"Public donations, and donated lumber, amounting to forty thousand feet, have made it possible to start work on the curling rink," said George Slesinger. It will be housed in a building 160 feet by 32 feet and it is hoped to be completed in six months. There will be two sheets of ice. Membership will be \$25 allowing dues.

"I have had great difficulty getting curling stones," Mr. Beck said when seen in his store. "I couldn't get them at all in Eastern Canada. The rocks seem obtainable only in Scotland, where they are made from a special kind of granite. Now, we are all ready to go."

The Klmsmen are going to build an open air skating rink, next to the curling rink. The lumber has been donated, and the labor will be volunteer. Next year, it is hoped to build a covered rink.

The Omineca Ski Club has started work and is working on a jump hill of 180 feet, and slalom hill, 1200 feet long, with a tow of 1000 feet. "We have a cabin with stoves four miles south of Burns Lake on the Francois Lake road, and a hill on the edge of town, 500 feet long, with a tow of 300 feet. This is floodlighted in the evening," Mr. Williams said.

Since the war, the club has

club has applied for the Northern B.C. championships to be held here in the latter part of February.

## Fight Card To Feature Six Bouts

Matchmaker and trainer of the Elks Boxing Club, Joe Ward, has requested four boxers from the Prince George Boxing Club for the early November card and is now awaiting reply from Nich Schmeling, Prince George trainer.

Feature attraction, of course, will be the challenge bout between Prince Rupert's Mouse Morrison and Mike Ratz, Schmeling's prize fighter.

## Hoop Benefit Plan Adopted

"A most progressive step" is the way Don Forward describes the action of the British Columbia Basketball Association, at its annual convention in Vancouver last week, in ratifying a players' mutual aid fund which embraces all players of all ages in leagues embraced in the Association.

The central fund thus established provides for benefits for players, coaches, referees and officials who sustain injury in the course of league play. The adult premium is \$1 and children 50c. Up to \$50 may be paid in the case of casualties.

The plan has been worked out by the B.C. Basketball Association and operated during the past three years along similar lines to that of the Lower Mainland Softball League which pays up to \$85.

## College Picture In Technicolor

A fresh approach to a controversial theme is offered in the picture "Take Care of My Little Girl," Technicolor offering, which is being featured today, Friday and Saturday at the Capitol Theatre here.

## "Old at 40, 50, 60?" — Man, You're Crazy

Forget your age! Thousands are peep at 70, 75, 80, 85, 90, 100, 110, 120, 130, 140, 150, 160, 170, 180, 190, 200, 210, 220, 230, 240, 250, 260, 270, 280, 290, 300, 310, 320, 330, 340, 350, 360, 370, 380, 390, 400, 410, 420, 430, 440, 450, 460, 470, 480, 490, 500, 510, 520, 530, 540, 550, 560, 570, 580, 590, 600, 610, 620, 630, 640, 650, 660, 670, 680, 690, 700, 710, 720, 730, 740, 750, 760, 770, 780, 790, 800, 810, 820, 830, 840, 850, 860, 870, 880, 890, 900, 910, 920, 930, 940, 950, 960, 970, 980, 990, 1000.

Against an entertaining college background and with a cast peopled by attractive young folk, the picture deals with the snobishness of college sorority life. Jean Crain takes the role of the daughter of a Greek letter society member who enters a mid-western university idealistic about the membership in her mother's sorority but becomes disillusioned by first hand learning of its inequities and infirmities.

Dale Robertson, raucous turned actor, Mitzi Gaynor and Jean Peters have principal supporting roles.

The first British trading post in India was established at Madras in 1611.

# News of the District

## Getting New Post Office Many Activities Make Burns Lake Pleasant

By EVANGELINE VANN

BURNS LAKE — Postmaster McKenna inspects the apartment block across the way hopefully each day, to see how the new home for the post office progresses. The roof is now started, and weather permitting, it is hoped the building will be complete in a couple of months. Other than the post office there will be thirteen offices upstairs, and living quarters downstairs for a family.

BURNS LAKE.—Out of the bright confusion of ideas that is Burns Lake comes evidence of the regulated running of many societies and clubs, for the benefit of the community. If over-organized, that is characteristic of many communities with growing pains.

I was fortunate, throughout a typical week, to be invited to attend some of these meetings and to see the public spirit in evidence there. Early in the week, the Board of Trade met, unfortunately coinciding with a meeting of the Tweedsmuir Rod and Gun Club. I attended the latter where subjects of general interest were discussed informally as there were many members absent. I understand there is a large and enthusiastic membership.

I was told that at the Board of Trade meeting, among other business discussed were the steps which had been taken to get a resident dentist. To further this aim they had written to the College of Dentists and a suite in the new apartment block has been set aside for the use of a dentist.

At a well conducted and well attended P.T.A. meeting one of the subjects under discussion was how best to encourage the school children to bring suitable lunches and if it would be possible to provide thermos bottles for children who hadn't them.

The P.T.A. has been instrumental in getting an orthopaedic travelling clinic of three doctors, and two nurses to visit Burns Lake, and also in getting the village included in the Cariboo Health Unit, which formerly had stopped at Vanderhoof.

During the week, I looked in at the pre-school and well-baby clinic, and found Donald and Fay Klassen of Tebesinkut Lake getting their regular check-up, with Miss Faehon in attendance and every modern convenience to assist her. They were getting their regular check up first, and then were due for small-pox vaccination. Miss Faehon has 5500 square miles of territory, and travelling is difficult in winter. She is then assisted by two married nurses living on the south side of Francois Lake.

At the colorful installation of the officers of BPOE when Earl Deeder was installed Exalted Ruler, the Ladies of the Royal Purple gave of their loyal support, as is done in the women's auxiliaries of so many of the organizations here.

I looked in at the newly formed Goodwill Club, whose object is to raise money for deserving community efforts, and to welcome new comers to the district. The latter object is a welcome sign, as there are many new families arriving who do not know anyone, and who will not know the many amenities of the village.

"Have you come to listen to the Glee Club, or to mark the old clothes?" I was asked when

## Good Schools At Burns Lake

BURNS LAKE—It is always of vital importance to any community that the housing of the school population should be of a high standard. Burns Lake Senior High-Elementary with the new building which went up in February reaches this desirable standard.

