PRICE FIVE CENTS

Provincial Tax Sale Realized \$1896.90

Over five hundred parcels of land were redeemed before sale commenced; Everything at Stewart was sold or redeemed

A provincial tax sale was held in the government offices this morning. Of over 550 parcels on the roll over two hundred were redeemed before the date of the sale. There are about 100 parcels to be disposed of at this afternoon's continuation of the sale which began at 2 o'clock.

At this morning's sale the large majority of the offerings went back to the government for the amount of the taxes, but there was brisk bidding in some sections. The sale included properties from all over the district but the most activity was in the sale of farm lands near the river.

K. Gordon, of Terrace, bought a one-acre tract at Terrace for \$170, the delinquent taxes being \$36.70. Williams & Manson bought \$101.97 for 158.9 acres on the Lake next to the hatchery which there were \$20.97 taxes. Mr. Sequin paid \$90.57 for parcels at Kitimat against which there was a balance of \$42.91 taxes. D. McIndale bought three parcels and at Terrace for \$210.95, delinquent taxes being \$47.95. Total realized from the public sale at the sale this morning \$1,896.90.

The property of real agricultural value was quickly picked up by the buyers. The property being returned to the government was property that which had originally been held by speculators. All property offered from Stewart was sold or redeemed with the exception of half a lot.

NOMINATIONS IN ONTARIO
 H. H. Dewart, K.C., M.P.P. Chosen in Southeast Toronto and Ramsden in Southwest.
 (Special via G. T. P. Telegraphs.)

Toronto, Oct. 9.—H. H. Dewart, K. C., M. P. P., for South East Toronto, Liberal leader in the Provincial House, was renominated by the Southeast Toronto Liberals last night at a large and enthusiastic convention.

Captain Jack Ramsden, M. C., son of Alderman Geo. Ramsden, was nominated as Mr. Dewart's running mate in Southwest Toronto.

CHARGE OF DRILLING ON ECSTALL RIVER
 Granby Engineer Says a Number of Men Are Employed in Exploration Work.

V. H. Todd, the Granby Company's engineer, who arrived in the city on Tuesday night, is in charge of the diamond drilling operations on the Ecstall River about thirty miles south of Port Essington. Mr. Todd says that there are a number of men employed there at the present time on the exploration work, but it is expected that the work will have to close down in a few weeks' time, when the winter sets in.

There are some very promising indications on the Ecstall River and the Granby Company, it is believed, will start operations on a large scale.

SOLDIER OPERATOR OFF TO UNIVERSITY
 Frank W. Dowling Here on Short Visit En Route to Vancouver.

Frank W. Dowling, son of Superintendent Frank Dowling of the Government Telegraphs, has just returned to the city after spending the summer on the Yukon Telegraph trail north of Hazelton.

Frank is looking well and full of color after his summer in the wilds. He was about a hundred miles over the trail and is now on his way to Vancouver where he will continue his studies at the University of British Columbia. He comes under the special training courses for returned soldiers as he spent two years in France with the 102nd Battalion and was seriously wounded.

GOLD OUTPUT ABOUT \$250,000

Lack of Labor Cause of Decrease From Usual \$400,000 in Atlin District.

FRANK MOBLEY TELLS OF SEASON'S WORK

That the Discovery Mining and Power Company's hydraulic mine at Atlin took out about \$25,000 of gold this year was the word brought from Atlin yesterday by Frank Mobley, M. P. P., the owner of the mine. There have been sixteen men employed there all summer and it is easy to see that, deducting the cost of operating, the total profit from this mine has not been very large although it has shown a profit. This mine is on Pine Creek.

The total gold output from Atlin this year, Mr. Mobley says, will not be more than \$250,000, which is a considerable falling off, as the usual output is about \$400,000. Lack of men is the reason for the small output this year. There are about 150 men working mostly on Spruce Creek at drift mining and the total population this year would number only about 400.

Mr. Mobley says that the Engineer Mine, a quartz proposition, has been tied up following the drowning of Capt. Alexander and his wife on the Princess Sophia last autumn and the shooting of his heir at Pittsburg later. This has unsettled the affairs of the concern and the result has been that no work has been done this year. It is a very rich property and will most likely be working next year.

