MAKO DIVERSION—Here is shown the cofferdam which was in connection with the diversion of the waters of the Nechako far in the interior south of Vanderhoof, into the western Kootenay River which will supply the Kitimat aluminum smelter.

## Canada Opposes Russian Menace With Men, Guns

OTTAWA.—(CP)—In 1951 Canada moved into a dangerous and highly costly phase of the cold war. It was called twilight mobilization. Precedents were set up all over the place.

Without anything approaching a declaration of war, Canada mobilized soldiers and airmen to Europe. She announced a three-year program that would cost at least \$5,000,000,000 and anything the country had before in peacetime.

In April, the government moved into being a Department of Defence Production and with getting the arms equipment needed by Canada, to some extent, her equipment they could make for months ahead.

It wasn't all-out mobilization by any means. War would make even this look small and 1952 is expected to be a considerably more important year as far as results were concerned. For in 1952 the program will start moving into full stride with aircraft, warships and other arms and the men to fight them pouring out of the plants and training schools.

But 1951, as a year of achievement and preparation for greater achievements, went beyond anything peacetime Canada could recall. The drive launched in February went well beyond anything envisaged in the fall of 1950.

The reason behind it all was Russia. The more immediate provocations were China's entry in the Korean war and the seeming willingness of international communism to risk general war.

A united Canada backed the government in the unparalleled program of rearmament and overseas action and aid which unfolded. In October, parliament gave a unanimous vote of approval to continuation of efforts to dam the tide of communism in Korea and Europe.

Four months earlier, parliament voted nearly \$1,900,000,000 to cover this fiscal year's bill for it all.

The three-year program calls for an air force of 40 squadrons, 3000 planes, 45,000 men with 11 of the jet squadrons in Europe and a radar network as the frontline wall in Canada; a navy of 100 warships; an army ready to fight at home or abroad. More than 115,000 men would be in uniform by 1954. In January, 1951, there were 62,000. At the end of the year, the total was nearing 90,000.

Charges arose in parliament and in the press as the year wore on that the program was behind schedule, that the planes and ships and guns weren't being produced on schedule. To that Production Minister Howe replied that there were gaps in some lines but that generally (Continued on page 5)

# COMMUNISTS MAKE CONCESSION

## Sentence Canadian Nuns

Canada Wins Many Awards Two Imprisoned For 5 Years for "Murder" Of Babies in Canton

Apparently Were Given No Semblance of Defence In Unruly Communist Court

HONG KONG.—(CP)—A Communist court on Sunday sentenced two Canadian nuns to terms of five years in prison and ordered three others expelled from China. The sentences came during a disorderly trial in Canton.

Some of the 6000 noisy spectators leaped to the judge's platform and hurled denunciations at the defendants. A milling crowd loudly protested that the sentences were "too lenient."

An unusual broadcast of the trial was heard here by the Associated Press. Shouts of the crowd could be heard easily above the voice of the prosecutor as he droned a long list of charges of "murder" of homeless waifs who had been given shelter at the Sacred Heart Orphanage.

The broadcast mentioned no semblance of a defence for the nuns. They were identified only by their Chinese names but Roman Catholic sources in Hong Kong said the five were:

Sister Superior Antoinette Courville, 38, superintendent of the orphanage.

Sister Germaine Gravel, 43.

Sisters Imelda Lapierre, Jeanne Tanguay and Elizabeth Lemire.

Sisters Courville and Gravel were each sentenced to five years imprisonment.

Sisters Lapierre, Tanguay and Lemire were all ordered expelled from Communist China.

All sisters were from Quebec. Four years they operated a receiving station to which were brought thousands of abandoned children, many of them dying on arrival. Some had been picked up off the streets when only a day old.

The nuns were arrested nine months ago and held incommunicado in a Canton jail.

## Agree to Behind Lines Inspection After Truce

But Big Question Still Remains: Who Will Do Policing?

MUNSAN.—(CP)—Communist truce negotiators today proposed a behind-the-lines inspection by neutral observers and "complete freeze" of troops and arms in Korea.

The move possibly paves the way for agreement on another step towards an armistice.

It appeared to be a major concession on the part of the Reds. In the past they have refused to allow observers behind their lines.

Now the big question is: what neutral countries do the Communists have in mind to police the truce?

## Would Free Kurt Meyer

Chief Prosecutor Would Let Him Go if He Fights With Western Europe Army

WINDSOR, Ont. (CP)—Bruce J. S. Macdonald, Canada's chief prosecutor at the war crimes trial of Kurt Meyer, thinks that Meyer should be freed from prison if the Canadian government is satisfied he would fight in the western European army.

Macdonald said he has no doubt that Meyer was legally convicted in the killing of 18 Canadians within 100 metres of Meyer's command post in Normandy but he feels "the matter should be dealt with realistically."

Meyer, aged 42, now serving a life sentence, was recently transferred from penitentiary in Dorchester, New Brunswick, to a British military prison in Germany.

Compassionate liberty which he received last week to visit his family brought his case into the limelight again. He is now back in prison.

## Walk-out in Ford Plant

WINDSOR, Ont.—Ford Motor Co. workers walked off the job today in protest against the discharge of 26 men following a work stoppage. Ten thousand workers may be involved.

United Automobile Workers of America denied an official strike. The workers, after news of the discharge spread, just dropped their tools and walked off.

## Ship Loads Bridge Here

Yukon Princess Takes On Unusual Lift at Ocean Dock Today

Coast freighter Yukon Princess, Capt. A. F. Campbell, is taking on an unusual cargo lift at Prince Rupert this afternoon.

It illustrates the importance of Prince Rupert as the nearest Pacific Coast port to the great Alcan development in the Kitimat area.

The value of the ocean dock loading facilities is also demonstrated. The lift is a 150-ton prefabricated steel bridge which will be installed on a road in the Kitimat power house area.

The material was brought here by rail from Walkerville, Ontario, and occupied four flat cars. The cars were run alongside the ship on the railway spur which was built there during the war.

The Yukon Princess will sail this evening for Kemano after completing the lift.

