**CPA Plans Terrace-Prince Rupert Flight**

Sunday Schedule Begins

A thrice-weekly scheduled passenger flight from Prince Rupert to Terrace will begin August 1, if official permission is granted.

W. A. Chambers, assistant superintendent of traffic for Canadian Pacific Air Lines, announced to the Daily News today that application for extension of the present Vancouver-Prince Rupert flight had been made to the Air Transport Board.

Decision of the board is expected next month said Mr. Chambers, who is in Prince Rupert after examining the airport at Terrace.

Offices and radio station would be installed at Terrace, he said. At present, there is no control tower at the airfield.

Cargo amphibian planes, such as are used on the Sandspit-Prince Rupert flight, would be used for the Terrace service.

Mr. Chambers made another announcement of importance to Prince Rupert. The two-flight daily schedule of the CPA will include Sunday flying, commencing July 1.

"The amount of increased traffic between Prince Rupert and Vancouver is making this service possible," Mr. Chambers said.

**Corvettes to Be Whalers**

VANCOUVER — Three former Canadian Navy corvettes, built in World War II, will go to Germany as whalers.

The ships—Nanaimo, Moncton and Shediac—have been in storage here since the end of the war. They are valued at more than \$100,000.

The vessels will be converted to German registry and used in the Antarctic.

**Baseball Scores**

**WEDNESDAY**

Tri-City 0, Tacoma 3  
Wenatchee 11, Yakima 0.

**Yanks Win—Narrow Gap**

NEW YORK (CP)—Eddie Lopat performed an operation and Hank Bauer sewed it up yesterday as New York Yankees crept to within two-and-a-half games of the league leading Chicago White Sox.

With Lopat hurling his tenth triumph of the campaign, the Yankees defeated the Sox two to one before a crowd of 29,940 at Yankee Stadium.

In another American League game, Cleveland Indians outlasted the Boston Red Sox in a slugfest at Boston. The score was 14 to 8.

In the National League, the Boston Braves whipped the Chicago Cubs 9 to 0 behind Warren Spahn. It was their first start under their new manager Tommy Holmes.

**Iran Situation Is Still Tense**

**Coast Seamen's Strike Averted**

VANCOUVER — Strike of seamen on ships of three coastal companies has been averted for the time being at least.

The Vancouver Seafarer's International Union (AFL) announced that the strike order for Friday midnight had been withdrawn following new offer which has been made by the companies involved.

Vote on the new offer is proceeding today.

Federal Conciliator G. R. Currie said last night that "strike notice by the Seafarers' International Union has been withdrawn as a result of a further offer by the companies involved."

But, for the moment at least, no one is divulging the offer.

Mr. Currie said he was making his announcement on behalf of Canadian Pacific, Canadian National and Union Steamship Co. lines.

**Allies on Long Move**

But Communists Expected To Renew Offensive in Korea By Next Week

TOKYO — Allied patrols roamed far beyond their lines today on the western front in Korea where officers predicted the Reds would launch a "limited offensive" by Monday, the first anniversary of the Korean war.

United Nations patrols twice entered Kaesong, 25 miles northwest of Seoul on the main highway to Pyongyang, capital of Communist North Korea. Thousands of Reds in the hills made no move to intervene.

This is the most westward push of Allied units since the Reds swept across Parallel 38 in the April 22 offensive.

Rain clouds forming over Korea cut air attacks down to a minimum.

**Demonstrators Range Streets; Confidence Voted in Government**

British Planes Alerted in Iraq For Use in Case of Emergency

TEHRAN (CP) — Crowds roamed through the streets of Tehran today, smashing Anglo-Iranian Oil Co. signs as Premier Mohammed Mossadegh went to Parliament and received a unanimous vote of confidence in his "no compromise" fight to drive the British company out of Iran.

Lack of a quorum in Parliament at first blocked the debate, but the Premier demanded another session this afternoon and it was then that the vote of confidence was accorded. He told the Majlis (Lower House) that, if it refused to meet, his government would not be responsible for any incidents that might occur.

The Premier's indirect warning of a nationalistic disturbance was made while his supporters were travelling around Tehran smashing company signs and shouting such slogans as "Death to the Oil Company" and "Down With the British."

A British embassy spokesman said that demonstrators invaded the main Anglo-Iranian Oil Co. headquarters and information office but caused no serious damage. An official diplomatic protest will be made to the Iranian government over the incidents.

**BRITISH PLANES ALERTED**  
Baghdad reports that Royal Air Force planes have been alerted at Habbaniyah air field in Iraq, close to the Iranian border. It was understood they were called to be in readiness to protect British lives and property in Iran should the need arise.

**Double Trouble At Alcan Site**

A double emergency at Kildala Arm and Kemano Bay called out a Queen Charlotte Air Lines Norseman from Prince Rupert this morning. The plane was piloted by Norman Jermyn.

Report from Kildala is a serious case of pneumonia. At Kemano Bay a man is reported to be in serious condition following a heart attack.

A Prince Rupert physician is on the emergency flight which will return here some time this afternoon.

**Broken Wires Stall Traffic**

All communication wires to the east and to Vancouver were disrupted this morning at 11:30, causing traffic to pile up in telephone and telegraph offices. Cause of the trouble centred between Kwinitsa and Skeena, was not immediately known. Linemen have been dispatched.

**Reds in Defence Industry**

Screening Going On to Isolate Them

OTTAWA (CP) — A defence production official said yesterday that screening of some 25,000 industrial workers has shown some subversive elements, including Communists, have been infiltrating into key defence production plants in Canada.

E. S. Perkin, 46, director of industrial security for the defence production department, said in an interview, however, that the number of communists and fellow travellers was not large—about 250. Nevertheless it indicates that the Reds are trying to get into "every industry in Canada."

The screening takes place before the department issues secret blueprints and information to plants undertaking to handle classified defence production work.

If an "undesirable" is found working in the plant, the contract is held back until either the communist is fired or else given work that isolates him from any part of the plant producing classified equipment.

**Auto Burns On Highway**

A 1949 Pontiac car, belonging to Lee W. Carrall, employee of Columbia Cellulose, was believed a total loss today after having caught fire on the highway near Lake Oliver.

Carrall was driving into the city at 11 a.m. when he smelled smoke. He stopped and proceeded to investigate. As he threw open the luggage compartment, the whole car burst into flames.

A fire extinguisher proved ineffective as did aid from Miller Bay Hospital.

Carrall was not injured. It is believed there may have been a leak in the gas tank.

**Curb on Meat Prices Sought**

VANCOUVER — The federal government was asked yesterday to take immediate action to control "ridiculous meat prices."

Federal curbs were asked in a resolution sent to Ottawa by the meat dealers' section of the Retail Merchants' Association.

Earlier the Vancouver Trades and Labor Council (TCL) demanded an embargo on beef shipments to the United States, one factor blamed for the higher prices in Canada.

**Halibut Landings**

**American**  
California, 20,500; Pacific, 23,70; 17c, 15c.  
**Canadian**  
Zapora, 53,000; Storage, 25.1c, 18c, 16c.  
Helen, 38,000; Tramp, 21,000; Viking I, 18,000—all to Co-op.

H. F. Wearmouth, living for years near Victoria, was happy to see Prince Rupert friends not long ago. Once Bert owned a small island, just across the bay from Prince Rupert, where he had a flourishing poultry ranch.

**Shells Kill US Marines**

CAMP LEJEUNE, North Carolina — Two mortar shells burst short of their target and exploded among unprotected troops at this sprawling Marine base yesterday, killing eleven and injuring at least sixteen.

A public information officer said Marines, on routine training exercises, were eating lunch and had congregated around a company command post when shells exploded.

Last week a mortar shell exploded at Fort Jackson, South Carolina, killing one soldier and injuring twenty-seven.

**Fulham Wins Over Celtic**

MONTREAL — London's Fulham last night downed Glasgow's Celtic 3 to 2 in an exhibition football match held between the two leading United Kingdom teams.

**Ocean Falls Newsprint up**

VANCOUVER — Pacific Mills is the latest pulp and paper company to increase its price of newsprint. The company announces increase of 10 per cent to \$115 in Vancouver and \$116 in New York f.a.s. Ocean Falls.

Two days ago the Powell River Co. Ltd. advanced its price \$6 a ton to \$115 for both Canadian and American shipments.

"The increase in newsprint price by the British Columbia mills affects the Prince Rupert Daily News directly."

## Local and PERSONAL

● Greenville Band, CFPR, 9:15 Thursday evening. (145c)

Dr. A. A. Miller, Prince Rupert dentist, leaves Saturday by plane to attend a ten-day conference of the Pacific Coast Dental Association at Seattle.

● Salt Lake ferry running every Sunday starting at 12 noon, weather permitting. (11)

Miss Gloria Sather, recreation director of the Civic Centre, returned to the city on the Prince Rupert yesterday afternoon from her home in Penticton where she has been holidaying for the past month.

● Sons of Norway Whist and dance, Friday, June 22, 8 p.m., dance 10-2. Music by Mike Colussi. Refreshments. Everybody welcome. (146c)

The wedding of Miss Marjorie J. Thomson and Alvin L. Knutson was held recently in Dunbar Heights United Church, Vancouver. The out-of-town guests included the groom's mother, Mrs. K. Knutson from Prince Rupert.

● A self-winding watch is a great convenience. Just wear it and it keeps continually wound. Runs about 18 hours after taking off the wrist. Prices from \$52.50 up. Bulger's Jewellers. (11c)

Jack McRae, M.L.A., returned to the city on yesterday afternoon's plane from a brief trip to Vancouver to attend advisory council and executive sessions of the British Columbia Liberal Association.

At yesterday's weekly luncheon, the club adopted a five-point program presented by the playground committee of which Marc Gormley is chairman. The points were:

1. That an area for park purposes west of Plaza Street, Sixth Avenue East, be reserved for future development.

2. That, as directed by club, every effort be made to pay off pool indebtedness—approximately \$1500.

3. That plans and estimates for a pool bathhouse be drafted this year for construction to start early next year.

4. That the Ways and Means committee net as an objective the sum of \$2,000 for this year's playground fund.

5. That minor expenditures be made as required for purchases and maintenance of equipment, etc.

The committee cited as badly needed improvements at McClymont Park the erection of a bathhouse, seeding of the backfill, seating accommodation at the pool, new playground equipment and picnic tables and fireplaces.

Gyros will again assist at the forthcoming Exhibition and Carnival, Rupert Fulton, T. H. Wilford, Jack Bulger, Duncan McRae, William Cruickshank, W. J. Scott, W. A. Armstrong and Edward Boulter being named as nightly conveners.

September 9 was set as the date for the annual Gyro picnic.

### PERSONAL EXPERIENCE

Henry George, famous American economist who died in 1897, left school at an early age in order to support himself.

### Mr. Pile Sufferer

What a vast difference there is in the modern way to treat Piles. The necessity of removing the real cause is only plain common sense. The new PYLTONE treatment (a liquid taken by mouth) goes direct to the inside cause. Special gums, plant extracts that help nature rebuild those delicate tissues. PYLTONE Pile Treatment is science's answer. It gets you satisfactory results with a one bottle trial or price refunded at once. At all modern druggists. H-M25

**MANSON'S**

China Shop

L. M. Felsenthal returned to the city on yesterday afternoon's plane from a business trip to Vancouver.

Sgt. L. A. N. Potterton, RCMP, returned to the city on yesterday afternoon's plane from a trip to various Queen Charlotte Islands including the large logging camps which he reports working full blast.

● A dance will be held in the Naval Drill Hall, Friday, June 22nd, honoring the visit of the H.M.C.S. Ontario. Sponsored by the Prince Rupert Branch of The Navy League of Canada. (146c)

Mrs. J. S. Black, who has been on a trip to Port Alberni to attend sessions of the provincial command of the Canadian Legion Women's Auxiliary, returned to the city from the south on the Prince Rupert yesterday afternoon. Mrs. Sheila Chater returned last Saturday.

### Hotel Arrivals

(Prince Rupert)

H. MacNutt, W. R. Cummings, G. Martin, R. B. Lucas, D. R. Wallace, A. Bromley, J. Bell, H. Carruthers, Mr. and Mrs. C. Philip, Hugh Aird, H. P. Cahill, J. Lynch, T. MacDonald, G. Kellert, J. R. Bowen and L. May, Vancouver; S. K. Clare, Port Hardy; Mr. and Mrs. Vickerman, Prince Rupert.

