OTTAWA FROWNS ON DOUK MOVE

Chinese Reds Rebellious

HONG KONG (CP)—Red terror in Swatow — Crushed guerrilla movement in Kwangsi—Seething peasant unrest in south—these were the reports out of Communist China today. They all added up to what the Red capital at Peiping itself admitted only last week—that dissidents were challenging their Communist masters all over China.

Newspaper reports said today the tommy-gun rules in the port of Swatow, opposite Formosa, and that jails are jammed with suspected adherents to Chiang Kai-Shek. Many Chinese were reported fleeing the Red terror.

The Doukhobor Problem Reactions to Settling Sons of Freedom on Queen Charlottes

A variety of opinion and reaction met a Daily News reporter today in answer to the question: "What do you think of the radical sect of Doukhobors planning to settle Graham Island?"

(The Daily News carried a Canadian Press report yesterday that 2,500 Sons of Freedom might make their future home on the Queen Charlotte Island.)

Mayor Rudderham—"It's hard to say" Mayor G. W. Rudderham thought, "if the Doukhobors were relocating of their own free will, it could be beneficial both to the country and to the people."

"But if the governments plan to settle them there, just to get rid of a nuisance, I'm not for it."

The mayor thought the "strange sect" could "well enough live off the land." The people were reportedly good farmers and, once away from their enemy faction, the orthodox, peaceful-living Doukhobors, the radicals might become peaceful.

"In that light I think it may be a good idea. But they still must obey the laws of the land," Mayor Rudderham added.

W. J. Scott—"I think it would be best to get them out of the country entirely," said W. J. Scott, president of Associated Boards of Trade, "unless we can have some definite understanding and assurance from the governments that they (Doukhobors) will abide by the law."

France Still Sans Premier

PARIS—George Bidault, having failed in his effort, another former Prime Minister, Henri Queuille, endeavored to form a new government for France—but he, too, failed in the attempt to muster enough support to assume the Premiership.

After Queuille, who is a Radical Socialist, abandoned his attempts to form a new French cabinet, Guy Mollet, 46-year-old Socialist school teacher, said he would try.

Mollet was thus the third French political leader to accept an invitation from President Vincent Auriol to try a hand at forming a cabinet.

Deadlock over reforms in electoral law brought about the downfall of Premier Rene Pleven's government Wednesday.

Mollet was minister of state and representative of Pleven's cabinet in Big Four council of Europe affairs.

Canadian Chief Of Staff in U.S.

OTTAWA — Chief of General Staff, General Guy Simonds, is on a trip to Washington to confer with American Army officials on the matter of sending troops to Korea and Europe.

First Casualty List is Issued

OTTAWA — The first official casualty list of the Princess Patricia's Canadian Light Infantry, in the Korean fighting has been issued.

Five are listed as dead, one dead of wounds, ten wounded and four injured.

No West Coast men are shown in the killed in action list but one, Lieut. Alfred S. Wagstaff of Vancouver, was wounded and two others—Pte. Patrick Beley and Pte. Archibald Cunio, both of Vancouver—are battle accident victims.

Queen Charlottes Not Suitable For Security Reasons, Military Says

VANCOUVER (CP)—High military officials in Ottawa were reported today to have frowned on proposals to relocate the radical Doukhobors in Queen Charlotte Islands.

Famine In Korea

GENEVA (CP) — There will be famine in South Korea next year unless about 3,000,000 refugees, jammed into the lower part of the peninsula, can be put back on their farms by May, Donald Kingsley, United Nations agent-general for Korean reconstruction, said today.

Settlement of the Doukhobors on Graham Island, most northern and biggest of the group of three islands forming the Charlottes, "might not be suitable for security reasons," was reported from Ottawa.

A British Columbia government committee recommended relocation of the radical Sons, numbering about 2,500, and several locations are under study.

The Doukhobors require several thousand acres of land suitable for agriculture. The Sons agreed to migrate from the Kootenays favoring an "isolated location," such as the Charlottes offer.

Authorities in settled communities oppose these settlements.

Challenge To Soviet

UNITED NATIONS, N.Y. (CP)—United States today dared Russia to let United Nations start counting her soldiers, sailors, guns, tanks and planes Monday.

The United States agreed to undergo the same inspection. Such an independent census, the U.S. said, would show once and for all who had the biggest armed forces—Soviet Union or the western powers.

Russia rejected all previous demands for such a count. The new American move was occasioned by Russia's note to Britain last week charging the western powers had twice as many men under arms as the Soviet Union.

THE WEATHER

Synopsis
The lower mainland encountered this morning one of the heaviest March snowfalls on record. Amounts on the ground early this morning varied from 2 to 4 inches.

The weather disturbance causing this situation moved rapidly from the Gulf of Alaska during the night and will move into the interior during the day. Improved conditions are expected along the coast today in the wake of the storm while snow will spread into the valleys of the interior. Cloudy skies and scattered snow flurries are expected over the province on Sunday.

Forecast
North coast region — Cloudy today and tomorrow. A few snow flurries overnight. Colder tomorrow. Winds—northwest (35) over open waters today, elsewhere westerly (20). Light tonight, northerly (20) tomorrow. Lows tonight and highs tomorrow—At Port Hardy 30 and 40; Sandspit 32 and 38; Prince Rupert 28 and 38.

MOM!—FO. E. J. Hudson resorted to a walkie-talkie when he was banned from an Edmonton hospital due to a flu epidemic. Mrs. Hudson gave birth to twin boys. He is shown with their other two sons outside in conversation with the mother. (CP PHOTO)

INDUSTRY REFLECTED—

Production Shows Upswing in Area

Increased logging activity in Prince Rupert is the result of the activities of Columbia Cellulose expanding sawmilling operations in the interior is reflected in upward bounding scaling log scale for the month of February this year.

Allies Still On Move

TOKYO—Allied forces, continuing their steady northward advance in Korea in the face of stiffening Communist resistance, are closing in on the important supply base of Hoengjon, 15 miles north of Hoengson, which they captured yesterday.

A United States tank and infantry force advanced 3½ miles today. Terrain is extremely rough and weather bitterly cold but, nevertheless, progress is made.

Bulgaria is Complaining

SOFIA—Bulgaria is complaining about reconnaissance flights of Greek aircraft over Bulgarian territory. Yugoslavia and Albania are charged with co-operating by allowing Greek planes to pass over their territory.

VICTORIA—A. J. McDonnell, Coalition member for Vancouver—Point Grey, speaking in the Legislature yesterday, was critical of some aspects of the agreement and Aluminum Co. of Canada. He felt the company should be required to go further than to merely produce alumina ingots but to also set up a manufacturing plant, possibly in Vancouver.

Think Government Should Have Made Better Alcan Deal

Mr. McDonnell said: "We should have placed a value on that waterpower of ours that would warrant us asking the company not only to manufacture ingots but to construct further manufacturing plants, probably in Vancouver, so that we could get the benefit of employment."

If Alcan did not undertake further construction, he said, no other organization was going to. "The use of aluminum is expanding tremendously and, if the ratio of expansion per year keeps up and this company is able to sell the products of all its plants, British Columbia will not only have leased its waterpower but, through extra prices which they charge us for their product, we will be paying the carrying charges on their investments within a few years."

In the United States, McDonnell said, 17,000 industries were engaged in the manufacture of aluminum products. There are only 71 in Canada.

BULLETINS

LIVING COST UP
OTTAWA (CP) — The government's cost-of-living index rose from 172.5 to 175.2 between January 2 and February 1, Dominion Bureau of Statistics announced today. January increase of 2.7 points was the biggest monthly jump in more than two years.

KING BETTER
LONDON (CP)—His Majesty King George VI, who was reported yesterday to be suffering from a feverish chill, had a comfortable night, his doctors said today. He was remaining in his room today.

