Part Made on Dental Clinic

Organizations and Groups Are Co-operating

Encouraging start towards
formation of a dental clinic
was made at a meet-
ing in the Civic Centre last
night of representatives from
various organizations. The
meeting was sponsored by the
Civic committee of the
Prince Rupert Parent-Teacher
Association.

Attendance to outline the
plan. Dr. Duncan Black, of
the Prince Rupert
Unit, and Dr. Munthe,
of the dentists of the
plan, in its initial
will deal with pre-school
and children of grade
the city schools. It is in
insurance against dental
at a minimum cost.

It is hoped to be able to pro-
vide necessary dental ser-
vice for the children at a cost
of approximately \$4 a year per
child. It is shown that the par-
ents cannot afford to pay the
committee hopes to
find ways to meet the expenses.
Some districts the parents
are asked part of the moth-
er's allowance check to meet the

Census Total for Prince Rupert Disappointing; Shows 8435 People

The placing of Prince Rupert's population at 8,435 in preliminary census totals just issued by the Dominion Bureau of Statistics may not be readily accepted. Recent estimates, reached in various ways, have been putting the city's population nearer 11,000.

Such cities as Vancouver and Prince George have already vigorously protested at understate-ment of their populations by the census enumeration. Steps have been taken at both these cities towards having a recount made in view of the fact that civic revenues from government sources are based on the federal census figures and grants are adversely affected by understate-ment.

Mayor H. F. Glassey was census commissioner for Prince Rupert.

The 1951 figure of 8,435 given Prince Rupert compares with 6,714 in the 1941 census.

OTHER POINTS
Other preliminary census figures for this district which have just been announced include: Terrace—946 (355 in 1941). Smithers—1,198 (759). Burns Lake—788 (218). The same preliminary census report which includes Prince Rupert shows Victoria's population at 50,774 (44,068); Trail, 11,251 (9,392); Nelson, 6,634 (5,912).

Voters' List Here Higher

Nearly 3000 voters registered on the new list this year is the approximate figure released by city clerk's office, but definite figures will not be available until after decision of the court of revision held today.

This is an addition of "at least" more than 100 voters over last year, said City Clerk R. W. Long.

Unknown Man's Inquest Starts

Inquest into the death of an unidentified person, body of which was found in Prince Rupert harbor a week ago, was adjourned for two weeks by Coroner M. M. Stephens.

July found it could not identify the badly decomposed remains, beyond that it was male.

gress of dental decay. The pupils would under the plan visit the dentists' offices in the forenoon. The raising of funds was discussed and the representatives will consult with the organizations they represent and report back to a meeting to be held on December 12.

Organizations and their representatives were:
IOOF—Albert E. Wood
King Edward School PTA — Mrs. W. Bowes
Sons of Norway—Mrs. B. Roald
Trades and Labor Council—W. H. Brett
Sonja Ladies' Aid—Mrs. Elsie Mulhern
LOBA—Mrs. Clare Willson and Mrs. Maud Viereck
Rotary—E. Paulding
Women's Canadian Club—Mrs. F. A. Anfield
Borden Street School PTA — Mrs. L. M. Greene
Gyro Club—Dr. J. Munthe
Soroptimists—Mrs. R. Grant
Annunciation Home and School Association—Art Murray
IOOE (Cambrai Chapter)—Mrs. M. Gormley.

J. S. Wilson, chairman of the Dental Clinic committee of the Prince Rupert Parent-Teacher Council was in the chair, and F. Derry, of Conrad Street School PTA was secretary.

Disclosure "Premature"

Massacre Charge of U.S.
Officer to be Probed at
Tokyo and Washington

TOKYO — The reported Communist slaughter of some 5,500 American prisoners of war today shocked general headquarters from top to bottom. Circumstances of the revelation will be investigated at United Nations headquarters here and at Washington.

Col. James M. Hanley, chief of the war crimes section of the Eighth Army, said he divulged the figures because he thought American soldiers at the front ought to know what they are up against.

High officers, including General Matthew B. Ridgway, had no advance knowledge that Hanley planned to release the report.

Slavs See Red Threat

PARIS (CP)—Yugoslavia charged today that Russia's satellites have 25 divisions poised for action along the Yugoslav frontiers in a threat to world peace. A White Russian spokesman called the accusation a "shameless fabrication" and countered with charges that Yugoslavia is being built into a base for American aggression.

Two Dead in Train Wreck

SEVERN BRIDGE, Ont. (CP)—Two trainmen are dead and one is missing as a result of a head-on collision last night between a Canadian National Railway freight and a work train. Six men were injured and taken to hospital at Orillia, 90 miles north of Toronto.

Watson Island Plant Capacity is Increased

Dominion Construction Co. Awarded
Important Contract

Contract for the installation of new equipment and machinery that will increase the capacity of the Columbia Cellulose Company plant at Port Edward from 200 to 300 tons daily has been let to Dominion Construction Company Limited, Harold Blancke, president, announced yesterday.

Japanese Fish Pact

Presented at Tokyo Today
To American and
Canadian Delegates

TOKYO (CP)—A Japanese draft of a proposed three-nation North Pacific fisheries treaty was submitted to American and Canadian delegates (including E. T. Applewhite, Skeena) today.

The Japanese plan calls for the establishment of an international North Pacific fisheries commission to investigate fishery resources and recommend joint measures for maintenance of maximum productivity.

Japan agrees to refrain from fishing in areas where it is clearly established that a maximum of fishing is already being carried on and where it is necessary to restrict fishing to maintain or increase productivity.

Few Respond French Strike

PARIS (CP)—Communist labor leaders called out 170,000 French coal miners Wednesday but the government said that only 30,000 answered the summons.

Strike in the rich northern coal fields would be a danger to France's disarmament goals.

Iran Appeals for US Help

Mossadeh, At Same Time,
Attacks British Exploitation

WASHINGTON, D.C. (CP)—Iran's Premier Mossadeh Wednesday renewed his appeal for American financial aid to stave off a "grave economic crisis" in his oil rich country.

Informants said that Mossadeh is seeking a United States loan of \$120,000,000 to cover for the next few months including \$50,000,000 immediately.

While pleading for American help, Mossadeh bitterly attacked Great Britain for subjecting Iran to cruel imperialistic exploitation in the development of Iran's oil fields.

The plane disappeared Tuesday.

Korea Vets Land Home

VANCOUVER — Two hundred Canadian veterans of the war in Korea—most of them from the Princess Patricia's Canadian Light Infantry—arrived in Vancouver today on the United States troopship Pte. John P. Martinez.

The ship landed at 1 p.m. and soon the veterans were parading up Granville Street to Georgia and on to Burrard past a saluting base at the Court House. Thousands of people lined the streets.

There will be a reception at the Seaforth Armories this afternoon before the veterans continue to their homes in various parts of Canada.

SAINT JOHN RECEPTION—Princess Elizabeth flashes a brilliant smile as she stands beside Mayor George E. Howard at the civic reception last week in Saint John, N.B. The reception was the last function at the port city before the royal couple entrained for Moncton, N.B. They are now sailing home. (CP from Saint John Telegraph-Journal)

US Government Blamed For 1947 Shipwreck Off Charlottes' West Coast

SAN FRANCISCO (CP)—The United States government was today declared negligent in the wreck in 1947 of the Army transport Clarksdale Victory which took 47 lives. The ship was on a run from Alaska to Seattle.

Federal Judge George B. Harris awarded \$52,700 in judgments to survivors of seven men yesterday. He said the government must be considered liable for loss of the lives of crew members.

The cargo ship hit a reef outside of Skidegate Channel, Queen Charlotte Islands, and broke in two on November 24, 1947, during a storm.

Despite thick fog, Judge Harris said, the ship was moving at from 15 1/2 to 16 1/2 knots. Gerald R. Langesen, aged 29, of Oakland, California, master of the ship, was one of the 47 lost.

Australian in Canadian Jail?

OTTAWA — Investigation is being made both here and at Canberra of an Australian charge that an Australian soldier, who went to sleep on duty, was sentenced to 28 days solitary confinement in a Canadian military prison. A spokesman here said it was not usual for an Australian soldier to appear in a Canadian military court.

Canadians Over There

ROTTERDAM — A ship bearing the first of the main body of Canadian troops for the defence of western Europe docked Wednesday in this city where the Canadian Army marched in joyous triumph of liberation seven years ago.

Most of the drama is reserved until next week when Gen. Eisenhower is expected to attend a ceremony marking the historic movement of Canadian troops into peacetime Europe.