The tourist trade has been heavy this year, thousands of people going into the country from Skagway.

On September 19 there was a bad washout on the White Pass Railroad when half a mile of the track was carried away and the line was tied up for ten days. This interfered somewhat with getting supplies into the country for the winter. There was heavy snow at Skagway before they left so that it may be impossible to keep open the communication with Atlin very long.

Mr. Mobley did not make a very long stay in the country this year as he was afraid of being shut in.

PROHIBITION COMES BEFORE GOVT. CAUCUS

Government Bill Was Introduced By Hon. C. J. Doherty Without Notice.

(Special by G. T. P. Telegraphs.)

Ottawa, Oct. 9.—A Government caucus has been called for today to consider the prohibition legislation introduced in the Commons by Hon. C. J. Doherty, Minister of Justice. The rules of the House were suspended to allow for the immediate introduction of the bills without the usual notice, and it was presumed that they would be gone on with today.

PECK EXPECTED AT BIG DINNER

Reunion of 10th Canadian Scottish To Take Place at Victoria.

(Special by G. T. P. Telegraphs.)

Victoria, Oct. 9.—Lieut.-Col. Peck, V. C., will preside at a big reunion dinner to be given at the Empress Hotel on October 28 by the members of the Canadian Scottish battalion who are at present in British Columbia. Tickets are already being sold for the event and it is expected to be one of the important semi-military events of the season. A number of prominent local artists have been engaged for that evening and all ex-members of the 15th Battalion are asked to try to make a point of being present.

Cincinnati Reds Take Eighth Game and Are Champs

Beat Chicago today by score of 10 to 5 amid the plaudits of a cheering throng, making five to three in series

(Special to The News via G. T. P. Telegraphs.)

Cincinnati, 10; Chicago, 5.
 Cincinnati, October 9.—Cincinnati won the world series of baseball games today and is today the champion ball team not only of America but of the world.

To say that the immense crowd watching the game was excited is stating the case much too mildly. The fans went crazy as the final innings was completed and it was realized that Cincinnati has indeed beaten their big rivals, the White Sox of Chicago.

The game was a sloppy one, Cincinnati making 16 hits and two errors. Chicago made 10 hits and one error.

STARTER'S BONUS TO COVER WEEK FROM DATE OF ENTRY

Anyone wishing to enter the Daily News Prize Contest for subscriptions can take advantage of the special starters' bonus any time within the next few days, as the ten dollars will be paid to anyone getting ten new fully paid yearly subscriptions within one week of the time they enter the contest. This bonus is in addition to all other prizes, bonuses or commissions, particulars of which are given on Page 2.

Out of town subscriptions count just the same as city subscriptions insofar as the special bonuses are concerned.

There is yet a good opportunity for another good convasser to enter the lists and also contestants at outside points. At points outside the city where a good canvasser is made, special district prizes will be given, particulars of which will be announced later. Anyone who works well and gets results is bound to have a good reward under the Daily News plan.

Puget Sound Boats to Ply from Rupert

Liberty and Vansee arrived here this morning and others to follow and fish in northern waters; shipping catches from Prince Rupert.

Two large halibut boats belonging to the Puget Sound fleet arrived at the fish wharves this morning with about 20,000 pounds of fish each. These boats, the Liberty and the Vansee, are about the largest independent fish boats seen here this season. They have come north from Seattle fishing the Hecate Straits grounds on the way and will not go south again for some months. They will proceed to the northern banks and will come into Prince Rupert every two or three weeks with their catches which will be put up by the local fishery concerns and shipped direct to the big eastern cities such as New York, Chicago and Boston.

It is expected by the officials of the local fisheries that many of these larger boats will be calling here in the next few months to dispose of their catches. In the summer all these American boats land their catches in Seattle, as they fish on the grounds off the mouth of the Columbia River, Cape Flattery and Vancouver, which is more convenient to Seattle than here. But in the winter the halibut move from this vicinity and are to be found in the more northerly grounds in the neighborhood of Yakutat, Sumner and Icy Straits, as well as other well known northern localities. When the boats are fishing so far north the catches are brought in here and unloaded. The boats also obtain their oil and other supplies at this port.