C. L. Botham and William Larmer, Hazelton; P. L. Choquette, G. C. Cook, P. W. Robertson, P. C. Burton, K. Wildman, V. Armstrong, S. L. Rooney, Major J. Gowan, W. Cummings, G. Bayliss, D. S. Tysoe, W. H. McKelvie, Roy Smith, W. N. Tarbuck, J. Day, A. Deacon and Dr. and Mrs. F. Dickson, Vancouver; Marion Swanson, Jasper; S. A. Crocker, Vanderhoof; P. Jacobson, Endako; L. Mercer and A. Lanca-shire, Terrace; J. Jefferies, Telkwa; P. R. Onderdank, Hamilton; J. K. Bruyere, Toronto; Harry Hood, San Francisco; N. F. Carnegie, Toronto.

### IODE Chapter to Sell Ice Cream

Duchess of Edinburgh Chapter, Imperial Order, Daughters of the Empire, will conduct the ice cream stall at the forthcoming Port Day celebration and Mrs. Frank Hicks will be convener. At the last meeting of the Chapter, with the regent, Mrs. Halliwell, in the chair, it was decided to hold the fall bazaar November 24. Resignation of Mrs. M. Magaw, who is leaving the city, was received with regret. The monthly raffle was won by Mrs. Halliwell.

### Gardening....

Insects which attack vegetable and flower plants are usually specialists. They attack one variety or group of relatives, and their appearance can be foretold by experienced gardeners. It pays to identify them, and learn their habits, so that you may prevent them from damaging your plants.

There are red, black and green aphids. They cling to the underside of leaves, or on the growing ends of stems of many vegetables, multiplying with amazing rapidity. Use rotenone, pyrethrum or nicotine dust or spray, immediately first specimens are detected.

Asparagus beetles are blue-black with lemon spots, one-quarter inch long. Use rotenone dust or spray while harvest is on, and these or D.D.T. dust or spray after the harvest.

Blister beetles are grey, striped or black, three-quarter inch long, prey on potato plants. Use rotenone or D.D.T. spray or dust, or calcium arsenate dust.

Flea beetles are small flea-like insects which attack cabbage, potatoes, turnips and other vegetables, and riddle the leaves with small holes. Use D.D.T. dust or spray.

The potato bug, or Colorado beetle is red with black stripes, half inch long. Spray or dust with D.D.T.

