## GIVENHIS FURS BACK

Order of Local Justice of the Peace Is Reversed By Vancouver Supreme Court Judge

Furs valued at \$3,000 have been Seattle, 26,000, Pacific, 13.5c and recovered from the crown by David Roy Stein, Vancouver fur buyer, Superior, 28,000, Atlin, 15.7c and who succeeded in Supreme Court in Vancouver last week before Mr. Justice Fisher in having quashed an order confiscating the pelts. The skins, including 84 beaver, six otter, six marten, three mink and 11 muskrat, were ordered confiscated by W. E. Collison, justice of the peace, in Prince Rupert after Stein had been convicted on a charge of buying pelts which had been taken from animals killed during a close season, and fined \$50.

The confiscatory order was attacked in certiorari proceedings on the ground that it had been made without jurisdiction because Mr. Collison, sitting as a justice of the peace, had no power to make it.

#### HUMAN WELFARE

This is an age when people are turning their attention more to the prevention of disease than to its cure. The first work of any true philanthropist is to make the world safer so that human life may attain its highest possible development.

It is difficult to do this in an age when customs and habits are changing so rapidly. At one time people walked a great deal and thus developed physically as a result of the exercise and the inhalation of plenty of fresh air. Then came the automobile which cut down the walking to a minimum and there was danger of a very great shortening of the average life, but immediately there developed an antidote in the golf links. Golf became an obsession with the tired businessmen who had almost forgotten to walk to and from work. It took its place and added exhiliration to the exercise thus giving much better results than the ordinary hike.

It is probable that golf was not developed as an antidote to the motor car but it has proved to be an excellent one. Thus does nature help man, even in the face of a crushing Jake says that if the post office

civilization. The difficulty with this modern civilization is that the use of modern machinery has increased the risks and the any rate, they could not be worse building measures 24 by 40 feet and use of modern food has to some extent at any rate increased the diseases resulting from their uses. Changed conditions also have had their effect so that today we have a large section of the people enjoying healthful exercises my stamps to stick when I lick 'em. and keeping themselves fit while a serious wastage is go- them. ing on all the time, largely as a result of modern conditions. To care for this wastage is part of the work of the physician and surgeon and his workroom is the hospital.

#### NEED OF THE BEST

While many who go to hospitals are the victims of their own foolishness, many are the more or less innocent victims of the conditions under which we live. They constitute a large section of the community and accommodation has to be provided so that they may get the best possible treatment and be returned to their accustomed place, able to carry on their work.

With the change in modern conditions, the use of mo- ful to say that we have no street dern appliances and the increase in knowledge, physicians car problem. and surgeons are able to accomplish marvellous cures if they have the conditions right. In this way some of the What I like about modernism is human wastage is salvaged. To do this commodious and

well equipped hospitals are necessary. Prince Rupert has a useful country hospital but it is not just the same as the winter. up to the standard required for the best possible work. The American College of Surgeons has been drawing attention to this following its annual inspection each year for a number of years. It is omitted from the approved list,

which is a slur upon the institution and the people who How We Lost provide it. What is needed today in Prince Rupert is a new hospital, well equipped. How it is to be obtained we are not suggest- a Customer ing, but it must come soon if we are to do our salvage work

properly. As long as we continue conditions which produce human derelicts we must be prepared to give proper attention to their rescue and recovery.

#### SMITHERS

The report is heard here that a decision has been reached by the Canadian Pacific and Canadian National Railways in regard to the Peace River outlet and that it will come out to the Canadian National at Burns Lake. It would be a big thing for the central interior and Prince Rupert if the dutlet should come out there but, of course, it is only a rumor.

On Tuesday afternoon Mrs. George H. Wall and Mrs. McIntyre were hostesses at a fruit and pickle shower for Mrs. Cliff Warner and Mrs. Alex McLean, recent brides of

#### DEPARTMENT OF TRADE AND COMMERCE OTTAWA, CANADA

October 18th, 1930.

To Canadian Citizens, Everywhere in Canada.

#### Do You Want More Branch Factories?

What is a factory worth to Canada, that gives steady year-round employment to five thousand hands?

It depends upon where it's located, doesn't it? If it's located in Canada, it's worth a small fortune to us. But if it's located at our very borders, but still outside of Canada, it may be worth nothing at all to us. In any event, it is almost certain to be worth far less than the branch it might be persuaded to establish in Halifax, or Vancouver, or any point in between, even though that branch gave steady employment to only fifty hands!

No matter where they locate in relation to where we reside, we're always delighted to hear of branch factories being established in Canada, because of the employment they create for Canadian labour, the market they provide for Canadian farmers and Canadian merchants, and the business activity they stimulate in countless ways and in countless quarters.

