# New School Building Will Soon be Required Says Inspector Fraser

Stating that the High School and Borden Street School were already overcrowded and that every room in Booth Memorial School was full, H. C. Fraser, inspector of schools, told the local school board last night that it would soon be faced with the necessity of building another school here. It might be possible, he suggested, that a Junior High School would fill the bill.

Mr. Fraser was referring particularly to overcrowding n Divisions I. and II. of Borden Street School. There were

47 pupils of eleven different nationalities in Division I. and the CLARENDON IS situation was much the same in Division II. The school was handicapped as long as it did not have a third teacher, so these grades could be brought up to the standard they should enjoy. As it was, it was impossible for two good teachers to do ca, Succeeding Earl of justice to the work. There was the Athlone difficulty that the ninth division

### MOVING FOR PEACE

(Vancouver Sun)

The voices of the peace parley delegates that came over the air to the listening world this morning were the voices of the liberal-minded people of the earth. The meeting of these delegates in London today is not so much a meeting to devise disarmament machinery, as a broad gesture of impatience with those broken-down modes of thought that lead to war.

With the possible exception of Italy, all nations taking BURNS LAKE part in this conference are eminently Liberal in politics BURNS LAKE and in attitude. And Italy, reactionary though her political philosophy may be, is at present electrified into progressive thinking by the personality of Mussolini.

The very presence of a man like Ramsay Macdonald at Tournament of Ominica Ski Club City Championship Tourney Well Johnny Cuthbert in the ring. this conference, in the role of British premier, is indicative of the potency of the new Liberalism. It is a long distance from a cottage in Lossiemouth to the council chamber of the world's great powers. And the same thing that brought Ramsay Macdonald to power, brought about this present sweeping gesture of peace.

It is a great humanization of ideas, a great new honest striving towards a fair-dealing that are setting the twentieth century apart from all other centuries as a pe- trom's ranch to Burns Lake, in the having qualified for the final. riod dedicated to progress, not only by the everpresent Ominica Ski Club's tournament Games played last night resulted as grace of God, but by the newly-acquired grace of man.

Fifty years ago when a statesman went to a foreign country to negotiate a treaty, he left with specific instructions from his sovereign. Stimson and Ralston left North America with instructions from no sovereign but with the petitioned will of the people of this continent for peace.

This is the age of Liberalism. It is an age within which Liberal nations will survive and conservative, imperialistic and militaristic nations will decay.

And those nations that cannot and will not make open condition making the mourse in treaties of honest purpose, those nations that are not in four hours and thirty-five minutes this protest against outworn conservative thinking are followed by Gotaas, considered the Nicholls beat Mrs. A. # Full Speed Ahead

Many people do not realize that the Northern Power Company, a subsidiary of the Power Corporation of Canada, is really constructing a large hydro-electric plant to serve the city of Prince Rupert and adjoining territory. The site for the plant is being prepared and the right-of-way for the high-power lines connecting Big Falls on the Ecstall River with the city 15 being cleared and that during September next it is expected to turn on the power from the first unit.

What does this mean to Prince Rupert? It means that the largest power corporation of Canada has faith in the future of the city and dis trict and already sees a market for its product.

Under the impetus of the new movement, Prince Rupert will grow. Industries will be developed and all will feel the benefit.

Prince Rupert people must prepare for the change. New buildings will be necessary. If there are no vacant houses in the city today, what will be the condition when people be gin to come in?

The Daily News is alive to the sit-uation and is laying its plans. Others must do the same if they are to keep pace with the new Prince Rupert.

School Board Brings High School Salary Schedule in Conformance With Vancouver

2.8 S12.8 ----

Strong representations on behalf of the teachers being made by H. C. Fraser, inspector of schools, the school board, at its meeting last night, decided to place High School teachers of this city on the same salary with respect to yearly increment and maximum as prevails in Vancouver. Public school teachers already have a schedule similar to that in Vancouver and the High School teachers thought they should receive the same treatment. Their request was presented in a letter which was read by the principal, D. H. Hartness. After considerable discussion, their request was met and a yearly increment of \$100 and maximum salaries of \$3200 cipal provided for.

der the existing schedules, the High School teachers were discriminated against. Grade teachers had been placed on a level with Vancouver, while the maximum for High School teachers was \$400 below Vancouver. If the proposed schedule were adhered to, it would be difficult to keep teachers here. At present there was a fine staff of teachers in the High School and conditions in the school were excellent. He hoped the necessary adjustment would be made in the schedule a that the staff might be kept intact.

Trustees Thompson and McAfee agreed that it was important that good teachers should be given some ncentive to stay here. On motion of Trustee Barrie, seconded by Trustee Thompson, it was decided to increase the High School salary in conformance with that of Vancouver.

Alex McRae returned to the city on this afternoon's train from brief business trip to Terrace.

No Decision Given Last Night in Regard to Grand Trunk Development Acerage

The question of whether there should be a reduction in the assessment on the acreage property of the Grand Trunk Pacific Development Co. and if so how much that reduction should be was discussed at length last night at the meeting of the civic court of revision with R. R. Nicholl, assistant taxation commission for the railway company.

Alderman Collart stoutly maintained that there should be no reduction but Mr. Nicholl stated Put up only by The T. Milburn Co., that he had been promised by last year's mayor that he would be iven a reduction and that last year's values were accepted on that understanding. Now the reduction given had been only fourteen per cent. The company which he represented would certainly appeal to the courts if
