

Communist China Again Rejects Cease Fire

Border Violation In Berlin

BERLIN — Thirty-five armed Russian soldiers today moved across the French-Soviet boundary in the north of Berlin and took up guard positions. French occupation forces were put on the alert.

The Russians had hitherto recognized the boundary although they made a similar move into the British sector last October but moved out when the British prepared to use force.

VANCOUVER FLIGHT HELD UP BY SNOW

The regular C.P.A. flight from Vancouver yesterday morning was forced to return to Vancouver without landing at Port Hardy or Sandspit. Zero-zero visibility on account of snow existed off the northern end of Vancouver Island and at Sandspit. Prince Rupert passengers leaving for Vancouver yesterday morning were forced to spend the night at Sandspit after the Canso, with Pilot Bob McInnis at the controls, made a landing at Sandspit. The plane and crew returned here from the Queen Charlotte Island air base.

The plane returned to Prince Rupert from Sandspit when advised a DC-4 would take the regular flight from Vancouver with passengers from both today's and yesterday's flights.

Houston Mill Man Killed

SMITHERS (Special to Daily News) — Alvin Swanson of Harold Hagman sawmills was killed at 8:30 a.m. Monday by a falling snag when hit on the head.

The camp is seven miles west of Houston.

Nearest known relative is a brother in Sweden.

A falling tree hit a snag which snapped, the recoil killing Swanson.

Inquest is taking place in Smithers today and funeral will be held in Houston tomorrow.

GOOD CUSTOMER

Venezuela is the world's largest importer of powdered milk, frozen and live chickens.

Allies Making Killer Raids On Communists

TOKYO (CP)—Allied forces scouting Communist positions on killer raids in western Korea clung stubbornly today to outposts within striking range of three Communist Chinese armies. Gen. J. Lawton Collings, United States Army chief of staff, witnessed the fighting on his tour of Korean battlefronts.

Greeks Indignant At Civil Service

By SAM MODIANO

ATHENS (Reuters) — Greeks are getting fed up with the unnecessary red tape, inefficiency, laziness, arrogance and corruption of their civil servants.

A Liberal member of parliament, Constantine Bellas, summed up the general attitude of the man-in-the-street in a recent article denouncing the "Mandarins" of Greece. This powerful group of top officials, he said, has so far obstructed the much-needed reform of the state machinery planned by the government.

Five Million Alaska Fire

Railway Shops at Anchorage, Alaska, Destroyed—Sabotage Suggested

ANCHORAGE, Alaska — Alaska Railroad officials yesterday set fire loss of the road's repair shop at \$5,000,000.

Flames, which raced through the shop and adjacent buildings, were brought under control yesterday by firefighters working in 26-below-zero weather.

Estimate of the damage was set by J. P. Johnson, general manager of the railroad which runs from Fairbanks to Seward, at the south end of Kenai Peninsula. He said that investigation into the cause of the fire had been opened and the possibility of sabotage was not being overlooked.

The fire was the first of three major blazes to break out in the city within a 12-hour period.

MOVE MEMORIAL PARK—Muir Memorial Park, laid out in Toronto in honor of Alexander Muir, composer of "The Maple Leaf Forever," is being moved to make way for the city's new subway project. A red maple from the gardens is shown on its way to the new site at Chatsworth Drive. The large block of frozen earth attached to the roots was fitted into a hole cut to the same size. (CP PHOTO)

Washington Crash Takes Lives of Ten Persons

EDWALL, Washington (CP)—A twin-engined Northwest Air Lines passenger plane carried ten persons to their deaths yesterday as it hurtled down through snow and crashed near an eastern Washington farmhouse.

FLASH

SEAGRAVE CONVICTED

RANGOON—Dr. Gordon Seagrave, "Burma Surgeon" of the second world war, today was found guilty of high treason. The 53-year-old American was sentenced to serve six years in prison for aiding hill tribesmen in rebelling against the Burmese government. He plans to appeal the verdict.

ICE PICK SLAYER DIES

HEADINGLY, Man.—Walter Stoney, 38, a Winnipegger, hanged early today for the last March ice pick slaying of Mrs. Martha Perrault, 36-year-old mother of six small children. The slaying followed a quarrel.

WEATHER

Synopsis

Winds moderated over the British Columbia coast this morning following last night's gales although a few squalls are still occurring along Vancouver Island. This moderation will be short-lived as another storm is on its way to the coast. It is expected to be causing strong southerly winds along Vancouver Island this afternoon and will be followed by strong westerlies this evening as the storm moves inland.

Rain will fall over the south coast this afternoon. Snow flurries will persist in other regions. Some improvement in weather is to be expected tomorrow over the province as the storm moves eastward.

Colder air is again spreading into the province and lower temperatures are forecast for most regions tomorrow.

Was Murder And Suicide

VICTORIA — Two friendly young men checked into a hotel here last night. Fifteen minutes later their bullet-torn bodies were discovered by the desk clerk.

Police said it was murder and suicide. But they declined to say which of the youths was the assailant.

One registered as Michael Mazur, Edmonton, 34-year-old welder employed in a Victoria shipyard.

Police identified his companion as Edward Brodie of Vilna, Alberta, newly recruited soldier, stationed at Work Point army barracks here.

The bodies were found at the foot of the bed. One of them had been shot four times. The other youth's jaw was smashed by the impact of a bullet.

Two shots passed through a door, one of them ripping into a sofa where a guest was sitting.

Proposals of United Nations Are Impossible

Supported by United States but Acheson Denies Any Appeasement

TOKYO (CP)—Peiping radio said today that the Chinese Communist regime had rejected the latest United Nations cease-fire proposal. It said the United Nations five-point proposals for peace in Korea and other Far Eastern issues were impossible.

U.S. TO FREEZE PRICES - WAGES

WASHINGTON, D.C. — The government will order a general price and wage freeze within the next five or six days, a high-level government source reported today.

Roll-back if prices to January 1 levels is under consideration this official said.

US Ready To Strike Back

Any Assault Against Mainland Could Be Handled, Says Gen. Vandenberg

TOKYO — Gen. Hoyt S. Vandenberg said today that American air forces will likely be able to strike back quickly against any unheralded air assault against the United States mainland.

U.S. SUPPORTS

WASHINGTON D.C. — Secretary of State Dean Acheson said today that the United States supported the latest United Nations cease-fire proposal for Korea in order to "maintain unity of the free nations against aggression."

Acheson said that a United States vote in favor of a cease-fire appeal did not mean any change in American policy toward Communist China.

The Secretary of State denied, however, that American support for the resolution could be regarded as appeasement as some congressional critics have maintained.

British Naval Ratings Found

Two ratings from the British naval vessel Challenger, lost in the Queen Charlotte Islands since yesterday morning, were found today by a search party from the ship.