Thus far, in our efforts to promote their establishment within our borders, we have made use of but one lever our tariff. For a time it proved to be a very effective lever. During the period preceding the war the harvest was considerable. But of recent years the annual crop of branch factories has been lean-quite disappointingly so when we reflect that the justification for their establishment should be greater than ever before, due to the fact that our a lalimports of merchandise keep steadily increasing.

Isn't there something that each of us as individuals might do to help get the movement in full swing again? Suppose we steadfastly refused to buy merchandise that we knew to have been imported, wouldn't that cause a lot of these outside manufacturers to reconsider their plans?

Not long since, the manufacturer of an imported product, the annual sale of which in Canada runs into millions of dollars, boasted that no action this country might take would ever force him to establish a branch factory here. When he said that he was, of course, thinking only of one kind of action-tariff action! And feeling secure in the advantage of a low manufacturing cost obtained through mass production, he probably had some justification for believing that his hand could not be forced.

But he overlooked one very important point. And that is that while Canadians have always shown themselves a very tolerant people in their attitude towards imported merchandise, they are quick to resent unfairness of any kind when practised against themselves.

Now that particular manufacturer buys no materials from Canada. The workmen he employs buy nothing that has been produced in Canada. From the operation of his huge industry the people of this country derive no profit whatsoever. Why then should they continue to buy his product when there are available to them at equal prices products of the same kind, and of just as good if not better quality, that have been made in Canada?

Not only that particular manufacturer, but scores of others, could be forced to open up branch factories in this country under pain of losing their entire Canadian business, if each and every one of us, before completing a single purchase, were first to make absolutely sure that the article had been produced in Canada!

Very sincerely yours

Minister of Trade and Commerce.

# Behind the Stockade

HE great new head office structure of the Sun Life Assurance Company of Canada in Montreal overlooks the original site of the Indian village of Hochelaga ... the palisaded capital of the warlike redskins which Jacques Cartier found at the foot of Mount Royal. Nearby still stand the stone towers where the women and children of the white settlers took refuge.

(It is significant that the headquarters of the world's greatest international company for the protection of the home by modern methods should be located where the first settlers gathered in blockhouses and behind stockades to defend their families against their savage foes.

When days were most dangerous it was behind the stockade that the pioneers sought safety and shelter for their loved ones. Today, under trying business conditions, it is to the sure and tested

protection of life assurance that prudent men everywhere increasingly turn.

(In proof of this, during the first nine months of this year, the new business of the Sun Life Assurance Company of Canada was over \$50,000,-000 in excess of that of the corresponding period of the great boom year of

(In times of stress, as well as of prosperity, Sun Life policies solve both business and personal problems.

Rime Edward High School Wins From Borden Street

In the Junior League soccer game played Saturday afternoon at the Exhibition grounds, King Edward High School won from Borden Street School in the best match slayed to date between these teams: The score was four to one. The sunger boys showed great imgovernment and were really effecine against the high school team. Having now proved that the high ecitori gral is not impregnable, Borhem is looking to the next game with eagerness and confidence.

With the wind in their favor the High School pressed right at the start but the Borden fullbacks wiseconceded a corner and soon had the tables turned. The opposing forward lines took turns in well comceived attacks with Wilson showing to good advantage for Borden and Marshall for High. The outside salf players for the seniors were ound wanting because they did not vs. Grotto, Wanderers vs. I. O. O. F. Peach" as he slides towards a base rush forward to meet the oncoming with spikes sparkling like bayon- line but hesitated and retreated. ets! Ty was as explosive as TNT and However, Walters and Davies made would fight, win or love, on the up for this lack of aggressiveness. Moose vs. I. O. O. P., Grotto vs. Leif field, under the stands, in the dres- On the other hand, all three of the ing room or on the street. What a Borden halfbacks, Nakamoto, Har-"will to win" that boy had! The dy and Currie, were noteworthy for kinetic Cobb was even more fiery their vigor, Hardy and Nakamoto than Babe Ruth and everyone were always on the jobs meeting the linews the "Bam" is always in there danger with decision and frequentfightin' every minute! Baseball by turning a High School rush into through the year has produced a Borden advance. In several such amore starring fighters perhaps than cases the ball was sent to the right Wanderers vs. Grotto, Canadian Le- Madison Square Garden. Borden came golfer, Archie Compston. Most sport | :ight back in fierce attack trying to earnest when trying to win. The centre from Lindsay, Wilson made "man-killing" mood is always the a wonderful shot that Suehiro was hard to-win. All of which may prove lien forwards did not show their The Borden goalie was now called on several times to show his worth. He made a clear headed save when he left his goal to rob the whole opposing forward line who were sweeping in on an open goal. Williscroft broke the next attack when Cross was coming in with a long pass from Walters. Again the High forwards came in showing splendid combination. Welle passed to Cross who quickly sent it to Marshall. The latter made a beautiful shot but Mergan was right on the job to make a wonderful save, although both Hill and Cross were rushing in on him. Hardy cleared the next threatening ball sent in front of the Borden goal by a perfect centre from Fisher but Blake secured it and made a sure pass to Cross who scored the second goal for High. Borden was not downhearted. Their left wing now took up the attack, showing neat footwork. Campbell initiated a rush with good co-operation from Dungate and Naylor, However, Bridden and Ar- od but Campbell was quicker than ney were showing to better advanage than at first and Blake, Davies and Walters were as sure as ever. The half ended after two Borden attacks, Wilson rushing in hard with well placed passes from Dungate. Davies turned the first and Suehiro was forced to use sound judgment on the second when hard pressed by Lindsay's follow-up-

SAFETY'S TEN

COMMANDMENTS

First: Thou shalt have no other thoughts but thy work.