RUSSIANS TEACH TECHNIQUES
TAIPEI, Formosa (CP)—Foreign sources today said 5,000 Russians arrived in China's Hunana province to teach Chinese Communists the Soviet purge techniques.

"CONSPIRACY" ALLEGED
PRAGUE (CP)—More than 200 persons are reported to be under arrest in the Communist party's drive against alleged Titoist plotting in Czechoslovakia. Reports said there was "broad conspiracy" within the party.

LATEST SNOW IN 13 YEARS
VANCOUVER (CP)—Damp flakes sifted down on Vancouver today in the city's first March snowstorm since 1938. The snow belt covered all of Vancouver Island and the lower mainland. Three inches of snow blanketed suburban Vancouver several hours after the fall started, with no let-up in sight.

NO WAR, SAYS BRITAIN'S LABOR
LEEDS (CP)—Deputy Prime Minister Herbert Morrison said today Britains Labor government "utterly rejects" the view that a third world war has begun. He told a regional Labor meeting that Russia had sabotaged efforts of the United Nations to create a collective security.

Why Not On Islands?

MUCH INTEREST is taken in the proposal to settle the Sons of Freedom Doukhobors on the Queen Charlotte Islands.

There should be plenty of land on the Queen Charlotte Islands to assimilate 2500 new settlers. Lack of population there, with resultant lack of transportation and communication services and some of the amenities of life, has long been a complaint of the Islands.

But we do not know how the good people of Graham Island will react to the proposal. Some of them will, no doubt, be horrified when they first hear about it. How much of the horror is actuated by spontaneous prejudice it is difficult to measure. Naturally, they would not welcome a penal colony or anything in the nature thereof.

Shoving the Doukhobors around from one part of the country to another is not meeting the situation.

The problem of the Sons of Freedom is something far broader than where or where not they should live.

Naturally, nobody wants criminals or law-breakers as their neighbors — and that goes for any kind of criminals or lawbreakers, not only the Doukhobors.

The problem of the radical Doukhobors is finding some way of making them law-abiding, trustworthy and desirable citizens, willing to accept our way of life and the duties as well as the privileges of free Canadian citizenship, who would be acceptable as residents of the Queen Charlotte Islands, the outskirts of any community be it Vancouver, Victoria, Prince Rupert or where not.

It could be that, on the Queen Charlotte Islands, the Sons of Freedom would make a new start in life and become good Canadians and acceptable citizens.

Encouraging Sign

IT COULD BE that the meeting of deputy foreign ministers of the Big Four which is to be held next week in Paris to draw up an agenda for a projected Big Four conference of United States, Great Britain, France and Soviet Russia later in the year may be a turning point in international affairs which have been having such troublous days these last few years.

It is at least an encouraging sign that Russia should have agreed even to the preliminary conference. If it gets no further than this Paris preliminary meeting—and there seems to be no good reason why the greater and main conference should not develop as planned—there will at least be the opportunity to hear some expressions of attitude—particularly as far as Russia is concerned.

Meanwhile there is encouraging indication of conflicting elements getting together with a view to composing their differences which have held the world in a state of cold war so long, erupting into flame in Korea and other campaigns.

Aluminum Era

ROY BROWN, a former city editor of the Vancouver Province, writing in the Sun, says: "This Tweedsmuir Park development of the Aluminum Co. of Canada is the most momentous industrial event since the CPR was built across the face of the province."

"It probably takes ten dollars today to do as much construction as one dollar did in the eighties. It's a different era we are living in now. It's the aluminum era we are entering. Assuredly it will transform the district of Central B.C. on a tremendous scale."

"It can also have a vast effect on our general economy. It means so much to British Columbia to have all this construction and spending. It seems sure to make the boom last longer and be vastly more productive of dollars and dividends in cash and labor and all the things that go to spread the benefits of current activity."

Scripture Passage for Today

"If in this life only we have no hope in Christ, we are of all men most miserable."—1 Cor. 15:19.

As I See It

by Elmore Philpott

RED CARPET OUT

KARACHI, Pakistan—They had the red carpet out at the entrance to the Metropole Hotel when I arrived to see the Canadian High Commissioner to Pakistan, David Johnson.

I hasten to add, it was not for me, but for the Aga Khan, who is here with a considerable suite of followers, and with his beautiful French wife. Once the Aga Khan had come in, they rolled it up again.

THE LITTLE CANADIAN delegation here seemed to me like a happy family. But not having the wife along to keep me straight on such things, I wouldn't be sure. She tells me I'm too glib.

The Canadian Commissioner's office is situated right in the hotel, and most of the staff live there also.

The day I arrived, they were giving a jolly little staff party for their favorite Australian girl pal—a member of the Australian Commissioner's staff. Having arrived quite a while before the Canadians, this lady was in a position to show the Canadians the ropes, and to keep them from making too many mistakes. Now she was going away on her "long leave" and they were saying goodbye and thank you.

THE PLACES OF ORIGIN of the staff members interested

me. The High Commissioner is from Montreal. The Geoffrey Murrays are from Montreal, the Hoopers, man and wife and very Canadian young son, are from Ottawa. There is one girl secretary from Winnipeg, one from Saskatchewan and Winnifred Bingham from Vancouver, a sister of Jack Bingham, whose voice is familiar to just about everyone in Canada who listens to CBC.

SERVICE IN THESE tropical countries is a very colorful but also a trying experience for Canadians. The regular "stint" is to do two-and-a-half years, but never more than two consecutive summers at a stretch.

Just a few days before I arrived at Karachi, tragedy had struck our little Canadian delegation. For the infant child of the commercial attache had died after a three-day attack of infectious dysentery. The heart-broken young parents were still walking around as in a daze. If ever I saw a tragic picture, it was in the sorrowful face of the young Italian-born mother and wife.

A FAVORITE TOPIC of conversation amongst Canadians here and in Cairo is how the wives will ever re-adjust themselves if and when they return to ordinary home-making in Canada.

In these countries, where a great mass of poor people crowd the labor market, it would be impossible for a person with what we would call a decent salary in America not to keep a flock of servants.

There is a very clearly-marked line as to what each servant may or may not do. The driver of your car, for instance, will not carry a package into your home if a bearer is available. Nor will your bearer touch the floors or clean up the bathroom—such being the private preserves of the sweepers. They say if you run a home you must have five servants—it's a case of five or none.

IN THE LAST ANALYSIS, this (Continued on page 5)

Imagine Canada without the

RED CROSS!

Aren't you glad you live in a country where people do care what happens to others in disaster or other misfortune? Where the natural warm-hearted generosity of fellow citizens supports such humanitarian projects as...

- DISASTER SERVICES
- FREE BLOOD TRANSFUSION SERVICE
- OUTPOST HOSPITALS
- WAR VETERANS SERVICES
- PROTECTION OF PRISONERS AND WOUNDED OR CAPTIVE CIVILIANS IN WAR

Then with a grateful heart...

Saturday Sermon

The Master Teacher

(Rev. Lawrence G. Sieber, First United Church)
"There was a man of the Pharisees named Nicodemus, a ruler of the Jews. The same came to Jesus by night and said unto him, 'Rabbi, we know that thou art a teacher come from God: for no man can do these miracles that thou doest, except God be with him.'"
—John 3:1-2.

Next week is Education Week in the schools of our community. In our schools there is teaching and learning and this process continues as long as we are alive. Further, each one of us is both teacher and pupil. But just now and here we are interested in: Who is our teacher?

I believe that Jesus is our Master Teacher for living. He taught the truth to men in such a way that the truth made them free. Through his infinite wisdom, his all-inclusive love for people, his truth-imparting personality, Jesus healed men. He opened the eyes of their inner understanding and showed them the meaning of the life of God in the life of man.

He knew what God is like and bore witness of his Father. He knew what was in man, and revealed to men the sacredness and worth of their own lives in the sight of God. Jesus knew that labor is a divine exercise. He used his own hands and understanding, and led men into the godly pursuit of honest labor in a great cause. He knew the word and spirit of his Scriptures. He saw the beauty of nature, the sordidness of human nature, and the beauty of the pure in heart.

