## ALUMINUM COMPANY AWARDS CONTRACT FOR CONSTRUCTION OF ROAD AT KITIMAAT

### Attlee Boosts Defence Program

LONDON (CP)—Prime Minister Clement Attlee announced today that Britain will call up 235,000 reserves for 15 days' training this summer. At the same time the Royal Air Force will recall 10,000 officers and men from its own reserves.

Attlee gave this information at the start of a statement to the House of Commons outlining the government's plans for defence against Communist aggression. He said Britain's defence forces will number 450,000 by April. The prime minister said the government does not believe war is inevitable but it believes it cannot be ensured unless the forces of the free world are sufficiently strong to deter an aggressor.

The expanded program will cost \$14,100,000 during the next three years, compared with the government's estimate of \$3,600,000,000 for the period ending September 30, 1950. The Royal Navy will call up 25,000 enlisted men and 600 officers for 15 months' service. The prime minister said the call-up will include men in aircraft command.

### Old And Fires Cause Deaths

TORONTO (CP)—Week-end fires in Ontario caused \$1,300,000 damage and killed 19 Canadians and caused 13 deaths. Eight of the victims were children. The fire struck at scattered points across the country during the height of a general mid-winter cold wave, a Canadian survey showed today.

### Old Weather Causes Floods

VICTORIA (CP)—Bloating rivers, which have cut Southern Vancouver Island highways and caused the evacuation of several villages, subsided at the week-end as temperatures dropped. Four continuous days of heavy rain and melting snow and high tides backed up into the mountains. Koksilah and Cowichan rivers which drain out to the lowlands near their mouths.

The worst trouble spot was Duncan, 40 miles north of Victoria where several stores and homes were flooded. Flood waters covering the area at various points between Victoria and Duncan froze, forming long stretches of ice-covered pavement.

Work succeeded in repairing the highway in the Canadian National Frasers Canyon 120 miles north of Vancouver. A rock slide had carried away a section of track Thursday, making a 30-foot deep. Flood waters receded after heavy rain in the lower Fraser Valley and about 30 miles north of Vancouver.

### More Coming Going

VICTORIA (CP)—The movement of 10 British Columbia families far exceeded the total of 540 families from other parts of Canada in 1950.

### NEW CEASE FIRE PLAN UP

#### BULLETINS

**WANT ATOMIC PLEDGE**  
WASHINGTON—Premier Flavin of France arrived in Washington today to seek assurances from President Truman that the United States will retaliate immediately with an atomic bomb in the event that Russian armies invade France. This was reported today. Flavin will be here until Wednesday when he will proceed to Ottawa. "The great purpose" of his visit "is to make co-operation between United States and France even closer than it is in every field within the Atlantic pact."

**TO ROLL BACK PRICES**  
WASHINGTON, D.C. (CP)—Price Chief Mischael Disalle said last night that "substantial rollbacks" in prices of a number of items will be ordered as soon as his agency can get around to it.

**FATAL SUDBURY FIRE**  
SUDBURY, Ont.—Three children were burned to death yesterday when fire, apparently caused by an exploding oil stove, destroyed their three-room home on the outskirts of Sudbury. The three victims were Jules Mathieu, aged 5; Gerald, 3, and Rita, two. The bodies were found in the bed in which they were sleeping when the fire broke out. Jean Guy Maythieu, the father, suffered burns on more than fifty percent of his body. His wife Therese, suffered shock and minor burns.

**SHIPS IN DISTRESS**  
NEW YORK—At least three ships are reported in distress today off the Spanish coast after encountering storms and heavy seas. The Panamanian tanker Janko and the British freighters Castledore and Hartlepool are damaged. The British tanker Taisman has broken in two.

**MANNERHEIM DEAD**  
LAUSANNE, Switzerland—Field Marshal Baron Carl Gustav Mannerheim, 83, Finland's national hero, former Premier and leader against Russia in two wars, died Saturday night in hospital. The old soldier, one known as the "uncrowned King of Finland," succumbed to heart failure after an emergency operation.

### OVERCOME BY GAS—Waterfront Workmen Partially Suffocated

Kenneth G. Bosworth, foreman for the Western Plywoods at Prince Rupert, and two employees of the company—Herb Chandler of Prince Rupert and Walter Solnik of Vancouver—are in Prince Rupert General Hospital this afternoon suffering from the effects of partial suffocation.

They were overcome by bilge gas in a log-carrying barge—the Griffon—which was loading at the Prince Rupert dry dock with cottonwood logs from Terrace for delivery to the company's mill at New Westminster. Chandler and Solnik had gone into the bilge to check the tanks for water. When they were overcome, Bosworth went in to start a rescue and himself was overcome.

City fire department and ambulance sped to the scene with inhalators as the men were hauled up to the pier by other workers. Doctors also were soon on the scene and proceeded to the hospital with the patients. According to early reports, Chandler was in the most serious condition.

### Red Crab Banned—Produced By Slave Labor

WASHINGTON, D.C. (CP)—Reports of slave labor in Russia have caused the first United States import ban against Soviet products since the two countries established diplomatic relations in 1933.

Department of the Treasury yesterday prohibited imports of Russian crab meat on the grounds that it is processed by "forced convict and indentured labor." United States tariff law forbids the import of anything produced by such means.

### Westview Pier Is Destroyed

WESTVIEW.—A \$400,000 fire, which raged for several hours Saturday afternoon, destroyed the government wharf, freight shed at this residential suburb of Powell River. Fire fighters prevented the spread to nearby oil storage tanks.