The High School building has at present 91 girls and boys. There is a total school population of 257 and a staff of eight.

Room one, which is a science laboratory and classroom combined, is fitted with six modern sinks with water. There are nine power outlets, propane gas, a fume closet, with a fan for drawing out fumes, and tack boards. The room is lined with plaster-board and is sound-proof. There are large lockers, and a large window space with nearly full length windows. The room is well lit with eight 200-watt lights, in frosted globes. There are two other classrooms with lockers and comfortable chair desks, equipped with a drawer below.

In the wash rooms, hot and cold water, paper towels, liquid soap, and every modern amenity is supplied.

There are thermostats in all rooms and, when the temperature falls below the setting, hot water is automatically drawn into the circulation system. When the temperature in the stove drops, more coal is drawn into the furnace from the hopper. Hot water is heated by propane gas, in an automatic heater, with a pilot light. The furnace room is lined with fireproof material, and equipped with automatic sprinklers.

There is no danger of enthusiastic students being locked in overnight as the outside doors, which are locked from outside, are fitted with crash bars.

William Kyle of Pr. George Shot

William Kyle, manager of Canadian National Telegraphs at Prince George and formerly stationed at Prince Rupert, was seriously injured at the interior town last week when a shotgun he was cleaning accidentally discharged.

The charge entered his chest and narrowly missed his heart. The accident occurred in the garage of his home.

He is reported doing well in Prince George Hospital.

## Ships and Waterfront

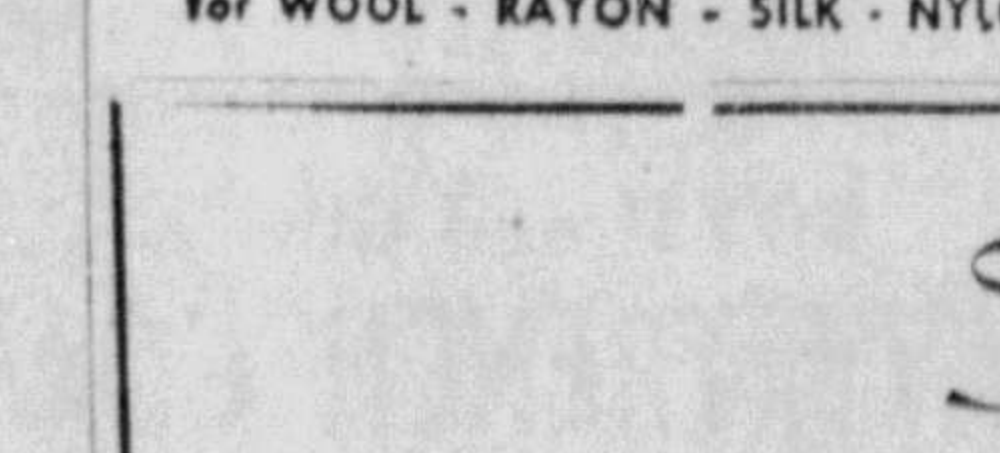

SS. Argus, Frank Waterhouse tanker, Capt. William Boyce, docked this morning with 18,000 gallons of naphtha gasoline and 150,000 gallons of diesel fuel for Imperial Oil. For Sandspit, the tanker carries 18,000 gallons of aviation gasoline.

## Ready To Build New Station

The pilot driver is expected this week to prepare for the foundation of the new, fully modern, two-storey CNR station, and the contractors are expected shortly. It is hoped it will be finished by the end of January.

## Try This NEW IMPROVED double-strength POWDERED BLEACH

What an amazing difference Perflex Powdered Bleach makes to nylon or rayon lingerie — to wools! Like magic, it safely restores that fresh, new look to these delicate fabrics. Now DOUBLE-STRENGTH, odorless — Perflex Powdered Bleach is twice as good. Softens water — makes more suds — saves soap or detergent. It's guaranteed!

it's NEW IMPROVED POWDERED BLEACH for WOOL - RAYON - SILK - NYLON

SHE'S DADDY'S GIRL—Pte. Michael Redmond was aboard aircraft carrier Magnificent in far-off Malta when his 10-year-old daughter Sandra Joy was struck by a car at Halifax, severely injured. The shipmates of Redmond, a member of the Dental Corps, collected \$500 to fly him home. The operation was performed. When he arrived the child was near death but recovered sufficiently to give her father a big hug. (The National Defence)

## Rendezvous for Old Mariners

WINNIPEG (CP)—A group of old mariners gather here every Monday night to spin tales of the sea, sing a sea chanty or two and occasionally "splice the main brace."

Called the Cutty Sark Club after a famous sea clipper, their headquarters, or "ship" as they prefer to call it, is appropriately adorned with sailing gear.

Models of famous sailing ships of the pre-steam era, pictures, rope bords and various other seamen's articles are displayed. One cherished antique is a seaman's manual printed in England in 1783.

There now are 30 members of the club in Winnipeg and 40 others in Australia, New Zealand, South Africa, Denmark, the United Kingdom, United States, Finland, Germany and Tasmania. Until eight years ago, only old-time followers of the trade winds were allowed in the club. However, since their number has decreased, any sailor is allowed to join.

Six of the original members of the club still are alive. One of them—87-year-old Charles Stankey of Waskada, Man.—is the only survivor of the first Cutty Sark crew.

ESTABLISHED BY MAYOR It was a model of the tea clipper that inspired the formation of the mariners' club. C. F. Gray of Victoria, a former seaman and mayor of Winnipeg, saw a model of the Cutty Sark in a Winnipeg store and formed the club of retired sailing men.

The real Cutty Sark has been in a dry dock on the Thames River in England for the last 40 years. Built in 1870, she set many speed records on runs from China and Australia but after the inauguration of steamships could get no cargoes.

After a mixed career, including mutinies and ever-present friction among her crew, the clipper was sold to a Portuguese firm in 1895 and rechristened Ferreira. She roamed the seas for 10 more years and then was turned into a naval training ship.

The landlocked members of the Cutty Sark Club no longer have an opportunity to see a full-scale version of their namesake because they are thousands of miles from coastal waters.