The halibut spawning season begins about the middle of November, but these fish do not have the same protection during the spawning season as the salmon. Until very recent years the halibut have been so plentiful that no measures have been deemed necessary for their preservation. However, the results of the free fishing of this valuable sea product is now beginning to show its results, as the fish are already becoming less plentiful. Although this past summer season has been better than for some years, yet fishing authorities state that if they are fished at the present rate with no close season, in ten years' time the fisheries will be almost depleted. A law has been passed by the United States Government making the months of December and January close months for halibut fishing. These two months are the most important ones because at this time the fish are in spawn. However, this law is not to be put into effect until the Canadian Government makes a similar one. Many Canadian fish companies are against a close season at the present time, but the problem is a very serious one and while it is being argued and discussed there is the grave danger that one of the most important industries may be almost wiped out.

THREE KILLED MANY INJURED
 Property Damage Amounts to Between \$200,000 and \$300,000.
 (Special via G. T. P. Telegraphs.)

Great Bend, Kan., October 9.—Three persons were killed and between fifteen and twenty injured, some seriously, and property damage estimated at between \$200,000 and \$300,000 was the toll taken by a tornado which today struck the little town of Hoisington, north of here.

The dead are Mrs. Geo. Craven and her two children.

YESTERDAY'S GAME GOES TO CHICAGO
 By Score of Four to One the White Sox Put It Over the Cincinnati Reds.

By a score of four runs to one Chicago White Sox won their third game against Cincinnati yesterday afternoon. In spite of the bad showing made heretofore by the Windy City bunch, the fans of their home town turned out in immense crowds to watch the game, and most of them had faith that Manager Gleason's team would yet do the trick.

Cincinnati made a poor showing. With seven hits they made but one run and there were four errors to their credit. Chicago on the other hand came back to their old form and played an errorless game.

**New York Times
 Prince Rupert Product.**

A year ago some Prince Rupert people were getting out logs at the Queen Charlotte Islands for the Imperial Munitions Board. The war ended late in the autumn and the spruce logs were sold to the paper mills at Ocean Falls and ground into pulp, rolled into paper and shipped back to this port en route to New York City to print that great American paper The New York Times. A train load of the paper went out yesterday eastbound.

Very soon the same paper will return here printed, and will be sold on the streets. Some of those who read the paper will be the same who got out the logs at the Islands and possibly the same that handled the paper when it returned through this port. Few of them, however, will remember, when they read the paper, that it was their effort which felled the monster spruce trees from which it is made.

New York is over 3,000 miles from this port. The romance of the spruce tree is one illustration of how exceedingly small the world is becoming.

**Prince Rupert Pupils
 Always to the Fore.**

Prince Rupert students are always to the fore at the University. Last year we heard from them often and now again right at the opening of the session they are distinguishing themselves as leaders in the social activities of the institution. The success of our students reflects the value of the school and home life in this city and is a standing testimonial to the calibre of the people that make up this community.

**Manifesto of the
 United Churches.**

A united national campaign is being inaugurated by the Protestant churches of Canada under the patronage of the Governor-General of Canada and with Sir Robert Borden as honorary chairman. A manifesto has been issued by the Primate of the Church of England in Canada, the president of the Baptist Union, the chairman of the Congregational Union, the general superintendent of the Methodist Church and the moderator of the General Assembly of the Presbyterian Church in part as follows:

"At the call and in the stress and strain of the Great War Canada found her soul. Our people, seeing clear-eyed the issues at stake, proved their loyalty to the Christian principles of freedom, justice and mercy—the righteousness which exalteth a nation—and, in a generous devotion thereto, poured out, in unprecedented measure, life, service and treasure. To a great need they made a great answer.

"The rewards are many. We have a better realization of world problems and our place and function therein, and the duty of fitting ourselves to meet the same. Above all, we have an even deeper devotion to the eternal principles of right, and a more heartfelt desire that the Christian message of righteousness and brotherhood should be proclaimed with power, and interpreted and adapted to the moulding of our personal and national life at this time, when so many problems, spiritual, social and economic, confront us.