Second: Thou shalt take no unnecessary risks, nor try

to show off, nor play practical jokes, for by this careless-

ness thou mayst do injury which will have effect unto the

Third: Thou shalt not swear nor lose thy temper when

Fourth: Remember thou art not the only one on the job

Fifth: Honor thy job and thyself that thy days may be

Sixth: Thou shalt not clean machinery when it is in mo-

Seventh: Thou shalt not watch thy neighbor's work, but

Eighth: Thou shalt not let the sleeves of thy shirt hang

Ninth: Thou shalt not throw matches nor greasy waste

on the floor, nor scatter oil around the bearings, as a dirty

worker is a clumsy worker and a clumsy worker is a men-

Tenth: Thou shalt not interfere with the switches, nor

the dynamos, nor the belts, nor the cables, nor the engines,

nor anything else thou art told is dangerous.

loose, nor the flaps of thy coat to be unbuttoned, as they

may get caught in machinery and thereby do great bod-

and that lives of others are just as important as thine own.

third and fourth generations to follow.

things do not go just right.

long in employment.

attend to thine own.

ace to his fellow workers.

tion.

ily harm.

## In Prince Rupert

October 20, 1910 The Men's Bible Class held an enjoyable social last evening in St. Andrew's Church Hall. W. H. Mitchell, the president, opened the proceedings. Those contributing to a musical program were Mrs. Archer, Miss Barker, Miss Craig, Mr. Clark, Mr. Mellior and Rev. W. G. James, the accompanists being Miss Ward, Miss Ellett and Miss Froud. There were monologues by J. G. Weston and a recitation by Rev. T. S. DesBowers. S. M. Newton gave an appropriate speech.

A sharp squall which came at the peak of a high tide yesterday afternoon did minor damage along the local waterfront. Among the places affected were the Robinson and Davis boat houses, Alfred Swanson's float and the Westholme Lumber Co. wharf.

Ald. V. W. Smith returned to the city yesterday after having spent a three weeks' vacation at his ranch near Camrose, Alta. He also paid a visit to Port Mann, the proposed terminus of the Canadian Northern Railway.

## Sore Throat

SORENESS or inflammation of throat often leads to larnygitle and bronchial catarrh. Peps tablets are the speedy, soothing remedy. The medicinal fumes given off the dissolving Peps, destroy mischievous germs, end soreness and irritation and purify and invigorate the whole of the breathing passages. A Pops in the mouth beeps infection out !

INFECTION-KILLING TABLETS

## Twenty Years Ago | DEPRESSION

"I'm a different woman"

"Two years ago I began to get depressed, and everything was too much trouble for me. I was a misery to myself and everyone around me. I was advised to take Glauber Salts by my friends who said it was the same as Kruschen but it did me no good, so at last my husband got me a bottle of Kruschen and no one would realise the different woman I am. I have been taking Kruschen now constantly for two years. My daughter also would not be without it. I have got my neighbour to take Kruschen as well and she has found its worth as she feels a different woman." -(Mrs. G. A. K.)

The commonest cause of depression is partial constipation—an insidious complaint because the sufferer is seldom aware of it. It means the gradual accumulation of body poisons which dull the mind, damp the spirits, sap the nervous strength and lower the whole vitality.

Kruschen Salts make constipation impossible. Therefore, if you keep to Kruschen you need never know the meaning of melancholy; never feel "nervy" or depressed.

# Valuable Book

Gazetteer of British Columbia Interesting to Geographists

complete and valuable one. The ergreens. work has been carefully prepared by the Chief Geographer of the De-Aitken, and his staff; and comprises a list of all recorded placenames, cities, towns, post offices, ivers, lakes, creeks, mountains and other geographical features, the location being shown in each case by the latitudinal and longitudinal po-

addition to their libraries.

291 pages. There is a very interest- Limited, Druggists. ing preface in which short, concise descriptions are given dealing with early history, settlement and physiography.

Describing Prince Rupert, the Gazetteer says that this is a city of 7,500 population and the Pacific terminus of the Canadian National Railways. The geographical location is given in detail and the dist tance north of Vancouver is given 22 at 477 miles. The business institutions of the city are enumerated and there is much other information of a geenral nature.