Yesterday a party was put ashore at Heater Harbor in the south Queen Charlotte and two of the men failed to return. Search parties from the Challenger scoured the bush yesterday and last night looking for them. A call to Queen Charlotte Airlines to join the search was cancelled this morning when the men were found.

J. Secord returned to Sandspit yesterday after a business trip to this city.

Attempt On Eisenhower

VIENNA — Rumors that there has been an attempt to assassinate General Dwight D. Eisenhower were so strong in Vienna today that the evening newspaper Weltpress published denial of them. News agencies and newspapers were deluged by telephone callers asking if the rumor was true.

Baltimore Ship Fire

One Million Dollar Ship and Famous Troopship Destroyed

BALTIMORE, Maryland — An old troopship which took 1000 men to Europe in 1918 was gutted last night by a raging eight-alarm fire that destroyed the ship's south water-tight bulkhead and injured five persons.

The flames, swept by forty-mile winds, also destroyed an eight-story \$5,000,000 munition pier and burned a large tug and barges of equipment collected for war on Chesapeake Bay bridge. No one was reported hurt seriously.

The 40-year-old transport George Washington caught fire shortly after the flames swept down the 1000-foot timber pier from a small blaze in a shack at the head of the pier.

The tug was trying to nose in between the burning pier and the George Washington. It caught fire itself and had to be abandoned.

Operator's Bail \$5,000

PRINCE GEORGE — Bail was set at \$5000 yesterday for Alfred John Atherton, charged with manslaughter in the Canoe River train collision last November when 21 persons died.

Magistrate N. P. Moran said the man must be put up in two sureties and that bondsmen must appear in person in Prince George.

Atherton, 22-year-old telegrapher, is alleged to have transmitted a train order incorrectly November 21 bringing on the collision.

Canada Would Build Fighters

OTTAWA — It was reported today that the government was preparing a program to build fighter planes for other North Atlantic Treaty powers.

Air Marshal W. A. Curtis, chief of air staff, is in Washington today conferring with United States authorities.

Britain, it is known, is keenly interested in getting Canada to produce F86 jet planes for the Royal Air Force. So are other Atlantic Pact nations.

Move Toward Combined Curling And Skating Rink Commenced Here

General feeling of the meeting at the Civic Centre last night to form a curling club in Prince Rupert was almost unanimous that any rink built should be used for skating as well as curling. Twenty-eight enthusiasts turned out for the meeting.

The framework of a curling club was formed at the meeting with the following officers:

President—Neely B. Moore.

Vice-president—E. Boulter.

Secretary-treasurer—Harold Thom.

Ways and means committee—Laure, T. G. Bateman, William Bremner, E. R. Gordon, W. McKenney, Dr. L. M. Greene, W. Green, Messrs. Simmons, Stone and Mrs. F. Willson. The committee was empowered to act, in consultation with the club extension negotiations with the Curling Association to build a combined skating and curling rink. They will wait on the Civic Centre Association at the annual meeting with a proposal for the joint curling-skating rink and will report back to another general meeting of the Prince Rupert Curling Club February 3.

Dr. Greene, who acted as chairman until a president was mentioned, said the curling rink was the main question of the evening, saying it gave a good outline of the problems. He said he hoped a curling rink could be built in connection with a skating rink. He said that priorities on steel and other materials, among other things, prevented consideration of the moment of construction.

FINANCES

There was a great deal of discussion on where the funds were to come from with Dr. R. G. Large warning the meeting not to rely too much on receiving aid from the Civic Centre reserve fund and Dr. Greene suggesting there might be some help from that quarter.

Don Forward warned that, in construction of rinks and arenas, it has been the experience in other centres that construction cost much more than estimated.

President Moore said a cheaper rink could be built with posts that would be much less expensive than the \$75,000 estimated to build the open arch type.

Mrs. N. F. Wilson said she was not in favor of having a rink for curling with no provision for skating. She also felt it would be easier to raise the additional money for a combined rink than it would for the smaller amount for a strictly curling rink.

The motion to name a ways and means committee was passed and the committee appointed from the meeting.

Those present at the meeting were Mr. Moore, Mr. Boulter, Mr. Thom, Messrs. Laurie, Bateman, Bremner, Gordon, McKenzie, Dr. Green, Messrs. Simmons, Stone and Mrs. Willson, W. Peterson, C. C. Soames, J. M. Rogerson, L. Christopherson, C. Stokoe, Mr. and Mrs. C. T. Young, Margie Matthews, Mel Matthews, John Aven, Lloyd George, Dr. R. G. Large, J. Pinniger, N. F. Willson, J. D. Tucker, G. E. Freeman, Alex McRae, R. Murray and H. B. Whitmore.

Financing Arena

ALL MUST be agreed on the desirability of a curling and skating arena in Prince Rupert. Everything that has been said in favor of the project has our hearty approbation.

But there is one thing we must be sure of and that is the sound financing of the project which we were told last night would cost a minimum of \$75,000 with an estimated annual overhead of \$7000 and probable revenue of \$10,000.

Responsible local citizens in public discussion expressed confidence that ways and means could be developed to put a modest ice arena here on a sound financial operating basis. That is reassuring but it is something that should be made very sure of at the outset.

A poorly-financed project might turn out to be worse than none at all.

To cut the cloth according to the resources from the start is the important realistic approach—and to emphasize this is not to throw a wet blanket on the undertaking.

Criticism

NO ONE really escapes criticism and the more eminent one is the more criticism may be expected, says a banking publication. That is a price one pays for holding a distinguished position. It is as Addison said in his essay on Censure—"Folly to think of escaping it and weakness to be affected by it." There is no defence but obscurity.

Fair criticism implies a desire on the part of the critic to judge with clarity and say with honesty what he believes to be true. His judgment will be based upon his own experiences, his disappointments, his burned fingers, and his beliefs. At the same time, he will make an effort to get the other fellow's point of view and take the gentle and indulgent side of most questions.

Fair criticism does not judge without factual information. It considers the event on which it is to pass judgment in the light of these factors: what was said or done? what did the person mean to say or do? what was his reason for saying or doing it? what is the effect of what he said or did? why do I object to it?

If we are on the receiving end of criticism, we must school ourselves to rise above all that is petty and to accept and use what is worthwhile. There are times to fight back but these must not be decided by inclination but by answering the question, after searching consideration of the criticism: Is it right?

Scripture Passage for Today

"This is the love of God, that we keep his commandments: and his commandments are not grievous."—1 John 5:3.

New Cars For Newfoundland

MONTREAL.—The Canadian National Railways has ordered 40 steel-framed box cars from the Eastern Car Company for use on the Newfoundland lines of the railway. This contract brings the total cost of new equipment on order by the railway to \$56,000,000, said E. A. Bromley, vice-president, purchases and stores, in announcing the new order last night.