Southbound the vessel will call at Butedale to load 150 tons of fish meal for Vancouver and at Ocean Falls to take on 200 tons of paper for Powell River.

## Alleged Bookie Assault Victim

VANCOUVER.—Massie White, one of thirty-four persons charged in Vancouver's mass bookie hearing, and his wife, Jean, were gun-whipped Saturday night in their home by two men.

White has not yet taken the stand in the preliminary hearing of those charged with conspiring to keep horse-betting houses.

Nothing was stolen from the house and White said there was no attempt at robbery.

## Moscow Clears Mystery

LONDON (CP)—Moscow radio said Monday that Soviet fighter planes had forced an American military transport plane to land at a Hungarian airport "several days ago."

The report that the plane had "violated the Romanian state frontier in the vicinity of Mesita and then, after flying over Romanian territory, had violated Hungarian territory in the area of the town of Gyula and tried to fly over Hungarian territory."

"It was forced down by Soviet air force fighters stationed in Hungary on the strength of Article 22 of the (Hungarian) peace treaty," the broadcast said.

A United States Air Force C-47 cargo plane with four men aboard disappeared November 19 on a flight from Munich to Belgrade. Air and ground parties searched for it in vain over a wide area of Yugoslavia and Italy. It was described officially as carrying diplomatic cargo to the American embassy in Belgrade.

U.S. TAKING ACTION  
At Washington, D.C., the Department of State said today that the United States will take "immediate action" to free the four-man crew and the American Army plane which is reported to have been forced down in Communist Hungary.

The department, at the same time, rejected a Moscow charge that the plane was carrying equipment to help anti-Communist "spies and saboteurs" behind the Iron Curtain. Blankets, parachutes, maps and a portable radio on the plane were described as standard emergency equipment.

## Canadians For Europe

QUEBEC.—Seven hundred Canadian troops, most of them members of the First Canadian Highland Battalion and containing drafts from the Seaforth Highlanders of Vancouver and the Canadian Scottish of Victoria, sailed from here for Hanover in Germany to join the Canadian 27th Brigade for service in Europe.

The Canadians set out aboard the 13,500-ton liner Canberra, making her second trip from Quebec to Rotterdam with men of the force Canada has placed at disposal of the North Atlantic Treaty Organization defence forces.

This will be the last contingent to leave Quebec as the St. Lawrence River is now closing to navigation. Next embarkations will be from Halifax.

## Bomber Crash in Denver

Smashes Into Residential Area of City

DENVER.—A B29 bomber, trying to reach Lory Air Force Base with one motor not working, crashed into a row of swank residential houses shortly before noon today, apparently killing eight airmen.

At least one civilian and five airmen were injured. Five homes were damaged, four of them demolished.

## Whalen For Mayoralty

Nomination papers of Harold S. Whalen for the mayoralty were filed this afternoon at the office of the city clerk.

Giving the occupation of an agent, Mr. Whalen is proposed by C. G. Ham and seconded by E. D. Forward.

He is the first mayoralty candidate in the field.

Mayor H. F. Glassey has announced he will seek re-election and H. M. Daggett has resigned as alderman to be a candidate for the chief magistracy.

Last week Douglas Frizzell intimated he might also be in the field.

## Customs Revenue Gain Maintained

Customs and excise collections at the port of Prince Rupert for the month of November this year totalled \$51,981.38 compared with \$47,671.18 in the same month last year.

The revenue for 1951 to date aggregates \$622,898.72, a substantial increase over \$568,684.52 in the first 11 months of 1950.

## Pigs and Hens May Have Helped to Reduce Living

OTTAWA.—(CP)—Pigs and hens are helping to apply the brakes to the record climb in living costs. With pork and eggs now reaching peak production, prices of the two items have eased.

Lower pork and egg prices are helping to take most of the steam out of September's cost of living index rise.

How successful the hens and pigs were in October will be disclosed tomorrow when the Bureau of Statistics issues its latest survey of prices barometer.

During September the index made the smallest climb in five months—six-tenths of a point to a peak of 190.4. This compared with a record monthly climb of 4.5 points in February.

The index is based on 1935-39 prices equalling 100.

## WEATHER

Synopsis  
Worst storm of the year with hurricane force at the Charlotte Islands last night. Frequent gusts of over 100 m.p.h. were reported. Sandspit on the east coast of Heceta Island.

Centre of the storm is now in the northern Queen Charlotte Islands and is weakening. Strong winds and showers will continue much of the coast but decrease during the day.

Temperatures will remain above normal in southern and somewhat below normal in the far north.

## GALE WARNING

Coast Region — Gale warning continued. Cloudy with rain showers today and tomorrow. Little change in temperature. Wind—South- (40), decreasing to 25 by tomorrow. Low tonight and high tomorrow. At Port Hardy, Sandspit and Prince Rupert, 36.

## Lucky Turkeys

PER-VALU are pleased to announce the winners of three lucky turkeys at the store Saturday.

The lucky numbers are 1132, 6336 and 6536.

The holders of these numbers present themselves at the store and answer a simple question they will have the turkey for Christmas.

Prize 6787 from Friday has not been called for. Please call your numbers.

## Inconsistencies

AT MUNSAN we see the Communist truce negotiators objecting to the United Nations proposal for behind the lines inspection following the reaching of a cease fire agreement.

At Paris, Russia insists on international control and inspection of atomic forces after the banning of same and the western powers are, apparently, unwilling to go that far.

The two attitudes on either side would seem to be diametrically opposed in the separate issues.

It might appear naive to wonder at the attitudes taken on occasion by either side and to speculate if there is not often the inclination just to be opposite with no particular reason although there may be complex explanations.

To the simple observer, it is to wonder if there is not often an inclination to get away from fundamental considerations, confusing them with suspicion and possible inhibitions of hostility.

## Contribution of Royalty

THE CONTRIBUTION of the Throne of Great Britain as a living symbol of the best in the traditions and life of the peoples of the Commonwealth is incalculable.

United states people and others, who do not understand that the Royal Family of Great Britain is also the Royal Family of Canada, often question Canadians regarding the cost to Canada of the Throne of Great Britain.