He lifted up, in himself, the

Green 331

Pastor: C. FAWCETT

CHRISTIAN FELLOWSHIP

Secretary of the B.C. Inter-Varsity and Christian Fellowship, Rev. Murphy, arrived in Prince Rupert from Vancouver. He will be with the city groups today and will be in charge of the Prince Rupert church group tomorrow. He is a graduate of the University of Toronto and Wycliffe College and was a member of the Christian Fellowship in the city of Toronto. Although a Church of England inter-denominationalist, he has assisted in the work of three churches—St. Peter's, St. Paul's and St. James'—where we have a veritable host of members. He was here with local members of the Fellowship last Wednesday.

God. Jesus taught the thoughts of mind and simple words and spoke to Mary and their housekeepers about fishing, so that about a banquet, and about scars, and about spiritual birth. He said: "This is I am the truth," and "I am the light of the world." The people saw Jesus the truth and were saved.

Consequently, Zacchaeus was transformed, Lazarus had a Friend, the Samaritan woman's hunger and thirst for righteousness was appeased, and Nicodemus found a teacher sent from Him, the Master Teacher.

DATED at Prince Rupert, British Columbia, this 1st day of March, 1951.
THE PRINCE RUPERT CLUB LIMITED.
(By Arthur Bruce Brown, Secretary.) (74)

NOT QUITE SURE what was expected of them, this quintet was a little shy, their play temporarily interrupted. From left to right are Valerie Manson, Ronnie Tough, Theresa Rogerson, Robert Jergunson, and "Baby," who is just a year old.

Toddlers Learn Public Relations—How to Play

No, it's not a nursery. Those 30 or more laughing and squealing children in the Civic Centre teen-age games room every Wednesday afternoon are the "Toddlers Class." They are the most elementary group in a stepping series which leads to the Senior Rup-Rec classes.

All under three years (some of them babies, really) these tots are getting their first lessons in public relations—how to play with one another. Under the watchful eye of Mrs. Muriel Boas, they make new friends, sometimes earnestly discussing the rights and ownership of certain toys; at other times squealing with delight at just being alive.

"They give hardly any trouble," said Mrs. Boas. "Oh, once in a while a newcomer will get a little lonely for its mother, maybe cry a little even but we usually manage to settle that pretty quick."

Mothers sometimes leave their young ones at "toddlers" to take time out for an hour to shop. "It gives them a break," Mrs. Boas smiled, "and we like the little ones here."

But more often mothers congregate in the general lounge of the Centre to socialize with others. Including parents of the Tiny Tot classes, which fall on the same afternoon, as many as 20 or more ladies can be found in amiable conversation.

"We are at one disadvantage here," Mrs. Boas said. "We need volunteers to help look after these youngsters." And especially if the group grows any larger, she emphasized.

Toddlers was started when it was found many four-year-olds, eligible for Tiny Tots, were unaccustomed to mix with others in their own age group. It has been under way about six weeks.

"At this age they soon learn to respect the rights of others, and they make friends easily," Mrs. Boas said.

Moose Women Plan Bazaar

Women of the Moose were in session Wednesday night at the home of Mrs. C. H. Collins, Ambrose Avenue, to make final arrangements for the spring tea and bazaar.

In addition to the usual fancy work, home cooking and candy stalls, plans were made for a special novelty stall to be convoked by Mrs. C. McIntyre, and a delicatessen, convoked by Mrs. Jack Hoskins.

Committee chairmen present were Mrs. R. B. Skinner, Mrs. Betty Blair, Mrs. C. McIntyre, Mrs. J. McLeod, Mrs. Percy Bond, Mrs. H. Tweed, Mrs. Sam Haugan, Mrs. J. Hoskins, Mrs. T. Glenn and Mrs. G. Robinson.

Also present as guests were Mrs. F. Parlette, senior regent, Mrs. O. Stegavig, Mrs. R. Giske and Miss Sylvia Johnson.

BEFORE qualifying for entry in this sport, youngsters spend several years first in "Toddlers," then in "Tiny Tots I." Carol Wick, 6, does an adagio number. Forward Swan, supported by instructress Gloria Sather.

Sons of Norway And Polio Fund

A second raffle in response to calls for charitable funds was held by the Sons of Norway at their regular whist and dance last night in the SON Hall.

Ten dollars was realized in the raffle for the Kinsmen's Polio fund, with first prize of bath towels going to S. Hamlin, and second prize of chocolates, won by George Duplesse.

Twelve tables of whist were played with winners: Mrs. J. Johnson, first; Mrs. C. Chesney, second; O. K. Nelson, first; Mr. Sanford, second, drawing with Steve Erickson.

Nels Gunderson was master of ceremonies, with music by Mike Colussi's accordion. The check room was in charge of Mrs. Julia Slatta.

Under general convener, Mrs. C. Strand, Mrs. J. Johnson, Mrs. J. Pedersen, Mrs. O. Giske, John Fredheim, John McNaughton, E. Bakken and Nels Waseng were on the committee.

ANNOUNCEMENT

We wish to advise that effective February 27th, we will be looking after the contracting of coal for Messrs. Albert & McCaffery, Limited.

The two companies will continue to operate independently of each other, the present arrangement having been made for the sole purpose of keeping our respective handling costs to a minimum.

We are, of course, remaining in the coal, wood and transfer business, and look for the new arrangement to enable us to give our customers even better service than we have in the past.

HYDE TRANSFER
Phone 580

TO OUR CUSTOMERS:

We are pleased to announce that a working agreement has been made with Hyde Transfer, whereby they will handle the unloading, sacking and delivery of our coal.

This arrangement, made to offset rising costs of handling and overhead, will in no way affect the Hyde Transfer coal operation. They will continue their own coal, wood and transfer business as heretofore. As usual, all coal orders for Albert & McCaffery, Limited should be phoned to our office at 116, 117 or 58.

Here's Why You Need Aspirin When You Have A Cold -To Feel Better, Fast!

At the first sign of a cold—before you do anything else—take two ASPIRIN tablets with a full glass of water. Here's why: When you have a cold, it's almost invariably accompanied by a headache, feverish feeling and muscular aches and pains. And it's very important to your well being that you treat these distressing symptoms with a medication that will relieve them... relieve them quickly. By taking ASPIRIN at the first sign of a cold, you'll get this important relief.

No matter how you try to stop or shorten a cold, authorities will tell you that this is sound advice.

FEEL BETTER FAST
And when you take ASPIRIN, you'll discover why millions have followed this advice with remarkable results. For ASPIRIN works fast. It actually goes to work in two seconds. And this is one reason why it brings you amazingly quick relief from these painful cold symptoms.

This two-second speed is something you can see with your own eyes by dropping an ASPIRIN tablet in a glass of water and "clocking" its disintegration.

WHAT TO DO FOR SORE THROAT
When your cold causes a sore throat, gargle with three ASPIRIN tablets dissolved in one-third of a glass of water. This makes a potent medicinal gargle that almost instantly soothes tender throat membranes, relieves pain and irritation.

Besides being effective, ASPIRIN is also gentle. Its single active ingredient is so gentle to the system that it is regularly prescribed, even for small children.

Keep ASPIRIN handy. When you buy, get the 100-tablet bottle which gives you ASPIRIN for less than a penny a tablet.

Because no other pain reliever can match its record of use by millions of people, without ill effect, one thing you can take with complete confidence is

Blackwood on Bridge
By Easley Blackwood
Mr. Dale likes to push the bidding a little. If there is even an outside chance of making a game, he likes to be in it. Of course, this practice is qualified by Humanics. He doesn't stretch too much playing against a pair like Mr. Masters and Mr. Champion. But against Mr. Muzzy he pushes his cards to the limit.