The cars will have a capacity of 30 tons and 2181 cubic feet. An unusual feature is the extra wide side doors which measure 7½ feet as compared with the standard six feet and are supported from the bottom instead of hanging by the top rollers. The extra width has been adopted to facilitate loading and unloading.

The cars are equipped with metal running boards and the cast steel trucks have brake-beam safety ladders that are cast integral as an added safety feature. The new equipment will be painted standard CNR colors and bear the CNR insignia.

Old Timers Are Seen In South

The number of local old timers who are settling down "for keeps" in or around Victoria or Vancouver appears to be increasing.

"Spend a few hours on Hastings Street or anywhere else in Vancouver, particularly if the weather is fine," remarked a visitor the other day "and you meet more folks who lived in Prince Rupert in the early days than anywhere else in B.C."

Canadian Pacific Loses Tax Case

VICTORIA.—The Canadian Pacific Railway will have to hand over \$6 millions in tax to the Provincial Government on past or future sales of the railway-owned rich timber belt in Vancouver Island. The Governor-General in Council announced the decision after the railway fought the case to the Privy Council in London. The present decision was handed down after the railway lost their appeal on moral grounds to the Federal Government.

RAY... Reflects and Reminisces

Mayor Fred Hume, newly elected to that office in Vancouver, declines to accept the salary, which is \$7,500. He prefers to see it used, where it would be more needed. There will not be the least trouble finding the necessity.

Seattle Scots have placed an order for haggis for its near the time when the "great chieftain of the puddin' race" will be in demand. But the sales can't be made because the Department of Agriculture declines to stamp haggis pure. The department's assistant district veterinarian is Dr. J. E. LeBlond. He does not sound Scottish. Perhaps not. He was born in Quebec. His mother was born in Ireland. His father was born in France. The doctor wed a Manchester girl and their son was born in Winnipeg.

Cold weather stories from Korea multiply. There's plenty of real ice as well as snow. It may be due to ignorance but we never heard of a Korean hockey player, a Korean curling team or Korean skiing.

Completing a secret flight from Texas the world's biggest bombers—ten-engine and capable of flying 10,000 miles, with atom bombs—have landed in England. It won't stay a secret long—especially in certain parts of Europe.

Seventy mile gusts are said to have been blowing in Victoria Monday afternoon. But this may be surpassed in gale force within another few weeks. Opening of the legislature is pending.

To say more travel is going on today than ever before can hardly be called an exaggeration. From Prince Rupert, which certainly is not a large city, persons leave on world tours, cross an ocean or continent in what usually ap-

Scientists Watch Herring Fishing

Experiments in herring fishing, originated five years ago, are to be continued, according to Dr. J. L. Hart speaking of the recent annual meeting of the Fisheries Research Board of Canada.

At the time the experiments were started, it was observed on the west coast of Vancouver Island that excellent year-broods originated from poor spawnings. This suggested that quota restrictions on herring might be detracting from effective use of that resource.

Quotas have been removed from herring fishing on the west coast of the island and the fishery is being followed in comparison with that on the east coast of Vancouver Island, where quotas have been retained. Since tests have been begun there, however, a succession of good year-broods have supplied a successful fishery.

The experiment will be continued until at least one poor year-class is encountered so that biologists can have definite evidence whether or not concentrated fishing does affect future catches. Average catches before Christmas this year were 189 tons per seiner per day.

pears in a matter of course way. It cannot be said expenses are any the less. There used to be a time in Canada when to journey from coast to coast was a whale of an adventure and for a Maritimer to view Quebec or Ontario was an experience to describe in detail later on.

Premier St. Laurent, home from the conference in London, told the press yesterday that the international situation was "showing an improvement." A Prime Minister can hardly say anything else. Even if it were not so, it is unlikely he would state the reverse. The general tone of his remarks continues cautious, with an undertone of optimism.

Want Ads, Sure Results!

25 YEARS AGO

January 17, 1926
During his visit here this week Hon. T. D. Pattullo, minister of lands, was waited upon by a committee from the newly formed Fishermen's Co-operative Association asking that a site be granted on the government wharf for a fish handling plant. The minister gave his assurance a site would be available when required.

L. S. McGill, Smithers barrister, has been a visitor in Vancouver this week. In an interview published by one of the southern papers, he speaks very optimistically of mining prospects in this district.

It was three o'clock in the morning when the big dance given by the First Battalion, Northern B.C. Regiment, broke up, and then those present seemed reluctant to go home.

10 YEARS AGO

January 17, 1941
A party of Prince Rupert Co-Op basketball enthusiasts was defeated in a game against the Metlakatla Maple Leafs by a score of 69 to 45 at Metlakatla.

As a token of appreciation and recognition of his work and leadership in local Boy Scout activities, Rev. (Captain) Roy Durnford, chaplain of the local garrison area, was presented with a Scout statuette at this week's gathering of the local Boy Scouts.

John May is sailing this afternoon on the Princess Norah for a vacation trip to Vancouver.

CONFUSING
CHRISTCHURCH, N.Z. (C)—A witness in a Supreme Court case here insisted his Christian names were Robert John, not Richard John as had been called by counsel. The judge intervened: "Any property you own, is that in the name of Robert or Richard." The witness replied: "In my wife's name."

Veteran of Four Wars

VANCOUVER (C)—Sgt.-Maj. A. H. O. (Rattlesnake Pete) Freemantle, who spent 48 years and 34 days in the army, has died in Vancouver at 93.

He fought in four wars, starting with the Zulu War of 1879. The veteran of many campaigns got his nickname in the First World War. In 1914, he was training recruits and when he found them doing something wrong, they received one warning and then he "struck."

Sgt.-Maj. Freemantle was born in Somerset, England, in 1857. After the Zulu War, he set out for Canada. He served through the Riel Rebellion campaign in 1885 and in 1899 fought in the Boer War.

At 57, he re-enlisted for the First World War. Once on parade in England, he was asked by King George V how old he was.

"Forty-five, Sir," Sgt.-Maj. Freemantle said.

"Your regimental age, I presume?" the King replied.

Sgt.-Maj. Freemantle won the D.C.M. in France and was seriously wounded later.

In 1939, at 82, he tried to get back into the army. He didn't make it.

CANADA
is a year bigger...

As a place in which to live and work, to earn money and enjoy it, Canada grew tremendously during 1950. It grew with new and bigger oilfields, factories, mines, homes, schools, stores and trade. In fact, Canada grew in practically every department of life and effort.

The Royal Bank of Canada shared in this growth—growing with the country, helping it to grow. For there is no field of Canadian expansion in which the Royal Bank has not shared.