Interior IWA Strike Deadline

VANCOUVER—Next Wednesday has been set by the International Woodworkers' Association as the deadline for a strike of interior woods workers who are seeking higher wages. The interior unions voted Tuesday in favor of strike action.

New Police Set-up Here

Local Subdivision Established
But Inspector Not
Yet Named

New set-up establishing a sub-divisional jurisdiction of the Royal Canadian Mounted Police with headquarters at the Court House in Prince Rupert went into effect today. However, it is not yet known who is to be the inspector in charge.

Since the absorption of the British Columbia Police by the RCMP, headquarters for all northern and central British Columbia has been at Prince George under an inspector.

Now the territory has been divided with a sub-inspector both at Prince George and Prince Rupert.

The Prince Rupert sub-division will be from Queen Charlotte Islands on the west to Burns Lake on the east and from Ocean Falls and Bella Coola on the south to the northern boundary of the province including such points as Telegraph Creek, Atlin and Stewart.

Senior NCO's now on duty here are:
Sgt. L. A. N. Potterton, patrol sergeant.
Sgt. T. A. Stewart, divisional NCO.
Sgt. E. A. Wales, city and district detachment.

Would Boost Allowances

Debate on Speech From
Throne at Ottawa
Continues To Move Slowly

OTTAWA (CP)—Members of three opposition groups in the House of Commons Wednesday joined forces to urge the government to increase war veterans' allowances and to make an early start on the south Saskatchewan irrigation project.

The members spoke in a continued slow-moving debate on the address in reply to the Speech from the Throne.

The debate was expected to end Wednesday but speakers kept talking until the early mid-week adjournment hour.

SMALL TALK

CONCERNING AN UNPAID BILL

by Syms

Nursing Shortage All Over World

TORONTO (CP)—Canada isn't the only country with a shortage of trained nurses.

Turkey has enough hospitals but not enough nurses. Syria needs more public health nurses. Egypt is short of general nursing staff and Norway, despite improvement since the war, still needs more nurses.

This was the report given by four nurses from these different countries who now are taking post-graduate work at the University of Toronto. They are part of a group of 12 nurses from many foreign lands in the course; some are sponsored by the World Health Organization of the United Nations.

Lebide Ertuna of Istanbul said that women in her country were allowed to take up nursing and many other professions when the veil was abolished in 1923. The first school was opened in 1925 by the Red Crescent—the Turkish equivalent of the Red Cross—and 800 nurses have been graduated since then.

"We have lots of hospitals in Turkey," she says, "but not enough nurses. We are trying to encourage more young women to go into the profession."

PUBLIC HEALTH NEED

Haifa Koudsy of Damascus intends to go back to her home in Syria to train nurses in public health, and set up a public health school.

"Public health is very necessary now with all the refugees there," she said.

Egyptian women like nursing, said Sofia Hanna of Cairo, but few hospitals have enough staff. Nurses in Egypt take a five-year course, the fifth year being devoted to midwifery.

Randi Barlinndhaug of Bodo Hospital, Norway, told of her hospital that is financed jointly by the Norwegian Women's Health Association and the government. Women in Norway have also set up a school for administration, sociology and nurse education, operated by the Norwegian Nurses Association and financed with government help.

SELECT GROUP

First head of the Daughters of the American Revolution was Mrs. Caroline Harrison, who died in the White House in 1892.

BOTTLE-FED BABIES

If your baby is bottle-fed, be sure to watch little bowels closely. Mother's milk has a natural laxative effect which helps take care of baby's need. Lacking this, a bottle-fed baby often gets fretty, feverish and suffers constipation and upset stomach. Let Baby's Own Tablets help you keep baby's bowels in schedule—sweeten upset stomach—relieve feverishness and teething troubles. No "sleepy" stuff—no dulling effect. Easily rushed to a powder, if desired. Don't let your baby suffer—get Baby's Own Tablets

Social

Reserve Wrens Division Formed at HMCS Chatham

A reserve WRCNS division was formed at HMCS Chatham last night with attestation of seven local women as Wrens and Divisional Officer Sub. Lt. (W) Christine Worsley, RCN(R).

Attested were Ord. Wren Phyllis Tomlinson, Ord. Wren Audrey Patterson, Ord. Wren Communicator Diane Kennedy, Ord. Wren Jean McLeod, Ord. Wren Olive Miller, Ord. Wren Elaine Maynard and Ord. Wren Lois Digby.

Application of Miss Nina Youngman has also been approved and she will be attested next Wednesday, said Staff Officer Lt. Noel Langham today. Training night for the new women's division is every Wednesday night.

Meanwhile, other RCN Reserve activity sees Executive Officer Lt. Walter Smith leaving for Ottawa November 24 for a com-

manding officers' conference.

Lt. Tom Scheer left today enroute to Rivers, Manitoba, to attend a three-week course in Offensive Air Support.

Cambrai Chapter Regent Resigns

Having left the city for an indefinite period, Mrs. G. C. McLean has resigned as regent of Cambrai Chapter IOOE. The resignation was accepted with regret at the monthly meeting.

Local and PERSONAL

Lawrence Jacura of New Westminster, brought here Tuesday in a mercy flight by Queen Charlotte Air Lines, is reported doing well at Prince Rupert General Hospital. He suffered an injured knee.

Mrs. W. D. McAra sails tonight on the Prince George for Vancouver to meet and return with Mr. McAra, Canadian National Railways express agent here, who is holidaying in the south.

W. G. Connolly of Winnipeg, passenger traffic manager, Canadian National Railways, western region; S. M. Greene, general passenger agent, Vancouver, and William Cruickshank, general agent, Prince Rupert, are travelling through the central interior now on an official tour and are due in the city Saturday night. Mr. Connolly and Mr. Greene will proceed from here to Vancouver.

Winners of Junior Reviews in Young Canada Book Week

Prince Rupert pupils have won prizes for submitting the Young Canada Book reviews in a contest sponsored by Prince Rupert Library in connection with Young Canada's Book Week November 11-18. Contest was open to Grade III to V and VI to VIII students.

Rudolph, a Grade V Conrad Street School pupil, won a prize for his review of "The Great Whales."

Pierre, a Grade VIII student of Booth Memorial High School, won her prize for a review of famed "Black Beauty."

Honorable mention was given to Della Haig, reviewing "The Twins."

Entries were submitted by Heather Stephens, Patricia Mary Storrie, Buddy Nauman, Sharon Williams, Dianna Suzanne Kergin, Rita Gillis, John Lambie, Laura Shirley Kurdziel, Nita Weise, Muriel Prockter, Bill Johnson and Mrs. R.G. Large.

BLACK BEAUTY

By Patricia Pierce

Black Beauty is a story which many horse-loving people will find place in. The story is an interesting story of a horse's life—that horse is Black Beauty. The book contains a lot of interesting information about horses and horse life. There is a small amount of humor throughout the book.

Black Beauty was born. The owner of Black Beauty was a black and pitch colored horse. The book tells us how Black Beauty grew up and how he felt about his life. The book is a sad story but it is also a story of love and friendship.

Queen Mary DE Sends Gift

Mary Chapter, Imperial Daughters of the Empire, Tuesday evening in the Empire Room at the Civic Centre, presented a gift to the former Mrs. G. R. S. Blackaby, now residing in Vancouver, a welcome letter of candy.

Mr. Carr, the regent, presented the meeting which was attended by eighteen ladies. It was reported that five parcels for overseas were dispatched last Friday. A tea and coffee were held at the Civic Centre. A raffle was won by Mrs. Risdale, Mrs. McRae.

The meeting will take the form of a social party at the home of Mrs. Carr, 925 Borden Street, on Nov. 21.

The industry is spending millions a week in expansion and development in Canada.

Vanderbilt Wins Blue Bonnet Her Favorite!

Butter Margarine is sold in regular economy packages, and also in the new Quik bag for fast, easy use.

THE GREAT WHALES

By Jack Rudolph

I like the story of the Great Whales. I like it because it is about whales. And it tells us that a whale can stand on its tail. It is as big as ten Indian elephants. And it tells us that the blue whale is the largest whale. The blue whale weighs from one hundred and twenty to one hundred and fifty-two tons, or an equal weight to thirty elephants or all the people in a town of about two thousand. And it is not a fish. It belongs to the same group of animals as the cow, lions, dogs, and mammals. It is not hairy. Whales once lived in the Pacific and in the waters around the poles. Their bones are soft and spongy. When the whales wiggle their flukes, it makes the whale's speed of five or ten miles an hour.