The Westview fire department was aided by that from nearby Cranberry Lake. A fire tug was sent down from Powell River. Origin of the fire is undetermined. The ruins were still smouldering today and it was feared a stiff westerly wind might cause it to spread. Firemen guarded against further outbreak.

The wharf was built in 1946. It was 400 feet long. A shift in the wind came just as the fire was threatening the gas storage tanks. This enabled firemen to get within fighting distance of the flames. Two hundred spectators, standing on the dock, cringed when flames and smoke broke through behind them. Some groped their way out of dense smoke while others waded to safety. With the destruction of the Westview wharf, it is expected coastal liners will be diverted to Powell River docks.

### Old Session Prorogues

OTTAWA (CP)—Parliament met briefly today and prorogued the special session which had been adjourned from last September after the general rail strike had been settled and after the government had been authorized to recruit a special army force for use in Korea or elsewhere.

The prorogation will be followed in twenty-four hours tomorrow by formal opening of a new session—a session that is expected to be lengthy because of the international situation and many complex problems will be stemming from it.

The government's program for the new session will remain a secret until the Governor-General, Viscount Alexander, reads the Speech from the Throne at the opening which is scheduled for 3 p.m. Eastern Standard Time (12 noon Pacific Standard Time) Tuesday.

### Atom Blasts Disturbing

LAS VEGAS (CP)—The third atomic blast in four days jolted this desert gambling town early yesterday and everybody who felt it agreed it was by far the strongest of the three.

The Atomic Energy Commission again shrouded its experiments in silence but residents of Las Vegas and the vicinity heard plenty. Some were rather irked about the whole business.

Yesterday's explosion, occurring about 6 a.m., was described as resembling two great thunder claps. Hundreds of witnesses beheld a tremendous white flash in the sky, closely followed by another flash, orange in color and not as bright.

The first test came last Wednesday night. The second occurred Saturday at about the same time as today's.

It felt as if the first two were simply build-ups for the Sunday punch. Windows were broken in one part of this city and burglar alarms set off.

### Further Indication Of Speeding Project

VANCOUVER (CP)—Work will start "almost immediately" on the construction of a 10-mile road into the site of the \$500,000,000 aluminum development in northern British Columbia. Word reached Vancouver Sunday that the Aluminum Co. of Canada has awarded a road-building contract to a Toronto construction firm.

The report said that British Columbia equipment and British Columbia workers will be used "as much as possible." The road will run inland from Kemano Bay to the Kemano powerhouse site in from Kitimaat.

### Communists Fight Again

TOKYO—Chinese Communists are fighting back again in Korea. United Nations forces had reached within ten miles of Seoul in western Korea today when the counter-attack started. It was described as the heaviest enemy offensive in the current phase of the fighting. However, official reports said that the attacks were being repulsed or contained by the Eighth Army which reported advances of up to three miles along the 40-mile western front.

The counter-offensive came after several days of slow and cautious advance for the United Nations across the entire Korean line. The U.N. gains had been carefully consolidated against the possibility of the counter-attack.

**DEATH IN FOX HOLES**  
Today Chinese Communists died fighting in their fox-holes in the mountains. They resisted to the bitter end the wary but seemingly relentless Allied advance.

Associated Press Correspondent Jim Becker reported 130 Reds killed on one hill alone. Only eight were captured. Air strikes and artillery raked enemy positions but United Nations infantrymen finally scrambled up the frozen hillsides to blast out the Reds with hand grenades and rifle fire.

### Red Envoys Restricted

WASHINGTON, D.C. (CP)—The United States today forbade the diplomatic representative of Hungary to travel beyond an 18-mile zone around the White House except by special permission.

The order is the second of that sort issued recently against the Soviet bloc states in retaliation for restrictions January 2, on movements of American representatives in Hungary.

## BASKETBALL

Tonight WRANGELL HIGH WOLVES vs Prince Rupert RAINMAKERS  
2nd game of series tomorrow night (Tuesday). Same time! Same place!  
CIVIC CENTRE 8:30 p.m.  
Tickets 50c and 75c

An independent daily newspaper devoted to the upbuilding of Prince Rupert and Northern and Central British Columbia.

Canada The Peacemaker

IF A SETTLEMENT in the Korean situation should be reached soon it could well be that Canada may be thanked in large measure for its part in the negotiations.

Canada may not be large in numbers. Her possibilities of actual war-making may not be great.

Letting "George" Do It

PRINCE RUPERT should be having skating these days on the centrally located and already partly prepared Gyro Ball Park site at Sixth Avenue and McBride if there was just the leadership to get the small amount of remaining preparatory work done.

Ambitious ideas have been expressed during recent days about the desirability of a skating and curling arena in Prince Rupert.

The trouble is that, in many things like this, there is a tendency to "let George do it."

Aneurin Bevan's Job

THE IMPACT of rearmament on British life is illustrated at the political level by the changes in the Attlee cabinet's "backfield."

In Britain, as in other lands, the need to re-create a military balance of power as between East and West has forced hard choices upon the people.

British labor must now face sacrifices and tolerate direction by government somewhat as it did during wartime.

Scripture Passage for Today

"Through covetousness shall they with feigned words make merchandise of you."—2 Peter 2:3.

Rev. E. A. Wright, D.D., left minister into the pastorate of the last night on the Chilcotin for Vancouver, where he will be inducted by the presbytery of West-

As I See It

By ELMORE PHILPOTT

LAND OF CONTRASTS

LONDON.—Here are a few items which tell their own story of Britain in 1951:

- 1. The carcass meat ration is to be cut from 10 pence to 8 pence within a month... 2. The bed shortage in London hospitals is so acute that authorities admit that only one of three emergency cases can gain admission.