Our loans to farmers, fishermen, industrialists, to firms large and small and to individuals, showed marked increase during the year just closed. Our deposits grew to \$2,537,000,000; our assets to over \$2,497,000,000—both new records in Canadian banking.

We improved our premises in many places to provide faster, more convenient service in congenial surroundings, and we opened a number of new branches to serve rapidly expanding communities in cities, towns and rural areas.

Looking forward, we shall continue our efforts to serve all Canadians efficiently and in a spirit of helpful friendliness.

In the past fifteen years the Royal Bank's assets and deposits have multiplied three times over. Our position among the world's great banks is a symbol of Canada's great and growing importance among the nations.

As compared with 1935:

- Manufacturing was almost three times greater.
- Exports, in dollar value, were four times greater and imports five times greater.
- Oil production was twenty times greater.
- Iron and steel production was nearly four times greater.
- Construction last year was almost ten times greater.

Canada's population has grown by 3,000,000 since 1935—almost a third.

Edmonton Girl Becomes Local Dentist's Bride

Holy Trinity Church in Edmonton was the setting recently for an attractive afternoon wedding when Miss Margaret Lois Deegan exchanged marriage vows with Dr. Alan Miller of Prince Rupert.

The bride is the daughter of Dr. and Mrs. A. A. Deegan of Edmonton. The groom is the son of Mrs. A. F. Miller and the late Mr. Miller of Mission.

Lighted Christmas trees cast a rosy glow over the altar which was banked with baskets of large gold and white chrysanthemums. The archway was decorated with boughs of cedar. Guest pews were marked with sprigs of holly and sprays of white button chrysanthemums tied with large white satin bows.

Rev. W. M. Nainby performed the double ring ceremony. Entering the church on the arm of her father, the bride wore a gown of snow-white Chantilly lace. Her wedding dress was fashioned with a bouffant skirt and featured a strapless fitted bodice.

Over her gown she wore a bolero jacket of matching lace, styled with a flared back. The neckline had a small Peter-Pan collar and buttoned down the front with tiny self-covered buttons. The sleeves tapered over the wrists. She wore a chapel veil edged with Chantilly lace and carried a white Prayer book covered with gardenias and tiny Sweetheart roses. White streamers tied with roses extended from the cover of the book. She wore as her only jewelry a single strand of pearls, gift of the groom.

Miss Jeanette Murray attended the bride. She was groomed in a dress of turquoise velvet styled with a fitted bodice with an off-the-shoulder neckline, and a full skirt. In her hair she wore a velvet bandeau trimmed with sparkling rhinestones. She wore pink lace mittens and carried a colonial bouquet of pink carnations.

Dr. Cyril Worts of Calgary was best man. Mr. J. G. Miller, brother of the groom, and Mr. Roger Deegan were ushers. Herbert Wild played the wedding music.

RECEPTION
Following the ceremony a reception was held at the home of the bride's parents. For her daughter's wedding Mrs. Deegan wore an afternoon frock of black Chantilly lace styled with a low neckline trimmed with rhinestone clasps. Her hat was a close-fitting model of black feathers. A corsage of American Beauty roses was pinned at her shoulder.

Mrs. Miller also received, wearing an afternoon dress of chocolate brown. She wore a head-hugging hat of brown, dusky rose accessories and Talisman roses en corsage.

Rooms throughout the house were decorated with large white pom-pom chrysanthemums and small mauve chrysanthemums. Low crystal bowls of pink carnations were arranged in the living room. The bride's table was laid with an ecru lace cloth. The table was centred with a three-tiered wedding cake surrounded by small Sweetheart roses and white button chrysanthemums.

The cake was flanked by slender white tapers in silver sconces. Dr. P. J. Kendal proposed a toast to the bride.

SOCIAL AND PERSONAL

Arthur Brooksbank arrived in the city from Vancouver on the Prince George this morning.

Regular meeting Women of the Moose, Wednesday, January 17.

R. G. Van der Sluis returned to the city this morning from a two weeks' trip to Vancouver.

J. T. Harvey returned to the city on the Prince George this morning from a brief business trip to Vancouver.

Mr. and Mrs. J. Leeming, Digby Island, who have been on a holiday visit to Victoria, returned from the south on the Prince George this morning.

We are organizing a western swing band and need a piano, bass, guitar, steel guitar player. If anyone is interested, please phone Blue 574.

Larry Stanwood of North Vancouver arrived in the city on the Prince George this morning from North Vancouver to join the staff of the Prince Rupert Daily News.

Mrs. H. B. Rochester arrived in the city on the Prince George this morning from Vancouver, being here on one of her periodical business visits.

A general meeting of the United Fishermen & Allied Workers Union, Thursday, January 18, in the Metropole Hall, 7:30 p.m. Business: election of officers—be there.

E. T. Applewhite, M.P. for Skeena, returned to the city on this afternoon's plane from a brief trip to Vancouver on business.

Mr. and Mrs. Jack Ewart, who have been on a trip south, returned to the city on the Prince George this morning. Mr. Ewart is a member of the fire department staff here.

Hans Koch, Terrace hotel operator, after a two weeks' trip to Vancouver, arrived in the city from the south this morning and will proceed to the interior by the evening train. Mrs. Koch will be returning next week.

Mr. and Mrs. Wilson Hunt of Pentticon arrived in the city on the Prince George this morning and are the guests of Mr. and Mrs. W. D. Lambie, Fourth Avenue East. Mr. Hunt is here to officiate, in his capacity as past district governor, at the annual installation of officers of the Prince Rupert Gyro Club tonight. Mr. and Mrs. Hunt will return south tomorrow night.

Former Local Woman Passes

Word has reached Prince Rupert of the death in Victoria of Mrs. Hannah Hall, wife of James Leonard Hall, former residents of this city, who moved to Victoria a year and a half ago. Deceased was in her seventieth year. She leaves, besides her husband, James, one niece, Mrs. Margaret Gower of Victoria. Mrs. Hall was born in Cheshire, England. The funeral took place January 11, Rev. E. Hulford officiating.

Mrs. Morgan Is Head of Sonja

Mrs. G. Morgan was elected president of the Sonja (Sons of Norway) Ladies' Aid at a meeting held at the home of Mrs. M. Sather Monday night. She succeeds Mrs. John Pederson who served as president for the past two years.

The complete list of officers is as follows: President, Mrs. G. Morgan. Vice-President, Mrs. W. Ballinger. Secretary, Mrs. T. Mulhern. Treasurer, Mrs. H. Helland. Publicity, Mrs. A. Lund. Sick Committee, Mrs. R. Webster and Mrs. M. Sather. Brian Morgan was winner of the raffle.