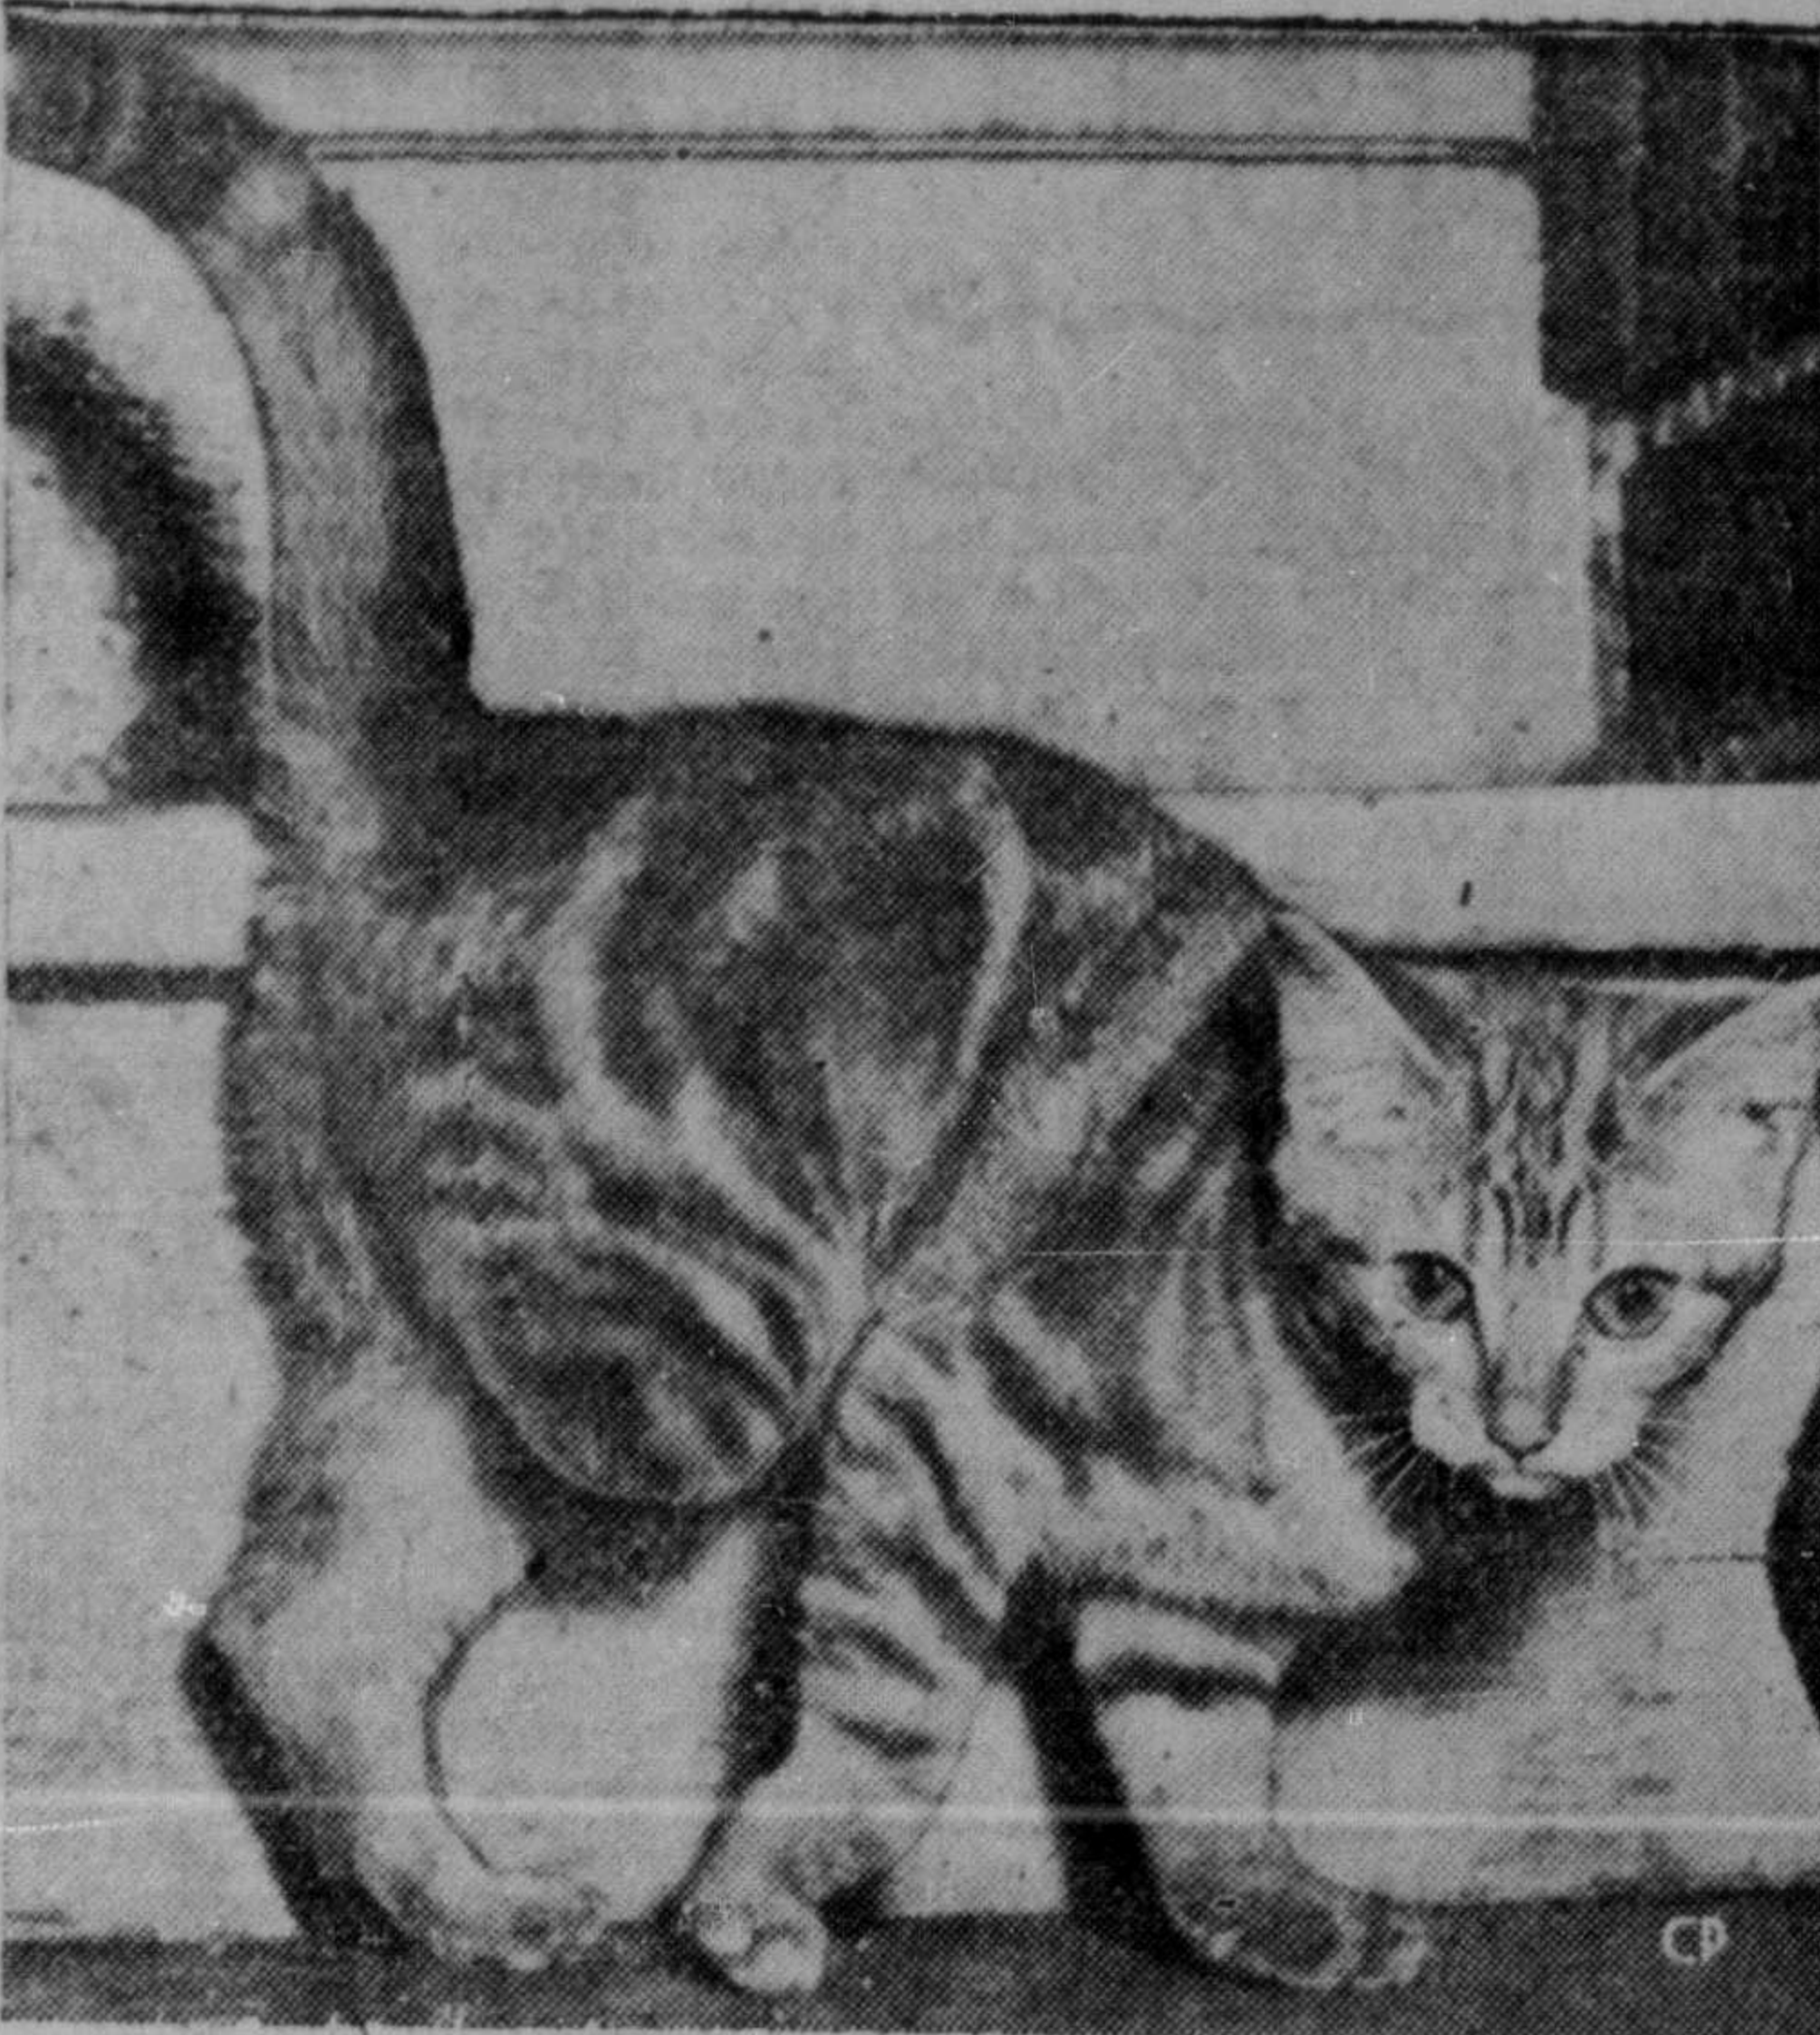

Potato leafhoppers are pale green, one-eighth inch long. Also found on beans, swarming on your approach to the plants, on which they cause leaf-curl. DDT kills them quickly.

Cutworms are caterpillars of various moths which hide by day and at night cut off young plants at the soil surface. Protect the plants with collars of heavy paper or cardboard sur-

rounding the stems, extending an inch below the soil surface and two inches above, when the plants are set out.

Cabbage worms are pale green caterpillars one and one-quarter inch long, hatched from eggs laid by white butterflies, which are found on cabbage, cauliflower and other members of the cabbage family. Dust with rotenone or DDT.

Grasshoppers may attack all garden crops and are best controlled by using poison bait.

THREE-LEGGED FELINE—Here's a three-legged kitten that can do anything his four-legged brothers can do except scratch his ear with his right rear foot. Owned by Mrs. W. J. Taylor of Windsor, Ont., this tabby and another of the same litter were born six weeks ago with only short stumps where their right hind legs should be. Despite their handicap, they are as lively as any other kittens. (CP PHOTO)

### Sentenced To Oakalla

Two men were sentenced to one and two years' in Oakalla prison farm by Police Magistrate W. D. Vance in police court yesterday.

Arthur Stuart Royle, 25, no fixed address, was sentenced to one year for theft of a taxi early on the morning of June 5. Frank Stuart, taxi owner, and police gave chase which led to a crack-up of the stolen car a few miles east of the city. Royle was driving "80 miles an hour," according to Mr. Stuart.

Victor Walkow, 28, was sentenced to two years less one day for theft of \$155 from a Japanese fisherman June 12. Both men had previous police records.

### Phooey on Six Leaves- 7 Now

Mrs. James Hillman, 1640 Sixth Avenue East, has gone one up in this clover leaf business. She has found a seven-leaf clover and adds: "Six-leaf clovers are not at all unusual in my garden."

Maybe it's the moisture or the clear bracing air but Prince Rupert really seems to have something in this matter of multiple leaf clovers.

In fact, it is beginning to look like there is a distinctive Prince Rupert clover.

### Coastal Liner Helps Troller

Caught with her engines dead in the heavy seas five miles north of Cape Mudge, an unidentified troller signalled the northbound CNR steamer Prince Rupert for help Tuesday morning.

The little troller was drifting as the passenger liner halted alongside and Capt. W. E. Eccles understood from the shouts of the troller's skipper, that the engines would not start. The Prince Rupert sent a radiogram to Alert Bay for towing aid.

The troller's skipper said he was in no immediate danger. Two aircraft of Canadian Pacific Air Lines and Queen Charlotte Air Lines were circling overhead, having spotted the fishing vessel.

Seas were heavy all the way from Vancouver and a stiff nor'wester continued to blow throughout the trip, the liner's crew reported.

### Canadian Club Tea is Enjoyed

Mrs. C. B. Forman's home at 124 Fourth Avenue East was the attractive setting yesterday afternoon of a delightful tea by the Women's Canadian Club, the affair being attended by some fifty ladies who were received by Mrs. F. E. Anfield, the club president, and Mrs. Forman. Original intention had been to have a lawn party but the windy afternoon made it advisable to go indoors.

Mrs. Robert Davidson and Mrs. A. M. Hurst were convivers.

Mrs. Thomas Boulter, Mrs. T. N. Youngs, Mrs. C. H. Elkins and Mrs. G. R. S. Blackaby presided at the pouring table which was handsomely adorned with snapdragons and irises and yellow tapers.

Mrs. W. D. Smith, Mrs. G. E. Moore, Mrs. J. A. Rutherford and Mrs. G. S. Reade poured. Among those present was the popular honorary president, Mrs. R. L. McIntosh.

TIMBER WEALTH Finland's timber industry exceeds in value that of any other European country except Russia.

## Battery Still Unbeaten

Defeated General Motors 4-2 Last Night

Heavy Battery maintained its unbeaten record in the North Star Football League last evening by winning over the General Motors 4-2.

Dixon was the first goal scored and did well to save a hard drive from Pavlikis. Robinson made a good run. Play was fast and interesting with both forward and defensive reliable. Price shot from a good opening by Robinson. Price crossed in to Letourneau who went in to score a good goal and put the game up. Dixon fired away a centre from A. Gomez and John Wilson saved by giving a good save from Ford.

Five minutes after the resumption Parkhouse scored the equalizer with a first time shot that sent Dixon no chance. Then White broke away and went through to put the Motors ahead again with a well placed shot. Georgeson hit the bar and Ford trapped the rebound to equalize. A Gomez took a beautifully placed corner but the ball was saved by his inside forwards. The Battery pressed and the Motors capitulated when Ford kicked up a clearance and drove in a third goal for the Battery. Dixon saved well from Ford again. White and Letourneau led a Motors attack that had the Battery in trouble till Darrow Gomez blocked a great drive. Alex Gomez crossed and the Battery shot. Ford trapped to score the fourth goal for the Battery. Pavlikis shot just wide.

Teams: Heavy Battery — Ford (Sr.), Dunbar, Ferguson, Mazzoni, Georgeson, Darrow, Gomez, Alex Gomez, Parkhouse, Pavlikis, Halvorsen, Ford (Jr.). General Motors — Dixon, John Wilson, Lien, Jennings, Olsen, Tait, White, Robinson, Price, Letourneau.

Referee — D. Fyfe.

### SPECTATORS' REACTIONS

Ford (Sr.) had no chance with either scoring shot. Dunbar was very reliable and resourceful while Ferguson was never in serious trouble. Georgeson played well and Darrow Gomez and Mazzoni were strong defenders. The forwards played hard but found the Motors' defence hard to shake off. Gerry Ford had his best day with three goals. The fact that the Motors played all through with ten men left openings that would not be found against a full eleven. Halvorsen played hard. Gomez was dangerous in the second half with centres and well-taken corner kicks. Parkhouse, who got a goal, and Pavlikis tried hard but got few chances to shoot.

Dixon kept a better goal than in previous games and is improving. Lien and John Wilson played stubbornly and could not be satisfied with their efforts. Olsen played a fine spoiling game, using his head to good advantage and never giving up. Jennings did well while Ronnie Ford did an outstanding job. Robinson and Letourneau were the best forwards and Derek's goal was a beauty. Robinson is a grand team player. White played his best game to date getting a good goal and beating off opposing half often. Price had bad luck with a couple of drives. Playing with only ten men all through was a big handicap for the Motor men. They missed Pat Wilson, off with leg injury.

### Three-Way Tie In Softball

Columbia Cellulose is Team to Watch In Rounders' League

Columbia Cellulose moved into a three-way softball tie with the Firemen and Rupert Radio last night at Gyro Park by giving the North Stars a 17-3 going over.

Now the CCC is rapidly shaping up as the sharpest team in the league.

Last night it was a case of extra base hits when they did the most harm and tight pitching by Thorenson and Teichman that turned the trick. Thorenson pitched the first four innings and allowed three hits and three runs while Teichman pitched to only 10 batters in the last three innings. Visjack and Dallyn were the leading hitters for Celanese with three for four while LePage and Williamson had two apiece.

Friday night an outside team will provide the competition as a game is scheduled between the HMCS Ontario and a local team.

### CELANESE

## SPORT SHOTS

A five-inch, brownish earthenware urn, of little intrinsic but great sentimental value, has become the chief attraction at the Festival of Britain display of the world's most famous sports trophies. It is a replica of the highly-prized Ashes, a symbol of Commonwealth cricket supremacy, held continuously since 1933 by a succession of great Australian teams.

Dwarfed by the imposing array of more than 500 gold and silver cups and tankards, worth thousands of dollars, the modest urn is not only the most photographed piece on show but with the magnificent America's cup, international yacht-racing prize, the most closely-guarded. Flanking it is another rarity, a golf trophy presented by Adolf Hitler for the 1936 Olympic Games, which to his chagrin was won by a British team.

Cricket lovers, who have flocked to the show in droves, have sought with some success to untangle certain legends attached to the modest prize that has caused such keen rivalry down through the years. They learned that the Ashes, dating back to 1882, do not change hands like other trophies. The original urn, encased in cotton wool, has reposed in a safe in the Long Room at Lord's, London headquarters of world cricket, since it was officially presented. Only a replica is allowed to circulate between the competing teams.

What's more, the urn definitely contains some ashes. Previously, the experts had clashed sharply on this point. Many writers claimed the sealed urn was empty. Others contended it held the ashes either of a cricket ball, a ball, or piece of stump. But the authorities at Lord's haven't the faintest idea where the ashes came from. They might have been scooped up from a clubhouse fireplace after the 1882 victory. "Your

guess is as good as ours," they said.

The Ashes had their origin following Australia's upset triumph over England at Kennington Oval in August, 1882. In this memorable London match the flower of England's batsmen faced the task of scoring a mere 85 runs for victory. But under the mastery of the Aussie speed-bowler, F. R. Spofforth, the English wickets toppled like ninepins and the side was dismissed for 77 runs.

For a game where crowd demonstration seldom transcends a ripple of applause or a polite shout of "Well done, sir," the excitement and tension of the closing stages became so great that a spectator dropped dead and several fainted.

To mark the occasion, a mock obituary notice, edged in black, appeared in the Sporting Times, leading sports journal of the day. The epitaph read: "In affectionate remembrance of English cricket which died at The Oval on 29th August, 1882. Deeply lamented by a large circle of sorrowing friends and acquaintances. R.I.P. N.B.—The body will be cremated and the ashes taken to Australia."

In the return match at Melbourne, an English team led by Hon. Ivor Dillig, later Lord Darnley, avenged the defeat by winning two of three tests. Remembering the English obituary notice, an Australian woman cricket fan produced the urn, nobody knows from where, put in the mysterious ashes, sealed the works and presented it to Bligh to commemorate the "resurrection."

## Football Fact and Fiction

President Alex Haig announces the names of the players chosen for two representative football teams, one to play against the native Kincolith team on Saturday and the other to play against the visiting HMCS Ontario on Sunday evening.

**Vs. Kincolith**—Morgan; Dunbar; Lien; Bowman; Jorgensen; Ford; Baxter; Fat Wilson; Pavlikis; Parkhouse; A. Gomez; Price; W. Gomez and Letourneau.