It shows us that the whale has a thick layer of fat or blubber beneath it. It shows us that dolphins can keep up to most passing ships. And the whale is warm blooded; the whale can stay under water for ten or fifteen minutes. It is frightened it stays under for one hour. Its nostrils are on the top of its head. When the whale dives it holds its breath and its heartbeat. The whale grows to be sixty-five feet long. The teeth are only on the lower jaw.

The sperm whale's blubber produces oil. It was used for household lamps. Now it is used for face creams, cooking fats and explosives.

The sperm whale eats over half a ton of giant squids and other food food every day. It makes fragrance of perfumes.

ANCIENT LAND

Iceland was an independent republic from A.D. 930 to 1262 when it joined with Norway and now is a sovereign state.

Dress Up Your Meals with the Milk that Whips

• You can serve Charlotte Russe... home-made ice cream... whipped toppings, and exciting fruit salad dressings... anytime, with Carnation Evaporated Milk. For double-rich Carnation — so thrifty and convenient — whips beautifully, tripling its volume. Try Carnation in recipes that call for whipped cream. Enjoy party dishes that are milk-rich and economical with Carnation — the milk that whips.

IT'S EASY TO WHIP CARNATION!

1. Chill undiluted Carnation in freezing tray. Or place can directly on ice over night.
2. Chill bowl and beater. Take Carnation directly from ice — or when ice crystals form around edges of freezing tray — and pour Carnation into chilled bowl.
3. Whip rapidly with chilled beater. When using as topping, to 1/2 cup Carnation allow 2 tbsps. sugar, 1 tbsps. lemon juice; add when whipped.

And for All Cooking:

In all recipes that call for cream, try Carnation undiluted, as it pours from the can. And for extra-smooth, extra-delicious results in recipes that call for milk, mix Carnation half and half with water, to make up the required measure.

Moose Women Plan Bazaar

Regular meeting of the Moosehaven committee of the local Women of the Moose, held at the home of Mrs. J. Flewin, made final arrangements for the fall bazaar, which takes place this Friday at the Moose Temple.

Plans were also made to hold a handkerchief shower for the aged people at the Moosehaven Home in Florida.

Following the business session cards were enjoyed. The winners were Mrs. M. Heise and Mrs. H. Paulson.

Those present were Mrs. J. Flewin, Mrs. H. Munsey, Mrs. M. Heise, Mrs. O. Tweed, Miss Sylvia Johnson and Mrs. H. Paulson, committee chairman.

Americans Massacred

Atrocities in Korea Elaborated Upon—200 in One Day

PUSAN, Korea (CP)—Elaborating on a statement that 5,790 United Nations soldier prisoners and some 250,000 Korean civilians had been killed by the Chinese Reds in atrocities since the start of the war, Col. James Hanley, chief of the United States Army's judge-advocate section, said in a statement that 200 captured United States Marines had been killed in a single day—last December 10—near Simhung in northeast Korea. Last December remnants of the United States First Marine Division and the United States Seventh Infantry Division were pulling back toward the port of Hungnam in bitter retreat. Hanley said that the count of military prisoners slain did not include South Korean troops. He gave no estimate of these but indicated that the number was about twice that of other United Nations soldiers killed by Red captors.

for our purchasing," it says in the bulletin it distributes monthly.

The CAC told of an experiment in British Columbia in which the manager of a chain grocery store tried to prove that consumers buy by price. He divided a batch of identical tomatoes, selling part of them for 25 cents a pound and the rest for 29 cents. At the end of the day all the 29-cent tomatoes had been sold. Hardly any of the 25-cent ones were touched.

The Ontario Fruit and Vegetable Growers Association found in a survey that when foods went below a certain price, people wouldn't buy them. Hence, at the height of the lettuce season people wouldn't buy a five-cent head of lettuce.

We saw the same thing happen in Toronto—at the St. Lawrence market. Chickens were selling at one stall for 50 cents a pound. One woman was suspicious.

"What's the matter with them?" she asked the vendor.

He was indignant. "Nothing's the matter with them," he replied.

She moved on, but we bought one. It proved to be the cheapest and best chicken we've eaten in ages.

Just goes to show that nobody can afford to be suspicious all of the time.

TASTY AND THRIFTY.—The CAC recommends this luncheon dish to budget-conscious housewives:

After vegetable soup has been made from a meaty soup-bone, cut all the meat from the bone and put it through a food chopper with an onion. Scoop the marrow from the bone, add to the meat. Add poultry seasoning, parsley, salt, pepper to taste.

Moisten with soup. Cook till onion is clear. The mixture should be of a consistency to spread easily. Make thin pancakes. Spread with the mixture and roll like a jelly roll. Keep warm in oven until ready to serve with the soup.

CHICKEN SCRAPPLE is another CAC budget dish.