THE MEAT SITUATION here is really grim.

You can't really compare the British ration with what we buy in Canada, for food prices are subsidized by the government.

But the broad fact is that the British people are getting less than a dime's worth of meat per week.

More people with titles is what Canada needs more than anything else, says the Recorder, an English newspaper.

WHY SHOULD Britain have to depend on beef from the Argentine?

It's a long story—but in the end it comes down to this: At the beginning of this century, the British flag flew over about a fifth of the people of the human race.

Notwithstanding the world wars of the first half-century.

January 1, 1951, saw the British world kingdom still covering immense areas, like Candy, capable of doubling, tripling or even quadrupling basic food production.

THE SHORT RANGE cause of the near meat famine in Britain is the breakdown in the meat negotiations with Argentina.

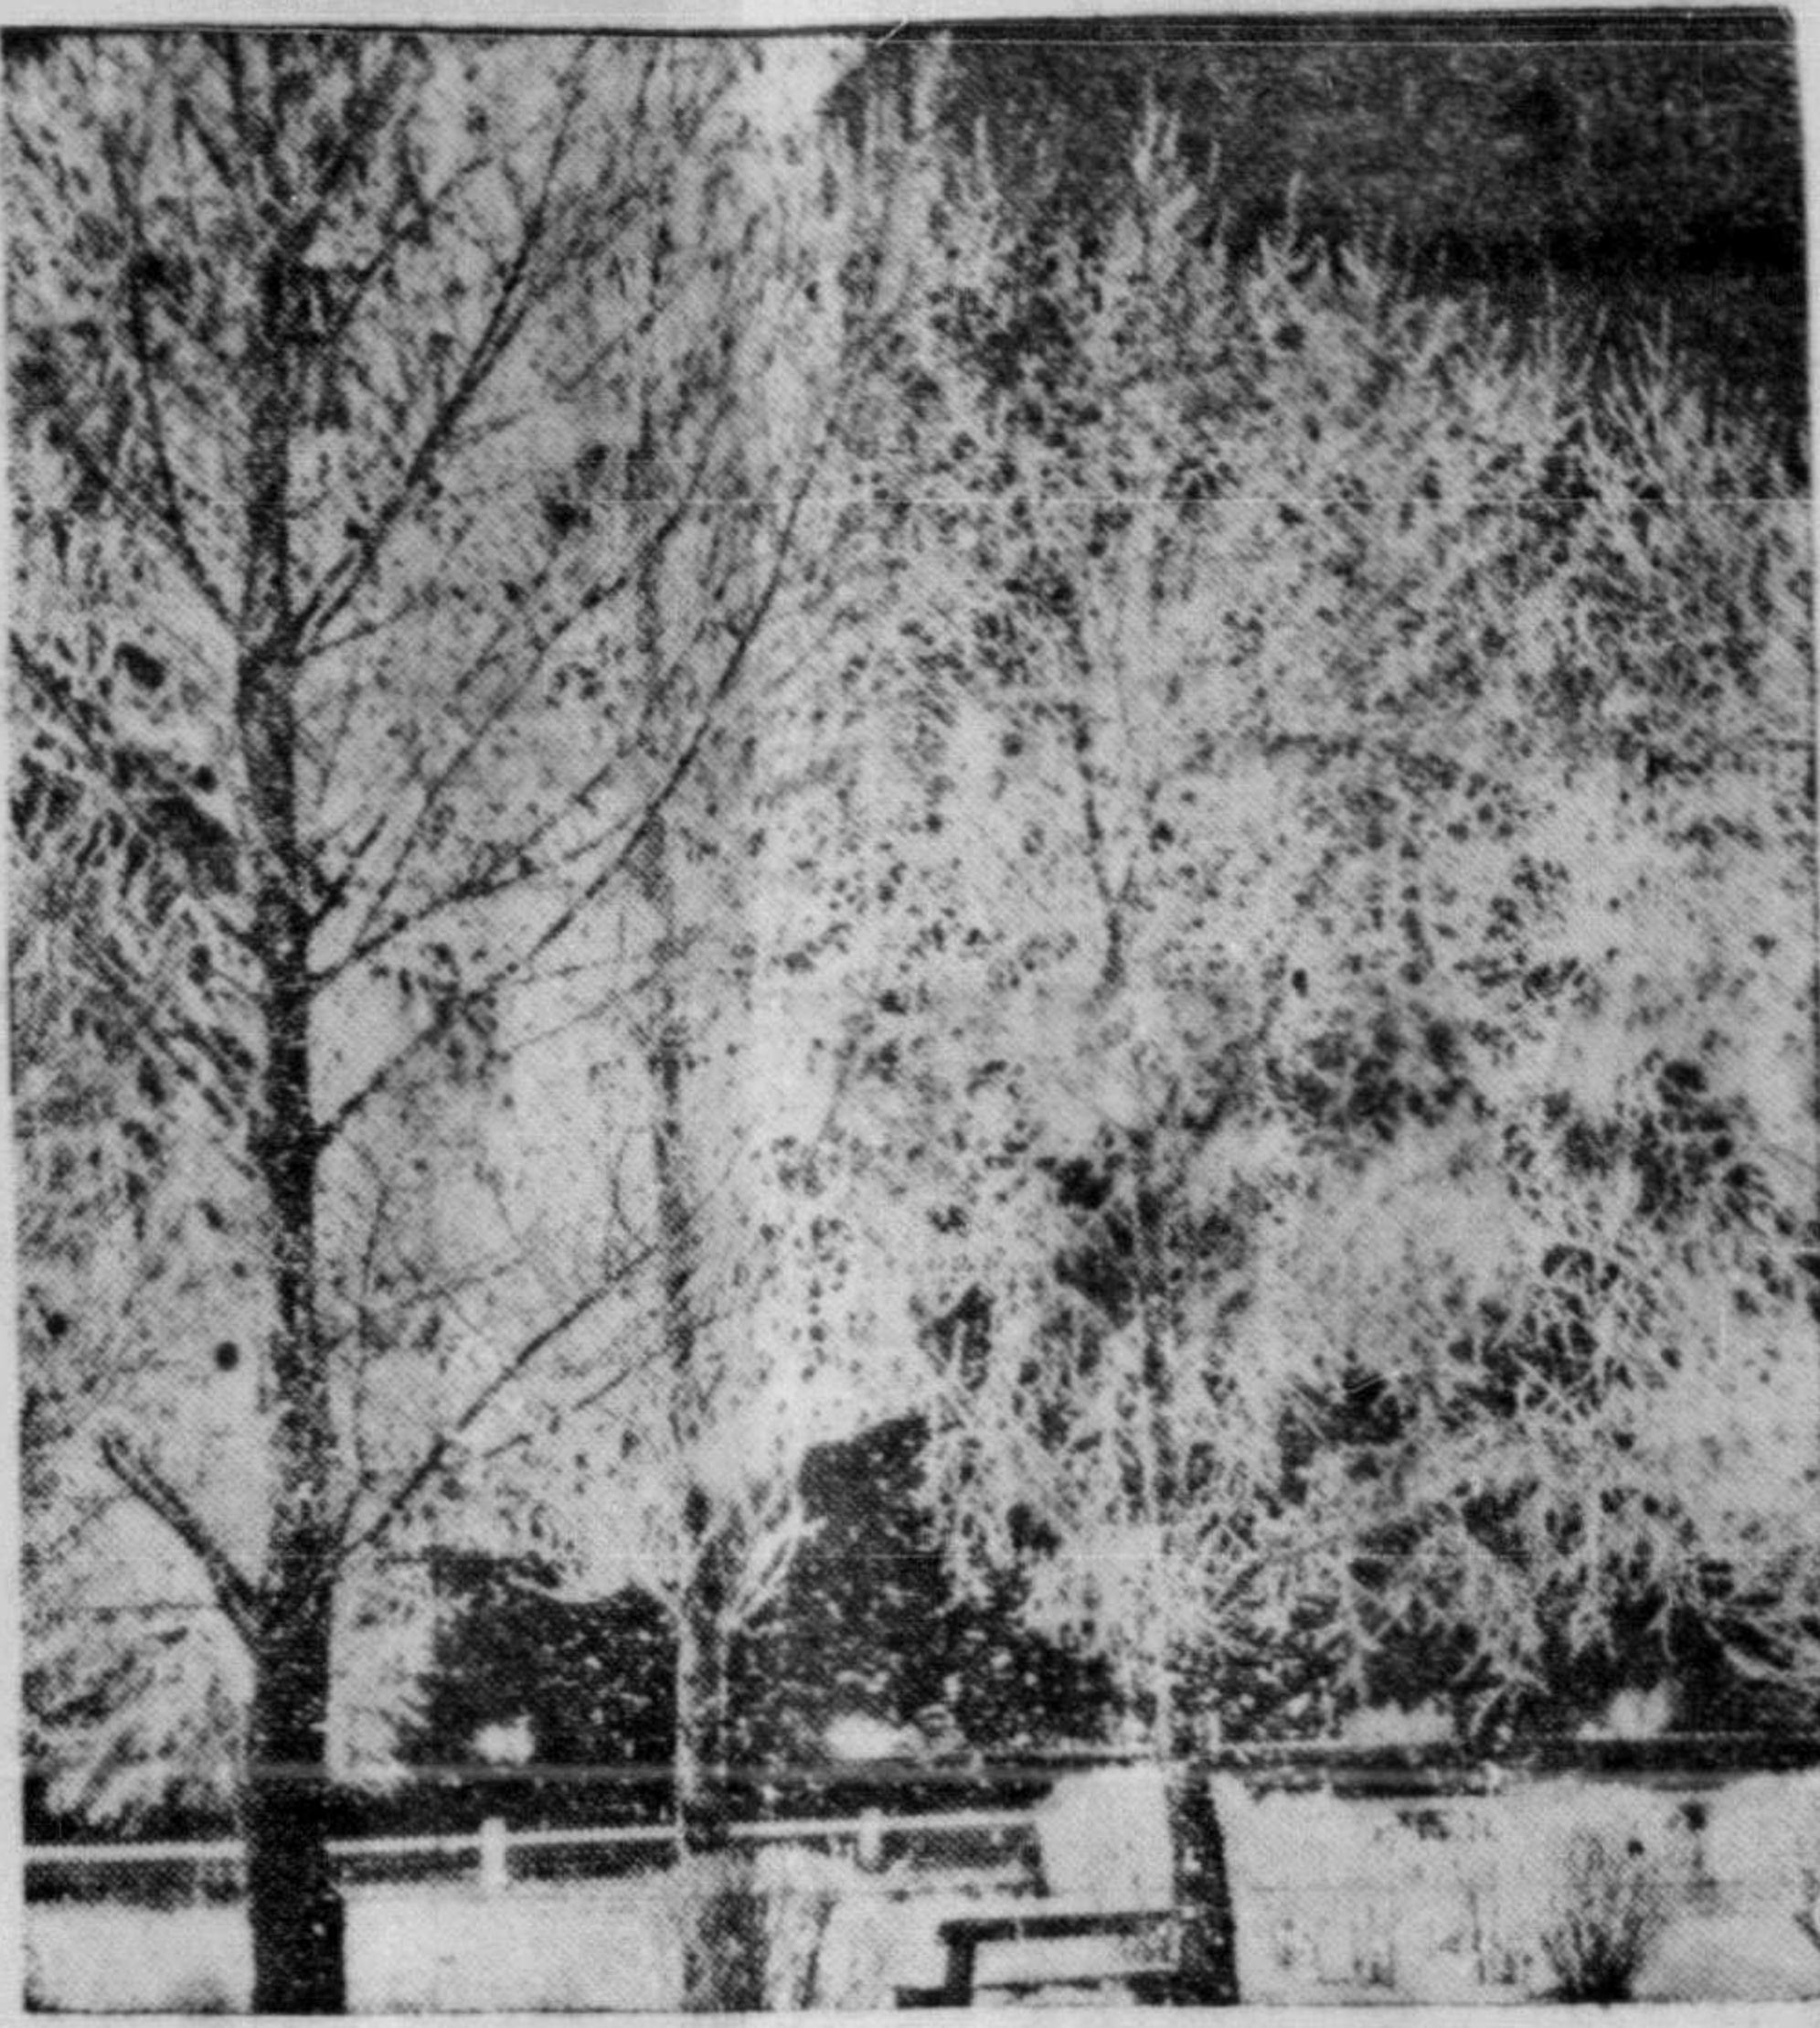

Thanks to our ancestors who, for countless centuries, ate generously, when they could get it of beef, mutton, bread, butter, eggs, pork and other food which tasted good to them.

There are more Prince Rupert folks wearing wooden soles on their shoes and boots than one thinks.

TODAY IN FRONT of a London jewelry shop I saw a big sign reading: "We pay 69 shillings for sovereigns."

Daily Health Hint

Immunization is the first line of defence against such communicable diseases as diphtheria, whooping cough and smallpox.