They cannot understand that the priceless contribution of the King of Canada to the maintenance of the standards of parliamentary and public life of the countries of the Commonwealth is borne by the people of Great Britain; that the only cost in money to us is that of the office of Governor-General of Canada. The money cost is insignificant in relation to the constructive contribution of the institution to the standards of law and justice. In dollars and cents the expense of the monarchy throughout the British Commonwealth and Empire is only a fraction of the cost of political graft that destroys the standards of public life in some countries which are completely run by political machines.

## LETTERBOX

### CITY WATER LINE

Editor,  
Daily News,  
In order to combat subversive tactics employed in an effort to persuade the city to abandon its gravity water supply line from Woodworth Lake on the grounds that it has had its day and can no longer be depended upon for service, the substitute to be electric pumps at Shawatlans Lake, the waterworks foreman, C. J. Gustafson, at my instigation, has submitted a report dealing with the physical aspects of the line. It speaks for itself and is in full accord with Mr. Bonney's report of 1950. The report of Mr. Gustafson in full is enclosed and I would ask you, Mr. Editor, to publish it in connection with this letter.

ALD. GEORGE B. CASEY,  
Chairman of Board  
of Works,  
City of Prince Rupert.

Re: Your letter, requesting a true report on the condition of the City Water Main at Shawatlans.

I shall endeavor to give you a detailed report on the conditions of, first:—  
The 18" steel water supply main at Shawatlans, from the Pumping Station to the Power House, second:—  
The 45" penstock from the Power House to Woodworth Lake Dam.

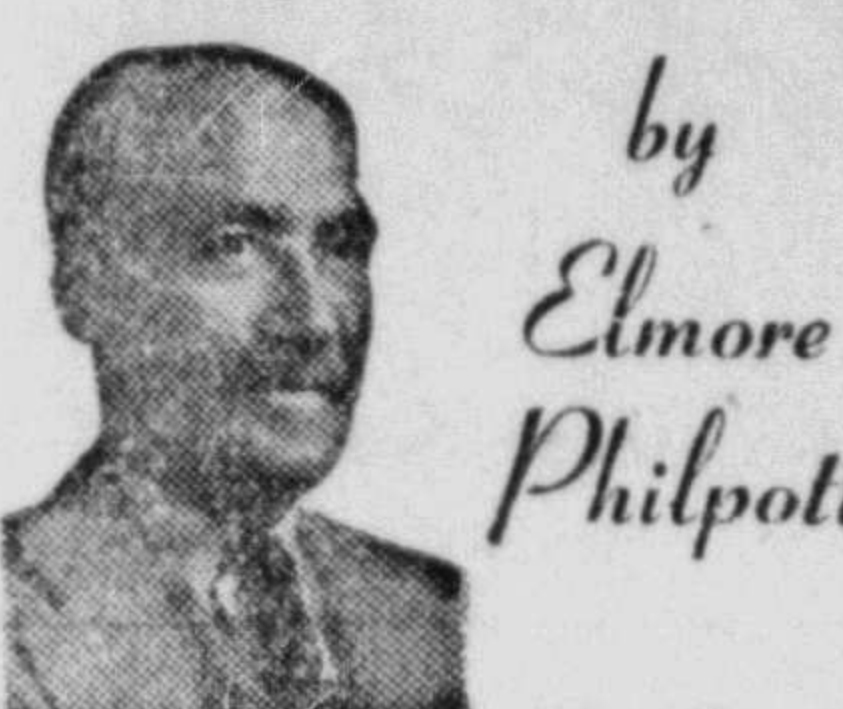

Having worked on maintenance, patrolled and done repairs in emergencies on both these sections since 1924, I believe I am in the position to give you first hand information from experience and practical knowledge.

(1) The 18" steel water supply main from sea level at Shawatlans Pumping Station to the Power House is still in serviceable condition for the next 10 to 15 years as far as the material strength of the main is concerned. It is true, that in later years many pin holes have developed in one particular section along the shore of the lake, but to no greater extent than those that developed in the section replaced last year by the new 24" steel main, and on which pin holes developed 25 years ago.

Pin holes do not necessarily mean that the pipe has become

Philpott

### Britain's Class War

THE FIERCE all-night battles in Britain's new parliament look ominous to me. They look like the first manoeuvres in a dangerous class war.

The new Churchill government proposes to revive the Home Guard. That proposal seems sensible enough, on the surface. But the real reason for the fierce and absolutely united opposition by the entire Labor party is clear to anyone who understands the realities of British politics today.

The Labor party fears that the Home Guard is being re-created not as a means of defence against a possible Russian invasion, but as a device to intimidate or coerce the working class in event of severe labor troubles in Britain.

In simplest terms, the Labor party wants guarantees that the Home Guard is not to become just a glorified force of strike-breakers.

I REPORTED from Britain in the recent election that there were "two nations within a single island." The two political forces face each other as unyielding as the two opposing armies in Korea. On the surface everything is very, very polite—very British.

But the big boys in both political camps know perfectly well that Britain's basic position is such as soon to require drastic changes in her economy. They know that somebody is going to have to "take the rap."

What they are really doing now is "squaring off" for the surely coming fight.

IN THE recent election Mr. Aneurin Bevan won a considerable success, first within the Labor party itself, and later in the general election.

As I reported, he seemed to me to be firing the first shots

in the NEXT election—not the one then going on. His candidates won, mostly by increased majorities, even where "regular" Labor candidates went down to defeat in next-door ridings.

Bevan was fighting frankly on a "class war" platform. I was told by some of Mr. Bevan's supporters that the first important move by a victorious Conservative party would be to re-create the Home Guard as a tool of class interest. The Bevan boys predicted that, in such an event, the set-up and composition of the Home Guard would be very different from that of the Second World War. Back in the early forties the Home Guard was a decidedly "leftish" affair. Tom Wintringham, of Spanish civil war fame, was one of its key members.

The new one, Mr. Bevan's associates told me, would be the very reverse.