However, they have their models, their pipes and their memories. Every Monday night the nostalgic strains of "Shenandoah" flow from their ship usually followed by a rousing chorus of "Blow the Man Down."

## Legislature In Session

VICTORIA (CP)—The special session of the Legislature opened today with indications it will be brief.

The Speech from the Throne said the session had been called for the specific purpose of dealing with legislation to extend benefits of old age pensions to persons of lower age brackets and to make other modifications in existing old age pension laws.

Subscription Rates: per week, 20c; per month, 75c; per year, \$8.00.

Them Generously RE is much to be said in support of the case of the Ootsa Lake people who have sent their petition to Victoria to protest to the provincial government at what they claim is unfair treatment of the Aluminum Co. of Canada in settlement for property which will be flooded as a result of the Mechako dam project.

For the most of these people—worthy pioneers of the country—it will mean the loss not only of homes but their livelihood as ranchers. Many of them are old timers being torn up by the grass-roots and it is easy to picture their plight and problem in resettlement, even under the best of circumstances.

High Time IS SATISFACTORY that the city council's traffic committee is at long last getting down to business in grappling with parking and traffic problems in the city.

Reflects and Reminisces

Vancouver brewers are on strike and, unless there is prompt settlement, less than a week will witness no beer in Prince Rupert. Go without it for awhile! No one will suffer except in imagination. Perhaps it will be a benefit!

COMO NORTH Northern B.C. bears are the hard-boiled kind. A 300-pound grizzly kept on going for 60 yards after his heart had been ripped apart by a slug of lead.

Weather was almost frosty enough Wednesday to make a fellow think of a broom—and a few hot drinks later on.

HARDLY A GAMBLE If you're puzzled trying to decide which is the best way to make money, there's always one thing you can do. It's always possible to move to Prince Rupert and open a lodging house.

Last Sunday, October 21, was the 148th anniversary of Trafalgar, the battle that established British naval supremacy. Lord Nelson did not live to reap the reward that was his but his descendants did until a few years ago. They had nothing to do with Trafalgar but the name gave them a good and unearned livelihood.

PERHAPS SWAY BALLOT Today is October 25, date of the British general election, and one cannot but wonder how many of the voters will remember it was the Labor government that relieved taxpayers from the necessity of finding in the Nelson family obligations already more than a century old.

May Reopen Negotiations

TEHRAN —Iran's chief oil expert, Kazem Hassibi, was summoned suddenly Wednesday to Washington where Premier Mohammed Mossadegh conferred the day previous with President Truman on the oil dispute.

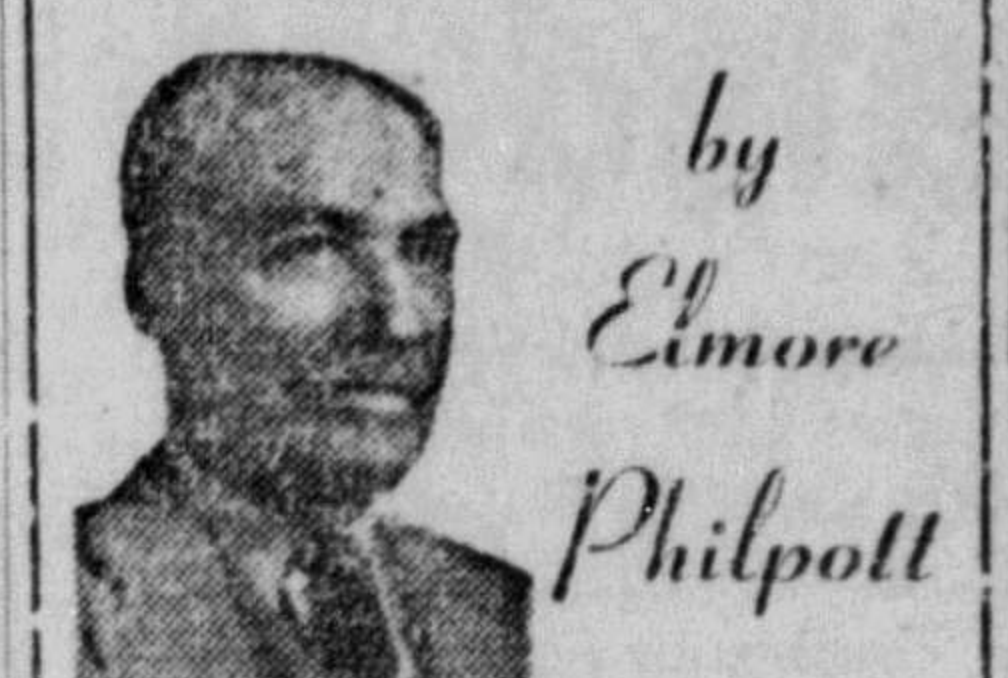

Power Commission Moves Into North

As I See It

Churchill's Last Lap

GLASGOW—I don't know when a public meeting affected me as much as the one from which I have just come. For in a sense it was more than a wind-up of just another political campaign.

THIS IS the climax of Mr. Churchill's campaign and he made it a great one.

AT LIVERPOOL and down south in England, Churchill spoke for only half an hour. Here to the Scots he spoke for an hour and 20 minutes.

He was most emphatic that all political parties in Britain have now accepted the principle of full employment. He told the people quite candidly that the whole western world has learned a lot in the past 25 years.

He was most emphatic that all political parties in Britain have now accepted the principle of full employment. He told the people quite candidly that the whole western world has learned a lot in the past 25 years.

This Dust Welcome

Operation of Elevator Bringing New Business

It was dusty today at the grain elevator—but it was a nice, rich kind of dust and along with it came smell of honest-to-goodness prairie wheat. A dozen or more railroad cars stood waiting for their turn as those before them gushed out golden kernels into the pit.

"The dust?—We don't mind it. Smell that wheat," is the way they talk.

LETTERBOX

OBJECTS TO EDITORIAL

Editor, Daily News, I strongly object to H. G. T. Perry's editorial in Tuesday's News making a plea for sympathy and understanding for those desiring private or separate schools.