WINTER HANDIWORK—These lace-like, frost-laden trees were photographed on Calgary's North Hill.

RAY... Reflects and Reminisces

More people with titles is what Canada needs more than anything else, says the Recorder, an English newspaper.

Tact is the art of showing that you don't dislike a person as much as you do.—EX.

Prince Rupert has been promised by no less an authority than the postmaster general the early start of a mail delivery.

It was when the voice of Ald. Kirkpatrick was first heard in Prince Rupert that the usefulness and necessity of a ladies' rest room at City Hall was advocated.

There are more Prince Rupert folks wearing wooden soles on their shoes and boots than one thinks.

Thanks to our ancestors who, for countless centuries, ate generously, when they could get it of beef, mutton, bread, butter, eggs, pork and other food which tasted good to them.

For Action, Advertise!

Rent Control Lively Issue

OTTAWA.—Only three of the Canadian provinces have taken action to keep rental controls alive when the federal government abandons them April 30.

A fourth province—Newfoundland—is an exception, since it had its own rental controls in effect before it united with Canada in 1949 and still has them in operation.

A survey by Canadian Press in provincial capitals indicates that only in Quebec, Alberta and Saskatchewan have provincial authorities taken legislative steps to continue rental controls.

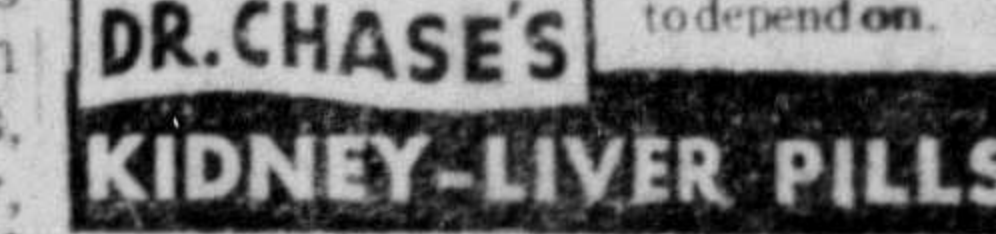