**Vs. HMCS Ontario**—Krause; Robinson; Ferguson; Petersen; Eby (captain); D. Gomez; Matthews; Wyatt; Smith; Armstrong; Murray; John Wilson; Mazzoni; Olsen.

For the game against Kincolith the Prince Rupert team will wear the Battery colors; for the game against the Ontario, the locals will wear the Legion strip.

The Battery was the lucky team and drew a bye in the first round of the Dominion Day football competition. That leaves the first round, which will be played on Wednesday, June 27, between the General Motors and the Canadian Legion. The winners will meet the Battery in the final on Dominion Day.

## Pensionable Group Grows

SYDNEY, Australia (P)—In 1921 there were 14 workers to every person eligible for a pension in Australia. By 1949, there were fewer than eight workers for every pensionable person.

In the last 30 years the number of persons old enough to be eligible for a pension (65 for a man, 60 for a woman) has increased from 318,000 to 863,000—an increase of 171 per cent. Total population has grown by 53 per cent from 5,500,000 to 8,250,000.

About 40 per cent of those in the pensionable age group actually receive government pensions of up to 50 shillings a week.

The other 60 per cent fail to qualify under the means test. Under this test the amount of pension diminishes as the private income of the pensioner exceeds 30 shillings a week, and disappears when the combined income of a married couple reaches £7/10 a week. Ownership of property (other than a residence) worth more than £1,000 disqualifies for a pension.

Age pensions at present cost £38,000,000 a year. There has been persistent pressure for abolition of the means test. This would cost £50,000,000 a year.

Those who want the means test abolished say that it is keeping a large number of elderly people out of useful part-time work and with labor scarce in Australia this is an important consideration.

George W. Bruggy, pioneer mining man of this district, has returned to Vancouver, after a business trip to Alice Arm, where he holds claims. He now has a financial group interested. They plan on proving the claims and building a dam.

## Restore Old Church

LONDON (CP)—Burned out by fire bombs in March, 1941, the St. Alfege Church in Greenwich, where King Henry was baptized and General Wolfe buried, is to be restored to its ancient beauty. Work is already in progress on the roof and other parts of the damaged structure, but additional funds are needed to rebuild and refurnish the interior. Before the bombs struck, St. Alfege was one of the show places of the Greenwich area. It was famed for its elaborate carvings by the master carver, William Gibbons.

Extensive work is also to be undertaken in restoring the old corner set aside in memory of the hero of the Plains of Abraham. Before he departed on his Canadian expedition, General Wolfe lived in Greenwich.

## Barbara Buys AND WHYS

A WEEKLY INFORMATION SERVICE

MONTREAL, June 21st—Thinking won't make it so... Beautiful movie star Joan Bennett thought all face creams were alike—thought her face was immaculately clean after she'd used her regular cleansing cream. Then she tried the "Blue-Jay" and found that WOODBURY COLD CREAM floated off hidden dirt! Why is Woodbury so different? Because it has Penaten, a new "miraculous" ingredient that actually penetrates deeper into the pores to loosen every trace of grime and make-up! And, the Penaten, Woodbury Cold Cream smoothes your skin more effectively. Buy a jar today—23c, 45c, 78c and 1.15.

More Frowns For Me because of p-a-i-n-f-u-l corns! I've just met a "foot friend" in BLUE-JAY Corn Plasters—Phenylmethyl! What's that? It's the greatest scientific discovery in years to us people with unhappy feet! It's the most effective medication ever invented for corns and calluses! Took ten years of research by the Blue-Jay folks to perfect this... and now it's effective in 95% of the cases tested! So, if corns or calluses have been troubling you, feel like growing at everyone... just "Blue-Jay" Corn Plasters with Phenylmethyl and end your troubles!

Less Than Half Price... "Hi—Breakfast Ready?" No sooner said than QUAKER MUFFETS are on the table! There's no preparation—just put the package out and let the family help themselves. Not only are they tasty, golden-brown biscuits, but they're good for you, too! In Quaker Muffets you get 100% Whole Wheat—yes, the bran and valuable wheat germ are there with the body-building proteins, minerals and energy-giving qualities of the whole grain. For a breakfast that's really different, try them with fruit and milk or cream—you'll be back for more and more! Right at this moment I'm adding Quaker Muffets to my shopping list—how about you?

Know and I know, too—that we women can keep a secret. For instance, does your husband know how "grey" your hair is? No!—not when you use a secret with wonderful STYLING COLORANT! Nestlé's hair is not a dye—it's safer, easier to use than a dye. Lasts for three shampoos, yet lathers when you want it to. And it gives your hair completely new, beautiful, youthful color. Whether you're blonde, brunette or redhead—there's just the right shade of Nestlé for you... 10 styling shades—6 capsules for try NESTLÉ'S COLORANT. To highlight the beauty of your hair, it rinses in—shampoos 6 times—just 39c.

Baking Beauty... and once you've taken a refreshing bath or shower with a velvet-soft C-I-L SPONGE, I just know you'll agree! It's so smooth and gentle to the skin—and, even more, it adds beauty to your bath—because now you can get C-I-L Cellulose Sponges in color! To blend with your bathroom accessories and add a touch of glamour (at little cost)! Try Nestlé's Yellow—Green—Orange—you'll love them! I promise in the family can have a "personalized" sponge from baby to grandpa! And, remember—C-I-L Sponges float—hold 20 times their weight in water—and are long-lasting. Ask for C-I-L Coloured Sponges—at department, variety, grocery and hardware stores.

Something To Be Proud Of! "Treasure" of a made-in-jelly... matter what your favourite strawberry, raspberry, plum, or more and jellies have a more satisfying appeal than any other. CERTO FRUIT PECTIN, along with my favourite and sugar, it's so easy to use! I simply follow the directions on the booklet for the label of each Certo and do my jams and jellies about one-third of the time of the old method. I actually get so much for so little when I buy Certo that I find I can make extra milk with the money it saves me!

"Dressed Up" For Gala Occasions... ready-to-serve at a formal dinner... it's quick to make BLUE BONNET MARGARINE in the Yellow Quik bag look as good as it tastes! All you do is press the colour button on the Yellow Quik bag and knead the big gently. In just two minutes your Blue Bonnet is a golden, luscious-looking yellow—ready to serve. It's so easy... no dirty mixing bowls to wash—no fuss—no bother at all. I love Blue Bonnet's country-fresh flavour in my cooking (baking, pan frying, seasoning). And another thing I like about it is that it's always fresh. I get so much for so little when I buy Blue Bonnet—I find I can make extra milk with the money it saves me!

"Scrimping Along" from pay-day to pay-day? It's no life for a woman, is it? So many of my friends have been just that since the cost of living got so mighty. Now, with Personal Planning, the book of MONTREAL'S wonderful, down-to-earth way of handling your money, most women can say "no" to unappealing scrimping. Several of my friends have already proved that Personal Planning helps them to overcome rising prices and increased taxes—and even leave a bit over for savings. Make a tip from me and get your copy of the booklet "PERSONAL PLANNING" today. It's as easy to you as your neighborhood branch of B of M... and the only obligation is to yourself!