**UNSCHEDULED VISIT**—Princess Elizabeth smiles at a crippled boy in a wagon as she makes an unscheduled visit to 1,500 school children gathered around the railway platform in Moose Jaw. With the Princess is Mayor L. H. Lewry of Moose Jaw. The Royal couple were greeted with a western Canadian snowfall on their visit. (CP from Moose Jaw Times-Herald.)

**AS I SEE IT**  
(Continued from page 7)

duced by his wartime government which accepted the provision of full employment as the responsibility of the state.

ONE AGAIN he clearly called for a meeting between Stalin and the leaders of the West to try and find a basis for an honorable world peace. He warned that we could not continue to carry the burdens of armament races, let alone war.

AND ONCE AGAIN he used the same peroration as at Liverpool:

"We must not lose faith in our race and in our destiny. We are the same people, in the same islands, as we were in the great days we all remember.

"Our spirit is unconquerable, our ingenuity and craftsmanship unsurpassed. We have but to cast away by an effort of will the enfeebling tendencies and stand erect once more to take our place amongst the great powers of the world. Never shall we lose our faith or our courage or fail in exertion and resolve."

I have read what the late Joe Clark of the Toronto Star wrote of the great Sir John A. Macdonald's last great speech in Toronto ending "a British subject I will die." I had a feeling tonight that the whole Glasgow crowd had the feeling that this was goodbye to Churchill, the statesman.

For when the thanks had all been said and the old boy was going out to speak to the overflow, the crowd spontaneously sang:

"Will ye no' come back again?"

The old warrior just smiled and paused.

I DON'T think Winston Churchill ever will be back to fight another general election. Not if he lives to be as old as Methusalem, I think Glasgow knows it, and all Britain knows it.

They are more sentimental than they look, these British. Some of them will vote for the old warrior, I believe, precisely because they know it is his curtain call.

**Revising City Traffic Laws**

A special traffic committee will be set up by the city to revise the Street and Traffic by-laws last published in 1943.

Some of the most important amendments to the existing laws will include 15-minute parking revisions, installation of new loading zones, and over-parking restrictions.

Sitting on the committee will be Mayor H. F. Glassey, Ald. Don Fitch, chairman of the police and licensing committee, Sgt. A. E. Wales, chief of police, City Solicitor T. W. Brown and H. W. Long, city clerk.

When the by-laws have been fully amended, a new booklet containing them will be published, says the committee.

**Starting to Move To New Apt.**

Two families are now in the apartment premises on First Avenue (the former U.S. Army administration building). More will be moving in as soon as available. It is understood that the entire 51 apartments have been spoken for. The job of making the whole building suitable for occupancy has been going on for months and still awaits completion for it means a lot of work.

**Final Rites for Angus MacArthur**

Funeral of Angus MacArthur, 77, who died in Prince Rupert General Hospital Friday, was held Tuesday from Grenville Court Chapel, Rev. Dr. E. A. Wright officiating.

Organist Mrs. J. C. Gilker played the hymns "The Lord Is My Shepherd" and "Lead, Kindly Light."

Palbearers were Jack Hickey, Hugh McAuley, Ted MacLeod, Archie McPherson, Hugh Macenzie and Kenneth Campbell.

**28 Dead of Bootleg Booze**

ATLANTIC CITY — Twenty-eight persons are dead as a result of drinking bootleg liquor—word alcohol mixed with water.

**ANCIENT SEALS**  
Ornamental seals engraved with religious designs have been traced to ancient times in Egypt and Syria.

**Barbara Brent's BUYS AND WHYS**  
A WEEKLY INFORMATION SERVICE

**MONTREAL, Oct. 25th**—I changed my mind about instant coffee when I tasted INSTANT CHASE & SANBORN COFFEE! I've never seen there—and the body and the real lift. That's because Chase & Sanborn is made by the coffee people—it's the only "instant" brewed over 85 years' coffee experience. Try this—the hardest test of all... serve it to your husband. I'm willing to wager that he'll get a real kick out of your husband's Chase & Sanborn success! And he'll appreciate the money it saves you. Costs less than ground coffee—and the jiffy-quick, one-cup method of making it means no waste.

**I'm Sure** you've already discovered dozens of kitchen-uses for the C-I-L SPONGES. Let's compare notes! I always use a C-I-L Cellulose Sponge for dishwashing, don't you? It's so soft when it's wet—kind to your hands and your finest china. And its square shape makes it easy to clean the insides and bottoms of glasses and jugs. Then, for wiping off the kitchen table and drainboard—mopping up spills—cleaning the stove and refrigerator, there's nothing like those C-I-L Sponges! I like their five handsome colours, too. There's one to go with your kitchen colour scheme. Ask for C-I-L Sponges—a handy size for every purpose. You'll find them at grocery, drug, variety, hardware or department stores.

**BEAT INFLATION—BUY CANADA SAVINGS BONDS**

**LETTERBOX**  
(Continued from page 7)

suggests it is too heavy a load for a denomination to carry the expense of separate schools. In a recent copy of the Daily News we read that a \$500,000 school has been erected in our north country and will be operated by the Oblate Fathers. I don't believe it is too heavy a load for the R.C. Church but they want the government to pay for it.

Why should we Protestants help pay for a special group to teach their children that which is revolting to our consciences? If it is that important to them they should take care of the expense. If government aid were given them it is only fair that every other denomination or sect, or group who differs in regard to the teaching of the common schools be given aid and it is easy to imagine the confusion and expense it would entail.

In Ontario in 1941 there were approximately 6000 public schools which received a government grant of \$3,646,000, and there were about 800 separate schools which received a grant of \$1,210,000, and the grant for separate schools has steadily climbed through the years.

I believe in giving everyone a chance but I know enough about the methods of the R.C. Church to know that granting separate schools would only be a beginning for a much stronger political hold on our rich province.

Protestants, wake up and protest while you have the opportunity!

Sincerely,  
A PROTESTING PROTESTANT.

**Comic Section This Saturday**

Feature Starting in Daily News—Eight of the Best

A memorable event in Prince Rupert newspaper service occurs this Saturday when the Daily News publishes the first of the weekly 8-page comic color supplements for which it has contracted at considerable expense.

Lt. Abner, Nancy, Abbie and Elats, the Captain and the Kids, The Cinders, Tarzan and Fritzie Rita, Casey Ruggles, an outstanding selection, all are coming and will be presented with each Saturday's edition for the entertainment of our readers.