Other provinces either have no intention of entering that field or appear to be waiting to see whether the federal government might decide to extend the life of its controls.

However, authorities have given no indication they plan to seek continuation of their ceilings, despite the inflationary pressures building up in the wake of the country's expanding program of preparedness.

THIN CIRCLE A typical atoll, Bikini in the Pacific, has a land area of 2.87 miles and a lagoon of 280 square miles.

WRONG FISHING SYSTEM

Editor, Daily News: We are killing the British Columbia salmon fish off, by allowing the wrong fishing system.

We trollers make our money on the three year old fish. When the spawn fish come in they are not biting.

The big seiners come and corner the spawn fish and scoop them up by millions.

Cut the seiners off for the next four years and we will get our salmon fish back.

**Kispiox Wedding Is Pretty Affair**

Kispiox United Church was the setting of a very pretty wedding recently when Gloria Louise, eldest daughter of Mr. and Mrs. Jeffrey Harris of Kispiox, was united in marriage to William Blackwater, son of Mr. and Mrs. James Blackwater, also of Kispiox.

The bride, who was given in marriage by her father, was beautifully gowned in white net over taffeta, with a floor length veil flowing from a halo head-dress. She wore elbow length gloves. Her ensemble was completed by a lovely bouquet of pink roses and lily-of-the-valley.