Hockey Team In Far North
TORONTO—The Eskimo children of Port Harrison located on the Arctic shores of Hudson Bay, want a hockey team. They have the ice, the climate and the players—but no skates. Such items are hard to come by in this missionary outpost. So the kids took their problem to the Rev. Don Whitebread, the Anglican minister.

Nine Fires in Recent Month
Nine fires were listed in the monthly fire report of the city fire brigade for February. Two boats were among the nine one of them on the Great Northern 7, resulted in \$500 damage, February 12.

Jets Win In Opener
KETCHIKAN (Special)—Prince Rupert Jets won their first game here by downing Ketchikan 68-58, never losing their lead from the start.
The winners played hard, Don Scherk scoring tops with 18. Fisher was outstanding scorer for Ketchikan, totalling 14.

Battery Men Flying South
Fourteen soldiers from the 120th H.A.A. Battery, Royal Canadian Artillery at Prince Rupert, will leave by plane tomorrow for courses in Victoria.

House Talks Of Controls
OTTAWA—Parliament spent much of the time yesterday considering clause by clause the bill giving the government authority to impose controls on prices, wages and rents.

Would Remove Milk Control
VICTORIA (CP)—A. J. McDonnell, Coalition, Vancouver Centre, continuing the Throne Speech debate in the Legislature yesterday, asked for removal of milk controls.

Weekly Cribbage At Moose Lodge
Mrs. Harold Muncy won first prize in cribbage at the regular weekly cribbage party held in the Moose Hall Thursday night. Five tables, playing four-handed a table, were in play.

Virginia Davis, Soprano, And Gwendolyn Williams, Pianist

VIRGINIA DAVIS

America's foremost lady troubadour, Virginia Davis, will be the next artist to appear here on the Civic Centre's 1950-51 concert series.

Toronto claims Miss Williams as one of their most distinguished artists and throughout Canada she has been acclaimed when playing with the Metropolitan stars, Lotte Kehmman, Mack Harrell, Mona Pauiee and others.

Combining the entertainment appeal of music and drama, Virginia Davis is often called "the Ruth Draper of Folk Song" as she brings to life the many amusing and serious characters of her songs.

The concert halls of Montreal, New York, Boston, Washington, D.C., San Francisco and many others across the country have resounded to the prolonged applause of her audiences.

Gwendolyn Williams was presented in 1947 as accompanist

Is Re-elected Head Of Research Board

OTTAWA — Dr. G. B. Reed, O.B.E., of Queen's University, Kingston, was recently re-elected for his fourth year as chairman of the Fisheries Research Board of Canada.

"It Can't Happen Here," You Say ...

Well, it usually doesn't. But other painting problems arise, which we can help you solve.

HEALTH CENTRE

The first health museum in the Western Hemisphere was opened at Cleveland, Ohio, in 1936.

AS I SEE IT (Continued from page 2)

whole business is a crude poor man's share-the-wealth program. In countries with primitive economies anybody with money (even a modest amount of it, by our standards) would be considered a mean heel if he did not give employment to the many who desperately need it.

But unless a wife and mother of a western family is of strong character and real purpose (as the Canadians I have met surely are), the sort of life that one is constrained to lead in all these African and Asian lands is a disintegrating ordeal.

I was trying to explain to some Egyptians the other day that I knew people in North America who were quite rich—but who did not have a single servant in their households. I doubt if they believed me; and I did not explain that in such homes there might be thousands of dollars' worth of mechanical equipment—everything from an oil furnace to an electric dishwasher.

MY GUESS IS THAT western people who once live out here will never be completely satisfied thereafter, either at home or abroad. They will be counting the months till their next trip home.

HISTORIC CITY

Quebec City in 1845 had about 50,000 inhabitants, almost all French.

More Sunshine This February

Three times as much sunshine beamed on Prince Rupert last month, compared with February in 1950.

In 13 days the sun shone for 58.9 hours.