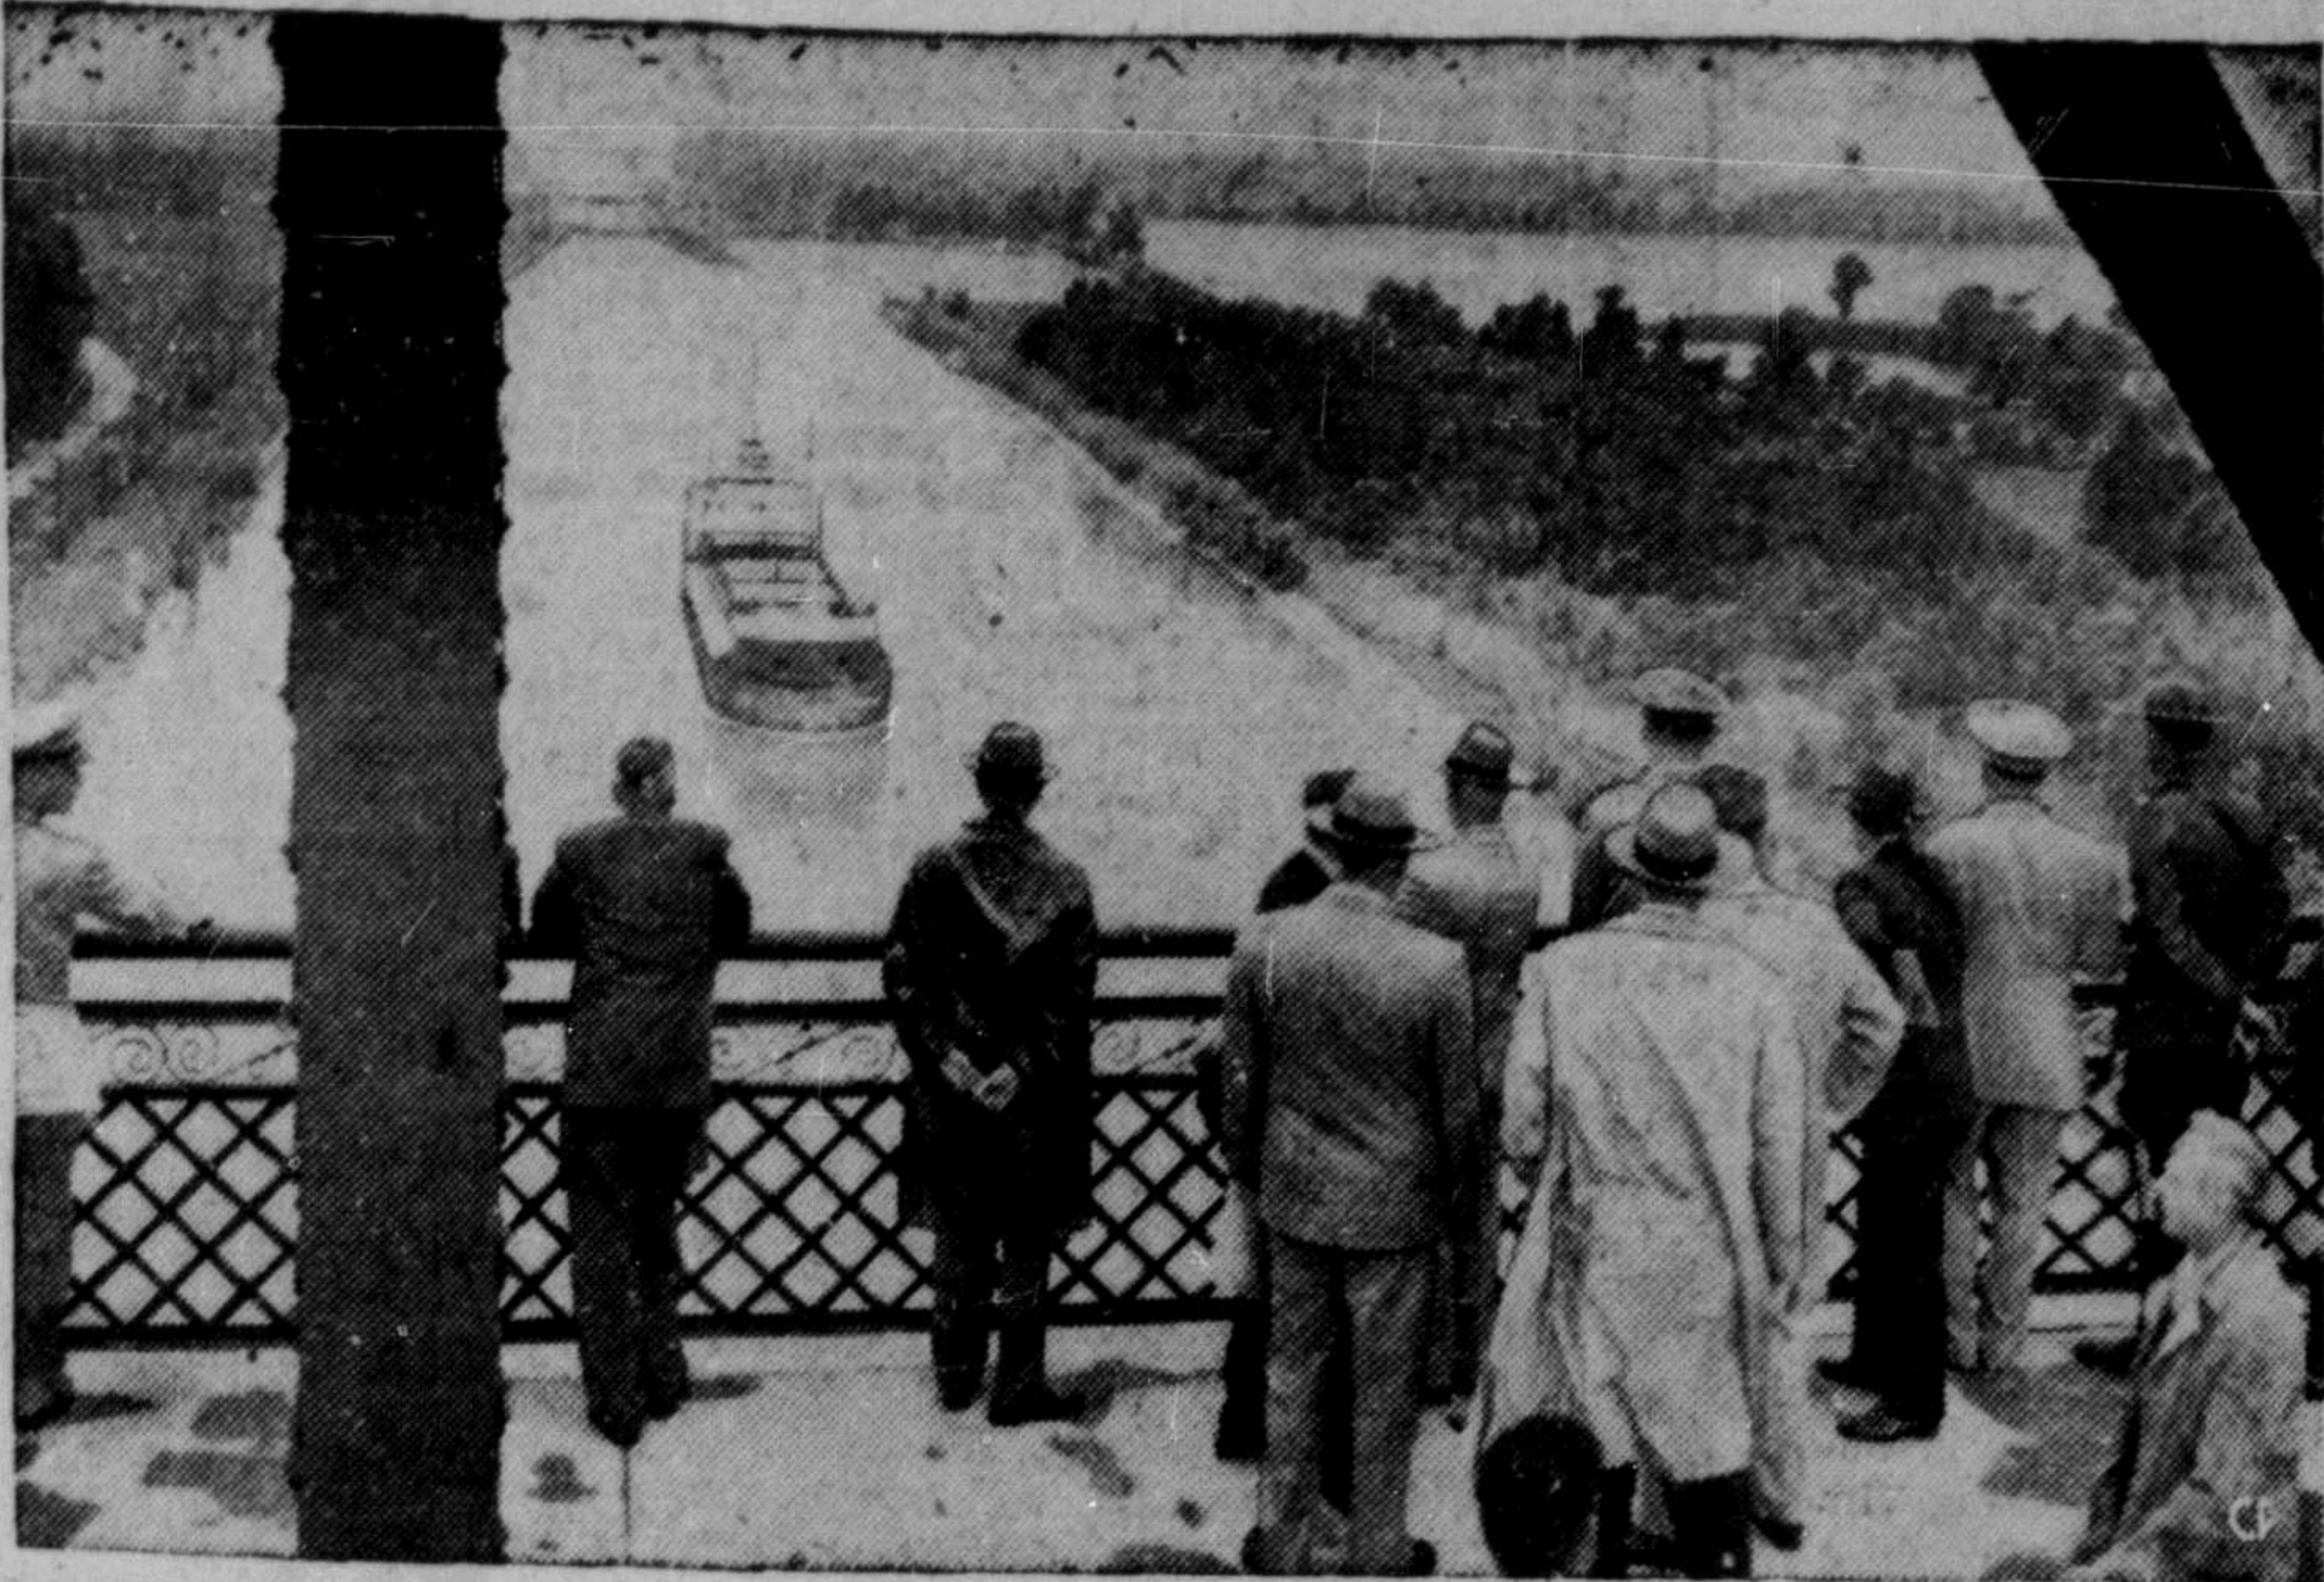

His Canadian battle flags and memorial plaque were destroyed by the German incendiaries which left nothing but the four scarred walls of the church standing.

Rev. G. S. Mason, rector of the church, said a public appeal for \$9000 would be launched and suggested support might be sought in Canada and other parts of the Commonwealth. If adequate funds are forthcoming, he hopes the work of restoration will be completed by the end of 1952.

The present church was rebuilt in 1718 on the ruins of the first St. Alfege, dating back to the 11th century. Thomas Tallis, master of the King's music during the reigns of Henry VIII, Edward VI, Queen Mary and Queen Elizabeth, was buried in 1585 under the chancel of the old church.

### INLAND SEAPORT

The largest freighters afloat can travel through the Ship Canal to Manchester, 35 miles from the sea.

SEAWAY TOUR—U.S. Congressmen view the Welland Canal during a three-day tour of links in the proposed St. Lawrence Seaway. Accompanied by power officials and army engineers, they watch a freighter from a 125-foot elevated bridge. The Welland Canal, deep enough to handle 80 per cent of the world's shipping, would be a vital link in the seaway. (CP PHOTO)

## Expert Criticizes Col. Noyes To Far East British Kitchens

OXFORD, England (CP)—American Prof. John Immer says British kitchens are "terrible—they couldn't be worse."

"What a lot could be done to lighten and speed up the work of British housewives," he said. "Most kitchens need complete replanning."

The professor, an expert in "material-handling"—the science of speeding up the transport and handling of goods—is equally critical of British production methods.

"Production is primarily a frame of mind—that is, a philosophy," said Immer, here to study for a degree at Oxford University.

"Good production can never be obtained where the management and workers feel they are out to get the most from each other."

The slightly-built, 35-year-old professor admits, however, that he has found many examples of outstandingly good production here.

## National Parks Big Attraction

CALGARY (CP)—Canada has an area of national park land much greater than necessary for her relatively small population, says J. A. Hutchison, superintendent of Banff National Park.

Speaking to the Junior Chamber of Commerce tourist school here, Mr. Hutchison said that the provision of extra park land showed commendable foresight, and as the Dominion's population grows, Canadians will be grateful for the preservation of natural beauty.

Canada has pioneered in the setting up of national parks and the honoring of historical sites, and other countries are following suit today, said the park superintendent.

Describing the particular features of various western Canadian parks, Mr. Hutchison said they served as a great tourist attraction, and referred to the Calgary Stampede and Banff National Park as "an unbeatable combination."

Last year more than 480,000 people passed through the eastern gate of Banff Park. Of this number, 52,000 were American visitors.

## Col. Noyes To Far East

Road Commissioner for Alaska Moving

JUNEAU.—Announcement is made by the Alaska Road Commission of the impending departure of Colonel John R. Noyes, Commissioner of Roads for Alaska, from his present position as head of the Alaska Road Commission to a new assignment with the Army in an important position in the Far East. The exact nature of Col. Noyes' new Army assignment was not disclosed. Col. Noyes will leave Juneau on June 23 for Washington, D.C.

During the past three years Col. Noyes has headed the Alaska Road Commission and directed the execution of a program of road work in Alaska aggregating \$75,000,000.

This work includes the reconstruction and paving of the main highways with a bituminous surface; the construction of the new highway from Seward to Anchorage, now nearing completion; the completion of the Sterling Highway on the Kenai Peninsula; the reconstruction of the Tok Cutoff Road connecting Anchorage with the Alaska Highway; the continuation of construction on the new road from the Alaska Highway to Eagle, including its connection to Dawson; and the commencement of a new road connecting the Richardson Highway at Parsons with Mt. McKinley National Park. Much of the paving work and the construction of the Seward-Anchorage Road was executed pursuant to cooperative agreements with the Bureau of Public Roads.

The big road program required a considerable expansion of the force of the Alaska Road Commission and many changes in its organization.

Col. Noyes' Army service in Alaska dates back to 1926 when he arrived in Juneau as a young lieutenant to join the force of the Alaska Road Commission, then an agency of the War Department. He served with the Road Commission from 1926 to 1928 and again on a second tour of Army duty in 1931 and 1932. Later, in 1933 and 1934, he was in charge of river and harbor improvement in the Territory while that work was under the

supervision of the Seattle Engineer District.

Returning to Alaska in 1949, Col. Noyes made a thorough examination of the Alaska Railroad for the War Department in June of that year, and his reports on Alaska led the way to support by the Department of Defense of the Seward-Anchorage Road and indirectly of the entire road improvement program. In 1948, he was requested by the Secretary of the Interior to assume the new position of Commissioner of Roads for Alaska to take charge of the road improvement work. The Department of the Army loaned Col. Noyes to the Department of the Interior to make the assignment possible.

**LONG IN ALASKA**  
Upon his first arrival in Juneau in 1926, Col. Noyes met his future wife, Miss Eunice Zimmerman, music and art supervisor in the Juneau schools. They were married on March 5, 1928, and now have two sons, John Zabriskie Noyes, a student at the University of Washington, and Daniel Hayes Noyes, a graduate of the Juneau High School in 1950, who is now a freshman at the University of Oregon. Both Mrs. Noyes and the boys have a host of friends in Juneau.

Before leaving Alaska and the Alaska Road Commission, Col. Noyes said today:

"I have been highly privileged to be able to participate in the work of building Alaska. During the 25 years I have been associated with the Territory I have seen it grow and progress to an almost unbelievable extent. Each time heretofore when I have left Alaska, it has been with the feeling that I would never return; yet I have always returned. This time I am sure I am coming back once again at another time. It has been a privilege and a pleasure to be associated with this vast road program now going on and I leave the work with great regret but with the firm feeling that I shall return to Alaska another time at some indefinite future date."

"The Alaska Road Commission has already been one of the foremost factors in the development of the Territory and I know that it will continue the good work under the able direction of the engineers associated with me during the past three years."

The biggest bran flakes in Canada! And only Kellogg's are so crinkly-crisp! Wonderful way to get extra bulk to help keep you "regular."