The maid-of-honor was the bride's cousin, Miss Margaret Harris, who wore blue nylon sheer over taffeta with a corsage of carnations. The Misses Barbara Harris, Mabel Blackwater and Ruby Green were the bridesmaids and wore pink organza, white taffeta and pink taffeta, respectively, with corsages of pink carnations. Little Miss Vina Joy Morrison was the flower girl and was pretty in a white outfit. Miss Vivian Muldoe, in pink taffeta, and Miss Clara Johnson, in white taffeta, acted as train bearers.

David Blackwater performed the duties of groomsman to the bride. The ushers were Walter Harris, Robert Stevens, Bobby Stevens, Walter Blackwater.

Mrs. Harris, mother of the bride, was gowned in navy blue crepe-de-chine with a cortage of pink rosebuds.

Mrs. Blackwater, the groom's mother, wore a gown of royal blue.

Rev. Matthews of Two Mile performed the marriage ceremony and Leonard Leighton presided at the organ. During the signing of the register "I Love You Truly" was played.

Following the ceremony there was a banquet and wedding dance at the Kispiox Community Hall. The beautiful three-tier wedding cake was topped by a miniature bride and groom under a wedding bell.

Mr. and Mrs. Blackwater were the recipients of many lovely and useful gifts which were displayed at the home of the bride's mother.

**HMCS Chatham Open Sunday**

There was a fair turn-out at HMCS Chatham yesterday to see the authentic United States naval film "Our Fighting Lady."

The film depicted an honored aircraft carrier in action during the second world war. There were many scenes of action during battle and bombing and strafing missions which were taken from planes actually in the raids or battles. Japanese suicide pilots are shown diving right in on ships with their deadly loads.

People seeing the films were impressed with the grim realities of modern warfare.

It was open house at HMCS Chatham and the drill hall and other premises, together with training equipment, were open for inspection.

# Gardening....

## ELECTRIC HEATED HOTBED IS NEXT BEST TO GREENHOUSE

Many of the advantages of a small greenhouse may be enjoyed by the amateur gardener who equips his cold frame with an electric heating cable. Cables and thermostats are now obtainable at less than the cost to a craftsman of suitable manure, and he is able to find it.

Current used for heating depends upon the insulation of the frame and how early in the season heat is turned on, but it adds an important amount to the light bill. Advantages are many. There is a much more even heat, which is beneficial to all plants and vital to those that chill easily. It gives a longer growing period, since the heat does not become exhausted, as does heat from manure, which sometimes fails before the outside temperature rises.

A frame is constructed in the normal pattern as used for both hotbeds and cold frames, but there is no need to prepare a hot pit such as is necessary when manure is used to supply heat.

The frame is sunk in the ground about six inches. Soil is

removed within it to an equal depth, and the cable is arranged on the bottom in loops, so that heat will be evenly distributed. The supply wire and cable are both connected to a thermostat, which can be set at the desired minimum temperature, so that as soon as the thermometer falls to that point heat is turned on.

When temperature rises a few degrees above the minimum, heat is shut off, and the variation between maximum and minimum temperature is much less than with the old-fashioned method.

The heating cable is usually covered with three to four inches of soil. It is a good idea to place a sheet of fine meshed poultry wire an inch above the cable, with soil between. Another method is to grow plants in flats, which are placed on a grating just above the heating cable, which is not buried in soil, and thus is always open to inspection. To improve insulation and reduce current consumption, the frame should be banked with cinders, which are covered with soil, to within a few inches of the top.

## Civic Centre Used By Many

There were 5332 events attended by 214,447 persons in Prince Rupert's Civic Centre during the year 1950 as compared with 6934 events and attendance of 216,533 in 1949, according to the annual statistical report.

There were 1758 events during the year in the gymnasium with attendance of 65,349 while the auditorium had 282 events with attendance aggregating 31,850.

Meeting and craft rooms had events with attendance of 10,000.

Basketball had 338 participants compared with 289 in 1949. Badminton had 245 participants compared with 290.

There were 449 participants in Ping-Pong compared with 437.

Craft activities drew 336 persons against 221.

Special groups—square dancing, symphony orchestra, band, Little Theatre, camera club, film and bridge club—had 403 participants compared with 215.

Ninety-nine persons made use of the Civic Centre building facilities during 1950.

## Funeral of Mrs. Kilby Thursday

Arrangements are being made for the coming Thursday afternoon for the funeral of the late Mrs. Nellie Harlan Kilby who passed away suddenly last Friday at her home at Cow Bay.

Mrs. Kilby had been a resident of Prince Rupert since 1924 and had been engaged in the hair-dressing business. She was well known in the district as far as Terrace and had many friends who will regret her passing. She had spent the summer for several years on her farm at Remo.

Deceased was born in Roumania but came to Canada at the age of one year with her parents and lived in Winnipeg until she was seventeen years of age when she came to British Columbia.

Mrs. Kilby leaves to mourn her passing her husband and two nieces—Mrs. A. K. (Iris) Nelson and Mrs. Fred (Mary) Green and also a nephew, Roy Boychuk, all of Prince Rupert. There are also two brothers, a sister and nieces and nephews in Winnipeg; one brother and nieces and nephews in the United States and a niece in Vancouver.

## "Come On In! We've just put the kettle on for tea"

Take a few minutes out for refreshing afternoon tea. Then resume your task—cheered, relaxed!

Have it every afternoon at home or in any restaurant.