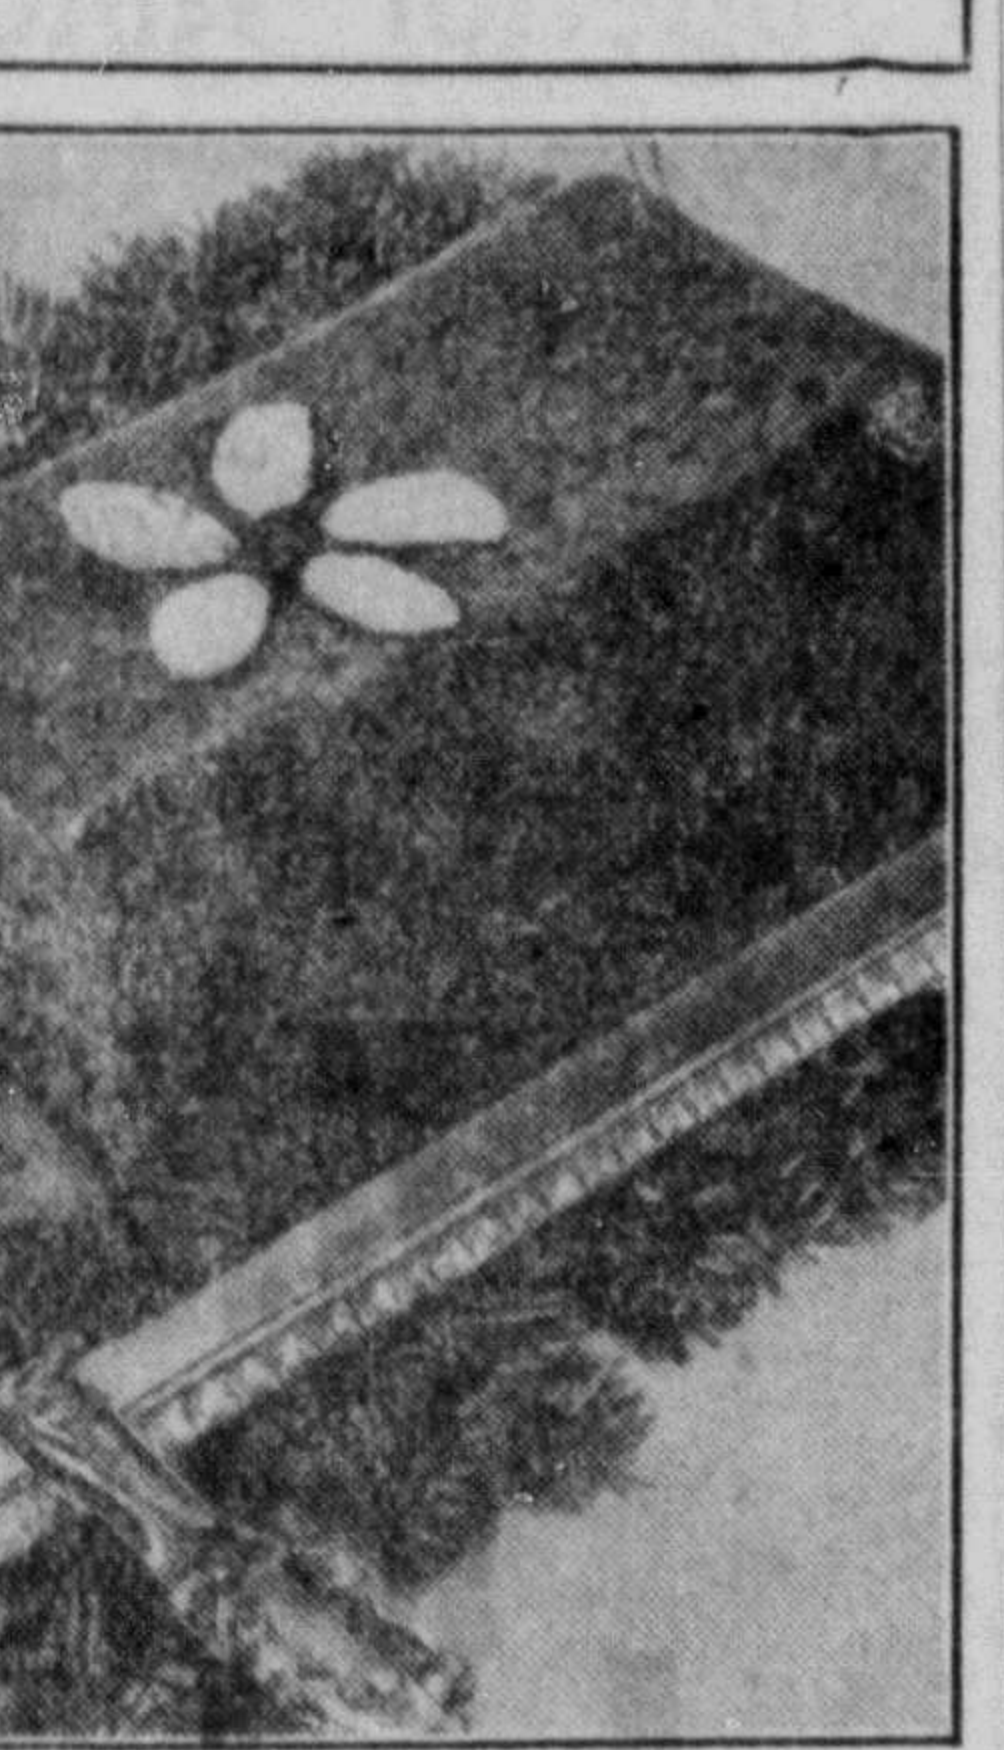

Ingredients (for eight servings): 3½ cups chicken broth; one tablespoon all-purpose flour; one cup corn meal; one-half teaspoon salt or one teaspoon if the broth has not been salted; one-quarter teaspoon poultry seasoning; two cups ground cooked chicken.

Heat half the broth in a double boiler. Blend flour, corn meal, salt and poultry seasoning. Mix with the remaining cold broth. Slowly stir the corn meal mixture into the hot broth. Cook, stirring until the mixture thickens. Cook for 30 minutes. Stir in the chicken. Pour into a well-greased loaf pan. Cook quickly. When firm, cut in slices. Roll in flour and fry until brown. Serve with chicken gravy.

DIVERSE PRODUCTS

Palm oil and peanuts, cocoa and ivory are principal exports of the French Cameroons in West Africa.

Surprise Fruit Cake

minutes, or until done. Cool; serve with hard sauce or cover with your favorite white frosting.

SOUP SCOOPS

BUFFET SUPPER SOUP: To give guests something special in the way of soup, combine three of the favorites in the condensed line. Blend together 1 can each of condensed cream of asparagus, mushroom, and chicken soups. Stir in 2 soup-can measures of milk. Heat thoroughly but do not boil.

MEAT MAGIC: Make the most of that last bit of cooked chicken by serving it cream style. You can prepare a quick version this way: Add the diced meat (about 1 cup) to 1 can of condensed cream of chicken soup blended with ½ cup milk. A little chopped, cooked green pepper and some chopped pimiento livens the flavor. Pour this over hot buttered biscuits for luscious eating. Nice with this are buttered green beans and jellyed cranberry sauce for a relish.

HEART-WARMER: On a cold night, plan a cheerful supper that features pork and beans. Top each serving with a strip of crisp bacon. And accompany the beans with steamed brown bread and generous helpings of apple-nut salad.

AN EAGER SUBJECT—This grave youngster chews at his flag after breaking loose from crowds and clambering up steps of the New Brunswick Legislative Building during an address by Princess Elizabeth, one of the ceremonies of the royal couple's visit Tuesday at Fredericton. Standing behind the Princess are, left to right: Hon. E. L. MacLaren, Lieutenant-Governor of New Brunswick; Mrs. Milton F. Gregg; Labor Minister Gregg and Lieutenant Michael Parker, aide de camp to Duke of Edinburgh. Photo by Jack Judges. (CP from Toronto Telegram)

Baby Buggy Park Problem

Parking space and protected weather covering for baby buggies adjacent to Prince Rupert Health Unit building will be sought, unit board of health meeting decided last night.

Baby clinic is getting larger. Dr. Duncan Black, medical health officer, reported, yesterday, 32 mothers attended and parking of perambulators on the sidewalk was an increasing problem, he said.

Dr. Black was instructed to write provincial Public Works Department here to assist in construction of the parking area, while Ald. Don Fitch said he would bring the matter to city council.

Plans call for a cinder driveway levelled to the sidewalk and a parking platform near the side of the building, covered with a roof for protection against rain. Area should be large enough to accommodate 12 buggies, suggested Dr. Black.

Democracy in City Council

Democracy proved its rights Tuesday night when city council passed tentative judgment on two petitions supported by delegates.

A petition signed by 14 signatures called for a street to be installed at Sherbrooke Avenue.

A second petition, signed by six persons, opposed such action, calling for a street to be installed in the lane.

After hearing the delegation, Ald. H. M. Daggett said council was in favor of putting a road "wherever residents demand it by petition and the greater petition wins." He moved that city clerk should draw up a petition in favor of the majority.

William Rothwell, appearing for petitioners of the Sherbrooke Avenue street said he and others had paid taxes since 1920 and yet they had no street in front of their homes.

"We want the street to face our homes so that everyone there can use it. If the street runs through the alley, it will favor only a few."

V. Nystedt said, "It would look funny if we had to turn the houses around," which would, in effect, be necessary if the street were located in the alley.

Edwin Frost, appearing for petitioners opposing the Sherbrooke

Wearing of Decorations

Students Have Yet to Settle on Vexed Question

In the last few meetings of the Booth Memorial School Students' Council one of the most important topics discussed was the school sweater. The sweater, which is gold and green usually has several accessories and decorations and these are the particular subject of discussion.

Some of the accessories are: Three ready made stripes on the left sleeve; a large block "B" and a small block "B." These awards are supposed to be earned but some of the students who are wearing them have not earned them and the wearing of unearned awards is what the Council wishes to prevent.

Last year's Council designated what awards might be worn for.

However, this was not passed by the student body and the principal says that it therefore cannot be enforced. That means that actually there is no official ruling against the students wearing school sweaters with decorations. A bill would have to be