THE KEY to the opposition by the Labor party to the proposed Home Guard is the demand for LEGAL guarantees that the force will not be used in labor disputes. The Conservative ministers have given verbal assurance that the Home Guard will not be used in such cases. But Labor is adamant in demanding guarantees, written right into the law, that there are such limitations.

So far the Conservatives have refused to give these.

BEHIND the struggle is this key fact:

Even before the big armament program has got really going, Britain is unable to do all the things to which she is already pledged. In other words, cuts are coming. Somebody is going to get hurt, economically. Whose piece of pie is going to get sliced—and my how much?

The present struggle over the Home Guard is just the first round in the fight.

The longer range truth is that Britain can never regain her old prosperity, except in a world of stable peace.

## Local Grain Ship Fuels at Seattle

SEATTLE—Having come here to refuel after having loaded a full cargo of grain at Prince Rupert, the Japanese steamer Kiyokawa Maru sailed from here at the week-end for Japan.

## November Dull, Wet

November was a rainy month in Prince Rupert with 9.17 inches of precipitation on 22 days.

Nor did Old Sol show his face very much in the eleventh month. He shone for only 31.8 hours on 13 days.

So far this year sunshine in Prince Rupert totals 944.4 hours which makes it still a brighter year than 1950 with 923.9 hours in the corresponding period.

The precipitation this year so far aggregates 68.71 inches compared with 73.83 inches in 1950's first 11 months.

The maximum recorded wind velocity for the month was 34 miles from the southeast on November 16.

The weather summary for November, as issued by the Dominion meteorological station at Doby Island, was as follows:

Maximum temperature, 59 on November 5.

Minimum temperature, 28.2 on November 22.

Mean temperature, 41.7.

Maximum barometer reading at sea level, 30.34 on November 1.

Minimum barometer reading, 28.51 on November 30.

Precipitation, 9.17 on 22 days.

Sunshine, 31.8 hours on 13 days.

Maximum wind velocity, southeast, 34 miles per hour, November 16.

## ray..

### Reflects and Reminisces

Mrs. Sampson, Montreal lawyer, says more women should enter public affairs. They are just as responsible for general conditions as the men. This attitude is deserving of respect but someone will have to be in the kitchen now and then.

A move is under way to settle the beer strike. According to what is heard in Vancouver, there is possibility of adjustment before Christmas although it's just as well not to be too hopeful. But anyway, something is stirring. Under the circumstances, a single month is becoming an uncommonly long time.

Terrace also has its garbage problem. It's much more simple than the one existing here, yet enough to create a situation called deplorable—and that's somewhat strong language. It's like this. There is a gulley near Terrace and the village truck, from the edge of the ravine, dumps all the rubbish away down into it. So there you are. But the general public decline to co-operate. Private citizens, with their own collection of debris, do not follow the example

of the truck driver. Instead they dump what they have on the village highway, which soon blocks the road and that means a bulldozer, expense, and sharp disputes. There is something about garbage that seems to be just one dashed thing after another, as most of us well know.

"Boys in B.C. make so much money they get delusions," said Mr. Justice O'Halloran in Vancouver last week. "We had one boy in here only 15 years old who was making \$12 to \$13 a day." He was charged with theft of things he had not the slightest need of.

It's all very well to predict 1952 a big and busy year in Northern B.C. It sounds well. It makes one feel cheerful. People say they are confident construction will be seen. Have you heard what F. A. H. Gar of Winnipeg says? He is president of the National Builders' Association. The cost \$35 to \$40 more next year carpentry work \$25 to \$30 more and paint maybe \$1 more. Higher wages. To split it out this is brutal, we know. But patience and optimism sound worse.

HARWELL, England, is now has the world's first atomic heating system. The building, containing 50 offices, draws heat direct from a atomic pile.

## CITY OF PRINCE RUPERT

### NOTICE

PUBLIC NOTICE is hereby given to the electors of the Municipality of the City of Prince Rupert that I require the presence of the said electors at the Office of the City Clerk, City Hall, Fulton Street, on the sixth day of December 1951, at ten o'clock a.m., for the purpose of electing persons to represent them as Mayor, Aldermen, School Trustees and Park Commissioners.

The mode of nomination of candidates shall be as follows:

The candidates shall be nominated in writing; the writing shall be subscribed by two electors of the municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of the notice and twelve o'clock noon of the day of nomination; the said writing may be in the form numbered 3 in the Schedule of the "Municipal Elections Act," and shall state the names, residence, and occupation or description of each proposed, in such manner as sufficiently to identify each candidate; and in the event of a poll being necessary, such poll shall be opened on the thirteenth day of December 1951, at the Civic Centre, corner of McBride Street and Second Avenue, of which every person is hereby required to take notice and govern himself accordingly.

Given under my hand at Prince Rupert this 29th day of November, 1951.

R. W. LONG,  
Returning Officer.

# SILLY, ISN'T IT?

**We are familiar with that old saying of "putting the cart before the horse". Well, even in these modern times, it seems it has its applications. We have an example right here in Prince Rupert.**

On December 13th, the citizens of Prince Rupert are being confronted with a referendum on the power supply question. We feel that in being faced with this vote at this time, the citizens are, as a matter of actual fact, being asked to "put the cart before the horse".

And we sincerely feel that anyone who takes the time to sweep away the smokescreen that has been raised by the REFERENDUM'S SPONSORS, and studies the situation, will wholeheartedly agree with us.

Here's what we mean. When they go to the polls, the citizens are not being asked to vote on whether or not they want Northern B. Columbia Power Company to continue to supply power for Prince Rupert and district. Instead, their minds are being made up for them on this point. The question being put to them assumes that they don't want any further part of the company, and carries on from there.

**Would it not be more in line with the democratic process for them to make up their own minds?**

Would it not be putting the "cart" and the "horse" in their proper positions to give the citizens the opportunity to digest the findings of the Public Utilities Commission in its study of the company's case, when these findings are released. . Then ask the citizens if they want to continue to do business with the company? We think that it would, and cannot see how anyone who sincerely subscribes to the democratic process can think otherwise.