**TEA TIP:** Experts recommend one teaspoonful of tea per person and "one for the pot".

Your Friendly Pick-Me-Up

## Hazelton Mines Make Progress

### Dr. Mandy Predicts Early Production on American Standard

Operations on the American Standard Mines Ltd. property on Nine Mile Mountain near Hazelton, have made excellent progress since they commenced about the end of September, according to a progress report by Consulting Mining Engineer, Joseph T. Mandy, M.E., Ph. D. The definitely encouraging results indicate that production from this property may be achieved earlier than was originally estimated.

Construction has been completed, equipment and machinery purchased and installed and a well organized and managed operation is proceeding with a crew of 10 men on a two-shift basis. Underground work commenced about the end of November in two faces—No. 3 adit drift on No. 3 vein and No. 1 adit drift on No. 1 vein.

The report continues: The results of this work are definitely encouraging with No. 3 vein showing good strength and mineralization across a width of 1 foot at the face, 133 feet from the portal, and No. 1 adit intersecting No. 1 vein showing a width of 2 feet at 56 feet from the portal. The drifts on No. 1 and No. 3 veins are proceeding.

The second level workings off No. 4 shaft, at a depth of about 170 feet from the surface, have been made accessible for examination. At this horizon No. 4 vein shows very encouraging strength, width and mineralization with galena, zincblende and some grey copper. It is now practically certain that the ore-shoot indicated in this vein between the first level and surface at No. 4 shaft, continues with increased strength, width and mineralization too, and below the 2nd level. This will more than double the ore-shoot tonnage estimated in this vein during my examinations in September 1950. Sampling and mapping of the entire No. 4 shaft workings is proceeding.

No. 1 vein shaft-workings (No. 1 and No. 2 shafts) have also been entered and examined by the management. In these workings a strong, wide and well mineralized structure is reported in No. 1 vein that more than sustains the surface showings and strongly indicates the occurrence of an important ore-shoot in the No. 1 and No. 2 shaft area. No. 1 adit drift on No. 1 vein will enter this area at a depth of 115 feet below the collar.

The work on the American Standard property is being conducted under the local management of Lisle B. Gatenby, P. Eng.

Edmonton's building boom reached a record of nearly \$46,500,000 in 1950, or \$6,000,000 higher than 1949.

Johnny Sims, who has been on a southern run with Union steamships for the past few months, is now on the steamer Camosun for the Stewart run. For a while last year, he was a member of the Daily News staff.

## Heads Burns Lake Board

BURNS LAKE.—At the annual meeting of the Burns Lake and District Board of Trade in the high school building, with J. S. Brown in the chair owing to the absence of President Rudolf F. Bourque, the season's activities were reviewed and showed a year of satisfactory achievement.

In the election of officers for 1951, Charles W. Beck was elected president; T. Ray Cullinane, vice-president; Victor A. Montaldi, secretary; and Douglas G. Boyd, treasurer.

## Burns Lake Burns Night

BURNS LAKE.—The Burns Lake Elks Lodge staged a "Rabbit Burns" concert and dance at the Community Hall on the night of the anniversary of the birthday of the Immortal Bard.

Piper Peter Burt piped in the haggis, borne aloft by Robert Homewood, both in full Highland costume. The Ramblers Orchestra contributed splendid music for the dancers with Mrs. Margaret Howell as accompanist for the singing of Robert Homewood in his rendering of "My Heart is at Loch Lomond." He responded to an encore with "Annie Laurie."

J. S. Brown sang "A Wee Doch an' Doris" and responded to applause with "Roamin' in the Gloamin'." He also recited "The Ode to the Haggis," followed by Walter Wilson with the "Selkirk Grace."

During the supper intermission, Mr. and Mrs. Munroe of Decker Lake showed an appreciative audience how the Highland schottische should be danced to the music of Piper Burt and the piano accordion of Mr. Witt.

Stone; James Pimsol, Australian U.N. representative who presented the flag; and Maj. J. Firth of Toronto. (CP PHOTO)

**20 Brownies Are Enrolled**

Last Thursday evening, Commissioner Honora Silversides visited the Third Prince Rupert Guide Company and the Second Prince Rupert Brownie Pack (Conrad Street Groups) and enrolled twenty little girls as Brownies.

After each Brownie had made her promise and received her pin all the Brownies joined in a "Grand Howl" for the Commissioner and then a "Grand Howl" for the new Brownies.

The Brownies enrolled were Gail Davidson, Diana Davidson, Verna Robinson, Ruth Chandler, Georgina Goldby, Audrey Barton, Yvonne Smith, Sharon Relant, Jacqueline Halliwell, Sharon Kilz, Ann McDonald, Patsy Pearson, Diana Perch, Carol Laviolette, Marie Dvornak, Barbara Dodd, Carol Judd, Lorraine Smith, Sharon Peket and Blanche Guradette.

Following the investiture, two Sixers took leave of the pack in a very interesting ceremony. Brown Owl, in a few simple words, wished the Brownies success as they left the pack to join the Guide Company. The Pack gave their Sixers a "Grand Howl" then Heather Stevens and Genevieve Powers walked to the Guide Company where they were welcomed as new members.

**Skiers Out Injuries Too**

A perfect skiing day was marked yesterday afternoon when Archie McLeod received an injury which required his hospitalization. McLeod, one of Prince Rupert Ski Club's best skiers, sustained a severely bruised hip.

The top of Hays Mountain was alive with new and old members enjoying the bright sunshine and fine powdery snow.