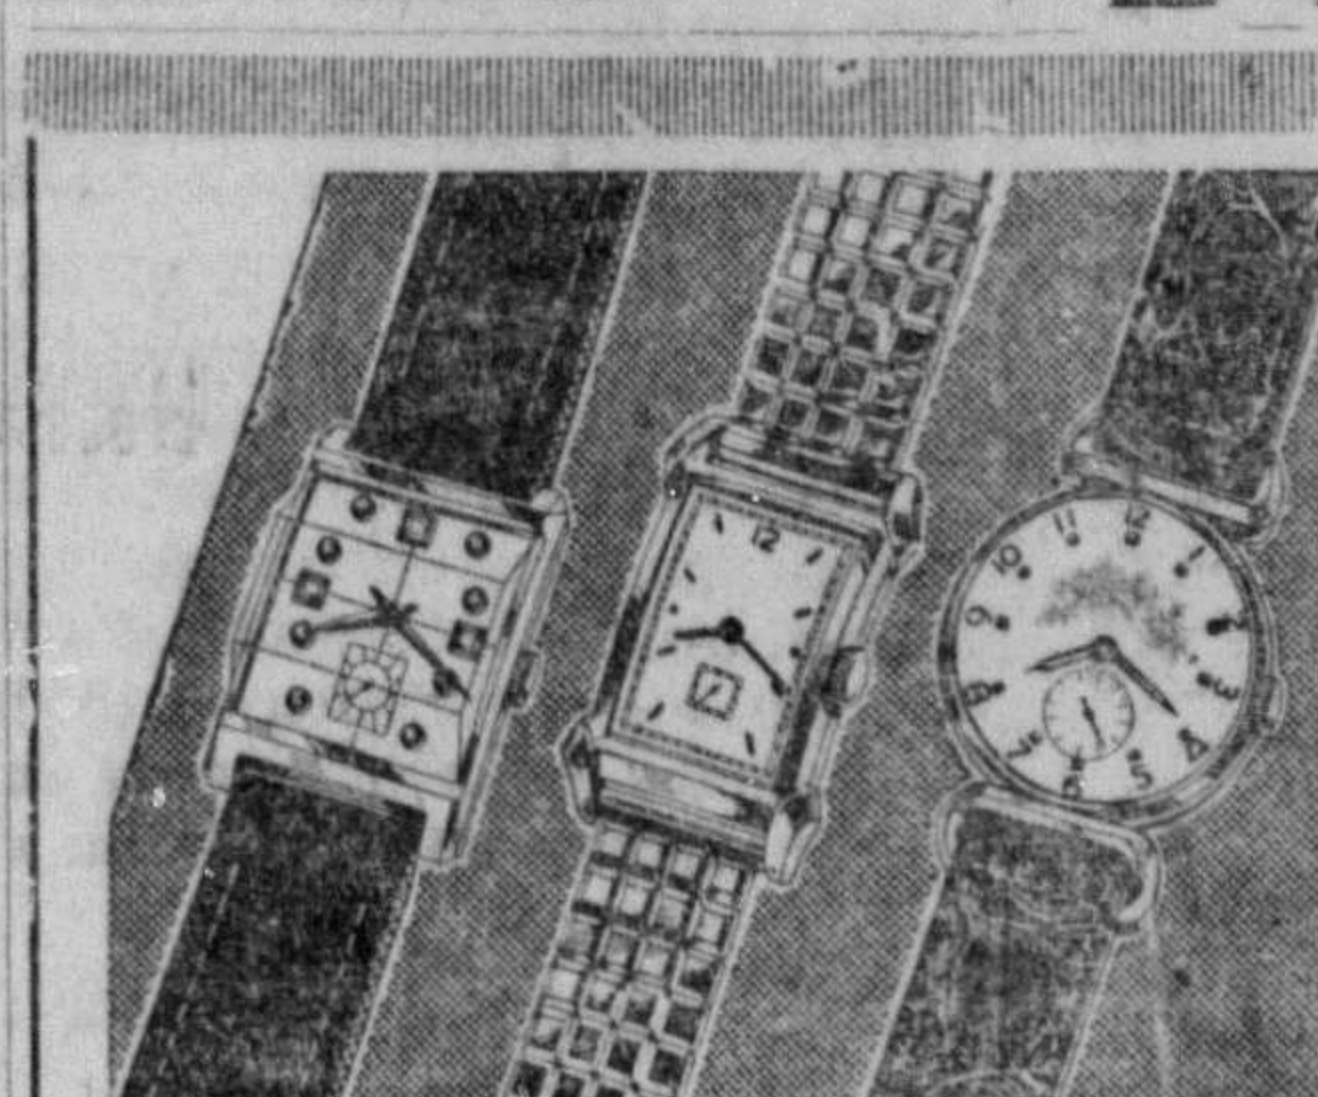

presented to the student body and passed by a majority vote before they could be obliged to conform to its provisions.

At the October 10 meeting of the Students' Council it was suggested that the school colors be changed and, in this way, prevent the students from wearing unearned decorations. However, until the students approve of the sweater proposal, whether with changed colors or with the old colors, they cannot actually be required to refrain from wearing the so-called unearned awards.

So far there has been no progress in the matter. In the council it has been argued back and forth time and again, but no agreement has been reached. If the sweater bill is passed it will mean that the students who are wearing unearned awards will be asked to remove them from their sweaters.

As the situation is now when the school makes a presentation of a sweater or decoration to some student it has little or no real meaning.

Timely RECIPES

1 package lemon-flavor gelatin
1 cup hot water
3 large ripe persimmons
2 medium-sized grapefruit
½ cup chopped walnuts
Salad greens

Dissolve gelatin in hot water and cool. Force pulp of very ripe persimmons through a sieve to make about 1½ cups. Blend into cooled gelatin. Pare and section grapefruit and dice sections. Fold drained grapefruit chunks and walnuts into gelatin mixture. Turn into individual moulds and chill until firm. Unmould on salad greens to serve. Makes 5 to 6 molds.

Guest, On Flying Visit, Drops In Out of Tropical Storm

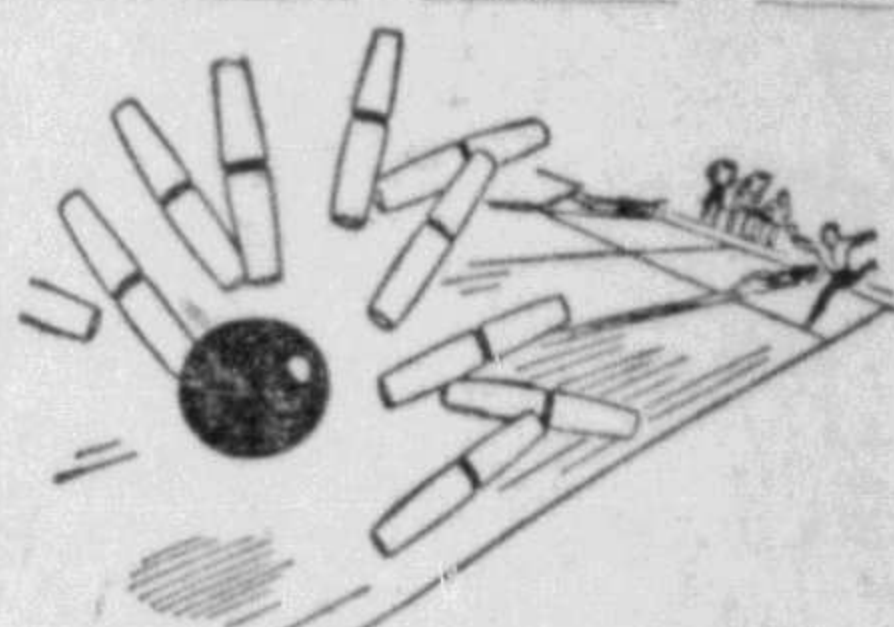

CENTRE OF INTEREST for flyers of the British flattop H.M.S. Glory (top picture) is a U.S. Marine Corps Corsair which had just dropped in out of a tropical storm. The British ship and the U.S. carrier Sicily were striking heavy blows against the enemy in North Korea when Sicily had a flight deck mishap. Low on gas and in need of an immediate landing was the Marine's Major John Dexter, of St. Paul, Minnesota, and as his own ship could not take him, the British carrier did. Right: Dexter just after he had climbed from his Corsair, and his grin could be due to the fact that Glory was beside Sicily—like a British fleet has been beside the U.S. Navy since the first days of the Korea conflict.

SUBMARINE SHELF

A ridge 8,000 miles long, rising in points 10,000 feet from the ocean floor, separates two main troughs in the Atlantic.

LADIES' LEAGUE

Ladies' Bowling League is nearing the conclusion of the first third of the season, having but one more night to play. Meantime, Lyons continue their long lead in "A" Division while Manson's have a near cinch lead in "B" Division.

High single scorer in "A" Division this week was Mr. McGrish of Gordon & Anderson with 282 while L. Keays of Stars had high three game aggregate of 637.

J. Hill of Trollers had high single honors in "B" Division with 311 and C. Dorosh, also of Trollers, was high aggregate with 713. Team results and standings:

Lyons 3, G & A 0	27
Lucky Strikes 3, Rosa Lee 0	19
McMeekin's 2, Wrathall's 1	17
Dibb Printing 2, Cloverleafs 1	16
Annettes 2, Savoy's 1	16

Carter Keeps Light Title

LOS ANGELES (CP) — World's lightweight champion, Jimmy Carter, last night successfully defended his crown, taking a unanimous decision over the challenger, Art Aragon, in a bruising 15-round fight. Aragon was floored twice.

Bowling Schedule

Schedule for the first part of the Ladies' Bowling League is announced as follows:

Nov. 29—Lyons vs Wrathalls; Dibb Printing vs Stars; McMeekin vs Cloverleaf; Skeena vs Savoy; G & A vs Rosa Lee; Annettes vs Lucky Strikes; Shenton's vs Trollers; Big Sisters vs Cook's Jewellers; 75 Taxi vs 7th Avenue Market; Rupert Radio vs Commercial; Co-op vs Manson's; Sunrise vs McKays.

Turbulent Pool Attracts World Salmon Anglers

BANGOR, Me. (AP)—It may be hard to believe that a stretch of wild water less than 300 yards long could bring world-wide fame to a city.