Ever since the original announcement was made of this notable addition to the paper, favorable and appreciative comments have been made.

It had been expected to start the feature long before this but, soon after the order was made, difficulty occurred in obtaining newspaper supply. After some negotiation that has now been overcome.

The new comic section will not interfere with the daily publication of the popular "Blondie" strip as a classified advertisement page feature.

**HONOR PHYSICIAN**

EDMONTON (C)—Alberta physicians honored Dr. Peter M. Campbell of Lethbridge at a ceremony here on completion of 50 years' practice in the west. A graduate of Queen's University at Kingston, Ont., he came to Alberta in 1900.

**McRAE BROS. LTD.**

**No Wonder** these soups have such a High "P.Q." For after all, HEINZ CONDENSED SOUPS are made by soup-making experts for your enjoyment. Yes, "Soup of the Evening" means Heinz around our house. There are so many varieties to choose from—all of them just as delicious as they can be! Don't wait even a day to give your family the flavour-treat of Heinz Condensed Soups! Serve them as a first course—or in dressings—meat loaves—rarebits—casseroles. They're the flavour heart of many a dish. Ask your grocer for Heinz Soups first thing tomorrow... you know they're good because they're Heinz.

**"I Do Like Pretty Soap"**... "Then" she said, "I remember all I'd heard you say about new BLUE-JAY Soap with Phenylum... I'm in new shoes pretty—and so comfortable, too!" Yes, it's so soft, so soothing, so comforting, so effective in 95% of the cases! Ask your grocer for Blue-Jay with Phenylum—the best!

**"I'd Like You To Try The 'Tint Test'"**—for I'm sure that if you do, you won't believe there's such a difference in a clean skin. Alexis Smith took the "Tint Test" and discovered that there's a big difference in a clean skin. She used WOODBURY COLD CREAM and when she looked at her face she found that Woodbury had loosened hidden dirt so easy to wipe away. Why Woodbury so different? Because it contains Penetex, a new scale ingredient that actually penetrates deeper into your pores and oils loosen every trace of Penetex helps Woodbury soothe your skin, too! Ask for Woodbury Cold Cream—2oz. to \$1.25.

**Three Wonderful Things** about Blue Bonnet margarine!... it's you flavour, nutrition and economy in full measure, yet it costs less! Just compare the price of BLUE BONNET margarine with the price of other brands. Compare its delicious, country-fresh flavour with the flavour of any spread you can think of. And—remember—Blue Bonnet's vitamin content is high every year of the year. No wonder so many women feel they're so much for so little when they buy Blue Bonnet. Which reminds me, Blue Bonnet's YELLOW QUIN bag is now even stronger than ever. It's the easiest, fastest way I know to colour margarine!

**Some Blustery October Evening**, try this "warm-you-up" dinner. It's flavoured with the beefy goodness of BOVRIL—mmm—wonderful! Yes, whatever you make, Bovril makes it better... so add lots of Bovril goodness to this Red Flannel Hash.

3 cubes or 1 tbsp. Bovril, 1 c. chopped beef  
6 medium beets, cooked, 1/2 salt and pepper  
4 medium potatoes, cooked, 2 tbsp. butter  
1/2 tsp. cream

Dissolve Bovril into 1/4 c. boiling water and season with salt and pepper. Chop beets and potatoes, mix with chopped beef and Bovril. Heat in heavy frying pan and add the mixture. Cover and cook until meat is cooked and browned. When nearly ready to serve, add cream brown quickly and serve. Serves 4.

**Can't Wait** to "dig into" those luscious bowls full of smoooth "Cream of Wheat"! That's the way most husbands feel about this most perfect of breakfast foods when it comes piping hot from the pot. And they aren't kept waiting long for delicious 5 Minute "CREAM OF WHEAT"—for it cooks to complete digestibility in just 5 minutes of boiling. And this wonderful "Cream of Wheat" is not only good—it's good for you... for it provides Iron for good red blood, and Calcium and Phosphorus for diets deficient in these elements. That's why "Cream of Wheat" is such a good family habit to get into!

**"Better Late Than Never"**—That's how a friend of mine described herself when she finally got round to buying one of those delightful FACE-ELLE "EX-PASTED" tissue handkerchiefs. Apparently she had been a "habit" buyer... asking for her old brand without a thought as to whether or there were any better tissues available! And she was the only one to make the only limited quantity of the Face-Elle people from enjoying colored handkerchiefs in Canada, her habit-buying kept her from enjoying colored handkerchiefs. So be sure you don't miss out on Face-Elle's extra values—exclusive THREE-ply softness, strength and absorbency! Now you buy tissue handkerchiefs say "Face-Elle, please" and get the quality at an "everyday" price!

**Did You Know Alice In The Walt Disney Picture** "Alice in Wonderland" had a very marvellous mushroom? If she ate one side, she would shrink. If she nibbled at the other, Alice would shoot way up tall. Well, I know a way to help the kiddies in your family to grow tall, and sturdy—that is to have plenty of milk-rich food like JELL-O PUDDINGS for dessert, and Jell-O Puddings certainly offer more variety and are more tempting than Alice's marvellous mushroom. They're so delicious to eat, the kiddies will be begging and Caramel-flavours—Vanilla, Chocolate, Butterscotch and Tapioca. And don't forget the wonderful Jell-O Tapioca Puddings too. They are as good as they are good for you.

# HOUSEKEEPING ...

## BUY CANADIAN APPLES BY VARIETY AS WELL AS GRADE

Right around the cooking. When consumers don't buy certain varieties the shopkeepers won't handle them. The result is, that some very fine newer apples which Canadian growers have produced, have to take a back seat to others not so good. It's natural that Mrs. Housewife is not anxious to buy something she doesn't know about. For this reason the home economists have sent us some information about the various varieties in good supply now and what to use each variety for. In the West the best eating apples on the market now, and which will be on for several weeks are the McIntosh, Jonathan and the Wealthy. For cooking the Wealthy, Joyce, Atlas or Lobo are dual purpose apples, that is, they are good for cooking or eating. The Wolf River, Baxter, Gravenstein are excellent cooking apples, the Jonathan, McIntosh and Fameuse are fine for eating. A relatively new feature is that most of the apples sold on the market today are sold by variety, so buy by variety, as well as by grade. Of course, not every variety is available in all places so, the homemaker should become familiar with the ones sold in her particular part of the country.