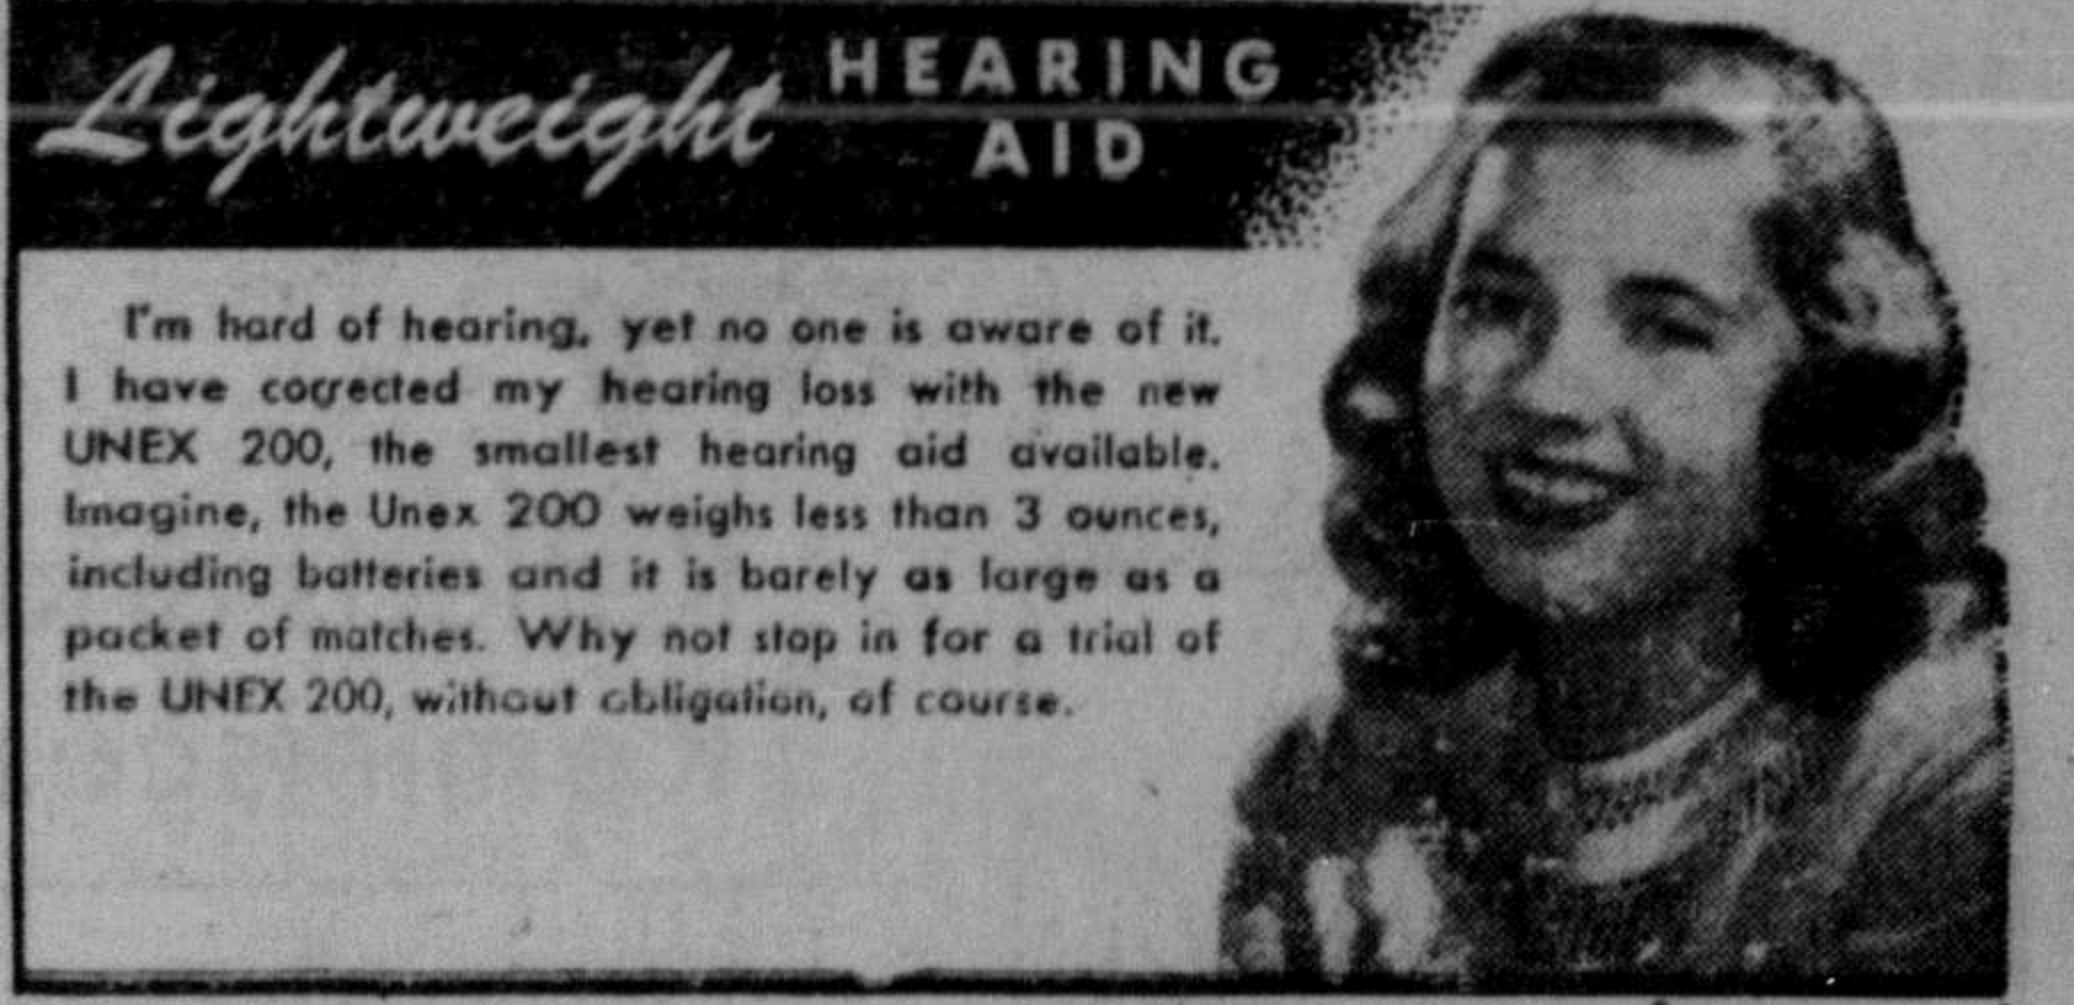

Precipitation was recorded as a total of 7.06 inches, with four inches of snow and 6.66 inches of rain.

"Normal weather" is how the Digby Island meteorological office termed February, but with signs towards spring.

Maximum temperature was recorded February 20, when thermometers rose to 45.2. Minimum was 20, on February 11, and the mean was 34.9. Maximum wind velocity was 32 miles per hour, from southeast, on February 16. Barometer readings, at sea level, showed maximum 30.32 inches on February 21 and minimum 29.04 inches February 2.

MANY MEMBERS

The Young Men's Christian Association, founded in England in 1844, has a world membership of about 3,500,000.

Lightweight HEARING AID. I'm hard of hearing, yet no one is aware of it. I have corrected my hearing loss with the new UNEX 200, the smallest hearing aid available.

Civic Band Applauded

From the stirring strains of the opening "Maple City March" to the softly blended chords of the "Passion Chorale" an attentive audience of 150 last night applauded continuously Prince Rupert's civic band.