Following the business session, delicious refreshments were served by the hostess. The past vice-president presented the retiring president, Mrs. Pedersen, with a lovely embossed dish in appreciation of her good work.

The next regular meeting will be held at the home of Mrs. Gunnar Selvig on February 5.

Grocery in West End is Entered

The D & S Grocery was again the target of thieves Saturday night when it was broken into and \$14 in silver removed from the till, which was open. RCMP are investigating. Entry was forced through the front door.

Dr. T. W. Straker returned on today's plane to Vancouver after spending about a week here studying radio conditions.

The tanker Britamerican, Capt. Fred Powers, was in port last night at the British-American Oil Company dock with a load of petroleum products.

R. W. Liversidge, McGill Securities Limited, Vancouver, returned south on today's plane after two days here on business in connection with the new local hotel and apartment building projects of Frank Kaffel. He had no statement to make.

Herring fishing in the central sub-district was slowed down yesterday by snow storms along the coast. However, up to yesterday noon there had been 2,250 tons of herring taken from the vicinity of Surf Inlet. It is probable the continuing cold weather will make fishing extremely difficult and hazardous.

Funeral Of Mr. Holtby

Many old friends gathered at St. Andrew's Anglican Cathedral this afternoon for the funeral of Albert Richard Holtby, resident of Prince Rupert for more than forty years, more than half of which time he was bridges and building master for Canadian National Railways here. A nonagenarian, Mr. Holtby passed away on Sunday at Prince Rupert General Hospital.

Rev. Canon Basil S. Prockter officiated, speaking appropriate words of comfort and tribute.

With Peter Lien presiding at the organ, the hymns were "Son of My Soul" and "Jesus Lover of My Soul" which were favorites of deceased and which he loved to play on his violin.

Palbearers, who assisted in bearing the remains to Fairview Cemetery where interment was made, were H. C. Halliday, A. E. Norton, Victor Lewis, Albert Blackhall, H. Long and J. Zubudney.

There were many beautiful floral offerings.

Interior Town Outgrows Itself— Import of Cellulose—Aluminum

Terrace is bulging at the seams. Everything seems to be outgrown although be it said for the business men of the rapidly expanding community they are making effective efforts to keep up as is to be evidenced by the modernization of several of the business premises. Anyone who has not seen

Terrace for a few months is impressed by the improvements. And there are many new businesses too as rapidly growing population demands more goods and services. New home building is also in considerable evidence although lack of housing is a continuing problem.

Advent of Columbia Cellulose and its big logging operations up the Kalum Valley is the big motivating factor in Terrace's recent growth. Next year Columbia Cellulose is expected to have 250 men on its own logging payroll. That does not include many small sub-contractors who will be contributing to the sixty million feet of spruce, balsam and hemlock, with a limited amount of cottonwood, which the company plans to draw annually out of the Terrace district for the hungry maw of the great new pulp mill at Watson Island.

Meanwhile, with logging and sawmilling long since the major industry of this once quiet little farming community, many sawmills, with their attendant logging operations, continue full blast to supply an undiminished market.

Little, Haugland & Kerr with mill in town and at 17-Mile on the Kalum road. (Successor to George Little, the original and long the only sawmill operator of the area.)

Carl Pohle, who will soon be moving his plant in from the main road to his new site beside the railway track just out of town.

Sande Sawmills (Ernest Sande), formerly the Intervale Lumber & Supply Co.

Skeena Sawmills of Amsbury, Gordon Temple and associates, Turner Bros. at Gold Creek, Copper River Mills (Olivier R. Baxter).

Sawmill on the south side of the Skeena near Copper River, burned out a few months ago but now rebuilding.

W. R. Adams mill, Uak, Pugh Bros., Pitman, Ted Sogenson, Dorreen.

Frabouze Sawmill Ltd. (W. F. J. Osbourne), eight miles out on the Lakelse Road, Lakelse Sawmill, Ralph Matthews.

Ernest Sande mill at Remo, the largest in the district and a summer operator.

And the sawmills are only a part of the timber industry in that area. Hanson Timber & Lumber Co., Little, Haugland & Kerr, and Carl Pohle are in a cedar pole industry of considerable proportions.

Intervale Lumber & Supply Co. (C. L. M. Giggey) is active on a considerable scale in getting out cottonwood logs for

Australia Plans For Antarctica

By LOUIS L. LECK
Canadian Press Correspondent

SYDNEY, Australia (C)—Extension of Australia's scientific enterprises to Antarctica may stem from the work already being done at weather and research stations on islands near the polar continent.

Preparations at present are being made for the relief of a dozen men on Heard Island and a similar number on MacQuarie Island. The scientists have operated on the islands for a year. Australian operations are limited to the two outposts.

Plans are being made also, for an expedition to the continent itself.

External Affairs Minister Percy C. Spender announced in July that the government intended to have a special ship built to send on an expedition to Antarctica in December 1952.

There is also a possibility that the government will send a party there in a chartered vessel in December this year. It is hoped to land a small, compact body of scientists to build and maintain a weather and research station in Antarctica.

The organization of this group, even if it is limited to six or eight men, is a job which involves months of preparation and planning. It must be self-contained and self-supporting. Everything from nails to tractors has to go on the expedition ship.

The existing international activity in Antarctica will be borne in mind by these planners when they organize the coming expedition. It is unlikely that they will attempt to duplicate the work of any other scientific parties. Where possible, they will try to break fresh ground.

ICE-FREE OASIS

To the west of the Australian Antarctic territory in Queen Maud Land, a joint Norwegian-Swedish-British expedition is now engaged in survey work, hoping to make the first scientific examination of the ice-free oasis discovered by the German expedition in the summer of 1939.

The geologists of this expedition also hope that they will be the first to reach the huge "warm" land—the size of Tas-

mania—which lies hidden behind the towering snow-covered barrier of the Queen Maud range.

In French Adelle Land, a thin wedge of territory slicing the big Australian quadrant of Antarctica, scientists have been surveying and running meteorological stations, and taking soundings of the constantly shifting South Magnetic Pole.

The immediate practical value of these two neighboring expeditions to any Australian outpost lies in the chain of meteorological information which, in days to come, will be garnered from stations circling the Antarctic continent.

Cape Freshfield has been suggested as a possible site for the main base of the Australian continental expedition. Other sites contemplated with a view to forming links in the weather stations are at Cape Wild, Cape Bage in King George V Land, and at Haswell Island, off Queen Maud Land, a distance of 1200 miles from Cape Freshfield.

It is expected that another station will be set up eventually in the far west of the Australian territory, in Princess Elizabeth Land or in MacRobertson Land.

Army Ups Pay Lure

OTTAWA—Recent pay increases for the armed forces add much to the attractions of military life—particularly for senior officers.