"It is essential that the Church, upon which in the past has rested the leadership in this work, should rise to the opportunity, make her plans commensurate therewith, take stock of herself, her resources, and her requirements, that she may become efficient for the task."

DUCK HUNTING AND FISHING

Party on Yacht Dorothy S. Had Enjoyable Time in Northern Waters.

The gasoline yacht Dorothy S. which arrived from Alaska on Monday left again for Seattle on Wednesday morning. She has had a very interesting trip through the northern waters with members of the Seaborn Shipbuilding Co. and guests. The yacht belongs to the Seaborn Co. and is registered at Tacoma.

The boat left Tacoma on August 21 and stopped over at Seattle till the 23rd. She then proceeded north and made one call before reaching Prince Rupert, namely, at Union Bay. Leaving Prince Rupert, she went as far north as Sitka and Chicagoff Island, calling on the way at Port Simpson, Ketchikan Hot Springs, Duke Island, Juneau and Tee Harbor. At Tee Harbor, C. N. Seaborn met his old friends, Mr. and Mrs. J. E. Hegaas and Mr. and Mrs. R. E. Douglas. Side trips were made to the Chicagoff mines, Lizy Anski Straits, where great bass fishing was enjoyed, and also a duck hunting expedition was made to St. James Bay. Mr. Hegaas came on board at Tee Harbor and made the trip south.

The following are the names of the crew and guests: C. N. Seaborn, owner and master; Will Andstedt, chief engineer; Jack Thompson, steward; J. E. Hegaas, guest from Tee Harbor; Ole Ericksen, guest from the shipyards, and Herman Miller, chief rigger and overseer of yachts at the yards.

ORGANIZE FOR BASKETBALL

Committee to Meet Agricultural Association Regarding Use of Mall.

A committee representing the basketball players of the city will meet the Agricultural Association tomorrow night along with the committee of the Board of Trade for the purpose of discussing the matter of using the Agricultural Mall during the winter for basketball and other games. This committee which was appointed at the meeting Tuesday night is composed of Williscroft for the St. Andrew's, Clementson for the Drydock, and Johnstone for the Sons of Canada.

It is expected that there will be four teams in the basketball league this year and possibly more.

The committee will report back to another meeting of baseball players to be held in the Sons of Canada rooms on Tuesday, October 14, at 8:30, when all those interested in winter sports are requested to be present.

COLTS ATHLETICS AGAIN TO THE FORE

Beat Rangers at Football and Red Sox at Basketball—Play Again Monday.

The Colts Athletic Association won both a football and a basketball match this week. Yesterday they beat the Rangers at football by a score of five goals to three. The Colts played good football throughout and the Rangers' forward line also played well and made the Colts' goalkeeper feel nervous more than once. George Hill, the Colts' centre, played a great game, being responsible for four out of the five goals. There were quite a number of spectators.

On Monday evening the Colts' basketball team defeated the Red Sox by a score of 10 to 7. George Shaw for the Red Sox kept things lively, as his weight told. The next game will be played on Monday.

At the inquiry held into the death of Henry Mason, the Indian boy who was drowned at Seal Cove was found that he had been drowned accidentally. He was buried at Metlakatla yesterday.

When an invitation is sent it should be on a natty card. We have the very latest in gilt deckle edge just like they use in New York—Daily News Job Department.

We sell Frisbie Engines Complete and ready to install.

FRISBIE

the friendly motor

Frisbie Motors give long, uninterrupted service with practically no repairs except occasional grinding of valves. Valves in cages; accessible in a few seconds. An "all muscle" construction throughout, every part designed for hard work. Overhead valves, opening directly into combustion chambers. No pockets or crevices to gather carbon, and waste fuel. This type of construction effects a gain of

15 to 20 per cent. more power

than is possible with L or T-Head designs. Intake and exhaust manifolds are cast integral with the cylinder; miles ahead of the old, leaky, bolted-on manifolds. Large valves insure full charge on the intake and a complete, clean exhaust.