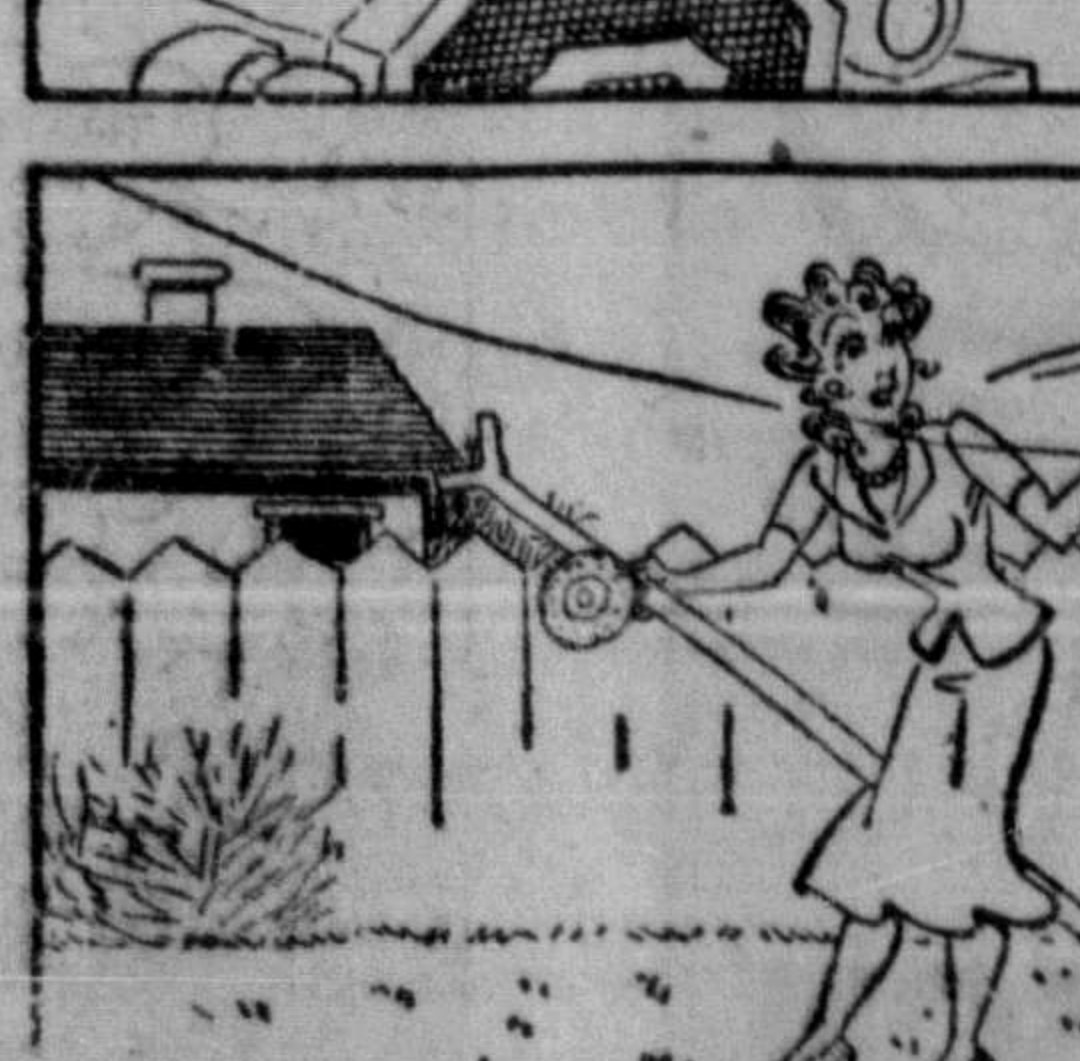

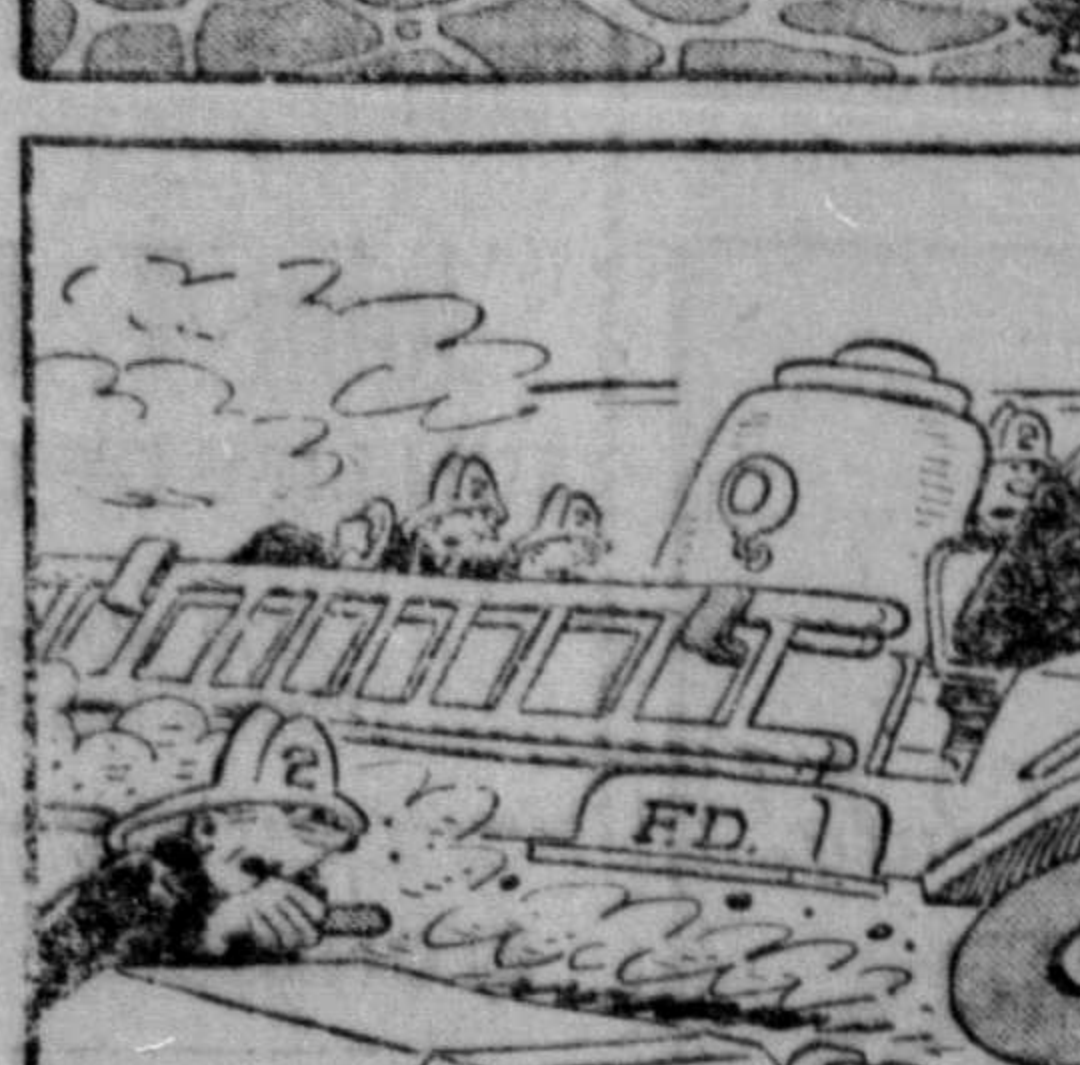

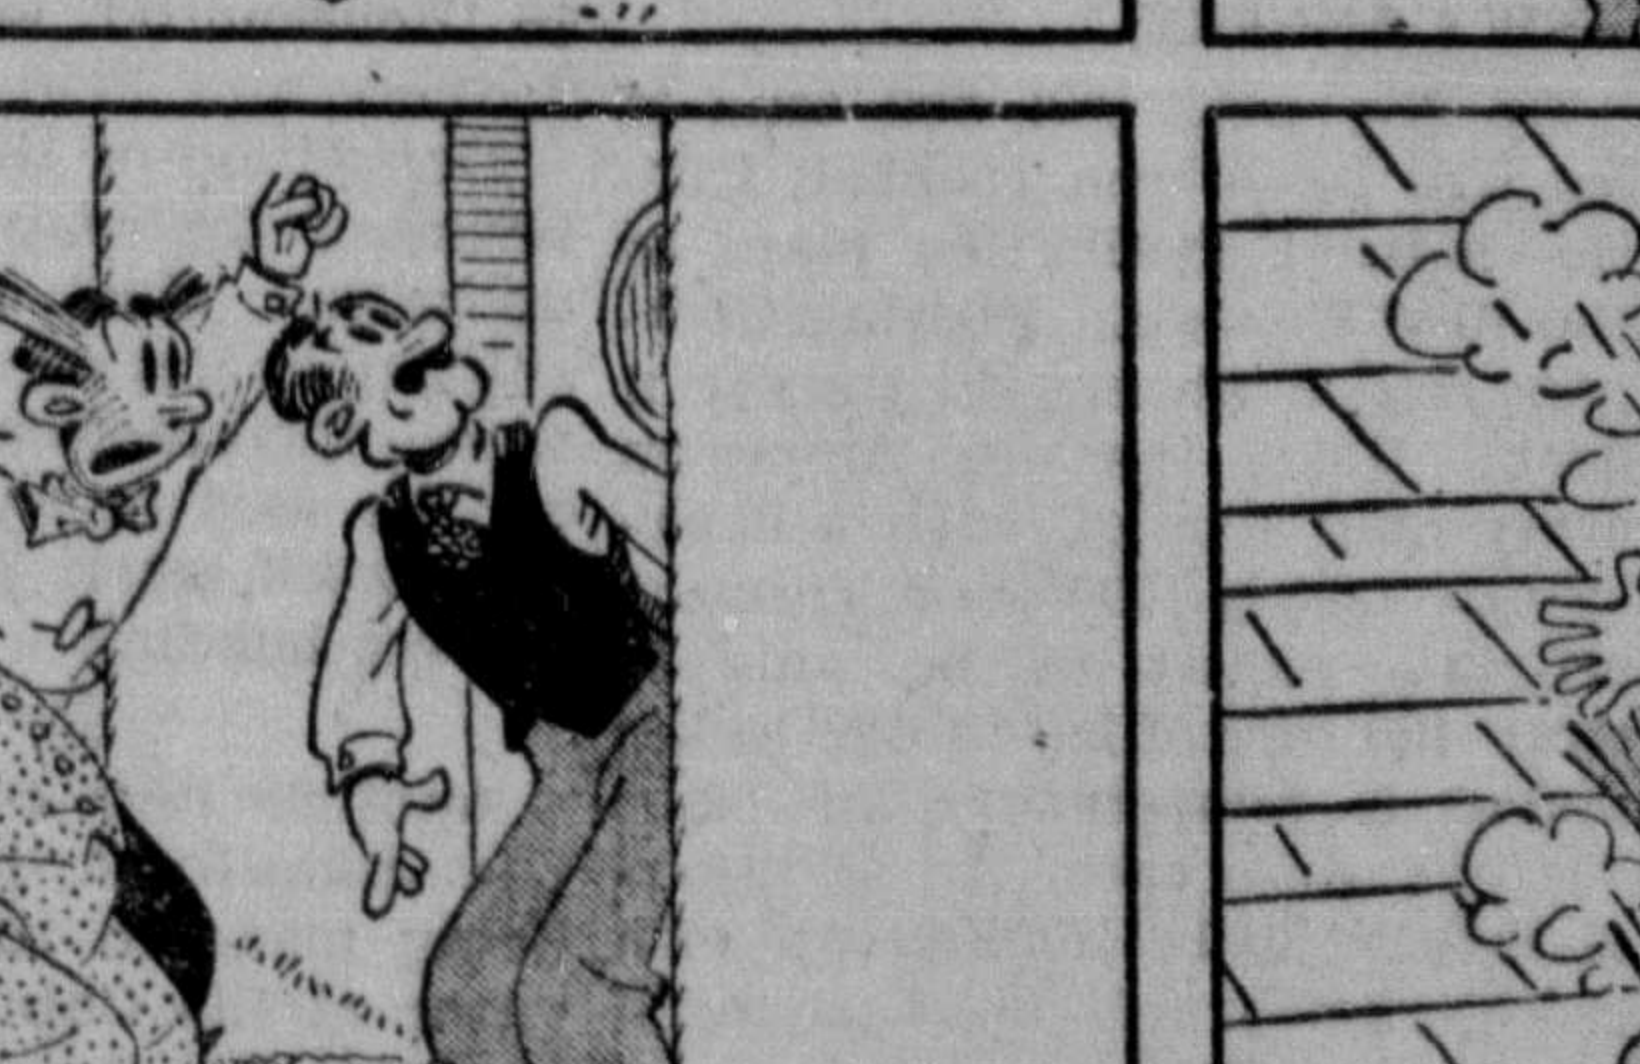

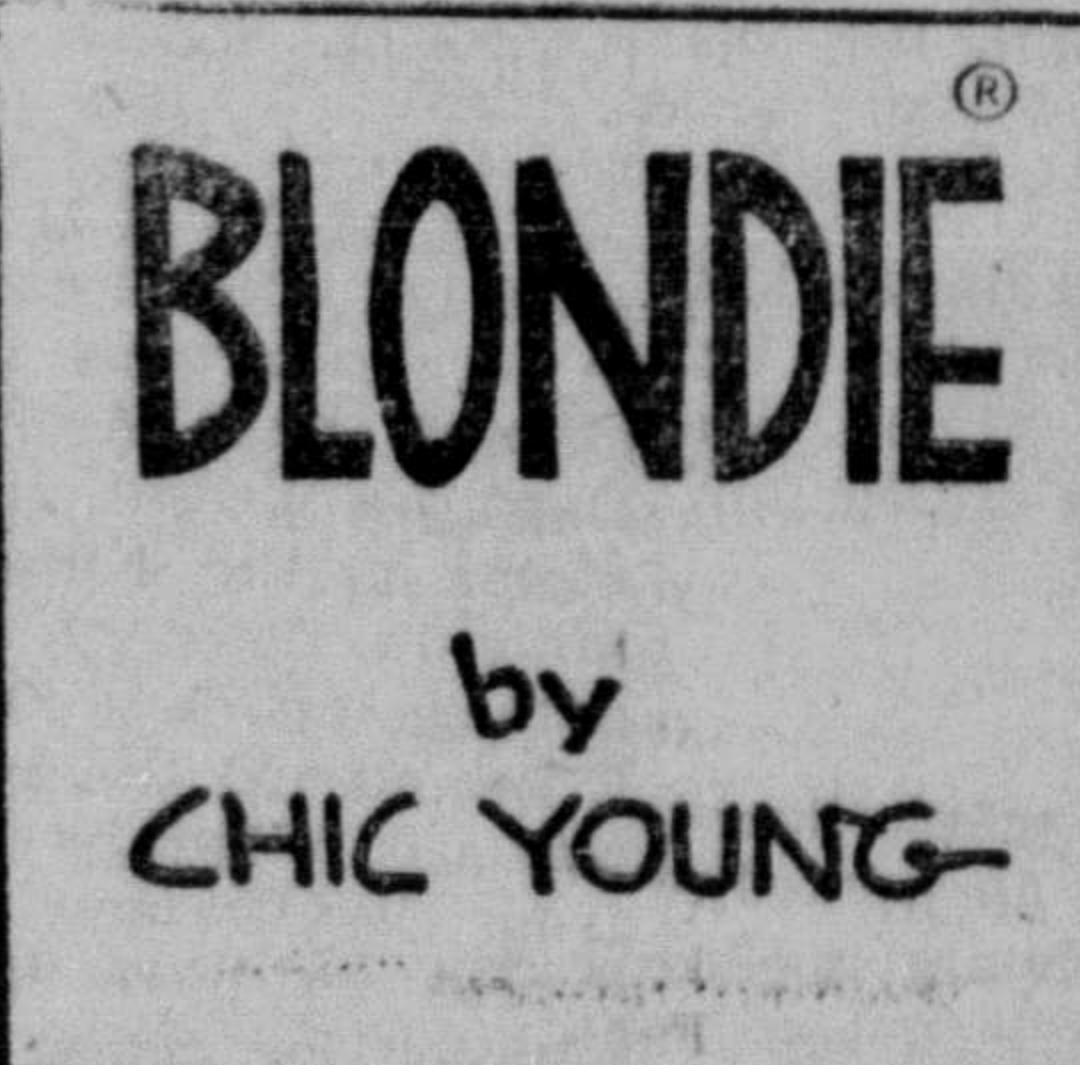

Insistent ovation brought Bandmaster Peter Lien back for an encore of the final selection, "Colonel Miner's March."

During the two-hour concert all were silent and admiring as they listened and found out for themselves what local talent can accomplish.

Specially featured on the program was Mike Colussi and his students who injected a contrasting air with accordion selections.

City Band On Its Own Now

Prince Rupert's civic band, known as the Shrine Club band, now is "standing on its own feet," F. E. Anfield, a Shrine Club director, last night told the concert audience.

It will pay you to...

Reflects and Reminisces

AS IT WAS IN BEGINNING
Some folks say Prince Rupert is not so easy on the eyes but they should have taken a look when this fair city started. To ascend a hill and gaze around was to experience just one shock after another. One felt like exclaiming "there ain't no such animal."

PATIENCE, PLEASE!
Build a city on such a woeful jumble of stumps, shacks, gulches, cliffs, pools, windfalls, miles of almost quivering muskeg, fills, plank walks that ended no where in particular? Perish the thought. The community may still be a bit shy on civic pride, but give us time.

Money, comments the Everson News, does not necessarily bring happiness. Yet, there is something about a growing bank account that tempts the average man to cheer up.

LET HIM KNOW
The sign said: "Our specialty—steak and onions." This was at Charley Winters' cafe, over in England. The Food Ministry ordered him to take it down because, in view of rationing conditions, it would be "injurious to amenities." Mr. Winters is wasting his time. He should not be running a restaurant. He ought to be a sign-writer.

ONE CAN'T STROKE A CAR!