Here's what the raises do to the monthly pay and allowances of our top brass and "other rank" (married):

	Now	1950
Major-General	\$961	\$800
Brigadier	857	716
Colonel	676	568
Captain	353	326
2nd Lieutenant	263	254
Warrant Officer I	295	246
Private (trained)	170	156

Rates are identical for corresponding ranks in navy and air force.

Marriage allowances are included as well as basic pay and subsistence allowance.

Disparity in the percentage increase is explained this way at National Defense headquarters. The new increases, they say,

Boa Constrictor Reaches Edmonton

EDMONTON — A 3-foot boa constrictor that had coiled itself around the stalk of a bunch of bananas was discovered in Edmonton yesterday. The snake came from Panama and was captured in a box before it was able to escape or harm anyone.

It has been turned over alive to University of Alberta where it will be fed with mice, rats and birds. Boa constrictors, normally, are about 15 feet long.

Simply rounds out a reorganization and levelling out in pay, that has been going on since 1946.

In short, they say, that it was the pay boosts granted in 1947 and 1948, that were out of line.

The new changes are said to iron out these inequities and put both officers and men in line with the basic wage policy worked out in 1946.

NEW DELHI (C)—Dr. S. Sinha, head of the Indian mission in Tibet, has been advised by the Indian government to remain in Lhasa. Dr. Sinha has reported that all is quiet in the Tibetan capital.

The "sure-fire" gunners of the

FIELD ARTILLERY

The Canadian Army Active Force is on the alert. The highly-trained, expert gunners of the Royal Canadian Artillery stand by their guns—ready to defend Canada's freedom.

The fighting men of the Royal Canadian Artillery are expert soldiers. They are trained to work and fight in smoothly coordinated teams... and proud of it!

Canada needs more men like these "sure-fire" gunners—men who prize Canadian freedom enough to fight for it.

You can take your place beside men like these—as a member of a field gun's crew—by reporting

immediately for training as a soldier of the Canadian Army Active Force. Canada needs you now! Report today!

TO ENLIST YOU MUST:

1. Be a Canadian citizen or British subject.
2. Be between 17 and 29 years of age.
3. Be single.
4. Meet Army test requirements.
5. Volunteer for service anywhere.

REPORT RIGHT AWAY TO:

No. 11 Personnel Depot, 4050 West Fourth Ave.,
VANCOUVER, B.C.

Hobby Painters Stage Good Show

TORONTO (P) — Persons who paint during week-ends and other spare hours as a hobby and pastime had their hour of glory when an exhibition of their work was staged at a downtown art gallery.

Fourteen "week-end painters," each representing a different profession, contributed five paintings apiece.

Art critic Pearl McCarthy of the Toronto Globe and Mail called it "an extremely interesting show." She wrote that poet Robert Finch turned out painting that was "calmly analytical and precise," while some of the scientists showed canvases suggesting that they are "romantically inclined."

The painters who exhibited, in addition to Prof. Finch, were: Dr. Gordon Pearson, dentist; Colin Sabiston, journalist; Judge Frank Denton; Dr. Harvey Agnew physician; D. I. McLeod, financier; F. Bruce Brown, architect; F. Erichsen Brown, barrister; Alberto Guerrero, musician; D. C. McArthur, radio executive; Dr. H. B. Van Wyck, obstetrician; Dr. Charles H. Best, physiologist; Prof. Edmund Walker, zoologist; and Dr. H. A. Clowes, research surgeon.

Hazelton Mine Is Paying Bonus

A profit-sharing scheme based on 5 per cent of dividends paid has become effective at Silver Standard mines with the payment of an initial dividend of five cents a share plus a bonus of two cents on December 15.

Each employee, from mucker to superintendent, shares in the fortune of the company over and above basic rates of pay. Each employee receives exactly the same "partnership" cheque provided he has worked the same time within the period preceding the dividend. In the present instance, each employee who works full time in the four months preceding December 1, 1950, has been paid \$94.34. Cheques to other employees were in proportion to the time worked.

The current payment relates to the four months ended November 30 and the same course is to be followed each time a dividend is paid.

Earnings in the three months ended September 30, 1950, amounted to 9.7 cents a share as against 7.4 cents a share in the three months ended June 30, 1950.

NET PROFIT HIGHER

Net profit for the six months ended September 30, 1950, amounted to 17.1 cents a share compared with a total net profit of 6 cents a share in the 12 months ended March 1, 1950.

During the first half of the current fiscal year (six months ending September 30), the mill averaged slightly better than 60 tons daily which is the capacity of the present plant. The broken ore reserve has been increased from 3820 tons in June to 8073 tons as at October 31, a quantity in excess of three months milling requirements.

Ore reserves at Silver Standard are estimated to be larger now than at March 31, 1950, both in tonnage and in total of metal content.

PLEASING "SENTENCE"

CHATHAM, England (P) — A woman fined 5s. (75 cents) for a motoring offence was also "sentenced" to take lunch with the magistrate and bench. Her fine was paid by the court to celebrate the opening of the new courthouse.

GOLDEN GOOSE'S COUSIN

HOUGHTON, England (P) — A Rhode Island Red hen, Huntingdonshire's "Golden Girl," is a close cousin of the golden goose. As champion egg-layer in Britain her eggs are sold to breeders at £10 (\$30) a dozen.

Big Defence Orders Given

OTTAWA — Canada's defence program picked up a lot of speed during the past week.

New defence orders—in the neighborhood of \$100 millions—are on the verge of going to Canadian manufacturers.

They will cover a new phase of the defence program—our commitment to the North Atlantic Treaty Organization (N.A.T.O.).

Very large initial orders cover radar and electronic equipment. Some have already been placed.

Artillery and aviation orders are expected to add to the total. Individual sums involved in these orders cannot now be disclosed. At least one is for a very big amount.

This means that after months of detailed study and consideration, Canada's industrial potential is about to feel the impact of North Atlantic rearmament needs.

New Vitamin F Laboratory

VICTORIA — A duplicate of the Swiss laboratory which produces the essential fatty acid claimed to be Vitamin F has been constructed at Saanichton, British Columbia. Cost of the plant is estimated at \$250,000 with the ultimate employment of some 60 people.

Here to supervise initial production at the new plant, E. A. Wyler and E. G. Locher were flown from Zurich, Switzerland. Dr. Wyler is first assistant to Dr. C. Schmitz, who is credited with the discovery of preparing, concentrating and refining the essential fatty acid. He worked nearly seven years in his Swiss laboratory to produce the first drop of the product. The results gave an essential fatty acid of a 99% purity. It took a further three years of intensive research work to finally design a manufacturing laboratory capable of turning out quantities on a commercial basis.