## Timely Recipes

**BAKED SALMON WITH STUFFING**

1/2 lb. can salmon  
1/2 cup crocker crumbs  
1 egg  
4 bacon slices  
2 tbs. corn meal  
2 tbs. onion  
1 cup boiling water  
1 tsp. salt  
1/2 tsp. celery salt  
1/2 tsp. paprika  
2 slices stale bread  
Strain salmon, flake it, and mix with cracker crumbs. Add the egg, broken and stirred with a fork, but not well beaten.

**STUFFING**—Cook finely chopped onion in the boiling water 15 minutes. Add salt, celery salt, onion, a sa liquor drained from salmon. Pour this over stale white bread and corn meal. Cool, then beat well.

Put half the salmon mixture into greased pan, shaping like our little fresh fish. Fill stuffing on this (thicker in the center), shape the other half of the salmon mixture and place on top of stuffing. Put 1 strip of bacon on each little fish-shape, and cook in moderate oven until browned. Garnish on hot platter, serve with tomato sauce. Serves four.

**So Good for All Cooking!**

## Gathers 800 Salt-Pepper Shakers

KINGSTON, Ont. — Mrs. Frank Owen of this city always gets salt and pepper shakers for Christmas—but she loves it. With 800 pairs she is Canada's top collector.

"It all started nine years ago at an auction sale," says Mrs. Owen. She bought a box of junk for five cents and found it contained six shakers, one pair and four add ones, so she started collecting them. All those in her collection are matched except for the original four.

The original matched pair was a cheap aluminum set in a matching stand. The value of the sets in her collection now ranges from 10 cents to \$24 for a set fashioned like a tiny sugar bowl and cream jug in crystal with

platinum tops. Mrs. Owen, who believes she is the only Canadian member of the "Good Neighbor Salt and Pepper Club," has sets which look like tiny clowns, bears, skunks, penguins and sunfish. There is the goose and the golden egg, ice cream cones, cobs of corn, hot dogs and hamburgers. What Mrs. Owen wants most now is a kangaroo (salt) with a baby kangaroo (pepper) in the pouch.

3 S 3 NT All pass

Mr. Meek chose the ten of clubs for his opening lead. With practically no hesitation Mr. Masters played low from dummy and went right on up with the ace in his own hand. This seeming extravagance is not as silly as it looks. In fact it is the only play that will make the hand.

Mr. Masters knew that he could take just two club tricks. What difference if he won the first and second or the first and third leads of the suit? The point was that he had to unblock the ace of clubs to make absolutely certain of an entry to dummy. He needed that entry to bring in the long diamond

suit after it was set up.

**LEADS SINGLETON**

The way he played the clubs left the queen and jack of the suit on the board and two little clubs in the closed hand. With this set-up the opponents could not keep him out of dummy unless they had two kings of clubs.

At the second trick Mr. Masters led his singleton diamond to dummy's king. He followed with the ace of diamonds, throwing a small spade from his own hand. The ten of diamonds was led next and Mr. Abel won with the queen. Mr. Masters discarded the trey of hearts and Mr. Meek dropped the trey of clubs.

Mr. Abel returned the jack of spades, which was covered with the king and won by Mr. Meek's ace. Mr. Meek cashed the queen of spades and led a third round of the suit.

Mr. Masters won this trick with the eight of spades, shedding the seven of hearts from the board. Then he led a small club and Mr. Meek won with the king and desperately fired a heart. But Mr. Masters took the ace of hearts and led a club to dummy where all the rest of the cards were good.

## To Finish Up Street Signs

A concentrated effort will be made to finish planting 100 street signs this month, a project undertaken by Prince Rupert Junior Chamber of Commerce last year. There are 60 posts left to be planted, Archie Wudel, chairman of the committee reported at last night's annual meeting of the club.

Friday night 10 members will be out with pick, shovel and posts, and as often thereafter as possible, Mr. Wudel said he would get a crew together to "finish the job."

Jaycees undertook the project as part of a campaign to obtain street postal delivery in Prince Rupert. Balance of the street signs needed the city agreed to erect, Mr. Wudel said.

## Girl Planning Guiana Thesis

GEORGETOWN, British Guiana (C)—Miss Audrey Butt, an Oxford graduate, is getting her Doctor of Philosophy degree the hard way.

She has chosen to make a survey of various social aspects of the American Indian tribes in British Guiana.

Flying into the Mazaruni jungle, she plans to remain nine months among the Arecuna and Akowio tribes and later will fly to Chicago to consult with experts at University of Chicago.

Miss Butt, who already has written a thesis on the organization of Eskimos, then will return to British Guiana for a two-year survey.

Finally, she will submit a report on her findings to the government here and write her thesis for a Doctor of Philosophy degree.

Each member of the United Nations is entitled to five representatives in the General Assembly, but has only one vote.

## BUS SERVICE

Passenger Time Schedule No. 1

For Passenger and Parcel Express Service between Prince Rupert and Smithers Route—Trans-Provincial Highway

**NOTE:**

This company is not licensed for local business between points Prince Rupert-Terrace inclusive. Passengers will be picked up and set down at these stops only for or from points east of Terrace.

**EASTBOUND**

Thursdays and Sundays

from

**Prince Rupert**

to

Fridays and Mondays

from

**SMITHERS**

to

**PRINCE RUPERT**

**WAY POINTS**

Tyee, Skeena, Kwinitsa, Salvo, Ekstew, Shames, Amhurst, Terrace, Skeena Crossing, New Hazelton (Hotel), Hazelton, New Hazelton (Station), Moricetown.

**CANADIAN NATIONAL**

**TRANSPORTATION LTD.**

## To Stay With Associated Bds.

Prince Rupert Junior Chamber of Commerce last night voted to retain membership in the Associated Boards of Trade, and several official delegates will be appointed to attend the Associated Board's convention to be held in Prince Rupert in the fall.

The Junior Chamber had seriously considered withdrawing from the organization, President Geoff Hill said, but, in view of better financial standing at the end of the season and because the annual convention would be held here, "I think we should definitely retain our membership and see what we can benefit by attending the convention."

## Terrace Berries Looking Good

Fresh strawberries are selling at 35c a basket in Prince Rupert

but it is uncertain how long supply will last. The crop is from southern B.C. From Terrace and reports that there will be abundant and fine crop.

2nd in a series to bring you the facts about your Hospital Insurance plan

## Why was Hospital Insurance Started?

1. To relieve the people from paying large hospital bills.
2. To put the hospitals on a sound financial basis.
3. To help the overtaxed municipalities.

Let's look at the record—back to the years before Hospital Insurance. Towards the end of the war, and right afterwards, the rapid increase in the cost of running hospitals (due mainly to increased labor costs) made it necessary for the hospitals to raise their rates. In 1944, it cost an average of \$4.88 for one day's stay in hospital. By 1948, this cost had risen to an average of \$8.38 a day.

As a result, a great many people were unable to pay their bills. In many hospitals, one out of every three persons admitted could not pay his bill. In return, the hospitals could not collect enough money to pay their bills for fuel, supplies, etc. Many hospitals were losing so much money that they had to get immediate cash help, or close up.

The municipalities and the provincial government gave large cash grants to keep the hospitals open, but it was not a satisfactory arrangement. It was very costly and didn't help the people who couldn't afford to pay their hospital bills. A serious illness in a family was enough to wreck the finances of that family due to the large hospital bills. From all sides there were many strong demands for the provincial government to do something, and to do it quickly.

The action taken by the government to correct this situation was the start of Hospital Insurance on January 1st, 1949. The size of this huge undertaking was never overlooked, but the problems that had grown with the years could not be dealt with overnight.

While mistakes may have been made, they have been mistakes common to any large undertaking of this nature. Problems arose that had not been experienced anywhere else on this continent.

However, the net result of the plan is that the people of B.C. no longer need worry about staggering hospital bills for acute hospitalization which only three years ago could, and often did, cripple a family's finances. Now everyone has protection against large hospital bills, and the yearly premium for a family is less than 12c a day—less than one-third the price of a package of cigarettes.

The facts speak for themselves. Over 500,000 hospital bills have been paid on behalf of the people of B.C. This proves that the plan is fulfilling its original purpose of protecting the people from large hospital bills. Hospitals, on the other hand, are now in a position to operate on a sound financial basis and are steadily improving their buildings and equipment. The municipalities, in turn, have also benefited.

This, then, is why the Hospital Insurance Service was brought into effect in British Columbia. The article next week will deal with "Why were the premiums increased?"

Be sure to read these messages. They deal with your Hospital Insurance plan—a plan which has already paid over \$40,000,000 for more than 500,000 hospital cases, and is providing benefits for thousands more each month.

B.C. HOSPITAL INSURANCE SERVICE—  
YOUR PROTECTION AGAINST LARGE HOSPITAL BILLS.

## Hopalong Cassidy Besieged By Swarm of Young Admirers

It seemed like there were a million of them—Prince Rupert boys and girls—who swarmed around the struggling figure of William ("Hop-a-long Cassidy") Boyd when he stepped from the gangplank of the Chilcotin Wednesday afternoon.

There was pushing, there were calls of "Here Hoppy!" "Stick 'Em Up," and "Where's Your Horse," and Hoppy, the idol of many western movie-goers, cracked back:

"Stop pushing or I'll smash someone in the nose."

And he looked like he meant it too—for a short while, anyway—until his stern face broke into a smile and he chuckled out loud.

Hoppy waded through the swarming mass of young people and into the shed where he had a few words with his admirers. And not only were most of the young people of Prince Rupert here to cheer him, but many adults as well—mothers with babes in arms.

Seamen from the Chilcotin, stewards and officers grinned helplessly as the mob of children stormed the approaches to the gangway.

When the Chilcotin docked, "Hoppy" was on the bridge, waving. Then he tossed shower after shower of gleaming coins—aluminum—the size of half-a-

dollar coin, and there was a mad scramble.

**HAD TO FIGHT**  
Some of the children even got slightly hurt in their enthusiasm to gain possession of the souvenirs.

Ralph Weick said: "I got a couple of them, but sure had to fight for 'em. Everyone was grabbing."

The movie idol was dressed in a grey windbreaker and wore not his ten-gallon cowboy hat but an English cap.

When he got back on the ship again, he grinned and laughed loudly, as though he enjoyed the show as much as did the children.

"This happens to me all the time," Hoppy told a reporter, "but I love it. Sure, it's a little tiring at times, but so what. The kids love it, so I love it."

The Chilcotin sailed northward by press-time. Hoppy will return with the ship next Saturday, when the cruise ship spends several hours docked in Prince Rupert.

Seamen from the Chilcotin, stewards and officers grinned helplessly as the mob of children stormed the approaches to the gangway.

## South Seas Not Idyllic

By J. C. GRAHAM  
Canadian Press Correspondent

**AUCKLAND, N.Z.**—Remember those South Sea Islands of fiction where a kindly nature provides everything that is needed for human life and the inhabitants lie under trees while the food falls into their mouths?

Another blow to the fiction of an earthly paradise has been dealt by the New Zealand waterfront strike which has shown that the South Sea Islands of the present day, at any rate, are as dependent on overseas trade as the rest of the world.

Travellers returning by the first vessel to visit many of the islands for months report desperate food shortages brought about by the interruption of shipping services, and islanders eagerly rushing the ship to unload their previous allocation of fresh food supplies.

Meat was the main shortage and even in the prosperous city of Suva, capital of the Fiji group, meat was being sold only twice a week. In the smaller islands it had disappeared entirely from the menu except where traders had rationed their stocks of bulky beef carefully.

Flour, potatoes, eggs, onions and bread were also in exceedingly short supply. Sugar is grown in vast quantities in Fiji, but nowadays the islanders in many groups depend on supplies refined in New Zealand and shipped from there and some had seen no sugar for months.

**WILD WELCOME**  
The small trading ship Alexander which called at many islands in the Fiji, Samoa and Cook groups on the first tour of the islands since the strike began early this year, was greeted by wildly excited islanders who unloaded their allocations of supplies in record time and then rushed the island stores to replenish empty larders.

Penrhyn, a tiny island not far south of the equator, is typical of the changing habits of the islands.