1 to 6 CYLINDERS—5 to 75 HORSEPOWER

Frisbie Motors are made in following sizes: 1-cyl., 5 and 7 H. P.; 2-cyl., 10 and 16 H. P.; 3 cyl., 18 and 25 H. P.; 4-cyl., 30 and 40 H. P.; 6-cyl., 50 and 75 H. P.—Bore and Stroke, 4 3/8" x 5" and 6" x 6". For work or play, the Frisbie will measure up to your hardest tests.

In the Letter Box
SUNDAY CONCERTS

To the Editor:—
Your correspondent, J. F. Maguire, seems to have joined you and your army of Sabbath breakers. First your paper advocates the playing of baseball on Sunday afternoons, then you publish an article advocating all sorts of sports and games on Sunday, and now your correspondent would secularize the Sabbath evenings.

What are we coming to? I expect to hear next that someone is about to advocate the doing away with Sunday altogether and the closing of the churches. This truly is an age of lawlessness and desecrators. There is no respect for the rights of the person, for property rights or for the law of God. It is an age when the Bible is discarded from our schools and everyone does that which is right in his own eyes, even to the importing of whiskey contrary to the law of the land.

I am told that we have a wide open town here in Prince Rupert and is it any wonder when there is no respect for the Lord's Day or for any of the ordinances ordained by the scriptures. Laxity of morals and laxity of Sabbath keeping go together. I should much like to see a newspaper in this city that would fearlessly come out on the side of the Lord and help to rid the city of those who would lead others astray.

If you can publish this letter, sir, you will be showing that you are not altogether as bad as we think, but I hardly expect you will do it as you seem to be carried away with these new doctrines which you call "tolerance" and "broadmindedness." Would it not be more effective if you advocated holiness instead?

CHRISTIAN.

SEEING THE SITES

Editor The News:—
In most large cities "seeing the sights" by tourist car is one of the ways in which the stranger within the gates is entertained. In Prince Rupert the cars are available, also the sights, but the cars cannot climb mountains without roads, neither can they swim, so to a certain extent their value is negated.

As an alternative "Seeing the Sites" might provide a welcome pitney or two to the taxi man and pass a pleasant afternoon for the visitors. They are numerous enough—the G. T. P. hotel site, the court house site, the armory site and the site of the telephone exchange. These will do to go on with.

Arenas for Athletics.

The Board of Trade proposal to use the Exhibition Hall as a gymnasium, etc., has suggested the brilliant idea of using these sleeping assets as arenas for the athletes of our fair young city.

The site of the magnificent how-many-million-dollar hotel has provided many a rosy dream for the citizen, but after having gazed at the sky-scraper in its inverted form for so long a period the oldest inhabitants have their doubts. As an arena for sport the site is favorably comparable with anything ancient or modern and there is less imagination required to picture tiers on tiers of spectators at a keen football or baseball game than in visioning on a hotel. A lease of seven years should easily be obtained. The hole in the site could be used as a "funk-hole" for the referee.

Another "Funk-hole."

The court house site is at present used for games, but a long lease might be acquired. The telephone exchange and post office sites can be used to advantage for tennis and though it is doubtful whether it is necessary in that polite sport, there is also a funk-hole for an umpire or a disappointing partner.

The armory site is less known to the people. Its original purpose was to train men to shoot Huns and such-like, but when the League of Nations has ended war, shooting goals or spit-balls might very well substitute.

Together with a golf course on the top of the mountain, the prospects for athletic activity in Prince Rupert are bright. With such a variety of outlets even Sunday sport might be carried on, as neither the mayor nor Jennie Smith could properly supervise them all.

Yours for more sport in Prince Rupert.

BANK CLEARINGS ARE ON INCREASE

Remarkable Expansion Asserting Itself—Canadian Business Far Outgrows Pre-War Standards.

Month by month this year's record of bank clearings has exceeded the same month of last year. And 1918 was a record year for Canadian business, when we were heavily engaged in extremely large war orders and were blessed with great production from field, forest, mine and factory.

Nineteen-nineteen's bank clearings, which are a reliable index of the business being done in the country, should reach fifteen millions. For two-thirds of the year the figures obtainable show the total the thinnest shade under billions.