Clinical tests over a period of 2½ years are reported to show amazing response to treatment, especially in chronic cases of eczema, leg ulcers, boils and psoriasis.

95% of the raw materials used are of Canadian origin and only the finest natural oils of carefully selected plants are used. The final product must then pass rigid chemical, biological and bacteriological tests.

Blackwood on Bridge

By Easley Blackwood

"Dear Mr. Blackwood: When my partner bids four no trump and I have one ace and a void suit, do I bid five diamonds to show only one ace, or do I bid five hearts to show first round control of two suits?"

—Miss L. V.

I want to answer this not only for Miss L. V., but for many others who ask this same question. The answer is that you bid five diamonds, forgetting all about the void suit. In other words, you do not count a void suit as an ace in responding to four no trump.

Both vulnerable,
South dealer.

North	East
(Mrs. Keen)	(Mr. Masters)
S-A 10 2	S-8
H-K 10 8 2	H-Q J 7 6 3
D-10 8 5 4 2	D-J 9 7 3
C-J 10 7	C-Q 6 5

South (Mr. Abel)	West	North	East
S-J 5	Pass	3 S	Pass
H-A 9 4	Pass	5 D	Pass
D-10 8 5 4 2	Pass		
C-J 10 7	All Pass		

The bidding:
South 1 S
West 1 S
North 3 S
East 5 D
All Pass

The reason has to do with that disaster which good bridge players always fear—duplication of values. You see, if you control a suit by being void in it, your partner may control the same suit by having the ace. You are both holding the same front door shut while the villain calmly walks in the back door unopposed.

Housekeeper Gardner Now

REGINA (P) — Miss Sarah Isabella Faskin is a six-generation Canadian.

And in her family the railway tradition runs strong. She has worked for the Canadian Pacific Railway for 30 years and is retiring from her position of hotel housekeeper.

Grey-haired and dressed meticulously in black, Miss Faskin has been used to a life that kept her on 24-hour call. Now she admits that "a quiet life is going to take some getting used to."

The Faskin family came from Elora, Ont. They moved to a fruit farm at Armstrong, B.C., and later Miss Faskin became a maker of custom wedding dresses in a large Vancouver dress store. Later she went into the linen department of the old Vancouver Hotel, beginning her 30-year association with the hotel business.

Now she'll leave Regina and settle in a small house in Vancouver to devote her time to two hobbies—gardening and needlework.

"I have no complaint. I'm just delivering his hearing-aid, which was being repaired."

Stewart News

The Stewart branch of the Canadian Legion is making preparations for the celebration of the anniversary of Robert Burns, Scotland's national bard, and streets which have been on January 27. It will take the

form of a concert and dance to be held in the Legion Hall.

Another two feet of snow fell during the past week and all the fences in town are covered. There is over four feet on the level apart from the main roads Burns, Scotland's national bard, and streets which have been clear by the snow plough.

You can cut down your money problems...with Personal Planning

WHAT IS Personal Planning?

Personal Planning is more than mere budgeting... that, by itself, is dull.

Personal Planning is a positive financial program for successful individual and family living—a program for progressive and provident people—people who have ideas for their future and want to make them real.

That's why Personal Planning is so different. It is a plan that faces the fact that all of us must live on what we have—not on what we wish for. It also faces the fact that a budget-plan should never choke the fun out of life. It shows you how to put yourself on your own payroll, as well as the butcher, the baker and candlestick-maker. It shows you how to build for tomorrow, while you enjoy today. Yes, and it shows you how to get the most out of life with what you earn.

In Personal Planning, the important thing is: IT'S NOT HOW MUCH YOUR INCOME IS... IT'S HOW YOU USE IT.

WHAT PEOPLE ARE SAYING ABOUT Personal Planning

Personal Planning was introduced on a test basis to visitors at the Canadian National Exhibition last autumn. Thousands of people responded to our invitation and asked for copies of "Personal Planning for Successful Home-makers."

"Up-to-date and practical for present living conditions," is what one visitor wrote us after reading the booklet.

"I needed this advice very badly," wrote another, "and you have already helped to straighten out a quarter of our personal problems."

"Excellent pamphlet," said a third. "My budget-plan will be organized within a month."

These comments, and many more like them, are in the Bank's files at the Head Office in Montreal.

DO YOU RUN YOUR MONEY, OR DOES IT RUN YOU?
Can you make your money do for you the things you think it should? You can... with Personal Planning.