### Why are the citizens of Prince Rupert being forced to put the "cart" before the "horse"?

We simply ask that you search out these reasons, all the reasons, weigh them and other considerations we have put forth here. Then cast your ballot.

A "NO" ballot which will make it plain that you won't stand for having your mind made up for you by others.

A "NO" ballot which will assure that only when the time is right and just, when the "horse" is in front of the "cart", will you be prepared to deal decisively with such an important question as that of the future of Prince Rupert's power supply.

## LETTERBOX

(Continued from page 2)

so thin in material strength that it will swell out under pressure and burst or collapse like a deflated balloon. These pin holes develop in various sections of a steel pipe due to corrosion inside where the chemical action of the water has found a weak point in the material of the pipe, and also from the outside where soil of certain types have been in contact with the pipe. A few inches from these pin holes the material strength has been found perfect. It is a very simple maintenance operation in plugging these pin holes and placing a metal or wooden clamp over to hold them in place.

The most important requirement on this section of the water main is purely maintenance in having certain sections put in alignment; rotting timber supports replaced, and removal of threatening large trees or possible slides of rock and earth, to a safe distance.

There has been no such work undertaken on this line to any extent for the last 20 years. It would require three additional men to the present patrol man, for three to four months each summer for the next two years to put this entire section in good condition.

The enclosed photos, taken during this summer's maintenance operations will give you a fair idea of the danger points that must be rectified along certain sections of this line.

(2) The 45" penstock is in a very good condition as far as material strength is concerned. On the occasion of the last break several years ago I inspected the inside of this penstock for a considerable distance in both directions and found it practically free from corrosion blisters. The quality of material in this line is truly remarkable.

As in the 18" main, the most important requirement is realignment, renewal of timber supports or saddles and a new concrete retaining wall at the base of the dam to protect the penstock from being undermined any further from high waters over the dam and which is at present in a very dangerous condition.

C. J. GUSTAFSON.

## POWER QUESTION

Editor,  
Daily News:

Despite the fact that an official of the Power Corporation of Canada, the parent company of the Northern B.C. Power Company, made a statement to the effect that the Company would not seek another franchise, my guess would be that they will be in the fight to the last.

This referendum is not put before the people to rule out the Northern B.C. Power Company but to give it some opposition—a protective weapon of defense for the citizens and local industry.

There is some talk about going shopping for this electrical energy. Let us be practical, not theoretical. It is not like calling for tenders to paint the city jail. This is big business involving surveys, expert hydro-electric engineers and millions of dollars. Who are these other companies that would try to compete with the Power Corporation of Canada, this parent body of the Northern B.C. Power Company, particularly when this company purchased most of its capital assets in a pre-inflationary period? It is only a Public Utility that could compete and only those on the grounds that they are not interested in profits. The B.C. Power Commission is the most severe opposition they could have and I think the Power Company knows this—at least they do not like the referendum.

Now what have we had this last 23 years? The Power Company informed the City that their Falls River plant was a 5000 H.P. installation. At the recent hearing before the Utilities Commission it was admitted by a company official that the maximum delivered at any time was 4300 H.P. The Company was not only supposed to supply the electrical energy required for this city but to maintain a reasonable surplus to meet increased demands and within the last three years we have suffered three curtailment periods, some voluntary—some enforced.

I would also like to point out that, in my opinion, whoever gets the franchise to supply power, that a better deal than now exists at the Woodworth Lake power house be guaranteed the City so that an uninterrupted flow of water can be delivered to the city reservoir. This merry-go-round whereby the City has to purchase power for the booster pump because the Power Company is drawing an excessive amount of water off the penstock seems ridiculous and the tune goes something like \$5000 or \$6000 per year.

Yes, I voted for the referendum to be placed before the people. I want the people to have some bargaining power.

Columbia Cellulose League  
The Weeds leading by  
points, first half of the  
game is tightening up, only  
points separating the five  
teams. In Section B, Sparks  
leading Production Line by  
point, Rejects and Interna-  
tional close behind.

bowling saw Jim Reil-  
men's high average with  
Section A, while J. Deward  
Gang, rolled high single  
with three with 291 and 684.  
The ladies, Dot Graham led  
sections, rolling high single  
high three with 692  
high average of 194.  
The high three total was  
by Stor-Ikes with 2711.  
Section B, C. Anderson of  
stars, came up with the  
single game of 386, top-  
comers in the league. He

## Mansons and Hi-Green Eight-Point Win

Hi-Green 31, Fashion 23  
Mansons 27, Beavers 19  
By ROSS INGRAM  
School intermediate cag-  
decked out in new uni-  
Saturday night set a fast  
show pace to top the  
Fashion by eight points.  
ing up an early lead,  
by and Webber of the  
stars combined to dictate the  
in the first quarter. Until  
third quarter, it was a tight  
about then Clarke, Sankey  
McAfee combined to push  
for the students for a  
a 28-13. Fashion rallied in  
fourth quarter with Fore-  
setting the pace, scoring  
his total 10 points. Sankey  
McAfee were high for  
with eight and six points  
ively.

Both teams played solid de-  
fence, thwarting any chances of  
lay-ups. Scores see-sawed until  
the middle of the final quarter  
when Barnes and Black com-  
bined to give the Jewellers a  
commanding lead for the win.  
High scorer of the game was  
Mah of Beavers, making 12 or  
his team's 19 points. For the  
winners, Barnes was high man  
with 10 points.  
In the first quarter, Barnes  
made six of the seven points  
for a 7-3 lead. In the second,  
Beavers took the lead with out-  
standing shooting by Mah and  
Tanaka for a half-time score of  
12-9 for the school team.  
At end of the third quarter,  
Manson's gained one point in a  
fierce hand-to-hand battle. In  
the final period Jewellers made  
experience count and forged  
ahead for the win.