A comparison month by month with last year is here given. The figures, for the sake of brevity, express millions only:

Month	1918	1919
January	1,022	1,193
February	838	1,008
March	959	1,121
April	1,125	1,212
May	1,138	1,413
June	1,139	1,340
July	1,114	1,410
August	1,072	1,296
September	1,042
October	1,373
November	1,433
December	1,515

Total ... \$13,776 \$9,996

Run the eye across these monthly figures and a continuous expansion in Canadian business is observed. Also that the Victory Loan 1919 will be a wonderful success if each man and woman has a Canadian's share in buying the bonds.

Bank clearing records show that in 1909 the total clearings were \$5,204,957,530, only a third of this year's estimated totals. The best year before the war, 1913, the clearings were \$9,275,000,000. This country will never again be on a pre-war footing. Business has outgrown the old standards.

NIGHT-HOUR DAY NOW IN HOLLAND

Unanimously Passed by the Legislature at Capital of Netherlands.

The Hague, October 8.—The night-hour day is now an accomplished fact in this country. The government bill passed the legislature almost without opposition, providing for an eight-hour day and a 45-hour week in the factories, workshops and offices.

Postoffices, telegraphs and telephones are excluded from the scope of the measure.

Two other bills will be introduced, one limiting dock labor to eight hours and the other establishing an eight-hour day for agricultural laborers in winter and ten hours in summer, except harvest weeks when men and women will be allowed to work twelve hours.

EMPLOYMENT AGENTS GO OUT OF BUSINESS

All private employment agencies operating in British Columbia will cease doing business on November 1. After that date provincial employment bureaus located in all parts of the province will look after the workers, who will not be charged any fee for the service given. An end will thus be put to one form of exploitation that has extracted many thousands of dollars yearly from the loggers of British Columbia.

IMMENSE RAFT OF NORTHERN B.C. LOGS

The largest Davis raft ever handled in British Columbia was framed up last month at Atli Inlet, Queen Charlotte Islands, and towed to the Swanson Bay plant of the Whalen Puly & Paper Co. It was 275 feet long, 85 feet wide, 10 feet deep, and contained 1,000,000 feet, board measure, of spruce logs. The largest Davis raft previously handled held 1,000,000 feet.

The Why? of Another Victory Loan

WHEN, on the morning of November 11th, 1918, the guns were hushed and glad tidings flashed across the world, there followed with the Nation's Prayer of Thanksgiving, one yearning query, which found echo in the faster beating hearts of wives, mothers, fathers, brothers, sisters and sweethearts. That query was, "How soon will our boy be home?" And, from France and Flanders, from Italy and Egypt, from Palestine and from far-off Siberia, there came an answering echo, "How soon, how soon, may we go home?"

CANADA caught the spirit of these longings, and at once resolved to satisfy them. It was an appalling task. Shipping was tragically scarce. The composition of the Army of Occupation had not then been settled. And other parts of the Empire as well as Canada were looking for the speedy return of their men.

THE problem was this. The half-million men that Canada had overseas had taken more than four years to transport to the field of battle. To bring them home in a few months was a gigantic undertaking—one to tax all Canada's ingenuity and resources. Canada solved the problem, but it meant crowding into a few short months, an expense for demobilization which it was impossible to foresee.

THEN, too, besides the sentimental aspect of the necessity for bringing the men home quickly the economic side could not be overlooked. That was, to transform efficiently and speedily the nation's army of fighters into a national army of workers.

Need Divides Itself in Two Parts

The answer to the question "Why does Canada need another Victory Loan?" divides itself into two parts.

(a) To finish paying the expenses of demobilization, and the obligations we still owe to our soldiers.

(b) To provide national working capital.

These national expenditures are war expenses. They will be accepted readily by every citizen who gives thought to the task which Canada faced following the Armistice, and to the success with which she has met it.

Obligations to Soldiers

The obligations to soldiers include: That already incurred cost of bringing home troops from overseas.

The payment of all soldiers still undemobilized. This includes more than 20,000 sick and wounded who are still in hospital, and who of course remain on the Army payroll till discharged.

The upkeep of hospitals, and their medical and nursing staffs, until the need for them is ended.

These three items alone will use up at least \$200,000,000 of the Victory Loan 1919.