Before the war the natives lived largely in traditional fashion on land crabs, coconuts, fish and fruit, but American occupation during the war changed all that. The islanders have become accustomed to European food, and they rushed the Alexander's supplies of flour, cheese, sugar and meat when the vessel arrived.

The islands will be rationing food for some time to come as supplies from New Zealand are still highly problematical owing to the continued strike by seamen in support of the New Zealand longshoremen.

Some relief has been given by the steamer Matu, which has taken a full cargo of supplies on an emergency mission to the islands. For this trip the Matu was manned entirely by officers, with a former master of the vessel acting as a deck hand, the rest of the crew consisting of first, second and third officers, and the cooks comprising an office clerk and a purser.

**BILINGUAL FINNS**  
One-tenth of the population of Finland speaks Swedish, the second official language, as it's mother tongue.

## Mexican Jobless In Golden State Are Hot Issue

By RALPH DIGHTON

**EL CENTRO, Calif. (AP)**—They're harvesting a new crop in the Imperial Valley this year—"hot potatoes."

California has no monopoly on the crop. California farmers want to see some Texans get their fingers burned, too.

The "hot potatoes" are Mexican border jumpers. Their presence on this side of the line has become a national political issue, almost too hot to handle.

Hungry and jobless in Mexico, they swim across canals and streams at unguarded border points. They arrive here with nothing but the wet clothes on their backs. Union leaders say some work for \$3 a week and frijoles (beans).

The native worker, organized by the A.F.L. National Farm Labor Union, wants that much per hour.

Two weeks ago the union called a strike. Its members began arresting wetbacks and turning them over to immigration authorities.

The carload shipments of vegetables from the valley this season are only about a third of what they were last year.

"Why pick on us?" the growers cried. "Texas has about 150,000 wetbacks and nobody does anything about it. We have 4000 or 5000 wetbacks—just peanuts. The Texas politicians are trying to make California the scapegoat."

**HOUSE CONSIDERS BILL**  
Now pending in Congress is a bill to make it a felony to employ illegal aliens such as wetbacks. It was introduced in the Senate by Allen J. Ellender, Sr., of Louisiana. It now is under consideration in the House.

The border patrol has been busy. H. R. Landon, regional immigration director in Los Angeles, says the service has been sending 1,000 wetbacks back to Mexico every day. Of this number, about 300 are turned over to the patrol by union members.

More than 450,000 wetbacks were captured on the four-state border (California, Arizona, New Mexico and Texas) last year and sent back to Mexico. More than 235,000 of them were captured in California. Landon estimates that the four-state total this year may reach 800,000.

Hank Hasiwar, western director of the farm union, also is campaigning for removal of Mexican contract workers from the strike area. By agreement between Mexico and the United States, they must be paid the current wage and can't be used to break a strike.

Hasiwar says the contract

workers, who don't belong to his union, are strikebreakers, and must be taken out of the area. The U.S. labor department so far has not taken any action to send them away.

There are about 5,000 contract workers, Hasiwar says, plus 4000 or more wetbacks. The regular year-around workers total another 5,000, of which Hasiwar claims 2,000 as members.

Hasiwar wants recognition of his union as bargaining agent for all the workers in the valley. Most workers now get 60 cents an hour plus an incentive premium of 20 to 21 cents for each crate they fill. He is striking for \$1 an hour and 25 cents a crate. The farmers say, however, that current rates enable the farm workers to earn \$2 to \$2.50 an hour. The increase would make the pay run as high as \$3 an hour during the peak of the season.

## Montreal Woman Active at 100

MONTREAL (C) — Mrs. Sara Feldman, a resident of Montreal for the last 60 years, proudly celebrated her 99th birthday, but her son, Dr. S. H. Feldman, a dentist here says it's her 100th.

Mrs. Feldman says she doesn't remember the exact date of birth in her native land of Russia, but she does know that she has had a long and happy life.

She lives with her daughter, who is partially paralyzed, in the Montreal Hebrew Old People's and Sheltering Home, which is run by the Federation of Jewish Philanthropies.

Mrs. Feldman not only looks after her 79-year-old daughter, Mrs. Clara Weinstein, but also helps clean the room.

**GOOD TEMPLARS MEET**  
**STOCKHOLM (CP)**—The International Order of Good Templars celebrated its centenary at a congress held here recently. The I.O.G.T. has 100,000 members in Sweden, or about one-third of its total international affiliation.

## Cavalry Epic Coming Here

Gregory Peck and Barbara Payton Star In Adventure Spectacle

With Gregory Peck in a dynamic leading role of Captain Lance, "Only the Valiant," screen version of the novel from the pen of Charles Marquis Warren, plays this week-end at the Totem Theatre.

It is a thrilling and suspenseful story about a chapter in the venturesome history of the U.S. Cavalry when that branch of the service still rode four-legged chargers. Peck is a hard-riding captain, feared by his men as a tough disciplinarian, yet admired by all of them as a soldier.

The savage Apaches, an Indian tribe notorious for war-lust and bloodthirsty actions, go on the warpath. Peck is assigned the task of riding forth to fight a delaying action pending the arrival of reinforcements. The intrepid captain chooses seven of the toughest soldiers in his command, and action follows.

There is a romantic element provided by Barbara Payton, lovely new blonde, in the role of a post officer's daughter.

"Only the Valiant" has the added interest of beautiful locales and background to enhance the story.

Ward Bond also stars, with Gig Young heading the list of supporting players.

## Francois Lake

Re J. A. Tingley showed several instructive and interesting motion pictures in the Community Hall last Thursday evening in connection with the work of the British and Foreign Bible Society of which he is District Secretary.

Mrs. J. S. Slater and small son and daughter are staying at the Landing. Mr. Slater is with the Aluminum project.

Mrs. Crawford of Moscow, Idaho, mother of Earl Deeder, is staying at the Deeder ranch for the summer.

The Riding Club met on Sunday morning at the Snyder Ranch and six members rode to Hill 4 on the range. All report having had a most enjoyable ride and are looking forward to the next one.

Members of the Athletic Club met at the Snyder Ranch on Thursday evening in honor of Chuck Millar who is leaving shortly for the States. He and Mrs. Millar will be greatly missed both here and in Burns Lake where they have entered into the sports whenever possible. Before lunch was served the Athletic Club presented Chuck with a table lighter.

## Houston Beats Francois Lake

FRANCOIS LAKE — Francois Lake ball team played Houston in a double-header on Sunday at Houston. The first game resulted in 5 to 10 in favor of Houston, and they also won the second game 16 to 15. At the end of the seventh inning the score was a tie, so they had to play overtime, when Houston broke the tie.

## Air Commandant Noted Teacher

By CYNTHIA LOWRY

NEW YORK (AP)—America's new No. 1 Fly-Girl prefers boats, trains, automobiles—or walking. "The smaller the plane, the more I freeze," said Col. Mary Jo Shelly. "But unfortunately, my job is an administrator's. Of course I do fly when it's necessary."

A blue uniform is not strange to the new director of women in the Air Force. She was one of the dozen hand-picked Wave officers created when that branch of the Navy was launched in 1942 and served until half of the female Gobs were demobilized after the war.

A good looking blonde of 49, friendly and informal, she looks on her new job as another step in a long career as an educationist.

She succeeds Col. Geraldine P. May. Col. Shelly approaches her new tasks with what would seem to be an ideal background—long experience in teaching young women and in administrative work.

"I don't think that a military career for women is much different from a business career in civilian life," she said. "It makes real demands upon the individual; it provides security, and it offers opportunities for advancement."

She becomes head of the WAF as it enters a period of vast expansion. From a corps of some 6,000 enlisted women and officers it will match the Air Force's own expansion, multiplying its peace-time strength several times.

**BORN IN MICHIGAN**  
A native of Grand Rapids, Mich., Col. Shelly determined from childhood to get into education work.

After public school, she attended a private normal school, then majored in English literature at the University of Oregon.

She got her Master's degree in Education at Teacher's College, Columbia University, and started work on her doctor's degree—which she has never had time to complete.