It isn't a place where gold is washed from the sand, nor is the water a cure for human ills. Nothing like that. But it has long been a hot spot for sportsmen who seek fish with barbs.

This turbulent water is known as the Bangor salmon pool, which is created by the waterworks dam at the head of navigation of Maine's big Penobscot River.

It was more than 75 years ago when a sportsman whose name has been lost walked to the shore of that part of the river and cast his fly onto the rushing water.

A group of local sportsmen decided to send the first salmon taken from the pool each year to the President of the United States. That was well over a half-century ago. Nobody can seem to remember the year, or the name of the president who received the first fish.

Presidents still dine on the sweet, pink flesh of the first one of the season.

President Truman and friends feasted on a 12-pounder this year that was caught by a Bangor man on opening day, April 1.

BC Power Commission Men Here

Officials of the British Columbia Power Commission happened to be in Prince Rupert yesterday afternoon just as discussion was waxing strong over the local power question following the decision of city council to pre-empt a referendum at the December election on the idea of having the Power Commission enter the electrical supply field here.

However, S. B. Marshall, secretary of the British Columbia Power Commission, and James G. McKeachie, public relations director, while very interested, were cagey in discussing the local situation. They were making no official statements on the matter.

"Our people come into an area only when they are invited to do so," Mr. Marshall said in answer to a reporter's inquiries. "Once they are invited, engineers are sent in to make surveys, investigating power sites and generating possibilities and studying costs."

The keynote of Power Commission policy, Mr. Marshall pointed out, was to improve the availability and supply of electricity, providing adequate and reliable power at cost.

Elaborating on costs and energy charges, Mr. Marshall explained that the Commission arrived at unit cost on a general pool basis of average over the whole province. Thus there was a uniform cost by which a community where power production costs were high benefitted through lower costs in other parts of the province. Local service charges were determined by costs of distribution, this accounting for varying rates. A small interior community, where power was produced by diesel generators, would benefit from the low mass production costs of large hydro-electric generation elsewhere in the province.

Naturally, Mr. Marshall was not in a position to suggest how much the Power Commission should it come here, have to charge as compared with what was now paid to the Northern

Septic Tanks Not Healthy

Use of septic tanks is not in line with good health standards and action will be sought to have all householders now with tanks but adjacent to city sewer lines to comply with a bylaw.

Dr. Duncan Black, medical health officer, advised city council representatives at a unit board of health meeting last night that he had a list of many householders who had not conformed to city bylaw requiring connection to sewer line.

City had been approached with this list some time ago, he said, and he wanted to know what action had been taken. Ald. Don Fitch said he would estimate what action, if any, had been taken by the city.

Dr. Black deplored the condition where septic tanks remained in use because, he said, many tanks overflowed causing a "smelly and foul condition to exist in many parts of the city."

FAMOUS TEAM

W. S. Gilbert, the librettist, and Arthur Sullivan, composer, wrote their famous light operas between 1871 and 1896.

COMPLETED WORK

Christopher Columbus made four voyages to America before reaching the Isthmus of Panama in 1504.

B.C. Power Co., the present suppliers.

Mr. Marshall and Mr. McKeachie, who arrived in the city on the Prince George yesterday morning from Victoria, proceeded by last evening's train to Terrace. They are making a tour through the central interior to visit various points such as Terrace, Smithers, Houston, Burns Lake and Vanderhoof which are served by the B.C. Power Commission. They will also visit Fort St. James, where a system is to be put in, and will go into Dawson Creek in the Peace River district.

Mr. Marshall, formerly a Victoria barrister, has been with the B.C. Power Commission since its early days. Mr. McKeachie, until recently, was a member of the editorial staff of the Victoria Daily Times.

ROYAL MEDICAL ATTENDANTS—Surgeon Lt.-Cmdr. Harvey Little, Halleybury, Ont., and Lt. Marie Louise Corriveau, Penetanguishine, Ont., were assigned as medical attendants on the cruiser Ontario which took Princess Elizabeth and the Duke of Edinburgh from Charlottetown to Sydney, N.S., and then to St. John's, Nfld. Lt. Corriveau, former nurse in charge of the Dionne quintuplets, was presented to the King and Queen in 1939 with the famous children. At that time the Queen expressed the hope that some day Miss Corriveau would meet her daughters.

Cellulose Expands

SUCCESS of the original operation, which has now been going for nearly six months since the official opening, and the need for further production from the plant is indicated by the announcement of Columbia Cellulose that the capacity of the Watson pulp mill is being increased by fifty percent. It is gratifying news.

First of all it will mean another big installation project with a period of activity in that line not as large, of course, as the original mill but making the employment again of considerable number of men over and above the regular staff of the existing mill. The important and significant thing, however, is that a plant of this magnitude should so soon be increasing its capacity in such a substantial scale.

Bigger things are happening industrially in this part of the country than some may find it possible to realize, much less keep up with. But this community will have to keep pace and make provision for the future.

Legal Rights

In a country where rights and freedoms are based on law, as opposed to discipline by arbitrary authority and strongarm methods, respect for the law of fundamental importance.

This is axiomatic, but unfortunately it is sometimes easier to say than to practise. There are times, even in Canada, when some laws seem to command more respect than others.

People who wouldn't dream of stealing have been known to gloat over sophisticated evasions of an income tax. Traffic laws are often treated very casually when there's no policeman in sight. Customs inspectors at border points are widely regarded as a fair game.

Our laws, of course, have multiplied and become more complex in recent years, and it is difficult to avoid some confusion over what is legal and what is not.

Then, too, there are laws which are not always enforced; suspensions become so common that a great number of people are led to assume that illegal practices are in fact legal.

Industrial Publicity

IT MAY be hard for a British Columbian to believe yet there are places in the United States where people have never heard of the province. But the number will be fewer, as news of the immensity of the industrial contracts continues to spread. Anything in the shape of new industry and payrolls running into hundreds of millions means, among other things, widespread publicity—not so much in the conventional way as in just everyday talk among the workers who, by the way, are pretty wide travelers. It's a good guess that among the thousands who will pass this way next summer will be many who will be looking into job prospects as much as looking at the scenery.

JOINING FIRST GRADE CHILDREN at their own desk is Education Minister W. T. Straith, after official opening ceremony at King Edward School last week. From left, Diane Fossum, Mr. Straith, Edna Johnson and Marilyn Peagam, who expects to start school next year in this room.

Dorreen Mines Looking Good

Initial operating period of the mill at Dorreen Mines Limited, chiefly on development ore, has shown satisfactory recoveries, says a progress report issued by Alexander Mackenzie, the president.

Directors have approved a development program based on new recommendations by C. W. S. Tremaine, consulting mining engineer. This work is aimed at placing in sight sufficient ore to achieve and sustain full capacity operation of the mill. On a three-shift basis the mill is equipped to recover gold, silver, lead and zinc values from about 90 tons of ore daily.

Located at Dorreen, on the CNR, about 130 miles east of Prince Rupert, the property has been placed on production. Direct water power is an important factor in low costs.

Mr. Tremaine reports that the 2500-foot aerial tramway completed this fall is operating satisfactorily. Judging from metal recoveries during the tune-up period the operation will be free from any metallurgical difficulties, the engineer states.

While new development was limited during the construction period, some high grade ore was disclosed in the sinking of an incline shaft on the vein along the contact of a large diorite dyke. The first 60 feet of this incline was in ore from 20 to 24 inches wide averaging 1.64 ounces gold, 4.7 per cent lead and 2.3 per cent zinc. No assay was run for silver.

The new program will be centred at four separate locations all of which have ore showing which was included in the original ore calculations but which require further work before the ore can be mined.

Exploration of a two-foot outcrop, 600 feet up the hill from the No. 1 tunnel, reveals assays of \$106 in gold, lead and zinc, with a second sample a few feet lower which assays \$141 per ton across two feet. This is believed to be the vein reported on by E. D. Kindle of the Geological Survey. He suggested that this showing, 70 feet structurally above the main vein, opened up the possibility of a parallel ore zone, extending above the present workings.

Development ore from the four development projects will go to augment mill feed. This program, expected to take about six months to complete, covers only a small part of the property. For future attention is a large favorable area down the dip from present workings. Outcrops are known to exist 1000 feet farther up the dip as well.

Canadians spent more on pleasure travel in the US and overseas last year than ever before, a total of \$225,700,000.

ray.. Reflects and Reminisces

There's no question about retail trade picking up in northern and central B.C. Six thousand in cash and cheques is a heap of money to find in a Prince George safe.