## Maple Leafs earing Top

ONTARIO (CP)—The Toronto  
Maple Leafs advanced to within  
points of the Detroit Red  
on Sunday night with a 2  
decision over the National  
League leaders in De-  
troit.  
The Boston Bruins won their  
home victory of the season  
4 to 1 decision over Mont-  
real.  
Chicago Black Hawks downed  
York Rangers 6 to 4 to  
past New York into fifth  
place.  
BIG WIN  
Toronto Saturday night the  
Maple Leafs smothered Rangers  
2 with Max Bentley scoring  
both goal of his National  
League career.  
Quebec defeated Chicago 4  
to 1 Montreal.

## Students Take Second Win in G & A Defeat

By ROALD FENESS  
High School's Rainmakers took the second win  
of the season in edging out Gordon & Anderson 52-46  
in Saturday night's senior basketball. Despite a rush-  
ing onslaught in the final quarter, starring Rupe  
Holkestad, G & A could not overcome an early lead.

## Civic Centre Roller Skating

Resumption of Popular  
Sport Mooted

Roller skating again may be-  
come a popular sport here if a  
general meeting of Civic Centre  
Association members approves a  
plan of the directors who will  
recommend a new floor for the  
auditorium and sponsorship of  
the new sport in the building.  
Plans of the directors include  
three-night weekly skating. Sev-  
eral hundred pairs of fibre skates  
have been offered as a donation  
by John McLeod, manager of Star  
Bottling Works, who gained pos-  
session of the skates following  
collapse of a previous skating  
venture.  
A special meeting before the  
January general meeting may be  
called to decide this particular  
question, says Director Jack  
Stirn, who favors the skating  
plan.  
Meanwhile, the newly-formed  
Saturday morning junior art,  
reading and music circles proved  
highly popular in their debut  
last Saturday. More than 30  
youngsters from ages four and  
up attended, and eight new  
family memberships were enlist-  
ed due to these courses.

## Labor's Left Wing Defiant

Nye Bevan Openly Critical  
Of Official Policy

By ALAN HARVEY  
Canadian Press Staff Writer

LONDON (CP)—For the first time  
since the general election, the  
group of labor left-wingers led  
by Aneurin (Nye) Bevan has  
openly defied official party  
policy.  
After several weeks of standing  
pat, Bevan and his followers  
made their first decisive move  
against the policy of the party  
leaders by voting to reject the  
Japanese peace treaty bill. Align-  
ed with the Bevan group were a  
small number of labor back-  
benchers who complain that the  
treaty makes no provision against  
the possibility of cut-throat Jap-  
anese competition.

Second reading of the bill was  
given in the House of Commons  
Monday when the Socialist mo-  
tion to reject the treaty was de-  
feated by 382 to 33. The 33 nega-  
tive votes are believed to have  
come entirely from Labor mem-  
bers.  
Bevan did not speak against  
the bill in the House, but he is  
reported to have criticized it  
violently at a private meeting of  
Labor members. Accounts of  
the meeting suggest that the  
one-time health and labor min-  
ister, who resigned from the  
Labor government last April be-  
cause he considered Britain's  
arms budget too high, delivered  
the hardhitting sort of speech  
that has come to be expected  
from him.

These reports suggest that  
Bevan used the peace treaty as  
a springboard for the anti-  
American attack which has be-  
come a distinguishing feature of  
"Bevanite" propaganda.  
Voting with the Bevan group  
were Labor members who do not  
support Bevan but are concerned  
about the threat to British trade

## CANADA OPPOSES

(Continued from page 1)

speaking production was going  
ahead as planned.

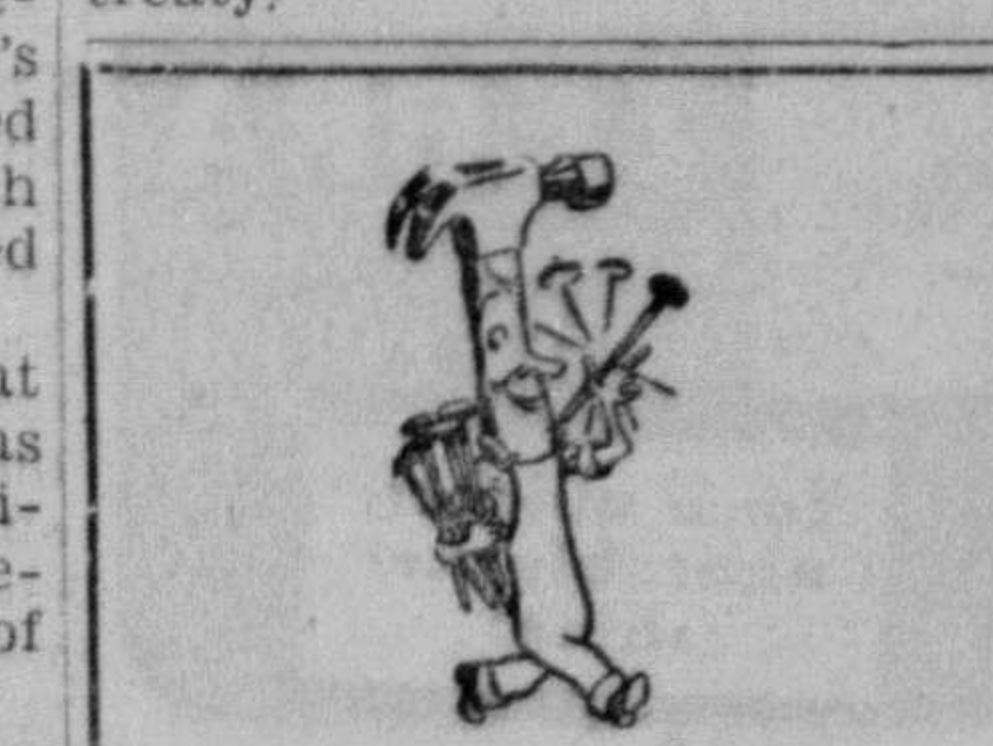

## OTHER DEVELOPMENTS

The year had many develop-  
ments. The RCAF recruited  
women for the regular force, the  
other services for the reserves.  
Navy ships sailed to Australia,  
the Mediterranean and served  
off Korea. The RCAF formed a  
number of new fighter squad-  
rons but placed its fighting  
strength on the secret list. On  
the prairies, wartime air schools  
were reopened for the big new  
training program to turn out  
1400 European and 1900 Cana-  
dian air crew annually.