Many homemakers have visited fruit packing plants where women were sorting and packing apples, but did this sight bring to their minds the amount of careful work entailed in picking the high grade apples we receive today? The greatest percentage of apples are sold today by grade as "Extra Fancy," "Fancy," and "C." This is a recent change in grading as formerly these grades applied to apples sold only in boxes. Now it applies to apples packed in barrels, boxes, crates, hampers or baskets.

When selecting apples, the first and most important point is to select the right apple for the right purpose. Some are dessert apples, others eating, while still others are better for cooking. Know the purpose the apple is to be used for before shopping. When Mrs. Homemaker buys these crisp, colorful balls of flavor, she should look for firm, well-matured apples with no diseased or bruised spots. Immature apples may be good for cooking or jelly making, but for good flavor in an eating apple it must be matured.

While there are hundreds of apple trees in Canada, there are hundreds of ways to use and serve the fruit of these trees. Canadian homemakers should use them often.

Decided food in jackets, like boiled eggs, and bananas, best food for outraged stomach. Better still, acquired own private store. Fetched tin opener from laundry where found Yosie Le Grand from Paris managing washing machine most efficiently. When vitaminized apple juice, duly opened, feel tumbler must have been surprised at holding such chaste fluid. Nail file excellent for spreading cheese and butter. Very popular with F. F. who had fetched friendly fly friends to inspect ladder.

In conversation with Walter Wilson learned many new houses having to be built outside village limits because of proximity of Indian reservations.

Saw excellent photos taken by R. J. McKenzie from de Havilland Beaver on two weekly trips to pay Alcan employees at tunnel site.

Communicative citizen divulged Victorian relative's dislike of his visits, as he didn't discard Burns Lake habits on entry to that city where the pavements are rolled up and the gates taken in at nine o'clock. Told me story of temperance lecturer, showing Irishwoman how alcohol harmful to living organisms, illustrating by killing "wogs" in glass of water. Declared Irishwoman "I'll never touch water again without a drop of whisky."

Delighted to hear of inclusion of Burns Lake in Cariboo Health Unit, and of possibility of new dentist coming shortly, and of offices available for him in new apartment block. Hear P.T.A. have discussed desirability of

# Central Interior TRAVELS

blankets, only safe place for it when seas rough.

"Listening in" at meeting of "Rod and Gun" club, such expressions as "He was a dandy;" and "He was a whopper," very frequent. Said a clerical fisherman, "You'll be able to go to Ootsa, and get whales if it's logged off." Absence of President suspected because of someone "size of two bits," who had "knocked him over for a row of beans."

Mailed letters at midnight. Bank clerks still working—seen dreadfully long hours. Thought if streets black topped and village landscaped, with better houses built, Burns Lake could become, like hotel, "Pride of the North."

Guest across way kept me awake with hacking cough, echoed from two other layers of hotel. Fortunately sleep with notebook by side of bed for such occasions like psychoanalysis patients who record dreams, on waking.

DENTAL SERVICE

OSLO 9.—The Standard Telephone and Cable Company, one of Oslo's largest industrial plants, has opened its own dental office, first of its kind in Norway. Staffed by two dentists, the office will operate as an adjunct to the company's medical centre.

# Objects To Fireworks

**F.T. Sees Danger of Explosives—Dental Clinic**

Possibility of a dental clinic for pre-school and Grade I children and the problem of "indiscriminate" sale of fireworks to children in the city was spiritedly discussed at Monday night's meeting of the Parent-Teachers' Council.