Prince Rupert's telephone department goes back to the year of incorporation, 1910. It was then, Ald. T. D. Pattullo wrote a letter suggesting its establishment. Pretty close to pension status.

"The Surgeon Of The Skeena" is the way the late Dr. Horace C. Winch is described in a review of early days, recently published. It tells how the pioneer physician and his wife managed to travel by canoe nearly two hundred miles up river, finally settling at Hazelton, where the Skeena and Bulkley rivers join. It was here he founded the community's first hospital, and which is today one of the finest in the north.

Why Scotland Yard? There is an explanation, and it's simple enough. Back in the seventies, London's Detection Agency became housed near a building that in earlier years had been the London residence of visiting Scottish royalty. Hence, the "yard." Even when detection headquarters moved to another part of London the name stuck.

There was once a Fort George for about half a century but, when the GTP railway started coastward, it became Prince George. And more or less confusion followed when Prince Rupert appeared on the map. There has been guess work, incomplete knowledge and plain ignorance ever since. Vancouver is full of people who are uncertain about anything if it's twenty miles north of Burrard Inlet.

Only yesterday, for example, inquiries were made in Prince Rupert, asking further details of a robbery that actually happened in Prince George. Frequently in the southern press, news despatches are printed under a Prince George dateline when it should be Prince Rupert and vice versa. It all comes down to the fact that northern B.C. has one Prince too many, but it's not the terminus of the CNR.

Recruiting appears to be picking up, but not necessarily the military type. An Ontario bishop has been campaigning overseas with the result that three Englishmen, a Scot, an Irishman and a Welshman—all Anglicans—are on their way to a Great Lakes diocese. Presumably, they have already had considerable training.

Few Sockeye At Lakelse

Escapement This Year Again Low Although Higher Than 1950

Reports on Lakelse Lake sockeye spawning escapement indicate that the sockeye run to that area is again relatively small this year though a definite improvement over that of last season, 1950.

At the Williams Creek counting fence of the Fisheries Research Board of Canada, approximately 4,500 sockeye were observed, the females being slightly less numerous than the males.

At Scully Creek 1,185 sockeye were counted, of which only 373 were females, 791 were large males and 21 were "jacks" or precociously maturing small males.

For 1950 the totals for each spawning area were: Williams Creek—1,506; Scully Creek—612. Previous years' spawning escapements have been: 1944—25,000; 1945—50,000; 1946—34,000; 1947—17,000; 1948—15,000; 1949—6,900.

During the year a new counting weir has been under construction in the Lakelse River, a mile or so below the lake, for the enumeration of both adult salmon ascending to the lake and seaward-migrating smolts. From now on it will be possible to determine each year the extent of natural production of sockeye smolts from each season's spawning escapement and to relate the variations in production to the responsible environmental or climatic conditions.

Lakelse Lake operations in general are under the supervision of V. H. McMahon; Williams Creek studies are carried on by B. M. Chatwin and those at Scully Creek are under J. G. McDonald.

TO NEW POST—Charles Jennings of Toronto has been appointed assistant director general of programs of the CBC. Joining the CBC staff in 1933 as an announcer, he has been chief announcer, supervisor of program planning and held other important posts prior to his promotion to the newly-created office. (CP Photo)

Snow General But Not Heavy So Far

Light snow conditions have been general along the line of the Canadian National Railways through the central interior since the first of the week, according to reports at the office of the divisional superintendent. On Monday there had been a fall of two inches all along the line from Tyee eastward. However, this is not enough snow to inter-

fere in any way with traffic and, so far, it has not been necessary to get the plows out.

Newfoundland is twenty times as large as PEI, has only one-fifth of that province's lands.

"Old at 40, 50, 60?" — Man, You're Crazy

Forget your age! Thousands are peppy at 70. Try "pepping up" with Cerebro. Contains tonic for weak rundown feeling due solely to body's lack of iron which many men and women call "Old." Try Cerebro Tonic Tablets for pep, younger feeling, this very day. New "get acquainted" name. Only for sale at all drug stores everywhere.

Special Announcement for Persons Not Registered With B.C.H.I.S. or Persons in Arrears of Premium Payment

You may now qualify for B.C.H.I.S. benefits after 14 days from date of payment of current premiums under the following conditions:

Pay 6 months premium for the last half of 1951 and 6 months premium for the first half of 1952

AND

Agree to pay your arrears in regular instalments of \$4.00 a month starting by December 31, 1951

The acceptance of these terms must be made before Nov. 30, 1951

HOW TO ACT

Go to your nearest B.C.H.I.S. Collection Office or to the office of any Government Agent to make the necessary arrangements—OR fill in the form below and send it with your remittance direct to the Commissioner, B.C.H.I.S., Victoria, B.C.

REMEMBER this arrangement must be completed before November 30, 1951 and that after that date it is the intention of B.C.H.I.S. to ENFORCE PAYMENT OF ALL ARREARS in any manner permitted by the Act, without further delay.

INSTRUCTIONS RE FORM: Complete this form and mail it to the Commissioner, B.C.H.I.S., Victoria, together with a cheque or money order for one year's premium, giving coverage up to June 30, 1952 (\$30. for a single person, \$42. for a person with one or more dependents). If you have not previously registered or do not know your registration number, write to B.C.H.I.S. for a registration form. You will be eligible for benefits 14 days after you make your payment of one year's premium.

The foregoing is the result of British Columbia Hospital Insurance Inquiry Board recommendations.

BRITISH COLUMBIA HOSPITAL INSURANCE SERVICE

Request for Instalment Payment of Hospital Insurance Premiums
Hospital Insurance Commissioner, Victoria, B.C.

I, _____ Hospital Insurance No. _____
(print full name)
of _____ B.C., hereby make application to pay my Hospital Insurance premium as follows:
(1) Payment of one year's premium, amounting to \$ _____ is enclosed herewith (see above for rates)
(2) Payment of my premium arrears will be made by me in regular monthly instalments of \$4.00 each. The first instalment will become due on Dec. 31, 1951, and subsequent instalments will be due on the last day of each month following.
(3) I will be notified of the amount of my arrears and will be sent a schedule of my instalment payments.

PLANTS IN PICTURE WINDOW
CALL FOR SPECIAL CARE

A Winter Window Garden Makes Spring Come Faster, and Teaches Many Lessons

Popularity of picture windows, have caused some readjustment in the rules for winter window gardens.

A north window of normal proportions has not been considered a good location for flowering plants, because of insufficient light. But a picture window facing north is not shaded from reflected light of the northern sky, is a preferred location for most of the plants which are easy to grow in the house.

The light which such a window admits is adequate and it has the advantage of an even and cool temperature. In a room which varies between 70 and 80 degrees in daylight hours, the temperature close to a north window will often be 10 to 20 degrees lower.

A picture window facing south, on the other hand, which gets the full impact of the winter sun will usually be subject to extreme variations of temperature. If you place a thermometer between a south window, and storm sash, on a sunny day, you may get readings up to 100 degrees, when the outside temperature is below freezing.

East and west picture windows are likely to be more favorable to plants than one facing south, but the northern exposure is even more easily managed, and favors a wide variety of plants. Cyclamen bloom freely in this location and a Paper White narcissi do much better than in a sunnier

window, where the temperature range is much greater. Begonias, which may be injured by too much sun do well. It is an ideal spot for African violets, Amaryllis, calla lilies, and all the hardy bulbs will thrive, and of course the foliage plants and florists' green plants.

An arrangement by which a shade or curtain can be lowered between the plants and the glass on sub-zero nights will protect from injurious drafts, provided the window is of the double pane type, or has a tightly fitted storm sash.

Automatic watering for indoor plants will save lots of trouble, and may save your plants. Trays or saucers in which two inches of coarse sand can be placed should be provided. Stand the pot on this sand, and keep water in the sand just below the bottom of the pot. This water will be drawn into the pot as needed to keep the soil moist, without danger of water-logging. Evaporation from the trays will also help humidify the air, which is usually too dry. Other methods of humidifying which may be available will be beneficial.

Those who live with picture windows soon learn that the light, or glare they admit, is not always pleasant. It is easily softened by a gauzy curtain, and in the case of plants excessive variations in temperature may be lessened by shading with such a curtain, or a screen of similar material.

Readying New Yukon Army Camp

Construction of a new military camp on the Alaska Highway, 165 miles south of the Yukon-Alaska border, is setting the stage for the start of Exercise "Eager Beaver" early in 1952.