Horses, running wild in south-eastern British Columbia, are being shot. Settlers are sore. This is not due to the fact of their destruction, but because of the way it's being done. They are not always killed outright. Many are wounded and left to die. Colts starve. It's all a vexing picture. So is the conversion of Canadian nags into stew meat and roasts. Verily, the day of the horse has passed. A sorry job to have to shoot one, be it wild or tame!

When United States railway men threatened to strike for higher wages, President Truman referred to the railroaders acting like a bunch of Russians. If what the B.R.T. are saying today mean anything they are going to remember Russia and Mr. Truman in 1952. Ex-soldiers object to abuse, particularly when undeserved.

CRIME TALES AND CRIME
You fear Little Johnny would ask you "what is a love-nest." My oldest boy is seven. And he can read newspapers. And believe me he sees some hot ones. I am sure he is still more interested in the Superman. But if he should ask me about a love nest I would give him all the done I know (which is perhaps not much) rather than wait and let the boy next door do the job for me. Insurance and hush-hush have never helped to solve any problem. There is no relation between crime stories and crime itself. Efforts to link the two are an extension of the archaic impulse by which throughout witchcraft, evil spirits and other superstitious beliefs have in turn been blamed for social behaviour." — Robt. Poulin of Le Petit Journal, Montreal.

1951 Revenue Double 1950

Customs and excise revenue at the port of Prince Rupert for the year 1951 to date is running more than double last year. The revenue for this February was \$31,796.84 compared with \$38,346.54 in the same month last year. For the first two months of this year the total is \$111,313.38 as against \$53,010.53 in the first two months of 1950.