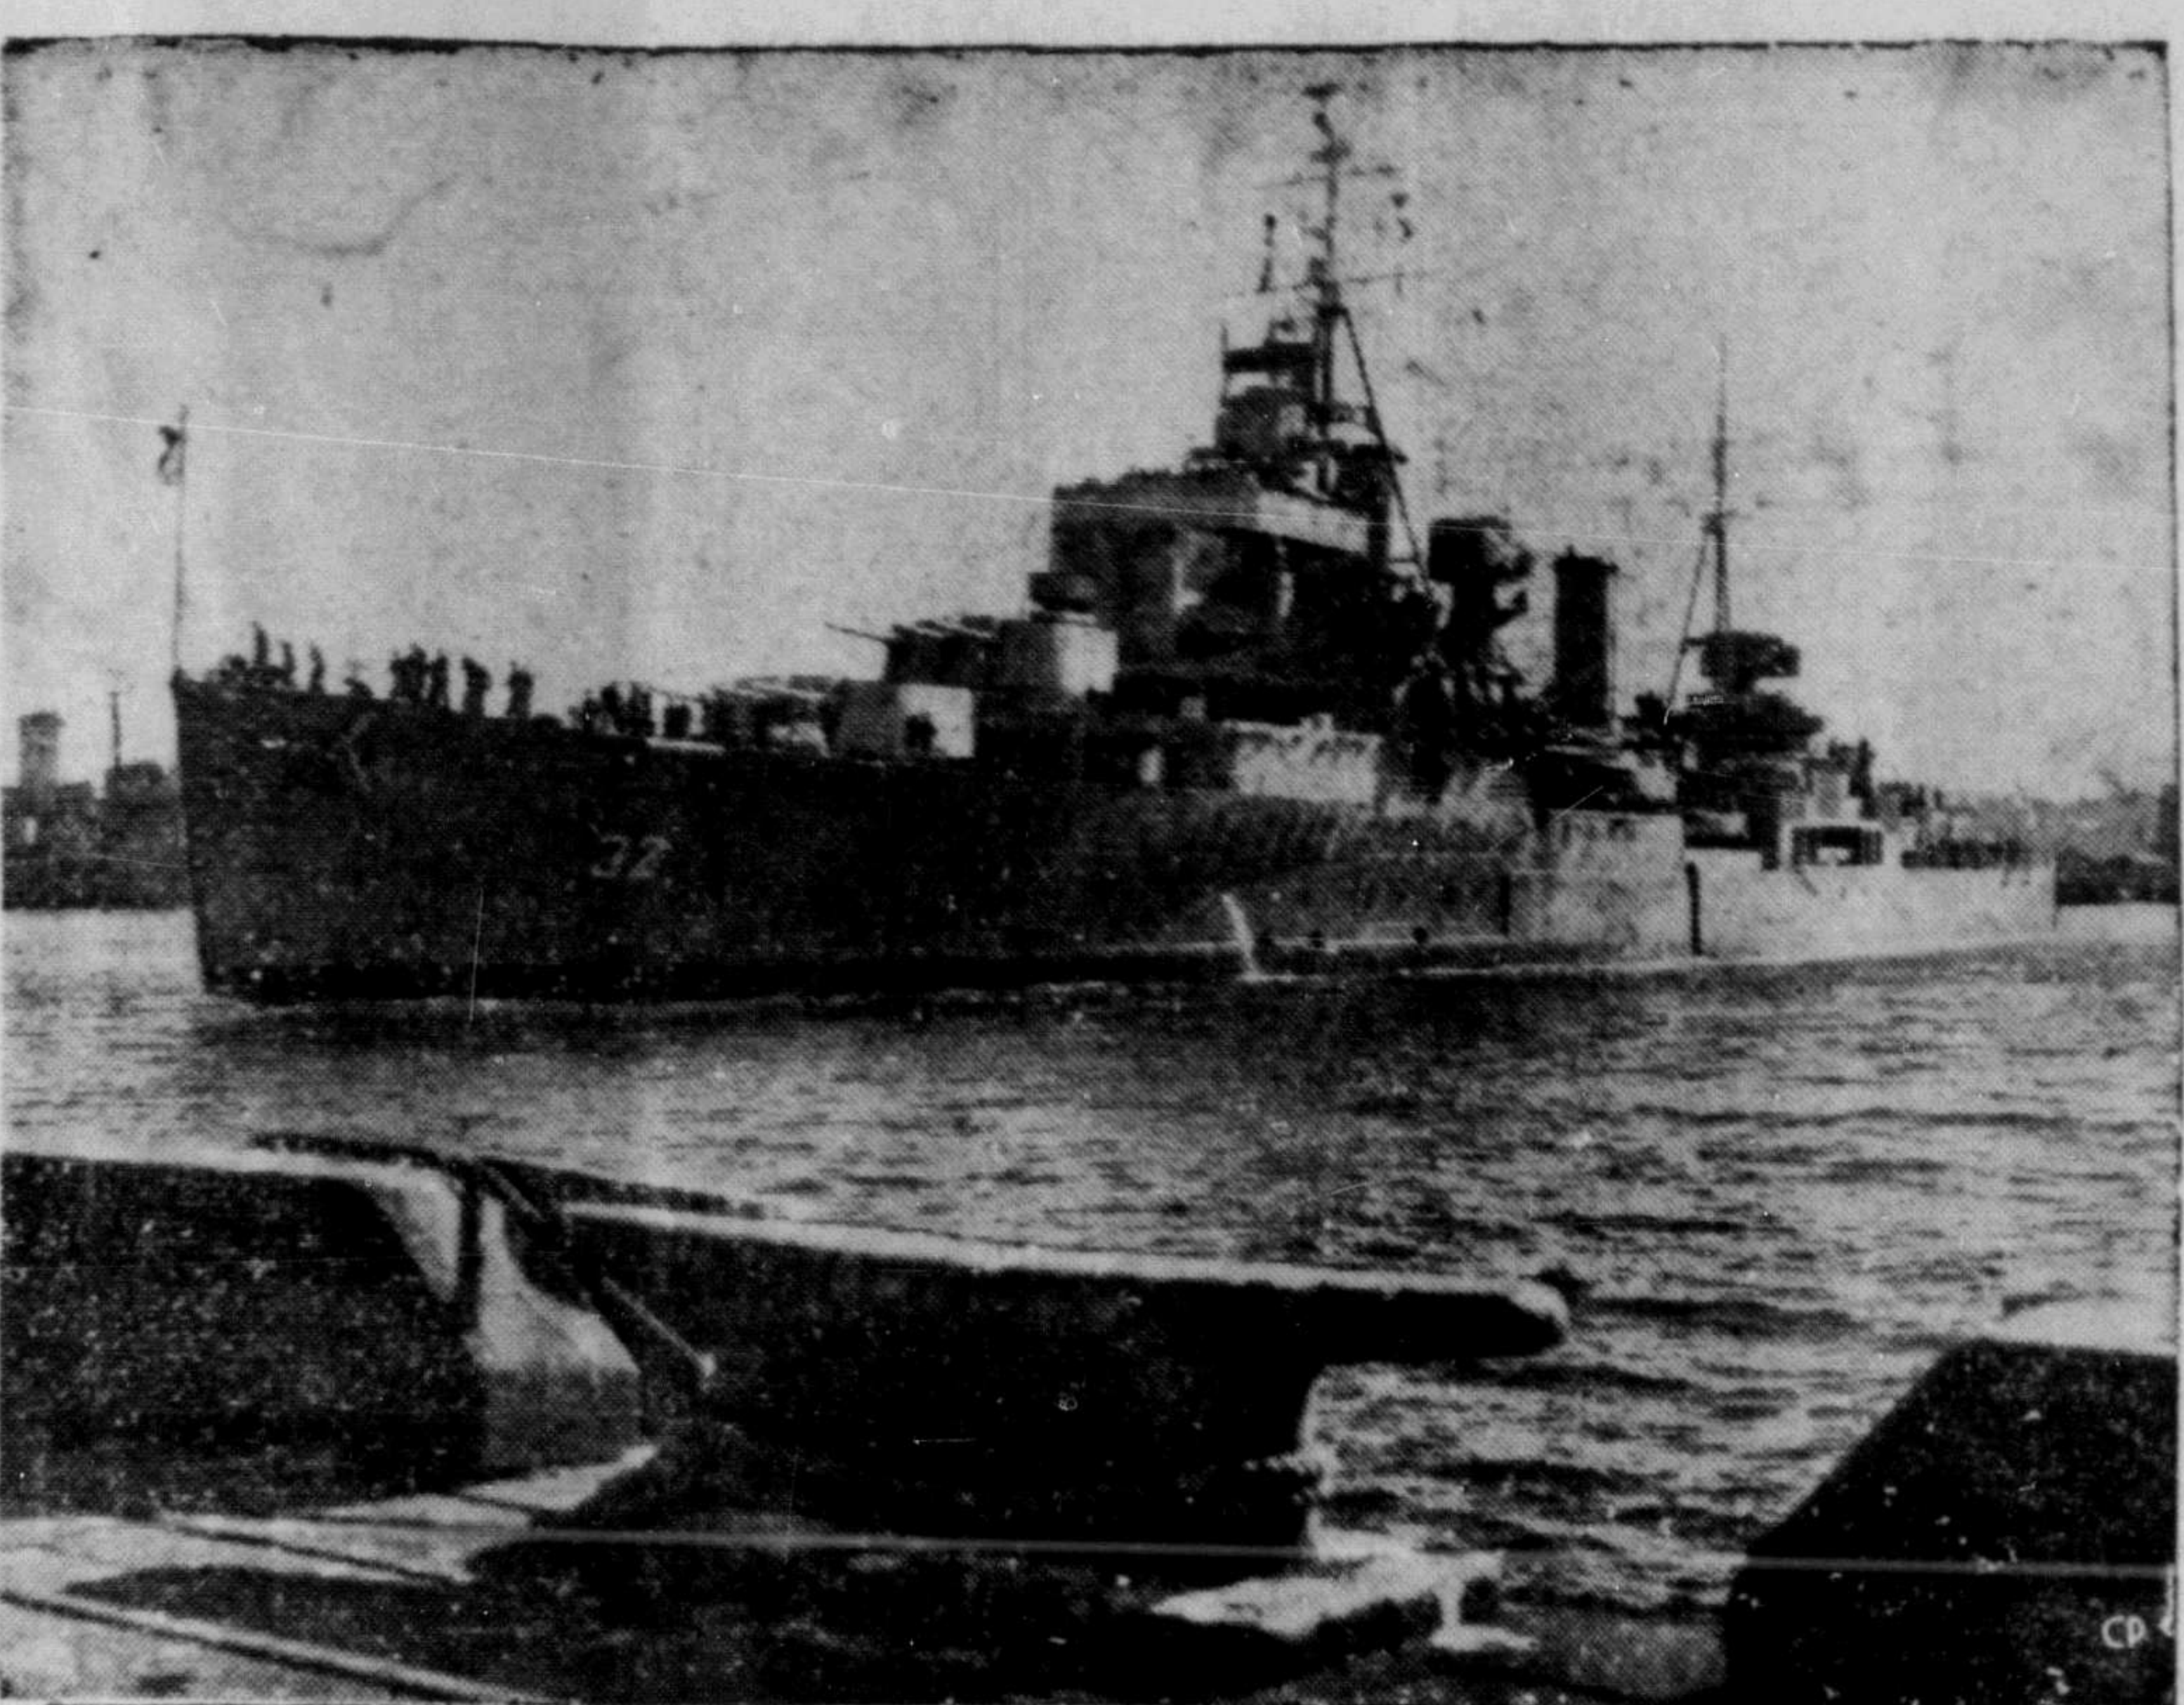

Later she went on to the University of Chicago, as an assistant to the dean of students.

Two years later her progressive education interests led her to Vermont Bennington College summer school. Before long she went to Bennington as President Robert L. Ligh's assistant, from which job she now is on leave of absence.

This was perfect experience for the WAVES and WAF. She entered the WAVES as a Lieutenant in 1942 and retired into the reserve five years later as a full commander. Return to the service as head WAF will give her a one-step promotion.

## Kitwanga WA Tea and Sale

KITWANGA — The Women's Auxiliary of St. Saviour's-in-the-Valley Anglican Church here held a garden party and sale of home cooking and sewing at the home of Mr. and Mrs. Earl Hobenschild on Saturday afternoon. Weather was favorable and many people called to have a good time.

**DUE TOMORROW**—HMCS Ontario, naval training cruiser, at first expected to arrive in Prince Rupert today, will not be here until tomorrow. A dance for the crew has been planned for Saturday night by the local branch of the Navy League of Canada and a committee of city aldermen will work with the Canadian Legion to provide further entertainment for officers and men of the visiting ship. Rear Admiral W. B. Creevy, commanding officer Pacific Coast, is on board the cruiser, which is commanded by Capt. H. F. Pullen.

## Toronto Aroused by Neglect

By KAY REX  
Canadian Press Staff Writer

TORONTO (CP)—A couple of cannon lean crazily against crumbling parapets. Broken windows dot the blockhouse. Railway tracks and smoking chimneys are on the north. A junk-yard and gravel-pit lie to the south.

That is Fort York, original site of Ontario's present capital.

The 158-year-old fortification fell to invading United States forces in the War of 1812. Then it was rebuilt to become the main defence of Upper Canada.

In 1934 it was restored in time for Toronto's centenary celebrations. But it hasn't been touched since.

The fort now is the subject of controversy. Some history-conscious Torontonians charge the city with neglect.

The Imperial Order, Daughters of the Empire, has protested to Mayor Hiram McCallum, asking that speedy restoration be undertaken. Toronto newspapers have climbed on the bandwagon. The Globe and Mail says the whole establishment is in "a state of senile decay."

The paper warns that the ground was given to the city on the understanding that the fort be kept up. Failing this, all or part of the property—which it said includes "five-sixths" of the nearby Canadian National Exhibition grounds—could be repossessed by the crown.

The Telegram says renovation of the fort is on a priority list under care of Toronto's board of control. The paper recalls that three years ago the parks committee recommended improvements which would cost \$148,000.

Barring location—railway tracks, chimneys, all the business of Toronto's west-end industrial section surround it—the outside appearance of the fort is not unpleasant.

The lawn is green and neatly trimmed—even if it is dotted

with dandelions.

The buildings are tidy—even if they are musty and dirty inside.

**RAIDED IN 1813**

Standing there, in the warm summer sunlight, it's not difficult to imagine that day in 1813 when watchers first spied the white sails of American naval vessels bearing down on the small lakeshore settlement.

York was raided then and again two months later. But then work was begun on a stout, well-equipped Fort York. In 1814 when a U.S. fleet of 10 ships again attacked, it was driven off.

The old powder-house stands solidly near the centre of the fortification, its brick walls six feet thick. Here guides—if there were guides—could show visitors the window from which members of the King's regiment rolled the cannon-balls they needed.

But tourists seldom find their way to this out-of-the-way lake-front site. And this despite the fact that Fort York lies only four city blocks east of the entrance to the Canadian National Exhibition grounds.

A. G. Clarry, past-president of the United Empire Loyalist Association, would like one day to see CNE visitors include a tour of the fort as part of their trip to the "Ex."

Thousands of sightseers annually pay to inspect grounds and buildings at Fort George at Niagara-on-the-Lake.

Tourists pay admission and many buy souvenirs at Fort Henry, Kingston's historical site. Mr. Clarry believes the same could be done at Fort York.

**STURDY BLOCKHOUSE**

The blockhouse is sturdy in appearance despite its broken windows. But barred doors prevent the history-minded from entering.

Inside can be seen the stone "fire-step" where soldiers stood,

rifles raised through the slots above them, fixed on raiders beyond the stockades.

But the doors are locked because the floor has collapsed in one corner of the building.

Only a couple of structures are open to the public. One is the officers' quarters and another is the long, low brick house where married soldiers and their families once lived.

A sign describes this as the "Soldiers' barracks, built between 1814 and 1816." It adds: "The north portion of this building fell into decay and was removed."

In one room the UEL Association has arranged large cases containing life-sized figures garbed in the dress of the period.

Visitors should avoid stepping close to inspect the case with "Laura Secord delivering a message to Lieut. Fitzgibbon in 1813."

The floor bounces alarmingly. However, Mr. Clarry said there is no great cause for worry. Even if the floor should collapse a person "won't go down very far" because "the floor is almost on solid ground."

**GREAT CROPS**  
Brazilian farms in 1950 produced 66,000,000 tons of crops of all kinds, a gain of 3,000,000 over 1949.