The army had the 25th Brig-  
ade fighting in Korea, the 27th  
Brigade establishing itself in  
Germany, the 23rd Brigade in  
Canada starting to take over  
from the 25th in Korea, a pro-  
cess slated to move ahead sharp-

poised by possible Japanese com-  
petition. Thus Ellis Smith, who  
represents a constituency with  
cotton and pottery interests, said  
the bill should be rejected be-  
cause Japan, he claimed, is  
already breaking accepted fair  
practices through "copying" ar-  
ticles of pottery and textiles.

Peter Thorneycroft, president  
of the board of trade in the new  
Conservative government, accep-  
ted the danger of Japanese com-  
petition as "great and grave,"  
but said such a threat can not be  
met by a paragraph in a peace  
treaty.

**Remember when?**  
Georges Carpentier, the idol  
of French boxing fans, knocked  
out the English titleholder Joe  
Burkett in 74 seconds at London.  
31 years ago. Carpentier, the  
European heavyweight champi-  
on, fought Jack Dempsey for the  
world's title the following year  
but was himself knocked out in  
the fourth round at Jersey City.

ly in the spring.  
A second and third European  
country got from Canada enough  
British-type arms for a division  
—the three: Belgium, Holland,  
Italy—but the U.S.-U.K. rifle  
dispute halted further major  
shipments because Canada's  
rifle and small arms policy was  
tied up in that dispute.

In Eastern Canada and in the  
northland workmen went ahead back.

with the building of radar sta-  
tions slated to serve as the outer  
rim of continental defence. The  
Canadian net is to be meshed  
with that of the United States.  
Neither country was saying just  
where the stations were or what  
the network would cover.  
For military secrecy wasn't  
nearly as heavy as in wartime  
but it was definitely coming

## ALDERMAN H. S. WHALEN FOR MAYOR

I voted against the power referendum because I felt that it  
was not worded correctly, inasmuch as it asks the people to vote  
blindly. It is my belief that it is being put before the people as a  
political move and with a selfish motive.

It is time that the people  
realized that their responsi-  
bility does not end with the  
election of a Mayor and Coun-  
cil; they should study the type  
of men they are electing to  
represent them, and take an  
interest in what they are doing  
throughout the year. What is  
the point of electing a man to  
properly represent them and  
then electing another to off-  
set the good work that the  
former could do? For instance,  
I feel that we could have had  
a new telephone system instal-  
led by now had it not been for  
the "delaying tactics" display-  
ed by certain members of pre-  
vious councils.

Since coming into office, I  
have come to realize the  
reasons that make it difficult  
to get competent men to run,  
and to continue to run for office on the Council. The average  
man is making quite a sacrifice by offering his services, and when  
he gets elected, he finds that at least half of the time is spent  
with silly, minor details, that should never have come before the  
Committee or Council. If our engineering and utilities staff are  
not capable of handling these minor details, we should hire those  
who are. We spend considerable money getting advice from  
experts and then have such advice ignored because of lack of  
co-operation in the Council.

In my opinion, good civic administration can only be attained  
by having men big enough to study carefully both sides of a  
question and then come to a fair and unbiased decision.

In asking for your support in the Mayoralty campaign, I trust  
that you, the electors, will give these statements your sincere and  
earnest consideration. If elected, I will promise to conduct  
myself at all times in the best interests of the City. I feel that  
Prince Rupert is well on the way to the progress she rightly  
deserves, and I will work sincerely with these thoughts in mind;  
and I trust that the Council that you elect will have the same  
interests.

H. S. WHALEN.

**Something important  
you should know about  
your husband ...**  
You know him better than anyone else in the world.  
You know his bad points as well as his good ones.  
But one of his best points may have escaped  
your notice.  
You know that he doesn't do many of the  
things he'd like to do with his money—because  
the family income will only go so far. And  
you know that he might reasonably spend  
money freely now—without a thought for  
your future. But he doesn't.  
Regularly, he puts aside money to give  
you the protection of life insurance. True, he  
may gain benefit from that insurance during  
his own life, but that isn't why he owns it.  
The real reason can be found in his concern  
for your welfare.  
Do you co-operate with his efforts to  
provide for you in this important way?  
Are you encouraging his habit of thrift?  
Right now, it's more important than ever  
to save money. For every dollar put aside  
for the future helps to check inflation ...  
helps to protect the value of all your money.  
So check over your budget. See what new  
savings you can make!  
Life insurance dollars serve you  
these other ways!  
A large part of every life insurance dollar is put to  
work in investments that bring you—and all other  
Canadians—extra benefits.  
Hundreds of millions of these dollars have  
been used in this way, helping to provide new  
schools, highways, power plants, oil pipelines,  
homes and many other vital projects that raise  
living standards.  
Today, by their thrifty habit of paying life  
insurance premiums regularly, nearly five  
million Canadians are providing security  
for their families ... working to check  
inflation ... and promoting progress  
throughout the nation!

**Great News  
for  
Farmers**  
Here's the ideal  
portable saw for  
all-around timber cutting  
With the McCulloch chain saw, one man can  
fell standing timber easily, buck logs quickly, cut  
off stumps close to the ground. You can't beat it for  
making fence posts, cutting firewood, or for cutting and  
bucking timber for sale or on contract.  
Amazingly light The 20-inch saw weighs only 45 pounds complete,  
yet its special McCulloch engine packs a full 5 hp. And look at these  
other features: automatic clutch stops the chain when the engine  
is idling; blade swivels to any angle for easiest bucking, felling,  
or ripping; recoil starter is kickproof; floatless carburetor permits  
operation in any position. All-purpose Rip-Cross chain.  
Manufactured by

## News of the District

### Rupert Vandals Visit Terrace

TERRACE — Bad boys from Prince Rupert are blamed for a depredation which occurred here recently when several car aerials and door handles were broken on cars parked on Lakelse Avenue. The cars were parked outside the theatre during a show. The boys are believed to have headed back to Prince Rupert before the show came out, and the owners of the cars found out the damage that had been done.