Straddling the highway at Silver Creek, Y.T., the camp will house the 500 Canadian and United States Army engineers participating in the 6-month training exercise scheduled to get under way there January 15.

Some 40 Canadian and U.S. officers and men, under command of Major E. D. Taylor of Vancouver, have been on the scene since October 7, rushing completion of the camp. Early preparations are expected to be completed before the main body of Canadian troops arrive at the training area January 3.

Eager Beaver will combine engineers of Canada's 59th Independent Field Squadron, RCE, and the United States' 361 En-

Water Money Bylaw Coming

A \$100,000 water system improvement bylaw will be voted on by Prince Rupert electors at the December civic elections. City council Monday night accepted the recommendation of the board of works, headed by Ald. George Casey.

Total cost of the debentures, to be issued on a 20-year serial basis, interest 4½ per cent per annum, includes the following: Reservoir repairs, \$20,000; Seal Cove water main, \$15,500; Fifth Avenue West main, \$21,000; Section 2 water main, \$9,500; Fourth Avenue West main, \$7,500; Rushbrook Heights main, \$7,000; Mt. Oldfield main replacement, \$5,500, and the "Co-op" water main, \$10,000.

Aldermen agreed that this was "the least we can get away with" in maintaining the city water system.

Engineer Construction Battalion. Working under severe arctic conditions and spring thaw, the troops will test equipment and airstrip construction of field defences, demolitions and cold weather demolitions problems. Study of methods and results obtained at the site will affect future planning and operations.

Encroachment Not Condoned

City council will advise owners of Savoy Hotel that the building is encroaching on sidewalk allowance to extent of 70.04 square feet and that this condition cannot be condoned.

Decision was reached by council Tuesday night when it learned no agreement could be made with the owners for indemnities to the city. Municipal Act holds city can enforce removal of encroachment or condone it.

Ald. T. B. Black suggested the city should not condone the condition "in order to protect ourselves." Owners could at any time be forced to remove encroachment from sidewalk limits, maximum of which is 35 feet and minimum .29 feet.

According to verbal information he had received, Superintendent of Works Stewart said contractors rebuilding the hotel had failed to survey the property.

Conrad School PTA Meeting

Principal Bateman Speaker At P-T-A Meeting

Feature of the monthly meeting of Conrad Street Parent-Teacher Association was an address by Principal T. G. Bateman on the subject of present day report cards as compared with those showing pupils' grades in percentages as they did several years ago.

"Education today," Mr. Bateman said, "is not merely academic. It is also designed to promote growth in character, integrity and a willingness to co-operate with fellow students for their common good." Therefore, present day report cards which remove the comparison between pupils whose abilities cannot possibly be compared, eliminate

the dangerous factor of fear in the classroom, Mr. Bateman said.

M. Bateman also stressed the importance of parent-teacher teamwork in the development of the child. He urged parents to check regularly with teachers to discuss problems which they could by co-operation probably trace down and eliminate.

PENNANT AWARDED

For the second time in succession, the pennant for largest attendance of parents was awarded to G. Olsson's Grades Four and Five class.

It was reported to the meeting that some school zone signs for Seal Cove School have now been erected.

Members decided that each month two volunteers will be called to attend the P-T-A meetings of Borden Street and King Edward schools for the purpose of co-ordinating the work of the P-T-A's. This month Mrs. C. We're will attend Borden's meet-

ing and Mrs. D. Gomez, King Edward's.

It was announced that visitors' day for Seal Cove School would be held on Wednesday, November 14, and for Conrad Street School on Thursday, November 15.

A trial card party will be held on November 16. If this party is successful, they will be held regularly.

Because there are no suitable blinds for the windows of the Cove School (taken from the motion picture) are unable to be shown as yet to pupils of the school. Principal T. G. Bateman gave this reply to an inquiry from him at the meeting.

President W. D. Griffin in the chair.

Barbara Brent's BUYS AND WHYS

MONTREAL, Nov. 15th.—If you plan your next shopping trip to place a man, here's a hint for your next shopping trip. Buy JELLY POWDERS. Buy more! Well, that's no problem. . . . *Evangeline Vann's Diary*

Walked over to see how W. T. Goodlad was, last seen Burns Lake hospital. Introduced to Mrs. Goodlad and Lassie, Dalmatian with one "night eye." Very friendly, as she sees many strangers during the summer season. "There's a tremendous amount of fish here, and the hunting's good too, but I'm not so sure both hunting and fishing should not be curtailed a little. There's a limit, of course, on the fishing, twelve, I think. People smoke them, and take them away. It's alright, so long as there are plenty of fish."

No wonder "Sandy" Annan named this part of the world Glenannan. Must have reminded him so nearly of his native Scotland. View from the top of the hill, going up from the bridge, looking over the lake, calm and gleaming, under the moon, was unforgettable.

Heard more of "Sandy," Alexander Greig Annan, now buried at Burns Lake. Of his "white elephant," a hotel built at Glenannan many years ago, and of the original pioneer store at Enid, Idaho which he built, and the present Annan Hotel which, being fully modernized, of which more later. Past glories, when Sandy reigned supreme in his own domain, are often discussed. Bobbie Burns' night, other Scots holidays and his bachelor free dinners are well remembered.

Sandy often said he wouldn't die until the band had played and he'd got a new suit. Guess he figured he wasn't going to die, but strangely enough, I'm told he was buried in a suit he's never worn, and Smithers' band played in front of the hotel not long before his death.

Get Quick, Easy Shaves Every Time With

GILLETTE Blue Blades

● Shaving's a breeze, quick, easy and refreshing with today's superkeen Gillette Blue Blades. Precision-made for your Gillette Razor—double-edged for economy—they last far longer than ordinary blades. For extra convenience use them in the handy Gillette Dispenser.

Bishop Gibson Impressive

STEWART — Remembrance Day parade in Stewart Sunday was headed by Marshall Sam Kirkpatrick, followed by Standard Bearers Johnny McKenna and Al Robinson and girls of the C.G.I.T., the Tuxis Boys, the Women's Auxiliary and the old and young veterans of both World Wars, wended its way towards the Cenotaph. It was a thought provoking spectacle.

At the Cenotaph, the parade halted and Chaplain W. S. Orr took over.

The service was conducted by Rt. Rev. J. B. Gibson, Bishop of Caledonia. His message to those congregated there will long be remembered, by his listeners.

At the end of the service Legion President Roy Sharp laid a wreath, followed by Mrs. Violet Kirkpatrick, President of the Women's Auxiliary, a representative from the Tuxis Boys, F. Hunger from Premier, J. Bouzek and the Matriarch of the Village, Mrs. C. E. Gibson, whose brother-in-law's name heads the list on the Cenotaph. He was C. T. Baker who served with the 72nd Battalion C.E.F. and was killed at Bourlon Woods in France during the First World War. The ceremony completed, the parade under Marshall Sam Kirkpatrick marched back to the Legion Club-rooms where they were dismissed.

NEW PLAYGROUND

The playground committee presented a report including a recommendation, which was adopted, that the city parks board be asked to consider the setting aside of the Plaza on Sixth Avenue East as a public park with a view to possible playground development. Another recommendation was that a new bathhouse be installed at McClymont Park.

Success of the recent Apple Day and sale for the playground fund was reported with an estimated \$845 realized. The committee, headed by Ben Parker, was commended for a good job and special appreciation was extended to S. A. Cheeseman for effective organization of school pupils who assisted in the street canvassing.

Ben Parker, W. F. Stone and F. J. Skinner were added to the Purple and Gold committee.

Joe Scott was placed in charge of the annual Christmas luncheon for Gyro luncheon. The annual Christmas luncheon will be held on Boxing Day.

Exciting Film Of South Seas

An exciting tale of a fabulous hunt for treasure in the wilds of northern Australia and New Guinea is the feature picture this Friday and Saturday at the Capitol Theatre. Rugged John Payne, sumptuous Rhonda Fleming and tough guy Forrest Tucker head the cast of the adventurous technicolor story of the fortunes of a devil-may-care sea captain, an incendiary red-head and a band of assorted cut-throats on the trail of gold, pearls and trouble.

Undersea battles, attacks by crocodiles and wild beasts together with ambushes by head-hunters comprise some of the action highlights as desperate doings range across uncharted seas and through unexplored wilds in a story punctuated with lust, treachery, murder and grim revenge.

LARGEST screen South America drama 2,053,000 square miles, as large as the St. Lawrence.