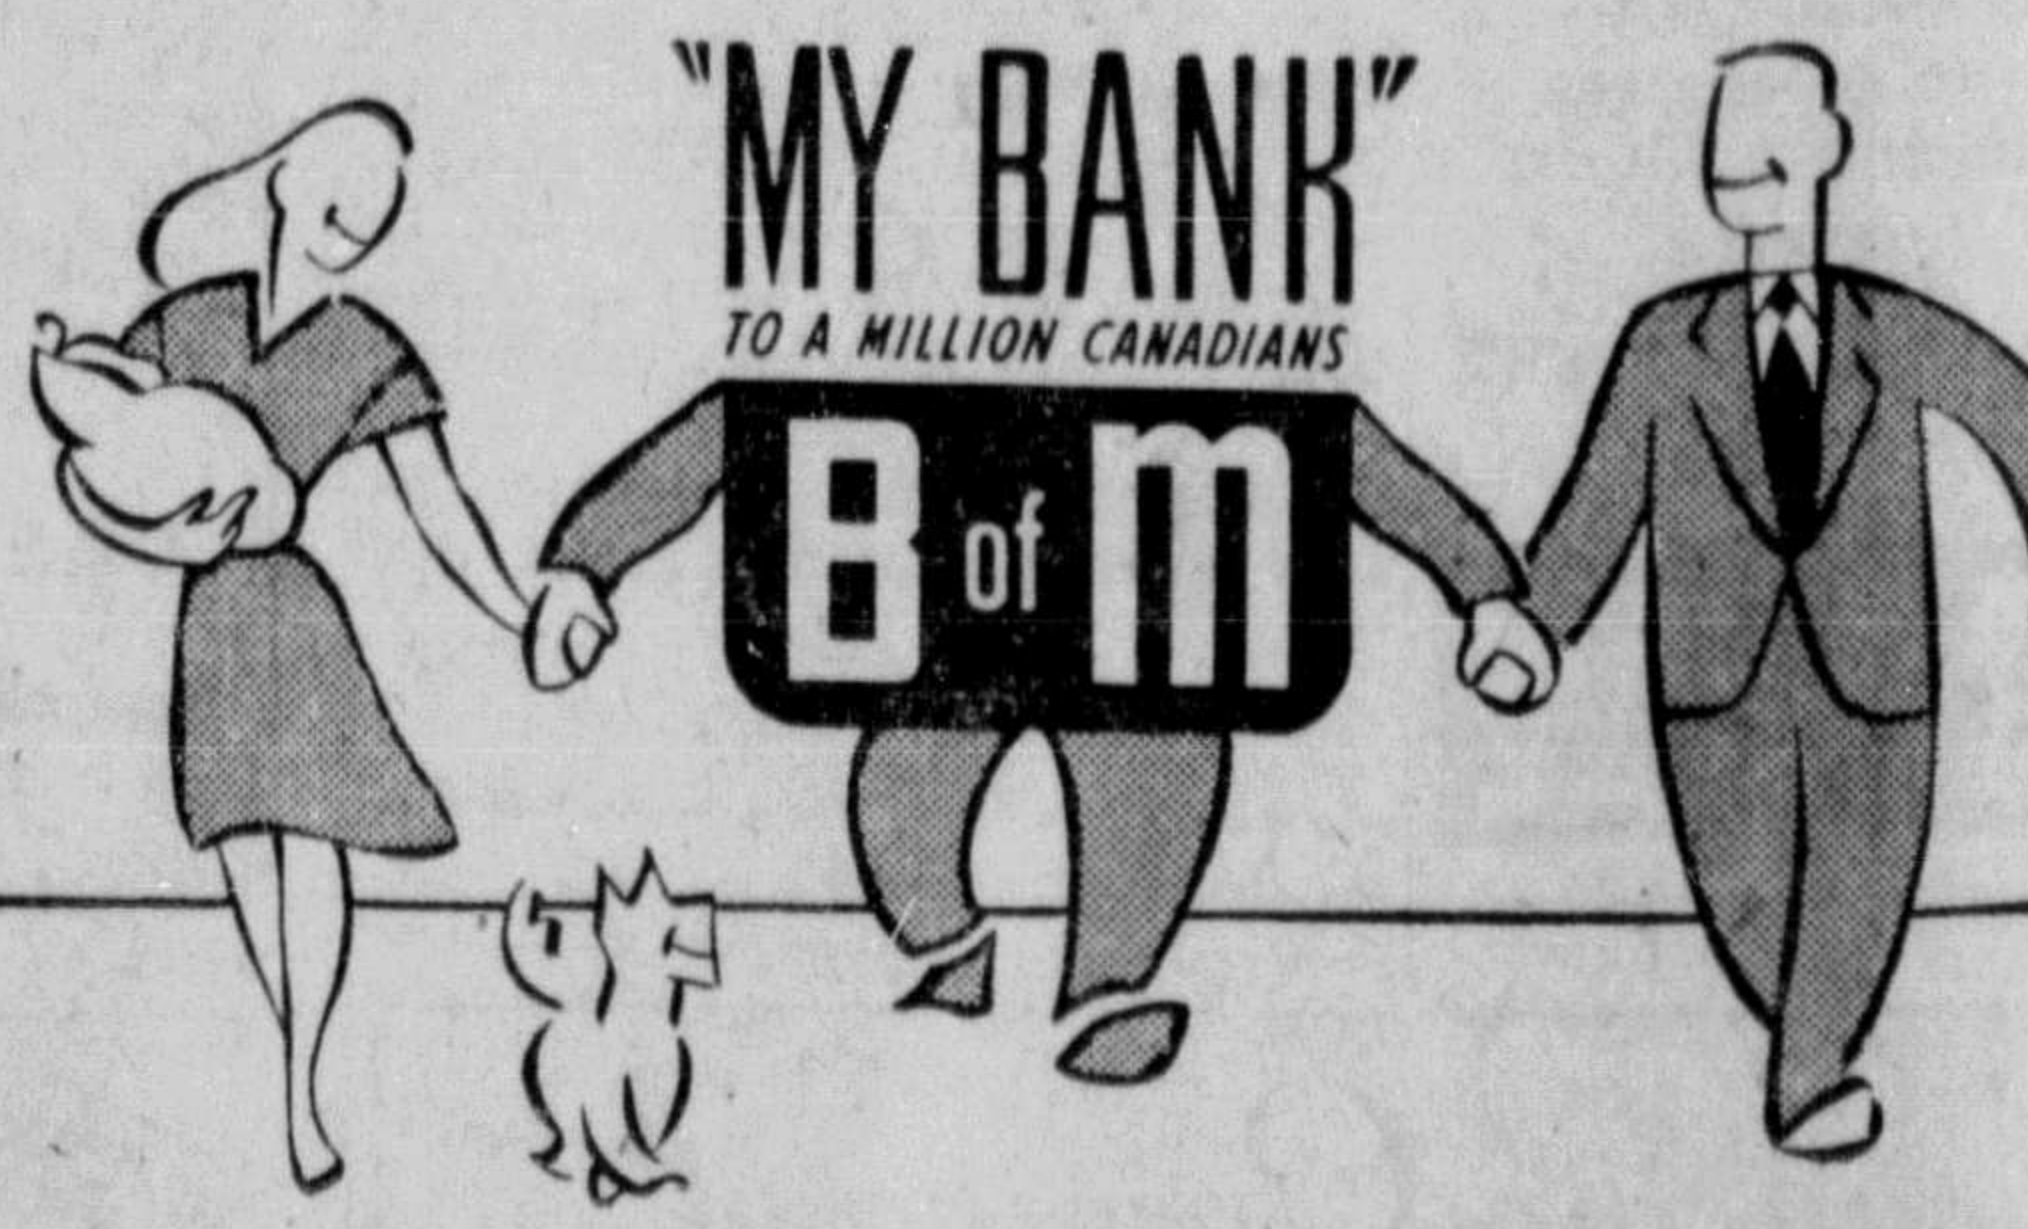

BE MASTER OF YOUR MONEY... With Personal Planning, you can be boss of your budget... you can organize your life to rid yourself of "day-after-pay-day" worries. More than that, besides living within your income, you can make the most of your money with Personal Planning.

PERSONAL PLANNING FOR EVERYBODY... Get yourself a copy of our new booklet, "Personal Planning," and you'll see what we mean. Whatever your job in life... whether you're a factory worker or office clerk—stenographer or housewife—farmer, fisherman, miner or businessman... you will find it immensely practical in dealing with personal and family financing.

NO MONEY MIRACLES... Personal Planning doesn't deal with money miracles—or show you how to get rich overnight. That's something we know nothing about. But it does deal with money management. As bankers to the Canadian people for 133 years, we do know something about this.

HOW TO GET THE MOST OUT OF YOUR MONEY... "Personal Planning" is a cheery little book that tells you—whatever your income—how to get yourself on a sound financial foundation... how to get the most out of your money.

Call in at your nearest B of M branch and ask for a copy. There's no obligation... except to yourself.