### Stumpage Boost Hits Interior

SMITHERS — Lumbermen of the Smithers-Telkwa district have organized the Bulkley Valley Lumbermen's Association for the express purpose of fighting a new stumpage rate schedule which the Forest Branch has announced for this area. The scale, it is felt, will seriously threaten profitable mill operation in the district. Already a strong protest has been lodged with Hon. E. T. Kenney, minister of lands and forests.

### Keeping Terrace Air Field Open

TERRACE — Lakelse airport here will be kept clear of snow during the coming winter in view of its increased use for air transport between here and interior points and to Kitimat and Kemano. Department of Transport is moving complete snow fighting equipment on to the field including two-bladed plow, a new blower and rollers and a jeep.

### Strike Closes Torbrit Mine

ALICE ARM — It looks like an extended shutdown may be coming for the Torbrit silver mine here following the recent start-up of a strike. Some sixty miners sailed from here last Monday and more are going out today. It is expected.

### Logging Outfit Moves to Terrace

TERRACE — Skoglund Logging Co., which has been operating in the Fort St. James area, is moving its outfit here at the first of the year and will do contract logging for the Columbia Cellulose Co. with full equipment of bulldozers and trucks. Home sites are being developed for company workers on land just west of town formerly owned by Watson Bailey.

## SHIPS AND WATERFRONT

Union steamer Coquitlam, Capt. James Hunter, returned to port at 8:30 last evening from a regular voyage to points on the south end of the Queen Charlotte Islands and sailed at midnight for Vancouver.

Earlier in the day, Union steamer Camosun, Capt. John Halcrow, arrived at 3:30 p.m. from Vancouver, sailing at 11 p.m. on her regular voyage to Alice Arm, Stewart and other northern points. Passengers for Prince Rupert included Dr. J. B. Harrison, Mr. and Mrs. Mayeda, H. G. Livingstone, Ed Bolton, Mrs. W. P. McIntosh and child, W. A. Thom, Mr. and Mrs. A. Roland, Mr. and Mrs. A. Innes, J. Baker, Mrs. Loutcham and Mrs. H. Jackson.

CPS Princess Louise arrived at 8 a.m. today from Vancouver disembarking 63 passengers, 41 of whom were from Kitimat and Kemano Bay. For the Alcan site, 54 passengers sailed from Vancouver. The Louise sails at 10 p.m. on her return south with the following among her passengers for Vancouver:

Miss H. Balanger, Mr. and Mrs. George Mitchell, Mr. and Mrs. M. Van Cooten, Miss Van Cooten, Mrs. K. Cochran and daughter, W. G. Bacon, H. B. Thompson, Elmer Clausen, Mr. and Mrs. J. Blyth.

### Disabled Vessel At Ketchikan

KETCHIKAN — With a broken rudder, the motor vessel Dart has been towed here from Oonglow Island, a distance of 50 miles. The Dart is a mail boat owned by L. F. Erickson.

### Alaska Reindeer Flown to Texas

NOME — Thirteen Arctic reindeer will be flown to Texas. They have been hand picked from roving herds in the far north for pre-Christmas exhibitions in four Texas cities. For food, seventy sacks of reindeer moss will be sent.

### Former Interior Rector Gets BA

At the recent fall graduation of the University of Saskatchewan in Saskatoon, degree of Bachelor of Arts was conferred upon Rev. Leonard J. Hales, now Anglican rector at Kinistno, Saskatchewan, and formerly at Smithers and Vanderhoof. Mr. Hales at one time acted as locum tenens at St. Andrew's Cathedral in Prince Rupert.

Jarvis H. MacLeod is sailing tomorrow on the Camosun for a trip to Vancouver.

## HERE'S A BIG BUY IN BETTER USED CARS

## Lincoln Death Plot Filmed

Based on a much disputed page in American history, the circumstances of a plot to assassinate Abraham Lincoln while he was on his way to Washington in 1861 to be inaugurated as president of the United States, "Tall Target," suspenseful mystery film, is being featured at the Capitol Theatre this Monday and Tuesday.

Photographed almost entirely on a railway train between New York and Washington, the picture stars Dick Powell in the role of a New York police detective who resigns his post with the force in an attempt to foil the plot single-handed.

Paula Raymond plays the part of a southern belle innocently involved in the intrigue.

Adolf Menjou enacts a craft colonel who believes Lincoln's inauguration will mean ruin for the country.

Marshall Thompson is the brother of the girl who bears a fanatical hatred for Lincoln.

## Basil Bailey Dies Suddenly

Funeral took place in Vancouver Saturday afternoon of Dr. Basil E. Bailey, senior bio-chemist and head of the technological information service of the Pacific Fisheries Experimental Station at Vancouver, who died suddenly last Wednesday at the age of 45 years. Dr. Bailey was located in Prince Rupert before the fisheries experimental station was moved to Vancouver during the war and local friends will regret to learn of his passing.

The funeral was conducted by Very Rev. Cecil Swanson, dean of Christ Church Cathedral, from the funeral home of Simmons & McBride and interment was in Mountain View cemetery.

Dr. Bailey's family came to Canada from London, England. He received his public and high school education in Armstrong and took his B.Sc. at UBC in 1930. He received his M.Sc. at UBC in 1936 and his doctorate from University of Wisconsin in 1940.

He was well known for his scientific papers on fisheries and their products, and had just completed the editing of a volume on the various oils of Canada.

Dr. Bailey is survived by a sister, Miss Marjorie Bailey of Vancouver; a brother, Charles; a niece and two nephews in Vancouver. He also has relatives in England and California.

## Stalin Central Church Figure

NEW YORK — Two hooded Ukrainian priests, who escaped from Soviet Russia, say there is communist use of religion as an instrument of propaganda. The

Miss Helen Balagno arrived the city on the Princess Louise this morning from Seattle to spend the Christmas season with her parents, Mr. and Mrs. C. Balagno.

image of Stalin, instead of religious figures, can be seen in church buildings. Some churchgoers pray to "our father who in Moscow."