News From Kemano Bay, New Port of Call— Cannery Ready by June—Demolition Is Continuing

Coast freighter Fort Ross, commanded by Capt. E. P. Turner, brings with it to port good news of aluminum project progress at Kitimat. Under special charter, the vessel, which was once the Hudson's Bay's trading ship, made her way from Vancouver last week with a survey crew to the frontiers for the aluminum project.

Arriving at Kemano Bay, in Gardner Canal, the Fort Ross transported a McHenry & McRae survey crew of 14, and a year's supply of grub. Prince Rupert is 95 air miles north of Kemano Bay.

The party, under George Smith of Vancouver, was the advance guard to prepare for the Northern Construction Company's heavy machinery that arrived from the south this week.

Surveying of a ten-mile road, with a carrying capacity of 400 tons, is one of the projects of the survey crew, the captain said. The road is to run from Kemano Bay up the Kemano River valley to where the power line cable will be run to the Kitimat aluminum site. Surveying of the power line and adjacent terrain is also to be done, Capt. Turner said.

The Fort Ross is now under charter to the B.C. Steamships. Originally from Nova Scotia, the ship has a carrying capacity of 300 tons.

Cannery supplies were left at Nelson Bros. here with plant supplies unloaded at Watson Island. Arriving in port here mid-week, 63 tons of general cargo was unloaded, before continuing to Alice Arm Thursday morning. After unloading mining camp supplies there, 100 tons of sacked concentrates were loaded and she continued on to Butedale for 200 tons of fish meal and thence to Vancouver.

Eight heavy lifts — one gas shovel, as well as three tractors, bulldozers and other heavy equipment—were unloaded at Kemano Bay on the northbound trip of the Chilliwack, Capt. Walter Holmberg, this week. Discharging coal here, the Chilliwack continued on to Skagway with 500 tons of coal. The Frank Waterhouse freighter loaded 500 tons of concentrates at Alice Arm before continuing south Thursday night.

A marine buoy from Vancouver was put off at the drydock for the Department of Transport by the Alaska Prince here this week. Commanded by Capt. Thomas Garrick, the vessel continued to the Shell Oil with products, before going north. At Skagway 400 tons of cement and 300 tons of general cargo, including 60,000 feet of lumber, was to be discharged. About 600 tons of concentrates from Keno Hill were loaded for Vancouver.

NEW CANNERY
By the week-end 300 tons of ice will have been trucked from the Atlin Fisheries ice plant to the new Canadian Fishing Company Ltd.'s cannery on the ocean dock. Using the old American army cold storage, with a capacity of nearly 1000 tons, cannery officials expect to be able to store 400 tons of ice in one locker under a temperature of eight degrees above zero. An additional locker, to be hooked up with refrigeration, will hold as much ice again. This ice will be used for keeping fish overnight, while boats for the most part, will continue to be iced at the Atlin

fish chute, the cannery manager, John Fraser, said. By the start of the sockeye run, the new Canadian Fishing cannery here is expected to be in operation. Thomas Van Snellenberg, mechanical superintendent of the company, is working on the construction and installation of the modern machinery. General manager of the Canadian Fishing Company, S. M. Rosenberg, accompanied by the vice-president, R. T. Hager, have been here this week on a tour of inspection. Northern British Columbia Power Company linemen have been installing the 600 K.V.A. substation for the cannery. The manager expects this large supply of power to be ready for use within a week.

"When we start in June, we hope to have this running as one of the largest canneries in the north," said Mr. Fraser. "I don't think we will be troubled with too many fish," he added.

Master Bobby Gamman lost the fish and his hook when a big one tore the end off his line while he was fishing off the Cow Bay dock Monday.

tor, which left them open to attack by fleas and teredo worms. The C.N.R. has a crew of bridgemen now replacing the decayed beams, and will soon have the two-way elevator repaired.

Passengers from Vancouver disembarking from the Union steamer Chilcotin yesterday afternoon were: T. Huxley, D. Kohmer, Mrs. E. W. Bird, B. Furlong, C. R. Davidson, Fred Bradford, R. M. MacLeod, E. Reil, D. Bergstal, Mrs. W. Malcolm and E. Pierce. The vessel brought 150 tons of freight.

AND SMELTS TOO!
The crew of the GM 11, Nelson Brothers' power barge, commanded by Capt. Chris Dixon, have been enjoying smelt snacks this week.

Over a hundred pounds of smelts were scooped up out of the harbor by Stan Dixon, son of the skipper. Also with the crew of the barge, that has been carrying fish bones from here to the Port Edward reduction plant this week, are Frank Gladish and Charles White.

Herring catch from Burnaby Inlet off the Queen Charlotte Islands is reported good by H. F. Robins, manager of Nelson Bros. today. Some 600 tons of herring were brought in to the Port Edward reduction plant Thursday, followed by another lot of 800 tons, all to be made into fish meal. Boats fishing in that area are Western Warrior, Western Mariner, Western Girl, of Nelson Bros.; Tatchu, East Island, South Island, of B. C. Packers.

Gillnetters brought here on barges from the salmon grounds of the Fraser River came in to port recently. Thirty gillnetters belonging to Nelson Bros. were swung off two barges into the water by the floating crane at the drydock here.

After repairs at McLean's Shipyard Ltd., the Great Northern 7 is back in service. With her two skippers, Capt. Andy Green and Capt. Joe Wright, she is tending claims on the Kitkatla run for Miller's Cannery. About \$500 damage was done February 12 in a fire aboard the boat. The fire was controlled by quick action from city firemen. J. S. Bruce expects to have men at Port Simpson for claims on the next coming tide Monday.

In port at noon today from Vancouver was the Argus, Capt. Jack Wood, Waterhouse oil carrier, unloading 11,000 gallons of

Looking Ahead
with JOHN T. FOWLE

"Better late than never" is a saying which does not apply to life insurance. Too often late means never. If you delay in applying for the proper amount of assurance protection you may ultimately find you have fallen below the required medical standards. Each day medical examiners are obliged to turn down applications for insurance from people whose need for it is great. Many of these disappointed people could have qualified a year or so earlier but the development of a health impairment makes them now uninsurable.

BLONDIE —Have Fun, Kids!

Youth Star Pupil Of Cooking Class

FORT FRANCES, Ont. (CP) — The girls have some male competition in the home economics course at Fort Frances high school.

Ray Beck, 17, of Devlin, Ont., has ambitions of becoming a chef. He is the only boy in the class.

Whipping up tasty sandwiches, baking, making a shirt and ironing or mending clothes are part of the day's study for Ray. Miss Muriel Yakimischak, his teacher, says Ray is doing just fine.

"Girls in his class accept Ray as if he belongs here," she said. Part of the course includes taking turns at one of the class sewing machines. Ray caught on quickly and produced a skirt, a bright red wool garment which he modeled at a recent class fashion show.

Ray entered the course with a pa, Bill Robinson, but Bill injured his hand and had to withdraw.

kerosene and 11,000 gallons of diesel oil for the Imperial Oil Co. Ltd. The tanker is proceeding to Stewart Island with 150,000 gallons of diesel oil for the Silbak-Premier Mines. To load 95,000 gallons of herring oil from Butedale, the Argus will steam out four of her tanks here Monday before taking on the fish oil that will go south to Vancouver.

"I'VE OPENED A Simpson's REVOLVING Credit Account!"

Thousands of wise shoppers are using this wonderful new budget plan. Here's how it works. YOU decide on the amount of your monthly payment. Your credit is automatically established for six times that amount. This means that after your first payment, you are free to charge the difference between what you owe and your established credit. No renewals, no red tape—Simpson's revolving credit plan offers you the most convenient and economical way that you can shop!

Example: \$10.00 monthly payment	
Your established credit	\$60.00
You buy a dress	\$30.00
Your remaining credit is	\$30.00
You make your monthly payment	\$10.00
Your remaining credit	\$40.00

(Service charge is based on the amount of each order)