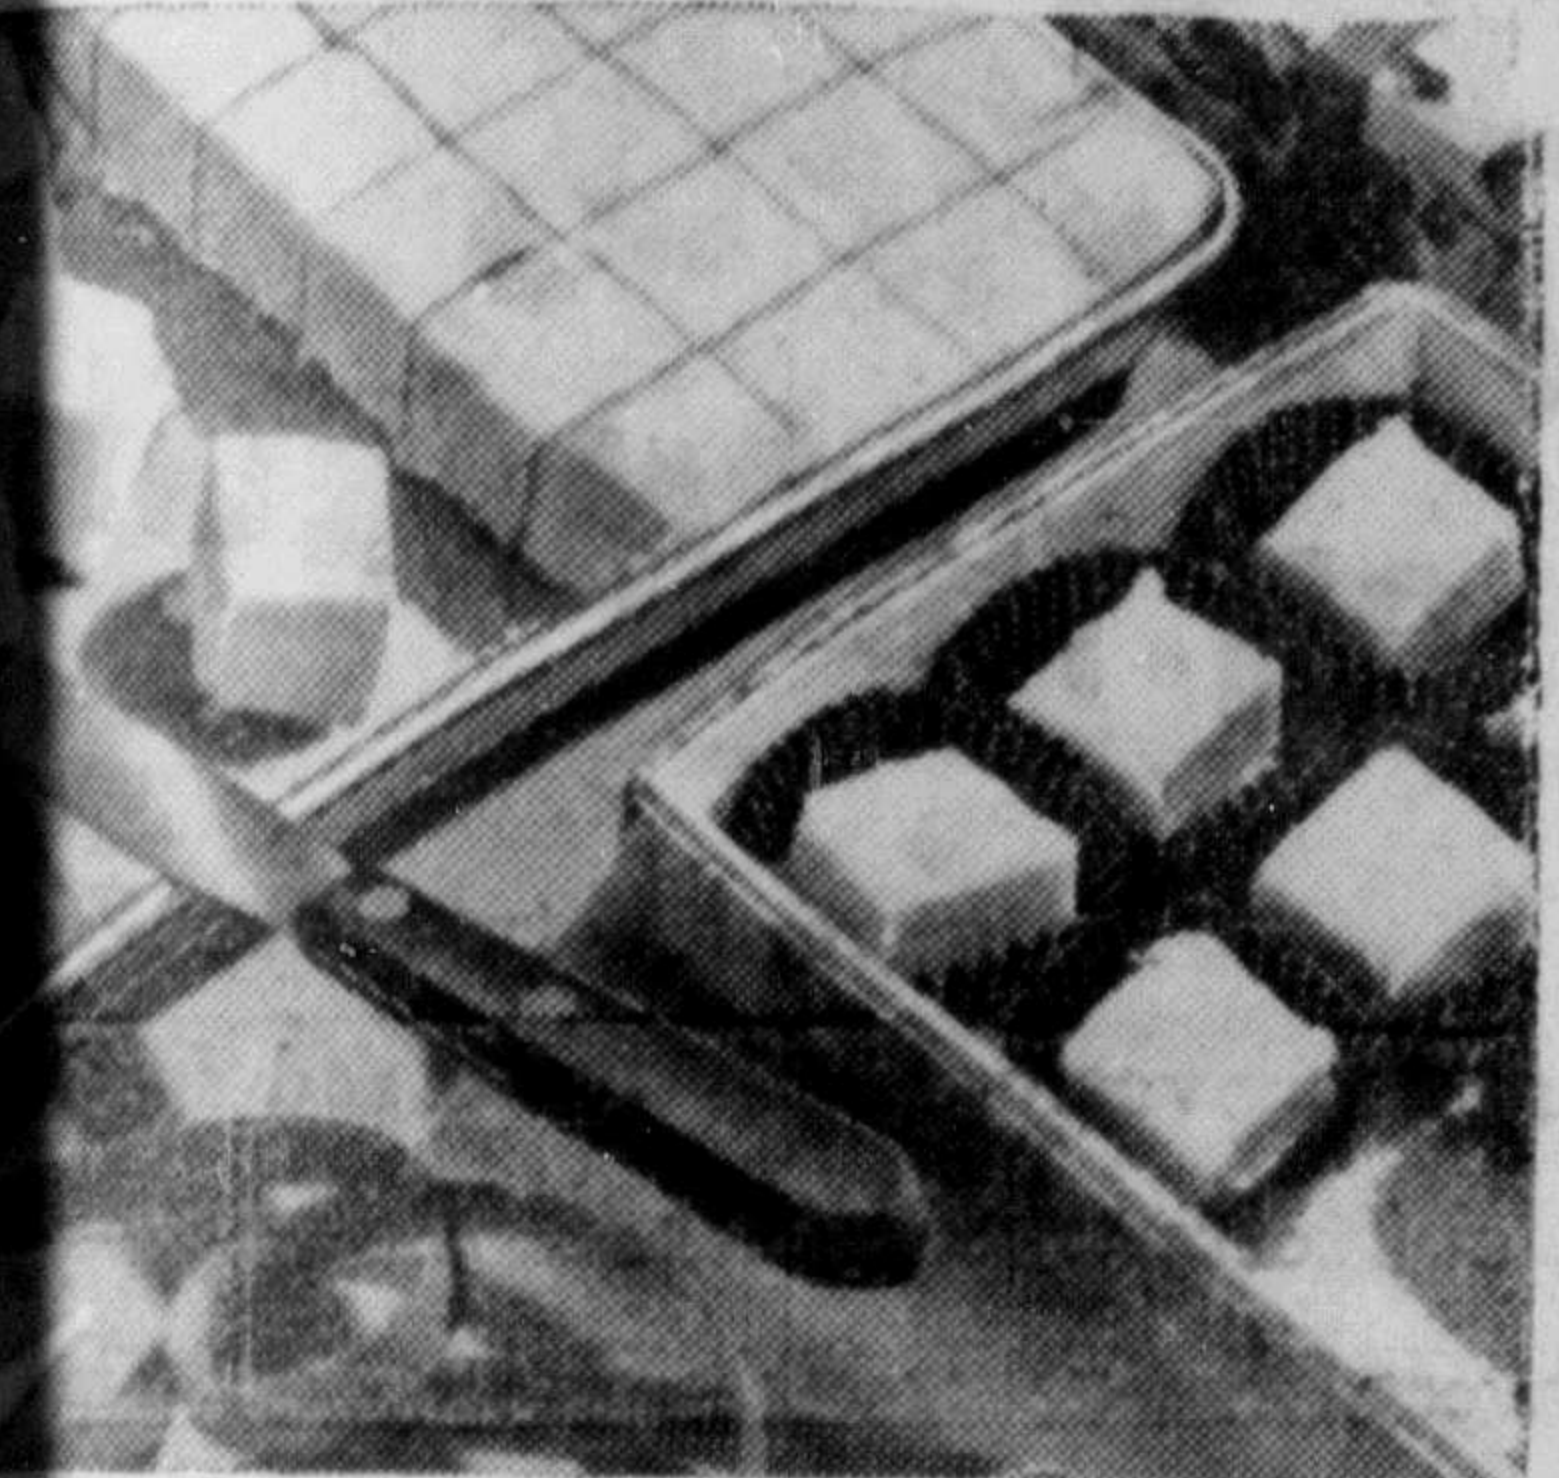

Dr. Duncan Black, city health officer, who outlined procedure to the meeting of setting up a clinic, said dentists here were willing to set aside a period each week to attend a clinic.

The Council decided it would investigate.

Alarm was expressed at the "indiscriminate" sale of fireworks to children and city council will be written in this regard. Members held that fireworks were a "great potential fire hazard and personal injury" and it will be suggested steps be taken by city to curb the sale.

Those present included President R. G. Moore, Mrs. D. Gomez, Mrs. R. E. Mortimer, Mrs. Bjornsen, Mrs. K. Hardy, Mrs. Logan, Mrs. J. Marchant, Mrs. J. Bowman, Mrs. W. W. Bowes, Mrs. M. Hansen, F. Derry, P. Downing, W. D. Griffiths and J. S. Wilson.

To glamorize cream sauce, add a little cheese. You can use Canadian Cheddar, or for a change, Canadian Blue-Vein Roquefort type or pimento process.

ALMOND CREAM CHEESE FUDGE

cream cheese

## Council on Citizenship

J. C. Gilker Named President Of New Local Organization

Teaching the value of privileges a Canadian citizen enjoys will be the main aim of Prince Rupert's newest organization, the Citizenship Council formed Tuesday night.