Gratuities

There is also the gratuity which has been authorized, and has been and is being paid to assist soldiers to tide over the period between discharge and their re-adjustment to civil life. For this purpose alone, \$61,000,000 must be provided out of the Victory Loan 1919, in addition to the \$59,000,000 already paid out of the proceeds of the Victory Loan 1918.

Land Settlement

Furthermore, soldiers who desire to become farmers may, under the Soldiers' Land Settlement Act, be loaned money by Canada with which to purchase land, stock and implements. The money so advanced will be paid back; meantime each loan is secured by a first mortgage. Up to August 15th, 29,495 soldiers had applied for land under the terms of this Act; and 22,281 applications had been investigated, and the qualifications of the applicant approved. For this purpose Canada this year requires \$24,000,000.

Vocational Training

For this work which, with the Vocational Training and Soldiers' Service Departments, embraces the major activities of the Department of Soldiers' Civil Re-establishment, an appropriation of \$57,000,000 is necessary.

National Working Capital

Canada needs national working capital, so that she may be able to sell on credit to Great Britain and our Allies the products of our farms, forests, fisheries, mines and factories. You may ask "Why sell to them if they can't pay cash?" The answer is, "Their orders are absolutely essential to the continuance of our agricultural and industrial prosperity."

The magnitude of these orders and the amount of employment thus created, will depend upon the success of the Victory Loan 1919.

The "Why" of Credit Loans

Farmers and manufacturers (and that includes the workers on these orders) must be paid cash for their products. Therefore, Canada must borrow money from her citizens to give credit, temporarily, to Great Britain and our Allies. Actually, no money will pass out of Canada.

If Canada does not give credit, other countries will; and they will get the trade, and have the employment that should be ours, to distribute amongst their workers. And, remember we absolutely need these orders to maintain employment. If we don't finance them business will feel the depression, employment will not be as plentiful, and conditions everywhere will be adversely affected.

For Transportation

Money must also be available to carry on the nation's shipbuilding programme, and other transportation development work.

For loans to Provincial Housing Commissions who are building moderate priced houses.

These, then, are some of the things for which Canada needs national working capital. She is in the position of a great trading company, and her citizens who buy Victory Bonds are the shareholders.

Those who give thought to our outstanding obligations to soldiers, and to our need for national working capital, cannot fail to be impressed with the absolute necessity for the

FAIR ASSOCIATION MEETS TOMORROW

A meeting will be held in the offices of the Agricultural Association tomorrow evening to pass accounts for the current year. As soon as these accounts are in and passed the secretary will be able to get the books finished up and obtain a definite idea of what his year's actual balance will be. Since the annual meeting some other unforeseen statements have been handed into the office which may reduce the expected balance somewhat. The board will also meet the delegation from the Board of Trade which is asking for the use of the hall as a gymnasium.

HUNTERS PREPARE TO GO AFTER DEER DURING THE COMING HOLIDAY

Great preparations are being made by a number of nimrods to make havoc with the deer in various parts of the district on Thanksgiving Day. Some parties have planned to spend two or three days in the woods or on the mudflats awaiting the elusive duck and goose.

Porcher Island is the prospective hunting ground of several parties and Smith Island and other islands in the neighborhood will also be visited.

FISH ARRIVALS AT PORT OF VANCOUVER

Fish receipts during the week-end have been somewhat heavy, says the Vancouver World of Monday last. The Celestial Empire headed the incoming fleet on Saturday with a catch of 30,000 pounds of salmon and 7,000 lbs. of mixed cod. The Imbricaria arrived on Sunday with 125,000 lbs. of salmon. The Hulda O. had 25,000 pounds of salmon. There are also numerous smaller craft bringing in catches ranging from 5,000 pounds up to 25,000 pounds.

SAVE YOUR SIGHT

EYESIGHT—The most valuable of all the senses—is the most neglected and the least understood. Many suffer from ills, which, upon examination, can be traced directly to defective eyesight.

THE removal of the cause will often restore the delicate and run-down sufferer to robust health. When glasses are properly prescribed, they restore the vision to normal and eliminate all eye strain.