The club's ski tow was used extensively by all club members, who consider its use make possible double the actual skiing time.

**Cold Snap Continues**

Saturday morning's low of 15.5 remains the low temperature for the season.

Last night the thermometer at Digby Island weather station hit a low of 18 degrees. Lowest point reached Saturday night and Sunday was also 16 degrees.

The highest point reached by the mercury over the week-end was 35.9 at 4 p.m. yesterday.

**Railwayman Is Retiring**

VANCOUVER — Colleagues of M. T. "Mike" Abrahamson, honored him at a presentation ceremony in the CNR station here Saturday on the occasion of his retirement as roadmaster of Canadian National Lines between Vancouver and Boston Bar. The beloved veteran, a native of Norway, was employed by the railway and one of its early builders, during the past 45 years.

During his long career, "Big Mike," as he is popularly known, has had some tough experiences, particularly when nature and weather were at their worst. He has, with his men, won some grim battles, an outstanding example being the fierce snowstorm which blocked the Fraser Canyon for 10 days last winter.

Starting out as a section laborer, at age 17, with the Canadian Northern at Warrad, Minnesota, Mr. Abrahamson later worked in Manitoba and Saskatchewan on various jobs, including extra gang foreman; and relieving roadmaster. He moved to B.C. in 1913 with construction forces building the main line through to Vancouver, completed in 1915. He has been roadmaster at CNR main line points in B.C. since 1926, taking over the Vancouver-Boston Bar section in 1944.

**Timely RECIPES**

**MINTED ICE CREAM**  
2 teaspoons plain gelatin  
1 1/2 cups apricot whole fruit nectar  
1/2 cup granulated sugar  
1 teaspoon grated orange rind  
1/2 cup orange juice  
1 1/2 cups table cream  
3 to 4 drops mint extract  
Soften gelatin in 1/2 cup nectar and dissolve over hot water. Blend in remaining ingredients. Pour in refrigerator tray, place in freezing compartment with control set at lowest temperature, and freeze until firm. Turn into chilled bowl and beat with rotary beater until light and fluffy. Return to freezing compartment and freeze to desired consistency. Reset temperature control to normal.  
Makes about 1 quart.

**Native Council At Metlakatla**

Councillors elected by the Metlakatla band of Indians last week were Alvin Leask, William Leask, Pete Leighton, Cecil Ryan, Matthew Leighton and Robert Nelson. A meeting of the council will be held January 31 to choose the chief councillor. Nominations at Port Simpson were January 25. Elections will be held there February 5.

The election at Kincolith was January 26 but results had not yet been obtained by the local office of the Indian Affairs Department this morning.

Due to the difficulty of transportation, the results at Aiyans and Greenville will not be known until the next mail comes from there.

**Robert Taylor's Unusual Role**

Robert Taylor, once the heart-throb of screen romances, plays an unusual role in a proud Shoshone Indian in an outdoor drama of the early western days, "Devil's Doorway," which shows this Monday and Tuesday at the Capitol Theatre.

The story of the post-Civil War period tells of the courageous but hopeless stand of the American Indian against the westward march of the white man. Central figure is Taylor who returns from the Civil War to find his homeland being pre-empted by the white men who are not only hungry for land but hold the Indians in contempt.

**Study Skagway Aluminum**

WASHINGTON (AP)—A House Judiciary subcommittee, studying the defence program for expanding the nation's aluminum production, will be asked to look into possible development of the Taiya aluminum project near Skagway, Alaska.

The request will be made by Representative Tollefson (R-Wash) and Delegate Bartlett of Alaska to the group headed by Representative Celler (D-NY). This committee is inquiring into the possible monopolistic tendencies in the expansion program and specifically into a recent agreement under which the country would help increase Canada's aluminum production. The Taiya hydroelectric project would cost about 300 million dollars, produce 755 million lbs. of aluminum annually and support a community of possibly 2,000 persons, officials have said.

**INDONESIA'S TWO TUNNELS**  
It involves tapping the headwaters of the Yukon river by means of two tunnels, bored through the coast range of mountains to empty into the Taiya valley in southeastern Alaska, where the plant would be established.

The Alaska development board in a letter to the two congressmen said the project's possibilities have been under consideration by the Aluminum Company of America since 1947. The board said it has learned that Alcoa is prepared to undertake the project "if granted governmental assistance comparable to that which is suggested by the Aluminum Company of Canada" in connection with its proposed development at Kitimaat, British Columbia.

**CONTRACT WITH U.S.**  
"We are advised," wrote George Sandberg, board consultant, that the only thing that makes possible the construction of Kitimaat development is a contract negotiated between C.D. Howe, Canadian Minister of Trade and Commerce, and Charles Sawyer, U.S. Secretary of Commerce, for the future purchase by our government of 500,000 one billion pounds of aluminum.

necessity of getting Canadian permission to divert a portion of the Yukon river waters from the Yukon territory and northern British Columbia. Sundborg said any agreement for the purchase of Canadian aluminum should be preceded by an agreement guaranteeing the necessary water rights to make the Taiya project possible.

Frank Waterhouse freighter Island King is due in port tonight with two logging trucks for Columbia Cellulose Company, six Hillman automobiles and an Austin truck. She will also off load 75 tons of freight. The Island King will then proceed to Watson Island to deliver 3,000 sacks of cement and other building supplies. From there she goes to Alice Arm with supplies and to Stewart to pick up her full load of 300 tons of zinc concentrate and 400 tons of lead concentrates.

Part of the United Nations declaration of human rights is incorporated in Indonesia's new constitution.