Heading the council, which was formed at a general meeting of members representing 27 organizations of the city, is President J. C. Gilker. Other executives elected are:

Vice-President—R. G. Moore.  
Secretary—G. P. Woodside.  
Treasurer—Mrs. E. W. Beck-

er.  
Librarian—Miss Evie Rivett.  
Directors are Rev. L. G. Sieber, Rev. H. G. Bird, Father F. J. Rayner, OMI, Miss Iona Hardy, Mrs. Jens Munthe and Mrs. G. Ciccone.

Several new immigrants to Canada, now located here, said they were "very happy" that Prince Rupert citizens had formed such a council, and that one of the main features of Canadian citizenship this organization should stress was "the freedom we have in Canada."

**IMMIGRANT SPEAKS**  
Martin Knight, recently from Holland, felt most of the immigrants to Canada were unaware of the privileges which were theirs to enjoy and because of that often remained following the customs of the old country in Europe.

Language difficulties were discussed and it was decided that an all-out attempt would be made to contact new Canadians in the area for regular general meetings at which individual problems and difficulties could be studied. The meeting was told that some 350 immigrants came to Prince Rupert area last year.

Ald. George Hills, representing city council, supported the idea that an educational program should also include Prince Rupert district natives, but that care should be taken not to call them "new citizens, for they are in fact our first citizens."

A ceremony to congratulate the natives of Metlakatla when that village is enfranchised was mooted by the executive as the first project of the council. Plans for this event will be drawn up at the executive meeting next week when members will submit their ideas.

These plans and a constitution drawn up by the executive will be submitted for ratification at the next general meeting, date, time and place to be announced.

Jayces Offer Masque Prizes

Final plans by the entertainment committee of the Junior Chamber of Commerce for the Hallowe'en masquerade dance next Saturday include a "substantial" prize for the best costume.

Don MacDonald, committee chairman, said that the novelty dance, in cabaret style, is expected to be the first all-masquerade party held here for many years. No one will be admitted without costume, the committee has decided.

ROYAL SMILE—Princess Elizabeth and Quebec's Premier Duplessis exchange smiles while the Duke of Edinburgh signs the Golden Book at the Quebec Legislature. The Royal couple started their Canadian tour at Quebec City Tuesday.

## Recreation Resorts Under Government Plan

Sites in This Area Under Consideration

Overnight camp sites and picnic grounds at Little Oliver Creek, Coyote Creek and Zymozetz Island, fishing and swimming resorts with bathhouses and floats at such points as Sealy Lake, summer home and fishing lodge sites at Pendleton Bay and Babine Landifig and beauty spot park areas at Kleanza Creek and Hudson Bay Mountain are among the developments, the possibilities of which have been looked into under the new parks and recreational department of the provincial Forest Branch.

The Prince Rupert Gyro Club received this information in a luncheon talk yesterday from William Hepper who has just arrived in Prince Rupert to make his headquarters as parks and recreational officer out of the local forestry office.

With Ray Lowery, from Victoria, Mr. Hepper has just made his first survey of the Highway 16 area with a view to selecting likely spots for development.

"Of all the beauty spots we have seen in travelling throughout the province, none are more beautiful than the country between Prince Rupert and Smithers," Mr. Hepper enthused. The grandeur of the glaciers and the mountains is an enthralling sight.

Mr. Hepper told the Gyros something of the aims and objectives of the new department, disclosing the above sites as some of those which might be developed. He expected that there would be some preliminary development in this area by next summer.

Planning would be along overall lines, anticipating demands for actual use.

**\$6 A YEAR**  
Speaking of the summer home sites at such points as Pendleton Bay on Babine Lake, Mr. Hepper mentioned a basic policy

of special lease permits of 150 by 200 feet sites for \$6 a year.

A discussion period followed and Dr. R. G. Large offered the suggestion of developing sport fishing points on the coast, equipping them with small floats for yacht moorings such as was done in southeastern Alaska and which resulted in the attraction of tourists.

Dr. L. M. Greene suggested co-operation in the improvement of the Salt Lake across Prince Rupert harbor.

District Forester M. G. Gormely said that all such suggestions would be welcomed.

The club heard Ben Parker report on the Apple Day campaign, making an appeal for Gyros to turn out and help with the delivery of boxes of apples on Sunday.

## Ketchikan Man Enthusiastic

Charles F. Hattrick, well-known Ketchikan dry goods merchant, was a passenger aboard the Prince George Wednesday returning north after a trip to Seattle and Portland. While away he received medical treatment.

Mr. Hattrick enthused about impending industrial expansion at Ketchikan in the form of a pulp mill which is to be built at, nearby Wacker City. "I've waited since 1918," he observed.

Mrs. J. W. Scott, who has been holidaying in the south, returned to the city on the Prince George yesterday from Vancouver.

William Cruickshank, back from a vacation trip south, brought greetings from the Vancouver and Nanaimo clubs which he had attended.

Congratulations were extended to A. D. Vance on the birth of a son Tuesday morning.

President E. D. Forward was in the chair.

## USE HALLOWE'EN PUMPKIN LIGHTS

on the Christmas lighting string

No Hallowe'en party is complete without "Noma" plastic pumpkin snap-ons as an effective lighting decoration.

## SHIPS AND WATERFRONT

Transfer into the local elevator of Alberta wheat so far arrived from the prairies commenced Wednesday with arrival of inspectors from Vancouver. Fifteen cars are now in—five having arrived Monday and 10 Tuesday. Twenty more cars are on the railway line between Jasper and Prince Rupert.

In command of Capt. Reg Sparks, who is relieving Capt. William Eccles, CNR steamer Prince George arrived in port at 10 o'clock yesterday morning from Vancouver, Powell River and Ocean Falls and sailed at midnight for Ketchikan whence she will return here this evening southbound. The vessel brought in a good-sized list of passengers and a substantial freight cargo. Capt. Eccles is ashore on account of the inquiry into the collision several weeks ago between the steamers Princess Kathleen and Prince Rupert.

Mr. and Mrs. William Cruickshank returned to the city on the Prince George yesterday from vacation in the south. Mrs. Cruickshank has been spending a few months in California. Mr. Cruickshank met her in Vancouver.
